## MYSORE PLANTERS

### HONOUR DR. COLEMAN

(Continued from Page 1)

parts of India is another example of his zeal and untiring energy.

"The establishment of the many experimental farms in Mysore is due to his foresight and energy and the coffee industry has derived the greatest benefit from the coffee experimental station which owes its inception and valuable work to his wise advice and the inspiration he gave his staff. We are fortunate in having a lasting memorial of him in this station.

"He was largely instrumental in developing the Hebbal Agricultural College and, in conjunction with the Mysore Agricultural Department, in improving strains of sugar-cane, paddy and ragi and in increasing yields by from 5 to 20 per cent. His work alone has brought several more lakhs of rupees into the pockets of agriculturists and promises many more as the work extends. The coffee planter is also benefitting already by large sums annually as the result of the work of the coffee experimental station. The new sugar industry in Mysore owes its inception and success entirely to the Mysore Agricultural Department and to Dr. Coleman's technical knowledge and administration and to his tireless energy through good or bad health."

The following testimonial accompanied the gift presented at the meeting to which Dr. Coleman's Toronto friends were invited:

To  
Leslie C. Coleman, C.I.E., M.A., Ph.D.  
Late Director of Agriculture in Mysore  
This presentation is made to you by us, your friends in India, as a means, admittedly inadequate, of expressing our appreciation of and gratitude for your twenty six years' work in Mysore over our affection for you, and our very real and great regret at your leaving us.

The Anti-War Society will be known henceforth as the Student Peace Movement, the meeting decided. The change was explained to *The Varsity* by Angus Blair: "The former name has consistently met with considerable disfavour because of the negative character which the uninformal (and misinformed) were all too prone to ascribe to it and because, somehow, some sense in it a smacking of communism. Since the policy of the society is a constructive one and its membership composed, for instance, of many more members of the Student Christian Movement than Communists, it was strongly felt that in order that the society be interpreted justly and accurately, the name Student Peace Movement should be adopted.

A list of articles for the publication to be issued about the first of February was assigned. These will include one is invited. Members admitted by membership card.

**SATURDAY, JANUARY 26**

7.30 p.m.—Boxing meet with Syracuse University at Hart House.

Annual At-Home of the Eta chapter, Beta Sigma Rho Fraternity at the Roof Gardens, Royal York Hotel.

**MONDAY, JANUARY 28**

4.30 p.m.—Women's Union, Interfaculty debate between Trinity College and St. Michael's College. St. Michael's will uphold the affirmative. Subject: "Resolved that the present censorship of the movies is eminently unreasonable." Refreshments will be served. Everybody welcome.

**THURSDAY, JANUARY 31**

8.30 p.m.—Le Voyage de Monsieur Perichon. Annual play by U.C. French Club in Hart House Theatre.

**FRIDAY, FEBRUARY 1**

C.O.T.C. annual ball.

**SATURDAY, FEBRUARY 2**

Charity ball, Omega chapter, Sigma Alpha Mu Fraternity. Crystal Ballroom, King Edward Hotel. Ferde Mowry and his orchestra. Floor show.

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at either the men's office in Hart House, or at the women's office in University College. No notices will be taken over the telephone, after 6 p.m. Notices must be taken to the Press Building. Notices for the Bulletin Board are limited to ONE insertion only.

### 375 VICTORIA

By special request the senior spring party will take the form of a masquerade to be held in Wymilwood, Saturday, Jan. 19th, 7.45 p.m. To make the party a success everyone should try to come in masquerade dress.

### V.C.U. OPEN MEETING

All Victoria College students are urged to attend a meeting of the V.C.U. on Friday, Jan. 18, at 5 p.m. in Alumni Hall, to consider proposed changes in the constitution and in the senior reception.

### TRINITY DRAMATIC SOCIETY

Meeting of the Trinity College Dramatic Society, 8 p.m., Wednesday, January 16, in Room IV of Trinity College. Play and refreshments.

### VIC MUSIC CLUB

Any members wishing to help with the make-up in San Toy should be out for a lesson in Room 14 of the college on Thursday evening at 8.

### VICTORIA ATHLETIC AT-HOME

Dinner in Burwash Hall at 7 p.m. and a dance in Wymilwood from 8.15-12.30 p.m. Friday, Jan. 18th. Hal Taylor's orchestra. Tickets go on sale in college hall 1-2 p.m. Wednesday. Get yours early.

## 'TWIXT TWO

### PACIFISM

My Dear Ted—

For the present, the golden mean for you—but you will have opinions in the future. If I remember you quoted the other day—"There is no past, there is no future, there is only the present." At least it is an easy way out. Is this your general attitude? Can you tell me what possible reasons people can have for being pacifists?—don't say that it is because they hate war. Don't we all detest war? But what good is it going to do to be a dyed-in-the-wool pacifist? It seems to me, that in order to make it workable, you must certainly have a major-

ity of pacifists, and to me, that seems an impossibility.

Do you remember, in "Prelude to Chaos" the scene with the "conscientious objector"? I'll never forget the agony that man suffered for his ideals—it must have been terrible. Under the circumstances how are you going to persuade the average man that he must not fight? You will almost certainly have public opinion against you.

I am not running down the Anti-War Society, or any of those who work against war, but I am against pacifists—those who absolutely refuse to fight under any circumstances. Nobody likes war, but I think there are some things worse than war.

—Phyllis.

of continuing the study of classics after graduation. "There are," he said, "plenty of openings for well qualified teachers, since there are 35 per cent of the teachers in the province with no qualifications for teaching." To be successful the teacher must view his work as other than a means of livelihood. He must have a creed—a creed that classics is a study of unique culture.

"Another inept fact in curriculums are text books," it was claimed. Mr. Bennett paid a compliment to Professors Robertson and Carruthers for the splendid text book now used in the collegiates of the province.

The programme was given an amusing touch by the presentation of a parody on Greek Tragedy by an all male cast, and several numbers by the newly formed Quartet. The meeting was brought to a very successful conclusion by an open discussion in which a great part of those present participated.

**SUPREME COURT MAY UPSET N.R.A.**  
(Continued from Page 1)

It would be almost certainly a reversal. It is expected that the court will recognize the consequences of such a decision and will so interpret its verdict that payment in legal tender will still be possible.

The effects of an adverse decision result from the fact that the present advanced price of gold would require an expenditure of about \$150 for every dollar of the original debt.

Mr. Bennett stressed the importance

## PSYCHOLOGY TESTS

### ARE NOT FOR ONTARIO

(Continued from Page 1)

the test correctly. Also as matriculation is written for such a large number of purposes, the psychological test would probably be wasted in most cases. He thought that the tests would probably be of such a character that they measured general knowledge, rather than personality.

Professor Sandiford, professor of educational psychology, is a firm believer in such tests but does not think they will be used in Ontario for some time to come. A scheme for tests of this character was worked out here a few years ago but was turned down by the Board of Education.

At the Ontario College of Education a series of comprehensive tests, measuring achievement rather than intelligence, was given at the opening of the session, and the results will be carefully checked with the results of the June examinations, the term records and each pupil's success in finding and holding a job. Professor Sandiford considered that the present system of "essay" examinations was just about as reliable as measuring a floor with a piece of elastic, as marks were given, probably unconsciously, for neat appearance of the paper, length of the essay, or some other quite extraneous reason.

**RESEARCH IN HELIUM CARRIED ON HERE**  
(Continued from Page 1)

low temperature laboratory.

The results of their research have been sent to an English scientific journal for publication.

"Up to a year or two ago there were just one or two places possessing liquid helium," Dr. Burton told *The Varsity* in discussing the discovery. "Since that time experiments have been going on all the time to find out of what use it will be in science. These students are the first to find out that liquid helium, which produces the lowest temperature of anything yet known, has no more resistance than air. This will be of value for experimentation in the structure of matter. If we can find out what a material is like at a very low temperature, we can learn its structure, because then there is practically no molecular motion.

"We cannot tell yet of how much use the discovery will be, but it is a step forward in scientific research. With further development we will see what practical bearing it will have," Dr. Burton concluded.

Mr. J. O. Wilhelm when interviewed by *The Varsity* on the subject, said that liquid helium is mainly a matter of theoretical interest and research as it adds to general scientific knowledge.

"The University of Toronto," he continued, "was second only to Leyden, Holland, in possessing liquid helium, and was followed by Berlin and Washington. Thus these four are in this matter, far ahead of other centres because of longer experience. Many places now manufacture liquid helium on a very small scale. With it we are able to produce a temperature within about one-tenth of a degree from absolute zero, that is, —273.1 degree Centigrade."

"The preliminary results are to be published in 'Nature' the English scientific magazine, and when later a detailed account has been drawn up it will be tendered to the official publication of the Research Council of Canada."

**COSGRAVE EXTOLLS TRINITY'S FOUNDER**  
(Continued from Page 1)

and pure ideas which he pursued with a tenacity admired by his friends and feared by his foes. He had a bulldogish character, knew exactly what he wanted, had no doubts or hesitations and always went straight ahead."

The speaker continued with a description of Bishop Strachan's funeral on the 1st November, 1867, and told of the grief that hung over, not only Toronto but also the surrounding countryside for many miles. A toast was taken

to the Founder and then the traditional strains of Met' Agona closed the evening.

Among those present was Professor H. C. Simpson, who has been on the staff of the college for some forty years; as Trinity was incorporated in the University of Toronto just thirty years ago, Professor Simpson can well remember the days when the college was a university in itself.

### CHAMPUS CAT

(Continued from Page 2)

mediately took over the duties for the rest of the week. There were few complaints. One girl was heard to remark loudly that there was furniture polish in the salad dressing, but added hastily that she liked it that way.

At Spadina and Harbord they found a room with the windows boarded up, for, as the occupant explained, he could not sleep with the sun shining on him. He did his own housekeeping, too, and had a plate, a knife, six glasses but no cups.

At Knox College none of the furniture could be identified as such, because of a playful habit that the boys had acquired of stuffing each other's fire-places with damp newspapers. At the time there was a raiding party occupying one of the houses, and none of the regular occupants could be found until one man was discovered under a bed, but he refused to talk. *The Varsity's* Editorial Board was located up in the rafters, but just said "Go away, I'm busy." Next door at North House fourteen copies of the Decameron were confiscated, and the poker dice were examined but were all correct weight.

However, as there were nine dice instead of five, and four of them had aces on every face they were taken along anyway.

The Commission was nonplussed by these findings, and could only recommend that a marriage subsidy be introduced by the government at the earliest possible date, which was ruled to be out of the question.

UNIVERSITY OF TORONTO, THURSDAY, JANUARY 17th, 1935

No. 66

### NEWS OF THE WORLD IN BRIEF

Saarbrücken—In order to give those who wish to leave the Saar territory a chance to do so the country will not be turned over to Germany for six weeks. Five persons were reported dead as a result of fighting. Fugitives told of being fired upon as they attempted to return to their Saar homes.

Toronto—Sir William Mulock, Chancellor of the University of Toronto, who will be 91 on Saturday, yesterday advocated some modifications in the educational system.

Geneva—The League of Nations took punitive steps for the first time yesterday when they lifted the arms embargo against Bolivia which has accepted their peace plan, at the same time strengthening the embargo against Paraguay, which has failed to accept the plan.

### CONSIDER OWNERS MAKE BEST VOTERS

Students do not Favour Broad Adult Franchise for Toronto

### STUDENTS NOT INTERESTED

Yesterday's editorial, denouncing the Mail and Empire's plea to withhold the municipal vote from all citizens under twenty-one, received practically no support from the readers of *The Varsity*. The general opinion is that most minors, especially those who are still at college and have almost no contact with political affairs, do not know enough about politics to cast a vote with considered judgment.

Ursula Bennett, II Trinity, thinks that "the man with property is the man to have the vote, for with the acquisition of property comes a sense of responsibility which makes a man consider which way he will cast his vote."

A graduate says that "anyone who has a stake in the ground, so to speak, will be more inclined to have the welfare of the community at heart; whereas the man without property will be easily swayed by any politician with a foolish scheme who hopes to gain the support of those who are easily moved by rash promises."

Mary Greer, II U.C., doubts *The Varsity's* statement that "the refashioning of the world belongs to the youth of this nation"; she affirms that "the youth have nothing to do with the governing of a country, and furthermore they shouldn't have. Business and government require the experience which comes with age."

Pat Harrison, IV Trinity, says that "nobody at college has time to be interested."

### VICTORIA FRDISH PARTY TD HAVE LONDON BAND

Import Highly Recommended Orchestra for Affair Saturday

Already noted for bringing outstanding entertainment ideas to the campus, the class of 317 at Victoria College are planning another potential success for this Saturday evening when they hold their annual spring party.

Succeeding the famous "Stagless Stampede" of a year ago, and "Ye Merrie Revel" staged last November, the corresponding affair for this season promises to uphold and even exceed all previous functions.

"This time we are featuring the

### VIC MUSIC CLUB PRESENTS SAN TOY

Operetta Goes on Next Week Under the Direction of T. J. Crawford

#### ALMOST NINETY IN CAST

Characterized by refreshing tunes and an abundance of rhythm, the light opera *San Toy*, which is to be presented next week by the Victoria College Music Club, gives every indication of living up to the enviable reputation earned by previous productions of the society. The operetta will be presented at Margaret Eaton Hall, McGill and Yonge Streets, from January 23rd to 26th, inclusive, with a matinee performance on Jan. 26th.

The entire production is under the direction of Mr. T. J. Crawford, F.R.C.O., whose wealth of experience with London opera companies has done much to ensure the success of this and several other Victoria productions.

The operetta itself provides a variety of concerted numbers, duets, and solos cleverly merged in the development of an amusing and ingenious plot.

The leading roles are ably filled, many of them by members already well known to the music lovers of Toronto. Altogether there are almost ninety people in the cast.

### LARGE HONOUR LIST RUMOURED AT U.C.

One Peerage, Several Knight-hoods said to be Included

#### OPENING SESSION TODAY

His Excellency the Governor-General is coming down from Ottawa this afternoon to open the University College Parliament. Lord Sydney is expected to arrive at the Junior Common Room shortly after four p.m. when the House will have assembled for the first session of 1935.

Whisperings are finding their way around to the effect that Lord Sydney has a considerable New Year's honour list, including one peerage and several knight-hoods. It is understood that among others the names of two or three former Prime Ministers figure on the list.

The speech from the throne bodes to be interesting. Again, the halls of U.C. are alive with furtive rumours, although the Prime Minister, the Rt. Hon. Wilfrid Smith, would make no premature disclosures when questioned by *The Varsity*. It is believed, however, that the speech will deal with political, economic and social reforms.

Extra-Mural Courses Leading to Bachelor of Arts Degree Made Possible for Students Unable to Pay Fees.

#### NUMBER SUSPENDED NOW LESS THAN FORTY

Free tuition in extra-mural courses of the University of London, England, has recently been offered by Dr. Earl A. James, president of a national educational institution, to those students who would otherwise have to leave college through non-payment of fees. Dr. James, who is not connected with the University of London, emphasized that his offer is a purely personal one, carrying no conditions, but is open only to those students whose education is about to be interrupted through a shortage of funds.

The course in the University of London leads to a Bachelor of Arts degree in three years, and though studying may be done anywhere, examinations must be written in a British University. (Continued on Page 4)

### SANDWICH HOUSE HAS WILD SESSION

Decides Against Dissolution After Stormy Scene with Speaker

#### CHANGE IN CABINET

At their first meeting of the new year the members of the Victoria Sandwich Parliament defeated by a large majority the motion brought before the house that the parliament be dissolved. Considerable difficulty was experienced by speaker Habbeshaw in determining the wish of the house, due to a tendency on the part of a large portion of the left wing to vote for both sides of the motion. His repeated cries for order only brought responses of "a cup of coffee, please."

Anarchy almost broke loose in the parliament at one stage, when the speaker, his resignation being refused, left the chair anyway. However, a serious situation was avoided when a body of the members forcibly escorted him back to his chair.

Only one change in the executive of the parliament was made, when the resignation of the Hon. member from Harris was accepted and the hon. member from Joffile elected to take his place on the cabinet.

No topic was discussed at the meeting since none that were deemed suitable were brought forward. Several were suggested, dealing mainly with the Dionne quintuplets, but these were all voted down by the house.

### FRANTIC FINANCIERS KICK GONG AROUND

To the sweet music of Karl Mueller and his *Varsity* entertainers, the cares and troubles of a financially frantic world were cast aside last night, when Commerce and Finance students and their friends gathered for the annual Commerce Club At-Home in the Roof Garden of the Royal York Hotel.

The dance was preceded by a number of distinguished supper parties by members of former years. Among the graduate members present was "Stew" Green, popular ex-president of the Commerce Club. The patronesses for the evening were Mrs. E. J. Urwick, Mrs. G. E. Jackson, Mrs. F. R. Crocombe and Miss I. M. Biss.

### MOVE TO EXTEND RIGHT OF OFFICE TO PASS STUDENTS

Third Year Graduates Seek Revision of V. C. U. Constitution

#### MUST PASS TWO MEETINGS

Report of Committee on Receptions also on Agenda

Tomorrow afternoon at five o'clock in Alumni Hall the Victoria College Union hopes to clear up the long-standing problem regarding its relation to the pass course students. Ever since the institution of the three year course it has been impossible to secure any definite ruling concerning their eligibility to hold the offices or voting privileges accorded to graduating members.

The following motion of amendment to the constitution promises to clear up the situation. "All students within one year of graduation may vote for all offices for which they are eligible, providing they have paid fees in their own year." If passed at two successive meetings this amendment will secure to all graduating members, including those of third year pass, the right to vote for the permanent executive, and to hold such offices as are specified in the constitution. By the extension of this privilege it is hoped that the fourth year members will be partially relieved of responsibility, the burden of which has fallen on their shoulders in the past.

(Continued on Page 4)

### DENY SOCIAL WHIRL INTERFERES HERE

"More Work and Less Play" Movement Finds Few Supporters

#### SMALL DANCES FAVOURED

The *Varsity* social whirl does not greatly interfere with the carrying on of the general routine of study in the opinion of the co-eds. A movement on the University of Manitoba campus for "more work and less play" finds little sympathy here. The student body of Manitoba is now considering a reduction of the number of social events which they believe would be advantageous both financially and academically. If such a course were proposed here it would find few supporters among our women students who believe they have enough discretion to keep social engagements from interfering with their academic work. The *Varsity* women favour the plan of having a number of smaller dances rather than a few large ones. Some student opinions are as follows:

Mary Henry, II Vic: "A lot of students go to Victoria just because there are more social affairs and they can get together and become better acquainted. Our work does not suffer because we can use discretion and not go to them all."

Amy Smith, II U.C.: "A student does not attend all the affairs on the campus. There is something on practically every night and if one attempted to attend everything it would undoubtedly be too much but as it is social affairs do not interfere with our work."

Dorothy Mason, I Dentistry: "I am certainly in favour of the present system. If a student finds herself behind in her work she can stay at home."

Leith Ferguson, I Vic: "When there

### BLUE BASKETEERS TRIM WEST END

Three Point Victory Puts City Entry Back in the Running

#### FIVE MINUTES OVERTIME

The Mac McCutcheon coached *Varsity* intermediates last night battled their way back into a contending position in the city league basketball race when they scored a 44-41 victory over West End Y in a hectic battle which went five minutes beyond the regular time before a decision was reached. The Blue team went into the fray faced with the task of registering a victory or passing from the picture, but emerged with their desired conquest, with the result that they will still be heard from before the season ends.

The teams were deadlocked at 39-39 when the regular time was up and an overtime session was necessary. In the overtime Chuck Magwood, who, during the entire game had collected one basket, suddenly found his range and tallied all five points which the students registered in this session.

*Varsity* ran up a lead of several points before the middle of the first half, when Vanderleek was removed by four personals, only to see the Purple and Gold squad come to within four points of them at the halfway mark.

In the second period, the West Enders threw away many scoring chances with their long distance shooting, which got them nowhere. Gibson, with a rumoured inspiration in the gallery. (Continued on Page 4)

### FIVE ORCHESTRAS FOR SCHOOL NITE

Hart House Theatre also Reserved for Elaborate Function

Time, effort and expense are being lavishly spent on preparations for the Annual School Nite in Hart House, which will be held this year on Tuesday, January 22, according to reports from the Engineering Society, the sponsors of the traditional informal dance of the Engineers. Following the decision of the Society to cancel the "School At-Home", the large sum usually used to subsidize the At-Home is being devoted to making the 1935 edition of "School Nite" one of the largest, completest and most impressive parties on the campus.

Hart House Theatre has been reserved by the committee for the presentation of a musical comedy and a series of skits of an extraordinary nature, said Frank McCarthy, director of Publications and Publicity, in an interview with *The Varsity* yesterday. "And, for the first time, we believe, five bands will provide music for dancing in the Big Gym, the East Common Room, the Reading Room, the Debates Room, and the Music Room. During the evening there will be an exhibition of diving, and a genuine water polo

(Continued on Page 4)

Twenty-Five Spectators, Including Goal Judges, View Game

#### WEAK AT GOAL MOUTH

Blues Have Edge on Play; Fail to Click when in Position

Last night at the Maple Leaf Gardens the luckless *Varsity* juniors lost a see-saw encounter with Parkdale Canoe Club, the final count reading 4-3. The students, by virtue of this defeat, retained their hold on the cellar position, which is by no means a new one to them.

The Blue and White brigade more than held their own on territorial play, but like their senior brethren just couldn't seem to untangle themselves when within their opponents' blue line. The game attracted twenty-five spectators, counting both goal judges, which must be some kind of a record.

Parkdale started off on the right foot when Cassidy drifted one by Campbell at the four minute mark after a concerted siege on the *Varsity* citadel. Checking was very close from his point on with the result that there was much to be desired from the customers' point of view. The period ended with no additional scoring.

(Continued on Page 3)

### SENIOR PUCKSTERS DEFEATED AGAIN

Trimmed by Royal Yorks, 3-2 for Second Loss in a Row

#### COMBINATION WEAKEST YET

A crowd of about 2000 people saw the Beavers take it on the chin for the second successive time by a score of 3-2 at *Varsity* Arena last night, from Royal Yorks.

*Varsity* presented one of the weakest hockey combinations of the season and many of the players seemed listless, probably the effect of too much hockey. They also carried an air of over-confidence which left them at a great disadvantage.

Although the game started slow it finished in a blaze of smart end to end rushes and some real hockey. *Varsity* started off fast with some smart goalward thrusts and only the invincible goal tending of Major in the Royal York net kept them from making up the difference of two goals.

Wallis broke away after six minutes of play and scored on a solo effort. *Varsity* came right back with a goal by Devine on a beautiful effort, going through the entire team, giving Major no chance to save. The Blues put on the pressure and McConvey scored on a neat pass out by Kieff. With only a few minutes left to play *Varsity* used

(Continued on Page 4)

### SOUND MICROSCOPE IS KNOWN HERE

New York University Apparatus No Mystery to Staff at U. of T.

"A sound microscope which can magnify the chewing of a weevil until the noise nearly deafens the occupants of a whole building is used for demonstration at New York University."

The same type of amplifier is used in the Physics Department at the University of Toronto, Mr. A. Pitt, of the Physics staff told *The Varsity* when questioned on the subject.

## Hart House Meals

Hart House Great Hall, with a seating capacity of close to 1,000 serves an average of less than three hundred meals per day, between 11 a.m. and 7 p.m. As a contrast, the popular Huron St. Coffee Shop, which has a capacity of about 125 at any time serves almost twice as many meals, and has a total of approximately 800 guests per day.

These facts speak for themselves, and should provide food for thought to each loyal student of the University of Toronto.

At the present time, a sub-committee of the Hall Committee is conducting a series of investigations into the affairs of the Great Hall, and although what we have to say may be *sub judice*, nevertheless, it ought to be said.

The Great Hall of Hart House is perfectly equipped to serve the best meals money can buy, under the most sanitary conditions, at less cost than ordinary restaurants. This, of course, depends upon a large volume of business. Yet a private concern, having to pay rent and taxes, is able to undersell Hart House in its own market. Hart House is beaten at its own game, on its home ground. There must be a reason.

Speaking purely in our alleged editorial capacity as the so-called "voice of the people", we quote the consensus of opinion that Hart House meals lack variety, the food served is not tempting, and, briefly, the meals are not worth the money. The fact that many students prefer to spend twenty cents on sandwiches and milk than twenty-five on a full course meal bears this out.

Each time that we have had occasion to speak to some spokesman for Hart House on the question, it has been pointed out that the kitchen is awkwardly arranged, and that a large staff is necessary, and so on down a number of unimportant side-tracks. The answer to all of these is that a large volume of business would do away with the importance of this overhead.

The one excuse to which we strenuously object is that several thousand dollars are lost each summer through retaining a skeleton staff and continuing to serve meals to summer school students. This excuse that students are forced to contribute to the comfort of the summer staff, and the summer school students by suffering a reduction in quality of the food served during the academic year is rather an astonishing self-condemnation from those who control the affairs of Hart House.

The Hall Committee is working on the question, and will, it is hoped, eventually decide something or other. In the meantime may we express a purely personal opinion. It is a prime business axiom that Hart House Great Hall must give *more for the money* in order to serve two or three thousand meals per day instead of the present two or three hundred. The only hope of the Great Hall becoming a student gastronomic centre lies in its ability to serve as good a meal as other restaurants at a lower price.

At present a less palatable meal is being served

at the same price as other restaurants, with absolutely no variety as to menu. Which leads us to predict that within a few years the Great Hall will either give better value to students, or else close its doors altogether.

A third alternative is that it go into the cafeteria business, serving individual orders to the student taste, at a reasonable price, which might be the best idea of all.

## Popularity Contest?

Recently, when a discussion was under way amongst members of the Blue and White Band in connection with plans for the Annual Band Concert, a proposal was made that the concert be transferred from Convocation Hall to more suitable quarters, and a "Popularity Contest" for campus co-eds be staged as an added attraction.

While the suggestion met with spontaneous approval as "A good idea", it was shelved because many felt that it would be looked upon askance by a University burdened with too conservative opinions.

That the University of Toronto has such a conservative outlook may unfortunately be true. Anything even faintly savoring of the American "Collegeiate" ballyhoo is universally frowned upon, and there is a marked tendency to go toward the opposite extreme.

It is not our intention to urge the band to sponsor a "Popularity Contest", however, we feel that the Varsity Band has not in the past, received the active student support which it deserves. Any logical project of this nature which will serve to call attention to the activities of the band will receive our enthusiastic co-operation.

## The Future of Esperanto

Many people, especially pacifists, hope to find in Esperanto a linguistic touchstone that will make all the world akin. They say that if everyone could talk Esperanto they could understand each other and there would be little cause for dispute.

However, they overlook two very important factors: that it would be next to impossible to impose a universal language on everybody; and that even if they spoke it, it would not necessarily engender brotherly love; the United States and England, many Spanish-speaking countries, even Germans have fought each other. No, Esperanto will not be practicable, for even if it became a spoken language, the very tongues that utter it would alter it as the Frenchman and the Spaniard changed the Latin once imposed upon them. Once the language is out of the stiff, changeless print of the textbooks spread as propaganda, the people using it will alter it, and quickly too, with its sounds that are not uniform in every speech; since Dr. Zamenhof invented it, indeed, these workings of adaptations have crept in.

Much is said for its simplicity, and that admittedly is admirable. But simple people are not the most interesting, nor simple languages either. Its grammar is rigid, ironbound, unvariable; its vocabulary is so simple that anyone can read it who knows just a few words from one or two European languages.

The only ones who will be bothered to learn Esperanto are the linguists. Those who detest languages will not learn it any more than French, and in fact still less, for French has use while Esperanto is still a chimerical fancy which is left the minute two people speaking it find they have another common language: at a recent Esperanto congress in London more people spoke English than even the speech they were advocating themselves, and these were not merely Englishmen, but Continentals, as well.

However, the linguists see that their time is better employed in learning a living language, for while Esperantists claim their hobby is living, they can never prove it so till they themselves use it exclusively in their activities. Any language student sees at once that it is not worth their time: if they must translate it, which is rare, a glance at the grammar and their own European vocabulary will give them all the facts as readily as if they had spent a long time in studying it. While meantime the non-language student goes on as oblivious of its existence except for the idle remark heard now and then or the letter the rabid Esperantist writes punctually on the third Thursday of every month to the daily press extolling the beauty, the simplicity, the Utopianism of his paragon of speech.

## ART, MUSIC & DRAMA

### Trinity Dramatic Society

The Dons of Trinity took part last night in two very interesting little productions, at a meeting of the Trinity College Dramatic Society. The first play was really an incident taken from Noel Coward's famous "Cavalcade". The scene was the boat deck of an Atlantic liner; the date, Sunday evening, April 4th, 1912. A young man, played by Mr. Arthur Barker, and his newly-wed, played by Mrs. Lucas, are found leaning over the rail and talking rather philosophically of life. The girl, expressing her complete happiness at the moment, declares that she would not mind dying during the night if she should have to; her young husband scoffs and they move on, uncovering a line's lifebelt bearing the cryptic message "S.S. Titanic". Both Mr. Barker and Mrs. Lucas acted well and the play was well received.

The second venture of the Dons was rather more ambitious. Named "The Poison Party" and written by S. Smith, the play contains six parts, a Queen-mother, her son the King, the Court Cardinal, a certain Monsieur de Beaujolais and his supposed daughter. The Queen-mother (Mrs. Hicks) is fearful of her supremacy in the palace as a result of an intrigue between the King (Professor Wilson Knight), and a young commoner (Mrs. Lucas). She enlists the aid of the Cardinal (Lyndon Smith) and manages to get the girl and her father (Mr. Hicks) into her room. Here she intends to offer the pair some specially prepared poison tarts and has arranged that the tarts that she and the Cardinal will eat will not be poisoned. The half-mad king and a pet rabbit of his, together with

(Continued on Page 4)

### FAMOUS INSTITUTIONS

Somebody once noticed that newspapers often ran humorous columns and decided to have one in *The Varsity*. Nothing was ever done about it, however, except the insertion of the Champus Cat. At first it was meant to be rather personal, and was known as Campus Chat, but it got personal about an intercollegiate middleweight champion, since when it has gone under the present name.

The paper is nominally printed for the perusal of University students, but the Cat, in an attempt to find a common level of interest, has descended to the level of a bit of amusement for freshmen, Peter Pan Undergraduates, and waitresses in neighbouring restaurants.

It is used as a Comfort, (dipped in a patent brand of syrup) to hush the walls of disillusioned students who expected to find the University patterned after the excellent models in College Humor, the movies, and the rotogravure section of the Star Weekly. In this capacity it is said to serve a valuable purpose in saving the cost of a qualified psychiatrist to absorb the shock of the sudden orientation to a college devoid of what the comic strips would call collegiate spirit.

The matter printed is varied but with a definite bias towards the elsewhere unprintable. There is a childish studiousness for irreverence which insures the Cat of a steady reading public among the members of the S.A.C. and the Caput, and a few slight throwbacks to the personalities of the old days keep the undergraduates from entirely disregarding it, although it is careful to avoid Middleweight champions. Through an unfortunate quirk of fate, it has not always avoided references to Rugby players' lady friends.

## Made in the TIME-HONOURED WAY

Many experiments have been attempted in making cigarettes, but nothing has yet been found to equal the time-honoured Sweet Caporal method. It calls for the choicest tobaccos, aged and mellowed like vintage wine for at least thirty months, then firmly rolled in the finest papers. It requires a large amount of money, and complete facilities, but it's the only way to make a good cigarette. This is why more and more smokers are saying every day that "Sweet Caporals are milder—and they taste better."

## LUNCHES AND DINNERS AT "THE LANTERN" MOST POPULAR

The talk of the Campus these days  
are the meals the Lantern is serving.  
So much for one's money and the food  
is so good and satisfying.The full course lunch is only 25  
cents and the full course dinner 35  
cents. That these have met with popular  
approval with Varsity people is  
shown by the fact that each day students  
in large numbers patronize "The  
Lantern", which has now become very  
well known on the Campus. Varsity  
students do not take things for granted.  
They have proved by experience that  
the Lantern offers more for your  
money and the food is all that can be  
desired, tasty, tempting and satisfying,  
and plenty of it.Then the most attractive surround-  
ings have a great appeal. All that can  
be desired in delightful atmosphere and  
comfort, are to be found here. Happy  
groups, lunching together, discussing  
campus news. You are sure to meet  
your friends, at the Lantern.Join the happy crowd, who go there  
daily. Meet your friends for lunch and  
for dinner and don't forget the price  
is only 25 cents for lunch, 35 cents for  
dinner.

The Lantern is also open Sundays.

And you class executives, remember  
you can arrange your class dinners and  
parties here most reasonably. The  
Lantern will look after every detail.  
Make inquiries here before you plan  
that next party. (Adv.)

## THE SPORTSWOMAN

By M. A. F.

The first hockey practice for U.C.  
women is scheduled for 5 p.m. today  
at the Varsity Stadium and there will  
be a second one on Saturday from  
12-2. Jean Atkinson, the manager, has  
been more or less rounding up in  
the available material and stirring up in-  
terest and she seems to have had pretty  
favourable results. There seems to be  
plenty of interest and it looks as though  
the turnout tonight will be good. U.C.  
and Vic have a harder proposition than  
the other faculties since they each have  
to make up two squads. U.C. hopes to  
give the scarlet and gold tie holders  
some lively competition for they have  
a number of real pucksters in their  
midst.St. Mike's had hoped to have a  
hockey practice last night but un-  
avoidable circumstances intervened.  
However, they have drawn up definite  
practice hours and expect to have a  
number of enthusiasts on hand on Fri-  
day night at the Varsity rink for their  
first practice. They have no definite  
line on their team as U.C. has but  
hope for some pleasant surprises among  
the new material which will doubtless  
be in evidence. Very few of their last  
year's outfit are still on deck, but since  
the '34 team did not go very far in the  
series this loss is not as serious as it  
might otherwise have been.The Meds-Public Health hockey  
practices begin today with a session  
from 6-7 at the Varsity rink. Pros-  
pects are quite encouraging for a fair  
team, but the numbers are fairly re-  
stricted so that it will be a decided  
problem to round up enough subs. It  
would provide some real interest if this  
squad should prove to be the proverb-  
ial "dark horse" and startle us all  
with some brilliant playing.

Don't forget the intercollegiate bas-

## PHARMACY VICTORS

### OVER SCHOOL 19-18

### Hard Fought Basketball Game Goes to Druggists by Lone Point

In the bitterest interfaculty basket-  
ball battle of the season Pharmacy  
downed the speedy Jr. S.P.S. squad by  
a 19-18 score in the upper gym, Hart  
House, yesterday afternoon. The win-  
ners maintained a lead until the last  
three minutes when the flying School-  
men tied the score, then gained a two-  
point margin which the lads from the  
O.C.P. wiped out as the game ended.From the start the pill rollers play-  
ed a fast, orthodox game, passing well  
and using a solid five-man defence.  
Led by Armour and Resor, they en-  
tered the second half having piled up  
9 points to their rivals' 8. The engi-  
neers fielded a fast team, which passed  
rather and at times, however, broke  
rather slowly. The last period produced  
sparkling play; each team earned 10  
hard points. The S.P.S. men found a  
deadly sharp-shooter in Murray, who  
tallied 8 of their counters in this frame.  
After hitting their stride they left in  
the same team, while the agitated  
Pharmacy mentors called for frequent  
substitutes. Kermar and Lazarus staged  
the druggists' comeback, and playing  
frantically until the whistle, were re-  
warded with a win. School used a man  
to man defence and by over-close  
checking gave Pharmacy five points  
via the foul shot route.Armour and Kermar each tallied 5  
points for Pharmacy, while Gilbert  
accounted for 3 and Lazarus for 2.  
Murray was the stellar marksman of  
the afternoon, gaining 8 points; his  
finest team-mates were Kuluyk, Eggert  
and Bersharan.Pharmacy: Lee, Armour, Kofsky,  
Pugen, Lazarus, Gilbert, Kermar.  
Jr. S.P.S.: Hersharan, Ballagh, Mac-  
donald, Dunn, Ronson, Eggert, Sharp,  
Murray, Mitchell, Kuluyk.  
Referee: H. A. Himel.

### BLUE VOLLEYBALLERS DROP SECOND IN ROW

The University of Toronto entry in  
the city league volleyball series lost  
their second encounter in as many  
starts last night on the Hart House  
floor when they dropped two out of  
three games to the Y.M.H.A. club. The  
Blue team took the first game, 16-14,  
but dropped the second 17-15, and the  
third 7-15.The first and second games went be-  
yond the regular time before either  
club was able to score the two point  
advantage. However, in the third Var-  
sity could not cope with the speedy  
serves of the visitors and dropped the  
game by a wide margin. For Varsity,  
Bath and Dembitsky were outstanding,  
while Shapiro and Freedoff were the  
best of the winners.

### LARGE HONOUR LIST RUMOURED AT U.C.

(Continued from Page 1)

involving a tremendous public works  
programme, the setting up of various  
expert boards, and the nationalization  
of all industries not producing to  
capacity. Breach of promise and al-  
imony laws are to be abolished. An  
interesting session is expected.kethal practice tonight from 6-7. At  
Tuesday's practice things were look-  
ing up very nicely. There were several  
newcomers, including Edie Ardagh  
and Quita Menell, and more of the  
Vic teams were on deck. The workout  
was harder and more serious and to-  
night's session will probably be even  
more so. Kay McKenzie, who coached  
the Vic Juniors for the interfaculty  
series, has consented to act as inter-  
mediate coach. She certainly did a  
smart job with those Juniors so it looks  
well for the intermediate group.Through some mistake the hockey  
schedule did not appear yesterday. But  
it is in today's issue, so please make  
a note of it.

## SPEAKING OF SPORT

By B. J. McGuire

Varsity took the count twice last night. Up at the Bloor Street Arena the  
Bees dropped a decision to the Royal Yorks, while down at the Gardens the  
Juniors were stopped by Parkdale. One of the things which stood out about  
the contests was that two dozen fans saw the juniors perform while two  
thousand saw the Bees being beaten.The fact that only 25 persons were in attendance at the O.H.A. game at  
the Gardens again causes one to wonder just why the public refuses to watch  
the amateurs play. In the case of the senior Blue team it is also a problem. It  
has always appeared to us to strike a sad note when only a few turn up at  
the Arena and the boys produce a hockey game which would qualify as a  
thriller in any league. This occurred Tuesday evening when the Torontos  
dropped the Blues for a 4-3 count.Just why the students fail to come out for the hockey games is something  
that would require some explaining. True, the Varsity team has yet to win an  
encounter but they have yet to be outclassed. In every contest but one at the  
Arena they have provided a thrill packed struggle. And it is events of an  
interesting nature which should prove an attraction. The fact that the students  
will not support a winning team is no credit to their sportsmanship. The fact  
is that one team has to lose every game and while it is just sad that the Blues  
should gallantly consent to do this is no reason for the fans staying away in  
such quantities.St. Michael's College yesterday won an interfaculty baseball game. The  
interesting feature of this statement is the fact that it is the first interfaculty  
contest in which they have engaged in several years. Their re-entry into the  
interfaculty field should be to the advantage of everyone concerned.

### ST. MICHAEL'S NINE TRIM FORESTERS 11-10

### Bay Street Outfit Nose Out Woodchoppers in See- Saw Struggle

The St. Michael's nine pounded out  
an 11-10 win over the formidable For-  
estry team in a wild interfaculty base-  
ball game in the big gymnasium in  
Hart House yesterday afternoon. It  
was a see-saw struggle all the way;  
the Bay St. outfit nosed out the St.  
George St. team on the twirling of  
Marks and the heavy hitting of Con-  
nelly and Bedford.The wood-choppers sent in a sure-  
handed team, but the double blue team  
were a better balanced squad, having  
all-star sluggers, fielders and pitchers.  
Greer, Forestry's bullet pitcher, ac-  
counted for one strike-out, while Marks  
and Wick, who bore the slinging for  
St. Mike's retired half a dozen green  
shirts. The standouts for the winners  
were Bedford, Marks, Connelly and  
Wick, while Greer, Heggie and Bar-  
ron were the pick of the losers.S.M.C.: Nalley, Bedford, Marks,  
Connelly, J. Driscoll, McGivern, Mar-  
ling, Forestry, Timmons, Finlay, Larch,  
Blum, Wick.Forestry: Skolko, Hick, Johnston,

smith, Greer.

Umpires: Himel and Carveth.

### BLUE JUNIORS

### STILL IN CELLAR

(Continued from Page 1)

The second canto opened with plenty  
of fast skating but neither team ac-  
complished anything due to the super-  
lative work of both defences. The tide  
turned at the halfway mark when  
Shultis breezed through alone and  
picked the corner of the net with a  
beautiful shot. Immediately following  
this score Varsity was penalized but  
managed to stave off the Canoeists  
until the end of the period.The boys dropped their close check-  
ing tactics during the final stanza and  
the game perked up considerably as  
did the valiant twenty-five. Cassidy  
scored his second counter of the fracas  
on a rush with Denison and Carnegie.  
Willmott then galloped through and  
garnered the equalizer.Hinchcliffe was penalized and the  
students on a four man power play  
but could not locate the twine. Car-  
negie then proceeded to amble through  
the entire team and notch tally number  
three. Less than thirty seconds later  
Ripley and Morrison combined to knot  
the count once again on a pretty play.  
The students' chances appeared very  
bright at this point but O'Leary was  
thumped off for boarding and Carnegie  
rapped number four past Campbell on  
a gangling attack. Varsity played five  
forwards in a desperate last minute  
rally but could not score.

### WOMEN'S HOCKEY SCHEOULE

Jan. 22	5-6	St. Mike's at Meds
	6-7	Vic I at U.C. I
	7-8	Vic II at St. Hilda's
	23	7-8 U.C. II at St. Mike's
	24	7-8 U.C. I at St. Hilda's
	25	6-7 Meds at Vic II
	26	1-2 Vic I at U.C. II
	29	6-7 St. Mike's at U.C. II
	6-7	Meds at Vic I
	7-8	U.C. II at St. Hilda's
	30	6-7 Vic I at Vic II
	31	5-6 Meds at U.C. I
Feb. 1	7-8	St. Hilda's at St. Mike's
	2-12	Vic II at U.C. II
	4-6	St. Hilda's at Vic I
	5-6	U.C. II at Meds
	6-7	8 U.C. I at St. Mike's
	7-6	U.C. I at Vic II
	8-6	St. Mike's at Vic I
	6-7	St. Hilda's at Meds
	9-12	U.C. I at U.C. II

Managers please note changes.

All games will be played at the Var-  
sity Rink except for Vic home games  
which will be played on the Little Vic  
Rink. The games will have three pe-  
riods of 10 minutes each.

### VICTORIA FROSH PARTY

(Continued from Page 1)

dance show above everything else," ex-  
plained Dyce Scott, president of the  
new J77 executive. "An outstanding  
orchestra under the direction of La  
Pierre Muir is being brought from  
London especially for the party. This  
band comes to us enthusiastically re-  
commended from Western University  
where they have built up a wide fol-  
lowing at the college dances."Last summer Pierre Muir and his  
orchestra played a limited engagement  
at the Brant Inn, before moving on to  
a popular summer resort near Windsor  
for the balance of the season. A fea-  
ture of the J77 party will be the  
original orchestrations for which Pierre  
and his group are widely known.No definite information has been  
given out regarding the other enter-  
tainment features, for which extensive  
plans are being completed. These are  
not to be announced until the night of  
the dance, it is understood.Carnegie was the standout performer  
of the evening. Shultis, Frenes and  
Creasy played well for Varsity.Varsity: Goal, Campbell; defence,  
O'Leary, Sissons; forwards, Ripley,  
Morrison, Willmott; subs, Shultis,  
Frenes, Creasy, Botterell.Parkdale: Goal, LaBarge; defence,  
Barber, Hinchcliffe; forwards, Car-  
negie, Denison, Cassidy; subs, Isbister,  
Dewar, Simmonds, Kerr.

Referee: Tracey Shaw.

### JR. SCHOOL, DENTS TIE POLO MATCH

### Dents Come from Behind to Knot Count with Engineers

Only one of the three scheduled in-  
terfaculty water polo games was play-  
ed last evening in the Hart House pool.  
The Trinity team were out on a hike  
and were unable to put in an appear-  
ance while Sr. U.C., scheduled to play  
Sr. S.P.S., failed to explain their non-  
appearance. The one game played re-  
sulted in a tie between Jr. School and  
Dents, at two points apiece.S.P.S. started out as if they were  
going to make it a walk-over. Eggert  
and Otter scored two quick goals and  
the neat passing attack of the School  
seemed destined to bring more goals.  
However, Dents tightened up and held  
the opposition scoreless for the rest of  
the encounter. They scored one goal  
in the first half when Booth found the  
corner of the net.The second half was very close, with  
School being unfortunate that they  
failed to add to their total. Gerard  
notched the tying goal for Dents, near  
the end of the game on a nice solo  
effort.Dents: Goal, Kingsberg; defence,  
Leckie, Preston; rover, Wildfong;  
centre, Hawkins; wings, Woods, Ger-  
ard; subs, Booth, Cornish.  
Sr. S.P.S.: Goal, Partridge; defence,  
Young, Smith; rover, Reider; centre,  
Otter; wings, Eggert, Hogg; sub,  
Alden.

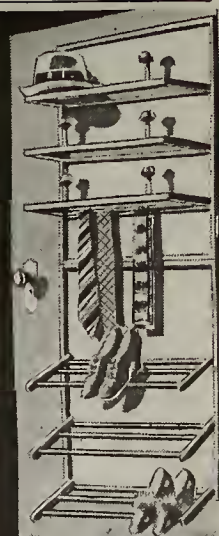

### OENY SOCIAL WHIRL INTERFERES HERE

(Continued from Page 1)

are a lot of social events you can pick  
your own. It is necessary to take in a  
certain amount to complete that side  
of your education. I find that Varsity  
clubs are more worth while although  
they take up more time."Jane French, I U.C.: "I don't find  
that social affairs interfere with the  
work. On the whole I prefer the small  
dances as one becomes better ac-  
quainted."Barbara Holderman, I Social Sci-  
ence: "If there are not a lot of Varsity  
social affairs the students will go to  
outside ones anyway."A Household Economics IV, stated:  
"I have never found social affairs to  
be too much for my work. However,

amplification of the heart beat," con-  
tinued Mr. Pitt, "although we have  
never gone in for any tremendous  
amplification of sound such as was de-  
monstrated recently by Dr. E. E. Free  
at New York University. We could  
set up such an affair and reproduce the  
effect and if we spent enough effort on  
it could even approach the gain in  
sound amplification which he obtained."Mr. Lazier of S.P.S. stated that this  
university has an apparatus comparable  
to that used at New York University  
but at present it is not being used in  
a comparable way. "It is no trick to  
produce amplification of a billion times  
but this also increases the noise which  
the amplifier itself produces. In an ordi-  
nary talking picture theatre there is  
an amplification of 100,000,000 between  
the photo cell and the loud speaker,"  
Mr. Lazier added.Ben Jonson Would Have  
Approved of the

### Shu-Hat-Ti-Rack

"Still to be neat, still to be dressed  
As you were going to a feast".—is advice that leads to success  
in affairs both of the head and  
the heart. Attach the "Shu-Hat-  
Ti-Rack" inside your cupboard  
door and you'll know exactly  
where to find your hats, ties,  
scarfs, belts and shoes. The  
model illustrated is \$1.69.

Important practice on Thursday, 4-5  
p.m. Everybody out.

#### U.C. Sr. Waterpolo—

Practice Friday, 4:30 p.m. Everybody  
out. Game on Monday.

#### Intercollegiate Swimming—

Will the following please be at the  
Soldiers' Tower, Hart House, at 10  
o'clock Friday morning fully equipped.  
W. McCatty, C. McCatty, Stratton,  
Bickle, Hooper, Eggert, Woods, Dil-  
worth, Collins, Murphy.

#### U.C. Athletic Board—

There will be a meeting of the U.C.  
Athletic Board at 1 p.m. today in the  
Lit. offices. All managers please be  
present.

# A MURDER HAS BEEN ARRANGED

Hart House Theatre January 14-19 Student Rate 25c. plus tax TO TAKE PLACE AT

## Coming Events

**THURSDAY, JANUARY 17**  
8 p.m.—Newman Club skating party at Stadium.  
4.15 p.m.—Meeting of the M. and P. Society. Dr. Horwood of the Conservatory of Music will speak on "Music and Science". Refreshments.  
5 p.m.—Men's Glee Club rehearsal in Hart House Music Room.  
4 p.m.—Dr. Arnold's S.C.M. "Current Events" group on Minorities at Wymilwood.

Delta Delta Delta subscription dance. Oak Room, King Edward Hotel.

**FRIDAY, JANUARY 18**  
5.15—Miss Biss's group for U.C. women will meet in her room in Faulkner House.

Victoria College Athletic At-Home. Dinner in Burwash Hall for athletes at 7 p.m. Formal dance in Wymilwood at 8 p.m. Sign ticket list in college hall. Hal Taylor's orchestra.

**SATURDAY, JANUARY 19**  
9 to 12 p.m.—Alpha Phi subscription dance, Crystal Ballroom, King Edward Hotel. Ferde Mowry and his orchestra.

8 p.m.—377 Victoria spring dance will be held in Burwash Hall. Admission by invitation only. Music by La Pierre Muir and his orchestra.

7.45 p.m.—375 Victoria senior masquerade spring party. Wymilwood. Good orchestra, movie shots, refreshments.

**SUNDAY, JANUARY 20**  
2.30 p.m.—All Fratellanza members are reminded that an important meeting takes place in the Music Room, Hart House; a good attendance is expected.

9 a.m.—Holy Communion, Hart House Chapel.

3 p.m.—W.U.A. musicale at the Women's Union. The artists will be Harry Adaskin, violinist, and Frances Adaskin, pianist. Tea.

**TUESDAY, JANUARY 22**  
8 p.m.—Inaugural meeting of the Oriental Society at Wymilwood.

8 p.m.—Annual School Nite in Hart House.

8.30—The German Club in the Women's Union. Mr. Fritz Winter, the German Exchange student, will speak on German architecture. Songs and refreshments.

S.C.M. computer's luncheon for U.C. women. Mrs. J. F. Davidson will speak. Be sure to get your tickets from the executive.

**JANUARY 23-26**  
San Toy, light opera by the Victoria College Music Club at Margaret Eaton Hall. A cast of 95, directed by Thomas J. Crawford.

**WEDNESDAY, JANUARY 23**  
University College Junior-Senior dance in the Roof Garden of the Royal York Hotel. Informal.

**THURSDAY, JANUARY 24**  
8 p.m.—Italian-Spanish Club, at the Women's Union, speakers, new songs, games, refreshments; the hour is NOW 8 p.m.

## SENIOR PUCKSTERS DEFEATED AGAIN

(Continued from Page 1)  
four forwards but to no avail although the puck was hardly outside the Royal York blue line.

Varsity: Goal, Shipman; defence, Driscoll, Charles; centre, Devine; wings, McConvey, Kieff; subs, Bauer, Morgan, Cozzi, Burchell.

Royal York: Goal, Major; defence, Davey, Murphy; centre, Bradshaw; wings, Stanhope, McIlwain; subs, Durno, Wallis, Bissell, Barnes, Chisholm.

Referees: Plaxton, Graham.

## MOVE TO EXTENO RIGHT OF OFFICE

(Continued from Page 1)

Another item of interest on the order of business will be the report from the special committee which was commissioned to investigate the feasibility of combining the numerous farewell receptions to the seniors. The Union proposes to place a definite recommendation in the hands of the Social Caput for consideration.

## STUDY OF LITERATURE SEEN LINKING EAST, WEST

"If Eastern and Western civilizations are to enter into a real partnership their great literature should be mutually studied," stated Mr. P. C. Addy, an exchange scholar from Calcutta, in an address to the English and History Club, Tuesday evening. Mr. Addy went on to sketch the development of Indian literature in which can be traced a dual character, linguistic and religious, the two being intertwined and inseparable. Every important event in the history of the country has been coupled with a great literary period. Contrary to general belief, the women of India have played as important a part as the men in both past and present literature.

Another exchange student, Mr. L. R. Sethi, from India, described the present social conditions in northern India. Indian marriages are arranged in a very different manner from ours. The parents make all marriage settlements and the betrothed couple may not meet before the ceremony. However, western ideas are beginning to influence the native custom. There is an ever-increasing effort to eliminate the strong caste distinctions, and to further unify the country by the establishment of one national language.

## CONSIDER OWNERS MAKE BEST VOTERS

(Continued from Page 1)  
interested in politics, even if they should be, and they should not have the right to vote. After all, the man with the property pays the taxes and he ought to have a word in spending the money."

A graduate, now at Osgoode, is the sole supporter of *The Varsity* of those interviewed. He maintains that "any man who renders service to his community should have the right, regardless of his value as a landowner. He should, however, be employed and have permanent residence in the city where he casts his vote. Anyone over twenty-one should have the right to vote in provincial and dominion elections."

## FIVE ORCHESTRAS FOR SCHOOL NITE

(Continued from Page 1)  
game between picked teams in the pool, and the McCarty brothers will endeavor to better to better their own intercollegiate swimming record.

"Supper will be served in the Great Hall, and the Chemists of 376 are arranging a refreshment booth, where the apparent products of complicated apparatus will serve to slake the thirst of the fifteen hundred guests. Dancing will continue until two o'clock this year."

In accordance with the cancellation of the At-Home, tickets for the dance will be sold only to Schoolmen, upon presentation of registration cards, and the sale to the freshmen and sophomore years begins today. The rapidity with which the lists for the dance have been signed indicates the keen interest taken by the engineers in the party.

Among the patrons and patronesses for the occasion are Rev. and Mrs. Cody, Prof. and Mrs. Taylor, Prof. and Mrs. Bain, Prof. and Mrs. Madill, and Prof. and Mrs. Wright.

## BLUE BASKETEERS TRIM WEST ENO

(Continued from Page 1)

played the game of his life, netting fourteen points to make himself the high scorer of the evening. Cary, who filled both guard and centre positions, performed brilliant, scoring eight points. Fitton and Magwood also played well for Varsity.

Thompson, the talking captain, Mockford and Crossland were best for the Y team, scoring twenty-eight points between them. Taylor, the big guard, played a strong defensive game.

Varsity: Fitton 6, Cary 8, Sullivan 3, Vanderleek 6, Doran, Archibald, Magwood 7, Newman, Gibson 14.

West End Y: Thompson 10, Crossland 8, Whelpdale 4, Taylor 1, Gillespie 5, Mockford 10, Boughton 1, Henderson 2, Rider.

Referee: Tom Pogue.

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at either the men's office in Hart House, or at the women's office in University College. No notices will be taken over the telephone, after 6 p.m. notices must be taken to the Press Buildings. Notices for the Bulletin Board are limited to ONE insertion only.

### CURRENT EVENTS GROUP

Dr. Arnold's Victoria group for men and women will meet at 4 today in Wymilwood. Mr. R. G. Riddell's group studying Current Events will meet at 5 today in Wymilwood.

### V.C.U. OPEN MEETING

There will be an open meeting of the Victoria College Union on Friday, Jan. 18, at 5 p.m. in Alumni Hall. This is an opportunity for every Victoria student to participate in the student government of his college. Your attendance is urgently requested.

### VIC S.C.M.

Mrs. Hutchinson's group on "Jesus in the Records" will not meet today, but will meet again on Thursday, January 24th.

### THE FORUM

Meeting of the Forum in Room 3, U.C., at 4 p.m. Friday. Mr. Rogers will be in the chair and Messrs. Boyd and Baker will speak. Mr. Plumptre of the Economics staff will attend to offer criticism.

Alpha Phi subscription dance, Saturday, January 19. Crystal Ballroom, King Edward Hotel. Ferde Mowry and his orchestra.

### RIFLE ASSOCIATION

Mitchell Cup match next week. Don't miss this match as it counts for the year's score. Put on your best score as at least two new men will be chosen for the University team after the match.

## ART, MUSIC AND ORAMA

(Continued from Page 2)  
a dolt of a servant (Professor Grube) bungle things up and both the queen and the cardinal believe they have been poisoned, but are finally shown not to be after they all admit to various sins in their lives and get themselves thoroughly compromised. The king, played by our one and only Wilson Knight, was really brilliantly done. Professor Smith and the rest of the cast were also rather good and their efforts were fully appreciated by the audience.

W.B.R.

### The H.C. Players' Guild

Professor G. W. Knight presented two short scenes from "Hamlet" at the Players' Guild on Wednesday afternoon. The first, the soliloquy "O, what a rogue and peasant slave am I", was a sincere and convincing effort to show Hamlet's mental turmoil. Drawing his dagger to stab the imaginary occupant of an empty chair, Professor Knight betrayed the quality of Hamlet's emotion with alarming vividness. The use of a cloak, which Hamlet cast off at one point on the stage, at the beginning of this scene, and picked up from another, at the end of the second, appeared superfluous.

The opening of the second scene was awkward, as the curtain parted in the middle of a conversation which had obviously not begun. Later in the scene, Polonius, played by Dick Fonger, was entirely visible behind the arras and consequently a bit unconvincing, as he made no movement or indication of being stabbed when he was. We are told that this is the conventional manner of hiding Polonius, but it seems a trifle ridiculous when we have seen him go behind the curtain in any case. He obliged us later with a realistic fall, when the curtain was drawn back.

The Queen, played by Miss Josephine Barrington, was a trifle smug and inadequate as to gesture and facial expression. When turned away from the audience, especially, she appeared to be listening to the most moving passages without the slightest interest. Her gestures throughout were vague and uncertain. A batik scarf appeared a trifle incongruous in her costume.

### CHEMICAL ASSOCIATION

An industrial meeting of the Toronto Chemical Association will be held on Thursday, January 24th, at 8 p.m., in the large lecture room of the Chemical Building, University of Toronto. The subject will be: "Industrial Filtration". A number of speakers from the Toronto district will discuss various types of industrial filters and their applications in meeting filtration problems. All members of the association are invited to take part in the discussion. As usual, refreshments will be served at the close of the meeting.

### W.U.A. MUSICALS

There will be a W.U.A. musicale on Sunday, January 20, at 3 o'clock in the Women's Union. The guest artists will be Harry Adaskin, violinist, and Frances Adaskin, pianist. All U.C. women and their guests are invited. Tea will be served.

### MEN'S GLEE CLUB

Rehearsal in the Music Room of Hart House at 5 o'clock, Thursday. A full attendance is urged in view of the imminence of the Sunday evening recital to be given by the club.

### U.C. PARLIAMENTARY CLUB

The first session of the club for the new year will be held at 4 o'clock this afternoon in the junior common room. His Excellency the Governor-General, Lord Sydney of Hermant Heath, will open Parliament and read the speech from the throne. His Excellency hopes all U.C. men will be present.

The ghost of Hamlet's father was read by Paul Bridge, but not, fortunately, in the conventional monotone of stage ghosts.

On the whole the scenes were satisfying and Professor Knight deserves some congratulation for his capacity to arouse considerable interest in so brief a production. The remarkably fine diction of himself and his cast has much to do with this. All the actors spoke in deep, clear tones and Professor Knight showed a peculiar feeling for tempo and rhythmic effects. The obvious sincerity and interest of the cast made for a convincing performance.

D.G.W.

### Eaton Auditorium

Last night in the Eaton Auditorium we were given a new treat in dance recitals. Doris Humphrey, Charles Weidman and an ensemble of exceptionally fine young dancers brought a new dance form to the Toronto audience.

The dance is ever raising its status among the arts. It is an expression which every human being, without special training, can readily understand. The dance is an art, in which we, ourselves, supply both the expression and the medium. Since the light dawned upon the dance world and mechanical ballets with their hard-toed slippers, gymnastic and discriminate leg-flinging, the dance as an art-form, has been trying many methods and techniques in order to get the most and fullest expression from the body.

In the last twenty years such exponents of the dance as, for example, Mary Wigman, Ruth St. Denis, Ted Shawn, Kreutzberg, Martha Graham, Doris Humphrey and Charles Weidman, have each tried to work out these techniques. Mary Wigman dances with her torso as a sort of central which controls and directs all the movements. She is thus able to maintain a rhythm which is solid, definite and powerful in expression.

Weidman and Humphrey use the limbs predominantly and let the torso follow. By this means, they are able to give lighter expressions and more varied ones, but their dancing lacks surety and precision. The torso is the

## LONDON EDUCATIONALIST OFFERS FREE TUITION

(Continued from Page 1)

country, and in Toronto at the Parliament Buildings. Dr. James said he already had several people studying the course in his own schools, and offered to allow the students to attend them if they wished. The university course, in the first year, is to consist of five subjects. He suggested English, mathematics, and Latin as compulsory subjects, and an option of two more from French, Spanish, and Heat, Light and Sound, although there are some forty optional subjects. In the second year the subjects are narrowed to four, and in the final year to three. Dr. James would pay for all tuition, but not for examination fees, amounting to about fourteen dollars next July, and less than a hundred dollars for the whole course.

Mr. A. B. Fennell, the Registrar, stated that the number of students who were dropped is now much less than the forty previously announced. Many have come in and paid their fees during the last few days, and he said he had no doubt that many of those who had been dropped had already given up their courses during the Michaelmas term, without having informed the university.

VOL. LIV.

UNIVERSITY OF TORONTO, FRIDAY, JANUARY 18th, 1935

No. 67

### NEWS OF THE WORLD IN BRIEF

Ottawa—The Speech from the Throne at the opening of the Dominion House of Parliament revealed radical plans for economic and social reforms in Canada. The chief measures mentioned were unemployment insurance, federal minimum wage law with maximum working hours, prison reform and changes in income tax collection.

Geneva—League of Nations unanimously in favour of the return of Saar Valley to Germany. Transfer formally takes place on March 1.

Washington—President Roosevelt outlined before Congress projects for unemployment insurance, child welfare, old-age pensions and state public health programmes. Import duty on beer cut fifty per cent.

Flemington, N.J.—Bruno Hauptmann calls federal officer, liar, as latter tells of accused's hiding place for ransom bills.

Toronto—Theo Ligault, Liberal M.P.P. for Nipissing, stricken at conference with Premier Hepburn in Queen's Park.

Washington—Aeroplane and dirigible passenger services across Atlantic are approved by President Roosevelt.

### BRUCE'S VETO UNIQUE EVENT

Professor Says Refusal to Meet  
Conservative Debt Quite  
Legal

#### MORAL OBLIGATION?

"This case is almost unique in recent history," said Professor G. W. Brown of the Department of History, yesterday afternoon when interviewed by *The Varsity* regarding the recent use of the Lieutenant-Governor's veto.

Four days before it left office last July, the late Conservative administration passed an Order-in-Council to pay \$500,000 which had been practically promised to a power company previously for work it had undertaken. The Lieutenant-Governor, not thinking it wise that such a large sum of money be paid out just as the government was changing hands, refused to sign the document. As his signature is necessary before the document is complete, the money was never paid. The only assurance that the company had that they would be paid, was the verbal assurance of Mr. Henry, that they would be "treated fairly".

According to Dr. Brown the province is not legally bound to pay the money, but there may, or may not, be a moral obligation, depending on whether the project was wanted, or considered of value to the province.

"The Lieutenant-Governor's action was entirely constitutional," said Dr. (Continued on Page 4)

### Symphony Tickets

A limited number of special student tickets for the Toronto Symphony Orchestra concert of Tuesday, 22nd January, will be on sale at the Hall Porter's desk, Hart House, on Monday and Tuesday, from 12.30 to 1.30 p.m.

## CONFERENCE FOUNDERED CAN NOT BE RESUMED NOW

DR. O. E. BUCKLEY

Director of Research of the Bell Telephone Laboratories in New York City, who is to speak before the Royal Canadian Institute in Convocation Hall on Saturday evening. The lecture will deal with problems which arise in the industrial laboratory of the Bell Telephone Company. Students are invited to attend the lectures every Saturday evening. There is no charge for admission.

## MATHEMATICS USED FOR FINEST MUSIC

Dr. Horwood Addresses M. and  
P. Society on Construction  
of Music

#### POPULAR SONGS STOLEN

"Some people think that mathematicians never make good musicians, but mathematicians and music are very closely allied," Dr. Horwood, of the Conservatory of Music, declared in an address on Music and Mathematics, at a meeting of the M. and P. Society, yesterday. "I can understand, however, that mathematicians at the University are not often good musicians, because they do not have sufficient time to do the necessary practising, the speaker added."

"The best music—that which lasts longest and continues to be pleasing after repetitions, is the music which is constructed mathematically as well as musically. Only occasionally is music the inspiration of the composer—usually it is the product of hard work and (Continued on Page 3)

## W.U.A. MUSICALE HAS GUEST ARTISTS

Frances and Harry Adaskin  
to Play this Sunday  
at Women's Union

Two well-known Toronto musicians will entertain the women of University College on Sunday, January the twentieth. The concert, which is a monthly affair, is sponsored by the Women's Undergraduate Association and takes place in the dining room of the Women's Union at three o'clock.

This Sunday the artists are to be Frances and Harry Adaskin, familiar to Toronto audiences as brilliant pianist and violinist respectively. Mr. Adaskin is known particularly to campus audiences as second violinist in the Hart House String Quartet. Both have played several times at Hart House in the last few years. So great had been their popularity and so strong the demand for further appearances, that the Women's Undergraduate Association (Continued on Page 4)

Hopeful Gathering of 1932  
Failed on Technical  
Details

#### DISCUSS SAAR PLEBISCITE

Must Use Indirect Methods  
of Providing Security  
before Disarming

"Germany wanted equality—France wanted security, and on that rock the Peace Conference of 1932 foundered," said Mr. Riddell at his Current Events group yesterday afternoon at Wymulwood. "The abrogation of Japan this Christmas makes the resuming of that conference now practically impossible."

Mr. Riddell first discussed briefly the results of the Saar plebiscite. "The course was logical. The people are Germans and there will be some relief for the strain of affairs in Europe, although it will mean another undemocratic group and further dissolution of the left wing machine."

"We all talk yet the world has never been so completely armed," continued Mr. Riddell. "The need for disarmament is obvious. \$3,856,000,000 is spent yearly for arms. Soldiers and armaments are economically unproductive. Other trades are rendered less effective. For instance, passenger boats are built so that they will be useful in time of war."

Pledges for disarmament were included in the Versailles treaty and the code of the League of Nations. There have been numberless attempts for agreements and the councils appointed have had too little power and too many military and naval specialists who can not see the civilian viewpoint. The only result of the Washington Conference was an agreement not to build ships of a size now considered obsolete.

The conference of '32 was a hopeful gathering long prepared, but it broke down on technical details. The basis of disarmament could not be chosen, each power being willing to dispense only with the branch it needed least. Japan's attack on Shanghai made it difficult to make the discussions seem sincere. The new Nazi outlook in Germany made that country spurn the proposed agreement.

"We will have to use indirect methods of providing security before attacking the problem of disarmament," concluded Mr. Riddell. "Unless you can take away the fear of neighbours a successful issue is impossible."

## Inconsequence

The return last night of Ken Woodworth, third year Victoria and Marjorie Drummond, third year U.C., from the Student Congress against War and Fascism at Brussels, heralded the opening of a vigorous pacifist programme in Canada. A third Canadian delegate, from McGill University, attended the conference, and it is planned to organize, not only the east, but the west of Canada into a youth peace movement. American and Canadian organizers intend to collaborate with the World Committee, and the American colleges will be organized from a central office at Chicago.

The two Toronto students were sent to the Congress by the Anti-War Society at this University and were selected not only because of their ability to deal with the problems in question, but because they were willing to devote a considerable amount of time to the cause on their return. Mr. Woodworth, as a student of Political Science and Economics, is well fitted to cope with the traditional aspects of War and Fascism and Miss Drummond (Continued on Page 4)

## AWFUL GOVERNMENT EASILY AVERTED IN U.C. PARLIAMENT

Idle Factories and Lands Will  
Provide Work for  
Unemployed

#### WALKS TO BE SHOVELLED

Distribution Board will be Set  
up with Confiscatory  
Powers

"Think what an awful, awful government will get in if we are defeated," pleaded Premier Wilfred Smith in opposing the motion before the first meeting of the 1935 session of the University College Parliament. The government alluded to, of course, was the Communist opposition led by Israel Kaplansky.

The session was formally opened by His Excellency the governor-general, Sidney Lord Hermant of Health, K.C.M.G., F.O.B., etc. In the speech from the throne there was promised government ownership of all idle factories and lands to provide work for Canada's myriad unemployed. For the proper distribution of the products thereof a Distribution Board with confiscatory powers is to be set up. A "catastrophic, cataclysmic" (to use the graphic words of the original) system of public works is proposed; breach of promise suits are to be abolished; all sidewalks are to be shovelled clear of snow; and the whole will be financed through the Central Bank's manipulation of money.

Finally, the king's New Year's honours were announced. In part, they are as follows: (Arnold Lord Smith of Oxford, U.C.C., R.S.W.; Sir William Stobie, C.O.D., Q.E.D.; Hart Buck, M.D., "Call Me Darling", and many others.

Kaplansky, leader of the Opposition, in opposing the motion to thank His Excellency for his speech, complained that the means of production were still to be left in the old, lawless, private hands. In any case, the C.N.R.'s failure shows how futile is the taking over by the government of particular industries.

(Continued on Page 3)

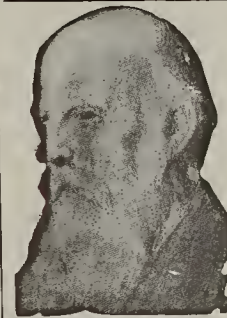

## VALUE OF LONDON OFFER DOUBTFUL, SAYS DUNLOP

Correspondence Course Can  
Not Lead to Toronto  
Degree

"I do not think that the offer by Dr. Earl A. James of free tuition in extramural courses in the University of London, England, will be of much importance for the students at the University of Toronto," stated W. J. Dunlop, Director of Extension Work and Publicity in an interview with *The Varsity* yesterday. "There are only a very few students who are forced to leave college through non-payment of fees. The Student Loan Fund looks after most of the students who need financial aid."

Mr. Dunlop was of the opinion that it is very difficult to study by correspondence and questioned the value of such educational methods. He informed *The Varsity* that the University of Toronto grants no degrees by correspondence. The extension work is done through evening classes and Summer School sessions. Teachers, however, are prepared through correspondence courses for degrees which they must study for at Summer School. The University of London grants a degree to correspondents equivalent to that obtained by their intra-mural students. The University of Toronto has never been in favour of such a policy.

## DIETS BECOME HEALTHIER AMONG UNDERGRADUATES

SIR WILLIAM MULOCK

Right Hon. Sir William Mulock, Chancellor of the University of Toronto, and Chief Justice of Ontario, who celebrates his 91st birthday tomorrow.

## CANADA LACKS NEW TREND IN BUILDING

E. A. Arthur Declares Masculine  
Effect is Desired in  
Architecture

#### ADDRESS ILLUSTRATED

"The objective of architectural schools of today is to teach the student an appreciation of things simple so that he may achieve an effect masculine and unaffected," was the statement made by E. A. Arthur in his illustrated lecture on architecture at West Hall, yesterday afternoon.

Due to the tendency of Canadians in this field to look back rather than forward, Mr. Arthur continued, Canada can boast no modern movement in architecture similar to the one which is taking place in painting today. Slides of the Montreal Jewish Hospital, and Eaton's Round Room on College St., Toronto, were used to depict the present trend.

Until Confederation there existed in Canada two distinct types of design, namely French and English. French style is most clearly illustrated by reference to the Seigniors with its high pitched roof, its dormer windows, and massive chimneys, while English dwellings consisted chiefly of rough hewn logs, which later gave place to the Georgian style, stressing columns.

Although French churches of this time are characterized by their simple dignity and unadorned walls serving as a background for the glory of the altar, in all Ontario only two churches may be referred to as representatives of the Georgian type.

From this point, proceeded Professor Arthur, English architecture advanced until semi-detached houses of brick were made, to the tendency today when two houses with eighteen inches between them are built instead.

## Opening For Foresters Seen in Wood Industry

The opportunities for foresters in the field of wood utilization was the subject of a speech by Mr. F. Sharpe at the first meeting of the Forestry Club for the new year at Hart House last evening. Industries using wood were stressed as the most likely field for job hunters.

The lecture was illustrated by moving pictures, showing the process of the utilization of white pine from its natural state, a living tree, to the finished product in the mill.

Students Grow Food Conscious  
and Choose Dishes More  
Wisely

#### EAT WELL-BALANCED MEALS

More Fruit and Vegetables,  
Fewer Rich Desserts  
on Menu

The modern undergraduate, contrary to public opinion, is gradually acquiring a far more sane and healthy attitude towards his diet, than had those of five years ago. According to a report made by one American University, "undergraduates are eating more vegetables and fruits and avoiding rich, over-elaborate desserts."

At University of Toronto students are likewise choosing more wisely in regard to their diet, than they formerly did. At Wymulwood cafeteria, where Victoria women students lunch regularly, it has been found that the girls are choosing very well-balanced meals. "They seem to be becoming more food conscious," *The Varsity* was told. "This may possibly be due to the fact that more students are taking Household Science, or to the power of modern advertising. Of course we don't really give them a chance to eat unhealthy foods and their choice is limited to such foods as make up a fairly balanced diet. It is impossible, to balance such a diet as a whole, but we try to give them the best percentage of calories and minerals."

At the Women's Union, the same conditions prevail. Over-rich foods are avoided but a wide choice of vegetables and fruit is given the undergraduates, who on the whole choose remarkably well. Still it is purely a matter of taste, and the girl who takes a well-balanced meal here would probably do so under any circumstances.

## CO-EDS DISLIKE POPULARITY STUNT

Contest to Advertise Band  
Concert Considered  
Cheapening

#### LOWER UNIVERSITY'S TONE

Co-eds, generally, do not echo the approval of the members of the Blue and White Band for holding a popularity contest to advertise their annual band concert. The following are a few co-ed opinions picked at random.

Isobel Kerwin, I Pass: "I fail to see the connection between a band concert and a popularity contest. It is cheap and vulgar—but would provide a lot of fun for non-contestants."

Dorothy Stock, II Sociology, believes that such a project would fail miserably through lack of general enthusiasm. She added, "It would lower the general tone of the University, which is, at present, above anything of this kind. Besides, I don't think the girls would enter it. It would be received in the same spirit as the date bureau was."

Jeanne Hartfield, I Pass, considers it as a ridiculous method of advertising (Continued on Page 4)

## S.P.S. Student Dies

It is with deepest regret that *The Varsity* learns of the death of one of the University's brilliant students, Philip Becker, twenty-two years old, student in Architecture, who died last Tuesday night after a prolonged illness.

## Manners Maketh Man

We have frequently been appalled by the rudeness shown by many of our supposedly adult intelligent students towards their professors. It is remarkable how few students seem to be aware that lectures are supposed to begin at ten minutes past the hour, and unless the professor locks the door or makes himself otherwise hateful his students consider themselves privileged to wander nonchalantly into the classroom anywhere from one to ten minutes late. No matter how quiet they may be everybody is disturbed by the late entrance.

Some classes seem to consider the entrance of the professor an intrusion and continue their conversation in quite audible tones for several minutes after he comes in. He is forced to wait patiently for a partial cessation of the din before he can begin his lecture. Then five minutes before the end of the hour everyone begins closing their notebooks, fastening up their coats, opening and closing purses, so that in a class of any size, the last words of the lecture are lost even for those who wish to hear them.

Of course, the professor can prevent this if he chooses to make a martinet of himself. But most professors prefer to be human and in return have every right to expect a little human consideration from their students. We are not kindergarten pupils and it ought not to be necessary to treat us as if we were. The supposition is that people who go to lectures do so in order to learn.

No one with an honest desire to learn will seek to curtail the lecture period by making unnecessary noise. And no one without an honest desire to learn ought to be at the University. So what?

## The Personal Touch

The word "service" as used in the everyday discourse of life, used to have a much finer and a much more pleasant relation to our thoughts than it possesses today. The little transactions of daily life were enlivened and vitalized by the personal connection between the buyer and the seller, the consumer and the producer. The rushing tide of time seems to have carried this "personal touch" away into the limbo of the forgotten; today we are served with a cold impersonal efficiency; we are faced with a battery of cash registers, one-man street cars and dial telephones.

The producer today, considers his whole duty to the public ends in placing his articles on the shelves where the public can reach them. He supplies the machine, the public supplies the motive power. A dial telephone is a wonderfully useful instrument. As a mechanism it performs its function according to design, automatically and accurately—that is, if you have dialled the right number. Yet how much more human is the instrument which preceded it! The operator's pleasant "number please" and "thank you" made us feel much more keenly the obligation we owed to the service. A dial telephone, by comparison, is a commonplace.

Then there are with us the groceries and department stores of the self-serve variety. Again we have the mechanism, but where is the service? The proprietor of the pre-chain store era prided himself on his motto "We aim to please". This applied to every customer. But the chain store is not concerned with the individual. Come one, come all, they receive the same cold, efficient attention. The goods are

there, and the customer takes them off the shelf, pays to the cash register and carries them home. The aim of the transaction is meticulously carried through, the exchange of money takes place and everything is mechanically correct. Yet something is lacking. We would rather hear the clerk's courteous "Thank you", as he counted the change into your hand, than to see the words on the door as we pass outside.

Perhaps we should be flattered at the tribute to our growing intelligences, for after all these people must consider us capable of handling the mechanism with which they entrust us. But we miss the little amenities which make the transference of goods and money worth while, the courteous greeting and the exchange of small-talk. There is something dreadfully soulless about a cash register.

## This Cosmopolitan World

A popular American magazine has for some months been featuring a double page layout of sketches by several prominent artists illustrating "Scenes from this Cosmopolitan World." "The Metropolitan Opera," "Film Land," and "Polo Week," are a few of the phases of modern life which have thus been depicted.

At the University of Toronto there are gathered some seven thousand young men and women, drawn from all walks of life. The cynical remarks of certain of the faculty to the contrary, these seven thousand do not all run to form. They have their own particular likes and dislikes, weaknesses and strong points, ambitions and ideals.

At Varsity you may study English Literature or Engineering, Economics or Botany. You may major in sports, studies, or dancing, and become a fine athlete, a clever student, or a social celebrity. You may sample all three in properly balanced proportion and achieve what is referred to as a good general education.

In their spare time, students of this University employ their talents teaching in Sunday School or singing in night clubs. Some work off their excess enthusiasm writing poetry; others play snooker. They spend their evenings at home reading the classics, or Thorne Smith.

We suggest that the artists to the south, before concluding the current series, look to the nearest University and there seek further scenes from this cosmopolitan world.

## Femininity

Ever since the days of the late Queen Victoria, the female of the species has been casting aside one tradition after the other, holus bolus almost without knowing what they are doing. First one thing went and then the other, until today very few fields remain into which a woman cannot poke her nose. We note with rude feelings of exultation that in the royal wedding which took place recently in London, the words, "Honour and obey", occupied their rightful position in the ceremony.

Perhaps some people will think we are unduly prejudiced, but that is not so. No person of average or everyday commonsense would hesitate for a moment in saying that women were too restrained in Victorian times; they were hemmed in by conventions, the least violation of which would involve their social status; they were intended simply and solely for marriage. The female sex has of course that function as one of primary being, but it is not the sole purpose of their existence. Therefore it is advantageous for women to be trained to be wives, to be the mothers of the world's children, but their training should not be confined to this, nor should this be their sole occupation in life.

Unfortunately many women have forgotten their primary duty, and only remember the last. They want all the rights and pleasures of the male sex, most of them desire to retain those of the female sex, and yet they earnestly wish to avoid the responsibilities of either. They do not undergo the trials or tribulations of family life, nor do they saddle themselves with the responsibilities of supporting a family. Nevertheless they are trying and expect to get the best from both. Women complain that there exists no longer that sense of chivalry once so prevalent in the male sex—if they are right, we do not admit this,—they have only themselves to blame.

—The McGill Daily.

They have entered the man's field of activities, and thus forfeited by their actions the exclusive consideration once vouchered them by the opposite sex. The best in anything can rarely be obtained by reaching a definite extreme. Women who admire the rights of the male to such a degree that they unconsciously sacrifice their natural heritage and privileges as women will find the result less satisfactory even than the undesirable conditions of the past. When the cure becomes worse than the ill, it is a doubtful cure. A happy medium is the only course that possesses something really worthwhile.

## ART, MUSIC & DRAMA

### Sunday Evening Songster

The fifth songster of the year will be held in the Music Room of Hart House on Sunday evening next at 8.45 p.m.

J. Campbell McInnes will conduct the following programme:

O! for a thousand tongues  
Sea fever  
Trade winds  
Port of many ships  
Since first I saw your face  
The modes of the court  
Men of Harlech  
Heiden-Roslein  
The Golden Vanity  
The Heavens declare  
O! Canada

### Friday Afternoon Recital

Hubert Eisdell, tenor, and Elie Spivak, violinist, will be the artists at today's Friday Afternoon Recital to be held at 5 p.m. in the Music Room of Hart House when the following programme will be given:

I  
Mein Liebesten Jesus ist verloren  
Mein Jesus ist verstanden  
(Bach)  
Hubert Eisdell  
II  
Adagio in G minor  
Siciliano (arrangement by Barrere)  
Presto

(Bach)  
Elie Spivak  
Continued on Page 4)

A certain man, Joab, had two sons, and the younger of them said to his father, Father give me the portion of thy passes that falleth to me. And he divided to them his passes. And not many days after the younger son gathered all together, a pass for the Imperial and two Roxy stubs, and took his journey into a far avenue; and there he wasted his passes with riotous living. And when he had spent all, there arose a mighty famine in that district; and he began to be in want. And he went and joined himself to one of the citizens of that district, by profession a tutor of history; and he sent him into the fields of knowledge to write examinations and essays and feed them to professors. And he would fain have been filled with the essays that the professors did eat; and no man gave Castles unto him to write. But when he came to himself he said, How many hired servants of my father's

## ROYAL CANADIAN INSTITUTE SATURDAY EVENING LECTURE

JANUARY 19th

CONVOCATION HALL

ADMISSION FREE

**DR. O. E. BUCKLEY**

Director of Research, Bell Telephone Laboratories, New York City

SUBJECT:

"Noise in the Air and in the Ether"

This lecture will deal with extensive studies of noise in relation to hearing and communication, which have been carried on in the Bell Telephone Laboratories. In all systems of communication in which sound is transmitted, whether by air, by wire, or by ether, the effective reception of the sound is dependent upon the lack of noise. If noise is too loud, sound is blotted out. Among the subjects that will be discussed in the lecture, are limits of hearing, sources of noise, attenuation of noise, noises arising in electrical communication, including radio. Underlying all other noise is a background of thermal noise which is just beyond the range of the human ear, but is a limiting factor in electrical communication.

Dr. Buckley will explain these problems in a popular way, and attempt to show you how an industrial laboratory deals with them.

## THE SPORTSWOMAN

By J. E. T.

Last night the intercollegiate basketball aspirants turned out for another hour of stiff training. The girls are taking their work pretty seriously, and they are kept busy from the minute they get on the floor until the second they leave it. There were decidedly fewer girls out last night than there have been up till now, which is a trifle discouraging. This is a critical time in the life of the basketball team, and it is very important that every player turn out to every practice. Kay Brown and Mary Louise Carre are displaying more of their old flashy forwarding than they have up till now, and the general material looks quite good so far. At the next practice, on Tuesday at 6 p.m., everybody interested is expected to be out.

Reports about the Victoria hockey team are very optimistic and encouraging. Most of the members of last year's Sealeat and Gold first squad are in evidence again this year, as enthusiastic and as hopeful as ever. Added to these there are a great number of promising freshies on the ice. These facts perhaps justify Vic's cheerfulness. Maisie Cowan is still showing her usual genius at the goal, while Gladys Wagg at centre ice is turning in some good work, and appears to be one of the more promising of the Freshie aggregation.

The Interfaculty Badminton Club will meet next week to discuss and arrange the forthcoming interfaculty tournament. The various faculties are to run their own tournaments off and pick their teams as soon as possible—preferably early in the week—so you badminton enthusiasts had better get busy with those birds. Some real finds are expected among the crop of freshies this year, according to the reports of the different faculties.

There are still plenty of openings for ambitious swimmers on the interfaculty swimming teams. In less than two months the interfaculty meet is scheduled to take place, so that every swim-minded person is urged to don her bathing suit as often as possible. Let us remind you again, that in order to make any of these teams, it is absolutely necessary to be in the pool regularly, from now till then.

### Trinity College Chapel

Sunday, January 20th  
8 a.m.—Holy Communion  
11 a.m.—Morning Prayer and Sermon by the Rev. F. H. Moore, formerly of Hart House, University of Toronto.

Mendelssohn

## ST. MIKE'S DEFEATS U.C. CLOSE CHECKING USED

Making their first start in several seasons the St. Michael's College basketball team last night eked out a single point victory over the University College quintet on the little gym floor. The final score read 11-10 in favour of the Irish.

The contest was of an unusually interesting nature with the close checking tactics employed by both clubs tending to minimize the scoring. The count was tied at 4-all at the halfway mark, and during the last session, U.C. counted three baskets while St. Mike's were limited to two. However, three foul shots, all of which were good, gave the Bay Street team the single point margin.

St. Mike's: Blum, Nally, McGovern, Bedford, Barone, Kaufman, Dooley, Harris, Tuffs, Brigger, Cerame.

U.C.: Holt, Applebaum, Burton, Humenick, Levine, Beatty, Sharpe, Patnick, Beckett, Taylor, Beatty.

## EMMANUEL VICTORIOUS OVER KNOX COLLEGE

A heavy hitting barrage in the final inning, which was productive of seven runs last night gave Emmanuel College a 12-11 victory over Knox in an interfaculty baseball game in the big gym. The winners trailed the Knox team until the last big innings when they were able to batter their way to the front.

Knox went to work in the second, when they found Martin for six runs and then again in the fourth they brought five men home. Emmanuel picked up two runs in the first, three in the second and seven in the final frame to complete the scoring.

Emmanuel: Martin, Young, Taylor, Shaw, Huser, Moffat, Crasley, Bath, Amos.

Knox: Hebbon, Smith, Wier, Campbell, Evans, Ford, McDonald, Murdoch, Sinclair.

## VOLLEYBALL TEAM IS NOT DISCOURAGED

Although defeated in their two early starts the University of Toronto volleyball team are far from discouraged in their outlook toward the city series in which they are entered. The club has appointed as coach, Mort Devitt, and the regular practices should be of more than a little value. In both their defeats the students were just nosed out and believe they can, with a little practice, take any team in the league.

There is still room for interested players and the practice periods are announced as Sat. Jan. 24, at 2 p.m.; Thurs. 24, 5 p.m.; Thurs. 29 at 5 p.m.

## ST. PAUL'S CHURCH

Sundays and Holidays.  
Closes Wednesday 7 p.m.

## SPEAKING OF SPORT

By B. J. McGuire

It's do or die for the Blue team in Hamilton tonight. Warren Stevens' victory-starved students will encounter the league leading Bengals in their own lair for the second time of the season. And the hopes of the Varsity squad for getting into the playoffs are slowly fading away. However, there is still a good chance that the Blue and White colours may be flying when the playoffs roll around. There are five teams in the league, four of which will figure in the playoffs. As the situation stands now, it is either Varsity or Port Colborne who will pass from the picture. Port Colborne have at present several points lead on the University team, but Varsity will meet the Ports twice and Oakville twice before the season closes. The Blue team should be able to take this pair of clubs in their next engagements. If they do they may still hope to figure in the playoffs. Incidentally this arrangement for the group title will never prove a very profitable proposition from a box office standpoint. When it is a case of four out of the five teams reaching the playoffs, the public is likely to consider the regular schedule as merely so many preliminaries and wait for the playoffs to see their real hockey.

The interfaculty hockey league is scheduled to get under way Monday. During the past year there has been an effort made to increase the importance of the Jennings Cup games, and while it is as yet second only to the Mulock Cup struggles, it bids fair to increase in popularity. Victoria College, who took the Cup last season after a rather strenuous battle with the Engineers, will again have a good club although probably not so powerful as last season; School is reported to have a dangerous entry, while U.C. have only to locate a goalie and they too will take some beating.

Around the gym where the boys are preparing for the meet with Syracuse, January 26th, there is much speculation as to the capabilities of the candidate for the heavy crown, Pocius of St. Mike's. The lad weighs several pounds over the two century mark and has all the appearances of a natural. While his past activities have been connected with wrestling he has been proving himself a very effective boxer. At the present time there is a famine of heavyweights in Canada and the big fellow may be in line for a Canadian title. Maughan, the McGill champion who held the Dominion crown for several years, has retired, while Maitch, the Brantford heavy, turn pro last summer. The big difficulty Pocius will have to face for some time is the lack of competition. Around the University there is none at all, while should he care to go downtown he would find little there. Just how good he is will be seen when he meets the Syracuse champion here next week-end.

## Manager Needed

Applications for the position of manager of the University volleyball team, playing in the city league, will be received in the Athletic Office up to Wednesday, January 23rd.

## HOCKEY SCHEDULE

Monday, Jan. 21, 4 p.m., at Stadium,  
U.C. vs Forestry; 4 p.m. at Arena,  
Trinity vs Victoria.

Wednesday, Jan. 23, 5 p.m. at Stadium,  
Jr. Meds vs Jr. S.P.S.; 3.30 p.m. at Arena, Emmanuel vs Wyckiffe; 4.30 p.m. at Arena, Forestry vs Dents.

Thursday, Jan. 24, 4 p.m. at Stadium,  
Knox vs Trinity; 4 p.m. at Arena,  
U.C. vs Pharmacy; 5 p.m. at Arena,  
Sr. Meds vs Sr. S.P.S.

Friday, Jan. 25, 4 p.m. at Stadium,  
Emmanuel vs Victoria; 5 p.m. at Stadium, Dents vs O.C.E.

These games start at 5 minutes after scheduled time. If 5 men cannot be placed on the ice at this time a five minute penalty will be imposed and one player when the sixth does arrive. This until 10 minutes after scheduled time when the lack of a full team will necessitate a default.

## MATHEMATICS USED FOR FINEST MUSIC

(Continued from Page 1)  
thorough knowledge of musical constructions and technique."

The principles of mathematics—such as addition, multiplication, permutations and combinations, can all be applied to music. Dr. Horwood wrote two bars of a tune and showed that by repeating this theme a degree higher, by adding slight changes and rests and finally by diminishing the intensity and bringing it to a close a 16 bar tune can be constructed mathematically though the re-

sult is inclined to be unpleasantly severe. Such a tune can be expressed algebraically—though it is not the type used by Walter Damrosch or Paul Whiteman.

"People who write songs do not reveal the methods they use, and I don't wonder," Dr. Horwood went on to say. The Banana Song, which was so popular some time ago and which made a profit of \$750,000 in royalties for its composer, is the skilful combination of several well-known songs. The first two bars of the chorus are identical to the first phrase of the Hallelujah chorus of Handel's Messiah. For variety the composer took the next two bars from "My Bonnie lies over the ocean"—continuing with a phrase from "I dreamt I dwelt in marble halls". The next few notes the author wrote absolutely originally and are not to be found in any of the great classics. The chorus is concluded with a few bars of a popular American song—"From Aunt Mary's Quilting Party I was Seeing Nellie Home".

Finally by filling in the alto and bass parts to harmonize with a simple treble tune Dr. Horwood pointed out that these three tunes could be placed in 6 different ways by means of combinations and permutations. One of Mozart's many symphonies is composed in this way. There are five distinct tunes capable of being placed in 120 positions, of which Mozart used about 20 or 30.

## AWFUL GOVERNMENT EASILY AVERTED

(Continued from Page 1)

The patent inconsistency of these statements was alleged by Jack Minsky, who went on to shoot personal arrows at the Opposition leader. Mervyn Minsky condemned even more bitterly the Opposition leader's slovenliness in presenting his case. Both these speeches were allowed to go their full length before being objected to by the Opposition as out of order. The motion was

## THE HEMPEN SQUARE

With the Varsity-Syracuse meet a little more than a week away it seems certain that the Varsity boxers will make a creditable showing.

Tom Powell, who beat Merve Peeper for the intercollegiate welterweight title last year, is out and down to weight and the task of representing Varsity in this class will either fall to Powell or the dynamic punching Jack Grant. Grant, in addition to his punching ability, has developed a good left hand this year.

Freddy Smith, cagey S.P.S. featherweight who brought home a Syracuse scalp two years ago, seems to be a sure point winner for Varsity. The lightweight division will be well filled by Bill Gibson, U.C. K.O. artist, although Gibson is making his debut in senior company this year he is a far better than average lightweight and Dr. Brunk expects him to go far. Jack Brunk in the 155 class is speedy and willing and should be able to take care of himself.

Pocius, the St. Michael's leather pusher, is quite a find in the heavy-weight division, but needs more work to really reach his peak. The other divisions will be filled by relatively inexperienced men, but the way they are working will improve in the next week. Dr. Black, the honorary coach, expects great things of them; moreover, they will not be lacking in courage.

## SHAKESPEARE MYTH AGAIN EXPLODED

Rumour that Edward VI was  
Bacon and Shakespeare  
III Founded

"You must wait till the facts come out," was the comment of Professor Hodgins of Trinity on the editorial in Friday's edition of the *Mail and Empire*, which suggested that Edward VI may have lived on to a ripe old age to become both Sir Francis Bacon and William Shakespeare.

Mr. Hodgins went on to say: "There is one problem which must be explained before any theory like this can be accepted, and that is how one man could have managed in a single lifetime to achieve the position of Lord Bacon, a busy lawyer's life, to write the books attributed to him, and at the same time, disguised as William Shakespeare, to write the enormous number of plays and to manage their production."

"The most satisfactory way to deal with the mystery of who wrote the plays if Shakespeare did not is to assume that some other person by the name of Shakespeare did it," stated Principal Wallace of University College. "There is not the slightest doubt of the authorship of Shakespeare's plays; indeed there is more proof than with many other authors. This purely hairbrained theory is not substantiated by any serious historical evidence. From what we know of Shakespeare, he came from purely middle-class people and his education probably was not unusual; these facts seem to make his astonishing genius strange, and unthinking people try to make it up by trying to give him royal blood. However, he came of good stock, and likely had a sound secondary education at the Stratford grammar school."

Professor G. Wilson Knight, author of *The Wheel of Fire* and other books on Shakespeare, said: "I think these theories don't often have much truth. There have been so many I think they are a projection of people's unconscious feeling that there is still a lot of unguessed and valuable material to be mined in Shakespeare."

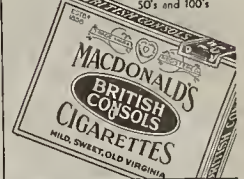

carried by a substantial majority.

Invitations are to be sent out to the Victoria College Sandwich Parliament, and to the debating societies of Trinity and St. Michael's to be present respectively at the U.C. Parliament's next three meetings. Next week, the momentous topic of the class struggle's sufficiency to explain our economic ills will be discussed.

## Sport Notices

### Trinity Basketball—

A practice will be held in the upper gym this p.m. 3-4. It is most essential that the following players turn out: A'Court, Eaton, Grant, Rogers, Loring, Stewart, Honeyford, Noble, McCatty.

### Indoor Track—

All those interested be out at 5.15 p.m. sharp Tuesday January 22, for the following events of the interfaculty indoor track meet: 50 yds. dash, 1-2 mile run.

### U.C. Women—

Hockey practice Saturday, 12-2, at the Varsity Rink.

## Men Beware of Fan With Dual Purpose!

While snooping around the museum the other day *The Varsity*, always on the lookout for something new and different, made a discovery. We found a Japanese fan with a dual personality! You have seen all kinds of fans we know—electric fans, movie fans, radio fans, and just ordinary ones, but this fan we speak of is a very distinctive one. It is innocent enough in appearance, but actually is made of steel, overlaid with gold and silver with leather leaf. These unusual fans were carried by Japanese knights in former days, and from their perfection of balance were almost perfect in their function as fans. However, another and even more important use was designated to them, for in a second the fan could be snapped shut and become a most vicious weapon, which could even crack a skull with ease.

So may we pass on a word of advice to you young men! If your lady love carries a fan you had better investigate it carefully, and look well into your behaviour; for it might be a reproduction of a Japanese seventeenth century war-fan.

have Cats to write and passes enough to spare, and I perish here with writer's cramp, yet hunger! I will arise and go to my father and will say unto him, Father, I have sinned against Champus in thy sight: I am no more worthy to be called thy son; make me as one of thy hired servants, Mundusvult or Jezebel. And he arose, and came unto his father. But while he was yet afar off his father, Jacob, saw him and was moved with compassion, and ran, and fell on his neck, and kissed him. And the son said unto him, Father, I have sinned against Champus, and in thy sight; I am no more worthy to be called thy son. But the father said to his servants, Bring forth quickly the best typewriter and put it before him; and put copy paper in his hand and a chair beneath him; and bring the fatted calf-skin pouch of theatre passes, and open it, and let us go to shows, and make merry; for this my son was dead, and is alive again; he was lost and is found, and will write Cats again. And they began to be merry; yea, even

The Muddy Yorker.

## CO-EOS OSILKE POPULARITY STUNT

(Continued from Page 1)

ing a band concert. "I think it would not be in keeping with the atmosphere of this University, and I don't see any connection between the two."

Helen Kew, II Pass, does not feel that such a project would be a success. "The band concert would certainly obtain more support if something else were added, but a popularity contest would tend to cheapen the enterprise."

## Coming Events

### FRIDAY, JANUARY 18

5.15—Miss Biss's group for U.C. women will meet in her room in Faulkner House.

Victoria College Athletic At-Home. Dinner in Burwash Hall for athletes at 7 p.m. Formal dance in Wymilwood at 8 p.m. Sign ticket list in college hall. Hal Taylor's orchestra.

### SATURDAY, JANUARY 19

8 p.m.—T.I.C.C.U. meets at 205 Madison Ave. Discussion of second chapter of first Epistle of John.

9 to 12 p.m.—Alpha Phi subscription dance, Crystal Ballroom, King Edward Hotel. Ferde Mowry and his orchestra.

8 p.m.—3T7 Victoria spring dance will be held in Burwash Hall. Admission by invitation only. Music by La Pierre Muir and his orchestra.

7.45 p.m.—3T5 Victoria senior masquerade spring party, Wymilwood. Good orchestra, movie shots, refreshments.

### SUNDAY, JANUARY 20

9 p.m.—Wymilwood musicale. The guest artist will be Mrs. Gladys Allen McLean, soprano soloist of the Metropolitan Church and of the Bach Choir.

2.30 p.m.—All Fratellanza members are reminded that an important meeting takes place in the Music Room, Hart House; a good attendance is expected.

9 a.m.—Holy Communion, Hart House Chapel.

3 p.m.—W.U.A. musicale at the Women's Union. The artists will be Harry Adaskin, violinist, and Frances Adaskin, pianist. Tea.

### MONDAY, JANUARY 21

8.30 p.m.—An open meeting of the University League for Labour Palestine at 24 Cecil St. Guest speaker, "Modern Palestine". All interested welcome.

7.30 p.m.—The U. of T. Rover Scout Crew will meet in the Debates Room of Hart House.

### TUESDAY, JANUARY 22

8 p.m.—Inaugural meeting of the Oriental Society at Wymilwood.

8 p.m.—1.30 a.m.—Annual School Nite in Hart House.

8.30—The German Club in the Women's Union. Mr. Fritz Winter, the German Exchange student, will speak on German architecture. Songs and refreshments.

S.C.M. commutator's luncheon for U.C. women. Mrs. J. F. Davidson will speak. Be sure to get your tickets from the executive.

### JANUARY 23-26

San Toy, light opera by the Victoria College Music Club at Margaret Eaton Hall. A cast of 95, directed by Thomas J. Crawford.

### WEDNESDAY, JANUARY 23

University College junior-senior dance in Roof Garden of Royal York Hotel. Informal. Music by Nels Kelly and his Varsity Kampus Katz.

### THURSDAY, JANUARY 24

7.30 p.m.—The C.C.F. Club will meet in Wymilwood. Dr. Peskey will speak on the immediate political outlook in Canada.

8 p.m.—Italian-Spanish Club, at the Women's Union, speakers, new songs, games, refreshments; the hour is NOW 8 p.m.

### JANUARY 24, 25

8.15 p.m.—U.C. Players' Guild presents Ibsen's *The Wild Duck* in Hart House Theatre.

### FRIDAY, JANUARY 25

St. Joseph's College annual At-Home to be held at the King Edward Hotel. Hart House String Quartet, assisted by Harriet Cohen, noted British pianist, playing American premiere of new Arnold Bax quintet, Convocation Hall.

9.00—Another Honour Science Dollar Dance will be held at Malloney's Art Gallery, 66 Grenville St. Everyone is invited. Members admitted by membership card.

### SATURDAY, JANUARY 26

7.30 p.m.—Boxing meet with Syracuse University at Hart House.

Annual At-Home of the Eta chapter, Beta Sigma Rho Fraternity at the Roof Gardens, Royal York Hotel.

### MONDAY, JANUARY 28

4.30 p.m.—Women's Union. Interfaculty debate between Trinity College and St. Michael's College. St. Michael's will uphold the affirmative. Subject: "Resolved that the present censorship of the movies is eminently un-reasonable." Refreshments will be served. Everybody welcome.

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at either the men's office in Hart House, or at the women's office in University College. No notices will be taken over the telephone, after 6 p.m. notices must be taken to the Press Building. Notices for the Bulletin Board are limited to ONE insertion only.

### T. I. C. C. U.

Saturday, January 19th, 8 p.m. The Toronto Intercollegiate Christian Union meets at 205 Madison Ave. Topic for discussion—second chapter of first Epistle of John.

### V.C.U. OPEN MEETING

There will be an open meeting of the V.C.U. in Alumni Hall today at 5 p.m.: To discuss changes in the V.C.U. constitution and to hear the reports of special committee, including the committee proposing changes in the senior reception.

### PHYSICS LECTURE

Dr. H. F. Batho will lecture on "The New Radioactivity", Friday, January 18, in the Physics Building (Room 43) at 8 o'clock.

### CHRISTIAN SOCIALISM

Prof. Havelock will give the sixth lecture of this series—"The Social Teachings of Jesus", Room 5, Emmanuel College, Monday, January 21st at 4 o'clock.

### ROVER CREW

The University Rover Crew will meet Monday, Jan. 21 at 7.30 p.m. in the Debates Ante-Room, Hart House. All Rovers are invited to attend.

### WYMILWOOD MUSICALS

The guest artist this week will be Mrs. Gladys Allen McLean, soprano soloist of the Metropolitan Church, and of the Bach Choir, Sunday, January 20th, nine p.m.

### NEWMAN CLUB

Saturday, Jan. 19, Newman Club. Reception for Guelph Newman Club, 9 p.m. Dancing 9-11 p.m.

### RIFLE ASSOCIATION

There will be a team practice on Sat. at 1 p.m. This practice will take the form of a match. Be there on time. This concerns only the men on the University team.

### FRATELLANZA

Fratellanza of U. of T. will convene in Music Room, Hart House, Sunday, January 19, 2.30 p.m. The attendance of all members is earnestly requested. Important discussion.

### HART HOUSE CHAPEL

As is usual on the third Sunday of each month, there will be a service of Holy Communion in Hart House Chapel next Sunday morning at 9 a.m. All members of the House who wish to attend are welcome to do so.

## 'TWTX TWO

### FROM AN OUTSIDER

Dear Phyllis:

Pardon me for butting in, but I think something should be said regarding your letter to "Ted", published in Wednesday's *Varsity*, in which you condemned pacifism as a practical policy for a young fellow to follow. I suppose there hasn't been any single factor that has done more towards making men go to war than women, with the rather indifferent attitude to the cause of war such as you have.

I mean this. A large percentage of the men who go away to war do so, not because they are deceived by any patriotic fervour, but because they secretly fear that they will lose the respect of their wives, sweethearts, or suchlike by staying home. I imagine that that would be about the hardest thing a conscientious objector would have to bear—the opinion that the women he loved would have of him. If only the good Lord had endowed the average woman with enough ability for deep thinking so that she might help rob war of its surface glamour and romance by regarding the man who went to war as a fool, and not a

hero, there would never be another war.

You say that there must be a majority of pacifists. Quite right. To prevent a war there would have to be. You say that sounds impossible to you, but it doesn't to me. The only thing that can make it impossible is the lack of intelligent thought by a sufficiently large number of people, after all, a University education is supposed to teach one to think intelligently, isn't it?

You say you think there are some things worse than war. I don't believe that you can name anything that nearly approaches the evil of war that isn't involved in it. Try it, will you? That remark seems to me to be typical of the thoughtlessness of the modern woman on the whole subject of war.

I conclude by stating that the reason that I am a pacifist is the very reason you suggest—because I detest war, and because we all detest war, and providing we can find enough guts (pardon the word—it was the only one that covers the subject) to stand up to the question, we should all be pacifists. Isn't that logical enough for even the feminine mind to grasp?

—John.

### Eaton Auditorium

A really delightful and musically satisfying programme was given last night in the Eaton Auditorium by Roland Hayes, tenor. Handel, Bach, Dupare, Ravel, Kreisler, Henschel, and Rhodes were offered in this recital of representative works, together with a concluding group of Negro Spirituals.

Though the whole programme was sung with dignity, restraint and understanding, it was, as one might expect, in the Spirituals that Mr. Hayes excelled. Curiously enough, there is nothing but the purest English in this artist's singing of the Negro Spirituals—but his whole-hearted enthusiasm and his elegant smoothness made them perfect gems of restfulness.

Mr. Hayes' voice is of the lyric tenor

type; not quite so pleasing in the higher register due to the tendency to flatten. His performance is generally characterized by a reserve rather than a fervent outpouring of song. Mr. Parham at the piano provided sympathetic accompaniment of solid worth.

F.B.S.

### On the Billboards

Monday, January 21 to Wednesday, January 23: Ruth Draper at the Royal Alexandra.

Tuesday, January 22: Toronto Symphony Orchestra at Massey Hall.

Wednesday, January 23 to Saturday, January 26: *San Toy* by Victoria College Musical Society at Margaret Eaton Hall.

Thursday, January 24 to Friday, January 25: *The Wild Duck*, by U.C. Players' Guild at Hart House Theatre.

Wednesday, January 24 and Saturday, January 26: Eva Le Gallienne in *L'Aiglon* at the Royal Alexandra.

Friday, January 25: Hart House String Quartet in Convocation Hall.

Friday, January 25 and Saturday, January 26: The Continental Varieties at Massey Hall.

## Do You Know

## THE LUNCHEONETTE

at  
**EATON'S COLLEGE STREET**

When you find you've a limited time between lectures yet you want something tasty and tempting try the Luncheonette! You'll find it a perfect joy for getting quick service with a varied and very reasonable menu, with soda fountain specialties into the bargain!

If you like something chilled there is always a crisp salad or two for choice. If you want dinner there are several choices, and for you who are "watching your figure", soup and a delicious sandwich would suffice.

But this is not all. On your way home after a tiring day of lectures and labs, drop into the Luncheonette for a soda or a refreshing drink.

The luncheons are priced from 20c to 40c with the a la carte dishes at equally reasonable prices!

### BASEMENT

Monsieur Perrichon by U.C. French Club at Hart House Theatre.

Friday, February 1 and Saturday, February 2: *Berkeley Square* by Trinity College Dramatic Society at Hart House Theatre.

### Toronto Conservatory

The Conservatory String Quartet gave its fourth recital in its series last night, at the Conservatory Recital Hall. The personnel of the programme was heightened by the presence of two distinguished guest artists, Dr. Ernest MacMillan, pianist, and Mr. Hubert Eisdell, tenor.

The initial number on the programme was the Quartet in F minor, Opus 95, No. 11 by Beethoven. This, with three out of four movements headed, allegro con brio, ma serioso and Allegretto agitato, well suggests to the listener what he is about to hear; heroic-like music, with its ever varying moods continuously being swept through a maze of beautiful melodies, rising and falling from grand fortes down to scarcely audible pianissimos, and not being content, soaring again to great heights of emotion. The Beethoven quartet brought out the best from its executants, and the result was intensely gratifying.

Hubert Eisdell sang two song-cycles, "Oa Wenlock Edge", and "To Julia", the former by Vaughan Williams and the latter by Roger Quilter; both contemporary English composers. The singer was accompanied most ably by the String Quartet and Dr. Ernest MacMillan at the piano. It would seem quite fitting and proper for the writer to compare the two song-cycles. Both were written by English composers, and by men who have taken great pains to express themselves through the medium of the folk-song. Yet both differ to a most remarkable degree.

"Oa Wenlock Edge", though lacking in many features of melodic design, possessed much in the way of beautiful descriptive qualities, which embodied brilliant harmonic nuances of a most colourful character, in its accompaniment. Whereas, "To Julia", by Roger Quilter, who, incidentally, is known chiefly by his graceful settings of English lyrics, displayed a much more expressive and emotional lyrical style, though lacking the brilliancy of the former's accompaniment. Both song-cycles are excellent examples of their kind.

The string quartet finished off the programme with the "Serenade" by Rachmaninoff-Hartmann and the "Etude de Concert", Opus 5, by Sinigaglia.

Both numbers possessed that air of veiled mystery, which interspersed with delicate pizzicato utterances and rhythmic movement, were received most enthusiastically. J.W.

### BRUCE'S VETO LEGAL SAYS HISTORY PROFESSOR

(Continued from Page 1)

Brown. He continued by pointing out that the Lieutenant-Governor was himself under the power of parliament and that if his actions were not in the best interests of the people, parliament had the power of dismissing him.

"The right man in the position of Lieutenant-Governor can make very substantial contributions to the good of the province," said Professor Brown. He went on to say, however, that he did not think this "power of the veto" which had been recently exercised, should have any bearing on the attitude of Mr. Hepburn toward the abolishing of this post; an inference which a downtown paper had drawn.

### W.U.A. MUSICAL HAS GUEST ARTISTS

(Continued from Page 1)

chation undertook to procure them for the Sunday musicale and was fortunately successful.

The programme this Sunday will begin with a Mozart Concerto in E flat and will include five compositions by Hector Gratton, who is famous for his interpretation of French-Canadian music.

The staff of the English and German departments, with their wives, have been invited to the concert and all University College women and their friends will be welcome.

### INCONSEQUENCE

(Continued from Page 1)

brings to the problem the woman's point of view, less academic perhaps and more personal, but not without its own value. Both delegates have probably learned much of practical method and tactics from the Congress and we may expect a well-organized peace movement to emanate from the University of Toronto.

Mr. Woodsworth expressed the intention, before his departure, of spending at least a month in speaking and writing for the Anti-War Society and a lecture tour has been planned for him. A paper will be published by the society at the end of this month containing a report of the Brussels Congress. They are also planning a conference for Eastern Canada, to take place in the near future.

## WORLD STUDENT CONGRESS SCORES MILITARISTIC TREND

International Peace Thought  
Unlikely under Present  
Conditions

### FASCISM ATTACKED

Local Pacifists Will Guard  
Rights by Sponsoring  
Strikers

The World Student Congress against War and Fascism held in Brussels, December 29, 30 and 31, is declared to have been a complete success by Ken Woodworth, one of the Canadian delegates. This was largely due to the fact that the enthusiasm of the conference was of a practical kind and issued in certain definite proposals by which the principles of pacifism might be set before the peoples of all lands.

"International peace is possible, but not under existing conditions," is the opinion of Mr. Woodworth. The congress, through the organization of its committees, plans to create a universal atmosphere in which men cannot be induced to take up arms or lend their support to war in any way whatsoever. The distribution of literature will make its usual important contribution to the campaign. Local anti-war societies propose to gain recognition for their cause by aiding strikers and by calling strikes whenever their principles are at stake. The members of the conference were agreed that Fascism in Italy and Austria, and National-Socialism in Germany constitute a grave menace to the peace of Europe and the welfare of society as a whole. Work camps, military training and war preparations of a scientific nature were roundly condemned, along with all projects that seek to exploit the youth by involving them in militaristic occupations. Complete equality of the sexes, particularly in education, was demanded.

The French and Belgian socialists were a very influential group among the

### Hall Committee Statement

The following statement was given to *The Varsity* Saturday by Hart House:

A sub-committee of the Hall Committee have now been engaged for some weeks in considering the general operation of the Great Hall and at the regular meeting of the Hall Committee last Thursday brought forward certain recommendations which included changes in the price of meals. These recommendations with various other proposals are now under discussion by the committees concerned and if approved the new plans will be put into operation on Monday, 28th January.

## NEW PLAY ADMIRER BY ENGLISH STAFF

O'Casey's "Within the Gates"  
Termed Important Work  
by Wilson Knight

### PLAY BANNED IN BOSTON

In the opinions of members of the teaching staff at the University of Toronto, the barring of Sean O'Casey's "Within the Gates" from Boston theatres, is not to be looked upon with favour. Neither Professor Knight nor Professor Lange were able to find favour with the decree of banishing it.

"I think that O'Casey's play 'Within the Gates' is a very important work," said Professor Knight, Toronto's famous Shakespearean critic. "It tries to express modern life in terms of colour, rhythm, melody and poetry. It is free from intellectual sophistication and even risks being criticised for its almost naive emotions. I should call them greatly simple. I hear that it has been banned at Boston: I think it is not fundamentally hostile to the church. The Bishop, perhaps a bit crudely over-saturated at the start, is not unsympathetically drawn towards the end. Prostitution is not condoned."

The fact that a large part of the play deals in situations and emotions that are at first sight immoral, is the fault, not of the author, but of the contemporary emotional and religious situation.

Professor Lange had comparatively little to say on the subject. "I think 'Within the Gates' a magnificent play," he stated, and went on to add that he could see no reason for banning it for he thought it was not anti-Christian and that if it was slightly bold in its subject matter it was a necessity and that to ban such literature was to impede progress.

### Concert Tickets

Representatives from the various colleges and faculties are requested to call at the Warden's office on Monday 21st January between 12.30 and 1.30 p.m. for their allotment of tickets for the Sunday Evening Concert on 27th January when the artist will be Mr. Viggo Kihl.

Every member is urged, if he finds he cannot use his ticket, to return it to the Hall Porter's desk if at all possible before 1 p.m. on Thursday, 24th January.

## Varsity Debaters ELIMINATE QUEEN'S IN RADIO SERIES

Rae and Smith Uphold the  
Affirmative Side for  
Varsity

### SUBJECT IS TIMELY

Toronto to Meet the Winners  
of McMaster-Western  
Debate

Successfully defending the motion, "Resolved that there is as much scope for individuality in industry under government control as there is under unrestricted competition", Arn Smith and Saul Rae defeated the team of E. T. Sherwood and J. T. Weir, representing Queen's, in the inter-university radio debate Friday night.

The case for the affirmative was opened by Arn Smith with a comparison between the two policies offered in the resolution. He analysed the defects of unrestricted capitalism and placed beside that a picture of government intervention where business is "guided into channels, profitable to the community as well as to the entrepreneur". Control, he believed, would result in stability and increased efficiency which meant increased employment.

The reply of the negative, as presented by Mr. Sherwood, took the example of an independent shoemaker and compared it with the position of an employee in a large shoe factory. He pointed out how every one of the former's products was the expression of his own individuality, while the latter had no opportunity for self-expression.

Continued on Page 4)

## COURTESY IS SHOWN BY MOST STUDENTS

Proper Respect Given Staff  
Say Professors and  
Students

### LECTURER WELL TREATED

The questions arises around the campus whether the professors have their quota of courtesy shown to them or not. Many seem to think they do, in fact, this group appeared to be in the majority with only a few dissenting voices.

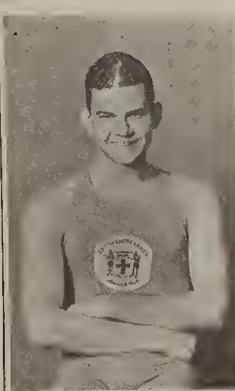

One third year Architect thinks that the students show as much respect for their professors as is shown to them. Mr. J. M. Troit, I Arts, gave an affirmative answer, but did not think that the students got well enough acquainted with their professors.

Miss Doris March, III Arts, upheld the dissenting side, saying that the considered preparation for departure five minutes previous to dismissal which seems to be a habit to be a sign of rank discourtesy.

A II year Victoria Arts student who did not desire his name disclosed, thought the average student to be sufficiently respectful.

W. S. Funnell, associate professor of chemistry, said: "All my students show me proper respect."

Miss Mary Vining, II Arts, ventured to say, "Perhaps the slight rudeness shown at the end of a lecture was due to the students' anxiety lest they should be late for their following lecture and thus show discourtesy to their next lecturer."

WINCE MCCATTY

Who, with two victories, led the Blue swimmers to an impressive triumph at Buffalo and Rochester. Wince set a new mark in the 440, won the 200 yard breast stroke and swam on the winning relay team.

## SENIOR RECEPTION ABOLISHED AT VIC

Cost of Faculty Dinner-Dance  
Reduced by One-Third  
is Estimate

### OFFICIAL CONCERT NEEDED

At the meeting of the Victoria College Union in Alumni Hall on Friday afternoon, the motion was moved that the Senior Reception for the graduates be abolished, and that the Faculty Dinner be held in Hart House, followed by a complimentary dance to the students. According to the investigating committee, this change would reduce the cost of the function by approximately one-third and should be much more popular with the undergraduates.

It was objected that people should pay as they go, and that those students who do not or cannot dance should not help pay for those who do. For this reason admission should be charged for the dance.

The investigating committee replied that the object of the dance was to get everybody out, and to do this it was necessary to have a complimentary party.

The change would not make an appreciable difference in the Victoria College Union fee, but the suggestion that every effort should be made to reduce the fee by even small amounts in these difficult times, was received.

Continued on Page 4)

## VICTORIA SOPHS DANCE IN "RHAPSODY OF BLUE"

"A Rhapsody in Blue", featuring La Pierre Muir and his London orchestra, was presented last Saturday night in Burwash Hall as the sophomore year of Victoria College held their annual spring party. As the couples danced, the hall was indirectly lit by lamps that threw a blue light up the walls and left the floor in semi-darkness.

The whole emphasis of the party was on dancing to the famous London orchestra, which gave a more formal air to the evening than usual.

After the intermission, the couples returned to dance to the orchestra, which after a shaky start at the very first of the evening, rounded out a very successful programme.

## RECORDS ARE SHATTERED IN DUAL AQUATIC MEET

The Powerful Rochester Club, which is Considered One of the Strongest was Tumbled from its Pedestal in a Closely Contested Meet

### MCCATTYS GIVE STELLAR PERFORMANCE

State Teacher's College, Buffalo, were Swamped in All but the Diving Event in which Varsity Placed Second and Third

By B. J. McGuire

Rochester, Jan. 19.—The threshing feet of the Blue and White crack ten-man swimming team traced out, in their rapidly moving wake, a new record in aquatic achievement as they smashed through to a series of sensational victories in the seething waters of the Buffalo State and Rochester University pools in two week-end meets. The State Teachers' College, Buffalo, was the scene of the first triumph of the Toronto swimmers Friday evening as they dashed to victory in every event but one. The second success, although no so overwhelming, was even more sensational, as the Rochester University team, one of the strongest clubs in the U.S., lost to the dynamic driving force of the Varsity team by the narrow margin of 36-39.

### Varsity Band

The Varsity has received the following communication from the president of the Varsity Band. To the Editor of *The Varsity*.

Dear Sir:

With reference to the article in Friday's issue regarding a popularity contest, and the band concert, may I say that the idea was one of many put forward as suggestions for improving the attractiveness of the annual concert, but as it was obviously in poor taste, the suggestion was rejected. Plans of a more appropriate nature are now in progress.

While the band appreciates the whole-hearted support of *The Varsity*, they regret that the article in question created a false impression. They trust that this will not interfere with the students' interest in the concert.

N. J. S. Hoyle, president.

## Varsity CAGERS DEFEAT HARTWICK

Victory on Saturday Follows  
Twin Losses to Alfred  
and St. Thomas

### MEAGHER SENSATIONAL

By George C. Vair

Far from disappointing was the performance of the flashy Varsity senior basketball club on their recent American tour. Forced to play three games in as many nights the students dropped their first two games at Alfred College and St. Thomas before coming through with a victory at the expense of the Hartwick five on Saturday night.

The opposition on the American front was of a higher calibre than in previous years and the Blue squad were compelled to resort to defensive ball on more than one occasion.

Alfred College, presenting a team which both outweighed and outreached the Varsity squad, won the opening game by a 38-23 score. Due to the laxness of the referee the game became rough and the heavier Alfredites had a decided advantage, running up a substantial margin of points in the first half. Hayman's proteges took the offensive in the second frame and provided the homesters with plenty of opposition but they couldn't overcome

Continued on Page 4)

Never before has a university team achieved so complete or impressive a victory in a U.S. tour as in their last efforts. In each case the performance was viewed by a capacity house, who marvelled at the grace, stamina and speed of the Blue swimmers as they sped on to victory.

Records were shattered in both meets. In their contests at Buffalo, immediately following a four-hour bus ride, three new marks were established and in the Rochester meet the performance was duplicated. The Varsity team, perfectly balanced, worked to perfection, but the achievements of the McCatty brothers were nothing short of sensational.

The Buffalo meet, although highly successful, both from a financial and competitive standpoint, was lacking in the qualities possessed by the Rochester contests. In the former struggle, the teachers lacked the speed to be dangerous. They failed in every event but one to finish better than third. They did, however, win the diving although Varsity, represented by Eggert and Wood, took second and third. In the Rochester contests Eggert was again bested by a slight margin by Swett, whose brilliant performance earned him first place while his team-mate, Erdle, scored over Wood of Varsity.

(Continued on Page 4)

### Cambridge Studentship

The governing body of Emmanuel College, Cambridge, have announced their intention to award a research studentship this year, and are inviting applications from the University of Toronto. The studentship has an annual value of £150, and is normally held for two years. The award will be made on the basis of evidence submitted by the candidates, especially on evidence as to general ability and fitness for the proposed course of research. This evidence must be accompanied by letters from more than two professors and teachers under whom the applicant has studied. A birth certificate and certificates of character must accompany each application. Women are not eligible for the award.

### Women's Sports Staff

Meeting of the women's sports staff at 1.30 p.m. today in the Varsity women's office. Every member must attend.

## NEWS OF THE WORLD IN BRIEF

Toronto—Speaking to an audience that included many members of the Hepburn cabinet and the Toronto Board of Control, Lieutenant-Governor Dr. Herbert A. Bruce accused the authorities of deliberately repressing facts contained in the report of the Housing Committee regarding Toronto slum conditions.

Berlin—The Lithuanian army is being mobilized to prevent a reputed German attempt to seize the mandated city of Meinel, which formerly belonged to Germany. Nazi supporters have been concentrating in this district since the Saar vote.

Atlantic City—The last two members of the Bremer kidnapping gang escaped yesterday by shooting their way out of a trap laid by police and escaping in a stolen car. Alvin Karpis and Harry Campbell, surprised in an Atlantic City hotel by three detectives, fled after firing on them with machine guns.

Saarbrücken—A virtual revolution similar to the Nazi upheaval in Germany in 1933 broke out in the Saar last night, as Germany seized control of the Nazi government. Anti-Nazis were advised to leave "until things blow over".

## This Next War

People glibly talk about doing away with war just as if this were as easy an undertaking as cleaning up the conditions of some malarial swamp in the tropics: rather troublesome, no doubt, but still possible with a little effort. Some even think the difficulty is even less.

However, on the whole these people are the same that advocate their Utopian prohibition, or refuse to recognize prostitution because they think it should not be there. But as long as men are human, there will be war, and it may be attributed to the same factors as that cause crime; there are hardly any, even dreamers, that can fancy the day when even their remotest grandchildren will not have heard of prison.

The other day an undergraduate was heard to state calmly that he thought there would be no more wars "in civilized countries". What does he mean? Possibly if some country does declare war on another he will say it is not civilized, or if his does on another, it will be the latter that is uncivilized. We need not be so egoistic as to feel we can forget war, for we are not so civilized that we cannot climb higher, and it is only at the peak that we shall be perfect.

Besides this student forgets that the uncivilized nations must also be taken into consideration, for it is easy to picture an idealistic Roman sixteen hundred years ago uttering his very statement about no more war in civilized nations, while our young undergraduate's ancestors were running around in bearskins quite content to be barbarians and fully unconscious that some day a properly dressed young gentleman of their descent would be priding himself in his culture.

Yet we must not believe that war is quite so close as some of our roaring contemporaries would have us believe. It was coming when Japan invaded Manchukuo and Shanghai, it was close upon the heels of Hitler, it was dead certain after King Alexander's assassination: did it come?

Still it is not here yet, and neither should it be; the world is never fighting all the time. But the evolutionary struggle still goes on, and one race grows to maturity, and overripe decays, and others take its place. The rigid boundaries through Europe must cause war as soon as one nation is more virile than its neighbour, for populations cannot overflow as the French in Eastern Ontario have done, peacefully, but surely.

We are not perfect; this next war will come. Perhaps we will not see it, but if we do our attitude should not be to blind ourselves to its possibilities but rather try to avert it, and if that does not work, to cushion ourselves against its greatest shock. The man who realizes this will fare the best.

## Correcting an Error

In Friday's issue of *The Varsity* there appeared a story containing a number of interviews in connection with a proposed "Popularity Contest" to be staged by the Varsity Band at their Annual Concert. The individuals interviewed expressed an extreme dislike for the idea, and the connection of the Band with such a proposal has tended to bring some undesirable comment. In view of this fact a word or two of explanation is in order.

Realizing that such a proposal would probably not meet with general approval, the Band at no time seriously considered the idea, and has been engaged in preparations of an entirely different nature. The suggestion contained in the story that such a contest was likely to be held was entirely erroneous, and while the Band are particularly anxious to attract the support of the student body to their concert, it was not their intention to create an unfavourable impression, or in any way jeopardize the best interests of the university.

*The Varsity* regrets that any unfavourable criticism of the Band may have resulted from the appearance of this article, and trusts that the matter will be considered in a proper light. In the past the Blue and White musicians have proved a great credit to their University, a fact that was particularly evident during the rugby season, and we feel sure that they will not only continue to do so, but that the student body will more fully appreciate the value to the University in possessing what is generally conceded to be the finest college organization of its kind in Canada.

To the Band we convey our apologies that their intentions were in any way misinterpreted, and wish them every success in the work they are doing. As one of the few other activities embracing all colleges and faculties on the campus, *The Varsity* will continue to support and co-operate with an organization that has proved such a credit to the University of Toronto.

## Time for a Change

Each year a large number of University of Toronto students go to our neighbouring colleges to engage in some form of intercollegiate activity. Considering the infinite number of teams, both men's and women's, competing in every phase of sport, one can get some idea of the number who visit these other universities. There is a corresponding invasion of students from other Canadian and American colleges. It is our belief that they are sent as a means of fostering intercollegiate unity, that the undergraduates of the colleges may gain a mutual understanding and respect for each other and that a useful interchange of ideas may be effected.

Now, if Varsity students at McGill, for instance, decide that they would rather see the town than attend the reception planned for them, they will probably have a very interesting time, but undoubtedly the reputation of our University will suffer. The members of these teams who are fortunate enough to be sent to another college should understand that they are the official representatives of a great University and by their actions we, as a University, are judged.

And what of those who remain in town, but are responsible for looking after visiting teams? Is it their attitude that such an occasion will provide a good party for them at someone else's expense—or do they consider that they are responsible for the impression which the visiting students will carry away of our University? We were shocked to hear that a member of a team from another Canadian college claimed that the only time he spoke to any member of the Toronto team against which they were playing, was actually during the game. It is possible that some unavoidable mistake in the arrangements was responsible, but if this student felt strongly enough on the subject to speak of it to a member of the college which he felt had neglected him, it is natural to assume that he would express his dissatisfaction on his return. There are far too many similar rumours of undergraduate hospitality accorded to our guests.

Do we want to be known as a college lacking in a spirit of hospitality, or do we want to be known as a college where social responsibilities are accepted and where a spirit of friendliness and goodwill pervades, which are utterly lacking under the present conditions?

"If you have wit, use it to please, and not to hurt—you may shine, like the sun in the temperate zones, without scorching."—Chesterfield.

"Man is the hunter: woman is the game."

—Tennyson.

A woman is only a woman, but a good cigar is a smoke.—Kipling.

Humanity has but one supreme problem—the problem of research and education. — Robert A. Millikan.

"Madness frequently discovers itself merely by unnecessary deviation from the use modes of the world."—Dr. Johnson.

## ART, MUSIC & DRAMA

### Reginald Stewart

The success of the Promenade concerts last summer has prompted Reginald Stewart to put on a popular Bach Night, in Massey Hall, on January 29, at low prices, using section "B" of the orchestra which performed at the "Proms" and several eminent soloists. Mr. Stewart will conduct and also play a solo group.

The programme will be of a popular character, with vocal and piano solos, and orchestral numbers and choral works by the Bach Choir. Three of the items on the programme will be performed in Toronto for the first time. This year marks Bach's 250th Anniversary, and is hence a fitting time to bring his work before a large audience at popular prices.

It is being announced in advance that the audience is requested to dress informally for this event, not because it is a sacred concert, but in order to appeal to those who favour informality at concerts. The performance is sponsored by the Bach Society, which now has a membership of over 400, including the Bach Choir of 150 voices.

DADDY'S GIRL

She turned from washing the dishes as we entered the front door. "Leapin' lizards," she exclaimed, when she saw us. "We didn't 'spect to have company 'way out here." We assured her that we had just come to see if Daddy had patched the roof yet, and remarked that it was rather a hardship for a girl to have to live in such a little hut. "Shux," she remarked, deprecatingly, "I reckon some folks that live in mansions aren't 'ny happier 'n us. Eh, Sandy?" "Arf," replied the dog, knowingly. "Some folks," she went on, "don't know what it is to be just happy 'n honest. We may not have fine clothes and a big house, but we're OURSELVES, eh Sandy?" "Arf," replied the faithful animal, and suddenly added "Arf arf," as a step was heard on the gravel, and in walked "Daddy" carrying a ton and a half of bricks, a bag of coal, some logs and some groceries. "DADDY," shouted the little girl. "Leapin' lizards, I didn't expect you home 'r ten more minutes." "Oh," he said, "I just found these bricks that will do to patch up that little hole in the sun-porch. Somebody left them ly-

(Continued on Page 4)

## Let's Go Places

Perhaps Warner Brothers will some day fire the man who insists on putting chorus scenes—and crooning—in every picture with Dick Powell and Ruby Keeler, with fond memories of 42nd St. Perhaps some day they will realize that there is no amusement for an audience in watching what is purported to be a stage show perambulating through a series of half acre scenes with about \$10,000 worth of rocks and waterfalls, (and, of course, whatnot). However, in *Flirtation Walk*, now at the Imperial, these throwbacks to the musical tragedy days still persist, and manage to spoil what would be a fairly entertaining picture otherwise.

trative Council Office, Hart House, Midway 6221.

## TORONTONENSIS

Torontonensis Group Write-ups and Pictures are due  
now. Please hand these in to the Students' Administra-  
tive Council Office, Hart House.

## THE SPORTSWOMAN

By M. A. F.

There are several changes to note in the interfaculty hockey schedule which appeared in Thursday's *Varsity*. On Tuesday, January 22, Vic I play at U.C. I from 5-6, Vic II at St. Hilda's from 6-7, and St. Mike's at Meds from 7-8. A number of the versatile Vic pucksters are taking part in "San Toy" and the hours as previously stated are inconvenient. And on January 29 St. Mike's are playing at U.C. I and not at U.C. II. These changes are important.

There seems to be some doubt in the minds of those faculties which are entering two teams as to the exact regulations. The president of the Hockey Club has asked us to make it clear that two distinct outfits including subs are to be put on the ice. There is to be absolutely no moving up and down.

At the Hockey Club meeting the exact responsibilities of each team for its home games were left uncertain. Each squad has three home games and must get hold of referees for these matches. The referees are to be chosen from the four names decided on at the first meeting: Jimmy McPherson, Oswald Dyke, Norman McClelland, and Bob Brennan.

Arrangements are well in hand for this hockey series, which gets under way tomorrow and we are looking forward to interfaculty hockey such as there has not been in some years. The fact that there is to be no intercollegiate team is letting a number of star material fall back to the faculty ranks. And then the idea of winning a place on the all-star team solely by prowess shown in these games should spur a number of players on to real action.

There are only to be three faculty swimming meets. The Saint Hildes are taking the plunge on February 13, U.C. is running off its meet on February 15, and Vic will get going on February 21. St. Mike's are only entering a relay team and so hardly need a meet to make that up. Household Science do not seem to have any mermaids in their midst this year. And Meds and Nurses are joining forces but do not expect to get any more material than just enough for a small team.

The St. Hilda's badminton tournament was played on Saturday morning (Continued on Page 4)

## SPEAKING OF SPORT

By B. J. McGuire

A toast to the Varsity swimming team. The Blue and White natators wrote a new page in the history of aquatic endeavour along the international front in their week-end tour which took them to Buffalo and Rochester. The Varsity boys came back possessors of several new records, and prestige never before attained by Toronto swimmers in competition with the U.S. colleges. At Buffalo they inflicted a crushing defeat on the State Teachers' team. At Rochester they just eked out a three-point victory over the Yellow swimmers, regarded as one of the strongest teams in the U.S. And in both appearances the teams attracted a capacity house.

Having a house full of fans to cheer them in their efforts is something new for the swimmers, who for years have performed sterling deeds here and yon, but seldom drawn more than a corporal's guard. However, the boys seemed to thrive on their new popularity and despite the fact that their names and deeds drew headlines in the Buffalo papers Saturday morning they performed equally well Saturday night. Incidentally the reception the boys received will promote the interests of the international union idea which is sure to find favour in every line of sport as the local competition becomes more and more unsatisfactory.

The basketballers, who also spent the week-end among enemies, met with slightly less success. Three times the Blue team started and of the three efforts secured only one victory. However, all of the games were of the pleasing variety and the satisfied customers who packed the houses to see the Canucks perform will probably be back every time the Canadian team is in action in their vicinity. The unfortunate illness which removed Hughie Marks from the fray and which will keep him out of action for some time, did the cause no good. Joe Connelly, his old team-mate on the St. Mike's team, carried on in noble style, winning star rating in every game and scoring a total of 31 points in the course of the tour.

Varsity may not have won the game in Hamilton last Friday night but they won the race. The race is a feature of every game, in which the Herald donates \$5.00 to the man who carries the puck twice around the rink in the shortest space of time. McClelland brought home the fiver on Friday night and Jeffery scored a third in the event.

## TIGERS BEAT BLUES IN CLOSE CONTEST

Toronto Team Drops Lead  
Early in Second Period after  
Good Start

### HARD CHECKING A FEATURE

Warren Stevens and his luckless blue clad ice gladiators were forced to return from Hamilton last Friday night on the wrong end of a 4-2 score in their scheduled O.H.A. senior A fixture. Only after putting on a sterling display of close checking tactics which held the mighty Bengal sextet well in check for two periods did the Blue team falter in momentary lapses on which Redding's crew capitalized with four goals, gaining thereby their tenth victory of the season and consolidating their hold on first place.

Heartened somewhat by their showing in the first spasm the Big Blue team came out fighting in the middle canto and after four minutes of ardent puckchasing McClelland pulled the Hamilton rearward out of position as he flipped a pass to Jeffery, whose snapshot beat Teno to give Varsity the lead, much to the consternation of everyone. The Varsity lead was short-lived as Chisholm knotted the count four minutes later while Devine was doing penance on the penalty bench. Hamilton again came back before the period ended to score another counter from the stick of "Toe" Blake, who shot from in front of the defence to beat Loughheed.

Jim Primeau scored for Hamilton within forty seconds after the final period began, which seemed to take plenty of sting from the Varsity attacks, and the Bengals again came through to score their last goal of the night when McGowan closed in on the Varsity nets. About three seconds before the completion of hostilities MacPherson finally went through the Hamilton defence to score unassisted. Throughout the entire game the work of Varsity's first string line of MacPherson, Hendry and McClelland stood out while Loughheed in goal made a great showing. Jeffery and Reid did iron man service at defence, getting very few breathing spells. For Hamilton the ever-elusive Bennett, Blake and McGowan were prominent.

## VARSITY JUNIORS DROP CLOSE GAME

Defeated by Young Rangers  
as Final Rally Fails—  
Score 4-3

### STRONG ON DEFENSE

The first game of the Junior O.H.A. double header at Maple Leaf Gardens Saturday saw Young Rangers defeat Varsity in a close game by the score of 4-3.

Both teams started in fast and played a close checking style of hockey, which although uninteresting to the spectators, is effective in keeping the score low. Chipman broke through the Blue defence to score a smart goal from a close in shot. Varsity came right back with a counter by O'Leary, who skated the length of the ice and just as he was bodied at the defence let go a waist-high shot catching the goalie off guard. After this the collegians seemed to tire and allowed Ingram to score on a play which should have been stopped at the blue line. Chipman came through in grand style for the Rangers with two neat goals near the end of the period.

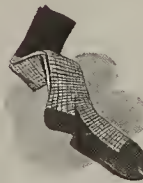

The second period was also fast with Varsity showing an edge in the play and picking up the only goal of the session. Varsity's edge in the second was small compared to the way they carried the play in the third period. Down two goals they set right in to make a game of it. Young Rangers' sticking to defensive tactics, ran into some roughing penalties, one to Godfrey and one to Thompson. Varsity stormed their citadel with might and main and with Rangers short handed, Slingsby netted a goal on a gangling attack. From that time on they completely dominated the play but could not get the equalizer.

For the winners, Braithwaite in goal was good, while Chipman and Ingram showed speed and checking ability. Varsity's best threat was Sissons, who played a bang-up game and along with O'Leary they look like the best defence combination Varsity has had in some years. Morrison used his speed to good advantage and was always effective.

An investigation at the University of Iowa shows that one of every eleven campus engagements results in marriage.

## GOOD ACCESSORIES MEAN DISTINCTION

When Selected  
from the

What University men wear is featured in every fashion magazine the continent over. Why? Because the University man has real clothing style—he knows that good accessories mean distinction.

The correct accessories—hats, ties, gloves, shirts, socks, shoes—are an established specialty of the Men's Shop, Eaton's College St. Which means you can outfit for class or campus wear from us with a comfortable sense of having bought in impeccable taste—at a prudent cost. You'll find these clothes assembled in one compact spot—to wit—the Men's Shop. It is easy to reach and pleasant to shop in. As an example of such distinctive and reasonable cost we illustrate:—

Hat—Eatonia with snap brim—felt	- \$4.50 ea.
Others	- \$6.00 to \$8.00
Ties—Smart pin checks—artificial silk	- \$1.00 ea.
Ties—Smart all-over patterns, stripes and plain colors	- \$1.00 ea.
Socks—Renown in all wool	- 50c pair
Others up to	- \$2.00

## INDOOR TRACK MEET STARTS TOMORROW Schoolmen Strong Favourites to Repeat Victory of Last Year

Tomorrow afternoon, commencing at 4.30, the track at Hart House will be the scene of the opening of the inter-faculty indoor track meet. The winter cinder-path enthusiasts will be in action for five weeks, with two events being scheduled each week. Last year S.P.S. won the meet and the Schoolmen, who are a strong and versatile team of athletes, are again favoured to repeat the performance. This week's events will be the 50 yard sprint and a gruelling one-half mile run.

In the 50 yard event, Caldwell, last year's winner, is a strong contender, while Ashenhurst, who placed third last year, will be School's best bet in the race. This sprint ought to produce some very fast times and a real battle among the many entrants. The half-mile feature, which is one of the hardest races in any meet, will be a fight to the finish between Rankin, Campbell and Conway. Bill Hogg, who is best at the longer distances may try his hand (sorry, his feet) at the half also. This lad, Alex Rankin, who is a product of U.T.S. and of Frank Halbus' coaching, has made a name for himself already in his first year with senior company and he will be right in there with the leaders.

## U.C. DANCE PROMISES SOMETHING DIFFERENT

U.C. Juniors to Act as Hosts  
as Two Years Unite for  
Gala Party

Mrs. M. W. Wallace, Mrs. W. J. McAndrew and Miss Marion B. Ferguson will be patronesses when University College holds their Junior-Senior Dance in the Royal York Hotel Roof Gardens this coming Wednesday. The Junior-Senior dance is an annual function at which the graduating year are guests of the third year. This year it will be an informal affair: "Somewhat different from the Follies but just as much fun." The *Varsity* was assured by Les Rowntree, who, with Marjorie Carter, is in charge of the affair. Nels Kelly and his Kampus Katz will provide the music.

## EMMANUEL KEEPS LEAD TO DEFEAT KNOX 21-20

After gaining an 11-point lead in the first half of a bitter interfaculty basketball battle with Knox played in the upper gym, Hart House, on Friday afternoon, a demoralized Emmanuel emerged victors by a single point, the final score being 21-20. The winners had it all their own way in the first half, running in 18 points to their opponents' 7.

The Presbyterians, strengthened by the arrival of Shortt, their regular centre, hit their stride in the second frame, allowing their rivals but three points, all scored on foul shots. Emmanuel had the bigger men and used their height to advantage in the initial session against the rash and ragged game of the Purple and White. The second place team, however, staged a tremendous comeback and stormed the enemy basket with a barrage of shots which netted them 13 points.

## SCARLET AND GOLD DEFEAT U.C. SENIORS

In a close, well played game of baseball, Jr. Vic defeated Sr. U.C. by the score of six to three Friday afternoon in Hart House gym. The Scarlet and Gold crew were somewhat better with the bat, otherwise there was little to choose between the two teams. After trailing by two runs in the early stages of the game, the winners took the lead in the fourth inning and held it despite the efforts of their rivals.

## Sport Notices

### Hockey Schedule Changes—

Tuesday, January 22—  
Vic I at U.C. 5-6.  
Vic II at St. Hilda's, 6-7.  
St. Mike's at Meds, 7-8.  
Tuesday, January 29—  
St. Mike's at U.C. I, 6-7.

### Jr. School Hockey—

Practice, Monday, Jan. 21, 1-2 p.m.  
Varsity Arena. Everybody out.

### Dents Waterpolo—

Will the following players please be out Monday, Jan. 21, for the game with Jr. Meds: Kingsberg, Cavanagh, Leckie, Woods, Wildfong, Gerard, Booth, Hawkins, Preston.

### Jr. U.C. Basketball—

Practice Tuesday, 9 a.m. Final practice for game. All out.

### Vic Waterpolo—

Interfaculty game with Trinity on Monday, 4.30. Everyone turn out.

### Sr. Vic Basketball—

There will be a very important practice in little Vic gym, Mon, 3-4.

### Jr. U.C. Baseball—

Practice today, 2-3, in lower gym, Hart House.

With the advent of finals we are reminded more than ever that "A thing of duty is annoy for ever."—Daily Illini.

at the Carlton Club. Betty Clement was the winner but Elspeth Chisholm, a newcomer to the ranks, gave her a real run for the laurels. These two with Shirley McEvoe, Enid Palmer and Elaine Knight will make up the Blue and Grey representation in the interfaculty playoffs.

### BLUES BREAK RECORDS IN SENSATIONAL MEET

(Continued from Page 1)

Murphy, the Varsity sprinting ace, set a new mark in Buffalo for the 50 yard dash, while Stratton also shaved the mark in the century dash. Cressy McCatty recorded the third new time in the 100 yards backstroke.

The sparkling three point victory at Rochester was produced in a meet which never for a moment lacked for excitement. There was not one event which was not a thriller. And standing out through it all was the dazzling performance of Winice and Cressy McCatty, who featured in four victories for the Blue team and succeeded in establishing two new records.

Cressy started the medley relay, the opening number on each meet, and each time gave Varsity a long lead which they held throughout. Then after this strenuous effort he captured the 150 yard backstroke in a time six seconds faster than any swimmer had ever before covered the distance in the Rochester pool. In this effort he was, however, pushed to the limit by Stratton, a junior on the host team.

Winice McCatty, after swimming the breast stroke in the medley relay, breezed home in front in the 440, and although an easy winner and facing the 200 yards breast stroke event a few minutes later, was able to improve the existing time for the distance. Hooper of Toronto scored a second in this event, after surviving a grueling duel in the early stages of the race.

Smith was the scintillating star for the Rochester club. Smith scored a brilliant win over Murphy in the 50 yard dash, after the closest race of the evening. In the 100 yard sprint he duplicated this performance against Stratton, who finished third.

Throughout the meet the leadership twice changed hands. Varsity, after taking a lead in points in the opening event, dropped behind, but went to the front again with McCatty's win in the backstroke event. The victory in the relay, the final number on the card, left the Yellows still three points in arrears of the Blue natators.

Vassar College was founded by a brewer who wanted to see if women really could be educated.

THURSDAY, JANUARY 24

8 p.m.—Italian-Spanish Club, at the Women's Union, speakers, new songs, games, refreshments; the hour is NOW 8 p.m.

### REMOVAL OF CRIME BY EDUCATION SEEN

The Borstal System Would Segregate Youths from Old Offenders

Corrective and curative measures are necessary to prevent the growth of crime in Canada, was the opinion of members of the staff of Social Science when interviewed by *The Varsity* on the revision of the penal system and the introduction of the Borstal method as laid down in the speech from the throne last Thursday.

Professor Urwick, head of the department in Social Science, said: "The Borstal system has been employed in England since 1906 and has done good work. It will help to segregate youths from hardened criminals much more effectively. Different lines may be necessary here, although I believe the system used in England to be a good model. The point is the difficulty of educating criminals under twenty-one unless they are kept from harmful contacts. The age of crime is going down and to combat this a distinct treatment is essential."

### VARSITY CAGERS DEFEAT HARTWICK

(Continued from Page 1)

their overwhelming lead.

St. Thomas gave Varsity their second set-back when they defeated the Blues 38-26 at Seranton Armouries before a large crowd of enthusiastic fans. Captain Bill Ditch, St. Thomas's string bean centre (6' 5") and incidentally considered one of the best in the country, was largely responsible for his team's victory. With the big fellow garnering the tip-offs the St. Thomas squad had possession of the ball the majority of the time and made the going hard for the visiting Blues.

With only seven men available for the final game the Hayman coached students netted 44 points against Hartwick's 36 to win one of the fastest and best games of the series. Connelly, the individual star of the trip, tallied 14 points in this game for a grand total of 31 points in three games. The work of Meagher, Varsity forward, bordered on the sensational, but he turned in a fine performance in every game.

A politician is a man who stands for what he thinks others will fall for. —Connecticut Campus.

### BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at either the men's office in Hart House, or at the women's office in University College. No notices will be taken over the telephone, after 6 p.m. notices must be taken to the Press Building. Notices for the Bulletin Board are limited to ONE insertion only.

#### MUSICIANS

Musicians, University students only, who are interested in a trip to Europe, for this summer kindly call Lo. 0750. Must be experienced dance players.

#### ORCHESTRA REHEARSAL

A rehearsal of the University Symphony Orchestra will take place at the Women's Union, Tuesday, January 22, at 6.30 p.m.

#### JBSEN'S "THE WILD DUCK"

There are still two silent parts for men to be filled. Anyone wishing to take these should come to a rehearsal in the auditorium of the Women's Union at 5 p.m. today. Applicants need not be members of the Players' Guild, nor of University College.

#### ORIENTAL SOCIETY

Temporarily postponed. Watch for further notice, or see George Proust, Hargrave 8536.

#### UNIVERSITY C.C.F. CLUB

The meeting has been changed from Thursday to Tuesday, January 22nd, due to illness of Dr. Teskey. Professor Grube will speak on the immediate political outlook in Canada, in Wymilwood at eight o'clock.

#### RIFLE ASSOCIATION

Mitchell Cup match this week. This match counts on your year's score, so don't miss it. Those on the team be sure to see the team notices in the range.

#### VIC DRAMATIC SOCIETY

Members who have not as yet paid their membership fees are requested to do so at once. They may be paid to any member of the executive.

### ART, MUSIC AND DRAMA (Continued from Page 2)

#### Massey Hall

Ever since Nikita Balleff brought his first "Chauve Souris" to the United States and Canada back in 1922, he has been one of America's favourite clowns. Now in "Continental Varieties", coming to Massey Hall, January 26-26, with the lovely Lucienne Boyer, he is again making his shy comment, done largely with the leer of an eyebrow and the fake censure of a pursed mouth, as he introduces each artist of this highly entertaining European show.

Nikita Balleff is not Russian but is an Armenian who spent his youth in Moscow trying to persuade the great director Stanislavsky to let him act. He finally had to establish his own theatre, in a Moscow cellar, which eventually became the far-famed "Chauve Souris".

When "Continental Varieties" was being brought to New York, the ingratiating Nikita joined the show as commentator, and in his astonishing English has been instructing audiences how to enjoy themselves and talking back to them in French, Spanish, Italian or Esperanto if they dare to protest.

One of the happiest duties he has to perform in "Continental Varieties" is his introduction of Lucienne Boyer, and this he does by introducing her as "a basket of delicious fruit".

Saturday night, Massey Hall welcomed a young Canadian artist, Kayla Mitzel, who, in an astonishingly short length of time, has through sheer intrinsic merit placed herself among the leading violin virtuosi of the day.

Kayla Mitzel offered a programme as pleasing as her own warm personality. There was little doubt after the first number, "La Foia" by Corelli-Leonard, that this youthful virtuoso had already gained the fullest sympathy of her audience and as the programme grew, so also did the enthusiasm of her listeners.

Kayla Mitzel reached the zenith of her performance by the brilliant execution of Goldmark's "Concerto in A minor". This ternary composition, with its expressive melodies, one springing from the root of another; with its difficult cadenzas, that demand so much

#### VIC MUSIC GROUP

Mme. de Kresz will meet the music group in Wymilwood on Monday, Jan. 21st at 5.

#### S.C.M. LUNCHEON

An S.C.M. commuter's luncheon is being held Tuesday, January 22 at the Women's Union at 1 p.m. Mrs. Sascha Davidson will speak on current events. Tickets should be obtained from members of the executive before Tuesday as reservations have to be made ahead of time.

#### VARSITY CHESS CLUB

The following games must be played by Thursday, after which date the defaulting committee will get busy. Sheffer vs A. L. Rubinoff; Turner vs A. L. Rubinoff; Shankman vs Burgess; Kaplan vs Burgess; McConnell vs A. L. Rubinoff; Jennings vs Sheffer; Hayes vs Turner; Burgess vs Sprott.

#### CHRISTIAN SOCIALISM

Prof. Haycock will lecture on "The Social Teachings of Jesus" today at 4 o'clock in Room 5, Emmanuel College. All interested persons are welcome.

#### CAMPUS EXECUTIVES

The executives of campus organizations who are taking shape in Toronto are reminded that photographs and write-ups are due now and must be in at the S.A.C. office within the next few days.

#### BIOCHEMICAL SOCIETY

The 34th meeting of the Toronto Biochemical Society will be held at the Ontario Research Foundation, 43 Queen's Park, at 7.45 p.m. on Friday, January 25th.

from the technical resources of any artist, was played with the utmost ease and assurance. "Poeme", by Chausson, "Danse Espagnole", by De Falla-Kreisler, and the ever charming "Variations on a Theme by Corelli" by Tartini-Kreisler, were rendered most delightfully.

For sheer interpretative beauty, "Nigun" by Bloch, was the best. This emotional masterpiece, based upon a Hebrew melody, a cry from a scattered race, by one of its descendants, who poured into it his soul full of sympathetic understanding, found the young artist in her element. Three encores, "Spanish Dance" by De Falla, "The Flight of the Bumble Bee" by Korsakov and "The Girl with the Flaxen Hair" by Debussy, were rendered in a most masterful manner. Jaye Rubinoff, the accompanist, supported his artist most admirably.

Kayla Mitzel is no Elman or Zimbalist, but with increasing maturity a place among the stars is well assured. J.W.

### Friday Afternoon Recital

Two of Toronto's finest musicians furnished one of the outstanding programmes of this college year's Friday afternoon recitals in Hart House. Mr. Hubert Eisdell is a singer who is at the same time an erudite musician. Mr. Elie Spivak, concert master of the Toronto Symphony, ranks amongst the city's best artists. Their appearance on one programme is a decided treat.

Two groups of Bach, a group of Franz, Brahms, Strauss and Beethoven and two numbers of Handel and Mozart comprised the excellent program. F. B. S.

### MILITARISM DENOUNCED BY STUDENT CONGRESS

(Continued from Page 1)

delegates, although their attempts to impeach capitalism were effectually opposed. The congress hesitated to associate itself with any particular political party, for it wished to enlist the support of socialism, Christianity and communism.

The Soviet delegation of fifteen members, for some reason, was stopped by police in Paris and failed to reach the convention at all. Rumours were abroad to the effect that a French professor, a Fascist at heart, gained admittance to the sessions on false credentials, the discovery of which precipitated his departure. And it seems that the lone delegate from Germany, officially one of Hitler's storm-troopers, was really a communist in disguise, who covered his trail by entering Belgium by way of Turkey and France.

The proletarian movement, Mr. Woodsworth believes, is rapidly spreading under cover in Germany and will eventually result in a revolution against Nazism.

### VARSITY DEBATORS ELIMINATE QUEEN'S

(Continued from Page 1)

Mr. Sherwood called the attention of his opponents to the fact that the present economic organization is not unrestricted competition. Unrestricted competition means a number of small units, none of which have any considerable advantage over the other.

Rae, in closing the affirmative, gave the psychologist's viewpoint on the question. He claimed for government control a greater individuality and told his "young friends from Queens" that unrestricted competition meant economic anarchy and political chaos.

Mr. Weir, second speaker for the negative, feared the results of government control. He did not like the idea of a government bureaucracy which he thought would make men mere cogs. The product is the test for the amount of individuality and in the article made under mass production Mr. Weir found no scope for the worker.

Toronto now enters the second round of the series and will meet the winner of the debate between McMaster and Western, which is being held this Friday at 9 p.m. over the Canadian Radio Commission stations.

### SENIOR RECEPTION ABOLISHED AT VIC

(Continued from Page 1)

with unanimous approval. Any reduction must, however, be approved by the Board of Regents, as the undergraduates can only suggest such changes.

The motion was carried almost unanimously, but must be passed again at the next meeting of the Victoria College Union.

VOL. LIV.

UNIVERSITY OF TORONTO, TUESDAY, JANUARY 22nd, 1935

No. 69

### NEWS OF THE WORLD IN BRIEF

Ottawa—Sympathetic consideration of the reform policies of the government was pledged in the House of Commons yesterday by Rt. Hon. MacKenzie King. He declared that tariff barriers must be torn away and advocated national control of credit and currency and reciprocal trade with the United States.

Ottawa—The Canadian and United States governments have already agreed on a trade agreement between the two countries it was learned yesterday at the Prime Minister's office.

Gilberton, Pa.—A mine explosion here yesterday killed ten miners and imperilled more than 200 at work in the shaft. Officials were uncertain as to the cause of the blast.

San Francisco—The crew of a Japanese freighter sinking in heavy seas, were rescued yesterday by the American passenger liner President Jackson.

Ottawa—In a definite statement to the Mass Buying Commission yesterday the T. Eaton Co. denied the use of their factories to lower prices.

Hon. Arthur W. Roebuck announced a move to extend the front of his industrial legislation proposals to Manitoba. Promise of co-operation from Quebec has also been received.

### WHITE DISCUSSES ANCIENT CHINA

Scientists Believe China Inhabited Half a Million Years Ago

### OATES INSCRIBED ON BONE

"Objects brought to light have given rise to the belief that China was inhabited some half a million years ago," stated Professor W. C. White in his lecture on the "Romance of Chinese Archaeology" Friday afternoon. "This ancient man is thought to have used fire and to have been a skilled hunter. In 1921 Dr. Anderson in the course of his excavations discovered pottery which was similar in every respect to that of Persia about 37 B.C. and there is every reason for surmising that the Chinese carried on trade with the other civilized countries of the time."

In 1899 scientists in this field became aware of the existence of bone beds, but it was not until 1914 that their actual location was determined. This was a very ancient cult of the Chinese people. Little cavities were fashioned in the bones and in these were inscriptions, and from the inscription the date could be surmised. Bone seems to have been used where later bamboo was employed. It is interesting to note that the inscribers were also the carvers, the artist the writer in the 12th century B.C. Bronze as well as bone and ivory was used but unfortunately this art did not pass on to the next generation.

To appreciate fully the beauty of any object there must be some knowledge of the folklore behind the subject and Professor White spoke briefly on the folklore of China.

It is often thought that Chinese antiquities to be found in this country were smuggled. This is a mistaken idea for only in the case of old books is it necessary to have the authority of the Chinese government.

### QUEEN'S PARK CRESCENT STILL WITHOUT SIGNALS

#### UNIVERSITY PAPER MAY BE ABOLISHED

University of New Brunswick Must Cut Expenses of Campus Activities

A rumour that "The Brunswickian", the student publication of the University of New Brunswick, is to be discontinued, has been circulating on the campus of that university.

The argument of those in favour of this drastic step is that something has to be done to lower the expenses of the various student activities. The statement of the case is contained in the quotation, "That certain factions within the university propose to abolish 'The Brunswickian' as a measure of economy, to make way for athletic appropriations."

The proposal that the student news-

### PACIFISM NEEDS ORGANIZED EFFORT

League of Nations Society Proposes Effective Platform

#### PRESS TO CO-OPERATE

Out of the muddle of impracticable ideas, fruitless resolutions and similar unsuccessful proposals that have characterized the efforts of those organizations that are striving for peace in Canada, there finally seems to have emerged a more or less effective scheme for the furtherance of pacifism in this country. This plan, which is being advocated by the League of Nations Society in Canada, is, according to its sponsors, one of the most comprehensive platforms ever presented by any peace-seeking organization to any group of people.

The new proposal places its hope of success in organized, concentrated effort. The first step is to explain the need for peace to a small group. Then with this group supplying the leaders, organizations are to be formed among the voters of every constituency. Meetings will be held, which the interested voters will then be expected to address two or three questions relative to Canada's attitude toward peace to the candidates who are running for seats in the federal legislature. These men will be asked to answer the questions in public at a future date. By the interest

#### Official Red Tape Holds Up Plans while Police Conduct Survey

#### DR. BARBER INTERVIEWED

Meanwhile Police Protection Given Students During Rush Hours

Installation of the signal lights for the protection of pedestrian traffic at the north end of Queen's Park which were suggested when the street was widened last fall is still being held up somewhere by official red tape. The police are still conducting a survey of traffic conditions at that point and according to University officials interviewed by The Varsity nothing further can be done until they are finished.

Dr. F. E. Barber, superintendent of Victoria University, said: "Nothing Yesterday The Varsity questioned Dr. Barber, superintendent of Victoria College, concerning the absence at the present time of signal lights on Queen's Park Crescent. The project was under discussion last fall to provide for the safety of students crossing the Crescent during rush hours."

Dr. Barber said, "Nothing further can be done until police finish the survey of vehicular traffic on the Crescent. Until it is finished in the near future, they will not say anything definite. They are waiting now for the results of the survey. In the meantime there is police protection during the rush hours at 9 a.m. and 5 p.m."

The project provided for two lights, one opposite the front entrance of Victoria College to synchronize with another at the cenotaph. When a button would be pushed at either of these places the lights would go red simultaneously for twenty seconds and then automatically change to green for forty seconds so that traffic could be held up only twenty seconds out of every

### SR. MEDS VICTORS IN WATERPOLO GAME

Scores Are Tied at One-All between Sr. Vic, Trinity, Jr. Meds, Dents

#### DICK SCORES WINNING GOAL

The Hart House pool was the scene of three interfaculty waterpolo games yesterday afternoon, with Sr. Meds scoring the only win when they rallied in the closing minutes of play to splash in two quick counters and take Sr. U.C. 2-1. The first two games of the triple header ended in one-all ties with Sr. Vic, Trinity, Jr. Meds and Dents each getting a split decision.

The Trinity-Sr. Vic contest saw plenty of scoring chances but due to the erratic shooting of the Scarlet and Gold and Victoria's goalie the goals scored were practically nil. E. Fraser and Cox played good games for the McCatty coached swimmers, while Fisher was the pick of the Victoria seven.

In the second game Dents came from behind to tie up the battle when Gerard flicked in a corner shot to make the count 1-1. Both teams tried hard for the winning counter but their passing and shooting was weak and the final score was unchanged.

Sr. Meds put on the finest performance of the afternoon when they defeated Sr. U.C. 2-1. The first goal for the Medicals was perfect with Culiner tossing a long pass to Walker who lost little time in picking the corner. Dick scored the winning goal.

### Charles L. O. Glass, Claude La Brecque Win Quebec Rhodes

The 1935 Rhodes scholars for the province of Quebec have been announced by the Provincial Selection Committee. Charles Lapsle Ogden Glass, third year Arts student at Bishop's College, and Claude Labrecque, graduate in Arts of College Ste. Marie, were chosen from a list of twenty-one applicants.

This year marks the second year in succession that these two colleges have captured the Quebec Rhodes scholarships.

### ALBERTA CONSIDERS SOCIAL CREDIT IDEA

System not Considered Sound by Members of Economics Staff Here

#### DOUGLAS TO VISIT HERE

The Douglas plan, the originator of which the United Farmers of Alberta intend to invite to that province, with a view to establishing a system of social credit is, in the opinion of Mr. Plumptre, monetary expert at the economics building, definitely not sound.

This plan is based on the theory that a fall in production is due to the lack of purchasing power, and Mr. Plumptre added, that it is Major Douglas' scheme to pay a bonus to manufacturers whenever the need arises in order that production may be kept up and purchasing power maintained.

Mr. Plumptre remarked that although Major Douglas says to the contrary, the plan is a form of inflation, is very involved and that it is doubtful if even Major Douglas himself really understands the fundamental workings of it. It is extremely ambiguous, and wherever it has gained ground, it is only because it appeals to the not clear headed.

It is, however, he concluded, a definite protest against the existing mismanagement of the financial system.

Miss I. M. Biss, also of the economics staff, remarked that the idea behind the plan, that a fall in production results from decreasing purchasing power is all right as far as it goes. But, she added, that by a much more intelligent use of our present monetary system, infinitely better results could be obtained, for the plan even in theory is not believed sound.

#### POLITICAL EVENTS STIR PUBLIC OPINION

G. E. Proust Declares C.C.F. Canada's Only Salvation in Crisis

"The C.C.F. is the only political organization which can possibly get Canada out of her present difficulties," said George E. Proust, the present head of the University C.C.F. Club in an interview last night.

"Things are happening here in Canada at last, and public opinion is rapidly being aroused. As Mr. J. S. Woodsworth ably showed at Massey Hall on Sunday night the Prime Minister has done much in awakening it. He attacked every one of Bennett's proposals in their basic intention and rightly so. To suppose an industrial giant of the financial size of Mr. Bennett to endanger his best interests by putting through really satisfactory social legislation such as on the surface his proposals seem to infer, is to be due for a most disheartening disillusionment."

"Therefore the C.C.F. with its frankly socialist platform is the only major party which can do anything at the present crisis, and this only by capturing public support. To do this requires a powerful political organization."

### VICTORIA DEBATERS PROVE LEAGUE EFFECTIVE IN WAR

#### Faculty Appointments Announced by Cody

President H. J. Cody announces that the Board of Governors has made several appointments in five faculties. In the Faculty of Applied Science A. E. Berry has been made a special lecturer in Municipal Engineering, and C. D. Long a Demonstrator in Hydraulics. In the Faculty of Medicine Miss A. Alvey and Miss D. Waugh have received positions—the former as Special Technician in Pathology and the latter as temporary Secretary in Physiology. Miss Helen Stevens has been appointed Research Technician in Biology for this term. In the Ontario College of Education Norman Davies has been made a Lecturer for the remainder of this year. Dr. A. E. Allen has been appointed Fellow in Public Health for four months from 1 February, 1935, in the Connaught Laboratories.

### SOCIAL TEACHING LECTURE SUBJECT

Impossible to Obey Sermon on Mount Strictly, Says Havelock

#### SPEAKS AT EMMANUEL

"It is commonly said that it is a mistake to look for economic programmes in the teaching of Jesus," stated Professor E. A. Havelock at Emmanuel College yesterday afternoon. "This is a half truth. He attempts to delineate the kingdom as it really is but the bulk of his teaching is the contrast between it and the present which results in a negative rather than a positive description."

"If we are going to live in the present world order it is impossible to take Jesus' sermon on the mount as a prescription which we can obey at all strictly. In this order he is denying any spiritual value to the economic man. Jesus does not tell us how to construct a society where such a man will not exist but he believes such a society will come. It would be more honest to disagree with Jesus than to twist his ethics to suit a particular society."

Professor Havelock explained that the profit motive is evil not because money brings pleasure. The evil is rather in the power which wealth brings since Jesus directs most of his teaching against pride and power. In comparison Jesus says very little against the other sins.

Our error is in interpreting the teaching of Jesus individually rather than socially. This is impossible since the individual cannot attain this perfection. It is a mistake to consider the individual as having innate power to conquer every situation.

#### BERKELEY SQUARE TO BE PRODUCEO

Trinity Dramatic Society Directed in Effort by Dixon Wagner

The Trinity Dramatic Society has chosen for its annual production, "Berkeley Square" by John L. Balderston. The play will be presented in Hart House on February 1st and 2nd.

"Berkeley Square" is under the able supervision of Mr. Dixon Wagner, well known for his associations with Hart House which have extended over a period of fifteen years. For the past five years Mr. Wagner has directed Trinity students in their presentations  
(Continued on Page 4)

Woodsworth Says Defects Lie in Membership, not in League

#### MOTION UPHELD 28-23

Opposition Cite Instances of Failure to Settle Disputes

By a vote of 28-23 the Victoria College Debating Parliament last evening sustained the motion "Resolved, that the League of Nations is the most effective instrument for the prevention of war."

"The League of Nations is the highest expression of internationalism that is recognized by the countries of the world," claimed Ken Woodsworth, recently returned delegate from the Congress Against War and Fascism held at Brussels, leading off the debate for the government. For this reason it should be supported, he said. "The League of Nations was built as an honest effort to prevent the recurrence of such a catastrophe as the world war" and if it has failed the League itself must not be blamed but rather its membership. "The tragedy of the League is that the people who condemn it are those who will not give it any support. It is up to us to support the League by perfecting it as an instrument of peace and by perfecting the support which we give it."

Harry Beer led off the opposition's attack, citing instances in which the League had failed to settle major disputes. The League was destined to fail from its very beginning because of the circumstances under which it was created, he said. The victor nations

### VARSITY VETERANS TO MEET VILLANS

Blue Team Show Improvement Must Score a Victory to Come Back

#### CHARLES TO PLAY OFFENCE

Tonight the battle-scarred, hapless (P.L.) Mr. Man Hapless and not (hopeless) University of Toronto senior A.O.H.A. representatives will once more don the accoutrements of boockey to entertain the shifty Villan sextet from Oakville at Varsity Arena. In the current series the Varsity hockeyists have drunk well of the bitter dregs of defeat and have set up a little record in their aptitude in absorbing nine losses without being able to reverse the situation.

Thus far in their quest for a victory in the senior O.H.A. series Varsity puckchasers have gained the happy faculty of holding off their opponents for the major portion of the game but suffer inherently by doing so as witness their momentary lapses on which their opponents score enough points to garner their victories. However, tonight the Blue squad face a yeoman task when they lock horns with Oakville with whom they shared the points in their last encounter. Now well in the van of the senior A standing Varsity needs a win to keep them within hailing distance of Port Colborne and Oakville, who have been more fortunate in the gaining of points so essential in the final league gradings.

Having shown a decided improvement since their last appearance here a revamped Varsity squad will step out on Ross Workman's glacial floor this evening with the hope of realizing a long cherished ambition, namely to register a victory at the expense of the Villans. Can they do it? To meet the

## We Sleep

A retrospective view of the activities of the campus political clubs during the past term corroborates the allegation made from time to time by intelligent observers that the students of the University of Toronto are appallingly apathetic in their attitude toward political matters.

During the fall term the University Liberal Club held three meetings. The first of these was an organization meeting which was purely a formal business affair, attracting little attention. This was followed shortly by a brief meeting to draw up plans for coming activities. Toward the end of November there took place the first open meeting of the society, attended by something less than thirty men and women, which was addressed by a Liberal member. The Macdonald-Carter Club held two open meetings during the term, at which less than fifty men were present, and one luncheon when Mr. T. L. Church spoke to two dozen members.

These represent the activities of the campus organizations officially connected with the two old political parties—not many months before a general election. Apparently undergraduates of Liberal and Conservative political convictions are so confident of a forthcoming victory that they do not feel the need of aggressive organization of student opinion in favour of their respective causes.

Most surprising of all is the fact the C.C.F. Club, an organization in which one would expect to find perhaps the largest representation of students, held but one meeting during the past three months. Moreover, it was attended by only some thirty-five students, a large part of whom were Victoria women, a fact which may or may not be of significance.

The onus for the comparative inactivity of our political clubs might be laid upon the executives of these organizations, but one should not be too ready to attach the blame upon these gentlemen. Rather do we say that the students themselves have much to answer for in this respect. It is high time that the undergraduates of the University of Toronto, who seem to have ample time, energy and money to expend upon the too numerous social activities which this campus provides, raised themselves out of the morass of unimportant matters which engulfs them and looked upon our chaotic social and political structure with some degree of honesty. From all over the world come reports of active organized student participation in social, political and economic activity. In Europe, in Great Britain, in United States students have taken a definite stand upon the issues pressing in upon them and are willing to uphold what they believe to be right with their lives if need be. But in Canada—we sleep.

The tide of events is rushing in upon us with breath-taking rapidity and unless Canadian students awake and prepare to meet the situations which it will bring with it, annihilation awaits us.

## Conflicting Issues

Throughout our school days we were constantly urged by our teachers to increase our vocabulary. The great number of words in the English dictionary were sorrowfully compared with the few actually in use and we received such advice as "Learn two new words every day", "Whenever you see a new word, make it yours". Composition teachers groaned over the limitations of our vocabulary.

Now, such a contrary world this is, continual attempts are being made to evolve a form of English which will embody only the absolute minimum of words in an effort to create an international language. Some time ago Basic English was presented to us with many dissertations on its value and utility. More recently an American professor comes forward with her version which she calls "little English" with a vocabulary of 800 essential words. And three pages over the same newspaper which carries the story of "little English" has an article on the paucity of the English language!

There has been a decided feeling of late that if there ever is an international language that language will be English. Now as English is notoriously perplexing to foreigners because there are so many ways of saying the same thing, some well-meaning persons have tried to simplify the language. Quite possibly they thereby make it easier for the foreigner to learn but it will avail him little to be able to speak "little English" unless the Englishman with whom he converses also uses it. And if the majority of English-speaking people begin decreasing instead of increasing their vocabulary, think of the future of the written language. This fact might well be borne in mind by those who extol the merits of a simplified English. Before long literature as literature would cease to be. Not to mention the monotony in both speech and writing general adoption of such a language would cause.

## The Innocent Suffer . . .

The appalling waste that can be caused by an inefficient educational system, and by stubborn adherence to arbitrary rules, is strikingly illustrated by a case that has come to our attention.

Completing a career at high school that was almost brilliant, the young man in question entered a highly recommended honour course at this University. At the end of his first year he failed disastrously, and petitioned to repeat the year. In spite of his excellent matriculation record, this permission was refused, and no reason was given.

He sought counsel from the supervisor of studies in his course. This official would take no interest whatever in his case, apart from a perfunctory investigation of his examination results, although successful students had had every attention shown them, even to the finding of summer positions. He was told that the only way he could continue was to transfer to the Pass Course. And all this, remember, in the face of a matric certificate generously studded with firsts in subjects taken especially for the honour course in question.

Somewhat discouraged and distracted, he did not return the next year, but the year afterward he started from scratch in the first year of a course similar to the one he had lost out in. He has now reached the third year of that course with more than average success, amply demonstrating that to deny him a second try previously had been totally unreasonable.

This student was certainly neither dull nor lazy. He was simply totally unprepared by the easy-going studies of high school for the relentless and infinitely detailed labours of a difficult honour course at University. After a year at University he was victimized by the "quota", which bars all students who have failed from repeating a year, regardless of previous qualifications, if and when the new registry in the year passes a certain number, determined by the number of instructors available. Although not officially recognized or acknowledged, there is ample evidence that the "quota" exists, proving beyond doubt that the largest university in the British Empire is inadequately staffed.

To say of an educational system that it wastes two of the best years of a young man's life is a scathing indictment. Something absolutely vital is lacking in a state school that fails so dismally to prepare students for the kind of work they find at a state university. To expect boys and girls to grow into men and women in the three months of summer between high school and college, regardless of their age; to expect them to assume, in that time, the full burden of self-responsibility for study so necessary at university, is absurd. But to refuse them a chance to try again after they have found out what they must do; to make them lose their most precious years and to deal such heavy blows to their confidence and self-respect is unjust and cruel.

Nothing can come out of nothing, any more than a thing can go back into nothing.—Marcus Aurelius.

## ART, MUSIC & DRAMA

### The H.C. Players' Guild

Anyone who did not know that "Passion, Poison and Petrification or the Fatal Gasogene", had been written to order, might reasonably suspect that it was a gentle protest against all drama tending to the melodramatic. It is Shaw in his most extravagantly ludicrous vein, giving vent to the uncontrollable meanderings of a vivid imagination in the manner of a family party charade. The poisoned soda-water and the thoroughly improbable antidote, with its astounding effects on the victim, are the work of an irresponsible genius. The play is as much fun to act as to see and the audience will probably regret its inability to take part personally in the battle of the gasogenes. The Players' Guild is presenting this genial tid-bit on Wednesday, January 23rd at 4.15 p.m. in the auditorium of the Women's Union.

As long as civilization is at all in its present form, just so long will Ibsen live as a classic. Bernard Shaw's plays, outside of their treasure of wit, are of interests only as relics and reminders. Ibsen and Shaw are the two who most faithfully and artistically reflect the attitudes of the transitional period between the nineteenth and twentieth centuries. Shaw preaches in allegory; he takes things as they are and develops them *ad absurdum*. When these situations are absurd in their own right, the play has no point.

Ibsen makes no such error. He sees problems and presents them. There is no solution given; each generation must provide its own answer. Ibsen's always of interest. It is, however, only on rare occasions that the public is privileged to see any of his plays. Translations of the Norwegian dramas are difficult to play. Aware of all these difficulties and hence prepared, the University College Players' Guild is producing "The Wild Duck" in Hart House Theatre on Thursday and Friday evenings. The translation has been re-arranged and the cast has been rehearsing for many weeks under the direction of Professor Victor Lange of the department of Germanics.

The Players' Guild is proud to be able to offer such an opportunity to those interested in the theatre. Ibsen may have been and may be misunderstood, but his plays are essentially stuff for the theatre, and their full appreciation can only be felt if viewed from behind the footlights and proscenium arch.

## Correspondence

Correspondents are reminded that all letters must be accompanied by signatures, and they are requested to limit themselves to approximately 300 words.

The Editor, *The Varsity*.

Dear Sir:

I was amazed to read "Future of Esperanto" in your Editorial Column of Thursday's date. Is the writer aware that Esperanto is being taught in the University of Toronto at the present time, or am I to assume that the article is a veiled attack on Prof. Louis Allen, the Esperanto instructor?

The article is so ridiculous as to hardly warrant anyone taking it seriously; certain it is that the writer has no knowledge either of Esperanto or its future. It is not my intention to enter into a discussion into the merits (or demerits) of Esperanto. I shall leave that in more competent hands, and facts and figures will no doubt be given you.

From time to time I have noticed the tendency of, shall I say, irresponsible persons, to break into print with an article on a subject of which they know nothing, and their vanity is kindled by desire of self-glorification. A half-formed idea takes root in an immature brain, and the owner of the said brain has an uncontrollable desire to see what the idea looks like in print.

But, possibly the article was intended for a joke, and some of us, not being university graduates, and lacking in a sense of humour, fail to appreciate it. After all, we are but clay.

Yours (still in amazement),

Edgar S. Mould.

Mr. Mundusvult Decipi, our metrical correspondent, attended the Vic Debate last night, and brought back a few jottings. We might call them

ACTA VICTORIANA  
The condition of the Victoria College Debating Parliament mace is a disgrace.

C-C

## THE HEMPEN SQUARE

By Goldwin A. Martin

The pictures of the Syracuse boxers arrived today and if appearances are any criterion the Varsity glove artists are in for a busy evening on Saturday. Pocius, the Varsity hope in the heavyweight division, boxes Jim Henderson at the Maple Leaf Gardens on Wednesday night. Henderson is an unknown quantity but the experience will be of great benefit to Pocius. The latter boxed six rounds today and appeared to be one of the best heavyweights ever developed at Varsity.

Freddy Smith is training hard and his Syracuse opponent, Ben Solomon, is in for a rough time. It is possible that Smith will also box at Maple Leaf Gardens Wednesday.

It now seems certain that Tom Powell will represent Varsity in the welterweight division while Jack Grant and Jack Brunker may meet in an elimination bout this week to decide which one will carry the banner in the 155 pound class.

## Varsity Veterans TO MEET VILLAINS

(Continued from Page 1)  
demand of the occasion the lads in the blue shirts will have to train their shots right on the target instead of making a series of chance shots from impossible angles.

The University of Toronto seniors will have another relief defenceman in Charles, who has not been available for the last few games. The forward lines will have MacPherson, McClelland and Hendry, and Devine, Sweeney and the fast skating Valquette with Loughheed in goal.

## THE SPORTSWOMAN

By H. L. E.

The first game slated for this evening will be played between Vic I and U.C. I from 5-6. There seems to be some difficulty at U.C. in promoting enthusiasm for hockey, and although the few who are interested are doing their best, there is some doubt as to whether they will be able to enter two teams in the interfaculty games. In a college as big as U.C. there should be no trouble whatever in sending out two first-rate teams.

Tonight we will witness the opening of the hockey schedule, weather permitting, and the papers sound very hopeful on that score. In the last tussle, which is scheduled for 7 p.m., St. Mike's will be the guests of the Meds team. It will be interesting to note the result of this game, as Meds have only two subs. On the other hand, they are lucky in possessing Mary Thom, star forward, and Bliss MacQuarrie, sensational goalie.

The next game, Vic II at Saint Hilda's, will take place from 6-7. The Saints' forward string has been considerably weakened, due to the loss of Sheila Bull, who was injured while skating last week-end; but there seems to be a lot of promising material and the team does not lack subs.

With regard to the intercollegiate basketball team, the only information we have to offer is that the division will be made after tonight's practice. So watch this column tomorrow for further news.

All those intending to play hockey and have not yet seen Dr. Gordon, be sure to go around this morning, as this is your last chance.

## M. Goldenberg Squash Champion

M. Goldenberg defeated C. McCutcheon 7-15, 15-10, 18-17, 15-3, last evening to win the singles squash championship of Hart House, the A. F. Coventry Cup and the right to represent Hart House in the annual singles tournament of the Canadian Squash Racquets Association. McCutcheon set a fast pace from the start, and both players used all their bag of tricks. McCutcheon's corner shot gained him many points, but Goldenberg's greater nerve and coolness in tight places won out for him. McCutcheon plays Noyes shortly to decide the second man on the Hart House team for the Canadian tournament.

Volleyball isn't far removed from being a major sport in London, England. The London Volleyball Association includes sixteen teams and about 200 players.

## SPEAKING OF SPORT

By B. J. McGuire

Friday night will see the renewal of an idea which became quite popular last season around Hart House. The occasion is the opening of the intercollegiate basketball season with the Tricolour meeting Varsity in the opening game. The contest is to be followed by a dance in the big gym. And the price will be the small sum of 35 cents. This should certainly prove to be an attractive proposition and should result in a large turnout to the opening struggle. The Blue team have been singularly successful this season and are favourites to mount the intercollegiate throne. While the Queen's brigade have not been creating any great stir this season they are reported to be a strong and fast crew and should extend the Toronto team to the limit.

We see by the papers that Dr. Les Black, Varsity heavyweight, is scheduled to meet Jim Henderson in the weekly boxing show at the Gardens tomorrow night. While the Doctor has enjoyed several successful years in his profession since graduation, the success has not been such as to create a heavyweight out of the former Varsity welter champion. Nor has the doctor decided to stage a comeback. The fact is that Dr. Black is sending his heavyweight protégée, Pocius, down to the Gardens tomorrow night for some practical experience before he faces Tiny Jim Brown, 235 pound heavy from Syracuse, here Saturday night. Pocius has looked better than ordinary in the gym lately and a victory Wednesday will stamp him as a title contender.

Oakville, with their half pint mascot, will be the guests of Varsity at the Arena tonight. The Students still have a chance of figuring in the playoffs, but will have to win tonight or this slight hope will pass away. Incidentally, Normie McClelland, who won the Herald \$5.00 prize for speed skating last Friday, received the equivalent in merchandise, so Normie is still an amateur.

Winice and Cressy McCatty, the two Varsity swimming sensations, will make an effort to establish new records in the aquatic sprints tomorrow night as a feature of the School Night programme. The boys will race against time and an official timer will be on hand to record the results.

## DEBATERS PROVE LEAGUE EFFECTIVE

(Continued from Page 1)

definitely refused membership in the League to the vanquished. "It was no wonder that the United States declined to enter this group of greedy, grasping politicians who refused to let the defeated nations have a say in their fate."

"Out of forty disputes brought before the League, thirty-seven have been settled satisfactorily," stated Alice Carscallen, second speaker for the government. "We see the League objectively, in the process of development, proceeding by trial and error. We of the government do not believe in the hit or miss methods of sentimental pacifistic organizations."

Violet Tennant, speaking for the opposition, upheld socialism as an important factor in creating world peace.

Professor Havelock, speaking against the motion, denied that the League as it exists today can be an effective instrument for world peace. "The League is reduced to a debating parliament. The rectification of the frontiers of Europe is a subject which is sacrosanct," and the League does not attempt the task. "The League today still stands damned. It is still regarded in Europe as the instrument of the infamous Treaty of Versailles."

## STRONG MEDS TEAM DOWNED BY JR. VIC

Jr. Vic caused the biggest upset of the current interfaculty basketball season when they downed the strong Jr. Meds outfit in a close and hard fought tilt by a 16-15 score.

Miller for Vic was a team in himself and contributed 12 of the 16 points garnered by his quintet. The game was a thriller from start to finish with Jr. Vic assuming a 7-6 lead at the half-way mark. With 2 minutes to play Vic was leading 14-11. Uise's basket brought it up to 14-13 but Miller's stellar playing gave Vic a basket that was equalized by Banet's effort for Meds, bringing the final score up to 16-15.

Miller was outstanding for Vic while Vaughn also played a star role in the team's win. Uise, Netzer, Fenner and Zarsky starred for the losers.

Jr. Vic: Maitland, Miller, Vaughn, Clipperton, Dunlop, Burgess, Hamilton, McCordick.

Jr. Meds: Uise, Netzer, Banet, Fenner, Zarsky, Newton, Carle, Wales, Bond, Laski, Crookover, Epping.

Referee: Forsythe.

## POLITICAL EVENTS STIR PUBLIC OPINION

(Continued from Page 1)

tion, both in numbers and in party discipline. For this reason the University C.C.F. Club has had to wait until now to get a provincial organizer, and now we have to proceed without one, though only temporarily." Mr. Proust then went on to describe some of the peculiar vicissitudes of organizing, especially with reference to his past experience in the C.C.F. Youth Movement.

"But now I understand you to have Professor Grube of Trinity?"

"Yes, and a very lucky find, I can assure you," said Mr. Proust. "Professor Grube is one of the most thoroughgoing socialists I know, and has had considerable experience in Great Britain. His advice on such questions as to whether we shall become a Student Socialist Movement, or remain as we are; whether or not we shall affiliate with the provincial C.C.F., what is the best form of organization to take on a University campus, how best we can take part in socialist activities off the campus, and the thousand and one other things that have to be decided at an organization meeting, will be most valuable."

The meeting of the C.C.F. Club is tonight at Wymilwood at eight o'clock, "and it bids fair to be a rather warm meeting."

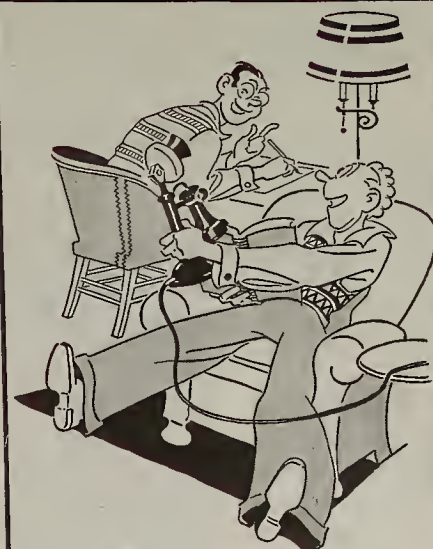

## DAMAGE OF NOISE CAN BE MEASURED

(Continued from Page 1)

don't like to hear".

New York, Chicago, London and other cities have wisely taken steps to reduce the noise on their streets, and by hanging pictures in office buildings it is possible to keep out a certain amount of this disturbance; the noise which walls reflect will be absorbed especially well if the pictures are mounted on a soft material.

There is a common belief that animals hear fainter sounds than humans, but this is erroneous, for tests on guinea pigs and chimpanzees prove that they merely hear higher-pitched noises and are usually very much on the alert. It is impossible for any human to have much greater hearing than the average because the intensity of what he hears depends not on his ears but on the quantity of noise. It might also be expected that sounds would strike the ear of a child with different tones than they would the

## Don't Wonder—Telephone!

No, Oswald, the laddie in the foreground is not preparing to hurl the telephone at his roomie, nor is he trying for the straight-arm record. He has merely been seized with a bright idea. Instead of wondering what Mabel is doing back in the old home town, he's decided to telephone her. His pal says, "Make it a weekly habit. That's how I keep MY sugar sweet."

UNIVERSITY PAPER  
MAY BE ABOLISHED

(Continued from Page 1)  
paper should be discontinued in order that "men could gallop around football fields and basketball floors" has been met by a storm of righteous indignation not only by the members of the staff of the paper but also by a large majority of the student body. The consensus of campus opinion seems to be that the paper is absolutely essential to the life of the university. In their opinion it forms a vital contact among the students as a whole and also provides the only direct link with other universities.

It is felt that if sports have reached a position of such importance in university activities as to exclude all other forms of endeavour, literary or otherwise, it is time that it was relegated to its proper place.

## Editor-in-Chief Resigns

W. B. Morrissey, editor-in-chief of "The Brunswickian", the student publication of the University of New Brunswick, has announced his resignation due to pressure of studies.

An additional reason which he gives for his resignation is that due to faulty staff organization his duties as editor had been augmented by carrying out the functions of chief reporter, proof-reader, copy-reader and news editor. Mr. Morrissey, who is the second man to resign a responsible position on the paper this year, proposes to continue as a member of the editorial board.

There is no apparent connection between the editor's resignation and the current rumour that "The Brunswickian" is to be discontinued.

## Coming Events

## TUESDAY, JANUARY 22

5 p.m.—T.I.C.C.U. meets in the Blue Room, Wymilwood. Speaker: Mr. A. B. W. Fletcher of London, England.

5 p.m.—Men's Glee Club rehearsal in Hart House Music Room.

8 p.m.—C.C.F. Club at Wymilwood will have Professor Grube speak on the immediate Political Outlook in Canada.

8 p.m.—130 a.m.—Annual School Nite in Hart House.

8:30—The German Club in the Women's Union. Mr. Fritz Winter, the German Exchange student, will speak on German architecture. Songs and refreshments.

S.C.M. commutator's luncheon for U.C. women. Mrs. J. F. Davidson will speak. Be sure to get your tickets from the executive.

## JANUARY 23-26

San Toy, light opera by the Victoria College Music Club at Margaret Eaton Hall. A cast of 95, directed by Thomas J. Crawford.

WEDNESDAY, JANUARY 23  
4:15—"Poison, Passion and Petrification, or the Fatal Gasogene" at the U.C. Players' Guild. Members please bring proceeds of ticket sale for "The Wild Duck".

University College junior-senior dance in Roof Garden of Royal York Hotel. Informal. Music by Nels Kelly and his Varsity Kampus Katz.

## THURSDAY, JANUARY 24

8 p.m.—Italian-Spanish Club, at the Women's Union, speakers, new songs, games, refreshments; the hour is NOW 8 p.m.

## JANUARY 24, 25

8:45 p.m.—U.C. Players' Guild presents Ibsen's *The Wild Duck* in Hart House Theatre.

## FRIDAY, JANUARY 25

St. Joseph's College annual At-Home to be held at the King Edward Hotel. Hart House String Quartet, assisted by Harriet Cohen, noted British pianist, playing American premiere of new Arnold Bax quintet, Convocation Hall.

9:00—Another Honour Science Dollar Dance will be held at Malloney's Art Gallery, 66 Grenville St. Everyone is invited. Members admitted by membership card.

VICTORIA WINS MATCH  
AGAINST TRINITY

Interfaculty Hockey Closes  
with Final Score  
4-0

The annual interfaculty hockey campaign got away to a rousing start at Varsity Arena yesterday afternoon when those ancient rivals, Trinity and Victoria, clashed in a speedy duel, the final count reading 4-0 for Victoria.

Play was fast and loose for the first ten minutes until Grover banged the disc over Owen's recumbent form during a scramble at the Trinity goal. MacMillan and Lavery were then directed to the misdemeanour wicket for roughing it and during their sojourn Gregory tore through on a solo dash and blasted a knee-high drive past Owen to make it 2-0.

Vic were boring through the Trinity defence consistently all during the period and only Owen's stellar work held down the score. Lavery raced up centre, split the defence, and passed to Joblin, who made no mistake about. Ten seconds later the period ended.

Trinity opened the final canto pressing hard but could not get organized, making numerous blue line infractions. Vic had many chances to score but could not get past Owen. The entire Anglican quintet played up during the final five minutes, but could not do anything right.

Victoria: Goal, Dickie; defence, Saunders, Wainwright; forwards, Lavery, Pratt, Monzon; alternates, Grover, Gregory, Joblin, Morrow.

Trinity: Goal, Owen; defence, McLellan, Sutton; forwards, Brennan, Poord, Campbell; alternates, McLellan, McCreery, Scrivener, Burchell.

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at either the men's office in Hart House, or at the women's office in University College. No notices will be taken over the telephone, after 6 p.m. notices must be taken to the Press Building. Notices for the Bulletin Board are limited to ONE insertion only.

## LIBRARY EVENING

An informal library evening has been arranged for members of Hart House on the evening of Tuesday, January 29th. Members will meet in the library of the House at 8:45 for informal discussion on books and will be addressed by Mr. Sanderson of the Toronto Public Library on "Reading for Fun". Smoking will be permitted.

Sunday, January 27, 9 p.m., Wymilwood musicale, Miss Dorothy Veale, pianist, guest artist.

## S. C. M.

Mrs. Hutchinson's group for Victoria College men on "Jesus in the Records" will meet today at the usual hour.

## S. C. M.

The group formerly led by Miss Margaret Kinney will meet today at 4:30 p.m. in Annesley Hall.

## VIC MEN

Those desiring double tickets for the Hart House concert please sign the list in the college hall today.

## MEN'S GLEE CLUB

Rehearsal will be held Tuesday afternoon at 5 p.m. in the Music Room in Hart House.

## POLITICAL SCIENCE CLUB

The first meeting of the club for the new year will be held today at 4 p.m. in the Seminar Room (101) in the Economics Building. Two papers will be read by students dealing with the economic background and problems of the Mass Buying Commission.

## T. I. C. C. U.

Tuesday, January 22nd, 5 p.m. The Toronto Intercollegiate Christian Union meets in the Blue Room, Wymilwood. Speaker, Mr. A. B. W. Fletcher, London, England. Everybody welcome.

## ART, MUSIC AND DRAMA

(Continued from Page 2)

## Vic Music Club

For its tenth annual presentation in the field of light opera, the Victoria College Music Club produces San Toy by Sidney Jones. The original production of San Toy was staged by the celebrated director, George Edwards, at Daly's Theatre, London, in 1899, and enjoyed a lengthy run. Jones wrote San Toy as a successor to his "Geisha Girl" and to star Marie Tempest, a then well known singer on the London stage.

In style, the opera resembles Gilbert and Sullivan's Mikado and, like that opera, abounds in all the gay picturesqueness of costume and setting possible in an oriental production.

The production this year is again under the direction of Thomas J. Crawford, Mus.Bac, F.R.C.O. To the large cast of principals there is added a men's chorus of mandarins, a squad of amazon guards, and dancers, making a total cast of over ninety.

## Sunday Evening Concert

The following programme will be given at the concert in the Great Hall of Hart House at 9 p.m. on Sunday, 27th January:

I  
Andante F Major ..... Beethoven  
Caprice (Scherzo Opus 16 No. 2) ..... Mendelssohn  
Etudes ..... Chopin

E Major Opus 10 No. 3  
C Major Opus 10 No. 7  
C Minor Opus 10 No. 12

II  
Sonata B Minor Opus 58 ..... Chopin  
allegro maestoso  
scherzo: molto vivace  
largo  
finale: presto, ma non tanto

III  
Prelude in G Minor Opus 23 No. 5 ..... Rachmaninoff

## THE STUDENT

January issue of *The Student*, publication of the Student League of Canada, goes on sale on the campus Wednesday morning. Bring your nickels.

## U.C. PARLIAMENTARY CLUB

Thursday, January 24, 1935, 4 p.m., Junior Common Room. Joint meeting with the Vic Sandwich Parliament. Resolution: "That this House favours the continuance of the Bennett government". Speaker, Rt. Hon. N. M. Pivnick; Clerk, Hon. H. Buck; Prime Minister, Rt. Hon. Wilfred Smith; Leader of Opposition, Hon. Israel Kapslansky.

## SANDWICH PARLEMENT

There will be no session this week, but all members are reminded that we have been invited to the University College Debating Parliament on Thursday at four o'clock in the U.C. Junior Common Room.

## S. C. M.

Miss Biss' group for U.C. women will meet today in her room in Falconer House at 5:45 p.m.

## S. C. M. LUNCHEON

Due to the illness of Mrs. Davidson, Miss Marjorie Drummond has kindly consented to speak at the luncheon.

## VICTORIA FIRST YEAR PINS

Will those who desire a 378 class pin and have not yet signed please do so at once. The lists are on the bulletin boards in the college hall and will be removed Wednesday.

## U.C. MUSICAL TICKETS

U.C. men may secure tickets for the Hart House musicale next Sunday evening, in the Junior Common Room, Wednesday morning at 8:45. Registration cards must be presented.

Serenade ..... Schubert-Liszt  
Caprice in F Minor ..... Dohnanyi  
Gondoliera (from Venezia e Napoli) ..... Liszt  
La Campanella ..... Paganini-Liszt

## Let's Go Places

"Trois Hommes en Habit", this week's presentation in the series of French talking pictures being offered by the York Theatre, is a farcical comedy with a certain amount of very good singing. Marcello, Gilbert and Andre, the "trois hommes", are three friends trying to find a living in Paris, Marcello by singing, Andre by painting and Gilbert by finding work for the other two. A cabaret proprietress offers Gilbert a job under the impression that he is the singer. Gilbert's attempts to carry out his engagement by having Marcello sing for him, concealed behind a curtain, furnish the most amusing elements of the play. Finally, of course, the deception breaks down and the really talented Marcello comes into his own, that is—a theatrical engagement and marriage with Lucie.

The picture is quite short and gives the impression of having been cut but is amusing and not too difficult to follow. The acting is excellent and the voice of Marcello charming.

PACIFISM NEEDS  
ORGANIZED EFFORT

(Continued from Page 1)

thus stimulated, the peace cause will be definitely advanced, says the society. It is planned that with the co-operation of the press, a general idea of the proposal will be fairly widespread before the coming federal election, in which case a definite estimate of the value of the plan will be obtained.

BERKELEY SQUARE  
TO BE PRODUCED

(Continued from Page 1)  
of "See Naples and Die", "Much Ado about Nothing", "Three Sisters", and others.

The entire play, Mr. Wagner states, is to be produced without any alterations. The settings, however, are to be slightly simplified.

Miss Pat Harrison, who takes the role of Lady Anne Pettigrew, Eric Atkinson as Peter Standish, Valentine Barrow as Helen and Helen Coleman as Kate Pettigrew, are all well known to campus play-goers. Many of the cast have had experience and Mr. Wagner is confident that the play will maintain the high standard which has been set by former productions of the society. Mr. George Stammers of Trinity College is in charge of the settings. Costumes for the cast are being made by St. Hilda's.

TRAFFIC SIGNALS  
STILL LACKING

(Continued from Page 1)

sixty. Another light opposite Wymilwood would operate independently of these two.

Mr. LePan, superintendent of buildings and grounds, stated, "The plan is all in the air until such time as they have completed the traffic count, before they can make final recommendations as to what should be done and what type of equipment to be installed."

A Captain from some southern sea  
Said: "I'm just as pleased as can be,  
For I'm back on the ocean  
And I haven't a notion  
Of switching my brand, you can see."

## SOCIAL ARTS

My dear Phyllis,  
Movies, dances, bridge, talk-fests—what not! How many ways there are of spending an evening. I wonder what the most popular form of entertainment is among students—and why. Some are all for spending most of their time with the same sex; women in a mass have a wonderful time—when no men are present, none of the business of luring and hunting the unwary can interfere with their genuine enjoyment of one another's company. And do you women talk! Often I feel a twinge of regret at abstracting you from your natural habitat.

But even when we're helped along by sex, in appreciating another person's company, we are lost without conversation: the lovelorn but tongue-tied suitor is notorious. Women who can talk are invariably better off than the beautiful but dumb, though sometimes it takes a good deal of talking! Take a glance at our modern social events. Is there anything more snobbish and strictly unsocial than our

ballroom dancing? Dancing with one's best friends is a frank admission that we are too narrow-minded to get along well with a person who is quite attractive and acceptable, but a stranger. Bridge is the worst example of the failure of our tongues in time of need; at your own house once, I remember a small party of young people sitting around like so many itching bumps on a log until the cards were produced; then everybody forgot their self-conscious attempts to make conversation and had a great time.

At one time the three necessities for a young man's social education were: dancing, fencing and witty conversation. We get more than enough repartee at college but very little wit, I am afraid. Our friend A— was bemoaning the decrepit condition of social intercourse the other day; he would have us all prohibited from groups of more than two—so that we could get a bigger kick out of talking. Let's not have all the old stilted forms—but let's have talk.

—Ted.

VOL. LIV.

UNIVERSITY OF TORONTO, WEDNESDAY, JANUARY 23rd, 1935

No. 70

### NEWS OF THE WORLD IN BRIEF

Toronto—Announcement was made by Hon. David Croll, minister of welfare and municipal affairs, that uniform food allowances will go into effect throughout Ontario immediately. This would mean, he stressed, that in no municipality will the unemployed have cause to claim discrimination.

Toronto—It is reliably rumoured that the Hepburn government will boldly face the separate school tax issue at the coming session of the Ontario legislature, and will provide, through legislative amendments, for the Roman Catholic minority in this province a greater share of corporation and utilities taxation than it now enjoys.

Sofia, Bulgaria—Premier Kimon Gueorguiff, Bulgaria's dictator for less than nine months, resigned yesterday, with his entire cabinet, as King Boris moved suddenly and swiftly to take the reins of power into his own hands.

Tokio, Japan—A new danger spot has appeared on the vast map of Asia as Russia and Japan find their expansionist aims clashing in Sinkiang, huge north-western territory nominally under Chinese rule. An official Japanese spokesman said the Soviet's alleged penetration of Sinkiang "menaces the peace and stability of Eastern Asia".

Winnipeg—Sidney Smith, president of the University of Manitoba, lauded openmindedness, initiative and self-reliance, as three characteristics which universities should strive to give their graduates.

### P.T. ATTENDANCE UP TO STANDARD

Policy of Directorate to Encourage Participation in Sport

#### MUST GET THIRTY-SIX

That this year's physical training counts were up to standard was the opinion of T. A. Reed of the Hart House Athletic Directorate when interviewed yesterday by *The Varsity*. "Of course," he admitted, "there are a good number who have not managed to keep up their totals in the first term, but they will make them up this term." Mr. Reed said that it was the policy of the directorate to encourage undergraduates, wherever possible, to play the many interfaculty and intercollegiate sports, earning their counts that

### ARCHITECTURE SHOULD MEET PRESENT NEEDS

Martin Baldwin Lectures on Architecture at Art Gallery

"The essential quality of architecture is that it should meet the present needs." Mr. Martin Baldwin elaborated on this statement, tracing the source of the development of architecture through different civilizations, in his lecture at the Art Gallery, last evening. Architecture portrays man's desires and the ideals of the civilization which is his environment. The only remnants of early architecture are those buildings which are either too great or too hallowed to be destroyed. As civilization developed from Pagan to Christian different attitudes are evident in the architecture. In the transition from Classic, Romanesque or Grecian, to

### ALBERTA STUDENTS' UNION MEETING PROVES A FIASCO

President Forced to Dismiss Gathering When Students Fail to Appear

#### ND QUORUM

Petition Was Signed by One Hundred\* Alberta Students

The meeting eagerly petitioned for by one hundred students of the University of Alberta in an attempt to get an official expression of student opinion concerning the ruling of the board of governors to prevent professors from taking an active part in provincial politics, turned out to be a fiasco when President Bierwagen of the Students' Union was forced to disperse the gathering because sufficient students did not attend to constitute a quorum.

A headline on the report of the meeting in *The Gateway*, the undergraduate newspaper at the University of Alberta, reads: "The Usual Play-About of Belling the Cat Turns Out in its Usual Campus Flat-Tire Style." (Continued on Page 3)

### PRESIDENT EXPLAINS V.C.U. AMENDMENT

Union Passes Motion to Change Status of Pass Students

#### MDTION UNANIMOUS

"The status of the Victoria College Pass Course students," stated Elliott Auger, president of the Victoria College Union, "is about to be definitely and materially ameliorated, as a result of an open meeting of the Victoria College Union on January 18th in which an amendment to the present constitution was passed unanimously."

The motion of amendment was that "all students within one year of graduation may vote for all offices for which they are eligible, providing they have paid fees in their own year."

The result of this motion of amendment was that three recommendations were passed by the Council:

### IMPORANT MOVEMENT SEEN IN ESPERANTO

Sweden Sees Representatives of Thirty-Four Nations Converse Freely

Following a recent editorial on the unimportance of Esperanto as a means of preserving world peace, the office of *The Varsity* has been flooded with correspondence, the temper of which is, in the main, at variance with that editorial. The following is taken from an article published in "The British Esperantist", which magazine was forwarded to the editor by an Esperanto convert.

The writer, E. Rosslyn Mitchell, M.A., LL.B., states that he spent a day among a crowd of faddists, in the House of Parliament in Sweden, and did not regard them as faddists. "Norwegians and Swedes wearing their national dress came up with Germans and Frenchmen, Austrians and Czechs. Rather strange to see Germans and French, the latter proud of their hirsute adornment and the former copped like brushes. Strange, too, to see an

### Reporters Wanted

There are a limited number of vacancies on the sports staff of *The Varsity*. Applications for the above positions will be received at *The Varsity* office up until Friday at noon. No previous experience necessary. Apply in person between 12 and 2 o'clock and tomorrow.

### DEBATES COMMITTEE MAKES NEW RULING

Fairer Representation of Colleges and Faculties is Object

#### LEADOCK TO SPEAK

New rules have gone into effect in the election of officers for the Debates Committee. In the past the six candidates obtaining the highest number of votes, irrespective of the college or faculty they represented, were placed in office. This plan has been found to lead to unfair domination by one or two faculties. Last year the committee was composed of four men from University College and two from St. Michael's.

To counteract this tendency a new ruling has been made which states that not more than three members of the committee may be chosen from one college or faculty, while a candidate from one not already represented, has

### LIVING AS AN ART TDPC OF S.C.M. GROUP

University College Women Will Hear Series of Lectures

A study of the art of living is the programme of the Student Christian Movement group of University College women. It is being inaugurated in the belief that living, in common with all other arts, requires discipline and direction, that to be able to grasp its significance and to be able to put the most into it and get the most out of it, is an art which is worthy of the most diligent cultivation.

The series of lectures will be held in the common room at Cody House on Wednesday afternoons. The first will be given on January the twenty-third by the Reverend Beverly Oaten, the National General Secretary of the

(Continued on Page 3)

### Mr. Samson Scans "The Student" His Reviews Are Ever Prudent

By Samson

*The Student* for January is out. It is the official organ of the Student League of Canada. Since an oracle has said that a magazine is no magazine until after the sixth issue, it now considers itself half a magazine. The front cover represents a student (probably the Speaker of the U.C. Parliamentary Club, since he wears a gown and also a mortar-board) before a background of helmeted persons carrying rifles with bayonets fixed; he reads a copy of the same issue (not unlike the Pet Milk label this) and his face is solemnly inscrutable. On the front cover is also a table of contents, headed "Symposium—".

The Greek word Symposium suggests vine-leaves in celebrants' hair and vine-juice in another place; behind the front cover is no suggestion of either. That atmosphere is of an assembly hall in the Dorecourt Road, with a Communist meeting in progress. There is in short a deadly earnest, a sombreness unrelieved by the Red Flag.

### PROFESSOR GRUBE DEPLORES ACTION OF GOVERNORS

Restriction of Freedom at Alberta Scored by Speaker

#### C.C.F. CLUB MEETS

Club Decides to Affiliate With Co-operative Commonwealth Federation

In an address upon the "Immediate Political Outlook in Canada" before the University C.C.F. Club in Wymwood last night, Professor G. M. A. Grube of Trinity College deplored the recent ruling of the Board of Governors of the University of Alberta which forbids the professors of the University of Alberta to take any active part in provincial politics.

"The signs of a movement to prevent anyone who happens to be paid by a government service from taking his full share in the political life of his country is dangerous," asserted Professor Grube. "A civil servant of high rank may find it advisable not to criticise the policies which it may be his duty to carry out. But neither a postman nor a university professor is a civil servant in that sense. To prevent them from taking part as citizens in political life is dangerously like Fascism."

During his address the speaker

### FORESTERS HEAR U. S. PROFESSOR

Relation of N. R. A. Codes to Forestry is Discussed at Banquet

#### HELD IN GREAT HALL

In the Great Hall, appropriately decorated for the occasion with what appeared to be a thriving young stand of conifers, the Foresters Club held their annual banquet Tuesday night, and this year it was in conjunction with the Canadian Society of Forest Engineers.

Dean Howe introduced the guest speaker of the evening, Professor A. B. Recknagel of Cornell University. In speaking of the relations of forestry to the N.R.A. codes, Professor Recknagel stated, "The Blue Eagle is a much ruffled bird at present." He arranged the lumber code under six "feathers". The feature of price control, called cost production, which has been abandoned; the production quotas, minimum wages, fixed region by region and even by types of employment; maximum hours of work; forbiddance

### VARSITY DEFEATED BY A 3 TO 2 SCORE IN O.H.A. CONTEST

Devine Scores Varsity's First Goal in Second Period

#### SCORE TIED IN SECND

Winning Goal Scored in Last Minutes of Third Period

By Frank Lamberti

With hopes running high for the Blues' first victory in the senior O.H.A. campaign, a ravaging holocaust in the person of Old Man Jinx swept in to the Varsity Arena last night which sent the University of Toronto senior sextet down to a 3-2 defeat at the hands of the ageing Villan crew from Oakville. In doing so the Villans had to come from behind twice before the evening's encounter was over to finally eke out the win over the luckless huds in the blue shirts.

Presenting a revamped line-up with the addition of Bruce Charles on defence and McIlquham back in uniform again, Varsity with their money line of McClelland, MacPherson and Hendry turned in a very beady effort while Loughheed in the Blue nets was right on his toes. For Oakville, P. Allen and Sutcliffe were quite effective.

Starting off the first period Varsity set up a series of salients into the Oakville defence area and on one of these occasions Kepson broke away clear but missed a royal chance to score

## Alberta Sleeps

The assertion made in this column yesterday that Canadian university students are woefully apathetic in their attitude toward political affairs is well borne out by a report just received from the University of Alberta.

Recently the Board of Governors of the University of Alberta passed a ruling forbidding professors of that university to participate actively in provincial politics or to run for a seat in the House of Commons. Some one hundred students immediately signed a petition to have the matter brought before the Students' Union that student opinion might be recorded on the matter. In accordance with the petition the president of the Union issued a call to a special meeting to be held last Monday, "at which," says *The Gateway*, "it was expected that nothing less than a revolution would be accomplished."

When the meeting took place, the President was obliged to dismiss the gathering because "constitutionally it was impossible to proceed without the necessary quorum of two hundred members, since any resolution passed by a lesser group could not be construed as an official expression of student opinion." The President was quite within his rights in his action and in his official statement published in *The Gateway*, he berates the student body for their indifference: "Regardless of the merits of the question under consideration, the meeting was well worth attending, as it offered to students an opportunity to express their opinions upon social and political principles of vital interest not only to the University but to the whole province. If the petitioners themselves regard the failure of their meeting with disappointment, they may lay the blame directly at the door of the student body and more particularly at their own. It was their own failure to canvass adequately in advance the entire student body, coupled with the ennu and indifference of the latter, which led to this lamentable fiasco."

In an editorial *The Gateway*, undergraduate newspaper of the University of Alberta, comments with delightful sarcasm upon the affair:

"The student body definitely showed it wasn't interested in the ruling of the Board of Governors by failing to turn out to the meeting called to discuss the question. We commend the students for their calm detachment, their superb indifference to any matter concerning the government of their country. The President of the University was quite right in forbidding political clubs the campus, for it is not the purpose of the students at University to interest themselves in the machinations of any political party. If the students had expressed any views on the question of professors in politics it would have immediately labelled them as C.C.F.'s or Conservatives. The perspicacity with which the student body recognized this real danger of embroiling themselves in politics was wonderful to behold. Only harm could have come to the University by a student discussion of freedom of speech when such a question has been taken out of the academic field and made a political issue.

"That one hundred presumptuous young persons signed a petition to call a Students' Union meeting to discuss such a vital question shows to what depths the University has sunk. Surely it is not the business of a university student to apply what he has learned of liberty, of freedom to a living political issue. Most certainly not. His job is to acquire these facts and to put them down in nice orderly array

point by point on an examination paper. Then, of course, once this duty is done, sleep again for the rest of the year is the prime necessity. The University has succeeded in its attempts at higher education. If the educational system of the day cannot give at least 200 students in this University an interest in the political affairs of the country, then it is well-nigh time that enquiry was made why.

"Now I lay me down to sleep

And hope the Lord my soul to keep"

should be added to the University students' song."

To which we add "Amen".

## "Friends, Romans—"

While the silence of a broadcasting studio must be a veritable haven of peace to speakers tried and tested amid the boorish heckling of an undergraduate parliament, radio debating probably offers its own variety of nerve strain and mental tribulation.

It may be supposed that at nine-thirty last Friday evening Messrs. Smith and Rae, the immediate ordeal of their debut as political speakers on the Commission Network having been handled with adequate dispatch, were able to go home and get a good night's rest. They were not hounded throughout their slumbers, one feels sure, by horrible visions of screaming headlines in the morning press, as might be the case with a more prominent speaker.

Whether he be a statesman cherishing in his heart only the best interests of the nation, or merely a politician soliciting votes, Mr. Bennett must still merit high praise for the single achievement which, at least, is already his. It is doubtful if there has ever been a time when a more lively political interest has flourished among the people of this Dominion than at present. The social, economic and political factors effecting the present situation are of unparalleled importance, yet it has been the Prime Minister's recent series of addresses which has awakened the electorate and forcibly drawn their attention to the issues at hand.

Many panicky cries have greeted the use of the radio as a political weapon, for the possibility of a monopoly of this powerful force being secured by any single faction may well be viewed with alarm. Yet properly controlled and placed equally at the disposal of all parties, the value of the "nation wide hook-up" to the increased efficiency of the people's government cannot be too highly praised. Heretofore, if Mr. Bennett spoke at a political rally in Ottawa, Toronto or Winnipeg, only the highly garbled reports of the partisan press were available to the country at large. Now when the Prime Minister goes on the air every citizen of the Dominion can listen and judge for himself. The newspaper ballyhoo is still flagrantly with us, calculated to confuse and misconstrue the innocent elector, but these pitfalls may now be avoided. Mr. King, if he chooses, can avail himself of the Commission facilities in the same manner.

The citizen may now drink directly from the founts of wisdom, no longer forced to quench his thirst from some leaky and corroded vessel.

## Modify the Arts Course

The question of the importance of music in a state is at least as old as Plato's "Republic" and certainly as modern as today. A more appropriate means of recognizing its importance is the immediate problem.

If advance along the line is to be made at all in Canada, the universities must take the initiative. Elementary school authorities have made a half-hearted attempt to render music a part of every citizen's general education. One must hasten to add that the half-heartedness results from the lack of support, not from lack of enthusiasm on the part of those few who are active in the field.

The secondary schools are already a species of knowledge-mill whose machinery is driven beyond normal rating in the frenzied endeavour to manipulate the curriculum imposed upon them. They certainly cannot undertake additional duties, and the possibility of modification is non-existent at present. Why cannot music be included in the long list of subjects laid down for students in the Arts course? In its various phases, there is as high an educational value in the study of music as in the study of most of the subjects to be found on the list. Its adoption as a subject in the pass course or as a pass subject in an honour course would soon prove the popularity of the move.

It stands as the broadest and only established link of international relationship existing in the world today. Yet in a day and age when we pretend to cherish international good-will we neglect to foster the most evident step toward its aggrandisement. The University of Toronto with its facilities for musical education might well consider the advance and give music a wider recognition without further hesitation.

## ART, MUSIC & DRAMA

### Massey Hall

After playing for 14 weeks to the smartest audiences New York has witnessed in years, "Continental Varieties" has terminated its Broadway run and taken to the "road". The Toronto engagement will take place in Massey Hall, and is necessarily restricted to three performances only, Friday and Saturday evenings and Saturday matinee, January 25-26.

New York critics, after reviewing "Continental Varieties", placed it high on the list of entertainments not to be missed, and when one considers the personnel of this illustrious group, this statement is readily understood. First there is the gorgeous Lucienne Boyer, whose sheaf of ballads, comic, tragic and sentimental, have made her famous throughout Europe and the British Isles and had New York completely at her feet. Since 1932 this lovely artist has presided over her own Paris Cabaret, "Chez Elle", deserting her Rue de la Michodiere home for her (Continued on Page 4)

The recent appearance of the Prince of Wales at a formal afternoon affair, the sleek black lapels of his very proper cut-away coat framing a shirt and tie of startling blue, causes us to ponder upon styles and the people who set them.

A small village some distance west of Toronto which sends its full share of students to this seat of learning, recalls them all to an annual reunion in the Christmas holidays. The Grads' Ball at the local collegiate is the social event of the season, but has never been a formal affair. This year, however, just before the end of the term one of the girls in a St. George St. residence received a letter from her mother at home in the village. Concluding with the usual maternal admonitions, (Continued on Page 4)

## Let's Go Places

The phrase "off again, on again, gone again" seems to apply to the plot of the feature film "Forsaking all Others" now billed at Loew's Downtown Theatre. The picture, starring Joan Crawford, Clarke Gable, and Robert Montgomery, is a gay and fast moving comedy with sufficient action to be diverting and possesses several good sequences. The spirit of gaiety and light-heartedness prevails and is so evident in the course of the action that it becomes tiresome. We hear the creaking of the mill-wheels on more than one occasion. However, taking it as a whole, the film is not bad entertainment, and will please those who are not particularly anxious to penetrate below the surface; and for those who want to relax after a long day's toil. R.H.H.

## THE SPORTSWOMAN

By M. A. F.

Old man winter certainly played right into our hands as far as hockey is concerned. By 5 p.m. yesterday it had frozen up beautifully, and the three games scheduled were played off in fine style. The game called for this evening will not take place since the rumour that U.C. lacked material for two teams is all too true. The schedule will go on as previously given with the exception of all games in which U.C. II was to have participated. And as things now stand each team will play five games; even at that it is some season we have ahead of us.

The first game last night was something of an upset for the first U.C. team, from which we had been expecting such big things, fell badly before the smashing onslaught of the Vic I pucksters. The Scarlet and Gold outfit had it all over U.C. in both skating and playing. The game on the whole was of a messy type although an occasional flash of real hockey brightened it up. Charity Grant chalked up U.C.'s 2 points and was equal to Vic's best, but she did not get very much support from her team-mates. U.C. did not have Jean Atkinson with them—and as she is one of their best players this made quite a difference. For Vic, Muriel Eastwood and Ruth Leavens worked well together. Molly Sclater, Muriel Eastwood and Betty Clements each scored one goal and Gladys Wagg pushed the puck in twice.

St. Hilda's also have a win to their credit, and the second Vic team were forced to take the lower berth in a 2-0 tally. Elaine Knight was the bright light on the Saints' forward string and scored the two points. The offensive play would have been better if Sheila Bull and Helen Elliott could have been on deck. Mary McDonald did some neat goal tending. Vic lacked shooters and played a defensive game throughout. It was a fight to the finish and both outfits really worked.

Meds and St. Mike's played to finish the game with a 2-2 score, tied up by the latter in the last couple of minutes. The Meds have a nice forward line and even though they lack subs the regulars seem to be made of iron and to be able to carry on well all through. With more practice they should have a formidable outfit. Toby Duke and Mary Thom are especially good. For St. Mike's Pauline Schnurr was outstanding.

## Sport Notices

### U.C. Hockey—

There will be a practice today from 4-5 p.m. at the Vic rink.

### Ski Club—

There will be a meeting of the Ski Club in the Debates Room, Hart House, today (Wed.) at 5 o'clock.

### Vic Waterpolo—

There will be a practice on Wednesday, 4-5 p.m. Everyone turn out.

### Jr. U.C. Basketball—

Following tomorrow out for game today: Humenick, Levine, Gerstein, Sharpe, Holt, Applebaum, Otter, Locash, Shaheiman, Beatty (Sr.).

## MONOPOLY A FACTOR IN ECONOMIC LIFE

(Continued from Page 1)  
Political Science Club yesterday afternoon on the question, "Does the Stevens Commission recognize that the Canadian economy is not self-sufficient?"

He was preceded by H. S. Hunnisset, III Political Science, who described Canada as "a country of vast extent producing primary commodities". He advocated deflation as a means of helping primary industries. Mr. Kajander stated that while the more superficial problems of exploitation and unfair competition were being stressed, the fundamental issues of the case were being neglected.

## DENTS AND U.C. WIN BASKETBALL

Trinity-Senior U.C. Game is Very Closely Contested Affair

### O.C.E. DEFEATED BY 31-10

An interfaculty double-header in the upper gym yesterday afternoon produced all kinds of basketball—some good and some definitely of the early season variety. A strong team representing Senior U.C. defeated Trinity 19-14 in a very close affair, and the Dental sharpshooters toyed with O.C.E. winning by a 31-10 score.

Trinity nearly upset the dope in the first game when they started a big team that checked U.C. to a standstill. At that, U.C. had a lot of tough luck with their shooting. Trinity's combination and method of attack were less polished than the red team's, but they held them for one period. In the second half, U.C. went to work and ran up a commanding lead, though still handicapped by poor shooting under the basket. Trinity pressed hard in the last few minutes but lost many good chances through over-anxiousness.

Damsky of U.C. played brilliantly and with three baskets, was high scorer. Hennessy was a standout, being strong defensively, and with five points to his credit. Bell and Himel also played well for U.C. A'Court, Rogers and Eaton were best for Trinity.

In the second game, weak defensive work by O.C.E. allowed Dents to score almost at will. The Teachers played strenuously but to no avail, often allowing a Dents' man to be under the basket unguarded. After running up a 21-point lead in the first half, the Dents eased up on the attack and the steadily improving O.C.E. team matched them point for point in the second period.

Dempster and Andrews, with four and five baskets, respectively, led the scoring for Dents, with Weir and Brown also figuring. Millar and DeMury played a strong game for O.C.E.

### JR. MEOS DEFEATED BY JUNIOR S. P. S.

Score 6-0 in Exciting Inter-Faculty Baseball Game

Yesterday afternoon Jr. S.P.S. blanked Jr. Meos in an exciting inter-faculty baseball game by the score of 6-0. The game started out with two innings of close ball with neither team gaining a hit. Parker McMillan, the School hurler, deserved brackets with a sparkling 12 strike-out display. He kept the Medical team to 5 scattered hits and gave his team-mates little work to do.

The Doctors fielded a snappy team with Tomlinson making some fine stops at the hot corner.

S.P.S.: Pidduck, S. King, Chernofsky, Wheaton, B. King, Willmott, Zagalsky, McMillan, Mundy, Busby, Rogers.

Meds: Graham, Penfold, McAskill, McGee, Miller, Tomlinson, Shulman, Emmett, Irwin.

Umpires: Ganz, Barnes.

### FORESTERS HEAR CORNELL PROFESSOR

(Continued from Page 1)  
of child labour; and fair trade practices. To these was added the conservation code brought about by conferences of representatives of the industries and of the public.

"The forest practice rules," said the speaker, "are dependent for their success upon the extent and character of public co-operation." And he expressed the fear that under the weight of criticism of the N.R.A. the conservation code would be lost.

Among the many speakers were Dr. H. J. Cody, who, on behalf of the University, welcomed all those present; Mr. J. B. Bickersteth and Mr. W. C. Cain, deputy minister of lands and forests. In speaking of the recent transformations in the provincial department, Mr. Cain assured his listeners that the changes that are taking place will not displace the scientific aspect of forestry.

## SPEAKING OF SPORT

By Frank J. Lamberti

The scene. Varsity Arena. Time, last night, approximately 56.30 minutes; the score, Varsity 2, Oakville 1. Suddenly the tricoloured forward sweeps in, takes his shot, the puck rebounds up off the Blue goal tender and there, parked right in the No Parking Area, another tricolour man, and pouf goes the game, another lachrymose defeat—there oughta be a law.

Give the Boys in Blue credit, folks, they stayed right in there to the bitter end, but the laws of averages just did not work, so the mathematical chances for getting a playoff berth in the Senior O.H.A. just became that much more infinitesimally small. What to do? Give them all a battle and show them how; that's all.

According to Webster's Dictionary, a Crowd is a number of persons; an assembly, a multitude or something; well, here is the species of sport crowds. At a football game (remember) a hubbub of pan-anemic rhythm. At a boxing match, primitiveness finding vent in another's toil and skill before the coupe de grace is rendered. At a hockey match, enthrallment at scintillating speed, and so on down the line. Something of note particularly is the pride certain towns take in their athletic teams, and how they welcome the opposing squads.

At Hamilton, for example, long considered a great crowd for their local boys' exploits, imagine our consternation when they actually came down to earth and yelled "Come on, Varsity!" That rates a hand or one of those orchids.

For the followers of cage activities the basketball bill for tonight should provide an interesting set of games when the Varsity Juniors and Intermediates clash with Broadview and East York Grads respectively. The first game is scheduled for 7.30 and the entry fee to the Big Gymn of Hart House is Free.

One of the intriguing events of the week is the manner our downtown contemporaries insist on spelling Varsity's heavyweight boxing representative's name in innumerable ways. They have called him everything but his real name, which is POCUUS.

Hoping, yes, hoping, if you are still reading, to note that here we S.O.S. STOP.

### VARSITY DEFEATED IN O.H.A. CONTEST

(Continued from Page 1)

from close in. Play became rather ragged due to the close checking, but just before the period closed Normie McClelland skated through the entire Oakville team and passed to MacPherson, who was tripped by Sutcliffe as he rounded the Villan nets, thereby gaining the only Oakville penalty of the game and keeping Varsity off the score card.

The second chukker found both squads opening up play considerably, with Varsity pressing hard, which finally resulted in a Blue and White goal when McIlquham carried the puck to the Oakville defence and Devine succeeded in parking the rubber behind Fordor, who had no chance to save. Within thirty seconds Moore, rugged Villan rearguard, made a looping shot from within the Varsity blue line and bulged the twine behind Loughheed, and the score remained tied as the boys went off for a rest.

The pestiferous attacks of the University squad finally culminated in another counter just three minutes after the last canto opened with Captain Jimmy MacPherson taking the frozen disc on a face off from McClelland near the Oakville citadel. Facing the short end of the score Oakville began concerted drives towards the Varsity nets but the students withstood their onslaughts. However, the turning point soon came when Townsley took a shot which was deflected upwards by Loughheed and Sutcliffe scored while inside the goal crease. Before Varsity could recover Oakville again countered in the dying moments of the game.

Oakville: Goal, Fordor; defence, Sutcliffe and Moore; centre, S. Allen; wings, Kepson and Matheson; alternates, Townsley, P. Allen, Cassidy and Rae.

Varsity: Goal, Loughheed; defence, Charles and Rey; centre, Devine; wings, McIlquham and Valiquette; alternates, MacPherson, McClelland, Hendry and Jeffrey.

Referee: Cecil "Babe" Dye.

SUMMARY

First Period

No scoring.

Penalty: Sutcliffe.

Second Period

Varsity.....Devine ..... 10.30

Oakville.....Moore ..... 11.00

Third Period

Varsity.....MacPherson ..... 3.30

### DEBATES COMMITTEE MAKES NEW RULING

(Continued from Page 1)

obtained forty or more votes. It was also pointed out to *The Varsity* by A. C. Smith of the Debates Committee that no nomination will be accepted for a candidate who has not spoken in at least one debate previous to the election debate.

Professor Stephen Leacock, of the Department of Economics at McGill University, and noted humorist, will take part in the next meeting of the Debates Club, to be held in Hart House on January 30th. The motion will be, "Resolved that representative democratic government, as understood in the nineteenth century, no longer suits the age in which we live", and will be moved by Mr. A. Harris, and opposed by Mr. P. Bridle. Messrs. Wagman and Keenan will speak third and fourth respectively. The Speaker of the House will be Mr. A. C. Smith, of University College.

### WATERPOLO TEAMS IN ACTION TONIGHT

Seniors Will Oppose St. Kitts Club at Hart House This Evening

Tonight the Varsity senior waterpolo squad entertain the pool-plateholders from St. Catharines in the Hart House pool. In their last meeting in the Garden City these two teams fought it out to a 5-5 tie. Previous to that the Varsity team won two games from this team rather easily. All of which shows that the St. Kitts are improving, and should give the students a real battle. The main visiting threat is the lanky centre, McGarrigle, who practically took the Varsity team himself in their last meeting. However, the speedy forward line of the McCatty brothers and Davey should more than hold their own in any kind of going.

Tonight the juniors travel to the Central Y to take on that club. A tough battle is also anticipated in the College Street pool. The Varsity team are stinging from their defeat in Hamilton and will be out to avenge this at the expense of the Y.

Oakville.....Sutcliffe ..... 16.30

Oakville.....S. Allen (P. Allen) 19.40

## BASKETEERS MEET 'Y' SQUADS TONIGHT

Blues Will Play East York and Broadview in Hart House

### NO CHARGE TO BE MADE

Mac McCutcheon will send his two squads into action tonight at Hart House in two Y tilts which promise to give the Blues a brace of victories. The Junior Blues will meet the Broadview Y Juniors at 7.30 while Mac's seconds will entertain East York Grads in the nightclub. The programme is to be put on free of charge.

Fresh from two unexpected reverses McCutcheon's squads will be out for revenge tonight, and barring the unexpected, will come through with a couple of wins. The junior game, although scheduled to be played first, promises to be the pick of the programme. The Junior Blues have been going great guns of late and last week's reverse should do them more good than harm as they were getting to be a little too sure of winning. To date they have lost only a single game and that should tell the story of their losses for the season. In Krakauer, Molson and Hogg, Mac has three junior stalwarts who serve up a pleasing brand of ball which has carried the team to victory in previous games and should do so tonight.

Mac's intermediate squad is made up of a group of stars who as yet have failed to get going in high speed due to the fact that there were a few late arrivals. Himel, Newman and Caplan veterans of Blue teams, turned out just a week ago and as yet have had little time to work into the scheme of things. However, Mac has had a full week in which to weld them into his intermediate machine and these lads should be heard from tonight.

### PRESIDENT EXPLAINS V.C.U. AMENOMENT

(Continued from Page 1)

Students in the third year of the pass course may vote in the year in which they pay their fees, and All students of the first and second year of the pass course may hold only offices of the year in which they are registered.

Pass Course students, one year from graduation, are free to run for and hold all senior offices at the spring elections previous to the year of graduation, and

Pass students one year from graduation may hold those offices which are filled by appointment by the Victoria College Union or the Executive in Council.

Students of the Pass Course holding senior offices who fail to obtain academic standing must automatically retire from office.

Any amendment to the constitution of the Victoria College Union must pass through two open meetings by a two-thirds majority. The second necessary meeting will be held shortly and no resistance, which might prevent the amendment from becoming valid, is expected.

### STUDENTS' MEETING PROVES A FIASCO

(Continued from Page 1)

Mr. Bierwagen in commenting upon the meeting, states: "That the projected meeting of the Students' Union should have to be abandoned for want of adequate attendance, I regard as a matter of the deepest regret. For my own action in dismissing the gathering I have no apologies to offer. Constitutionally it was impossible to proceed without the necessary quorum of two hundred members."

The petition presented by Mr. Bierwagen and signed by a hundred provoked students, many of them prominent campus personalities, read as follows: "In view of the recent action of the Board of Governors barring professors' political activity, we, the undersigned, hereby petition the Students' Council to call a general meeting of the Students' Union in order that student opinion may be recorded."

Movement in Canada. His subject will be, "Living Creatively"; he will be followed on the thirtieth of this month by Dr. Marian Hilliard speaking on "Relations of Man and Woman".

"The Meaning of Friendship" will be given by the Reverend E. L. Wasson on February the sixth and on February the thirtieth, Miss Gertrude Rutherford will give an address on "After College—What?"

### ACTION OF GOVERNORS DEPLORED BY PROFESSOR

(Continued from page 1)

stressed the need of an organization which would adequately represent the Co-operative Commonwealth Federation on the campus and suggested various matters which such an organization might undertake.

Most students who might be called conscious of political movements are more conscious of present conditions than activated by real political convictions. Asked if he thought that the point was well taken in the editorial in yesterday's *Varsity* depicting student apathy in political matters, Professor Grube replied, "Decidedly".

Since Messrs. Rae, Pivnick and Smith have been forced to resign from the executive of the club due to pressure of other work, a provisional committee was set up to arrange for calling a reorganization meeting at which new officers will be elected. The members of the committee are A.C. Smith, Dorothy Stock, George Proust and Gordon Jack. The meeting will be held in the near future. A motion was passed to have the club apply for direct affiliation with the Co-operative Commonwealth Federation as a regular C.C.F. Club. Heretofore the campus organization has had no official connection with the C.C.F. party.

## Coming Events

### WEDNESDAY, JANUARY 23

4.15.—"Poison. Passion and Petrification, or the Fatal Gasogene" at the U.C. Players' Guild. Members please bring proceeds of ticket sale for "The Wild Duck".

University College junior-senior dance in Roof Garden of Royal York Hotel. Informal. Music by Nels Kelly and his Varsity Kampus Katz.

### JANUARY 23-26

San Toy, light opera by the Victoria College Music Club at Margaret Eaton Hall. A cast of 95, directed by Thomas J. Crawford.

### THURSDAY, JANUARY 24

3 p.m.—Mrs. J. D. H. Hutchinson's group on "Jesus in the Records" for Victoria women will meet in Wymilwood.

8 p.m.—Italian-Spanish Club, at the Womun's Union, speakers, new songs, games, refreshments; the hour is NOW 8 p.m.

### JANUARY 24, 25

8.15 p.m.—U.C. Players' Guild presents Ibsen's *The Wild Duck* in Hart House Theatre.

### FRIDAY, JANUARY 25

St. Joseph's College annual At-Home to be held at the King Edward Hotel. Hart House String Quartet, assisted by Harriet Cohen, noted British pianist, playing American premiere of new Arnold Bax quintet, Convocation Hall.

9.00—Another Honour Science Dollar Dance will be held at Malloney's Art Gallery, 66 Grenville St. Everyone is invited. Members admitted by membership card.

### SATURDAY, JANUARY 26

8 p.m.—Youth Unit, League of Nations, Toronto branch, at Ridpath's Gallery, 906 Yonge St. Professor T. W. L. MacDermot, National Secretary of the League of Nations Society in Canada will be the speaker. Refreshments will be served and a social hour follow the address.

7.30 p.m.—Boxing meet with Syracuse University at Hart House.

Annual At-Home of the Eta chapter, Beta Sigma Rho Fraternity at the Roof Gardens, Royal York Hotel.

### SUNDAY, JANUARY 27

9 p.m.—Wymilwood Musical. Guest artist, Miss Dorothy Veale, pianist.

## LARGE ATTENDANCE MARKS SCHOOL NITE

(Continued from Page 1)

other outstanding attraction for the evening was a water polo game and an aquatic display in the swimming pool.

Skits by the various departments of the Faculty of Engineering provided the programme in Hart House Theatre, the most outstanding of which was the "Foreclosure of Waterlotz", a production along the time-proven plot which starts, "Ah-ha, my proud beauty", put on by the Architects. "Dream Land Fantasy", was the Miners' particular adaptation of the hula-hula, and the world premiere of the grass-skirt fan dance. The Civil engineers provided a courtroom scene, and the Chemicals a quartet in Anchors Away. School Days, by the Mechanicals, was an alleged insight into just what goes on at the little red school house.

The calibre of the stage show was well above that of most student nights, and was enthusiastically received by those present. It was produced with the smoothness of a highly planned stage production, and reflects credit on its producers.

## ARCHITECTURE SHOULD MEET PRESENT NEEDS

(Continued from Page 1)

Mediaeval, Gothic, the character of the architecture changes according to the changing needs and desires of the people. In the Christian era the various national concepts produce contrasting types of buildings.

Until modern times the great architectural buildings were mainly religious or civic in purpose, the Parthenon, Acropolis, and Religious temples being samples. Exceptions to this are the royal palaces and country homes of European monarchs. This greatly contrasts with the modern skyscrapers, grain elevators and ultra-modern homes of the present day.

## SAMSON REVIEWS "THE STUDENT"

(Continued from Page 1)

the student war against War and Fascism, with remarks as to a possible United Front against these.

Mr. Graham Spry surprisingly appears, to offer the student the opportunity to participate in an Active World Movement—via the C.C.F. He pans Communism in the pages of the Student: "a blind alley full of sound and fury"; "tied to a dead system of economic"; The Student is after all an Open Forum; Rex Benevolentissimus Bennett will doubtless be heard from in the next issue.

Mr. E. B. Wyllie, L.L.B. (sic), Ph.D., is also heard from. More than the others he writes like a gentleman, without pulling a long face, about Social Credit a la Douglas. There are remarks about Real Wealth (including population), the Just Price and the National Dividend. It is very tame beside Communism, but The Student is nothing if not fair-minded.

In between these two stands Mr. William Kashtan, who earnestly (cantilever of Communism) holds that education is now the instrument of the bourgeoisie, and quotes statistics of education in the U.S.S.R., to show that the only way out of the economic incinerator is by Communism (not the C.C.F., that vestibule to Fascism).

In between these last two is the only seeming break with humorlessness. It is by one Mr. Theophilus Burp and is called "Who's Afraid of the Big 'Ad' Off?" The rest of it is foreshadowed in the title. The Student must avoid being funny in its lightest moments; and this is reminiscent of Mr. Milton Shulman at his most Burns-and-Allen. One day there will be in Canada something on a level with "The Nation". The Student may become this desideratum, but it must shed its salient aspect of earnestness. Meanwhile it is only complimentary to that characteristic to say (in agreement with the oracle) that this is not a magazine. It is a trade journal.

## P.T. ATTENDANCE UP TO STANDARD

(Continued from Page 1)

way rather than in the gym. He pointed out that, by the figures for 1933, over four hundred students had earned their points in this manner out of a total of 1,662. In this same year 1,183 took their training in the gym and 93 took correctional exercises. Football headed the list of other sports with 158, seconded by indoor baseball with 113. At the end of the year forty students had failed to get the necessary number of points and these were forced to take the training in their third year. On this point Mr. Reed was firm: a student failing to get the required total of thirty-six would have to take his work all over again in the third year, and one failing to get either his first or second years would not be allowed to enter the fourth year at all.

## IMPORTANT MOVEMENT SEEN IN ESPERANTO

(Continued from Page 1)

Austrian professor chatting affably with representatives of nations formed from his dismembered Empire. Over by a pillar stood two Chinamen vastly entertaining to a lady from Bulgaria and three young ladies of Esthonia. At the side of the entrance door were three Russians conversing intently with a Belgian.

In the Parliament House papers were read by men of many different nationalities, and were understood without difficulty by the cosmopolitan audience. There was no stammering and humorous mispronunciations such as are found when lecturers speak in a foreign tongue.

"The language which all these nationalities talked and to which they listened with understanding was Esperanto. This was not a case of speaking a language of another nation with all its quaint irregularities, traps for the inexperienced, and its peculiar idioms. This was an exhibition of how the peoples of the world use a world language, created just for one purpose, that it might be used as a world language."

In conclusion, Mr. Mitchell points out that the ease with which representatives of thirty-four nations conversed on that occasion is proof of the possibilities of an international language. "All great movements of world history," he says, "have begun by faddists."

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at either the men's office in Hart House, or at the women's office in University College. No notices will be taken over the telephone, after 6 p.m. notices must be taken to the Press Building. Notices for the Bulletin Board are limited to ONE insertion only.

### RIFLE ASSOCIATION

Mitchell Cup match tonight. Don't miss it. This target must be shot to qualify for the Henderson pins.

### U.C. MUSIC CLUB

Rehearsal for all principals and those who have signified their willingness to do chorus work in "Good News". The rehearsal will be held in the Women's Union from 5-6. Any unable to come at that hour may come at four and receive their parts. Still more men and impresarios are needed.

### U.C. PLAYERS' GUILD

The U.C. Players' Guild is experimenting with Bernard Shaw's *Poison, Passion and Petrification* or *The Fatal Gasogene*, at the Women's Union, this afternoon at 4.15. Come one, come all.

### JUNIOR-SENIOR DANCE

The University College Junior-Senior dance will be held this evening in the Roof Garden of the Royal York Hotel. See notice in the rotunda of the college for further information.

## 'TWIXT TWO

My Dear Ted—

Did you read the *Varsity* editorial the other day? I am referring to the one denouncing the Mail and Empire for saying that no people who were under twenty-one, and who did not pay taxes, should be allowed to vote. Then yesterday, you remember, they published student opinion on the subject. I don't think they asked a representative group of students at all. I know several—men and women—who would have had quite different opinions on the subject.

It doesn't seem as though the reasons given were the most significant. All they said was that minors have no vital interest in politics, and therefore should not be allowed to vote. They didn't mention the fact that they thought there should be such an interest—perhaps they didn't think at all. Where are we going to be when all our venerable

politicians die, and we find we have nobody who is equipped to lead the country?

Nevertheless, I agree with the Mail and Empire, and would even go farther and say that one who is to vote must be able to display some knowledge of what he is doing. You have in a country, unemployed, idlers—these, in some cases, outnumbering the richer classes. Why should they be permitted, through lack of knowledge, lack of judgment, and presence of an excess of emotion, to sway the vote and elect those whom they choose? Why should the man who pays taxes and supports the country be submitted to the tyranny of the unemployed? Quite definitely he shouldn't. But what he should do is work for a situation in which there won't be any unemployed—Down with capitalism!

—Phyllis.

## CORRESPONDENCE

(Continued from Page 2)

woman until you marry her." I gather that your opinion is similar.

You are correct that mutual understanding does not necessarily guarantee brotherly love, but it is surely a help. At least it is more difficult to hate a man with whom you have had friendly intercourse, than to hate one who is merely an unknown foreigner. You express the fear that Esperanto will break up into dialects and will not be practicable. That thought should rejoice your editorial soul, since you see no particular advantage in international understanding. As a matter of fact, Esperanto has been spoken for nearly fifty years, and the prediction that it would break up has not yet been fulfilled.

Much is said of its simplicity. Yes, perhaps too much. Its elements are simple, but it has a great range of expressiveness, and in the hands of one who studies it, it proves itself not merely a mechanical code but a living language.

Do not try to judge the beauty of stained glass windows by viewing them from the sidewalk. Come inside and you will appreciate them. Professors Thorndike of Columbia, Collinson of Liverpool, and Findley of Manchester, are among those who take Esperanto seriously as a means of international communication and also as an educational instrument of value.

Yours truly,  
Elven J. Bengough.

## THE FEMALE

The Editor of *The Varsity*.

## TORONTONENSIS

A most important meeting of every Torontonensis Representative of all Colleges and Faculties, will be held Friday next, January 25th, at 5 p.m., in the University College Women's Union, 79 St. George St.

Tea will be served.

The success of the 1935 edition depends on your presence. May we count on your co-operation to be there Friday next, 5 p.m.?

If unable to attend please notify Students' Administrative Council Office, Hart House, Midway 6221.

"story". The 2nd movement, in its curiously beautiful 5-4 rhythm, and the final movement—adagio—were interpreted in an especially interesting manner. By all the freight of its passion it depicted a drama of struggle, defeat, and despair so that it seemed the last work of a dramatist rather than of a symphonic genius. Any weakness lies rather in the overwhelming richness of emotion than in the treatment of the thematic material.

The guest artist, Boris Hambourg, cellist, played the Haydn *Concerto in D major*. The cheerful and playful music, now a simple melody, and then developed with more brilliant passages, was played in a quiet and easy manner.

Two Nocturnes, *Clouds and Festivals* from the works of Claude Debussy, made an interesting contrast with the Haydn concerto.

The last number, *Prelude to Die Meistersinger*, was conducted by Dr. Adrian Boult; and under the baton of their guest conductor, the players gave an intense performance of the work, bringing it to a fine climax.

H.K.

## Royal Alexandra

There is no theatre experience which quite equals the presence of Ruth Draper, who is appearing at the Royal Alexandra the first half of this week. Last evening Miss Draper presented and performed six plays, all of which were fully cast and well set. But Miss Draper was the only person on the stage and there was seldom more than a chair as visible property. The one lady, who is probably the most expressive person that the stage has ever known, played her part and made the rest.

Many people have gained greater or lesser success as impersonators, some others have kept the stage to themselves by alternately acting many parts. Few, however, are able, single-handed, to play one part and create a real atmosphere of a large, conversing group.

When Miss Draper is the woman who runs the coffee counter in a *Railway Station on the Western Plains*, the stage at times becomes almost crowded and the actress becomes only one of a very busy group. In other acts Miss Draper is seen among three or four people, all of whom can practically be described. The creating of people and the creating of atmosphere are only two of many of Miss Draper's attributes. The settings and the small properties all seem so real, although none of them are actually on the stage.

Miss Draper is a marvellous actress, at least, when she is alone. No movement is wasted—the twist of a hand, the nod of the head, the slight wink, the twitch of the knee—all are the bricks which are put together to build up a very realistic situation. It is difficult to imagine Miss Draper as one actress in a complete cast, but it is more difficult to imagine any one who could equal her solo performance.

The Draper is not only the lone actress on the stage, but she writes her

own playlets. Her movements are studied in co-ordination with her own ideas and oral expression. As a dramatist, she does not forget to preach, however subtly. There are no blatant demonstrations, but by interchanging convex and concave mirrors, she reflects life in significant and very humorous exaggerations.

Miss Draper takes an honour standing among the greatest of artists. Unique, perhaps, in method, she reaches unimaginable heights of expression; expression which, though fine and delicate as "gossamer web", is distinct and forceful enough to be easily and clearly understood.

M.B.L.

## CHAMPUS CAT

(Continued from Page 2)

the letter itself was followed by a postscript—  
"Better bring your peach evening dress. The Principal has a new Tux."

C-C

Every household has its favourite family anecdotes and the ancient annals of the York menage contain many an hilarious episode. Hilarious, if you're in the family. There is, however, possibly one incident buried a quarter of a century deep in the York Cavalcade which, because it sketches a definite phase in the history of our city's civilization, must certainly go down in the annals somewhere, and it may as well be here.

One evening before supper the pre-school age daughter of the household was sent upstairs to wash, and when she returned to take her place at the table her face beamed with a look of pride that could not be wholly accounted for by the rather doubtful success of her efforts with soap and water. When it is recalled that even in comparatively recent years there has been considerable progress in plumbing architecture, the young lady's thrill of achievement can be well understood as she enthusiastically burst out,

"Mummy! Mummy! . . . I can spell button,—P-U-S-H, button!"

## CAMPAIGN LAUNCHED

(Continued from Page 1)

ed in detail. A sample radio programme was produced, featuring an actual story of a crippled child.

Commencing on January 25th, there will be a special after-school moving pictures show in many towns and cities; the total proceeds being handed over by the theatre management for assistance to crippled children. This scheme has the endorsement of the Ontario Department of Education and various school authorities.

A special appeal is being made to employers and employees, and all money subscribed is to be used for the benefit and welfare of crippled children whose parents are not able to provide necessary treatment, vocational training and other needs.

VOL. LIV.

UNIVERSITY OF TORONTO, THURSDAY, JANUARY 24th, 1935

No. 71

### NEWS OF THE WORLD IN BRIEF

Toronto is not the only district suffering from the intense cold. The whole of Canada and northern United States is in the clutch of winter's icy hand. Balmey Vancouver suffered one of the worst snow-storms in her history and is practically isolated from the rest of the country. Seven persons were killed in New York from the driving blasts of snow. Ontario set an all-time low record for herself when the temperature at Iroquois Falls dropped from 10 above to 73 below. Toronto hovered around 10 below for a good part of the night.

Hamilton—Defence counsel for Edward Lynch, brakeman charged with responsibility for the Dundas train wreck last Christmas, claimed that the train was travelling four times the speed limit allotted to the stretch.

Toronto—David Croll, Minister of Municipal Affairs, yesterday announced that debtor cities would be allowed to scale down their interest charges to three per cent. This ruling applies to such nearby municipalities as North York, York Township, East York and Scarborough.

Ottawa—The Senate unanimously accepted Bennett's reform programme as outlined in the speech from the Throne. Rt. Hon. Arthur Meighen, Conservative leader in the Senate, was outspoken in his praise of the proposed measures.

Fall River, Mass.—In the largest mail robbery in the history of New England, five bandits yesterday held up a United States mail train and made good their escape with \$129,000.

### ALBERTA STUDENTS' CONDUCT EXPLAINED

Failure to Secure Quorum at Meeting Not Due to Apathy

### EXCHANGE STUDENT'S VIEW

In the opinion of Mr. Leonard Harper, an exchange student at Toronto from the University of Alberta, the failure of the recently attempted meeting of undergraduates on the prairie province campus to get an expression of opinion concerning the ruling of the board of governors to prevent professors from taking an active part in provincial politics is to be attributed, not so much to any general apathy on the part of University of Alberta students, as to reasoning that it would not have been up to them to interfere with the business of the Senate and the staff.

"Either the students intended, by their non-appearance at the meeting, to convey their distaste of the subject under discussion, or else there was something else on at the time to prevent them from being present," said Mr. Harper. "There has always been, as far as I know, at least a quorum present at these meetings; the students are called together either by a petition signed by over a hundred of their number or at the request of the Students' Administrative Council. There are between twelve and fifteen hundred at the university and of these two hundred at least must be present to make up a quorum. Any important happenings that might interest the university as a whole are discussed, the most

### NEW LIBRARY FACILITIES ARE AGAIN DEMANDED IN PRESIDENT'S REPORT

#### S.A.C. Meeting

The eighth regular meeting of the Joint Executive Students' Administrative Council was held in the Women's Council Room, 82, University College, yesterday afternoon. Prior to the meeting the students in attendance at Toronto this year under the National Federation of Canadian University Students' Exchange plan were entertained at tea.

The following business was transacted:

1. Appropriation passed to finance the Convocation Garden Party on the same basis as the last two years.
2. Acceptance of the recommendation of the Debates Committee that Mr. Saul Rae of University College and Mr. Sydney Hermant of University College be appointed to debate in the second radio debate on February 1.

(Signed) A. E. M. Parkes.

### FEMALE DEBATERS CLASH ON MONDAY

Monday next the women debaters of Trinity and St. Michael's Colleges meet in the second debate of the inter-faculty series. The first debate, held last November between Victoria and University Colleges was won by U.C., therefore the winner of Monday's contest will debate against U.C. next month to decide the championship.

The subject is "Resolved that the present censorship of the movies is eminently unreasonable." Miss Pauline Simon and Miss Eleanor Phelan both of third year St. Michael's, are defending the motion against Miss Elsie Chisholm and Miss Roxy Read, first year Trinity.

The debate will be held as usual in the afternoon at the Women's Union. After the debate the motion will be thrown open to the floor for discussion.

### MID-TERM EXAMS SHOW FAIR RESULTS

"Decidedly Better than the Average," Says Professor W. R. Taylor

#### INCREASED SERIOUSNESS

That the results of the Christmas examinations show that work has been at a fairly good average level, was the consensus of opinion among the department heads interviewed yesterday by *The Varsity*.

"So far as my own department goes, results have been decidedly better than the average," stated Professor W. R. Taylor, head of the Department of Oriental Languages in University College. He said he believed that there had been an increased seriousness evident among students in the United States for the last ten years, following the earlier post-war years that showed more interest in amusements. Since the depression, he said, such a serious trend had been evident also in the University of Toronto.

Professor G. S. Brett, head of the Department of Philosophy, said also that "the work has been at a good average level," but a trend would be

Continued on Page 3)

Depression Has Definitely Lowered College Attendance; Praises Individual Sacrifices Both of Staff and Students

#### BURSARIES IMPORTANT

With library statistics showing an increase of seven per cent in use of books last year, the need for more space and more books was again stressed by Dr. Cody in his annual report to the Board of Governors. Faculty libraries and reading rooms are relieving the overcrowding of the central library, the President stated, but the situation is held to be by no means satisfactory.

The President stated that this year's lower attendance is due to the poverty caused by the depression and the lack of summer employment for students. "The stories of individual sacrifice made to complete a course reveal heroes and heroines in the realm of education. Such discipline and conquest make men and women strong for the

### TO MEET QUEEN'S TOMORROW NIGHT

Intercollegiate Basketball Season Commences with Game

#### MARKS AWAY

Tomorrow night Coach Jimmy Rose and his Kingston crew will open the 1935 intercollegiate senior cage season when they meet Lew Hayman's Blues in the big gym at Hart House at 8.30 p.m. In the curtain-raiser Mac McCutcheon's aggressive juniors will meet the St. Michael's squad in a junior Y tilt.

In the opinion of Coach Hayman the intercollegiate tilt will start the Blues off on the road to the title. In spite of

Continued on Page 4)

### Eternal Snow For Meds and School While Vulgar Arts in Bubbling Pool

Presently thereafter we came where there was a great gabbling of tongues. "What is this, most excellent Virgil?" I asked. "This, my dear Dante," he replied, "is the eternal prison of Arts students." "Why more peculiarly of Arts students?" I asked. "Because," he said, "it would be superfluous to send the other faculties to Hell after death, seeing that they raised it unceasingly on earth. For them is prepared an abode, not of fire, but of everlasting snow." "Most truly true, my good preceptor," I replied; "but show me now the unfortunate Arts students."

Thus speaking we entered a lower deep than any yet visited; but not lower than any that can be conceived by the mind of man, for what deep is there so low that the mind of man cannot conceive it? Here lay in the boiling slime many women, and divers men, retaining their human aspect, save that they had been given the beaks of ducks, that they might gabble the more effectively. And the gabbling rose even into the vault of the Inferno.

Near by us sat certain girls, of whom one cried to me as we approached: "Hast thou a philosophy of life? If not, thou must get one with speed, for none may join our company that hath not a philosophy of life." "Nay, my dear girl," I protested, "of

### VARSITY SENIORS SNATCH VICTORY OVER ST. KITTS

Visiting Water Polo Team Loses Through Erratic Shooting

#### SCORE 3-2

The Varsity senior water polo club eked out a 3-2 victory over St. Catharines in the Hart House pool last night. The visitors were distinctly the better team on the night's play, but erratic shooting and steady goal-tending by Murphy robbed the visitors of what should have been a fairly easy win. Varsity presented a regular make-shift line-up. Cressy McCatty and Davey were absentees, as was Bancroft. Dalziel and Beatty made their debut in senior company and both made creditable showings.

St. Kitts lost little time in going to work and in about the second play of the game McGarrigle lodged the leather home for the opening tally. The visitors continued to press but failed to score any more that period. Dalziel made his bow an impressive one by tying the score just before the end of the first half.

The penitular boys went into the lead again when Clark scored on a close in shot. Varsity came back with a rush and the terrific shots of Culiner

### YOUTHFUL CRIME SHOWS DECREASE

Judge Hawley S. Mott Believes Children More Sensitive than Adults

#### RADIO IS STIMULUS

Local authorities are unanimous in disagreeing with Judge John Brady of Albany that juvenile delinquency is traceable to the decay of the old-fashioned home.

Judge H. S. Mott of the Juvenile Court told *The Varsity* that there has been a drop in juvenile delinquency in Toronto ever since 1929.

The invention of radio and motion pictures, as well as more rapid transportation of modern days, provides the youth of today with multiple stimuli which the children of a generation ago lacked. Judge Mott is of the opinion that children are more sensitive to new conditions than older people and that, thus, youth reacts to the stimuli of new inventions first and finds himself in a new world with no trails and the

Much discussion has arisen on the campus regarding the teaching of Esperanto. In reply to *The Varsity's* inquiry, A. B. Fennell, Registrar of the University, announced that there is no course in Esperanto being offered to the undergraduates of the University of Toronto.

Mr. B. W. Sharpe, supervisor of correspondence courses and evening classes in the Department of University Extension and Publicity, reports that there are about twenty members in the evening class which is being instructed by Professor L. Allen, of the French Department in University College. The class is divided into two groups, one for beginners and the other for more advanced students.

The course was offered a few years ago but there were not enough applicants to establish a class. Since that time the Esperanto organization in this

Spanish and Russian Students Were Kept from Attending Brussels Anti-War Congress by Political Influence

#### TERRORISM RAMPANT

The tension of the atmosphere in Europe as evinced by the difficulties encountered by the German, Italian and Spanish delegates in attempting to reach the city of Brussels to attend the Anti-War Congress, was stressed by Marjorie Drummond, Toronto delegate, in an interview with *The Varsity* yesterday.

"Only two delegates from Germany succeeded in crossing the frontier," said Miss Drummond, "and one of them had to take the roundabout route through Turkey. There was one student present from Italy, but six Spanish students were stopped at the border and the Russian delegates didn't even get that far. Of course the reason for this was that the Congress was definitely anti-Fascist and all these countries are under the Fascist regime."

When questioned concerning the student feeling in Germany towards Hitler and his policies, Miss Drummond replied, "As a matter of fact, the delegate from Germany was ostensibly a Nazi, but this was merely because he felt that he could work against the party with more success if he was working from the inside." According to this student, the opposition in the schools and universities towards the Nazi rule, is gradually coming to a climax and a definite programme of opposition to the government through student newspapers, propaganda and encouraging rebellion among the lower classes is being carried out in all the German universities. "Of course," said Miss Drummond, "the reason for the dissatisfaction of

Continued on Page 4)

### Inconsequence

When a high school student enters the University he expects to clarify his ideas and convictions upon his chosen subject; during his course his professor will help him to give up many prejudices, to broaden his outlook, and possess his topic more fully.

In the religious realm the high school student comes to University with many superimposed dogmas and many strong prejudices. He looks to his years in University as a period of religious readjustment. Thus, with goodwill and desire, he joins the S.C.M. What does he find there?

The S.C.M. invites and persuades the students to discuss their religious problems. If they have none they contribute little to the groups which they join, and get little from them. Also they are asked to approach religion through psychology, history and sociology. There is little attempt to build on the religious background which freshmen have received in their home churches and in their knowledge of the Bible, in both of which the central teaching is Jesus. Is it right for the S.C.M. to ignore this background?

The S.C.M. forgets too often that it is a Christian Movement. As such it should not conduct its discussions either in a secular spirit, or in a spirit of vague benevolence and tolerance, but should seek very definitely the mind of Christ. Christ has too long been considered by S.C.M. members as one among the great social leaders, while, by its very constitution, the S.C.M. is pledged to help students find that Jesus is both the Way of Life and the highest revelation of God. Let therefore, the S.C.M. discussions deal not essentially with humanistic ideas but with Christian convictions.

## The Educated Unemployed

Any utterance by the Chancellor of this University is of particular interest and significance to Students. It was with a feeling of dismay, therefore, that many students perused the opinions expressed in the daily press by Sir William Mulock on the occasion of his 91st birthday, opinions about problems which are forming the pivotal point of many student discussions.

"Ontario requires her school children to stay in school to the advanced age of sixteen years, a policy that interferes to some extent with their embarking on life's career", was one statement by our Chancellor. In the light of conditions too familiar to enumerate, this is rather unusual comment. It is startling to hear a considered opinion to the effect that our youth should receive practical instead of theoretical training for the career of unemployment and distress which has become their recognized heritage.

Even more intriguing is the statement that "Men are born to strife, and life is a struggle. In civil law it takes the form of a struggle within the bounds of law. When it concerns nations it takes the form of brute force." The parallelism of nation and man, each in the midst of a continual struggle, virtually leads to a justification of "brute force". In other words, war is said to be a natural phenomenon to which men are born.

Most interesting of all is the fact that there is really no divergence of opinion in these apparently unrelated statements. If one admits the truth of the second, that "men are born to strife . . . when it concerns nations it takes the form of brute force", the first seems to advise a good thing.

The growing number of superfluous, unemployed graduates is bound to cause uneasy moments, for, while the uneducated suffer silently for a long time before protesting, the educated unemployed are inflammable material.

## Aw Nuts

The word "bunk" once used to mean a certain kind of bed, and the standard dictionaries still offer some such definition.

In the last few years, however, "bunk" has attained an entirely new and peculiar significance. It is one of the most typical and meaningful of all the slang expressions of recent coinage, because it so aptly expresses the still prevalent post-war reaction against the innocent faith and sentimentalism of the preceding era. From this new noun a new verb has been introduced to the enrichment of the king's English. Having expressed our scorn of many time honoured sentiments with the curt ejaculation, "Bunk!", we now take delight in further denouncing these fallacies for the benefit of the world at large. We love to "debunk".

Not only the sentiment of this new movement but its very terminology has been taken up by a learned Ph.D. who as the "Debunker" in a syndicated feature, daily attacks our fondest legends and illusions. Another local newspaper sends its foot-loose correspondent to the far corners of the earth to give the stay-at-homes the "low down" on cabbages, kings, and snakes. Sinclair is not known as the "Debunker" only because someone else thought of

the name first. Within our own columns,—for this new sport finds a natural stamping ground in the public press, we observe the coy feline on our right to take the greatest delight in debunking "Famous Institutions".

It's a tough age for optimism.

## A New National Investment

An address on the above subject delivered recently by an Ottawa business man, is of peculiar interest to us as students. This speaker states that each year in Canada approximately one hundred thousand boys leave school before the age of eighteen, and about two thousand boys enter the universities. He estimates that three out of every hundred have the brilliant qualities necessary to make outstanding leaders. Sixty young men, therefore, are graduated annually destined for distinguished leadership. But since there is no scientific selection of university students, it is evident that there is the same proportion—three per cent—of ability to be found in the hundred thousand who do not continue their education. Thus, there are three thousand with the potentialities of leadership but without the opportunity of development by education.

The suggestion is made that one thousand of these brilliant intellects be chosen from the secondary schools, by the principles of vocational guidance, and their education subsidized in our universities, our theological technical and agricultural colleges. Their selection would depend not only on their mental ability, but on their physical and temperamental qualities as well. Then each year Canada would produce one thousand distinguished graduates, destined to be leaders in every walk of Canadian life.

Russia is spending an average of four hundred million dollars yearly in scientifically educating leaders for the development of her industries and commerce. Japan spends many millions on the education of her youth and each year sends three hundred of her most brilliant university graduates to study new methods and ideas in foreign countries and to bring them home for the development of her home industries. Germany, France and Italy are doing likewise.

A beginning has been made in Canada with the research council and research bureau at Ottawa. Recent as it is, the application of its work to industry in two or three cases only, has already saved more money than the whole research enterprise—building, plant, salaries, overhead, upkeep, everything—has cost Canada.

Imagine improved and enlarged research facilities and personnel, workers selected from the best intellects in the country and calculate the resulting profit to Canada in material wealth and prosperity.

Heads of large corporations are often heard complaining that they cannot get men of high calibre and training for executive positions. This plan would enable them to obtain selected university graduates, trained in their special field. The object of such a plan would be to make them not only good citizens of Canada, but also good citizens to Canada. They would specialize widely, according to aptitude, temperament and bent of mind. But in whatever course they undertook, their future service to their own country would be provided for. The studies of many of them would be directed towards the solution of Canada's problems. Canada has many peculiar problems, arising from climatic conditions, wide areas and a scattered population, geological formations, mineral deposits, water power possibilities, long-distance communications, and many more. This plan would provide for the training of the best brains to do the work.

The subsidized training would do much more than teach a man a profession or occupation in which his natural ability would enable him to distinguish himself. It would make it possible for him to use his gifts and his specialized training in the service of Canada, in the development of her resources and the solution of her problems.

At the present time the government is spending millions of dollars in various projects for developing the country. It seems only wise that part of that expenditure should be directed towards the development of trained minds to plan and carry out the work.

It would seem only right and natural to us that such a scheme should provide also for the education of women. The tests conducted on a vocational guidance basis would undoubtedly discover suitable material among both the men and women. And if these tests were given throughout all the secondary schools, it would bring to the universities those of ability who are now kept out of college by reason of prohibitive transportation and living costs.

## ART, MUSIC & DRAMA

### Hart House String Quartet

The Hart House String Quartet will present its third concert of the current season for students in Convocation Hall tomorrow evening with Harriet Cohen, England's brilliant young pianist, as its illustrious guest artist.

Miss Cohen has interrupted her present American tour long enough to make a flying trip to Toronto to participate in the American public premiere of the latest work by one of the most outstanding contemporary modern composers, Britain's Arnold Bax. His new quintet is the featured work at tomorrow night's concert and the fact that Miss Cohen's participation in the premiere performance of the work is by no means accidental.

Harriet Cohen and Arnold Bax are close friends and while in London spend much of their time together. Both were in London while Bax was writing the quintet and they held daily conferences to discuss the progress of the composition during which Miss

### THE THREE WHICHES AT BURWASH HALL

*Delirium Tremens: Three cooks and a dietitian. (Not necessarily Titian).*

#### First Cook:

Round about the cauldron go  
In the steaming entrails throw  
Stew that on the cold plate  
Noons and nights hath thirty-eight  
Weltered mildew slowly got  
Heave thou first! 't the charmed pot  
Chorus of Housemen:

Double, Double, spoil and trouble  
Fire burn and cauldron bubble.

#### Second Which:

Croquette of the Christmas chicken  
Will the mournful mixture thicken  
Thursday's soup and Friday's grog  
Woolly meat of calf and hog  
Fork and spoon perchance we fling  
Into the welter with everything  
For a charm of powerful trouble  
Like a hell-broth boil and bubble.

Chorus: Same as usual.

#### Bells:

Scale of fish and tooth of shoat  
(Continued on Page 4)

## Let's Go Places

A second series of French talking pictures is commencing at the Hollywood Theatre on February 6 it was announced today by the management. Encouraged by the success of the first series, Mr. Allen, the manager, has decided to present the French film *La Guerre des Valses* at all the regular showings for Wednesday, February 6, as the film was only obtainable for the one day. Many of the films in the previous series were older films, but in the present series, only the up-to-date French movies will be presented.

*La Guerre des Valses* is right in line with the popular trend in British and American films, as it is concerned with music and musicians. It is an account of the fight between Joseph Lanner and Johann Strauss for the favour of Queen Victoria, when the Queen was choosing an orchestra to play at royal fetes. Strauss and Lanner were the chief contestants for the honour.

## Correspondence

Correspondents are reminded that all letters must be accompanied by signatures, and they are requested to limit themselves to approximately 300 words.

### STUDENT APATHY

## TORONTONENSIS

A most important meeting of every Torontonensis Representative of all Colleges and Faculties, will be held Friday next, January 25th, at 5 p.m., in the University College Women's Union, 79 St. George St.

Tea will be served.

The success of the 1935 edition depends on your presence. May we count on your co-operation to be there Friday next, 5 p.m.?

If unable to attend please notify Students' Administrative Council Office, Hart House, Midway 6221.

tant aspect of the question.

In the first place, we are here at the University primarily as students. Those who endeavour to do well in their courses whether honour or pass, find that almost all of their available time, allowing for necessary relaxation, is taken up in getting work done. At least that is the way I find it and

I know it keeps me continually on the hop, even to achieve a third class standing. The work piles up unceasingly because professors all treat their subjects as if nothing else mattered.

Secondly, most students experience a disillusionment regarding all their beliefs and convictions arising from

## SPEAKING OF SPORT

By W. A. Crookover

Cold weather, among other things, allowed Blue athletes to put on an evening's entertainment at Hart House in utmost secrecy last night. Coach Mac McCutcheon's junior and intermediate squads broke even on the night's play while the Blue waterpoloists just nosed out the St. Catharines squad. The basketball games were two very interesting tilts and but for a lapse in defence on the part of the Blue juniors the night might have been a perfect one for Mac.

The Blue poloists, minus most of their regular players, were lucky to eke out a win. Cressy McCarty injured his hand and foot earlier in the day and his absence was certainly felt. While on the subject of swimming we might mention that there is to be an exhibition of swimming by Tommy Walker and Bob Pirie in the Hart House pool at five today.

Up at the Arena, Warren Stevens' Bees put on a very pleasing display to chalk up another win in the Major Commercial series. Devine of the Blues went on a rampage and scored three of his team's counters to top a fine evening's performance. Speaking of hockey—it seems that our Gordon Skilling, of Rhodes scholar fame, has won a position on Oxford's second hockey team. The Oxford pucksters, so the story goes, arrived some place or other in Switzerland to play an exhibition game and on their arrival were feted royally—wine and all that sort of thing, you know. The party broke up at six in the morning of the game and feeling a little tired the captains of the two squads put their heads together and decided to forget about the hockey game (as a good time had already been had by all?).

All but the uninterested and the blind are at the present time aware of the fact that the intercollegiate cage season will open tomorrow night at Hart House. The game which will bring together the Varsity and Tricolour quintets is bound to be a crowd-pleaser and with Nels Kelly supplying the music the evening is certain to be an enjoyable one. At the present time it appears as though the Blues may be without four of their players, Marks, Meagher, Munroe and Mencil being the lads in question. The latter two, however, may get into action, as they are only slightly ill. Coach Hayman and the boys are pretty sure of a victory (which we feel is almost a certainty) and with dancing to round off the entertainment an excellent programme is in store for the many fans who will turn out.

The Syracuse-Toronto meet, scheduled for Saturday night, will without a doubt, turn out to be the standout athletic programme of the season. The Syracuse squad have won the Eastern U.S. intercollegiate championship three times in a row and have a group of smart boxers on their roster. The feature bout of the evening will be the heavyweight tilt between our Mr. Pocius and Tiny Jim Brown, 235-pound bundle of fighting energy from Syracuse. Pocius made an impressive appearance down at Maple Leaf Gardens last night in registering a one-round knockout. 'Tis said he made a very good showing. Fight fans will be well advised to be on hand today at 4.30 when Grant and Brunke will stage an elimination tilt to decide who will oppose McGibern of Syracuse, in the 155-pound division.

On Saturday the International Ski Jump is to be staged at the Thorncliffe Jump just outside of the city. Some of the greatest jumpers in the world will be seen in action during the contest. The University of Toronto Ski Club has entered some men and although a win is not expected, the Blue sliders are expected to make a good showing. If any of you readers are looking for a thrill hike out to Thorncliffe on Saturday afternoon and watch people soar 150 feet to a perfect landing. There's nothing to compare with watching a record-breaking jump, and if the entrants live up to press despatches, there'll be no mean jumping when the hats are in the ring and the title is at stake.

Just before we close up shop for the night we'd like to clear up a little matter for the fanettes around the campus. There seems to be an idea floating around that the female of the species is not welcome, when unescorted by a male companion, at any of the athletic events at Hart House. We have been asked to correct this false impression and to inform the ladies that they may come to all games and that they will be especially welcomed tomorrow night. How about it, men?

## JR. SCHOOL TIE MEOS IN FRIGID EXHIBITION

Engineers Somewhat Superior but Can't Make Count

Junior School and their traditional rivals, Meds, braved the cold of yesterday to battle through a scheduled interfaculty hockey game at the Stadium, but failed to arrive at any decision. The final count read 1-1 at the end of a rather hectic session.

After playing a scoreless brand of hockey for the most of the first period, Meds went into the lead on a long shot which registered just before the session ended. The Engineers displayed a slight superiority for the early part of the second half, but after a goal by Upper which evened the count they were halted by the Medicals and from there to the end it was a hard checking duel with no further scoring.

In addition to Devine, McIlquham and Shipman played stellar roles in the victory.

## THE SPORTSWOMAN

By M. A. F.

At 7 p.m. this evening St. Hilda's meet U.C. This promises to be quite the game judging by Tuesday night's play. Helen Elliott will be supporting Elaine Knight on the Blue and Grey forward line and it seems that this will considerably strengthen their attack. U.C. hopes to improve their first performance considerably and in Charity Grant and Betty Mark they have two real players. This time should not clash with anyone's dinner hour so we are hoping for a better turnout than we saw on Tuesday. It will be well worth while despite the cold—you will forget that in the excitement of it all.

Swimming is not the first thing which comes to one's mind these days but in spite of that, anyone who is interested in it must think about it in a big way. The college meets are to be run off about the middle of this month and in the case of Vic, U.C., and St. Hilda's the team will be chosen from the winners in these contests. And so once again we urge you to make the trek up to the Lillian Massey pool and to do it frequently.

No division has been made as yet of the intercollegiate basketball material. There will be another joint practice tonight at 6 p.m. as usual. In all probability after the senior squad has been chosen they will practice on Monday, Wednesday and Friday, and the second group will continue to work out on Tuesday and Thursday.

There is one point about the hockey which has not been made clear as yet. If the weather makes it absolutely impossible for a game to come off that game will be played at the end of the schedule or will be worked in on a day when no games are scheduled and the rest of the play will go on as planned. However, as things look and feel right now there does not seem much need to worry about lack of ice.

## MIO-TERM EXAMS SHOW FAIR RESULTS

(Continued from Page 1)  
difficult to determine, because each year tends to have its own characteristics. Some students have difficulty because they take part in too many activities, and in trying to lead the world, neglect their own work, which in the end is of just as much benefit.

Professor H. E. Ford, head of the French Department of Victoria College, said that on the whole the average of different years was about the same, and that most classes vary little. There might be a few exceptional students in one class, but another class was just as likely to be slightly better on a broad average, and offset the effect of the others.

Nothing very exciting or remarkable had been noticed in the Christmas examinations this year by Professor E. F. Burton of the Department of Physics, who added that there were very few term examinations held in his department.

## EMMANUEL SCORE WIN AGAINST WYCLIFFE

Loss of Bill Kibblewhite

Only one of the two games scheduled for the Arena yesterday in the interfaculty hockey series was completed and in it Emmanuel College scored an impressive 6-1 victory over Wycliffe. The other contest, which was to bring together Forestry and Dents, failed to materialize when the Woods-

## IT'S SMART To be in PRINT

Fashion headlines feature gay prints for mid-season wear. They are so delightfully fresh under a dark winter coat, with a youthful zest all their own. Simpson's has a selection of colorful frocks, chic in their individuality. Come in and shop for one—you'll find no better tonic for that "tired-of-winter-clothes" feeling.

men failed to corral a full team. Wycliffe, considered the weaker of the two teams at the outset, were further weakened when Bill Kibblewhite suffered a shoulder injury. With his removal the Wycliffe team had little but courage left for their fight. They fought hard but were outclassed. Laverty, Cosby and Dyke, with two goals each, scored for the winners, while Toone collected Wycliffe's only goal.

## Sport Notices

### University Volleyball—

All players are reminded of the practice today in the upper gym from 5-6. New players are still welcome.

### Senior U.C. Waterpolo—

Important practice tonight at four o'clock.

### U.C. Athletic Board—

There will be a meeting of the U.C. Athletic Board at 1 p.m. today in the Lit. offices. All members must be present. A picture of the Board will be taken afterwards.

### U.C. Hockey—

Game today at 4 p.m., Varsity Arena. Following players turn out: Abbot, Dawson, Campbell, Morlock, Keith, Harwood, Coulter, Evans, Selfe and Fowler.

### Durnan Trophy—

Competition for the Durnan Trophy will commence Saturday at 12. Competition is open to all swimmers.

### U.C. Women's Hockey—

All U.C. women hockey players are requested to be at Varsity Stadium for a game against St. Hilda's at 8 p.m.

### Women's Basketball—

Intercollegiate practice at 6 p.m. this evening. Full turnout requested as the division will be made.

### Indoor Track—

All those interested be out at 5.15 sharp Tuesday January 29 for the following events of the interfaculty indoor track meet: 1 mile run, shot put, 220 yard dash.

## MRS. NICHOLS OF THE LANTERN NOW BACK AFTER ILLNESS

The regular patrons of the Lantern and all the many friends of Mrs. Nichols will be glad to hear that she has recovered from her recent serious illness and that she is again back at her work of planning meals for the students and looking after their comforts.

Those meals now will be just a bit better if they could be improved on at all. The full course lunch for 25 cents and the dinner at 35 cents are becoming the talk of the campus. The food is all that can be desired and the delightful surroundings at the Lantern have a great appeal.

Mrs. Nichols is there to welcome you. She has been anxious to get back to look after her many customers. So arrange to drop in to-day and see her and try to-day's full course lunch for 25 cents. You will admit there can be no better value anywhere.

The Lantern is open Sundays and arrangements can be made for class dinners or private parties most reasonably. (Adv.)

PHIL GOLO

Veteran of the senior Blue squad, who will begin his third year in intercollegiate cage competition tomorrow night against Queen's.

## ROYAL CANADIANS SUFFER DEFEAT

Varsity Sr. B. Pucksters Are Winners by 4-3 Score in First Game

One of the best games of the season took place at Varsity Arena last night when Varsity Senior B's put on a superlative display to defeat Royal Canadians, 4-3. It was speedy, wide-open hockey all the way and the Blues firmly deserved the win. Devine gave a scintillating exhibition, scoring three goals unassisted, thereby rating as the standout performer of the evening.

The game commenced at a rapid clip with both net-minders getting plenty of action from the fast-travelling forward lines. After five minutes of play, the Canadian defence duo became slightly careless and Devine came swooping in fast, retrieved the loose disc and tucked it neatly behind Cary for the opening tally. The boys then turned on the heat, and succeeded in keeping Shipman quite busy for some minutes. Finally Adams weaved down centre and drifted a floater from the blue line which evidently caught the Varsity goalie napping. Devine broke away on a dangerous rush and with no one to beat but the goalie, lofted the rubber over the net. Royal Canadians jumped into

the lead towards the end of the canto when Seltirk broke through and blasted one by Shipman.

The middle stanza had barely commenced when Boston was waved to the sidelines for roughing it. Coach Stevens immediately threw on five forwards and the game developed into a nightmare for Cary. However, Nicholson, Royal Canadians' fleet speed-merchant, broke away and went right in to score. Immediately afterwards he was penalized and Varsity began to go places. After some pretty passing, McIlquham drilled the disc into the twine, making it 3-2.

The final chucker opened with both teams playing wide open hockey. With three minutes to go Devine climaxed a perfect evening by dashing through the entire opposition and hoisting the puck into the nets. Royal Canadians then put on a five man power-play and almost swamped Shipman. The Blue goalie rose to the occasion, however, and managed to stave off the attack till the final goal sounded.

In addition to Devine, McIlquham and Shipman played stellar roles in the victory.

## JR. SCHOOL TIE MEOS IN FRIGID EXHIBITION

Engineers Somewhat Superior but Can't Make Count

Junior School and their traditional rivals, Meds, braved the cold of yesterday to battle through a scheduled interfaculty hockey game at the Stadium, but failed to arrive at any decision. The final count read 1-1 at the end of a rather hectic session.

After playing a scoreless brand of hockey for the most of the first period, Meds went into the lead on a long shot which registered just before the session ended. The Engineers displayed a slight superiority for the early part of the second half, but after a goal by Upper which evened the count they were halted by the Medicals and from there to the end it was a hard checking duel with no further scoring.

## Coming Events

JANUARY 23-26

San Toy, light opera by the Victoria College Music Club at Margaret Eaton Hall. A cast of 95, directed by Thomas J. Crawford.

THURSDAY, JANUARY 24

A meeting of the Oriental Society will be held at the home of Dr. W. R. Taylor, 223 Hubbard Ave. on Tuesday evening next. Mr. G. Brown will speak. Further details in Tuesday's paper.

3 p.m.—Mrs. J. D. H. Hutchinson's group on "Jesus in the Records" for Victoria women will meet in Wymilwood.

8 p.m.—Italian-Spanish Club, at the Women's Union, speakers, new songs, games, refreshments; the hour is NOW 8 p.m.

JANUARY 24, 25

8.15 p.m.—U.C. Players' Guild presents Ibsen's *The Wild Duck* in Hart House Theatre.

FRIDAY, JANUARY 25

St. Joseph's College annual At-Home to be held at the King Edward Hotel. Hart House String Quartet, assisted by Harriet Cohen, noted British pianist, playing American premiere of new Arnold Bax quintet, Convocation Hall.

9.00—Another Honour Science Dollar Dance will be held at Malloney's Art Gallery, 66 Grenville St. Everyone is invited. Members admitted by membership card.

SATURDAY, JANUARY 26

8 p.m.—Youth Unit, League of Nations, Toronto branch, at Ridpath's Gallery, 906 Yonge St. Professor T. W. L. MacDermot, National Secretary of the League of Nations Society in Canada will be the speaker. Refreshments will be served and a social hour follow the address.

7.30 p.m.—Boxing meet with Syracuse University at Hart House.

Annual At-Home of the Eta chapter, Beta Sigma Rho Fraternity at the Roof Gardens, Royal York Hotel.

SUNDAY, JANUARY 27

9.00 p.m.—Wymilwood musicale. Guest artist, Miss Dorothy Veale, pianist.

MONDAY, JANUARY 28

4.30 p.m.—Women's Union. Interfaculty debate between Trinity College and St. Michael's College. St. Michael's will uphold the affirmative. Subject: "Resolved that the present censorship of the movies is eminently unreasonable." Refreshments will be served. Everybody welcome.

TUESDAY, JANUARY 29

8.15—Library evening in Hart House. Mr. Sanderson will address the members on "Reading for Fun".

THURSDAY, JANUARY 31

8.30 p.m.—"Le Voyage de M. Perrichon". Annual play by U.C. French Club in Hart House Theatre.

9 p.m.—Meds At-Home at the Royal York Hotel. Stan St. John's orchestra.

FRIDAY, FEBRUARY 1

C.O.T.C. ball, Hart House. Music by Nels Kelly and his Varsity Kampus Katz.

## ART, MUSIC AND ORAMA

(Continued from Page 2)

Cohen played the piano parts of the growing work. And so she is coming to Toronto to play the quintet with the Hart House String Quartet because she is the one pianist in the world who is best qualified to do it.

Other works included in the programme will be the string quartet in A major, opus 13, by Tancieyev, and the Beethoven string quartet in F major, opus 35.

## Vic Music Club

The Victoria College Music Club opened its tenth annual production last night at Margaret Eaton Hall, presenting *San Toy*. Sidney Jones' oriental operetta was well chosen by the Vic Music Club. They are able to give it the necessary gay and light hearted touch that has always been characteristic of their shows. Dr. Crawford, the director, has taken full advantage of the tableau possibilities and the stage action and dances have been carefully worked out and almost perfected; costume has not been stinted on and the whole performance is rather lavishly done. The operetta resembles the perhaps better known *Mikado*, but is even more colourful and what with choruses of dancers, vines, mandarins, Tartar guards and bodyguards, almost ninety persons take part.

Patricia Lundy plays the lead part of San Toy, daughter of a mandarin, with John Bates opposite as her English lover. Both have good singing voices for their parts but their conservative acting is overshadowed by that of Charles Joffe as Li, and Alma Burfield as the maid, in more or less minor roles, who completely "steal" the show. Arthur Stul is good as the Emperor, who is out to add San Toy to his string of wives and counts the disposal of her father as a trivial hindrance and the large supporting cast fit smoothly into the play. The show last night, though, belonged to Li and the maid.

There are some dull spots in the show and we are certain that there were times when those in the back row could not have known what was going on, but if you want to see a show that is more than a mere amateur production, see *San Toy*.

## ALBERTA STUDENTS' CONDUCT EXPLAINED

(Continued from Page 1)

regular of these being usually the annual budget." Returning to the subject of the Senate's ruling on staff interference in provincial politics, Mr. Harper seemed doubtful if it were not quite a reasonable law. He pointed out that if university professors were to become too mixed up in party politics, disaster would be the unavoidable result whenever a change took place in the government and the opposition came to power. "I don't know exactly what lies behind the decree of the Senate in this matter," he went on, "but to tell the truth I have an opinion of some sort. There are a great many students at Alberta of Labour leanings for, as you know, the Labour element out there is very large."

Mr. Macdonald, of the Students' Administrative Council here at the University of Toronto, stated that, as far as he knew, no such mass meeting of the students of this University had ever taken place. On the subject of whether the same rule so recently made in Alberta was applicable here he said that he knew nothing.

FEBRUARY 1, 2

Trinity play, Berkeley Square, at Hart House Theatre. Tickets may be obtained at Porter's Lodge, Trinity College.

SATURDAY, FEBRUARY 2  
8.30—The Victoria College Dramatic Society holds its annual At-Home in Wymilwood.

Charity ball, Omega chapter, Sigma Alpha Mu Fraternity, Crystal Ballroom, King Edward Hotel. Ferde Mowry and his orchestra. Floor show.

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at either the men's office in Hart House, or at the women's office in University College. No notices will be taken over the telephone, after 6 p.m. notices must be taken to the Press Building. Notices for the Bulletin Board are limited to ONE insertion only.

## SUNDAY EVENING CONCERT

Eighty single tickets, which will admit men students only for the concert on Sunday next, will be issued at the Hall Porter's desk at 1 p.m. today.

## STUDENT PEACE MOVEMENT

Open meeting of Student Peace Movement (new name of Anti-War Society) on Thursday in the Women's Union, at 8.15 p.m. Plans for Eastern Canada Student Peace Conference to be discussed; committees for work in Varsity to be chosen. Professors welcome.

S. C. M.

Mrs. Hutchinson's group on "Jesus in the Records" will meet today at 3 o'clock in Wymilwood.

## S. C. M. GROUP

Mrs. J. D. H. Hutchinson's group for Vic women on "Jesus in the Records", will meet today as usual at 3 in Wymilwood.

## TO MEET QUEEN'S TOMORROW NIGHT

(Continued from Page 1)

the fact that his squad is at the present time handicapped through illness of players, Hayman believes that his crew will be able to take the measure of the Tricolour squad.

The Varsity quintet, when they take the floor on Friday night will be without the services of Hughie Marks, who is at home in Rochester due to illness. Danny Meagher, the Blue's sterling centre star, is ineligible for intercollegiate competition. Despite the loss of these two players the Blues will field an exceptionally strong crew. At centre Hayman will have Crowley and Munroe. Bodrug, Newman, Menzel and Levy will hold down the forward berths while Connelly, Gold and Gordon will look after the defence duties.

Queen's will floor a team of veterans noted for their fleetness and accuracy of long shots. Captain Bruce McGill and Don Bews, veterans of 4 and 6 years of experience respectively in intercollegiate basketball, look after the defence berths with Mal Bews assisting. At centre the Tricolour sports two men who are well over six feet, Cunningham and Edwards, Finlay, Rooke, Sonshine and Gordon handle the forward positions. Harry Sonshine and Mal Bews are well known to the Blue fans for their rugby exploits and reports have it that they are just as good at the cage pastime.

To round off the evening's entertainment Nels Kelly and his boys have been engaged to provide that extra little touch—music. Dancing will begin promptly at ten.

## INCONSEQUENCE

(Continued from Page 1)

It follows that the true aim of the S.C.M. is to have students sense that the centre of Christianity is a personal religious experience, an act of faith, which will of course require of us the use of all our intellectual and moral capacities to realize the ethical consequences in the life of the individual and of society. Discussion groups should concentrate especially upon subjects such as: Christian biographies, both Christian and religious beliefs, the meaning and forms of worship, the Church and the Bible.

Now, the fact that the beginning of a Christian conviction is in commitment and not in an act of intellectual assent, does not mean that students who rebel against this view are to be excluded. Far from it. But the whole atmosphere of the S.C.M. should create an understanding leading to an intelligent allegiance to Christ. In this the responsibility of group leaders is great. Unless they possess such a conviction and interpret the problems under discussion in the light of such an ex-

perience, their discussion groups will be just a pooling of questions without answers.

Unless the S.C.M. is ready to give consciously, to Christ the central place and to construct its programmes so that all students may understand how to give their allegiance to Him, and give it, it has no right to call itself a Student Christian Movement, but should henceforth be known as the Student Religious Movement—or any such name as it may choose. This puts the case very strongly but we feel that the problem must be faced, and we hope that this letter will be taken as constructive criticism.

Claude de Mestral.  
Robert Bates.

## SITUATION IN EUROPE HINDERED PEACE RALLY

(Continued from Page 1)

the students particularly, is the fact that in all these countries, the government is cutting down the number of students, encouraging only those sciences useful in war and thus creating general intellectual unemployment. The government resorts to the weapon of terrorism, both among the students, and also among the people, who cannot complain about the starvation wages.

"French students are definitely in sympathy with the Germans and Italians, especially because they feel that the only thing that stopped France from having a Fascist government was the action of the Socialists in the last general election. Probably the next time they will be less fortunate and they will find themselves in the same situation. American students to a certain extent face the same problem, although there it is economic rather than political, since due to forces of economy the government has been forced to cut down the educational budgets and lessen grants and because of the widespread over-production, no new discoveries are desired—a very definite blow to science."

## DOMESTIC ARCHITECTURE ENTHRALLS ONTARIANS

(Continued from Page 1)

ed from mud plastered wooden houses with low roof and classic form so characteristic of the early English period, to compact Georgian colonial homes. He went on to consider the interior decoration of a Dental office. "In general they are bad. Comfort of the patient is usually a minor consideration." He stressed the importance of exclusion of extreme colours and fancy upholstery and urged that simplicity be the keynote.

## Report Again Stresses Need For Library Space

(Continued from Page 1)

later struggle of life," were Dr. Cody's words of commendation. Bursaries are doing much to assist students in pursuing their courses. The staff have also suffered from reductions in the University grant, he pointed out. "I cannot speak too warmly of the co-operation of the administrative and academic staff in making such curtailments. For many of our teachers sacrificial frugality became the rule of life." Dr. Cody reported many appointments to the staff to replace various resignations and unfortunate deaths. He also stressed the amount of successful research carried on in the last year and the honours conferred upon faculty members.

During the past year the University acknowledged benefactions amounting to \$1,079,536.13.

Under the new standard, whereby Honour Matriculation is necessary to enter the University, the number of failures in first year has been reduced by ten or fifteen per cent. "In the main, those who come to the University have seriousness of purpose and the necessary ability to make full use of the opportunities which the University offers." This more practical attitude is seen in the library statistics, which show an increase of seven per cent in the use of books this year. "More space and more books are still our needs . . . if we are to maintain our efficiency in research and in graduate work we must adequately equip the library which has aptly been called 'the laboratory of the humane letters'."

The report stated that faculty libraries and reading rooms were relieving the overcrowding of the central library. The President stated in his conclusion that the University would continue to unite intellectual culture with practical and technical training.

## YOUTHFUL CRIME SHOWS DECREASE

(Continued from Page 1)

old standards gone. The child of a few generations ago had to spend a week or ten days reading from a book what the modern child can obtain in an hour from a radio or talking picture. All these compressed stimuli become congested on the mind and this necessitates a speeding up of mental adjustments.

Parents of today are more conscientiously trying to train their children than ever before, is the belief of Professor J. D. Ketchum of the psychology department. But they have not the same opportunity because the children are at home less. This is not due to the decay of the old-fashioned home but it is the result of the rapid transportation and other modern inventions.

Mr. Robert E. Mills, Director of the Children's Aid Society, says that the difficulty arises out of the fact that we are in a changing world and the home, like all else, must change to adapt itself to conditions and it is very difficult to do this. We are experiencing the growing pains due to change, exactly as has always been the case from the beginning of time.

"I believe the old-fashioned home is not possible in the present times," said Mr. Mills. "How could one thing remain exactly the same when everything else has altered? It is essentially good for all concerned that society adjust itself to meet these new emergencies."

## ESPERANTO COURSE NOT IN PROSPECT

(Continued from Page 1)

city petitioned the Extension Department for such instruction and, largely through their activities, the interest in the language is increasing in Toronto. European countries, especially those whose languages have little universal recognition, are much more concerned in the welfare of Esperanto than either Canada or the United States, it is reported. The literature of the language consists largely of translations from other tongues.

Windpipe from the shaggy throat  
Of the spavined stock-yard steer  
Root of rhubarb left last year  
Liver of some unknown helleury  
Sprig of parsley, slip of celery  
Pies that have launched a thousand  
quips

Repel the nose, revolt the lips  
Finger of a clumsy cook  
Which the salad chopper took  
When lukewarm, serve (with a dirty  
look)

Add to this a lake of water  
And by dilution save a slaughter.  
Chorus: Still the same.

Enter Dittion:

Oh well done, I commend your pains  
That mixture would corrode the drains  
And now about the cauldron sing  
Others will talk about the thing  
Condemning all that you put in.

(Music and a song, "Blue Shadows".  
Cook retires on pension.)

Joab.

## CORRESPONDENCE

(Continued from Page 2)

former education. Consequently it is extremely hard for them to make up their minds one way or another. Naturally they feel reluctant to align themselves with any of the political parties.

Realizing this, the Macdonald-Carter Club had two very successful study groups last term, at which a professor was present to criticise and enlighten us. We discussed the Railway Problem in Canada and the B.N.A. Act. Several more study groups are in preparation for the second term.

Nevertheless I still agree with you that students on the campus are indifferent to these vital questions of the day. They do not seem to realize that the policies of present-day governments will inevitably have a powerful influence for better or for worse on their future. As citizens it behooves them to do their part, however small it may be. As you say, they will have a rude awakening when they least expect it.

Yours sincerely,  
Robert S. L. McAdam.

## VARSLITY SENIORS DEFEAT ST. KITTS

VOL. LIV.

### NEWS OF THE WORLD IN BRIEF

Cape May—The Ward liner S.S. Mohawk, was rammed by the S.S. Talisman and after its passengers and crew had been taken off in boats, sank last night off the Jersey coast at Seagirt. This was the third accident to befall the Ward line in the last six months and took place within a few miles of the spot where the burning of the Morro Castle occurred.

Hamilton—E. S. Lynch, C.N.R. brakeman, Mimico, was found not guilty of manslaughter after the jury had deliberated for three hours and forty-eight minutes.

Flemington—Hauptmann's alibi for the night of the kidnapping of the Lindbergh baby was jolted somewhat when the baker whose shop Hauptmann claims to have visited on that night said he couldn't "swear to it" that Hauptmann was there.

Ottawa—Appointment of a committee to study the problem of a nationwide housing programme was suggested by Premier R. B. Bennett after T. L. Church had brought up a resolution in the House urging the government to espouse such a policy.

### NEED OF NEW DEAL OBVIOUS TO ALL

Want Amidst Plenty Basic  
Dilemma of Capitalism  
Says Strachey

### SYSTEM TO PERISH

John Strachey, well-known British politician and literary economist, is in town, as those who heard him speak last night at Holy Blossom Synagogue are well aware. Speaking easily and with buoyant eloquence, Mr. Strachey brought home to a capacity audience the basic dilemma of modern capitalism: want amidst plenty—a dilemma that sets the stamp on "The Future of Capitalism".

Even the staunchest Conservatives have awakened to the problem, the speaker pointed out, and everywhere the cry is heard that a new deal must be given to the masses. No one doubts the need for revision—the question which is rapidly bringing civilization to the crossroads is whether the revision will be simply a change in the old system or a new economic order.

The most immediate remedy, and one which all "new deals" imply, is redistribution of purchasing power so that business enterprise will find the markets without which it cannot realize profits. "Let us suppose," says Mr. Strachey, "that the system is revised so that the need for revision—the question which is rapidly bringing civilization to the crossroads is whether the revision will be simply a change in the old system or a new economic order."

### INSULATION TESTS TO BE DEMONSTRATED

Tonight at eight-fifteen in room twenty-three of the Electrical Building, Mr. J. T. Thwaites will address the members of the Toronto section of the American Institute of Electrical Engineers on "The Power Factor of Testing Insulation".

Mr. Thwaites, who is at present associated with the Canadian Westinghouse Company, has spent considerable time in exploring the field of Radioactivity and Magnetic Materials and is now in the switchgear department of his firm.

The speech will deal with the methods used to determine the imperfections of insulation. Demonstrations will be given of the two ways in which this work is done in order to illustrate the development of improved technique.

### S.C.M. INVESTIGATES CHARGES MADE BY UNDERGRADS

Incorporation of Personal Experience in Programme Suggested

### MEMBERS REFUSE COMMENT

Belive Critic Regards Problem Only from Theological Standpoint

The Student Christian Movement is investigating the charges of Claude de Mestral and Robert Bates which were published in *The Varsity* yesterday. Mr. de Mestral complained that the S.C.M. neglected to build on the religious knowledge which the freshmen received in their home churches. "Is it right for the S.C.M. to ignore this background?" he asked.

Mr. W. G. Bradley, vice-president of the Men's Cabinet, was inclined to agree with these criticisms. "A great deal would be gained by incorporating personal experiences in the society's programme," was his opinion. He went on to state that most persons learned part of the teachings of the primitive church in their youth, and he felt that this should be extended and consolidated by the society.

Mr. W. J. Alexander, treasurer of the Cabinet, expressed his complete disapproval of the allegations. He considered such changes would weaken the society. He believed that "If they knew the S.C.M. more intimately, they would not make those statements. Mr. de Mestral does not see the problem as most others on the campus would, but regards it purely from the viewpoint of a theologian."

Other members of the S.C.M. refused to comment when approached by *The Varsity*.

### DILIGENT STUDENTS NOT ALWAYS BEST

Hours of Study May not be  
Indication of Rank of  
Student

### THREE HOUR AVERAGE

Students, generally, spend an average of three hours per night on their studies, according to Professor S. N. F. Chant of the psychology department, during an interview with *The Varsity*.

Experiments on three hundred and fifty students in the pass and honour courses revealed that the average time spent on studies was twenty-one hours a week. It was found that the first class students spent so much more time on their studies than the third class (Continued on Page 4)

### VOCATIONAL GUIDANCE SUBJECT OF GROUPS

Advice on Individual Problems  
to be Given by  
Alumni

The Vocational Guidance Groups, which began in 1931, are now being organized for the fifth consecutive season. The purpose of these groups is to give guidance to the students on the vocation they have chosen or are considering choosing.

To make these groups a success, those students who are interested have been requested to fill out the questionnaire and mail it to W. J. Little, Secretary, Victoria Alumni Association, or leave it in the college office today.

CONSTANCE LAILEY

Who stars in the U.C. Players' Guild's brilliant production of *The Wild Duck* by Henrik Ibsen, in Hart House Theatre. The play will be presented again tonight.

### U.C. PARLIAMENT LOSES MOTION

Era of Brilliant Financiers  
Foreseen if Conservatives  
Re-elected

### INTEREST RATES TOO HIGH

A vote of non-confidence was the fate of the Smith Government yesterday afternoon after it had lost the motion "That this house would deem a Conservative government preferable to a Liberal government in Canada at the next election." The Rt. Honorable Mirvin Minsky was elected as new opposition leader. As usual the session was held in the junior common room. Rt. Hon. Nathan Pivnick was ensconced in the Speaker's chair. Members of the Sandwich Parliament, Victoria College, were guests of honour.

The foredoomed Prime Minister, the Rt. Hon. Wilfred Smith, lauded the Bennett reform announcements, showing how favourably they contrasted with the dormancy of the "demagogic" MacKenzie King.

Rt. Hon. Bruce Marshall replied for the opposition in an accusation of the Conservatives of stealing their most noted reform measures from the Liberals. He rebuked the Bennett government for allowing high interest rates to force so many Canadian citizens into bankruptcy.

The Rt. Hon. member from Ottawa alluded to Sir Wilfrid Laurier as the greatest of Canadian leaders. But when questioned by the government concerning the debt amassed by the Laurier regime, he declared, "the people don't mind a debt." He concluded with the assertion that the people would elect the Liberals in preference to Bennett Fascism.

### "TWIXT TWO" INSPIRES ADDRESSES AT NEWMAN

Father Handly to Lecture On  
Apathy of Students  
Towards Religion

Father John Mark Handly, late of New York City, an eminent lecturer, missionary, and writer of the Paulist Order, will conduct a series of lectures and open forums in the St. Thomas Aquinas Chapel of Newman Club during the next week.

Influenced by the letters "Twixt Two" which have appeared in *The Varsity* of late, Father Handly has chosen for his topic "The Apathy of University Students towards Religion", in the belief that such a subject will stimulate a wider interest and will appeal to the University as a whole. Hence each student of the University, in addition to the members and friends of Newman Club, is cordially invited to attend.

### PHARMACY, S.P.S. WIN VICTORIES IN DOUBLE BILL

University College Entry Unexpectedly Defeated in First Start

### THOUGHT THE STRONGEST

Engineers Obtained Sweeping Victory Over the Meds

The University College interfaculty hockey entry ran into an unexpected defeat in their first start yesterday afternoon when they encountered the Pharmacy sextet at Varsity Arena. The final score showed the Druggists in possession of the only goal to be collected during the game. In the other half of the twin bill Senior School scored a rather decisive victory over the Medicals, winning 6-0.

The U.C. aggregation, bolstered by several stars of the gridiron, were expected to have one of the strongest clubs in the league but they failed to stand the grueling pace set by the Druggists.

The Engineers proved to be just too good for their Medical neighbours and just breezed to a victory. Three times in each period they located the twine for counters while their defensive pair of Hewett and Brunette stopped every thrust that the Meds sent up. Jimmy Hodgson, at centre for the Schoolmen, was the guiding mind in several attacks which resulted in goals, collecting two himself.

Pharmacy: Goal, Garneau; defence, Cotterill, Pronger; centre, Ellinghausen; wings, Wilton, Andison; alternates, Coulter, Johnson, Rheinhardt and Bingham.

U.C.: Goal, Abbott; defence, Daw-Keith, Harwood; alternates, Fowler, son, Campbell; centre, Starr; wings, Evans, Self and Marlock.

S.P.S. Srs.: Goal, Young; defence, Brunette, Hewitt; centre, Hodgson; wings, Kerr, Stavert; alternates, Stodhart and McNicol.

Medical Srs.: Goal, Fowler; defence, Coxon, Williams; centre, Starr; wings, Logie, Young; alternates, Luborsky, Oille, Thompson and Caverhill.

Referee: Norman McClelland.

### STUDY OF FASCISM IMPRACTICAL HERE

Elements of European Systems  
Learnt in Survey of  
Modern Events

### APPLICATION UNLIKELY

In spite of the fact that Communism and Fascism are realities which we must face in this generation, it is extremely unlikely that any course in such systems will be instituted in Canadian universities, in the opinion of persons interviewed by *The Varsity* on this subject yesterday.

Professor L. T. Morgan of University College declared that in dealing with the economic history of Russia and Italy it was necessary to discuss Communism and Fascism. Due to the fact that one sixth of the territory of the world is under Communistic rule it is inevitable that a student of political economy have some knowledge of it.

"There are no specified courses in Communism and Fascism in the University but a man who can spend four years in an economics course and not know the elements of these systems would be a most curious student," he said.

R. G. Riddell of the History Department (Continued on Page 4)

HARRIET COHEN

Brilliant young British pianist, who has made a flying trip to Toronto from New York to play the American premiere of the new quintet by Arnold Bax, noted English modern composer, with the Hart House String Quartet at the student's concert in Convocation Hall tonight and in Hart House Theatre tomorrow night.

A small studio, known as the Crafts Room, is now open to members of Hart House who wish to do any of the following types of work: etching, lino cuts, modelling, wood-carving and water-colours. At certain hours Mr. Carl Schaeffer is present to assist members. Anyone who is interested may obtain detailed information in this regard through the Warden's office.

### MINORITIES PLIGHT NOT AMELIORATED

Idealists Overruled by More  
Astute at Versailles  
Says Riddell

### INFLUENCE OF NATIONALISM

Mr. R. G. Riddell, discussing the problem of minorities at his Current Events group yesterday afternoon, stated that no sincere effort has been made anywhere to assimilate the minorities in the national states of Europe since the war. Treaties have made their condition better and they have the right to refer disputes to the Council of the League of Nations but there is still much to be desired.

The assassination of the Archduke Ferdinand in 1914 was in protest against Slav oppression in Austria. Before the war there were 100 millions in the national states of Europe who did not belong to their country's nationality. Wilson proposed at Versailles that the map be redrawn according to national self-determination. The work was done by men less idealistic but more astute and the boundaries were laid with strategic advantages for the victors well in view. One result is that Hungary's mountainous rim is owned by three of her neighbours.

The minorities in Europe now consist of only 30 millions but growing (Continued on Page 4)

### BETA SIGMA RHO DANCE HELO TOMORROW NIGHT

The annual At-Home of the Eta chapter, Beta Sigma Rho Fraternity, will be held tomorrow night at the Roof Gardens, Royal York Hotel.

The dance committee are attempting to create something new in the way of entertainment and promise to produce what they call an "informal formal". Architectural students have designed special decorations for the event, among which is a large size electrically wired model of the fraternity pin.

### HART HOUSE PLAYS HIGHLY PRAISED BY RUPERT HARVEY

Toronto Critic's Attitude is  
Characteristic Says  
Manager

### GUEST DIRECTORS ASSIST

Lack of Co-operative Support  
on Part of Student Body  
Deplored

Hart House Theatre, its management, its directors, and its productions, is the object of a bitter satire published in this month's issue of "City Lights". The immediate cause for this outbreak was the recent production of "The Piper", which was presented Christmas week.

The play itself is a very beautiful thing which was awarded the prize in an international competition back in 1910. There is a very touching religious significance imbedded in the texture of the play which perhaps was not fully understood by persons in search of a Christmas pantomime or a childish burlesque.

The article omits no aspect of the play, from the lighting to the actors. The women seemed to be in the last stages of pernicious anaemia and the men spoke their lines as though each had a woolen mit in his mouth, the writer of the article suggests.

*The Varsity* sought out Mr. Melville Keay, manager of the Hart House Theatre yesterday afternoon to get his slant on the article. Mr. Keay cited briefly the history of the play from its first production at Stratford-on-Avon. He quoted Mr. Rupert Harvey, who is a guest director at Hart House this season and who comes from England. "The Hart House production compares very favourably with the previous English production," Mr. Harvey had said. Mr. Keay continued, "It is quite characteristic of Toronto critics to give unfavourable criticisms of Toronto events; especially if those events are (Continued on Page 3)

### THEATRE CRITICISM PARTIALLY UPHOLD

Experimental Plays Suggested  
as Efficacious Remedy  
by Professor

### PLAYS POORLY EXPLOITED

"The only thing which will save Hart House from oblivion is to install a director who realizes that the business and art of the little theatre is fairly pointless unless it strives to grow into something more than the little theatre; somebody, in fact, who will produce plays that people want to see," writes Scott Maxwell in this month's issue of "City Lights". He maintains that the plays are poorly chosen and poorly presented. As a shining example of this, he mentions "The Piper" by Josephine Preston Peabody, which he claims is "one of the feeblest of the hundred and seventeen presentations of this black sheep of the Massey menage." He describes the east with perhaps the exception of Murray Bonnycastle, as "ineffectual and wishy-washy".

In an interview with *The Varsity* yesterday, Professor Lange stated that he agreed in part with Mr. Maxwell's criticism, but that the latter failed to see several points that might explain the lack of enthusiasm shown for Hart House plays.

## Musicalcomedyland

Once we went to see a musical comedy with a friend who is very interested in music. But he did not enjoy the evening. Throughout the whole performance he sat and fretted because the scene was laid in Transylvania and he was a Transylvanian.

Transylvania is that ill-known country in the Balkans which we know as Musicalcomedyland because it provides us with the fairy princes of our modern tales. It seems to be so little known, that anyone who in this realistic age wants to write a romantic story has it laid in that portion of Europe where the crook in the elbow of pre-war Rumania used to come. Even the comic strips have taken the habit.

What kind of a country is it? Our friend, who has seen quite a bit of Canada, says that if grapevines grew in Northern Ontario, it would look just like his country. In its rolling mountains are the impregnable fortresses built many years ago as protection against the Turks.

Perhaps its atmosphere is right as far as scenery goes, but why, in a country that has never had a real prince, should such nonsensicalities be published? It shows that we still love to throw off our gloss of sophistication to believe that somewhere, somehow, lies a land of chivalry, where, if we ever grew tired of our modern society we could find retreat and live to dream that someday the Prince or Princess might come out the fairy castle to greet us.

We do not decry this romantic feeling, but we hate to see this trite appearance of it any time a hard-pressed author wants to find a fairy tale setting for his story. Any clever writer would never attempt so threadbare a scene.

## Twentieth Century Intolerance

The average individual of today feels that he is indeed living in a marvellous century and looks back, half-scornfully, half-pityingly, upon the unlighted half-centuries of the past. He prides himself upon living in an age of tolerance and justice. Admittedly tremendous advances have been made since, say the seventeenth century, but there is many a remnant of barbarism still lurking about.

Canada ought to be the most tolerant of all nations. Cosmopolitan, democratic, free and just as she is, surely tolerance must be the dominating characteristic of such a country. Canada's situation is unique. Here we have two great nationalities, two languages, two religions. Here if anywhere should true tolerance be found. We are proud to be able to say that we live in peace and amity with each other.

So it is that the headlines of Wednesday morning's papers caused a distinct shock to our feeling of self-satisfaction. It appears we are not so perfect after all. It was rumoured that the government was considering a distribution of taxes which would be fairer to the Catholic minority in the province. Immediately the Orange Order, jealous of their privileges, rises up in protest. We would have thought such an attitude on the part of Canadians inconceivable. Whether or not, the Catholic Tax-payers' Association is justified in its demands is immaterial. It is the principle of the thing that is wrong.

We do a great deal of talking about the sordidness of politics. There need be nothing sordid about

politics, merely as politics. It is when other considerations such as religion are dragged in that we have sordidness. Therefore we should like to humbly suggest that the government be allowed to settle this tax question purely as an administrative problem, and that religion be left out of it.

It is an awful indictment of civilization and progress if after all these years Catholic and Protestant can not live in a spirit of friendliness and co-operation and tolerance. We have come far from the days of the Inquisition and the burning of heretics. We are justly proud of our advance. But it is well if we guard against a backward step.

## YOUR Paper

A glance at the elongated rectangle at the top of the page will remind you that *The Varsity* is the undergraduate newspaper of the University of Toronto. It is your paper. The news and sports stories which appear in these pages five times a week are collected and written by an enthusiastic staff of undergraduates who risk their necks, very very often, their scholastic standing, to beat the dead line and see their "stuff" in the next morning's issue. This material is arranged and put into acceptable order to meet your eyes each issue, by a staff of student night-editors who toil from dusk to dawn for that purpose. Notwithstanding certain slight lapses in exactness of information and some weird errors occasionally appearing in the print, we are giving you each issue a newspaper which is reasonably accurate and mechanically correct.

The publishing of a daily newspaper is a great privilege for those who engage in it, giving as it does, some training in newspaper technique, but it is also a real responsibility.

It is, for instance, very difficult to judge the taste of the students in the matter of editorials. Students do not seem to demand profundity in editorials, although for some time in the past, a succession of theologians have given us a series of opinions, which were often more or less profound, and which, we feel, were more or less read. The inauguration of a two column editorial page has made variety more possible, but it has made the lot of the Editorial writers harder.

There should be a supply of ideas suitable for editorial opinion in a student daily. Almost every problem which faces the world outside the campus today, will have to be faced in perhaps a more intensive form on leaving University life. If the student on the campus is at all interested in these problems which have a vital importance to his welfare, a discussion of these subjects, such as war, unemployment, social reform, should be profitable. If he is not, any attempt on the part of *The Varsity* to force attention to these issues would be merely the case of the voice crying in the wilderness. In this case, there would be no purpose served in turning to philosophy, for a student who is uninterested in problems definitely pertaining to his own personal welfare would be bored with anything deeper. We cannot always find sufficient copy in an issue to write an editorial on a campus subject. It would be impossible to castigate the fees clerk or to ruminate on the deficiencies of the Pass Course in every issue. We strive to please, but unless we know what pleases you, we blunder on in the dark.

Practically every student has concrete ideas on a variety of subjects. A sharing of ideas tends to produce a broadened outlook; a knowledge of each other's opinions enables each of us to formulate a better understanding of our neighbours. The columns of *The Varsity* are always open to correspondents with worthwhile ideas on practically an unlimited range of subjects. Let us hear from you.

College sport is an important factor in the educational programme. It plays a major role in the moral, mental, and physical development of students. It oftentimes furnishes thrilling spectacles which engender college loyalty and that strange intoxicant, college spirit. It should be promoted with only these ends in view.—The Xaverian.

A gossip is one who talks to you about others; a bore is one who talks to you about himself, a brilliant conversationalist is one who talks to you about yourself.—Atlantic Journal.

Latest product of scientific master-minds, the sound microscope, should help in detecting some of those "faint murmurings in the political horizon" we read so much about.

The Soviet Russian post office has decided to issue a series of pictorial stamps which will depict the horrors of the Great War on them. Some of them will show pictures of burning towns, bombardments, refugees, devastated cities, and war invalids.

## ART, MUSIC & DRAMA

### Friday Afternoon Recital

The New World Chamber Orchestra under the direction of Samuel Hershenson will be the artists at today's Friday Afternoon Recital to be held at 5 p.m. in the Music Room of Hart House, when the following Mozart programme will be given:

Overture II Ratto di Seraglio  
Three Divertimento Mouvements  
Menuet  
Rondo in B flat  
Eine Kleine Nacht Musik

### Sketch Room

The annual exhibition of art by undergraduate members of Hart House will be held in the Sketch Room from 9th February to 2nd March. Due to the increased number of pictures submitted it has been possible during the last few years to hold the undergraduate and senior exhibitions separately. This year a larger number of pictures is expected as work done in the new crafts room of Hart House will be added to the usual entries.

Members of Hart House may bring guests to see the exhibition on the Visitors' Day, Sunday 24th February. Entries should be handed in to the Warden's office by 6th February. Pictures may be submitted unframed but if accepted must be framed for exhibition. The Sketch Committee has made arrangements to supply materials and equipment for framing. Further information may be had from the Warden's office.

### The H.C. Players' Guild

As *The Wild Duck* is perhaps the most perfect of all Ibsen's prose dramas the production by the Players' Guild is an opportunity not to be missed by those who have never seen the play. It is, too, a tragedy-comedy and this form

### TREES

"Forestry is AN art, A science and A business, and A state policy," said Dean Howe. But that was before Mitch turned the axe on them. Now it is just Forestry. The Forestry Building is built entirely of brick and concrete. The idea being to conserve our Forests, at least until they can get a crack at them. The building is lodged in between the Law Building and the Lawless Building, sometimes known as the Press, but although the Press is co-educational, the Forests are still primarily evil. "What would women do in the Algonquin Park camp?" Your guess is as good as ours, Mr. Cowan, but we'll bet they won't raise any beards.

The Foresters take several subjects such as log-rolling, bone ditto, Five Card Draw, Modern Language and Timber Physics, but those well up in the first few are inclined to disregard the last one. Social events include Stunt Nite, where they appear in the garb of their profession, and the At-Home, for which they rent or borrow formal, or else wear their own, which look as if they had been rented or borrowed. Perhaps the most popular events are the Saturday field trips, which are said to be great fun, coursing through Strathgovan Park like Indians. The Forestry Building itself is situated in an exquisite little park which has as yet no trees, and thus the faculty avoids risking its reputation. In search of more solid timber, after reading the examination papers, the faculty send the boys up to Algonquin Park for the summer. Here they spend their time demolishing trees by the simple process of cutting them up, and having acquired the habit, continue cutting up all winter. They often enter interfaculty sports, but sometimes swing lacrosse sticks as if they were axes.

Foresters are classified as *homo scilicet*, genus *silvestre*. To identify in-

A most important meeting of every Torontonensis Representative of all Colleges and Faculties, will be held Friday next, January 25th, at 5 p.m., in the University College Women's Union, 79 St. George St.

Tea will be served.

The success of the 1935 edition depends on your presence. May we count on your co-operation to be there Friday next, 5 p.m.?

If unable to attend please notify Students' Administrative Council Office, Hart House, Midway 6221.

## TORONTONENSIS

Torontonensis Group Write-ups and Pictures are due now. Please hand these in to the Students' Administrative Council Office, Hart House.

## THE SPORTSWOMAN

By B. L. M.

The final decision as to who would play on the intercollegiate basketball team was made last night. The lineup is as follows: Edith Ardagh, Kay Brown, Mary Louise Carre, and Eugenia May as forwards, and Marion Bernhardt, Kay Grubbe, Helen McGarry, Enid Palmer and Lorna Reid as guards.

The girls whose names do not appear above will be playing intermediate. Those playing intermediate this year have an excellent chance to make the senior team next year. So don't be downhearted but come out to practice. Intermediate practices will be Tuesday from 6-7.30 and Thursday from 6-7. There will be no senior practice this week but beginning next week all seniors are asked to turn out Monday, Wednesday and Friday from 6-7.

The hockey season seems to be well under way. This frigid atmosphere suits the players but is not so good for the spectators. However, there was a fairly good crowd out last night to see the clash between St. Hilda's and U.C. The play was somewhat straggly but both teams put forth their best efforts. And when the final bell rang U.C. were the victors by a 2-0 score. For the Saints, Mary Dignam, Elaine Knight and Pat Harrison showed up well. Sis Taylor looked after U.C.'s goal in fine style and Charity Grant played her usual sterling game, scoring U.C.'s first goal while Laurie Patton banged in their second one.

On Monday, January 21, the Physical Education Diploma Course held the preliminaries of their annual badminton tournament and finished the semi-finals and finals on Tues., Jan. 22. Ethel Carnegie, 4th year, and Margaret Aiden, 1st year, played off for the championship. In a close, exciting game, Ethel Carnegie, who held the title last year also, came through as winner, the score being 21-18.

There has been a feeling among the women on the campus that they are not welcome at the men's basketball games without an escort. This is by no means the case and they will be looking for you all tonight when the Big Blue team meets the Tricolour squad. Come on out, girls, and give the little boys a big hand!

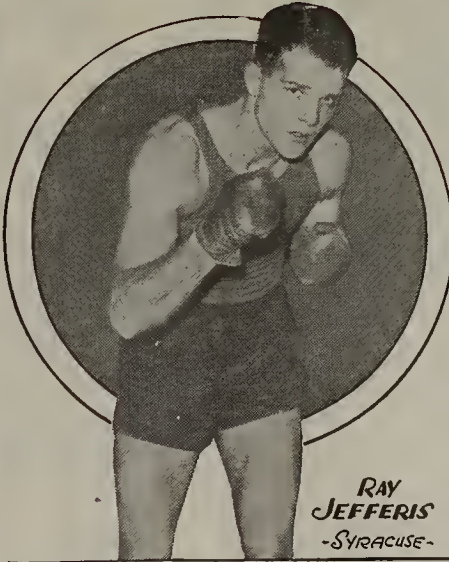

Monday, January 28—  
U.C. vs Forestry, Stadium, 4 p.m.

Theosophical Movement"  
by  
MR. L. FLOYD  
Students Specially Invited.  
Questions Answered. Free Library.

## THE HEMPEN SQUARE

By Goldwin A. Martin

With the Syracuse meet but one day off the Varsity boxers are awaiting the sound of the gong with eager confidence.

Supremacy in the 155 lb. class was settled yesterday when Jack Grant won a decision over Jack Brunk. Brunk started fast and took the first round, but Grant rallied to take a close decision after a hard battle.

Tom Powell, who represents Varsity in the welterweight division, is one of the best boxers at this weight in Canada. We base this opinion on the form Powell showed in whipping Merve Peeper last year and on the fact that Peeper holds a decision over Len Wadsworth, the great Hamilton fighter, who has since become Canadian middleweight champion.

Bill Gibson, red-haired lightweight, continues to show great form. A well-known campus glove artist who has met the best Varsity lightweights during the last four years, including the popular Frank Stone, rates Gibson as the best opponent he has ever faced. The sensational victory of Jack Pocius, Varsity heavyweight hope, at Maple Leaf Gardens Thursday night was the subject of favourable comment by ring-side critics, one of whom was Playfair Brown, local boxing promoter. The rugged giant from St. Mike's has a devastating punch which should cause his Syracuse opponent to spend a few uncomfortable moments.

Jack Boyd, who scored two knockouts in the Junior Assault, is the lightweight representative.

Burke, who meets Tony Balash of Syracuse on Saturday night, is inexperienced, but cool under fire and has a good punch.

The 118 and 126 lb. divisions are filled respectively by Pidduck of S.P.S. and the veteran Freddy Smith, who was a winner at Syracuse two years ago.

The line-up for tomorrow night is as follows:

118 lb.—Pidduck (V) vs Black (S),  
126 lb.—Smith (V) vs Solomon (S),  
135 lb.—Gibson (V) vs Bardecke (S),  
145 lb.—Powell (V) vs Button (S),  
155 lb.—Grant (V) vs McGivern (S),  
165 lb.—Burke (V) vs Balash (S),  
175 lb.—Boyd (V) vs Jefferies (S),  
Heavyweight—Pocius (V) vs Brown (S).

## HEALTH TALKS FOR WOMEN

A series of lectures in connection with the physical culture course at Victoria, was inaugurated yesterday at Wymilwood by Dr. Marion Hilliard. "The lectures," Dr. Hilliard said, "are an explanation and apology for the periodical examination to which the students are subjected." The topics to be covered include "chest, heart, feet and posture," "dietics," "reproductive system, anatomy and physiology"

## SPEAKING OF SPORT

By George C. Vair

Swimming enthusiasts at the University were given quite a treat when Tommy Walker brought up Bob Pirie, crack Y.M.C.A. performer, to the Hart House pool yesterday afternoon and showed the finishers just how it should be done. While Bob was churning up the aqua in a 500 yard exhibition, Tommy took the floor and proceeded to elucidate on his prize finster. According to him Pirie does a mere 1,000 yards every morning before starting the day's activities. Just a nice way of passing the time these mornings, folks. Pirie, who recently broke the Canadian record for 300 yards, acquires his speed from ultra-perfect style and not sheer muscular development. After pointing out the individual mistakes of various U. of T. swimmers, the Y mentor gave a demonstration on how to take the turns. One would think from the number of people present that it would be a good idea to hold some of the intercollegiate games during the afternoon. Yes, Saturdays, of course. We vaguely remember a Varsity-McGill waterpolo game being held on a Saturday afternoon last year and somebody besides the players and officials took the time off to see the contest. Oh yes, there's a depression and we really must study.

Incidentally, competition for the Durnan trophy opens on Saturday at noon in the Hart House pool. It is open to all swimmers in the University and is given to the man securing the greatest number of points in a series of races and diving exhibitions.

The latest news in basketball circles is to the effect that Messrs. Munroe and Mencil will be wearing the Blue and White when Lew Hayman's Big Six basketball squad open the intercollegiate against Queen's this evening at Hart House. The Blues have been going strong of late but the Tricolour always presents a powerful team. Remember the Iron men. Don Bwes, playing his sixth season for the Limestone squad, is a classy guard and particularly adept at hitting the hoop when left unchecked around centre. Rook is another seasoned player who will need watching while Mal Bews and Sonshine, both of gridiron fame, are both playing for the visitors. The fact that a dance is to be held immediately after the game should be some incentive for the boys to bring their frauleins along even if they do have to explain who the man with the whistle is or why that fellow gets a free shot.

Tonight Varsity's hard luck entry in the O.H.A. tangle with Torontos in their fourth and last round of the current season. A clean-cut victory tonight would more than wipe out the Stars' three close decisions to date and go far to help hockey in general, the University in particular. With the Sailors recently taking Torontos by 5-2 our chances look more than favourable. However, we must take into consideration the fact that Fan Heximer, late of Germany and still later of Toronto, was playing for Port Colborne. Seems like the O.H.A. just has to place these wandering hockey stars, and anyway Dinty Moore is on the O.H.A. executive. Get it now, boys.

## Varsity Meets TORONTOS TONIGHT

Struggle Likely to be Tense  
as Ill-Starred Students  
Fight for Win

### LAST MEETING OF SEASON

The senior O.H.A. bill of fare tonight brings together for the last time this season the University of Toronto sextet and the all-star aggregation, Torontos, at Maple Leaf Gardens. To date their encounters have provided stellar exhibitions of hockey in which the result of the issue was in doubt till the last signal from the timer's bench, and tonight's issue should be no exception.

Although Torontos have gained their wins by the narrowest of margins in each case Varsity had a decided edge in actual play. Their task at hand is even more arduous than ever before as the fortune-maligned lads in blue shirts are seeking revenge.

Something of an upset occurred in hockey circles this week when Port Colborne sent Torontos down to a 5-3 defeat, whereas the Sailors just managed to nose out Varsity by the odd goal in five, all of which augurs well for the Blue team's chances. For their game against Stevens' charges Torontos had better be in their best form as Varsity are travelling at a fast clip and are ready to snare their first victory any time now in their thirteenth start of the season.

The remarkable improvement in the work of the second line with Pete Devine, spearhead of the attack, is beginning to obtain results. The dynamic line of McClelland, MacPherson and Hendry has been turning in stellar efforts, all of which augurs well for Varsity's chances.

The hockey situation sizes up to the fact that Varsity have shown better form every time out and before the final gong ceases hostilities tonight the senior Blues' bid for a win may be realized if records mean anything.

### Sr. School Waterpolo—

Team all out Friday, 25th, for game with Meds.

## JR. S.P.S. BEAT SR. MEDS IN INTERFACULTY GAME

Weak Shooting Shatters Meds' Chances in the Second Half

Sr. Meds bowed to Jr. School in a hard-fought interfaculty basketball game played yesterday in the upper gym, but only after a tough struggle, the final score being 11-10. The game ended with the Engineers hanging on to their one-point lead, closely pursued by the desperate Medicals.

S.P.S. were slightly superior in the first half and ran up a 7-3 lead, but in the second half Meds were an altogether new team, and but for some very weak shooting, might have turned the game into a victory. As it was they looked like the best team, and were more outlucked than outplayed.

For Meds, Simons was the high scorer, with Scher and Rickert getting the rest of the baskets. Himel, a former intercollegiate player, did some very effective passing, but missed a lot of good chances with poor shooting. Eggert, Kulyk and Murray were the pick of the Engineers.

S.P.S. Jrs.: Mitchell, Ronson, Dunn, Sharpe, Eggert, Ballagh, Murray, Hershorn, Kulyk and Macdonald.

Sr. Meds: Scher, Simons, Green, Himel, Rickert, Culive, Cohn, Rosenberg, Bernbaum, Feldman, Rosenbaum.

## THEATRE CRITICISM PARTIALLY UPELOD

(Continued from Page 1)

"You can't have Hart House as a hobby club for students and sell it to the public too. For some time plays have been presented, which the majority of the people in the city not in any way connected with Hart House, have not even heard of. Some of the plays have been very good plays but so poorly presented and exploited, that outside of the actors' friends and relations they have drawn a small crowd. This certainly should not be the case, because Hart House is the finest theatre of its kind and with proper management and appreciation of its possibilities should draw a full house at every performance."

The first step, continued Professor Lange, is to make the public "Hart House-conscious", to make them realize that good plays are and can be presented in Hart House."

There are two little girls in town

## HART HOUSE THEATRE PRAISED BY HARVEY

(Continued from Page 1)

at Hart House Theatre." Mr. Keay showed the reporter letters which had come from people as far off as New Brunswick, either complimenting Hart House on its "beautiful production of 'The Piper,'" or asking for advice on producing it. "Toronto simply isn't aware of the prominence Hart House enjoys in other countries," he continued, relating some of his experiences both in United States and Europe, where everyone in dramatic circles is interested in the work of the Hart House Little Theatre.

In connection with the scheme of having guest directors, which according to "City Lights," places Hart House in the position of "a model theatre swirling rudderless in the tide," Mr. Keay said that, "on the contrary the guest directors contribute greatly to the abilities of the players; especially when such men as Mr. Harvey and Mr. Bennett can each contribute his share and his ideas to the development of an actor."

"It will be impossible to maintain a good theatre unless the public of Toronto will appreciate what is earnestly striven for and being done by our players, the students of the university themselves don't support the theatre as they should, even in its best productions."

## Coming Events

### FRIDAY, JANUARY 25

St. Joseph's College annual At-Home  
to be held at the King Edward Hotel.  
Hart House String Quartet, assisted  
by Harriet Cohen, noted British  
pianist, playing American premiere  
of new Arnold Bax quintet, Convo-  
cation Hall.

9.00—Another Honour Science Dollar  
Dance will be held at Malloney's  
Art Gallery, 66 Grenville St. Every-  
one is invited. Members admitted  
by membership card.

### SATURDAY, JANUARY 26

5 p.m.—Newman Club tea dance.  
8 p.m.—T.I.C.C.U. meets at 121 Madison  
Ave. Discussion on I John  
2:18-29.  
8 p.m.—Youth Unit, League of Na-  
tions, Toronto branch, at Ridpath's  
Gallery, 906 Yonge St. Professor T.  
W. L. MacDermot, National Secre-  
tary of the League of Nations So-  
ciety in Canada will be the speaker.  
Refreshments will be served and a  
social hour follow the address.

7.30 p.m.—Boxing meet with Syracuse  
University at Hart House.  
Annual At-Home of the Eta chapter,  
Beta Sigma Rho Fraternity at the  
Roof Gardens, Royal York Hotel.

### SUNDAY, JANUARY 27

5 p.m.—Newman Club tea.  
9.00 p.m.—Wymilwood musicale. Guest  
artist, Miss Dorothy Veale, pianist.

### MONDAY, JANUARY 28

4.30 p.m.—Women's Union. Interfaculty  
debate between Trinity College and  
St. Michael's College. St. Michael's  
will uphold the affirmative. Subject:  
"Resolved that the present censor-  
ship of the movies is eminently un-  
reasonable." Refreshments will be  
served. Everybody welcome.

8.15 p.m.—Mr. S. Carr's study group  
on "Leninism" will recommence for  
spring term. Open to all interested.  
630 College St.

day with Saturday matinee in Con-  
tinental Varieties with Lucienne Boyer.

## MINORITIES PLIGHT NOT AMELIORATED

(Continued from Page 1)

nationalism has exacerbated the prob-  
lem. The solution of 1919 was the  
signing of treaties by those powers  
which had gained territory obliging  
them to respect the cultural inheritance  
of their new subjects and grant them  
full political and civil rights. Since  
then every minority has suffered and  
every treaty been flagrantly ignored.  
The difficulty lies in the question of  
dary revision against which there is  
these minorities being linked with boun-  
dary revision against which there is  
strong opposition from France, Italy  
and Poland. The League has no mod-  
erate sanction, public opinion being the  
only means to secure proper revision  
of treatment. Antagonisms have per-  
sisted from the post-war situations.  
Minorities on boundaries are a weak-  
ness, especially when they consider  
themselves the unredempted land of a  
hostile neighbour. The ease of Poland  
showed that repression will not solve  
the problem, but rather the conceding  
of full political and cultural rights.  
Security is the sticking point. The  
French and Anglo-Canadians no longer  
disagree because the United States is  
not populated by French people re-  
garding Quebec as nationally belonging  
to them.

### TUESDAY, JANUARY 29

5 p.m.—Victoria College Dramatic So-  
ciety presents "I Give, Devise, etc.",  
in Hart House Theatre. No charge.  
9 a.m.—Arts Ball subscription lists  
open.

8.15—Library evening in Hart House.  
Mr. C. R. Sanderson, deputy chief  
librarian of the Toronto Reference  
Library will address the members  
on "Reading for Fun". Smoking per-  
mitted.

### WEDNESDAY, JANUARY 30

8 p.m.—Hart House debate, "That re-  
presentative democratic government,  
as understood in the nineteenth cen-  
tury, no longer fits the age in which  
we live." Debates Room.

### THURSDAY, JANUARY 31

8.30 p.m.—"Le Voyage de M. Perrichon". Annual play by U.C. French  
Club in Hart House Theatre.

### FRIDAY, FEBRUARY 1

9 p.m.—Loretto College Annual At-  
Home in the Alexandra Room of the  
King Edward Hotel. Leo Roman-  
elli's orchestra will furnish music.

C.O.T.C. ball, Hart House. Music by  
Nels Kelly and his Varsity Kampus  
Katz.

### FEBRUARY 1, 2

Trinity play, Berkeley Square, at Hart  
House Theatre. Tickets may be ob-  
tained at Porter's Lodge, Trinity  
College.

9 p.m.—Meds At-Home at the Royal  
York Hotel. Stan St. John's or-  
chestra.

### SATURDAY, FEBRUARY 2

8.30—The Victoria College Dramatic  
Society holds its annual At-Home in  
Wymilwood.

Charity ball, Omega chapter, Sigma  
Alpha Mu Fraternity. Crystal Ball-  
room, King Edward Hotel. Ferde  
Mowry and his orchestra. Floor  
show.

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at  
either the men's office in Hart House, or at the women's office in  
University College. No notices will be taken over the telephone, after  
6 p.m. notices must be taken to the Press Building. Notices for the  
Bulletin Board are limited to ONE insertion only.

### T. I. C. C. U.

Saturday, January 26th, 8 p.m. The  
Toronto Intercollegiate Christian Union  
meets at 121 Madison Ave. Discussion  
based on I John 2:18-29.

### ARTS BALL

Subscription lists for the Arts Ball,  
February 8th, will be posted in the  
Junior Common Room at 9 a.m. Tues-  
day, January 29th. Only a limited num-  
ber of tickets are allotted to each year.

### PHYSICS LECTURE

Dr. W. H. Kohl, of the Laboratory  
of the Rogers Radio Tube Company,  
Ltd., will lecture in the Physics Build-  
ing, Room 43, at 8 o'clock today, Fri-  
day, January 25th on: The Funda-  
mental Principles of Electron Optics.  
Slides and experiments will illustrate  
the lecture.

### HART HOUSE THEATRE

The Victoria College Dramatic So-  
ciety will present "I Give, Devise, etc.",  
an original one-act play by George  
Johnston, directed by Betty Boylen, in  
Hart House Theatre on Tuesday after-  
noon at five o'clock. All students wel-  
come. No admission charge.

### WYMIWOOD MUSICALS

Guest artist, Miss Dorothy Veale,  
pianist. Wymilwood Hall, Sunday, 9  
p.m.

### HONOUR SCIENCE CLUB

The first dollar dance of the term  
will be held tonight at Malloney's (66  
Grenville St.). Admission by member-  
ship card. Visitors also very welcome.

M. J. FERNALD, B.S., D.C.L.

Professor of Botany, Gray Herbarium,  
Harvard University, who is to speak  
before the Royal Canadian Institute  
in Convocation Hall, Saturday night,  
on the subject, "The Origin of New  
Species as illustrated by some Cana-  
dian Plants".

### ART, MUSIC AND DRAMA

(Continued from Page 2)

of tragedy is without doubt the most  
acceptable to the modern mind.

Ibsen sets out to show the futility  
of imposing ideals upon others from  
without. He brings the audience into a  
very close contact with the family of  
Hjalmar Ekdal in order to develop his  
theme. Hjalmar, by trade a photog-  
rapher, lives in an attic with his wife,  
Gina, Hedvig, the daughter and his  
father. Into this household comes Greg-  
ors Werle, a stuffy individual filled  
with eant about "the claim of the ideal".

His idea of the perfect marriage leads  
him to expose the past of the simple-  
hearted Mrs. Ekdal. In his interfering  
priggishness he opens Hjalmar's eyes  
to the fact that Hedvig is not his  
daughter and then bids the girl sacri-  
fice what she holds dearest to her in  
order to win back the love of her sup-  
posed father. Misery is the inevitable  
result. The girl was going blind but  
she did not realize it; she did not  
know that Hjalmar was not her father;  
nor did he know that she was the  
daughter of his benefactor.

It is Gregors formula "tell the truth,  
the whole truth, and nothing but the

### HART HOUSE DEBATE

Next debate, January 30, 8 p.m. The  
following debate, on February 27, is  
the election debate. No nomination will  
be accepted for a candidate who has  
not spoken "on the paper" or "from  
the floor" at least one debate pre-  
vious to the election debate. Those  
who wish to speak in the next debate  
please leave their names in the War-  
den's office by Tuesday, January 29.

### POLISH STUDENT'S CLUB

There will be an important meeting  
of the Polish Student's Club at 583  
Adelaide St. W. on Friday, January  
25 at 7.30 p.m. All Polish students are  
cordially invited to attend.

### CHRISTIAN SOCIALISM

Prof. F. H. Underhill will give the  
seventh of a series on "Experiments  
in Post-War Social Reconstruction",  
Monday, January 28th at 4 p.m., Room  
5, Emmanuel College.

### RIFLE ASSOCIATION.

Last chance to shoot the January  
Mitchell Cup target tonight. Team  
practice tomorrow at 1 p.m. Spoon  
shoot next week.

### STUDENT PEACE MOVEMENT

Open meeting of Student Peace  
Movement (new name for Anti-War  
Society) in the Women's Union, 79  
St. George Street, Tuesday evening at  
8.15 p.m. Professor Underhill will  
speak. Professors welcome. Elections  
for new executive, organization plans  
in preparation for convention of March  
2nd and 3rd.

truth", that disrupts the family. And  
Hedvig with her simple faith in the  
dogma "sacrifice what is dearest to  
you", which Gregors has instilled into  
her, takes her own life as being some-  
thing more precious than her pet duck.

The part of Hjalmar was played by  
Gordon Robertson in such a manner as  
to bring out the concealed ass as very  
well. His lines afforded him marvel-  
lous opportunities for comedy and for  
the most part he took advantage of  
them. Miss Bailey, as his wife, has a  
difficult part which she handles natu-  
rally. It is practically impossible to  
secure an accurate representation of  
that waddling housewife with her prac-  
tical sense and her quiet sympathy.

Miss Grabel's Hedvig might have  
been slightly younger, but she did have  
the audience concerned over the fat  
blonde little girl. What seemed the  
best interpretation in the performance  
was that of the moralist, Gregors. As  
Mr. Tobin presented him we saw the  
high-minded and stuffy young fellow  
with his ideals almost the same as one  
of the taintypes in the family album.

One of the most pleasing roles was  
that of old Ekdal, played by Jack  
Graham. He steered a clear course be-  
tween over- and under-exaggeration  
with considerable success. Dick Fon-  
ger's Werle was also well portrayed.  
N.C.P.

### St. Thomas Church

The Rev. C. J. S. Stuart will preach  
at the 11 o'clock Eucharist on Sunday.  
The service will be sung to a recently  
composed setting by Dr. Willan, and  
the met will be Sir Walford Davies' "Blessed are the pure in heart".

The Rev. J. R. Davies, B.A., will preach  
at 7 p.m. and the choir will sing Or-  
lando Gibbons' "Almighty and ever-  
lasting God". The first of the new  
series of short organ and choral re-  
citals will be given. The male chorus  
will sing "Sanctus" by Schubert and  
a setting of "I Heard the voice" by  
Dr. Ham. Master Paul Foskett will  
offer an Aria from St. Paul "Jerusa-  
lem" and Master Nelson Swift sings  
Handel's "Angels ever bright and fair".

Two short organ numbers conclude  
the recital, "Aria" by Matheson and  
"Scherzo" (Dr. Willan).

## Of Course . . .

## you are particular about your SPECTACLES

ASK TO SEE OUR "BRANDED" LINES

Eaton hall-marks of value and satisfaction. They  
bring you high quality finely ground lenses, with  
the most modern mountings.

### Eatonia

A spectacle for service.  
Chased white, or natural  
gold-filled rimless

dividuals, proceed as follows.

(1) Talk in a low, confidential tone,  
mentioning the name Mac West barely  
audibly. If specimen is a Forester, he  
will approach on the run.

(2) Pick up a piece of wood and  
identify it as oak. If he is a Forester,  
he will proclaim it is Maple (or vice  
versa).

(3) Produce a leather slide-rule case  
from the breast pocket. (Ed. Note:—  
As the predictions of the writer con-  
cerning the conduct of a Forester after  
the sight of a slide rule are distinctly  
the interpretation of a Schoolman, and  
not a journalist, we omit them).

L'I Ostrard.

## DILIGENT STUDENTS NOT ALWAYS BEST

(Continued from Page 1)

but strangely enough, the second class  
students spent slightly more time on  
their studies than the first class stu-  
dents. In general the students who  
spend the most time on their studies  
although they do well, do not neces-  
sarily do the best.

It was found that there was no dif-  
ference in the amount of time that men  
in the pass and honour courses spent  
on their studies. However, the pro-  
fessor admitted to a suspicion that men  
could sneak by with less work in a  
pass course than in an honour course.

The individuals who fail in college  
and console themselves with the thought  
that they obtained more out of their  
college year than those who worked  
hard are mistaken in their belief, de-  
clared the professor, for it was found  
that the first class students spent more  
time on the average in extra-curricular  
activity than the lower rankers, al-  
though the latter spent more time in  
recreation—dancing, parties, etc.

### Visitors' Day

Sunday 27th January will be Visi-  
tors' Day in Hart House when mem-  
bers may introduce visitors, including  
ladies, into the House between the  
hours of 2 and 4 p.m. Members will  
be asked to show their membership  
cards at the door.

The building will be open for in-  
spection.

Tea will be served in the Graduate  
Dining Room between 3 and 4.30 p.m.  
at 25c per cover.

## NEED OF NEW DEAL OBVIOUS TO ALL

(Continued from Page 1)

Strachey, "that the recent increase in  
American wages represents increased  
purchasing power among the masses—  
an effect which the price level has  
effectively forestalled. What would be  
the result? The profits to capitalistic  
production would thereby be lessened;  
the risks of enterprise would be in-  
creased; and recovery (which is the  
chief end of New Deals, not reform)  
is shoved back another degree. The  
way to recovery lies through decreased  
costs, which entails, past question, a  
cut in wages. This is simply to decrease  
purchasing power. In other words, the  
very process which makes for the re-  
covery of business enterprise destroys  
the market on which enterprise rests.  
This is the fundamental dilemma of  
capitalism; and since it is a problem  
which can neither be answered nor  
evaded, the system that has created it  
must inevitably perish."

Another alternative, and one which  
Premier Bennett is turning to, is a  
widespread programme of social re-  
forms—unemployment insurance and the  
like. But Robbins, the leading capital-  
ist economist of Great Britain, where  
such a programme is in active opera-  
tion, blames the slowness of British  
recovery on that very system. For so-  
cial insurances can be financed in only  
one of two ways: the money can come  
from the wage-earner's pocket, in which  
case there is no redistribution of wealth  
at all; or the capitalist can be taxed  
to pay for the services and that means  
contraction of enterprise and the in-  
tensification of depression. The under-  
lying dilemma of capitalism is still  
there and still as incurable as ever.

## STUDY OF FASCISM IMPRACICAL HERE

(Continued from Page 1)

ment, expressed an opinion in accord  
with Mr. Morgan. "There isn't to my  
knowledge a course in Political Eco-  
nomy or Philosophy at the present time  
giving specific information about Com-  
munism and Fascism. It is undoubtedly  
true that any description of contem-  
porary events entails something about  
the modern state. But it is remarkably  
unlikely that there will exist a par-  
liamentary institution in Canada dis-  
ciplined by Russian or Italian forms of  
government within the near future."

# RADICAL CHANGES IN GREAT HALL EFFECTIVE TO-DAY

## NEWS OF THE WORLD IN BRIEF

Ottawa—Premier Bennett's unemployment insurance bill was fully approved by the federal cabinet yesterday. It aims to create an annual fund of \$50,000,000, and to pay benefits of \$6.00 a week to individual adult workers, at a cost of about thirty cents a week to the worker, a similar amount to the employer, plus a government contribution. The scheme would not apply at first to all occupations.

St. Thomas—Premier Hepburn accused R. B. Bennett of invading provincial rights in his recent plans for social reform, and pledged his full support to Mackenzie King in the coming federal election. If Bennett is elected, Mr. Hepburn will call an immediate session to devise new methods of provincial taxation.

Debrecen, Hungary—Nine Hungarian women, accused of having poisoned their husbands or relatives, will be brought to trial here today, in the second such trial in two years.

Baton Rouge, La.—Senator Huey Long has this city under military law, and an armed crowd was dispersed with tear-gas. Search is being conducted for E. J. Bourgeois, one of his leading opponents, who is feared to have met with foul play.

## BEES SEIZE LEAD IN MAJOR SERIES

Score 3-1 Triumph in Speedy Game with Royal York

BRUCE TALLIES TWO

In a wide-open hockey match that left nothing to be desired from the spectators' point of view, Varsity's Senior "B" entry in the Commercial League last Saturday afternoon outscored the leading Royal York team by 3-1. The win was the Blues' second straight in the new series which started a week ago and they now find themselves undisputed leaders of the group.

Two of the Beavers' goals came from the stick of Bruce Charles, who was one of the standout players of the game, the first in the opening minute. In the second period Devine put Varsity two up on a pass from Kieff and less than a minute later Stanhope scored the only tally for the hotelmen, after a scramble that drove Shupp out of his net. On a solo effort, that caused him to weave his way through the whole Royal York team, Charles finished the goal getting for the afternoon.

(Continued on Page 3)

## BETA SIGMA RHO DANCE BRILLIANT SUCCESS

The annual At-Home of the Eta chapter, Beta Sigma Rho fraternity, held on Saturday night at the Roof Gardens, Royal York Hotel, was one of the most successful entertainments of the year. The guests, numbering about two hundred, were treated to some new thrills thought up by the enterprising dance committee. A feature of the evening's fun was the presentation of a terrier pup, as the prize in the spot dance, to Miss Joyce Tenebaum. Another highlight of the evening's programme was the delightful balloon dance.

## VARSITY QUINTET DEFEAT TRICOLOUR IN COLLEGE OPENER

Queen's Fade in Last Half to Allow Blues to Win 41-29

MANY PENALTIES

Varsity Juniors Lose Game to Broadview in First of Double Bill

By W. A. Crochower

Displaying a well-distributed scoring punch Lew Hayman's 1935 edition of the Varsity intercollegiate senior basketball squad took the first step towards the intercollegiate title by outscoring Coach Jimmy Rose's Tricolour squad on Friday night to the tune of 41-29. The game which was played in the big gym at Hart House, drew a fairly large crowd. In the curtain-raiser, Mac McCutcheon's Varsity juniors suffered their third consecutive defeat, being nosed out by a 25-22 count in a scheduled Y league tilt.

The senior fixture featured a fairly rugged or rough type of play which was very disconcerting to the Queen's aggregation. The Blues played the same brand of ball which has put them at the top of the heap in the local Big Six League. The Queen's basketballers didn't like the heavy going and as a result they became completely disorganized. On the whole, thirty-one penalties were handed out with the Blues being penalized on twenty occasions. (Continued on Page 4)

## VARSITY SECONDS OUT OF 'Y' RACE

Blue Basketballers Fail in Crucial Contest with Broadview Y.M.C.A.

PLAY OVERTIME

Mac McCutcheon's Varsity Seconds faded from the Y.M.C.A. intermediate basketball league picture when they succumbed to Broadview on the Y floor Saturday night in an overtime thriller by a 34-28 count. Strengthened by Meagher and Crowley of the Big Six team and Hogg of the juniors, the Blues gave "Scoop" Rennie's boys a powerful argument and were only downed after 5 minutes of overtime when the Y team broke loose for seven points as against the Blues one.

Varsity outplayed the Y team in the first half and assumed a 14-11 lead. Broadview came back strongly in the second half and were leading by 23-15 at one stage but the determined Blue outfit, weakened by the loss of Carey and Doran through fouls, would not be denied and began a desperate offensive on their own which tied the count at 27-27 all in the regulation 40 minutes. Dorsey's beautiful looper from centre floor knotted the count with 7 seconds to play. The rapidly rising Blues could not stem the scoring rush of the Y outfit and Bill Breardon put the game on ice with 2 hoops and a foul shot in the overtime. Martin also scored a basket for Broadview, while Crowley's foul shot was the only Blue point garnered in the extra session.

The Blue quintet gave one of the finest displays seen this season and with any degree of luck might have turned

(Continued on Page 4)

## ANNOUNCE WINNERS

Prize-winners have been announced in the recent contest for the best group of four photographs of Campus Life, as follows: 1st, H. C. Carrick, IV Forestry, \$5.00; 2nd, J. R. Macdonald, \$3.00; 3rd, S. M. Hermant, IV U.C., \$2.00. Prizes may be obtained by calling at the S.A.C. office.

## SYRACUSE BOXERS DECISIVELY DEFEAT VARSITY BATTLERS

Five K.O.'s on Card of Eight Bouts; Visitors Score Four Pocius Disqualified

SMITH, MILSON, BLUE BEST

The hard fisted boxing battalion from Syracuse, came and went Saturday evening, leaving in their wake six bewildered Blue battlers and only two victories in the Varsity possession. A packed house saw Jack Milson and Freddie Smith win the two opening bouts for Toronto, and then saw the next six men fall one by one, before the superior hitting power of the visiting mittmen.

Two other boys appeared to be well on their way to victory but faded in the effort. Tommy Powell, after a rousing battle, dropped a split decision to Mike Button of Syracuse. Condition, or rather lack of it, proved to be the big obstacle in Powell's path. The other disappointment came in the final bout of the evening when Pocius, after making a fast start slipped to the canvass and after rising clear, heeded the ringside advice to take a rest. When he retired the second time he was promptly disqualified by referee Ray Smilie. The referee's action in this case did not meet with the approval of the crowd who were expecting Pocius

(Continued on Page 4)

## HUMORIST TO SPEAK AT COMING DEBATE

Stephen Leacock to be Present when Debaters Assail Governments

Stephen Leacock, noted humorist and Professor of Political Economy at McGill University, will be present as honorable visitor at the Hart House debate which will take place next Wednesday at 8 p.m.

The motion "That in the opinion of this House representative democratic government as understood in the nineteenth century no longer fits this age in which we live," will be upheld by Mr. A. D. Harris of St. Michael's College and will be opposed by Mr. P. A. Bridle of University College. Mr. M. Wayman, University College, who speaks third, will probably extol the forms of government as exemplified in Communist or Fascist countries. The fourth speaker, Mr. T. C. Keenan of University College, noted champion of Liberalism, is expected to defend democracy. Tellers for the Ayes will be Mr. J. C. Rathburn, Faculty of Medicine and Mr. W. C. Smith, University College, and for the Noes, Mr. B. Shaffer, University College, and Mr. R. S. McAdam of Trinity College.

Prospective candidates for the Debates Committee are reminded that for eligibility, they must have spoken at least one of the debates previous to that of the election. The election debate will be the next one after that of Wednesday.

## PERMIT SMOKING, ABOLISH BENCHES; OFFER 20c. LUNCHES, 25c. DINNER, INDIVIDUAL SERVICE, WIDER CHOICE

### Text of Statement

The full text of the official statement to *The Varsity* announcing radical changes in the Great Hall, Hart House, follows:

Arising out of the recommendations of the Hall Committee and a sub-committee specially appointed by it last November to discuss various questions connected with the operation of the Great Hall, the Board of Stewards, the Hall Committee and the Finance Committee have decided to make radical changes with regard to the meals served in the Great Hall.

The changes which come into force today are as follows:

(1) The benches will be replaced by chairs.

(2) Smoking will be permitted at all meals.

(3) Any member may sit where he wishes in the body of the Hall without regard to the price paid for his meal.

(4) Prices will be as follows:

(a) breakfast a la carte as heretofore.

(b) lunch 20c, 25c or 35c.

(c) dinner 25c or 30c.

The usual 5c coupons will be used for payment at the door of the Great Hall where members will be given a check corresponding to the price paid. These checks are to be placed on the table and will be collected by the waitress at the end of the meal.

(5) Menus.

20c lunch: choice of three main courses with vegetables; three or four desserts and tea, coffee, milk or buttermilk; bread and butter.

25c lunch: same as 20c lunch with soup and crackers in addition.

35c lunch: soup and crackers; choice of meats, fruit salad or vegetable salad; vegetables and desserts; tea, coffee, milk, or buttermilk; bread and butter.

25c dinner: wide choice of meats, vegetables and desserts; tea, coffee, milk, or buttermilk; bread and butter.

30c dinner: same as 25c dinner with soup and crackers in addition.

It results from these changes that members will receive individual attention and in view of the greater numbers who arrive for meals between 1.00 and 1.30 p.m. it will obviously be to the advantage of those who are able to do so to come between 12 noon and 1 p.m.

The Board of Stewards, the Hall Committee and the Finance Committee realize that these radical changes involve considerable financial risk, but trust that it will be justified by the whole-hearted support of members.

Revolutionary Changes Announced by Committees of Hart House in Policy of Great Hall

### CHOICE IS OFFERED ON ALL LUNCHEONS

By BENNETT L. SMITH

Revolutionary changes in the operation of the Great Hall, Hart House, involving reversal of policies which have stood since the Hall was first opened have been approved by the committees concerned and will go into effect today.

Smoking will be permitted at all meals in the House, members will sit on chairs instead of benches, individual service will be introduced and a choice of at least three main courses and desserts ON ALL MEALS will be offered.

The twenty cent luncheon returns to the Hall to be offered with a twenty-five and thirty five cent luncheon and a twenty five cent evening meal is established.

On the twenty cent luncheon will be offered a choice of three main courses with vegetables and a choice of three or four desserts together with choice of beverages and bread and butter. The twenty-five cent luncheon will include the above with soup and crackers. The twenty-five cent evening meal includes a wide choice of meats, vegetables and desserts with beverages, etc.

Members will henceforth be permitted to sit where they wish in the body of the Hall regardless of the price of the meal they choose to eat. The three classes of luncheon will be served at the same tables. With the consequent introduction of individual service, a slight modification in the procedure of paying is necessary. Members will pay on entering the Hall as at present but will be given a check indicating the amount paid. Members are asked to place these checks on the table when they choose to sit and they will be collected by the waitresses at the conclusion of the meal.

With individual service, and in view of the large numbers that arrive for luncheon just after the hour of one o'clock, it is pointed out to members of Hart House that where possible, members will find it more convenient to lunch before that hour.

In an official statement released to *The Varsity*, the committees of Hart House concerned in these changes, point out that considerable financial risk is being undertaken which can be justified only if the members of the House lend this radical move their support.

These actions have been taken by the committees of Hart House as a result of recommendations submitted by the Hall Committee and a special sub-committee appointed by it last November to enquire into certain questions concerning the operation of the Hall.

### LEACOCK SPEAKS TO CARTIER CLUB

Professor Stephen Leacock, of McGill University, is to address the Macdonald-Cartier Club at a luncheon meeting at 1 p.m. on Thursday, January 31, in the North Common Room, Hart House. Professor Leacock is widely known for his humour as well as for his writings on political and dramatic subjects.

## CANADA ATTRACTIVE TO FRENCH SINGER

Lucienne Boyer Finds Sojourn Amid Canadian Winters Rather Interesting

SPEAKS ONLY FRENCH

By Tom Irving

Lucienne Boyer, the French singer who popularized "Parlez-moi d'amour," was in Toronto over the week-end.

When *The Varsity* tried to get in touch with the singer at the Royal York it was found that he had to talk French with her, but finally was able to arrange an interview at Massey Hall.

She has been on this continent for some months, and says that everywhere she has been she has had a marvellous reception. Our climate pleases her, she finds it not so different from France to be unpleasant, but yet different enough to be interesting. As she put it, she became used to it in a moment. She has not had any reason to get bored or homesick for Paris.

Mademoiselle Boyer says she thinks it very nice that the Canadians called her Lucienne. She says that we are different from both the Americans and English, and finds that Canadian audi-

(Continued on Page 4)

## TRINITY MEN UNAFRAID OF MENACE FROM NAZIS

Debaters Defeat Motion, Holding Hitler as Threat to World

The motion "Resolved that in the opinion of this House the world has cause to fear the Nazi regime in Germany", was defeated by a vote of 9 to 5 at a meeting of the Literary Society of Trinity College on Friday evening. The motion was upheld by P. Morley, seconded by W. G. Greenfield, and was opposed by J. Cheseldine and W. Millyard. Professor Lewis of the German staff of the college was the guest speaker.

The Government took the stand that National-Socialism, although still identified with Hitler, is no longer dependent upon him. The very militarism of the system, they claimed, was a source of danger to the world. Hitler's own book, "Mein Kampf", was quoted as being evidence that more than a mere stronger Germany was the goal in view. W. Greenfield brought religion into the debate when he stated that the German religious attitude might well stir up again the old tendency for religious wars.

The argument of the Opposition was that Germany, since the Versailles Treaty, had been completely downtrodden and that the Nazis were merely

## Hart House Meals

Today at noon, a number of changes are to be introduced in the serving of Great Hall meals, changes which are of such a commendably revolutionary character that we are for the moment flabbergasted into a complete lack of criticism. The members of the Hall Committee are to be congratulated on their initiative—the Great Hall requires only some easy chairs and a cocktail bar, and it would indeed be a haven of delight, and a masculine refuge without equal.

The statement on today's front page is self-explanatory, and needs no comment. It is to be hoped that as a result of the individual service and smoking privileges, those who eat in the Great Hall will be allowed to sit down and enjoy their meal, instead of bolting their food and rushing out in the usual (official) time of twelve and a half minutes flat. Medical men support us in the Epicurean wish to eat slowly, enjoy the meal, and then, perhaps, digest it.

It has for years been one of our firmest assertions that the Great Hall has every attribute of Toronto's biggest, finest, and most beautiful restaurant except good meals, a detail which seems important to some people but has been consistently overlooked in Hart House. After reading today's statement, the one remaining question is whether the Great Hall kitchens can produce a meal which is as good and as tempting as the numerous coffee shops around the campus.

Some day we may join a couple of members of the Hall Committee and run for parliament as The Men Who Got Food For The Masses. In the meantime, unless the masses rally round and show a little enthusiasm, they will lose what has been gained. The students' representatives have taken the first step, and it is up to the members of Hart House to do the rest.

Most students take Hart House too much for granted, but they will be making a mistake if they take these new regulations for granted. They can only be continued if there is a great increase in the number of meals served, so it is to the advantage of University men to co-operate. Why not eat in Hart House today?

Well, why not?

## The Old Order Changeth?

It is not very often that actions in Canada have heralded the dawns of new eras in world history. But certain interesting activities in Ottawa in the past week may very well be significant of a new age in party government.

Party government as we know it today arose in that period of history of political thought known as the Enlightenment. It was the period of Locke, Rousseau, Montesquieu and Edmund Burke, and of reaction from the ideas of earlier writers, notably Hobbes. One of the pet aversions of the Enlightenment thinkers was the Hobbes notion of the need for absolute autocracy in government. Out of this aversion was born the great democratic ideal of government of, by and for the people, and the various systems of checks and balances designed to achieve this, one of the principal being government by parties.

Perhaps the saddest incident in the whole sad tale is the desertion by the United States of her

own child, born in such agony, the League of Nations. For there seems little doubt that if Wilson, the idealist, had been just a mite broader than his party, the whole tragedy of his life and of the birth-throes of the League, might have been avoided. It was his heart-breaking snub of Theodore Roosevelt and his unwillingness to give Taft any credit for the League of Nations idea, which was largely Taft's, that were instrumental in turning powerful Republicans against Wilson.

With such mournful tales as these the pages continue to be liberally scattered, when lo and behold, in a North American country of about ten million people, three gentlemen, heads of three deadly rival parties, suddenly seem to have reached accord.

One of them starts off with a series of half hours on the radio in which he outlines a long series of reform measures. Another, instead of attacking the first, amazingly steps out of the way, drawing his party behind him, and commands that reform legislation be given a clear path in parliament. The third merely says that the first has finally come around to what he and his party have been harping on for years.

The conclusion is obvious: *As soon as circumstances compel parties to consider the public interest ahead of party advantage, it is found that all parties have to think very much alike.* It is amusing to see Messrs. Bennett, King and Woodsworth advocating the same thing and trying to remain at swords' points.

It may be that the high-sounding phrase "His Majesty's Loyal Opposition", so long the emptiest of empty titles, will at last begin to mean something. Possibly statesmen in other parts of the world will see the light, though it seems doubtful. But then, who would have expected it in Canada? Perhaps partyism is to be scuttled in the New Deal, and leaders in national affairs will realize that the only way to get the world started uphill is to pull all together.

## Esperanto Again

When the last article was written on the subject of Esperanto, it was not with the intention of casting aspersions on any person or persons. We have attended lectures by the professor mentioned in one of the letters published and are certain that if his Esperanto classes are as excellent as his French, no criticism can be laid against him.

We were fully aware that Esperanto is being taught at the University of Toronto, but were also aware that these were evening classes and in no way a regular course for which credit may be obtained. Besides a class attended by only twenty persons against the hundreds that are learning French and other languages in evening classes throughout the city, leaving day work aside, should show in what ratio of importance Esperanto stands towards these other languages.

We do not need Esperanto here in Canada. If we are to come into contact with French-Canadians, it is much more valuable to learn French with its centuries of culture and literature behind it than for both French and English to learn a test tube speech with no tradition and a visionary future. If we must come into contact with other than French, then we are either linguists who do not need Esperanto particularly or persons who can afford to employ an interpreter and who would prefer it, even for Esperanto.

Even conceding that there would be perfect understanding between people and races if everyone spoke Esperanto, no Esperantist has explained how everyone is to be induced to talk the same language. Unless he makes it the tongue of everyday life, he is not going to have the common man talking it; for the latter has other interests vitally centred in his immediate work and it would be all but impossible to get him talking Esperanto to his neighbour just because there was the chance that someday he might speak it to a foreigner. And unless the common man talks it, it cannot make all the world akin. We do see advantage in international understanding, but question the feasibility of Esperanto in bringing this about.

The view that Esperanto will not break up into dialects is very much mistaken. If you look up in the Encyclopaedia Britannica you will find that Esperanto is a direct descendant of Volapuk, and has given birth to Ido, Novesperanto, and countless other variations. If these are not dialects of Esperanto, it is only because Esperanto is not a living language, and as such can easily give up claim to these illegitimate offsprings.

We admire Esperanto for its beauty, its simplicity, its clearness, but will not concede that it is practical. We do not wish to tread on any person's toes, but only to state that the buoyant Esperantist vastly overestimates the chances of success which he has outlined for his hobby.

## ART, MUSIC & DRAMA

### Massey Hall

*Continental Varieties*, with Lucienne Boyer, at Massey Hall last week, was another example of the fine entertainment which Toronto is privileged to have this year. Nikita Balicoff, as master of ceremonies, was his old, familiar self. Escudero and Carmita, the two outstanding Spanish dancers, once more displayed their amazing ability in the intricate traditional steps of Spain. Iza Volpin's gypsy quartette supplied the show with lilting melody. Raphael with his small concertina almost stole the show with lilting melody. Raphael with his small concertina almost stole the show with his push-and-pull instrument. Raphael is able to get the delicacy of a violin and the tone of an organ from the hitherto rather lowly concertina.

Lucienne Boyer was all we had been led to expect. She has a personality so powerful and pleasing that, the moment she appears, the footlight gas disappears and instead of singing her lovely songs to them, she sings among them.

*Continental Varieties* is a successful experiment in bringing together good artists who, by the nature of their art, might not appear individually for a full length concert.

M.B.L.

Continued on Page 4)

## FAMOUS INSTITUTIONS

Some time ago the third undersecretary at Simcoe Hall took a week's solid days, and the red tape piled up so fast that the S.A.C. was founded to take care of it. Its real name is Joint Executive of the Students' Administrative Council, but nobody has ever heard of it, except the editor of *The Varsity*. There is some doubt as to how the S.A.C. procreates itself, but there is some connection between the results of the various college elections and the S.A.C., which is generally known as ostracism. When elected to the S.A.C. a man is seldom heard from again (except in the S.A.C.) and a woman is never heard from again (except Miss Parkes).

In order to have some business to report on after the monthly meeting the S.A.C. administers two banquets per annum, one each for the directors of *Torontonensis* and *The Varsity*. An annual bridge prize is also presented to the writer of the Cat, although so far he has always been forced to play bridge before receiving it. There are certain rules of procedure for meetings.

Continued on Page 4)

## Let's Go Places

The platitudinous "Greater love than this, etc." applies not only to St. Bernards and privates of the British army, but to that unusual species known in France as "parrains". Their duty is to supplement the parents in matters both spiritual and temporal, from supplying jordan almonds at the christening to taking the god-child to the sea for the holidays. In *Mlle. Josette, Ma Femme*, shown at the York on Saturday, the godfather, handsome, charming and rich, accords one more request of the godchild, beautiful, charming and in distress, and magnanimously takes her hand in marriage. Then he wants her heart as well—and spends six reels winning it. The action was rather slow, perhaps because the story was short and a travelogue of the Swiss Alps and winter sports was injected to give the picture feature length.

One delightful characteristic being brought home more forcibly with each successive French movie is the utter frankness with which sex and relative problems are treated. The solicitude of the parents for their married daughter's nocturnal comfort differed greatly

82, University College, or from the Council's office in Hart House.

A supply of Rings and Pins is kept in stock.

STUDENTS' ADMINISTRATIVE COUNCIL  
Room 82, University College and Hart House

First year students are not entitled to wear the Crest.

## SPEAKING OF SPORT

By B. J. McGuire

Many of the boxers around the gym, who ordinarily live very healthy lives, found themselves in somewhat of a nightmare Saturday evening. The boys have been having a swell time around the gym of late, making preparations for the coming fights, but their calculations must have been wrong, or else the preparations insufficient. The Syracuse battlers hit too hard and too often to make pleasant company any evening and made no exceptions of the Varsity boxers. Out of the eight bouts, Varsity won two. And strangely enough these two were not the favourites to win. Freddie Smith and Jack Milson, the bottom weight fighters on the card, captured their bouts and there the procession ended. Tommy Powell was the only other Blue boxer to go the limit. Pocius, after looking good for a short space of time, let someone outside the ring direct his battle for him and was disqualified for taking a rest. The other four men took rests too, all of which lasted ten seconds.

And then there was that 12-5 shellacking the Blues received at the Gardens Friday night. Sounds more like a lacrosse score than a hockey game. At any rate Varsity demonstrated that they can get goals. They collected five that night. But the chips were too cheap, and the five were by no means enough.

However, the University teams did win some games over the week-end and they were not interfaculty tests either. Saturday afternoon, the Bees, after a hectic session, were returned winners in the commercial series at the Arena. The victory gives them the lead in their loop. The game must have been good, because we hear that the patrons were not disappointed when there was no fight produced.

The basketballers, after a rather shaky start, are now leading the league in the intercollegiate basketball series as well as the Big Six. Lew Hayman has a real crew under his command this season, and now look to be headed for a double victory. It is quite some time since Varsity won the Big Six and Intercollegiate titles in one season, but at the rate the boys are flipping the ball through their hoop, it is not too much to expect. Queen's dropped the game in London on Saturday night 22-20, which leaves them only a slight hope in the race.

That 2-1 victory that McGill won over Queen's in the opening of the intercollegiate hockey series Friday evening ought to start the hopes for an intercollegiate hockey title soaring around these parts. It is to be hoped that the Blue team win a few of their O.H.A. starts before the season ends as the intercollegiate title, should Varsity win it, in the hands of a team which failed to win a single start in the local group, would give rise to a peculiar situation, which would add no prestige to the college loop.

## THE SPORTSWOMAN

By M. A. P.

The first week of the hockey schedule has gone off without a hitch—except for the withdrawal of the U.C. second team. However, fortunately, this did not upset plans at all. Even the weather has been just right—certainly we have no cause of complaint of lack of ice. Vic I, U.C. I and St. Hilda's both have one win to their credit and the latter one loss. Vic II and St. Mike's have each tied a game and the Meds squad has held its opponents to an equal score in two contests.

On Friday night Meds and Vic II tied it up at 2-2. The snow was so heavy that the puck got lost in it frequently, and since the rink was only cleared after the first period conditions were not really ideal for the play. The teams were pretty well even throughout just as the score would indicate. Each team pushed in the puck once in the first period and once in the second, but neither outfit seemed able to further their tally in the final ten minutes. As in their game with St. Mike's, Toby Duke and Mary Thom were Meds' bright lights. Nora Noble was outstanding on the Scarlet and Gold squad and played real hockey.

TO-MORROW

At six o'clock this evening St. Mike's are the guests of U.C. and Meds will play at the same hour at the Little Vic rink against the Vic Seniors. These outfits have all shown up nicely in their previous appearances and the games ought to be good.

And now to change the subject quite drastically—there has to be a change made in the plans for U.C.'s and St. Hilda's inter-year swimming meets. It seems that the U.T.S. pool will not be free on February 13 or 15. Perhaps the meets can be run off on the 11th and 12th of that month. We will be able to tell you definitely about this very shortly.

At a meeting of the Badminton Club on Friday, February 26 was set as the date for the interfaculty tournament. Entries are to be in by the 12th of that month. The tournament will be played at the York Club. The various faculties interested are urged by those in charge to get teams chosen quickly and to do some real practicing for it is hoped that the thing will be a bigger success than ever this year.

## Sport Notices

Jr. and Sr. U.C. Baseball—Practice game 2-3 p.m. today.

Jr. U.C. Waterpolo—Game today at 4.30. Everybody out.

U.C. Basketball—Junior and senior practice, 3-4 p.m. All out.

Jr. School Hockey—Game Monday, Jan. 28, 4 p.m. at Arena. Following team out: King, Woods, Smith, Upper, Hamer, Clements, Walton, Breaker, Stroud, Ford and Hemphill.

Sr. Interfaculty Assault—Wed. and Thurs., Jan. 30 and 31. Entries must be in by Tuesday at five-thirty o'clock. Weighing in Wed. from 10 o'clock till 12 noon.

## THE MEN'S SHOP OFFERS

EATON TAILORED CLOTHES  
FOR VARSITY MEN

WHO HAVE AN EYE FOR THRIFT AS WELL AS  
STYLE AND GOOD WORKMANSHIP IN THEIR CLOTHES

You do not need to be a student of economics to recognize the excellent value you receive for your money when you buy EATON TAILORED CLOTHES.

The cloths include domestic and imported all-wool worsteds, Irish and English tweeds, all-wool blue and black serges—all in the latest shades and patterns.

These suits are individually cut, and tailored to exacting specifications in our own clothing workshops. EATON Tailored Clothes are carefully finished, and a correct fit is guaranteed. From the season's latest models, you may choose a style complimentary to your build.

One of the latest styles, in very great favour in England at the present time, features the double-breasted jacket, with long soft-rolling lapels, buttoning at the lowest button. This coat gives the effect of broader shoulders and a longer body.

EATON Tailored Clothes are also obtainable in the Men's Clothing Department, Main Store, Second Floor, James Street.

These suits may be purchased on our D.P. Plan. Terms: (Toronto Delivery Area) 25% down, the balance, plus a carrying charge, in three equal monthly payments.

DENTS VICTORIOUS  
IN OPENING GAME

Victoria Swamp Emmanuel  
in Interfaculty Hockey  
Fixture

SCORES ARE HIGH

Friday afternoon Dents defeated O.C.E. by the score 5-1 in an interfaculty hockey game at the Stadium. The score is a good indication of the game, the Dents forcing the play throughout.

Colmer, the goal-keeper for O.C.E., deserves credit, for it was due mainly to his efforts that the Dents were prevented from making more goals. It seemed impossible for the Teachers to get the puck past centre ice.

On Friday afternoon at Vic rink Victoria blanked Emmanuel in an interfaculty hockey game by the score of 8-0. The forwards of Vic worked well together and kept the play at Emmanuel's net. However, Dickie, goal-keeper for Vic, had a number of hard shots to stop and deserves credit for the shut-out.

BLUES HUMILIATED  
BY TORONTO SQUAD

Students Smothered Under  
Avalanche of Goals in  
Garden Game

FINAL SCORE IS 12-5

In one of the widest scoring orgies ever witnessed at Maple Leaf Gardens this season the Toronto all-star aggregation skated the University of Toronto seniors into the ice last Friday night, subjecting the Blue seniors to a 12-5 defeat. Whatever chance for victory the Blues had anticipated were rudely jolted when Joe Primeau's lads ran amok in the second period, ramming six counters behind Loughheed, who had to work overtime to keep the score as low as it was.

Right from the opening gong Varsity didn't have a chance as the Torontos power plays reached the zenith of perfection, leaving the Blues trailing in every period. Although Torontos only scored one goal in the first stanza it was the work of Loughheed which rebuffed the Torontos' numerous other attacks. Being constantly on the

attack Varsity left their rearguard wide open as they were disorganized and their sorties on Goldie were easily repulsed, but they managed to garner five counters, their highest count of the year. For Varsity, Normie McClelland was the most busy engaged player of the night, turning in an effort worthy of four-star rating. His indefatigable rushes coupled with some fast sniping on the part of Captain Jimmy MacPherson, accounted for three of the goals, while "Obs" O'Brien had a regular field day with four, and giving an assist for another.

Throughout the game, Varsity made spasmodic moves which usually came to grief at the Torontos' blue line, on which occasions the rugged mercantile men profited.

BEES SEIZE LEAD  
IN MAJOR SERIES

(Continued from Page 1)  
In the last period the Royals pressed hard and were often caught flat on their ganging attacks, when a Beaver broke away but the excellent goal tending of Major kept the score down. Shipp, returning after an illness, played in the Varsity net and put in a sparkling performance.

Varsity: Goal, Shipp; defence, Driscoll, Charles; forwards, Devine, Kiehl,

Mellunham; subs, Valiquette, Morgan, McConvey, Burke, Cozzi, Bauer.  
Royal York: Goal, Major; defence, Murphy, Barnes, Barber; forwards, Bradshaw, David, Wallace; subs, McIlwain, Chiscolm, Bissell.

TRINITY MEN UNAFRAID  
OF MENACE FROM NAZIS

(Continued from Page 1)  
trying to unite their people and to bring the country back into a position of economic and armed security. W. Millyard compared Germany, as a possible source of future wars, to the other countries of Europe and tried to show that Germany is not really to be regarded as badly as she seems to be now. "We have to look at the ideas expounded in 'Mein Kampf' to get a real slant on Germany's policy," said Professor Lewis, when he arose to support the Government on the motion. "In 'Mein Kampf' Hitler says that in the next fifty or sixty years he wants a nation of 250,000,000 people enclosed in boundaries much greater than the present ones." Professor Lewis went on to point out that Germany is arming steadily and will soon be up to the other nations in Europe in standard.

Other speakers for the evening were W. J. Ruddock, Prime Minister Anderson, E. A. Reed, W. B. Reid and R. Gray.

## Coming Events

MONDAY, JANUARY 28

12.00—Jan 28th. The women's S.C.M. at Vie are beginning a series on "The Significance of Religion". The first of the series will be taken by Mr. E. L. Wasson on Tuesday, Jan. 29, when he will discuss "Science and Life".

4.30 p.m.—Women's Union. Interfaculty debate between Trinity College and St. Michael's College. St. Michael's will uphold the affirmative. Subject: "Resolved that the present censorship of the movies is eminently unreasonable." Refreshments will be served. Everybody welcome.

8.15 p.m.—Mr. S. Carr's study group on "Leninism" will recommence for spring term. Open to all interested. 630 College St.

TUESDAY, JANUARY 29

8.15 p.m.—Prof. Underhill will address an open meeting of the Student Peace Movement in the Women's Union. Ken Woodworth and Marjorie Drummond also will speak.

5 p.m.—Victoria College Dramatic Society presents "I Give, Devise, etc.", in Hart House Theatre. No charge.

9 a.m.—Arts Ball subscription lists open.

8.15—Library evening in Hart House. Mr. C. R. Sanderson, deputy chief librarian of the Toronto Reference Library will address the members on "Reading for Fun". Smoking permitted.

WEDNESDAY, JANUARY 30

8 p.m.—Hart House debate, "That representative democratic government, as understood in the nineteenth century, no longer fits the age in which we live." Debates Room.

7.30-8.30—In the common room of Cody House Dr. Marion Hilliard will speak on "Relations of Men and Women". This is the second in the S.C.M. series on the "Art of Living".

THURSDAY, JANUARY 31

8 p.m.—Commerce Club smoker (members free), Hart House. Mr. Cortland Elliot, economist of A. E. Ames and Co., formerly professor at University of Saskatchewan, Brookings Institute (Washington), and Statistical Dept. of Federal Reserve System, Smokes and refreshments.

1 p.m.—Macdonald-Cartier Club luncheon meeting in north common room. Prof. Stephen Leacock of McGill University, will be the speaker.

1.30—Vie women. There will be a meeting in the chapel for all women who expect to graduate in '36. Important.

8.30 p.m.—"Le Voyage de M. Perichon". Annual play by U.C. French Club in Hart House Theatre.

FRIDAY, FEBRUARY 1

Meds At-Home.

9 p.m.—Loretto College Annual At-Home in the Alexandra Room of the King Edward Hotel. Leo Romanelli's orchestra will furnish music.

C.O.T.C. ball, Hart House. Music by Nels Kelly and his Varsity Kampus Katz.

## CANADA ATTRACTIVE TO FRENCH SINGER

(Continued from Page 1)

ences have given her a greater welcome than in the other two countries, and said it was the warmest possible.

She says that perhaps she may enter the films, but thumbs down the idea of doing it in France until French pictures have the same calibre as elsewhere.

The French girl is so emancipated, lives so much a l'Americaine, that she found no change in type when she came over here.

As for the students, Mademoiselle Boyer says to say she likes them because they work hard, and she wants to encourage them.

From Toronto she is going on to New York and New Haven.

Burke (T) by technical K.O. after 1 minute 20 seconds of first round.

175 lbs.—Ray Jefferis (S) defeated Jack Boyd (T) by K.O. after 25 seconds of first round.

Heavyweight—Tony (Jim) Brown (S) was declared winner when Jack Pocius (T) was disqualified in the first round.

Referee—Ray Smilie.

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at either the men's office in Hart House, or at the women's office in University College. No notices will be taken over the telephone, after 6 p.m. notices must be taken to the Press Building. Notices for the Bulletin Board are limited to ONE insertion only.

### MACDONALD-CARTIER CLUB

On Thursday of this week at 1 p.m. Prof. Stephen Leacock of McGill University, will address the club in the north common room of Hart House.

### STUDENT PEACE MOVEMENT

Open meeting on Tuesday in the Women's Union at 8.15 p.m. Professor Underhill will speak. Business to be discussed.

### CHRISTIAN SOCIALISM

"Experiments in Post-War Social Reconstruction" will be the subject of a lecture given by Prof. F. H. Underhill today at 4 p.m. in Room 5, Emmanuel College.

### VARSITY SECONDS

OUT OF 'Y' RACE

(Continued from Page 1)

out a victory. Every Blue player gave a good account of himself with Meagher, Crowley, Dorsey, Vanderlick and Himel being especially conspicuous. Breardon turned in his usual starry effort for Broadview, accounting for 12 points, while Martin also played a bang-up game, sinking 11 points. Rand, Moores and Samme were also effective for the Y outfit.

Broadview: Stronach 2, Martin 11, Breardon 12, Moores 4, Samme 1, Rand 3, Breathel 1, Lunn, Carter, Mitchell and Tomlinson.

Varsity: Doran, Meagher 6, Vanderlick 4, Carey 3, Himel 2, Hogg 2, Archibald, Crowley 4, Dorsey 7.

Referee: Claire Johnson.

### VARSITY QUINTET DEFEAT TRICOLOUR

(Continued from Page 1)

sions. The Tricolour eagles made good on nine out of twenty-three free throws while the Blues sank 11 of their nineteen gift shots. To completely dominate the scoring department Varsity netted fifteen field goals to ten for Queens.

The first half saw both teams struggling along on fairly even terms, with the smart scoring plays of the Blues being matched by the sensational shooting of the Tricolour guards, McGill and Don Bews. The Varsity aggregation opened the game with a rush and held a momentary lead, but the Queen's eagles soon caught up and kept matters fairly even. During the period Phil Gold, veteran Blue defence star, pulled off the nicest play of the game to score a "dog". The half ended with the Blues 1 point up, the score being 16-15.

Both squads opened the second half with the fastest five minutes of ball seen here this season. Play switched from end to end with very little shooting being done. The Blues soon settled down to their normal pace and began raining shots on the Queen's hoop with great regularity and success. The Tricolour eagles, however, were not as effective in scoring as in the first half of the game and fell far behind. The last ten minutes were filled with a great deal of rough play. Joe Connelly was put off towards the end of the game via the four-foot route.

Led by the brilliant playing of N. Newman and Joe Connelly the Blues never faltered throughout the entire game. The whole squad played good ball all through the contest. Don Bews, Finlay and Cunningham played good ball for Queen's, with the latter sharing scoring honours with Newman.

Queen's, 29: Finlay 8, Rooke, forwards, Cunningham 11, centre; Don Bews 5, McGill 4, guards; subs, Sonshine 1, Gordon M. Bews.

Varsity 1, 41: Bodrug 4, Newman 11, forwards; Munroe 2, centre; Gold 4, Connelly 10, guards; subs, Gordon 4, Crowley, Levy 6, Mencl.

St. Michael's, 25: Griffin 1, Powers 10, Bedford 6, Miller 6, Dougherty 2; subs, Peters, Sullivan, Tubbs, Martino.

Varsity III 22: Dorsey 6, Hogg 4, Harlock 3, Cooper 2, Krakauer 5, Anderson, Denne, Green, McGregor 2, Roberts.

### LENINISM

The study group on "Leninism", led by Mr. S. Carr, will begin for the spring term tonight at 8.15 p.m. at 630 College St. Everyone interested is welcome. Auspices University Young Communists' League.

### ARTS BALL

U.C. men are reminded that subscription lists for the Arts Ball open tomorrow morning at 9 a.m. Attendance is limited to eighty couples.

### ST. JOSEPH'S LITERARY CLUB

Professor MacDougall will speak on Sir Thomas More at an open meeting of the club at 5 o'clock. Tea at 4.30.

### LET'S GO PLACES

(Continued from Page 2)

from the endless insinuations and faithless innuendos born of Hollywood. And long may we be spared them!

D.H.C.

Ramon Novarro and Evelyn Laye have an opportunity to go through an abridged version of the Student Prince plot at Loew's this week, and do it fairly well. It is the story of the prince who is not allowed to live his own life, but forced to marry some unseen princess for the good of his country. The scene is laid in Vienna, and the picture finishes up with Roman Novarro leaving the romance in his life, in the person of Evelyn Laye, for the last time, at the table of a beer garden. The censors or producers or somebody doublecrossed us, and they did not do the customary Carol-Lupescu, so the ending was very sad, causing the pinch beside us to dampen a hankie or two. However, for the most part it is bright and interesting, and the shorts are good, as usual. Some day we're going to write a paragraph on the traveltalks featured by Loew's—they're invariably interesting.

C.R.E.

Imitation of Life, now showing at the Imperial, is a fine example of the manner in which Providence preserves a good idea in spite of the efforts of mankind. The idea is to show a coloured girl who looks white learning to hate her old Mammy because she prevents her from being assimilated into the white race. The acting is so fine in spots, especially in a scene where Aunt Delilah calls for her little girl at school that the onlooker almost resents the presentation of such sordid realities. Aunt Delilah receives a rude shock when she finds that her child does not want her, because she has been brought up as a white girl.

Fannie Hurst, however, who is probably paid by the word, added in another story, of a mother and daughter in love with the same man. She also added an abundance of dialogue that is so much trite platitude. Some of her characters and their speech are as standardized as the paneque flour which brought financial success to the heroine. This story of the paneque flour really gives the film its chief claim to fame, as it was sufficient to induce a leading manufacturer to install a booth in the lobby, from which to dispense free griddle cakes and maple syrup to the customers as they passed out.

However, this writer saw fit to partake of them both going in and on coming out, and then went back to see the cartoon again. Thank you, Aunt Jemimah, for the third helping.

J.N.H.

### SCHOOL, JUNIOR U.C. WIN WATERPOLO TRIPLE HEAOKER

Hart House was the scene of three waterpolo games on Friday afternoon. Vie showed plenty of class to swamp Jr. U.C. 4-0. Jr. School took the measure of the jr. edition of the Meds by 3-0. The senior teams of these faculties fought it out to a 1-1 deadlock.

For Vie, Hay played two tallies, while Whiting and Fisher registered one each. Vie were all over U.C., showing superiority in every department of play. Jr. S.P.S. looked much better than Meds and deserved to win.

## ART, MUSIC AND DRAMA

(Continued from Page 2)

### Hart House String Quartet

The Hart House String Quartet played a superlative programme Friday night in Convocation Hall and Saturday evening in the theatre, in a truly impressive and magnificent style. The Quartet has never been heard to better advantage in Convocation Hall in this reviewer's opinion. The balance of the individual parts and the quality of tone were unusually fine.

The admirably conceived programme began with Tancieff's Fifth Quartet in A major, a composition of small proportion, strictly classical in form with comparatively simple themes. Nevertheless, the work provided the essential variety that enhanced the evening's offerings as a whole. The Presto movement bore a striking resemblance to one of Tschaiakowsky's Quartet movements, strong in rhythmic character with an underlying note of bold and curious melancholy.

The Bax Quintet written in 1914-15, has been criticized because of its unusual length but no one could possibly have felt the least suggestion of this in the strong and virile handling that Harriet Cohen and the Quartet meted out to the work. As one writer has expressed it "The interest is cumulative and if the composition is long, it is without languors. The dimensions are due to the uncommon richness and breadth of the material itself."

The work expresses an infinity of moods, but is essentially dramatic. Sometimes the suggestion of the impressionist manner of the French school is strong but more often there is the firmer grip of pertinent expression and constructive interest. The whole work is pervaded with a mist of Celtic imagery and a folk-song like quality, delicate and extremely beautiful in the song like character, and at times strongly flavoured with liturgical associations evoked by its modal character.

The concluding number was Beethoven's last Quartet. He who hears these posthumous Quartets need not be alarmed if he feels somewhat perturbed after the first hearing. They are strong food—works which raised chamber music to a pinnacle of art. This Quartet is less abstruse than the other four. D'Indy says that the Lento movement shines like a precious jewel in the midst of common materials, while Hadow compares these Quartets to Shakespeare's work in respect to their dramatic genius.

These were glorious concerts not soon to be forgotten.

F.B.S.

### Sunday Evening Concert

Having completed a notable achievement in its contribution to the student life of this University with the One Hundred Sunday evening concerts in the Great Hall, Hart House entered the next phase of its music-life with a piano recital by Viggo Kihl this Sunday evening past.

Mr. Kihl is certainly no stranger to undergraduates and graduates of the University. He has so kindly contributed to the welfare of the students in matters musical in times past and present, that his work has necessarily come under the reviewer's pen on frequent occasions. There is very little, therefore, for us to say.

The programme, for the most part, was admirably chosen, giving Mr. Kihl the widest opportunity to indulge his poetic fancy and extreme sensibility. Indeed Mr. Kihl's pianism is at all times in harmony with the music of the masters and not infrequently touching and moving to an amazing degree. Only after playing a generous group of encores would the audience permit Mr. Kihl to depart.

F.B.S.

### Friday Afternoon Recital

A recital of unusual interest was given this Friday afternoon past, in Hart House Music Room, both ensemble and programme being rather extraordinary for the series of five o'clock recitals.

The New World Chamber Orchestra, composed of String Quartet, double-bass, piano and violin, under the direction of Samuel Hershenoren, has among its ranks a number of Toronto's outstanding soloists. Their performance bespoke the gathering of true music lovers, purely for the love of music

making—not the precision of the concert group, but the buoyancy and delight that attends the recreation of music such as they played.

The programme was given over entirely to instrumental music of Mozart, that golden voiced classicist, whose music holds such wealth of melody, grace, and perfection of form. Like the 18th century it conforms to good taste and convention but there shines through the intimation of Beethoven's loftier and deeper feeling.

The three divertimenti chosen from Mozart's numerous works in this form were positively charming in content and execution. The *Nacht Musik*, originally composed for Quintet, is destined for a life of everlasting freshness and delight. It is one of the happiest expressions of Mozart's inimitable genius.

F.B.S.

## CHAMPUS CAT

(Continued from Page 2)

of the S.A.C. which are always observed by a gentlemen's agreement.

(1) *The anonymity of the President must be strictly observed.* This is observed by choosing annually somebody that nobody knows.

(2) *Ignorance is obligatory:* Not merely superficial ignorance of the matters on hand, but an artistic ignorance that is as colossal in its misconception as it is meticulous in its perversion of detail. In this way the members are absolutely unbiased when they enter a meeting.

(3) *Meetings are to be held in the lobby.* The members can in this manner meet the interested parties and decide, in a purely impulsive and unbiased manner who is in the right.

(4) *Ladies are to be seen and not heard.* An exception is made in the case of Miss Parkes.

(5) *Members are to provide a musical background consisting of a clever use of the phrases "Yes" and "Hear hear" for the oratory of the members controlling a quorum in the lobby.* This facilitates the execution of business. (Note: Care must be exercised to avoid the use of "Here here.")

(6) *Rule six is never observed, therefore we omit it.*

(7) *Nobody shall do any work.* Except Mr. Macdonald.

(8) *Nobody shall pass the buck.* In order to enforce this ruling, nobody ever accepts any responsibility, even for the opinions expressed in these columns. All members are expected to graduate upon completion of their term in office, to avoid any responsibility to their respective faculties. (Toadying is thus eliminated.)

The S.A.C. is responsible (pardon the word) for the spontaneity of enthusiasm on the part of the athletic supporters of the Rugby team, as it contributes an honorarium to the Kit Kat Klub in Montreal sufficient to pay off the cheer leader's annual cover charge. It also sells crests and University pins.

Catspaw.

### MANY ATTRACTED BY 'NEW DEAL' AT HART HOUSE

General Approval Shown, Seat  
Arrangement, Smoking,  
Courses Popular

#### SERVICE STILL SLOW

Cheerful Atmosphere Pervades  
as Students Crowd Great  
Hall

For the first time in several years, Hart House witnessed a long line of prospective customers, attracted by the "new deal" in Great Hall lunches. They waited patiently in order that they might judge the innovations.

A cheerful atmosphere pervaded the Hall which is a distinct contrast with the solemnity formerly associated with Hart House meals. That everyone approved of the choices in courses offered was self-evident. The seating arrangement allowed of greater freedom of movement, and the privilege of smoking was appreciated.

The Varsity interviewed many of the students and the general opinion seems to be that the food and the friendly atmosphere will encourage them to eat there regularly in the future; that the service is slow but will improve; that the system is a decided improvement.

Arthur J. Simpson, a resident of South House, was the first man to take advantage of the regulation allowing smoking. As he lit up his trusty briar, The Varsity asked what he thought of the changes. "Great," he replied, "I think they are a big improvement." Others at the table echoed his state-

### NEWS OF THE WORLD IN BRIEF

Ottawa—Hon. Ernest Lapointe, ex-minister of justice, yesterday demanded amendment of the B.N.A. Act, against strong opposition on the part of Hon. Hugh Guthrie, present minister of justice. A special committee is to be appointed to study this problem.

Montreal—Premier Taschereau will put a stop to the lottery scheme to create an endowment for Montreal University, on the grounds that the scheme is illegal.

Baton Rouge, La.—Senator Huey Long charged the Standard Oil Company with plotting his death. The situation is tense, with threat of an uprising against his dictatorship of the state.

Berlin—Germany's silence on the armament question continues. Rumours of secret re-armament are spreading, though no definite information is available.

London—Disorder broke out in the House of Commons yesterday when a group of spectators began shouting criticisms of the government.

Toronto—Several people were seriously injured when a bob-sled, traveling at top speed, struck an iron post at the end of the Riverdale slides. Four were taken to St. Michael's Hospital and eight others received medical attention.

#### Masthead Meeting

There will be a meeting of the masthead of The Varsity Wednesday at five p.m. in the women's Varsity office.

#### Library Evening

There must be many men who use the library of Hart House and who would like to know how to arrange their leisure reading. The Library Committee have decided to make an experiment to-night and have arranged a "library evening", when Mr. C. R. Sanderson will speak at 8.15 in the Hart House library on "Reading for Fun". Smoking will be allowed and members will meet afterwards for refreshments.

### FALLING MARKET CAUSES ALARM

Rumour of Creation of a  
National Wheat Board  
Unreliable

#### GOVERNMENT IN CONTROL

The rumour that has been circulating around regarding the creation of a National Wheat Board, is nothing more than a rumour, according to Professor W. M. Drummond of the Department of Economics. There would be little point in creating such a body, according to the same authority, for the Canadian government has at present all the control over the wheat situation necessary to carry through any policy it desires.

The falling off of Canada's wheat exports that has been viewed with alarm is partly a reflection of the general slowness of the world market. The world demand for wheat since August 1934 has been twenty per cent below the estimations of the Canadian experts, and Canada's exports have fallen accordingly. Unless there is an improvement, the government will be left with a larger surplus on its hands than it has ever handled before.

To understand Canada's wheat dilemma we must go back to the summer of 1930, when the Canadian Wheat Pool started operations. It agreed to pay the farmer on bringing his wheat

### PLANS COMPLETE FOR C.O.T.C. BALL

Many Visitors Expected to be  
Present at Colourful  
Affair

The Annual Ball of the University of Toronto Contingent, Canadian Officers' Training Corps, will be held at Hart House on Friday, February first, and will be the most elaborate of a series of very successful annual dances. The gymnasium, beautifully decorated, will present a colourful scene, as uniformed dancers and their partners trip the light fantastic to the strains of a twelve piece orchestra conducted by Nels Kelly. A bugle call will announce each dance and from the opening of the ball to "God Save the King" every possible detail that might add to the general enjoyment has been attended to.

Supper will be served in the Great Hall and the Faculty Union and it has been possible for members of the Corps to reserve tables for themselves and their guests. This will assist considerably in the complete elimination of the usual line-up for supper which has heretofore seemed so unavoidable at larger dances.

Many members of the Headquarters Staff of Military District Number Two are expected to attend, as well as a number of officers from other units. The guests will be received by the

(Continued on Page 4)

### TWO STUDENTS VICTIMS OF HIT-AND-RUN DRIVER

Students Oppose  
Entry of U.S.A.  
In League of Nations

The latest incomplete returns from the national peace poll sponsored by The Literary Digest and the Association of College Editors, show that University students are emphatically against the United States entering the League of Nations.

Thirty colleges are participating in the questionnaire and 30,000 ballots of the 325,000 sent out have been received to date.

Government control of munitions and universal conscription of industry in the event of war were strongly supported. A large majority affirmed that it is possible for the United States to stay out of world conflict. If the United States were invaded 24,291 American college students would fight and 5,408 would refuse.

### CONDEMN CENSORS AS UNREASONABLE

St. Michael's Defeat Trinity  
in Women's Interfaculty  
Debate

#### CENSORSHIP NEGATIVE

St. Michael's College defeated Trinity in the women's interfaculty debate yesterday on the resolution: "The present censorship of movies is eminently unreasonable."

"Present censorship of the movies is vague, without specifications, and too much is left to the individual tastes of the censorship board," stated Pauline Symons of St. Michael's, the first speaker on the affirmative. She defined censorship as the "supervision of morals" and based her arguments on that definition. She pointed out that the Ontario Censorship Board, of three

### REVIVAL OF GAELIC IS NOT PROBABLE

In Spite of Its Beauty the  
Language Cannot Be  
Saved

The Celtic scholar, Rev. D. M. Sinclair of Prince Edward Island, who inspired the back-to-Celtic movement, has a vision of Canada becoming trilingual and to this end, once a month conducts a service entirely in Gaelic. But according to the authorities on the subject in our University he is unduly optimistic.

Professor J. Macleod of Emmanuel College, whose native tongue is Gaelic, informed The Varsity that in his opinion Gaelic would not live as a widely spoken language.

"Gaelic has not the same opportunity as French of becoming a widely spoken language in Canada, because French was the original language of this

#### News Staff

There are a few vacancies on the News Staff of The Varsity for men, particularly men who can work on Thursdays. The News Editor will be in the office of The Varsity in Hart House between 1.40 and 2.00 o'clock today to interview applicants.

John Dix and Sadie Ansingh  
Suffer Serious  
Injuries

#### CONDITION IMPROVING

Friends at Victoria Volunteer  
Services for Blood  
Transfusions

At the time of "The Varsity's" going to press this morning, reports from the Toronto East General Hospital state that the condition of John Dix and Sadie Ansingh, Victoria students injured in an automobile accident Sunday night, was considerably improved. Hopes are now being held for the recovery of both.

At 5.10 the Hospital reported that Dix had had another blood transfusion during the night. Improvement continues gradually.

Sadie Ansingh and John Dix, the two Victoria College students who were knocked down by a recklessly driven automobile on Sunday, were reported as being in a critical condition last night. According to the official bulletin from the Toronto East General Hospital, Miss Ansingh has not recovered consciousness since the time of the accident. Dix has shown some improvement after receiving a blood transfusion and has been able to talk a little.

When word was received at Victoria that a blood transfusion was necessary, several student friends of the injured undergraduate immediately offered to give their services. It was found that a sufficient supply could be obtained from his relatives without asking for volunteers.

Neither of the two are graduates, as stated in the downtown press. Miss Ansingh is in her third year and Dix is the president of fourth year, Victoria College. By a strong twist of fate the two who are now struggling for life under the care of doctors and nurses of the Toronto East General Hospital attended a masquerade in Wymilwood a week ago as doctor and nurse, and played at taking care of the Dionne quintuplets.

### DECRIES SNOBBERY AT THE UNIVERSITY

Ex-Trinity Man Describes Life  
Here in U.S. College  
Magazine

#### DEPLORES INDIFFERENCE

A co-ed to Canadian college men is someone unlawfully placed in their midst and someone who deserves the back seat in any lecture room, states Herman C. Herring, an ex-Trinity man, in an article in the Laurentian, the magazine of St. Lawrence University at Canton, N.Y.

In his article Mr. Herring goes on to describe the favourable and unfavourable aspects of life at the University of Toronto. One of the things he objects to most is the social snobbery. He says: "Class distinction is the bugbear with which the Canadian University authorities fight an ever losing battle. If anyone should speak to you on the campus, you assume an attitude of surprise and hurry away. He must be an outsider."

"Toronto is possessed of some of the most beautiful University buildings in North America," he states, immediately going on to describe the way in which "several hundred wild-eyed

Continued on Page 4)

#### Hart House Meals

The large increase in numbers for lunch in the Great Hall yesterday shows the popularity of the various changes which the committees put into force. Arrangements have been made to increase the seating accommodation but even so the unavoidable rush between 1 and 1.30 p.m. is very great. The committees wish to emphasize that those who can do so should for their own advantage make every effort to lunch between 12 and 12.45 p.m.

### STUDENT APTITUDE TESTED IN U.S.

Although Plausible There  
Plan Unnecessary Here—  
Fennell

#### BACKGROUNDS DIFFER

The State of Pennsylvania has established a staff of experts for the purpose of gathering information about students in the upper grades of their public schools, to find out whether or not they will be able to undertake the work which the university entails. The staff inquires into their social environment, their educational career and their scholastic abilities.

A. B. Fennell, Registrar of this University, when interviewed by The Varsity on the subject, stated that while such a scheme was quite plausible, in fact, practically necessary in the United States, the conditions did not exist here which made such a step essential.

There is obviously a great difference in educational background; universities in the States have found as many as 30 per cent of their students totally unfit to continue their studies after the first term. The proof that Ontario's system is satisfactory lies in the fact that not more than 20 per cent of the students in this University fail in their final examinations at the end of the first year.

#### DELEGATES TO REPORT ON ANTI-WAR CONGRESS

Committees Will Be Appointed  
to Arrange for Canadian  
Congress

"Why a Student Peace Movement and What it Can Accomplish", will be the topic of an address before the meeting of the Student Peace Movement (formerly known as the Anti-War Society) tonight in the Women's Union.

K. C. Woodsworth and Miss Marjorie Drummond, recently returned delegates to the World Student Anti-War Congress at Brussels, will report briefly upon their experiences and will demonstrate how the Congress impressed upon them the urgency of an effective peace movement here.

The various committees on resolutions, billings, credentials, will be appointed at this meeting to arrange for the forthcoming Canadian Student Anti-War Congress which is to be held here soon under the auspices of the Student Peace Movement on this campus. The committee preparing the first issue of the Movement's anti-war magazine will also make its report.

#### Varsity Party

The spring informal party of The Varsity staff will be held this Thursday in Malloney's Art Galleries. Lists are now up in both offices, and must be signed immediately.

### VARSITY BEAVERS HELD TO DEADLOCK BY FIGHTING RDYALS

Speedy Pucksters Keep Hard  
Pace in Overtime  
Game

#### SEVERAL PENALTIES

Result Leaves Blues Still  
Battling for Playoff  
Position

By J. F. Futhey

The fast-travelling Varsity Beavers eked out a 2-2 deadlock with Royal Canadians at the Arena last night in an exciting tussle which lasted ten minutes over the regulation time. The game was fast and wide open with both net-minders getting in plenty of agile adagio steps.

The Blues' starting line commenced operations at a very rapid gait and although they had Cary rather flustered on several occasions, could not push the rubber past him. The Royals became organized after Varsity's opening onslaught and Johnson rapped in Nicholson's rebound, at the 10 minute mark. Shipman didn't have a chance on the drive.

The Blues still kept up a withering pace, but just couldn't click around the goal-mouth. The period ended with a lot of slap-stick scuffling in the centre ice zone which didn't get either team

### PARLIAMENT TO DEBATE DEATH OF CHIVALRY

New Prime Minister in U.C.  
to Uphold Resolution  
Thursday

That "Chivalry's Dead as an Ethical Law: Agnes MacPhail was the Last Straw", will be the resolution upheld at next Thursday's meeting of the U.C. Parliamentary Club, by that Byronic veteran of many parliamentary skirmishes, the Rt. Hon. W. G. Stobie. He will uphold it, that is, if Premier Israel Kaplanky continues ill.

This year has made history in that, after a record administration of five meetings by a freshman Prime Minister, another freshman should immediately succeed him. No freshman prodigy will succeed Mr. Kaplanky; instead the next premier will be that grizzled parliamentary hand, Mr. Mervin Minsky. He, meanwhile, is the watchful Leader of the Opposition.

### MEMORIES

JANUARY 29th.

1925—Life-saving classes in Hart House pool were startled by the sudden crash of a stray water-polo ball which broke through the roof of the pool.

1927—University College Arts Ball.

1928—Four more cases of mumps were reported from Annesley Hall, bringing the total in the city to 1187 cases.

1928—Arts Ball.

1929—J. R. Gilley, B.A.Sc., comptroller of Hart House, contended that sandwiches could not be sold in the Tuck Shop for 5c because there was 10c worth of ham in them.

1932—Varsity's basketball squad defeated Queen's 21-19 in an overtime game, the first to be played in "the magnificent Triebold gymnasium."

1933—Medical At-Home.

1934—Registration cards demanded from all persons entering Hart House.

## Gentility and Organization

Women are the gentler sex, to be cherished and protected, to be isolated from hardship and drudgery, to be fed on peaches and cream or something, and sit on a cushion and sew a fine seam. That is what we learn in our earlier years; that is what we spend the rest of our lives unlearning. For when we look at the women around us we see that very few of them are cherished and protected, very few do sit on a cushion and sew a fine seam—relatively speaking.

Instead we find them in factories, in offices, in hospitals, in schools. And nowhere, where they have entered in the productive life of the world are they treated as "the gentler sex", but are accepted as so many machines in the great industrial plant.

Instances of this injustice (for want of a better term) might be quoted from every line of activity—from the lowest factory work to the most genteel secretarial position. But we find a rather curious situation in existence. For the female factory workers there are on the statute books of Canada, laws regarding minimum wages and maximum hours. (That these regulations are not fully enforced is a vast question in itself, and cannot be considered in the present argument.) For the finer occupations—office work: there is a minimum wage (which is more flagrantly violated than the factory laws) but no maximum hour regulation; nursing, teaching, social work, secretarial work, can boast of an unsmirched slate.

Recently a downtown Toronto newspaper carried a small item to the effect that reform was being considered in the hours and wages of nurses in Canadian hospitals. What caused this indirect interest? The factory regulations were passed following definite organization (and agitation) of the factory workers. There has been no such organization amongst the professional workers. Why?

University women will be faced with these problems before long. Some of them (many, we hope) will enter the professional ranks. They will find themselves for the first time, cut off from the peaches and cream they are used to, and faced with long hours of fatiguing work, unpleasant conditions and low wages. Will they bring to their work the traditions that they are brought up on—vague unformulated ideas of what is, and what is not done by "genteel folk"? Will they consider it beneath their dignity to get together—yes, organize—to discuss their problems amongst themselves, and to seek a solution through arbitration with their employers? Will they be scared off by the "red bogey of Communism" that has become attached to "organization", and suffer in quiet, till some kindly outsider stumbles on their troubles and considers reform?

## What We Want from Hart House Theatre

Recently there has been discussion about Hart House Theatre in particular and the Little Theatre movement in general. Articles in magazines and newspapers have taken up a battle which *The Varsity* has been fighting for years.

Hart House Theatre built up an enviable, international reputation when it was first opened under the direction of Roy Mitchell and Bertram Forsyth. Since then it has been consistently becomingly bad until this year, when we have been presented with such lamentable productions as "The Man with a

Load of Mischief" and "The Piper". What has happened is that Hart House Theatre has steadily veered off the path of the Little Theatre movement and has tried to compete in the open market of professional entertainment. This is not the role of a Little Theatre. Amateur production cannot be expected to win the confidence of the public when they are comparatively unfinished and unattractive. We want from such a theatre as we have, something new, something original—in all, we want a contribution to the modern theatre. This is not impossible. Mitchell and Forsyth did it—and packed the theatre. They produced plays considered unsuited to the commercial theatre and gave them new life. The scenery and costumes were experiments—and experiments, which were, for the most part, successful. People went to see something different and saw it.

Little Theatres in the United States and Europe are largely responsible for the rejuvenation of the modern theatre. If it had not been for experiments, we should never have been the beneficiaries of Urban, Reinhardt, Baker, Eugene O'Neill, Sidney Howard, so on and so on. All of which constitutes an answer to a columnist in a downtown paper who seems to claim that the theatre should be the hallowed ground of only those with an Equity card (any professional).

In all this there is the due to what we want from Hart House Theatre. We do not want ordinary, amateur performances. We do want to see people with imagination play with their dreams and give us some new thrills in the theatre. We do not want to see plays poorly done which we could see done better by professionals. We do not want to see ordinary plays done on stages which are described in the front of a player's manual. We do want to see plays which are progressive, which are original, which definitely add to experience.

We want to see plays which we would sincerely regret missing. We want to see them staged with care and artistry and to see something which we have not expected. We do not want to see scenery built to specified plans found in ordinary books, we want to see it created by an artist who knows what the play requires to make it an artistic success.

Such are the requirements for a Little Theatre of importance. We want Hart House Theatre to be part of this movement. We want to maintain the tradition left by Mitchell and Forsyth, which means that we want Hart House Theatre to be worthy of the reputation it has in "far-off fields".

## The Student Peace Movement

According to recent notices the campus Anti-War Society has been born again under the name of the Student Peace Movement. This interesting development, together with the news reports of the recent World Congress, reminds us of the hectic discussions that centred around the choice of a name when the organization first appeared.

The main point of dispute seemed to be about "Fascism". Many of the original members held decided views on the relationship between war and fascism. The usual slogans about "the twin evils", the "inevitable drive towards war and fascism", "fascism the organizer of war", were bandied about, especially by the more radical element of the organization. But the majority of the membership could not be convinced, and in the interest of immediate and ultimate peace, the name, "The Student Anti-War Society", was chosen.

At the time we favoured the majority. We reasoned that war is a question of markets, greed, imperialism; and fascism is a system of government, with which Canada with its Parliamentary tradition, would never be concerned. And also, it was going to be difficult enough to convince the students of the necessity of fighting against war without dragging in something that would necessitate a great deal of study and explanation, and had such a foreign sound!

One year makes a difference. Perhaps through further study or argument, definitely through the influence of John Strachey's lecture, we have the profound conviction that a general tendency towards fascism is unmistakable, and fascism means—war.

It is with genuine consternation then that we see that instead of adding an anti-fascist plank to its platform The Anti-War Society has become The Student Peace Movement, an innocuous, nebulous, wishy-washy business at best.

The reason for this surprising development would seem to be, that under such a name more students can be attracted and won over. May we suggest to the leaders of the organization that they are meddling with a two-edged sword and that in their attempt to reach wider groups of students they will eventually find themselves with a movement, no matter how widespread, which is incapable of tackling the basic problems at hand.

## ART, MUSIC & DRAMA

### Victoria Dramatic Society

This afternoon at five o'clock the Victoria College Dramatic Society will present the second in their series of one-act plays in Hart House Theatre. The play this afternoon is an original one written by one of the Society's own members, George B. Johnston, and is entitled *I Hereby Give, Devise, Etc.* The play depicts the attitude of a particular young man to the opportunity of acquiring a great deal of money and portrays the reactions and attitudes of relatives also implicated, thus providing the basis for the comedy. It relies chiefly upon dialogue and characterization for its effect.

A cast of ten will produce the play under the direction of Elizabeth Boylen, a star player of the Society's past productions.

### Eaton Art Gallery

Three young Canadian artists are exhibiting this week at Eaton's College Street, some very fine and very original work. There are wood-cuts by W. F. G. Godfrey, color prints by Leonard Hutchison and etchings by Woodruff Ackroyd. Each of these men is a master of his respective media and each of them has something to say. Mr. Godfrey's wood-cuts are very fine examples of a bold, simple and sincere use of a very difficult medium. His most fortunate studies are landscapes, each of which shows a fine feeling for design and sharp contrasts of black and white.

Leonard Hutchison is one of the few Canadians to use the colour wood-block as a mode of expression. His work has much of the fine qualities of the Japanese colour print and yet still retains a very original feeling. His colours are exquisitely shaded and composed. Though not so subtle a master of this art as W. J. Phillips he is an outstanding worker in this field in Canada.

Woodruff Ackroyd is a very fine etcher and an excellent architectural draughtsman. His prints show a remarkable faithfulness to detail, especially his studies of European buildings. His work lacks a feeling for contrast, light and shade or dramatic feeling but as architectural documents they are very interesting.

Miss Marion Long and Miss Clara Hagarty are also exhibiting some paintings in oil. Miss Long has some very interesting studies of Toronto streets and buildings and Miss Hagarty is showing more of her uniformly sweet flower studies. A.H.J.

The most recent production of the Hart House Theatre Players was coyly advertised:

"A Murder Has Been Arranged, to take place in Hart House Theatre, Students Half Price."

C-C  
We must confess we lost faith in the U.C. Guild for omitting to follow this brilliant example, by running a streamer:

"Hendrick Ibsen's (roasted) Wild Duck will be served in Hart House Theatre, Student's Half Price (you bring the ducks)."

C-C  
The Duck, of course, would be roasted by the critics.

Speaking of Sport, as they sometimes do across the page, we refer you to several interesting items in Saturday's Mail.

Item A: Mickey McGuire's Most Sensational Knockdown.

Item B: The announcement, with photos, of the engagement of a young lady graduate of this University, and rumoured to be Mickey (Himself) McGuire's girl friend.

Item C: The name thus tenderly linked to that of the young lady.

Item D: It isn't that of a local sportswriter.

C-C

There is a very worried gentleman wandering about from class to class, these days, down at Dentistry.

A week ago Sunday evening he accompanied three other people on a visit to a Spiritualist Church out Bathurst way. Jumping right into the spirit of the thing, the four newcomers to the faith used all their powers of concentration on the medium so that she might bring each of them a message. The lad from II Dents was, however, the only one to penetrate to the spirit land and the medium gravitated down the aisle to where he was seated in the audience. Then came the voice from the beyond.

"Right now you are taking everything easy (quoth the medium). Soon, however, you will find a great deal of work to do. In the spring you are going to be very busy."

C-C

The gentleman from Dentistry doesn't know whether to go back or not. She might be able to give him a look at a newspaper for some day about the middle of next June.

C-C

To take a shot at this spirit stuff myself, we prophesy that his results will be neither good nor bad. Just medium.

—The Muddy Yorker.

## PEACE IS LEAGUE'S AIM DECLARES McDERMOTT

"No Crank's Dream," He Claims in Address to Youth Movement

"The League of Nations is no crank's dream, nor is it the work of fanatics. Peace is not desire for international slumber or tepid life, nor desire to get out of fighting in the next war," stated Dr. T. W. L. McDermott at a meeting of the Youth Movement, League of Nations' Toronto Branch, at Ridpath's Art Gallery on Saturday evening.

"It looked as though the primary object of the League had failed," continued Dr. McDermott. "But the Saar episode was a situation full of dynamite, intimately bound up with the internal politics of Germany. The League made it possible to hold a fair impartial vote with security. The Jugoslavian question was also very dangerous—possibly the makings of another European conflagration."

(Continued on Page 3)

## STILL IN A CLASS BY THEMSELVES

Smokers of the early 1900's preferred Sweet Caporal Cigarettes because they were the best Virginias it was possible to manufacture in those days.

To-day, Sweet Caporals are still in a class by themselves. The choicest tobaccos money can buy plus 1934's improved methods of manufacture have made them outstanding leaders. And the younger set have discovered what their elders

long knew—that Sweet Caporals are better cigarettes and milder. You're missing a lot if you're not smoking them.

"The purest form in which tobacco can be smoked."

## THE SPORTSWOMAN

By M. A. F.

Perhaps it is just as well there were no games last night as the snow during the late afternoon might have made the puck just as elusive as it was in Friday night's contest. But at any rate we are humbly apologetic for stupidly referring to games as due to come off yesterday when 6 o'clock tonight is the scheduled hour. Something slipped somewhere and we were quite sure yesterday was January 29!

Quite definitely at 6 p.m. this evening St. Mike's are the guests of U.C. at the Varsity Rink and Vic I are receiving the Meds pucksters at the Little Vic cushion. The turnouts so far have been fair but there could well be a lot more supporters. How about making the effort?

There has been another change effected in the hockey schedule. The match called for 7 p.m. Friday, February 1, will come off on Thursday, January 31 at the same hour. It will still be a St. Mike's home game although the hour during which it is played is ordinarily the practice period of the guest team, St. Hilda's. The Saint Hildians have asked for this change since several of them are going to be busy with "Berkeley Square," the Trinity play, on Friday night.

The first practice of the senior intercollegiate basketball team was run off last night. The girls were given a real workout, and there certainly is some A1 material among the nine basketballers selected. Of course since this was their first experience in playing together their performance was by no means perfect, but we are hoping for big things from them.

It is interesting to note that four of the players on this senior aggregation played with the St. Hilda's intercollegiate champions: Edie Ardagh, Mary Carre, Enid Palmer and Kay Grubbe. Four others were with the U.C. runners-up: Kay Brown, Eugene May, Billy McGarry, and Lorna Reid. Marion Bernhardt is the one Scarlet and Gold representative in the group.

## Jr. Meds Outclass St. Mike's Squad

Fast Basketball Featured by Both Teams; Play Loose and Rough

### MANY FOULS

In a fast played basketball game yesterday afternoon in the upper gym of Hart House the flashy Jr. Meds squad outclassed St. Mike's, to win by the score of 27 to 14. Meds took the lead from the start but the close checking by St. Mike's kept the score low. Towards the end of the first half a basket and a couple of foul shots gave St. Mike's the lead, the score at the end of the half being 7 to 6.

In the second half the Doctors again took the lead and were never headed. Basket after basket was scored by the Meds team and the play became very loose and rough, so that in the last five minutes of play no less than eight fouls were called.

S. Wise and Fenner with 5 points each, and Zarsky, Wales and Metzler with 4 each were best for Jr. Meds. Neill with 4 points, was the high man for St. Mike's, followed by Cerame, with 3 points.

St. Mike's: Nally, Cerame, Brigger, McGivern, Harris, Kaufman, Dooley, Dailey, Fufaro.

Jr. Meds: S. Wise, Barret, Cash, Fenner, Zarsky, Newton, Crockower, Cork, D. Wise, Laski, Wales, Bondo, Epping, Metzler.

Referee: J. Forsythe.

## Women's Sports Staff

Important meeting of the women's sports staff at 1.30 today in The Varsity women's office. Every member MUST attend.

## VIC TRIM JR. S.P.S. U.C. BEAT FORESTRY

Two Swift Games Yesterday in Interfaculty Hockey Series

### FEW SPECTATORS

The interfaculty hockey games yesterday afternoon produced lots of action and goals but very few spectators. The fast-moving Victoria team easily trimmed Jr. S.P.S. 8-1 in the Arena, while outside in the wind-swept rink the U.C. squad of puckchasers were good enough to take a 4-2 decision from Forestry in a good old fashioned game of shinny.

Victoria presented a smooth-working team that completely outclassed the spunky squad of youngsters representing Jr. School, and only some brilliant saves by Hemphill, the School goalie, prevented a larger score. Vic's second line of Gregory, Grover and Joblin played brilliant hockey, nicking four goals, two by Gregory and one by each of the others. Pratt, Monzon and Saunders were the other goal getters for Victoria, the last-named scoring twice, in addition to playing a strong game on defence. All the School team battled hard, with Upper and Haymer being the most effective.

U.C. and Forestry had to resist the elements as well as each other, and the whirling snow certainly did not improve the game, which was an exhibition of rather ragged hockey. U.C. were too good to be hard pressed. Keith, with two goals, was a standout for U.C. Fowler and Reiley each helped the cause by scoring once. Grier and Johnston were the goal getters for Forestry.

Junior S.P.S.: Goal, Hemphill; defence, Upper, King; forwards, Hayner, Woods, Walton; subs, Breaker, Ford, Smith, Stroud and Clements.

Victoria: Goal, Dickie; defence, Wainwright, Saunders; forwards, Monzon, Pratt, Lavry; subs, Gregory, Joblin, Morrow and Grover.

University College: Goal, Blot; defence, Morlock, Evans; forwards, Keith, Thompson, Harwood; subs, Fowler, Self, Rielly and Hall.

Forestry: Goal, Larson; defence, McConnell, Greer, Johnston; forwards, Dier, Reynolds; subs, Mundy, Cowan. Referee: Poupore, Sweeney.

## Emmanuel Victors In Baseball Tilt

Wycliffe at Losing End of a 14-3 Score; Winners Score Each Inning

### MARTIN STARS

The Emmanuel nine bolstered by a number of Victoria's former stars, gave Wycliffe a sound 14-3 drubbing in the big gym in a scheduled interfaculty baseball game.

The winning theologs scored in every inning, driving four runs across in the initial frame, 2 in the second, 2 in the third and put the contest away when they bagged five runs in the fourth. Martin, lead-off man for Emmanuel, was the star of the game, scoring four runs in four trips to the plate.

Wycliffe: Fairweather, Emmett, Chevis, Morissey, Kaminsky, Ruch, Newton-Smith, Huether, Simmonds. Emmanuel: Martin, Moffatt, Young, Crosby, Amos, Dyke, Taylor, Birtch, Husser, Shaw.

Umpire: Bert Barnes.

## SPEAKING OF SPORT

By B. J. McGuire

The Winnipeg Monarchs, a road weary crew of hockey players, many of whom were playing their best hockey several years ago, are the new champions of the world. And the world champions were crowned in the thriving hockey metropolis of Davos, Switzerland. Winning world championships is really an achievement, and the Monarchs deserve to be congratulated. They should also be congratulated on their foresight in seeking fields afar in search of titles. Should they have remained in Canada their titles would have been limited to the group variety, and even then they would need some luck. As far as a world title goes, there are dozens of teams in Canada who would spot them several goals and then deprive them of any title to which they might aspire.

Just why world hockey titles should be decided in Switzerland, several thousand miles from the centre of the hockey industry, is a problem. Probably the European promoters, like the local wrestling promoters, feel that a world's championship match is worth more at the box office than the ordinary garden variety of hockey games. The situation is rather absurd and an exhibition match between the Allan Cup winners and the World Champion Monarchs would throw considerable light on the capabilities of the Winnipeg team in relation to world's hockey supremacy.

The hockey situation around the campus is still lacking in everything which might be construed as brilliance. Tonight the victory-starved Blue team met Port Colborne, but as far as Varsity is concerned the result makes no difference whatever. Saturday evening the intercollegiate series opens with the Redmen visiting the local arena. This series comes in the nature of a second chance as far as Varsity is concerned and while the records of the two teams to date is all in favour of McGill, the Blue team may come through. In any event it should be a good game.

Wednesday night will see the first brigade of the interfaculty B. W. and F. men go into action. This year the meet should not be dominated by the O.A.C. battlers, as the Aggies have obtained permission to enter the senior intercollegiate meet. This means that their first string men, or intercollegiate team, are not eligible. But the Varsity first string men will be competing, fighting for a place on the team. All of which would indicate that the beams are loaded against the Aggies as far as winning the interfaculty again this year is concerned.

Looks like Dynamite Dunn's fight.

## RENAISSANCE SCHOLAR HAS MODERN INFLUENCE

Sir Thomas More's Career Discussed in Relation to the Present

The career of Sir Thomas More, treated in relation to modern trends of thought, was the subject of an address by Professor T. J. McDougall, delivered at an open meeting of St. Joseph's Literary Society yesterday afternoon. Professor McDougall spoke of the attitude of this renaissance intellectual, whose 400th anniversary is being celebrated next July, towards the then incipient idea of economic individualism, towards liberty of religious thought, and towards nationalism as opposed to universalism. He illustrated how, after 400 years, we are now realizing the evils inherent in the ideas against which Sir Thomas More protested.

"Sir Thomas More did not hesitate to criticize abuses within the church," stated Professor McDougall. "In fact, on that account he has often been mistaken for a protestant reformer who went wrong at the last moment. But at the same time he clung to the idea of an universal Christendom which was real and existed in tangible institutions, and for which he sacrificed his life."

Professor McDougall portrayed Sir Thomas More as "one who saw what was good in the past and appreciated what was valuable in the future, and who was able to amalgamate the two."

There is two things in this life for which we are never fully prepared, and this is twins.—Josh Billings.

## NEW CRAFTS ROOM AID TO ART WORK

Two Years' Efforts Culminated with Establishing of New Abode

The opening of the Crafts Room adds to the facilities of Hart House a new feature which has heretofore been lacking. The Sketch Room was included in the original plan of Hart House with the hope that it would provide for the practical side of the fine arts as well as for exhibition purposes, but in the passage of time it came to be used almost exclusively as an art gallery, although an art class still holds weekly meetings there.

For the last two or three years the efforts of the Sketch Committee to establish a Crafts Room have been hampered by the lack of a suitable location. This practical difficulty was overcome when the space adjoining the photographic dark rooms became available. The Massey foundation showed great interest in the project and provided a grant for painting, lighting and equipment, including an etching press.

Every Tuesday and Thursday at five o'clock Mr. Carl Schaeffer will act as instructor. All members of Hart House who are interested in etching, linocuts, modelling, wood-carving and water-colours are invited to take advantage of this opportunity. A small fee is levied to cover cost of material, equipment and key deposit.

"The fascist loves his neighbour—but with differences."—Benito Mussolini.

## "THE" PARTY OF THE YEAR FOR ONLY \$4.00

Including Tax

"The Lantern" solicits your patronage on the basis of a wonderful variety of fresh, tastily prepared foods:—Soup, Meat, Fish, Salads, Vegetables, Desserts, all carefully selected and prepared under the supervision of Mrs. Ann Nicholls. Here you may enjoy your meals in the most cheerful surroundings and you will be agreeably surprised at the small amount of your check.

## THE LANTERN TEA ROOMS

6 WILCOCKS STREET

Make reservations for Dinners and Parties.

## VARISITY BEAVERS HELD TO DEADLOCK

(Continued from Page 1)

anywhere. The middle stanza opened fast and became faster when Douglas was penalized. Varsity put on a five man offensive and proceeded to make things hot for Cary. Devine broke through and blasted one which stopped at the goal-mouth. McIlquham rapped in and poked it in, evening the count. Thirty seconds later Kieff lifted a high one into the corner of the twine on a double pass from Devine and McIlquham.

Douglas returned from his sojourn and was immediately waved back to the Bastille for boarding Kieff. The Blues played five men up and bombarded Cary for two minutes but could not score.

The final canto had barely commenced when Adams drilled one by Shipman during a scramble near the Varsity citadel. It was rather a fortunate tally. The Royals were dispensing some robust checks during this period and Varsity appeared to be tiring. The Blues were putting on some dangerous rushes, however, and with any luck should have scored. The Royals had the better of the play for the final few minutes and rained rubber at Shipman on several occasions, but the Varsity goalie was invincible.

The overtime struggle was not very exciting as both teams were exhausted. Royal Canadians put on the pressure during the final five minutes but Shipman was just too good.

The game was wide open all the way although a trifle disorganized in spots. Shipman and Devine were Varsity's best. The result leaves the Blues still battling for a playoff berth.

Royal Canadians: Goal, Cary; defence, Boston, Nugent; forwards, Johnson, Nicholson, Selkirk; alternates, Hamilton, Adams, Douglas, Max, McKay, Burton.

Varsity: Goal, Shipman; defence, Campbell, Driscoll; forwards, Devine, Kieff, McConvey; alternates, Morgan, McIlquham, Sweeney, Seagram, Bauer, Disher.

## DUNCALFE TO ADDRESS ASTRONOMICAL CLUB

Popular Fallacies Regarding Phenomena to be Discussed

H. G. Duncalfe will address the regular bi-monthly meeting of the Royal Astronomical Society tonight upon the subject, "Some Popular Fallacies Regarding Natural Phenomena: the Moon, the Rain, Law, etc." The meeting will be held in the Physics Building at eight o'clock.

Questions relative to the expanding universe and the measurement of star diameters will be dealt with by several of the members. Later discussion will be invited on the subject matter of the paper or other astronomical subjects. Miss E. J. Allen, M.A., Ph.D., research worker and demonstrator, University of Toronto, will show interesting experiments on "Exploding Atoms"—Recent Investigations of the Structure of the Nucleus, at the next meeting, Tuesday, February 12th.

The Society issues a monthly journal, containing papers presented to the Society, astronomical phenomena and other interesting features. All publications are free to members. Membership is open to all those interested in astronomy or astronomical physics, on the payment of an annual fee.

## Sport Notices

**Sr. U.C. Baseball**—  
Game today with O.C.E., 4 p.m.  
Everybody out.

**University Volleyball**—  
Practice today in upper gym from 5-6.

**Intercollegiate Waterpolo**—  
Both junior and senior games to be played tonight at Hart House pool, starting sharp at 8 o'clock.

Junior: Kingsberg, Charters, Walker, Frazer, Beatty, Burrows, Dilworth.  
Senior: Murphy, Devitt, Trimble, Bancroft, Hooper, Culner, Stratton.  
Anyone who can't make it please notify Eng. Soc. office before 12 noon.

**Senior Interfaculty Assault**—  
Wed. and Thurs. Jan. 30 and 31.  
Entries must be in by Tuesday at five-thirty o'clock. Weighing in Wed. from 10 o'clock till 12 noon.

**Indoor Track**—  
All those interested be out at 5.15 p.m. sharp Tuesday, Jan. 29, for the following events of the interfaculty indoor track meet: 1 mile, shot put, 220 yard dash.

**Basketball**—  
Varsity junior and intermediate basketball teams will play a double-header in the gym this evening starting at 7.30. Admission free.

## PEACE IS LEAGUE'S AIM

(Continued from Page 2)  
The problems of colonies and minorities, and humanitarian and frontier matters such as drugs, have political repercussions which keep up the friction which leads to war. The League has so far kept war aside, and we are thus free to analyse and formulate a policy.

Canada has not had a peace policy, but is on the threshold of getting one now. This country should pursue a formulated and integrated peace policy while suspending and exercising judgment. We in Canada spend our time discussing tariffs and unemployment, yet if these questions were satisfactorily settled, the entire benefits would be wiped out in the event of war. We do not sufficiently discuss international affairs.

Courage which can face the defeat of a life of good will and yet crave forgiveness for an angry mob, because ignorance has no light, is victory, if that fine word has any meaning at all. —H. M. Tomlinson.

#### PLANS COMPLETE

FOR C.O.T.C. BALL

(Continued from Page 1)  
Officer Commanding, Lt.-Colonel J. R. Cockburn, M.C., and the Honorary Colonel, President H. J. Cody, assisted by the patronesses, Mrs. H. J. Cody, Mrs. T. R. Loudon, Mrs. H. H. Madill, Mrs. W. S. Wilson and Mrs. M. B. Watson.

Tables for parties of three or six couples may be reserved up until Wednesday, *The Varsity* was informed.

#### RADIO DEBATE SET FOR NEXT FRIDAY

The next intercollegiate radio debate will take place next Friday evening. The University of Toronto will take the negative side of the topic, "Resolved that Canada can never be a nation, so long as we have separate provincial governments," and the University of Western Ontario will take the affirmative. Dalhousie University will defend the negative in a debate on the same topic against McGill.

**Have You Lost Anything?**

**ROOMS**  
Students will find comfortable, well heated rooms, either single or double, reasonable rates, at 596 Spadina Avenue. With board optional. Meals nicely cooked and well balanced. A pleasant home-like place to stay. Ask any of the boys who live there. Telephone KI. 6270.

#### Coming Events

**TUESDAY, JANUARY 29**  
4.30 p.m.—Women's Press Club, original work meeting. Tea at 4.30.  
8 p.m.—Philosophy Club in Women's Union. A paper will be read. Discussion and refreshments.

5 p.m.—T.I.C.C.U. meets in the Blue Room. Wymilwood. Speaker, Miss E. M. McCarthy.

8.15 p.m.—Prof. Underhill will address an open meeting of the Student Peace Movement in the Women's Union. Ken Woodworth and Marjorie Drummond also will speak.

5 p.m.—Victoria College Dramatic Society presents "I Give, Devise, etc.", in Hart House Theatre. No charge.

9 a.m.—Arts Ball subscription lists open.  
8.15—Library evening in Hart House. Mr. C. R. Sanderson, deputy chief librarian of the Toronto Reference Library will address the members on "Reading for Fun". Smoking permitted.

**WEDNESDAY, JANUARY 30**  
8 p.m.—Hart House debate, "That representative democratic government, as understood in the nineteenth century, no longer fits the age in which we live." Debates Room.

7.30-8.30—In the common room of Cody House Dr. Marion Hilliard will speak on "Relations of Men and Women". This is the second in the S.C.M. series on the "Art of Living".

**THURSDAY, JANUARY 31**  
5 p.m.—At the Women's Union, Dr. Gwen Mulock will speak on "Eugenics, and the Individual Responsibility" to the women of University College.

4.15—Meeting of M. and P. Society. Two papers to be given on "The Adler Planetarium", and on "The Setting of Fairer Examinations." Refreshments. Members please turn out.  
8 p.m.—Commerce Club smoker (members free), Hart House. Mr. Cortland Elliot, economist of A. E. Ames and Co., formerly professor at University of Saskatchewan, Brookings Institute (Washington), and Statistical Dept. of Federal Reserve System. Smokes and refreshments.

1 p.m.—Macdonald-Carter Club luncheon meeting in north common room. Prof. Stephen Leacock of McGill University, will be the speaker.

1.30—Vic women. There will be a meeting in the chapel for all women who expect to graduate in '36. Important.

8.30 p.m.—"Le Voyage de M. Perrichon", Annual play by U.C. French Club in Hart House Theatre.

#### DECRIES SNOBBERY AT THE UNIVERSITY

(Continued from Page 1)  
Raphael's will wreak their vengeance by spreading fifty dollars worth of paint on their rivals' building.

He also says that instead of being elected to class offices by the influence of the fraternities which he states are non-existent, the candidates are elected on "worth and a lot of candy and cigarettes." When on the topic of elections he goes on to describe Hart House, about which he is very enthusiastic. He deplores the lack of interest shown by the student body in the theatre, which is attended mostly, he states, by the outside theatre-going public. In fact, his chief criticism of the Canadian student is the lack of enthusiasm shown toward all the activities. He describes the "tea parties known as organized cheering sections." Football or rugby as they call it, attracts possibly twenty-five per cent of the student body. Basketball may arouse the go-and-see instincts of five per cent. Hockey, the national game, may be represented by a mere ten per cent. No one goes to the boxing or wrestling meets but the combatants. That is spirit as evidenced by 'Canuck' students.

"Nevertheless there is something quite intriguing about the whole matter of life in a University of this kind. Very little is known about the whereabouts of anyone besides the small group to which you belong. There is a great deal less of the petty gossiping and scandal-searching element."

#### BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at either the men's office in Hart House, or at the women's office in University College. No notices will be taken over the telephone, after 6 p.m. notices must be taken to the Press Building. Notices for the Bulletin Board are limited to ONE insertion only.

#### RIFLE ASSOCIATION

Don't miss the spoon shoot this week. Groups have been rearranged and two or more prizes will be given in each House range tonight. Team members group if enough shoot. Match at Hart please note.

#### LIBRARY EVENING

Members of Hart House are reminded that the Library of the House will be open tonight for an informal "Library evening". Mr. C. R. Sanderson will speak on "Reading For Fun", followed by informal discussion. Smoking will be permitted.

#### T. I. C. C. U.

Tuesday, January 29th, 5 p.m. The Toronto Intercollegiate Christian Union meets in the Blue Room, Wymilwood. Miss E. M. McCarthy will speak on "Missionary Enterprise in Korea."

#### MEDS S.C.M.

Prof. J. D. Ketchum of the psychology department will address the group at 5 p.m. today in the S.C.M. library.

#### ORIENTAL SOCIETY

The first meeting of the Eastern term will be held this evening at 8.00 p.m. at the home of Dr. W. R. Taylor, 223 St. Lawrence Ave. Mr. G. Brown will give an interesting paper on recent archaeological discoveries in the Near East.

#### STUDENT PEACE MOVEMENT

Prof. Underhill will address an open meeting of the Student Peace Movement at 8.15 p.m. in the Women's Union, 79 St. George St. Ken Woodworth and Marjorie Drummond will also speak. Students and members of the staff welcome.

#### VIC DRAMATIC SOCIETY

Members of the Victoria College Dramatic Society who are planning to attend the annual At-Home to be held next Saturday evening are asked to inform the executive at once. Members are also advised that all membership fees must be paid prior to this event.

#### U.C. PARLIAMENTARY CLUB

Thursday, January 31, 1935, 4 p.m., Junior Common Room. Joint debate with Trinity. Resolved: "That Chivalry's dead as an Ethical Law: Agnes MacPhail was the Last Straw." Speaker, Rt. Hon. N. M. Pivnick; Clerk, Hon. H. Buck; Premier, Rt. Hon. I. Kaplansky; Acting Premier, Rt. Hon. W. G. Stobie; Leader of the Opposition, Hon. M. Mirsky.

#### AT FIVE O'CLOCK

The Victoria College Dramatic Society presents "I Herby Give, Devise, etc.", an original one-act play, by George B. Johnston, directed by Betty Boylen, in Hart House Theatre this afternoon at five o'clock. All students welcome. No charge.

#### PHILOSOPHY CLUB

The Philosophy Club will meet at 8 p.m. tonight in the Women's Union. A paper will be read and discussed, after which refreshments will be served. All those interested in joining the club are particularly invited.

#### C. O. T. C. BALL

Ticket lists will be open until tomorrow at five. Parties of three or six couples may reserve tables.

#### MEN'S GLEE CLUB

The weekly rehearsal will be held Tuesday afternoon at five o'clock in the Music Room of Hart House.

#### WOMEN'S PRESS CLUB

This afternoon's meeting will be an original work meeting. Come and bring your literary efforts. Here's your chance to get some helpful friendly criticism! Tea at 4.30.

#### VIC WOMEN'S S.C.M.

The first topic of the series on the "Significance of Religion" which was to have been taken by Mr. E. L. Wasson today at Wymilwood has been postponed till Tuesday, Feb. 5 at 1.20. At that time Mr. Wasson will speak on "Science and Life."

#### EUGENICS LECTURES

Dr. Gwen Mulock is giving a series of three lectures for the women of University College on Thursday afternoons at 5 o'clock, on Jan. 31, Feb. 7, Feb. 14 at the Women's Union. The subject will be "Eugenics and the Individual Responsibility". This will be interesting to all.

#### A.S.M.E. MEETING

Time, 8 p.m., Thursday, Jan. 31. Place, Hart House West Common Room. Speaker, Mr. Carrier of New York. Subject, Air Conditioning, as applied to trains, stores, theatres, Madison Square Garden. Mr. Carrier is actually the father of this remarkable improvement. He is one of the few honorary members of the A.S.M.E. Mr. Carrier is coming here solely to speak to the A.S.M.E. meeting. All departments invited.

#### 'TWTX TWO

My dear Phyllis:

Aren't holidays dull! Eating, sleeping, smoking, trying to read, going skiing or taking in the old show—and inevitably one big binge (alias a party): that's how most of us put in the time around Christmas. I suppose we've all been told the best way to spend holidays and the advice is different every time. Some say "All you need is a change: go out and dig ditches if you are a student, and if you're a manual worker, try to improve your mind; but at least do something different." And others insist on rest, pure and simple. Probably the best is a compromise; and that I can say in all good faith, although I'm a notorious loafer. But don't postpone the question till the 24th of May, because we have spare time every day that we don't know what to do with. There's no point in working one's head off all the time, is there? I confess that I have no original ideas on how spare time should be spent. The psychologists recommend hobbies or sports or what not.

Think of us when we graduate, as manual workers, store clerks, pen pushers—where do such people come in? Most labourers are too tired at

night to do anything but rest—or "go out", which takes very little initiative. The disagreeable work in the world is badly distributed; most people are discontented because they have not chosen the right occupation or have adapted themselves poorly to necessity.

Somebody once suggested a campaign for more leisure. How about a "Leisure" party to oppose the Labourites? There would be little opposition from the Trade Unions because they all hate work. Tories would vote for it because their own idleness is all they have ever advocated. Our party would sweep any election, n'est-ce pas? The platform would be shorter working hours at mechanical tasks, a longer education, and the opportunity for each person to develop skill at something he enjoys.

Love,

Ted.

The students in the department of genetic psychology at Western State College, Gunnison, Calif., have discovered that a kiss, by causing extra palpitation of the heart, shortens the average human life by three minutes. —Los Angeles Junior Collegian.

#### FALLING MARKET CAUSES ALARM

(Continued from Page 1)

to the elevators, a substantial part of the price he would ultimately receive, such part to be based on the pool's calculations of world prices during the coming crop year. But the Pool, ignorant of the general collapse that was then beginning, paid the farmers more for their wheat than it realized later itself. The association was left badly in debt with a large surplus as well, and this situation has continued, with the surplus maintaining a vastly abnormal level, throughout the period from 1930 to 1935. To ensure that the banks received payment on their large loans, the governments of the three prairie provinces guaranteed the undertaking, but since their credit was none too good the Dominion government was obliged to take over the major part of the Pool's contract.

At present, the government is holding out for a substantial price on its large wheat holdings, gambling on the chance of an improved market. As a matter of fact, the indices of farm products have experienced a general rise during the last two years. But such a policy necessitates paying considerable charges for storage and interest, and at the same time maintains the farmer's incentive to produce the wheat, with the price pegging policy in full operation.

Another view holds that the government should dispose of its wheat at the current price, a policy which would have the additional effect of discouraging production. But this would mean a decided increase in taxation if the large indebtedness to the banks is to be met. On the whole, Professor Drummond thinks, the government's gamble is a chance well worth taking.

#### CONDEMN CENSORS AS UNREASONABLE

(Continued from Page 1)

persons, could not accurately voice the opinions of a province.

Miss Symons mentioned that one writer has stated that the movies have a tremendous influence—even greater than that of the public schools—yet no consideration is given to children's films. "Censorship is now a negative force. It stops the occasional film, but does not prevent the steady stream of second and third rate films. There lies the danger," she asserted.

Roxy Read, first speaker for the negative, stressed the importance and influence of the movies. "Children have the bravado and excitement of the criminal," stated the debater from St. Michael's. Theft, murder, revenge in crime, use of firearms, illegal trafficking of drugs, adultery, scenes of passion and so forth are all banned by the censors, she pointed out, except when absolutely essential to the plot and picture.

"Censorship in Ontario is a haphazard and individual matter," maintained Elinor Phelan of St. Michael's. The board is made up of people of average intelligence and moral sense, and all is left to them. "The board must compromise and compromise is never successful."

Miss Phelan claimed that the effect on the adult mind of omission of certain parts was bad and had worse effects than the actual representation would have. Omissions also spoiled the plays, she pointed out.

Elspeth Chisholm of Trinity stated that the average citizen was the best judge possible of pictures. She pointed out that today clumsy censoring is prevented by modern methods of inserting new words to fill the gaps. She also stated that imagination filling the gaps had not as bad an influence as the actual picture would have.

The judges, Mrs. Walker of Trinity and Miss Mace of St. Michael's, considered the wording of the motion vague and the decision was a close one.

Cold winter winds have inspired Wellesley College girls to make knitting of earmuffs a fad.

One of the University of California's most traditional landmarks, the Wheeler Oak, was recently cut down, but not without arousing considerable protest.

#### HART HOUSE NEW DEAL ATTRACTIVE TO MANY

(Continued from Page 1)

ment, commenting on the added comfort of chairs, and more leisurely manner of eating.

Mr. Jim Vernon, I S.P.S., Mr. Earl Smith, III S.P.S., J. L. Jefferies, III Law, E. L. Medcalf, III Law, Bert Barnes, II U.C., thought that the meals were very good but wanted better service. Messrs. Vernon, Smith and Barnes desired better looking waitresses.

However, Doug Malcolm, III S.P.S., said: "The service is not entirely satisfactory, more speed is necessary and something to make the tables look less bare. The waitresses seem to have a habit of waving the menus in your face."

A. J. C. Cohen, II Pol. Sc., said: "The prices are very encouraging, the meals are a little better. The new waitresses are inexperienced and this is detrimental to the service. They need the advice of two C. and F. efficiency experts."

Ned Green, I Law, Bob Oldham, II S.P.S., Raymond Anthes, II S.P.S., thought the service slow but said it was a pleasure to eat there now.

Alex DeMaio, III S.P.S., said the meals have proven a success. The atmosphere and the meals demand the loyalty of the students. I do not object to the smoking."

A. W. M. Kirkpatrick, II U.C.: "The menu is good and improved. Smoking adds to the atmosphere of friendliness."

#### REVIVAL OF GAELIC NOT PROBABLE

(Continued from Page 1)

country. There is a solid section of French speaking people in Quebec and the influence of the church is behind it to preserve it. Nevertheless, I believe Gaelic will retain a place in the affectionate respect and knowledge of many people and will attract the student who is interested in the expression of the soul of a people through song and narrative," said Professor Macleod.

"There are other languages with an even greater literature than that of Gaelic and thus in spite of its great beauty and expressiveness it will die out," was the opinion of Professor J. D. Robins of Victoria College. "I do not think it can be saved now. The only people who will learn it now are the patriots. I do believe it is worth while to keep it up among the people who now speak the language. The reason this language has been kept up in Prince Edward Island is that this island is more self-contained than many other parts of Canada."

The championship of social justice is almost the only way left open to a Christian nowadays to gain the crown of martyrdom.—Rauschenbush.

### WAR CLAIMED INHERENT IN CAPITALISTIC SYSTEM

Professor Underhill Shows Two Causes for Canadian War

#### STUDENT PEACE MOVEMENT

American Youth Has Serious Unemployment Problem—Mrs. Burr

Professor F. H. Underhill, introduced as "one of the few men not afraid to say what they think", addressed an open meeting of the Student Peace Movement (recently officially recognized by the Caput), last night, on the subject, "Why a Student Peace Movement?"

He gave as the obvious reason, the extreme cost of war to our civilization, citing the 30,000,000 lives lost and the 400 billion dollars squandered in the last war. Throughout his talk he stressed the danger of the spurious, false kind of idealism never brought into relation with hard facts. "We must realize the implications of being against war. There are only two possible relationships which can entangle Canada in war: (1) membership in the British Commonwealth and (2) membership in the League of Nations.

"The danger involved in membership in the British Commonwealth is due to the fact that the vital decisions still rest with the British Foreign Office. It is not enough to be merely against war. We must ask ourselves whether we are against British war, realizing, of course, that Britain only becomes involved in defensive wars, in which she is fighting for her life. We must remember that when a war situation develops we are so bombarded with propaganda that it is too late to think clearly. This is especially true of Canada where the herd instinct is strong."

The League of Nations was presented as an international organization for maintaining peace, but a particular kind of peace, in which the victors of the last war continue to be victors. "League sanctions really amount to an automatic promise to come to the help of France if her position is threatened. We must realize that the League is a facade hiding the balance of power system, otherwise our idealism will get us into trouble. The League of Nations has not been successful in eliminating war because war is inherent (Continued on Page 4)

### NEWS OF THE WORLD IN BRIEF

Ottawa—The Employment and Social Insurance Bill was introduced in the House of Commons yesterday. This is the first major legislation proposed since the announcement of Premier Bennett's reform programme.

Tokio, Japan—The Chinese Nationalist government will seek Japanese aid against China's Communist armies, it is reported. This might result in the placing of China under Japanese military protection and finally the ousting of Western influences from China.

Toronto—At the convention of the Hydro Municipal representatives being held at the Royal York Hotel, Hydro chairman T. Stewart Lyon last night made the statement that the ownership of Ontario's \$400,000,000 Hydro venture is to be definitely placed with the Hydro municipalities.

Guelph—A fire is burning in the coal stored in the cellars of the administration building of the Ontario Agricultural College. There are hundreds of tons of coal stored there.

#### Masthead Meeting

There will be a meeting of the entire masthead of *The Varsity* in the women's office today at 5 p.m. All masthead members are expected to be present.

### TRINITY DISCUSSES NIETZSCHE'S WORKS

His Philosophy Based in Part on Darwin's Theory

#### CLUB CHANGES NAME

Mr. John Osler, of Trinity College, was speaker last evening at the fourth meeting of the Philosophy Club at the Women's Union, on the subject of "Nietzsche". The Philosophy Club, which henceforth shall be known as "The Toronto Aristotelian Society", has the purpose of fostering philosophical discussion among the students of the first and second years in the courses of Philosophy, and Philosophy, English and History.

Mr. Osler, in his paper, outlined his impressions and opinion gained from (Continued on Page 4)

### CHANT ILLUSTRATES SPECTRUM ANALYSIS

Distances and Constituents of Stars and Planets Are Known

#### NUMBERS ARE INFINITE

How can we distinguish between planets and stars? How far are we from the stars and of what are stars made? These are questions which practically everyone has pondered about, and which were briefly discussed by Professor C. A. Chant, speaking on "What We Know About Stars", at the Museum yesterday afternoon.

Professor Chant immediately pointed out that there is a great difference between planets and stars, and illustrated this with colourful slides depicting the Solar system. However, a specific method (Continued on Page 4)

### POST-GRADUATE COURSE IN PSYCHIATRY BEGUN

Minister of Health Proposes to Award Gold Medal to Best Student

President H. J. Cody, announces that the Board of Governors of the University of Toronto has accepted with gratitude the kind offer made by the Honourable Dr. J. A. Faulkner, Minister of Health, to provide annually a gold medal for the physician who takes the highest standing in the examinations of the new post-graduate course in Psychiatry. The Minister has appointed a Board consisting of Dr. C. B. Farrar, Professor of Psychiatry in the University of Toronto, and the Professors of Psychiatry in Queen's University and the University of Western Ontario to arrange a post-graduate course in Psychiatry which must be taken by all physicians who obtain appointments hereafter in the Ontario Hospital Service and he wishes to present this gold medal, through the University of Toronto, to the physician who takes the highest standing in this course.

### Injured Students

In a bulletin issued to *The Varsity* the conditions of John Dix and Miss Sadie Ansingh, popular students at Victoria College, who were injured Sunday night, is as follows—

12 midnight—Sadie Ansingh—slightly improved. John Dix—unchanged.  
4.00 a.m.—No additional change.

### ENGLAND SEEN AID TO WORLD AMITY

In Combination with Her Dominions She could be Great Influence

#### DICTATORS TEMPORARY

The contention that England, speaking for the Empire, could largely determine Europe's future course, if she so desired, and that the Dominions, including Canada, if they took a firm and united stand, not at Geneva but in London, could exert a powerful and perhaps a decisive influence in maintaining peace, is set forth in an article by Christopher C. Robinson in the *University of Toronto Quarterly* for January. The article has been reprinted and been made available in pamphlet form by the University of Toronto Press.

The article, which is entitled "Peace and the Dictators", demonstrates that during 1934 Continental Europe has become, upon any acceptable definition of civilization, less civilized, assuming that "a state should be counted civilized in proportion as it has succeeded in substituting persuasion and consent for terror and force as the basis of its domestic government." The governed in almost the whole of Europe are treated "like children—and not even like modern children." Tolerance has (Continued on Page 4)

### LOW PRICES TO PREVAIL AT ANNUAL ARTS BALL

Ticket Lists Are Posted in Junior Common Room

This year's Arts Ball, which is being held in Hart House on Friday, Feb. 8th, marks an innovation in formal functions of University College. Never before has their "formal" been offered at such a low price, while at the same time all the traditions will be maintained—large orchestra, sumptuous supper in the Great Hall and dancing until 2 a.m.

"These things are possible," says Mr. A. C. Smith, secretary of the U.C. Literary and Athletic Society, "because of the active co-operation of the college organizations and a strictly limited ticket sale."

The ticket lists are posted in the junior common room, and it is expected that the reception accorded the lists will justify the hopes of the executive for an Arts Ball as successful and enjoyable as those of the past have been.

### GOLD MEDAL IS AWARDED FOR BEST PATHOLOGIST

President H. J. Cody announces that the Board of Governors of the University of Toronto has accepted with gratitude the offer of the Lambda Chi Alpha Alumni Association to award a gold medal annually to the student who takes the highest standing in Fourth Year Pathology. This medal is established as an annual memorial to the late Dr. Roland S. Saddington, who was a member of that fraternity and who died a few years ago while engaged in research work at the Rockefeller Institution.

J. COURTLAND ELLIOT  
Well-known economist, who will address the Commerce Club smoker in Hart House tomorrow evening.

### ELLIOT TO CLARIFY ECONOMIC PROBLEMS

Best Meeting Since the Club Started, Slated for Thursday

#### NO CHARGE FOR MEMBERS

Mr. J. Courtland Elliot, outstanding Canadian economist, and statistician for A. E. Ames and Co., will address the Commerce Club at their Hart House smoker, Thursday night at eight o'clock on the subject, "Economic Mysteries and Financial Ghosts."

T. J. Bell, treasurer of the Commerce Club, enthusiastically declared, "This will be the best meeting since the club's inception and one which no one can afford to miss."

Mr. Bell informed *The Varsity* that Mr. Elliot, a graduate of Queen's University, before his association with the Ames Co., was professor of Economics first at the University of Saskatchewan and later at Brookings Institute, Washington. Mr. Elliot is well known in Canadian business circles for the erudite articles he contributes to financial publications. One of his most recent articles appeared in *The Financial Post* and he was also quoted in the *Canada Year Book*.

There is no admission charge for members, while non-members will be required to pay a modest fee. Cigarettes and refreshments will be provided.

### MEDS AT-HOME CAUSES FEVERISH PREPARATION

An Enjoyable Time Promised at Annual Classic at Royal York

Symptoms of a highly infectious annual disease are now to be seen on the medical side of the campus. The Medical Building, the Banting Institute and the General Hospital are the scenes of feverish activity as silk hats, white gloves and boiled shirts are begged, borrowed or stolen in anticipation of the Annual Medical At-Home.

The location this year will be the Convention Hall of the Royal York Hotel, where Stan St. John and his orchestra will tickle the ossicles of those present. Two real skeletons will be added medical touch to the occasion, and a sumptuous supper will be served. Many distinguished faculty members, and representatives from other faculties on the campus will be among those present.

### Varsity Party

Lists for the informal Varsity staff party to be held this Thursday in Malloney's Art Galleries are now up in both offices. Make your arrangements immediately.

### SAILORS SWAB THE DECKS WITH BLUE PUCK CHASERS

Prof. Stephen Leacock will speak at the Hart House Debate to-night.

### PRECEDENTS BROKEN AT LIBRARY NIGHT

Library Committee Experiment Attended by Encouraging Success

#### REFRESHMENTS SERVED

For the first time in the history of Hart House the fire was lit in the grate, and smoking was allowed in the library last night. The occasion being celebrated was a special "Library Night" meeting, an experiment on the part of the Library Committee for those interested in reading as a pastime. Owing to the apparent success of the meeting, *The Varsity* was informed, this meeting will be followed by others.

Mr. C. R. Sanderson, the speaker (Continued on Page 4)

### MATERIALISM A BAR TO CREATIVE ART

True Appreciation of Art is Limited to a Very Few

#### LIFE A WORK OF ART

"The Almighty God left us three things after the flood, painting, sculpture, and music," quoth Arthur Lismer in his address on painting at the Art Gallery last night. "Painting leaps to the eye and impresses the mind more vividly than anything else, as for instance, biographies, which neglect significant details in searching for more important events."

Some painters merely imitate the outward appearance of things, and do not search for a new world, outside of the material existence, for which a good painter always seeks. Michael Angelo, though alienistic in his art, introduced a new type of painting which was characteristic of all Renaissance art. The periodic idea deals more with peoples than with time, it is more important to deal with the quality of thinking than with mere technique.

Painting is like a contemplation of life if we see it in the Greek spirit, which held that life itself is a work of art in which beauty is enthroned like a shrine. Unfortunately, there has never been an art-loving nation, art has always been appreciated only by the very few.

### STUDENTS ARE WARNED TO WATCH OVERCOATS

The overcoat sneak thief is in action again. University police are investigating the loss of two overcoats from the second floor of the Engineering Building yesterday afternoon. M. Bartlett and L. Rosenblatt, II S.P.S., owners of the stolen coats, were attending a lecture when they were taken.

Students are warned to take every precaution to ensure the safety of their belongings, and to report the presence of any suspicious looking individuals in the buildings to the University police as promptly as possible.

Port Colborne Scores at Will as Varsity Have An Off-Night

#### OUNN STARS FOR PORTS

Varsity's Last Minute Rally Comes too Late to Prove Effective

By Frank Lambert

With "Dinty" Moore at the helm, Port Colborne Sailors steamed into Varsity Arena last night to hand Varsity a 9-4 defeat, in a game which featured sporadic bursts of speed and listless spasms in the art of puck-chasing. Right from the opening of hostilities Varsity seniors were out of the picture entirely and as the game progressed the players slowed up gradually in effectiveness until the last period in which they were buried in an avalanche of goals.

The work of Dunn for Port Colborne was outstanding, accounting for four counters and one assist, while the much travelled O.H.A. gift to Port Colborne in the person of "Fan" Heximer, played a canny game, giving Fraok Shipp many anxious moments. Inability on the part of the Varsity wings to cover up on attacks spelled defeat, although the work of McClelland, MacPherson and Hendry left little to be desired, being a much overworked trio before the evening's hostilities were drawn to an end. The work of Charles on the Varsity rear-guard stood out in its effectiveness in goal getting thrusts.

In the first few minutes Devine and Hendry missed golden opportunities to (Continued on Page 3)

### CONTRIBUTIONS REVIEWED BY WOMEN'S PRESS CLUB

The Women's Press Club met yesterday afternoon for their bi-monthly meeting. The meeting consisted of the reading and discussion of various original works, short stories and poems handed in by hopeful authors. There was little, yet interesting criticism offered.

The club is expecting to have a speaker for the next meeting on Feb. 5. In the meantime all those interested are urged to write and send in their contributions for the short story contest. They must positively be in by Feb. 19. So get busy and write a story that will pass the test of the Press Club and set you one step forward to the goal of a successful author. There is, too, no restriction about length or choice of subject.

### MEMORIES

JANUARY 30th

1923—"School Nite" celebrated in Hart House, featuring Ten Side Shows, a One-Act Play (performed three times), and dancing.

1924—"U.C. Players' Guild presented Sophocles' 'Electra'."

1928—"A fire of unknown origin causing damage to the extent of \$50,000, destroyed part of the Medical Building. The 9 o'clock lectures were the only ones cancelled! In the afternoon a fire broke out in *The Varsity* editorial office in Hart House."

1929—"Mr. J. S. Woodsworth, M.P. spoke in the S.C.M. open forum at Wymilwood. As a result of his speech a Fabian Society was organized in the University."

1933—"Sydney Hermant was awarded judgment in a libel suit against three members of *The Varsity* staff. The court was conducted in the Alumnae Hall at Victoria."

## Irresponsibility

There has been a good deal of discussion in these columns recently regarding the apathetic attitude of students towards political affairs. This apathy is by no means confined to politics. It is a universal disease and manifests itself in many forms.

All over the campus the agonizing wails of over-worked executives ascend to Heaven. No matter what kind of an organization it is, the lament of the executive is the same. People simply will not come to meetings unless literally dragged to them by the hair of their heads. When they do come, they come late. Nothing ever starts on time except church and the movies and occasionally not even the movies.

When three or four people have to work themselves to death to keep alive a society or club and seem to be the only ones interested in it the logical conclusion is that there is no longer any need for it. According to this we should soon have very few clubs left. And there the unresponsive masses would be the first to protest that campus life was dead. Everybody agrees that such and such a society is a good thing, we need it on the campus, we would like to belong to it. All very well but nobody wants to do any work. The average person feels that once he has joined an organization which has a president, secretary and so forth all he has to do is to sit down and be amused.

He feels no sense of responsibility whatever. The direction and planning of a society's programme is undoubtedly the task of the executive but each and every person who becomes a member of any society whatsoever obligates himself to certain duties—to appear regularly and promptly at meetings, to keep himself informed of the time and place of those meetings, to pay his fees promptly and willingly. This is the absolute minimum if a society is to be alive and worthwhile.

In practice the already over-burdened executive is obliged to hound members to attend meetings, to be continually telephoning them, to pursue them mercilessly in an effort to pry them loose from their fees. When any extra work has to be done everybody (with the exception perhaps of one or two old faithfuls who hope to be elected to the executive next year) is immediately too busy.

Apathy? Laziness? Irresponsibility? By whatever name be it known it seems to be an incurable disease. There will always be the few who work thirty-six hours a day and the many who enjoy the fruits of their labours.

## Students Answer the Peace Poll . . .

The earliest returns in the College Peace Poll currently being conducted by the Literary Digest and the Association of College Editors are a rather surprising commentary in that they very definitely refute the opinion of many regarding the attitude of the average college student toward war.

The answers to the seven questions which have thus far been tabulated are sufficient in number to give a good indication of the general opinion of college students on war. If these early results are a good criterion, the trend on American college campuses is very definitely towards peace.

This would seem to indicate, then, contrary to the opinions of many learned individuals, that the college student has not forgotten the last war, its costs and its results. The contention has frequently been advanced that the nations of the world have

forgotten the lesson taught them in the last war, but the results of the poll seem to disprove this.

The seven-to-one majorities favouring governmental conscription of capital and labour in order to control all profits in time of war prove that the current munitions investigation at Washington has served to arouse considerable sentiment against wartime profiteers. Startling revelations made by the investigators have caused the public to be suspicious of the activities of munitions makers. Several years ago there was little opinion on this subject, but now a strong prejudice which threatens to bring about the downfall of the armament industry has developed.

Although college students seem to favour the entrance of the United States into the League of Nations, the present results on this question show that opinion is almost evenly divided. This would seem to indicate a desire on the part of the undergraduate to keep the United States out of war, and, at the same time, to keep it out of any entangling agreements. Perhaps, the apparent indecision of the student on this subject is due to a lack of knowledge about the League.

More significant than all this, however, the early results of the poll are a further indication of the intelligent interest American campuses are now taking in political questions. Evidences of this are that more than 30,000 students out of 325,000 originally solicited have already returned their ballots, and that the poll itself was planned by university students, the Association of College Editors. The many critics who have frequently derided the college student's supposed attitude of apathy toward current events are likely to be astounded at the interest shown in this poll by undergraduates.

—Michigan Daily.

## Stop Cheating

The majority of students that do not cheat are always exasperated by the minority that gets away with cheating. Cheating is dishonest and should be punished, but an honest undergraduate who can detect cheating more often than proctors, will never "peach" on a fellow student. By a curious ethic he feels that it is ungentlemanly. Still he wishes that he could do his bit to stamp out the evil of cheating.

At Southern California they have reached a solution of this dilemma, at the same time successfully curtailing cheating. During examinations if any student or students sees another student cheating, he will start rubbing his shoes on the floor, with the whole class following him, and not stopping until the cheating has stopped.

Here's a method we can use to rid our examinations of that cheating which we have had to swallow in silence.

—Daily Pennysonian.

## Sage Sayings

"The human race need work but an hour a day to supply all its needs."—Clarence Darrow.

"As a nation we are amazingly skilful at circumventing the spirit of our own rules while obeying the letter of them."—James P. Warburg.

"Virtues and vices have frequently changed places as life moved on through the ages; witch-burning used to be a virtue and lending money at interest a vice."—Sir James Jeans.

"I'd rather marry 200 pounds of curves than 100 pounds of nerves."—Ed Wynne.

"The plough made the furrow, but the sword defends it."—Benito Mussolini.

"The only way to wage a successful war is to have an absolute monarchy."—Irene duPont.

"Pride is a poison so very poisonous that it not only poisons the virtues; it even poisons the other vices."—G. K. Chesterton.

The secret of happiness is not in doing what one likes, but in loving what one has to do.—James M. Barrie.

Greatness comes only to those who seek how to overcome obstacles, not how to avoid them.—Theodore Roosevelt.

Then there's the man who agrees with everything you say, everything your opponent says, and finally degenerates into a burbling mush of concession.—Daily Illini.

We must erect a tomb which will bear no tributes—a tomb to the "well-known soldier", Mars, the god of war.—Oregon Emerald.

## ART, MUSIC & DRAMA

### Victoria Dramatic Society

The advance notice for the one-act play, *I Herby Give, Devise, etc.*, said in part, "It relies chiefly upon dialogue and characterization for its effect." Yesterday afternoon's production showed both of these essentials to have been exceedingly well developed and the resulting effect to be correspondingly satisfactory. George B. Johnston, a member of the Victoria Dramatic Society, which presented the play, deserves commendation for his creation of this short comedy.

Ray McKnight, made the hero, Peter Moreland, very human and understandable in his reactions to the behaviour of his friends, when they hear that he has fallen heir to a fortune. His lines were especially entertaining, provoking frequent and spontaneous laughter from the audience. Mary, the girl who will marry him only if he gets the money, becomes quite a possible person as depicted by Miss Elizabeth Jenkin. In the character of Peter's friend and counsellor, Alfred, there was some question whether Robert Hiltz was being intentionally dramatic, as Alfred's youthful sense of humour might be expected to find expression, or whether Mr. Hiltz was merely overacting. Perhaps he was too convincing. The audience was delighted by the family trio of Uncle Fitzgerald (John Hawkesworth), Aunt Agatha (Alice Belfry) and Violet (Isobel Weddell). However, there was a noticeable brightening of action and dialogue with the arrival of Aunt Tabitha and Fannie Dill, the work of those two old troupers, Margaret Davies and Evelyn Stewart. Marion Cabell took the part of Peter's mother, and Douglas Gordon was effectively the lawyer, Parson. Under the direction of Miss Betty Boylen the play was given a pleasingly finished presentation.

## THE SPORTSWOMAN

By M. D. S.

Last night two more hockey games were played off according to schedule. At the Little Vic rink, Vic I scored a 5-0 victory over the Meds aggregation while at the Stadium, U.C. came off 1-0 over the St. Mike's team. The first game was closer than the score would indicate and Meds put up a good fight. U.C. and St. Mike's gave a ragged performance with Betty Mark pushing in the only goal during the game.

In spite of having four players off their regular team due to flu, Vic I had it all over Meds from the start, and made a good beginning by scoring 3 of their points in the first period. Molly Selater, Ruth Leavens and Muriel Eastwood were responsible for the scoring and worked well together. Marion Clements also played nice hockey and displayed good stick handling and passing. The Meds goalie deserves a big hand for the way she kept the score down. Mary Thom and Toby Duke, star players on the Meds team, gave the Vic goalie some anxious moments but were unable to break through their opponents' strong defence for a score.

We are sorry to announce that the game tonight between Vic I and Vic II has been postponed on account of so many of the players being ill. They hope, however, to play this game off before the end of the week.

The badminton is coming along nicely but we would still like to see more players out at the practices, so if you haven't signed on yet there is still an opportunity to see the representatives of the various colleges about the times they play. This applies specially to those who find hockey too cold a game.

### EMMANUEL SQUAD SHOWS SUPREMACY

#### Wycliffe Suffers from Onset of Organized Team

Emmanuel trimmed Wycliffe College in an easy going interfaculty basketball game by the score of 28-16 yesterday afternoon. The basketballers had an off night and the game produced a loose passing brand of ball. The Emmanuel team was by far the better of the two and they had some semblance of an organized team.

Leading by the score of 16-4 at the halfway mark the Emmanuel five had a winning combination in Gardner and Griffiths on the forward line while Stinson was their high scoring guard. For the losers Fairweather was outstanding with his spirited play. However, he lacked the height to be very effective.

### TEACHERS' HITTING TOO MUCH FOR U.C.

#### U.C. Squad Fill Bases Twice but Are Foiled by Great Fielding

Sr. U.C. dropped a close decision to O.C.E. yesterday in an interfaculty baseball game played in the big gym. The Teachers opened up in the first inning with a heavy batting attack which caught the U.C. boys a little off guard and ran in three runs. They added two more in the second to lead 5-2. In the third U.C. rallied strongly and at one time had the bases loaded, but with some timely pitching and a little luck O.C.E. managed to stem the tide. Going into the fourth and final period the Teachers were leading 6-4; however U.C. unleashed a barrage of hitting power to again fill the bases, only to be robbed by two beautiful catches which left them one run short and O.C.E. in possession of the game. The final score, 6-5.

## JUNIOR HOCKEYISTS HUMBLING BY CUBS

### Indifferent Playing Marks Defeat of Varsity Juniors

#### 6-2 SETBACK

Varsity's hard working junior sextet suffered a 6-2 setback at the hands of the Toronto Cubs last night at the Maple Leaf Gardens. Trailing 3-2, Varsity attempted a disastrous ganging attack with ten minutes to go, which resulted in three soft counters for the Cubs, who broke away with a clear path to the Varsity goal.

The first period was productive of very little good hockey with both teams being willing to let the other come to them. King scored after Sissons was chased for tripping, to give Cubs a 1-0 lead at the end of the first period. The second period opened with Varsity unable to capitalize on glorious scoring opportunities. With Wilson serving time, Crocker broke away from a Varsity attack to put Cubs two up. Dr. Sullivan's lads came back with a rush to knot the count on two pretty goals from Morrison with Fremes and Sissons assisting.

The third period saw the Cubs score from Exelby's stick and then settle back to successfully protect their lead and finally to put the game on ice on goals by Wilson, Exelby and O'Hara. O'Leary, Ripley and Morrison were the pick for Varsity with Foster, Exelby and King standing out for Cubs.

Varsity: Goal, McGeary; defence, O'Leary, Sissons; forwards, Ripley, Morrison, Slingsby; alternates, Shultis, Fremes, Creasy, Walkey. Toronto Cubs: Goal, McQuestion; defence, Bowman, Foster; forwards, Wilson, King, O'Hara; alternates, Chisholm, Crocker, Barrett, Exelby. Referee: Ernie Wortley.

## WEST ENDERS TAKE VARSITY SECONDS

### Inaccuracy of Passing and Shooting Serve to Mar a Good Game

#### ONE LONE SPECTATOR

Varsity II's dropped an uninteresting basketball game to West End Y by a score of 21-16 in Hart House last night. The scheduled junior game was cancelled for reasons best known to the West Enders.

The intermediate game started off at a snail's pace and the sloppy passing and erratic shooting made it an exhibition that the lone female spectator could have found little to enthuse over. An unusual feature was the lack of scoring, with ten minutes elapsing before Molson of Varsity shot a ringer to break the ice. West End were even slower, eighteen minutes having passed before they scored. Greatly aided by some promoted juniors, Varsity led 10-2 at half time.

In the second half, West End improved but the collegians didn't, and led by Thompson, who potted nine of their points, the Y team overhauled the Blue and White, and ran up a lead that Varsity couldn't equal.

Vanderleek, with two baskets, looked like Varsity's best man. Carey played his usual reliable game and along with Sullivan, Molson and Krakauer performed well for the collegians.

West End owe their win to the expert sniping of their floor-generals, Thompson, and to the effective work of their two guards, Taylor and Rider.

Varsity Intermediates: Carey 2, Vanderleek 4, Sullivan 2, Gibson, Doran 1, Archibald, Dorsey 1, Molson 2, Krakauer 2, Hogg 2.

West End Y Intermediates: Grosland 2, Thompson 9, Henderson, Taylor 3, Rider 5, Boughton 2.

Referee: Tom Pogue.

## SPEAKING OF SPORT

By B. J. McGuire

The local boxing promoters seem to have run out of talent. In the past years the senior interfaculty assault has been an event which required two days of leaping, pushing, and some boxing before the champions were declared. And they were usually two pretty full nights too. Times have changed. It may have been the severe chastisement which the local boys received here Saturday night, or it may be that the boys are getting too refined. At any rate when the time arrived for closing the lists to the applicants it was discovered that there was not enough potential action in the draw to enable the promoters to provide two nights of entertainment. So for the first time in a long while, the interfaculty champions will be declared in a series of battles extending over one evening—Thursday.

Last night's basketball in the big gym reached a new low in the matter of interest. Ten minutes went by before either team was able to collect a single point and eighteen minutes passed before West End, the eventual winners, broke into the scoring column. The first half ended with Varsity leading 10-2.

While the basketball team was busily getting trounced in the gym, the water polo teams were occupying themselves in a similar fashion in the tank. Both teams went to the post, and both were treated to the most decisive defeat of the year. In all fairness to the Blue swimmers, we must say that they had quite a chore previous to the games, assembling complete teams. In fact they were so short handed that they had to conscript the manager in order to floor a complete team.

The Varsity senior team are evidently conserving their energy for the McGill game here next Saturday evening. The Redmen are well up in their league in Montreal, but they dropped one start to the Yale Bulldogs while Varsity stopped the Elis in both their starts. The Saturday game should be a standout as the evidence would indicate that the Blues will not be over-matched in his event.

While the Blue seniors were absorbing their defeat at the Arena the Blue juniors were doing likewise at the Gardens. The humiliation suffered by the juniors was not so great as the senior, for, while only thirty customers viewed the fall of the little boys in blue there were over sixty present when the Blue seniors, "fighting desperately, went down to a crushing 9-4 defeat".

## ASSAULT DELAYED UNTIL TOMORROW

### Six Members of Syracuse Team to be Seen in Action

#### CLOSE BOUTS EXPECTED

The elimination rounds of the senior interfaculty assault scheduled to be held tonight have been postponed and all the bouts will be fought tomorrow night. Plenty of thrills will be provided for the spectators as these boys will be fighting for the honour of their faculty and a place on the Varsity team.

Six of the boxing team which met Syracuse here last Saturday will be seen in action, and are favoured to win their respective bouts. The missing members are Gibson, in the lightweight class, and Boyd, a middleweight. All of the wrestling bouts should be well contested and most of them will be fought at even odds. However, great things are expected of Johnstone, in the 125 lb. class; of Robertson in the lightweight and Wright in the middle-weight divisions.

O.A.C., having been admitted to senior circles in the many arts, will only be able to send their second line of grapplers and mitt-tossers, so there is every probability of the interfaculty title moving from Guelph to one of the Toronto colleges.

Excepting O.A.C.'s entries, those entered in the assault are:

### BOXING

118 lbs.—Pidduck, Milson.

125 lbs.—Smith.

135 lbs.—Kemp.

145 lbs.—Powell.

155 lbs.—Grant, Brunke.

165 lbs.—MacPherson, Burke.

175 lbs.—Toole, Scheffer, Archer.

Heavy—Pocius.

### WRESTLING

118 lbs.—Auster.

125 lbs.—Johnstone, Buttschi, Keefe.

135 lbs.—Robertson, Minaker.

145 lbs.—Houle, Trimble, Mackenzie.

155 lbs.—Crossley.

165 lbs.—Newell, Wright.

175 lbs.—Archer, Van Allen.

Heavy—Snedling.

It is estimated rats cause an annual damage of \$6,000,000 in Chicago.

## PORT COLBORNE DEFEATS SENIOR BLUE PUCKSTERS

(Continued from Page 1)

score, having their shots blocked neatly by Moore in the Port Colborne nets. On a brilliant rush by Heximer, Dunn managed to get a pass from Horne and gave Shipp very little chance to save, putting the Sailors in the lead. On a penalty to Horne, Varsity attempted a five forward men rush but on one of these sorties Upper intercepted the pass and coasted in alone to score on Shipp. However, Varsity began pressing hard, until Hendry bulged the twine behind Moore with a rifle like shot. The feature tidbit of the period was provided by Horne, who attempted to give a crushing body check to Campbell, only to find himself looking at the lights for his pains.

Ever on the lookout for counters, Port Colborne scored twice more in the second spasm to Varsity's one and on one of these occasions again Port Colborne countered with one man doing penance in the penalty box. Varsity appeared to be in a trance and never fully recovered as witness the final chucker.

With the score 4-2 in their favour Port Colborne came on in the last period to smash in five counters and two of these were gift goals. The dynamic Dunn came through with two counters to end his scoring spree of the night at four, while Heximer took a long shot on which Shipp fanned. In the last five minutes of play Varsity became desperate and began carrying the play, resulting Bruce Charles adding two more to Varsity's total, ending the scoring bee of the night with the scoreboard reading Port Colborne 9, Varsity 4.

Varsity: Goal, Shipp; defence, Charles, Campbell; centre, McClelland; wings, Hendry, MacPherson; alternates, Devine, McIlquham, Valiquette and Sweeney.

Port Colborne: Goal, Moore; defence, Horne, Hudson; centre, Heximer; wings, Dunn, Wade; alternates, Upper, Reynolds, Bradley and Near.

### SUMMARY

#### First Period

Port Colborne...Dunn (Horne, Heximer) 6.30  
Port Colborne...Upper ..... 12.30  
Varsity.....Hendry ..... 15.30  
Penalties—Horne

#### Second Period

Port Colborne...Wade (Dunn) ... 3.45  
Varsity.....McClelland ..... 19.30  
(Devine) 16.30  
Port Colborne...Dunn (Wade) ..... 19.30

Penalties: Heximer, Reynolds, Gibson.  
Third Period

Port Colborne...Dunn ..... 5.15  
Port Colborne...Heximer ..... 5.25  
Port Colborne...Dunn (Heximer) 10.00  
Port Colborne...Upper (Reylds) 11.30  
Port Colborne...Reynolds

(Bradley) 12.30  
Varsity.....Charles (Devine) 15.00  
Varsity.....Charles (MacPherson) 18.25

Penalties: MacPherson, Charles and Horne.

### Women's Hockey

Jan. 29 6-7 St. Mike's at U.C.

6-7 Meds at Vic I.

Jan. 30 6-7 Vic I at Vic II.

Jan. 31 5-6 Meds at U.C. I.

7-8 St. Hilda's at St. Mike's.

Sundays and Holidays.  
Closes Wednesday 7 p.m.

## Sport Notices

### B. W. and F.—

No bouts will be held in the senior assault till Thursday, Jan. 31st. Weighing in Thursday from 10-12 a.m. instead of Wednesday as previously announced.

### Senior U.C.—

Important game with S.P.S., 5.30 p.m. Gage, Mutteroff, Balantyne, MacDonald, Walker, Culiner, Tipman please turn out.

### U.C. Sr. Basketball—

Practice, three o'clock, upper gym.

### Victoria Soccer—

The following members of the Victoria soccer team are requested to turn in their uniforms immediately: Taylor, Stewart, Simpson, Perry, Nech, Rowlinson, Sim, Pratt, Grills.

## TRINITY VICTORIOUS IN CLOSE ENCOUNTER

### Evenly Matched Hockeyists Provide an Interesting Game

Trinity handed the Emmanuel College hockey team a two goals to one defeat yesterday afternoon on the wind swept ice of Varsity Stadium. Though not a good exhibition of hockey teams were evenly matched and the issue was in doubt all the way. A nice goal by Seed put the Red and Black in the lead in the first period but Dyke beat Owen cleanly to tie it up a few minutes later and the teams retired to the dressing room to thaw out.

Owen, a former Varsity junior man, put up a nice exhibition in the Trinity nets when Emmanuel tried to cash in on a penalty for their opponents early in the second session. With three minutes left to play of the two period tilt, Ford bagged one past Young, and after much dispute, it was allowed. This made it two to one for Trinity and ended the scoring.

For Trinity, Owen, Seed, Brennan and Burchell played well, while Young and Dyke turned in nice efforts for the losers.

Trinity: Owen, McClelland, Sutton, McMillan, Burchell, Ford, Brennan, Campbell, Seed and Scrivener.  
Emmanuel: Young, Dyke, Witzel, Crosby, Lavery, Husser, Amos, Campbell and Martin.

## FELT CRESTS

Official University felt crests are on sale at S.A.C. office, Hart House, or Room 82, University College.

50c.

To be worn only on University Blue. Suitable for sweater, gym suit or blazer.

TRINITY COLLEGE  
DRAMATIC SOCIETY

(Board of Syndics)

## Coming Events

WEDNESDAY, JANUARY 30  
8 p.m.—Hart House debate, "That representative democratic government, as understood in the nineteenth century, no longer fits the age in which we live." Debates Room.

7.30-8.30—In the common room of Cody House Dr. Marion Hilliard will speak on "Relations of Men and Women." This is the second in the S.C.M. series on the "Art of Living."

THURSDAY, JANUARY 31  
8 p.m.—Youth Unit, League of Nations Society, annual meeting, Room 1, 45 St. George Street.

5 p.m.—At the Women's Union, Dr. Gwen Mulock will speak on "Eugenics, and the Individual Responsibility" to the women of University College.

4.15—Meeting of M. and P. Society. Two papers to be given on "The Adler Planetarium," and on "The Setting of Fairer Examinations." Refreshments. Members please turn out.

8 p.m.—Commerce Club smoker (members free), Hart House. Mr. Cortland Elliot, economist of A. E. Ames and Co., formerly professor at University of Saskatchewan, Brookings Institute (Washington), and Statistical Dept. of Federal Reserve System. Smokes and refreshments.

1.30—Vic women. There will be a meeting in the chapel for all women who expect to graduate in '36. Important.

8.30 p.m.—"Le Voyage de M. Perrichon." Annual play by U.C. French Club in Hart House Theatre.

FRIDAY, FEBRUARY 1  
Meds At-Home at the Royal York Hotel. Stan' St. John's orchestra. Dancing 9 p.m. to 3 a.m.

9 p.m.—Loretto College Annual At-home in the Alexandra Room of the King Edward Hotel. Leo Romanelli's orchestra will furnish music. C.O.T.C. ball, Hart House. Music by Nels Kelly and his Varsity Kampus Katz.

FEBRUARY 1, 2  
Trinity play, Berkeley Square, at Hart House Theatre. Tickets may be obtained at Porter's Lodge, Trinity College.

## SCIENTIFIC THEORIES DISCUSSED AT TRINITY

Whister's theory of the flood was one of the many queer conceptions described by Professor H. C. Simpson of Trinity College in his talk last night to the Trinity Science Club. His subject was "Scientific ideas of the later seventeenth century." Professor Simpson's address was based on a portion of research which he has been conducting for three years on the history of science. He dealt particularly with ideas on cosmogony and geology current at the end of the seventeenth century, as illustrated by the writings of Whister, Burnet and others.

## CHANT ILLUSTRATES SPECTRUM ANALYSIS (Continued from Page 1)

As for the number of stars, the professor said that "despite the many attempts to count the stars by averaging the results obtained from charts, any estimation is very vague, and furthermore we can only see the stars in our part of the universe."

The Professor concluded his lecture by showing a picture of the beautiful observatory situated at Richmond Hill, where astronomers are constantly endeavouring to add to their knowledge of stars.

## NEO-CLASSIC TREND IN ART DISCUSSED

Order, Symmetry and Balance Are Characteristic of the Period

### THIS SCHOOL INFLUENTIAL

French painting of the early nineteenth century and the influence of the classical and romantic schools of the period was discussed in a lecture by Professor John Alford at the Royal Ontario Museum yesterday afternoon.

Neo-classicism in art was predominant in France during the early part of the eighteenth century and neo-classical period. During the early nineteenth century is found a representation of nature in sculpture which corresponds entirely with the mood of the time. Extremely aesthetic, it possesses extraordinary symmetry and balance. Order and arrangement are the main characteristics of the period.

A portrait of Madame Reanier is one of the particular works of art which marks the starting point of romantic and classical development. "It is a work of very great fascination as an example of design and portrait painting," emphasized Professor Alford. Rafael continued the work done by the painter of Madame Reanier's portrait.

"The modern movement of landscape art has made us see nature with different eyes," affirm the members of this school. This is a turning back in civilization and a projection of the artist's own personality. It has united composition far more than other movements.

### INNOVATIONS PROMISED IN 'THE UNDERGRADUATE'

Annual Publication of U.C. Literary Society to Appear Soon

The University College Literary and Athletic Society intend to put their annual publication, "The Undergraduate," on sale on February 18. The magazine will be free to the men of the college but will cost college women and outsiders ten and twenty-five cents respectively.

Two of the articles deal with the modern affairs; for example, in "Without Reform We Die," Mr. R. B. Bennett's new economic policy is treated by a well-informed student of Canadian events, while a graduate of the University of the Punjab gives first-hand views of modern India in an article entitled "Penelope's Web."

"A Wreath for Roy Campbell" is a short story of a virile poet by D. V. Le Pan and R. E. Watters adds to the fiction section with a tale of life in Toronto a la Bohemia, "Sour Milk."

More serious reading is represented by illustrated articles on Art, Drama, and the Dance, sophisticated poetry, and reviews of recent books of interest to the student body.

Mr. Levenston pointed out that the staff has made a real effort to bring out a thoroughly new magazine, not only in the contents, but also with a new cover, new typography and a new type of paper.

### PRECEDEENTS BROKEN AT LIBRARY NIGHT (Continued from Page 1)

For the evening, from an extensive knowledge of books, outlined the possibilities for development in education and culture by reading, which are probably unsurpassed by any other leisure occupation. Owing to the necessity for such concentrated reading on particular subjects in University courses there is a great danger of the student becoming narrow in respect of general culture.

Mr. Sanderson said that excepting those cases in which one was reading a special subject with a definite end in view, the first requirement for valuable reading should be for enjoyment. Following Mr. Sanderson's talk many of those present took part in an informal discussion upon books and libraries in general. Refreshments were served in the graduate dining room at the close of the meeting.

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at either the men's office in Hart House, or at the women's office in University College. No notices will be taken over the telephone, after 6 p.m. notices must be taken to the Press Building. Notices for the Bulletin Board are limited to ONE insertion only.

### U.C. PLAYERS' GUILD

There will be no production at the Players' Guild this week, but the executive would be grateful if members with tickets for "The Wild Duck" will return those which have not been sold and pay for those which have been, at the regular time and place of meeting this afternoon. Those which are not returned or paid for today must be brought next Wednesday without fail.

### S.C.M.

Dr. Marion Hilliard will speak tonight in the common room of Cody House on the "Relations of Men and Women." This is the second in the S.C.M. series on the "Art of Living." All U.C. women are invited. This will take place from 7.30 to 8.30 p.m.

### ENGLISH AND HISTORY CLUB

At the next meeting of the club, which will be held on Tuesday, Feb. 5th at Wymilwood, Mr. Wm. Stobie will read a paper on T. S. Eliot.

### ACTA VICTORIANA

The Acta Victoriana staff picture will be taken at Freeland's tomorrow (Thursday), at 1.30 p.m.

### WAR CLAIMED INHERENT IN CAPITALISTIC SYSTEM (Continued from Page 1)

in our capitalistic system. War is the final result of the economic competition under which we live. A genuine peace movement must take account of this.

After Prof. Underhill's address, Mrs. Clinton Barr, an American delegate to the Women's Congress against War and Fascism, held in Paris this year, was introduced. She pointed out that the young people of the United States tend to be more realistic since they are faced with a more serious unemployment problem. "The Universities are being carefully scrutinized for radical elements. Fascism is developing so fast in the United States that it is perfectly amazing," she cited figures showing that there are between 30 and 40 million people dependent upon public relief, and an equal number existing on the level of public relief, whereas the number of millionaires in the last few years has more than tripled.

Marjorie Drummond expressed the opinion that war can be prevented "if we get down to work at once." The Eastern Canada Congress of Students against War, to be held in Toronto on March 2nd and 3rd, is the first concrete step in the building of a large student anti-war movement.

Committees for the organization of this Congress, and for the publication of "Student Front," were then drawn up. Plans and organization for future activities concluded the meeting.

### TRINITY DISCUSSES NIETZSCHE'S WORKS (Continued from Page 1)

reading the works of Nietzsche, and stated the general theories of the philosopher. "Love thyself above all else and through that the Supreme Being will be produced," stated the speaker. Nietzsche was also an exponent of the theory that might is right, and was wholly opposed to mediocrity. "Anything abnormal is worthy of study," Mr. Osler in his paper also stated that the philosopher based a great part of his philosophy on Darwin's theory of Evolution, but suggests that Man help evolution along by selection and procreation by the best only.

Many interesting facts were brought out in the open discussion which followed the reading of the paper, in which a large part of those present took part. Professor G. S. Brett, Professor of Philosophy, and Honorary President of the club, also participated in the discussion with several enlightening facts about the philosopher and his life.

Only 20 per cent of traffic passes during the night, yet nearly 50 per cent of accidents happen during these hours.

### VIC DRAMATIC SOCIETY

Members of the Victoria Dramatic Society are reminded that the At-Home to be held on Saturday evening next is on a strictly duty basis. Please advise the executive of your intentions at once. Music will be by Hal Taylor and his orchestra.

### U.C. PARLIAMENTARY CLUB

All officers and members of the club will assemble at 3.45 p.m. next Thursday in front of U.C. Main Doorway, there to be photographed for Torontensis. Joint debate with Trinity will occur at 4 p.m. in the Junior Common Room.

### MACDONALD-CARTIER CLUB

Thursday, 1 p.m., luncheon meeting in north common room, Hart House. Dr. Stephen Leacock of McGill University will be the speaker. Those attending are urged to be there at 1 p.m. sharp.

### RIFLE ASSOCIATION

Don't forget the spoon shoot tonight. It is hoped everyone will shoot this match. The groups have been rearranged to give everyone a chance.

### U.C. FRENCH CLUB TO PRESENT FARCE

Labiche's "Perrichon" Chosen as Example of Facility of French Tongue

"Le Voyage de Monsieur Perrichon," that hardy Matriculation perennial, will be presented tomorrow by the U.C. French Club. Labiche's four-act farce is being produced primarily as a display of facility in the French language rather than as an amateur dramatic performance. The quality of the acting, however, is uniformly high, and the club is confident of maintaining the success of previous productions.

The role of M. Perrichon is to be played by M. Aquaron. Betty Price and Betty Gordon appear as Mme. and Mlle. Perrichon respectively. Eric Metcalf, whose lively performance in "Le Malade Imaginaire" will be remembered, is playing Commandant Mathieu in the club's annual play.

Sound effects reproducing the noises in a railway station have been borrowed from radio station CFRB. The production will be taken to St. Catharines after tomorrow's Hart House showing, at the invitation of the school authorities.

### ENGLAND SEEN AID TO WORLD AMITY (Continued from Page 1)

disappeared and with it public discussion and argument.

The article concludes that Europe, in spite of its dictators, "can fairly expect (incidents' apart) a few more years of peace. She may arm and preach nationalism, in imitation of the dictators. That seems to be her present plan. It will mean war in the end, and in the meantime a peace hardly worth keeping. Or she may set herself resolutely to strengthen the collective organization of peace and the sanctions behind it, so that any romantic barbarian who thinks of 'revealing the fundamental virtues of man to the full light of the sun' will think again. She may set herself, that is to say, to rebuild the League and to strengthen the Covenant." Understanding how Europe is aligned, then, the British Empire has the opportunity of becoming a decisive factor in maintaining peace.

### Correction

The Varsity wishes to correct an error which appeared in yesterday's issue with regard to the women's inter-faculty debate held on Monday. Contrary to yesterday's story, Trinity College women defeated St. Michael's College in this debate.

## ART, MUSIC AND ORAMA (Continued from Page 2)

### Organ Recital

If it were not for the fact that we so heartily sympathize with all those who neglected to attend the five o'clock Organ Recital in Convocation Hall, and so missed an hour of unalloyed pleasure, we would selfishly rejoice in our own good fortune. Nothing could be more delightful, restful than to drop casually into an organ recital and find the prospects of a Bach program before you. (When a few interested and receptive people form the audience.)

This was the opportunity which was offered to the University Tuesday afternoon when the guest organist was Richard Tattersall.

The programme opened with the *Fantasia and Fugue in G Minor*, followed by three Chorale-Preludes, a Sonata, Sonata and concluded with the great *Passacaglia in C Minor*. It was played with sound musicianship and true insight into the purity and nobility of the music though meticulous care to technical detail was sometimes wanting.

The sheer wonder of Bach's inspired music, breathes an atmosphere of sublime dignity. Calm and transcendent beauty, matching the highest forms of allied arts, the grandeur and spaciousness of the great cathedral, the radiant glow, the intricate design of the stained glass window, conspire to restore a balance and harmony to the harried soul beyond the expression of words. F.B.S.

### The Bach Choir

The Bach Choir, accompanied by section B of the "Promenade" Symphony orchestra, and conducted by Mr. Reginald Stewart, engraved music history upon the minds of the large crowd assembled in Massey Hall last evening. Supported by such able soloists as Hubert Eisdell, celebrated English tenor, Norman Lucas (baritone), and charming Miss Enid Gray, soprano, and finally Mr. Stewart himself, the choir lacked nothing in making the entire evening a most successful tribute to the immortal Bach.

Beginning with a chorus, "Christmas, Grave Ye, This Happy Day" (from Cantata No. 63) which was a premier performance of this number in Toronto, the choir established their reputation once more as being the finest group interpreters of Bach, in this writer's opinion, in the city. Following were two solos by Mr. Eisdell, whose well-modulated and expressive tenor voice held everyone in the great hall quite spellbound. Possibly the most impressive of the two solos was, "My Jesus is Arisen."

Next in order on the varied Bach programme was the noted conductor, Mr. Stewart, who played two Choral Preludes, "Jesu Joy of Man's Desiring," and "Jesus Christ the Son of God." The finest tribute that can be said of this artist can be well summed up in the fact that in as many times as he has played the first mentioned choral prelude for Toronto music enthusiasts, he is able to capitalize to a most decided advantage upon each successive playing of it. Such was the effect of its majestic simplicity last evening upon a soul stirred house.

Possibly the most interesting work of the choir last evening was its rendition of Luther's famous choral hymn "Ein Feste Burg," arranged by Bach as a choral cantata (a "Stronghold Sure"). This hymn was prefaced by an explanation by Mr. Stewart. "There is nothing in the realm of music that has played so important a part in world history as this great choral, as it was considered as the actual battle hymn of the Protestants during those troubled times of the Reformation." The Symphony contributed the "Suite No. 3 for Orchestra" which seemed to have the very embodiments of all the characteristics of Bach's great style, from the stately Gavotte to the playful and rhythmic Fugue. A most enjoyable number throughout.

Especially interesting was Mr. Stewart's arrangement of that well known "B flat minor Prelude" (Book I). The interest was considerably heightened as a result of Mr. Stewart's having played that same number on the piano as an encore previously in the programme, making everyone familiar with the work, and better able to grasp the orchestration.

Miss Enid Gray's soprano voice fitted beautifully into the vocal number rendered and was shown to excellent advantage with the well controlled orchestral background. It is to be acknowledged that this talented singer has improved upon each successive hearing and much can be augured for her future.

Mr. Norman Lucas, Toronto baritone soloist, also deserves special mention as having a decidedly fine quality of voice that is most satisfying both technically and interpretatively.

Closing a very brilliant programme the choir sang the Final Chorus from Cantata No. 21—"My Spirit was in Heavenness." It is to be hoped that we shall hear more from this skilled group of voices in the near future.

W. T. L.

### CHAMPUS CAT (Continued from Page 2)

And he hopes the goil to snaffle.  
Des.—Sir, be off without excuse  
Hang the turkey, cook the goose  
Desperate Desmond's on the loose. (Full orchestra).  
Esm.—Desmond, watch! He's got a pistol!  
Des.—What of that? I've got a whistle (blows it) (Din off)  
Vill.—Curse! I'm off! Here comes the Varsity Band, and with them the C.O.T.C.  
C.O.T.C.—(Chorus) We're valiant men and true and villain  
We've scared away the dirty nasty villain  
Go ahead Desmond, without trepidation  
We want our beer, perform the osculation (Desmond does)  
Closing Sound Effects  
The band plays the stars and stripes forever  
Because they consider it dashed clever  
The audience rise and cheer and clamour  
Because we've finished our meller-drammer.  
Flourish and Curtain.  
Author! Author! Author!  
Mundusvult Decipi.

The population of Yokohama, Japan, which was 450,000 at the time it was devastated by earthquake in 1923, has increased to 700,000.

## The Undergraduate Newspaper

VOL. LIV.

UNIVERSITY OF TORONTO, THURSDAY, JANUARY 31st, 1935

No. 76

### NEWS OF THE WORLD IN BRIEF

Cornwall, Ont.—Hampered by lack of equipment, firemen were compelled to stand helplessly by as flames swept through the business section of the village of Lancaster, situated some 23 miles east of here. Damage is estimated at \$30,000.

Flemington, N.J.—Bruno Richard Hauptmann's wife and a young Swedish carpenter both verified the alibi offered by Hauptmann when they were cross-examined yesterday by Attorney General Wilentz.

Regina, Sask.—The make-shift "defrosting machine" constructed by Dr. R. C. Riley, local pathologist, was last night credited with saving the hands and feet of Walter Munday, who was admitted to hospital Jan. 18 suffering from severe frost-bite.

Toronto—Unanimous support of the reform plans of Prime Minister Bennett was voiced yesterday by Ontario Conservatives meeting in caucus at Queen's Park.

London, Ont.—Absence of fingerprints in the kidnappers' hideout and on their victim's automobile was brought out yesterday as David Meisner went on trial for the abduction last August of John S. Labatt, wealthy London brewer.

Tokio.—The Japanese house of representatives was warned last night that disputes along the Manchoukuoan-Siberian border "may lead to serious trouble."

Guelph, Jan. 30.—Unable to check a fire which has been smouldering for days under a huge pile of coal in the central heating plant at the O.A.C., workmen are moving coal from the bunkers to get at the seat of the blaze.

Fumes and heavy smoke have caused students and office workers considerable inconvenience, but college officials say no alarm is felt.

### FIND LIFE HOBBY ADVICE TO WOMEN

University Women Told to  
Choose Activity to which  
Life may be Devoted

### HAPPINESS IS GREAT GOAL

"University women should take up some activity that can go on all through their life so that when life gets too much for them they can devote their lives to their hobby," said Dr. Marion Hilliard, speaking last night at Whitney Hall, the subject of her address being "Relations between Men and Women."

"It might be sport, music, writing or anything she chooses to do, so long as she can still have a keen interest in it even after graduation," she said.

"It is up to herself to decide just where her happiness lies, but she must exercise discipline," she continued. "If she spends her time going hither and thither and yon she can't devote herself to studying. A happy person understands herself, makes up her mind and what she wants and goes after it."

"A person with a powerful personality should use it to obtain the greatest happiness and it is up to the individual to decide where happiness lies."

### DEMOCRACY VOTED DOWN IN HART HOUSE DEBATE

Professor Stephen Leacock of  
McGill Scores Democracy  
as Dishonest

### SPEAKER WEARS NEW CAP

109-71 Vote that Democratic  
Government has Outlived  
its Usefulness

By T. L. Johnston

By a vote of 109 to 71 the motion: "That in the opinion of this house representative democratic government as understood in the nineteenth century no longer fits the age in which we live," was upheld in Hart House last night. Professor Stephen Leacock, of the Department of Economics of McGill University, was present as an honorary visitor, and took part in the debate on behalf of the affirmative.

Professor Leacock prefaced his address with a few reminiscences of his undergraduate days in this University. "The last debate in which I took part in this house," he said, "was 'Resolved that Louis Riel should be executed.' That was in November, 1885. The decision of the house was that he should be executed"—here the speaker paused, then added simply, "and so he was."

"Democratic government as understood in the nineteenth century has outlived its usefulness," continued the speaker. "Its time has gone, its hour has struck, and now we must turn to some type of government in which control will be placed in the hands of those who are competent enough to guide us through the primary stages of a new system, and who are prepared to mould a new framework which will eventually take the place of the out-moded form now in force."

To illustrate the point which he was attempting to make clear the speaker traced the course of representative democracy through the ages. "Democ-

### NEW APPARATUS CURES FROSTBITE

Dr. Riley, Toronto Graduate, in  
Regina Saves Limbs of Man  
Severely Frozen

### COMMENOE BY FELLOWS

Dr. R. C. Riley, a graduate of the University of Toronto, has brought distinction on himself by his use of a novel method for the treatment of frostbite. The method employed, although not unknown to medicine, had never before been applied to the treatment of frostbite. Dr. Riley, now in Regina, is experimenting with seeming success on a Mr. Walter Monney, who has been given over to the amputation table as a result of frozen hands and feet. The procedure is to stimulate the blood pressure in the affected parts by switching the positive, or pressure force and the negative or suction force from time to time. A discarded pump, several feet of rubber tubing, and four cylindrical tubes of galvanized iron make up the apparatus for Dr. Riley's treatment.

The members of the medical staff here, when questioned by *The Varsity*, looked favourably upon the idea. Dr. E. S. Ryerson, Assistant Dean and Secretary of the Faculty of Medicine, as well as assistant professor of Surgery, considered the plan splendid. "It is based on an understanding of what occurs to tissues when they are frozen, and when they are brought back to normal and circulation re-established," Dr. Ryerson also remarked that the old-fashioned method of thawing out

(Continued on Page 4)

### TORONTO AFFECTED ONLY SLIGHTLY BY SUNOAY ECLIPSE

The place to see the partial eclipse of the sun, next Sunday, is near Great Slave Lake, according to Prof. C. A. Chant, head of the department of astronomy, University of Toronto. "The eclipse will be fullest, about 75 per cent, at latitude 115 degrees and 62½ degrees longitude, which is somewhere in the vicinity of Great Slave Lake," he said.

"Here, it will only be about 25 per cent, beginning at 9:30 a.m., and will increase until it reaches its height about 11:16 a.m., from which time it will decrease until 1:01 p.m., when it will be all over," he said.

This eclipse is just the forerunner of the biggest eclipse of the year which will be visible in Toronto on July 13-16, when a total eclipse of the moon, lasting nearly two hours, will take place.

### NO ENTHUSIASM FOR WORLD EVENTS

Students Claim Interest Only  
in Lectures which Lead to  
Examinations

### LECTURES ARE WORK

Those students of the University of Toronto who were asked by *The Varsity* yesterday whether they were interested in international affairs, all agreed, though without enthusiasm, that they were. Most, however, admitted that if a series of lectures were to be given on these subjects very few would attend unless they expected to be examined on them in the spring.

In the University of Lewisburg, Pennsylvania, a series of lectures on such questions has been begun with a large attendance of both students and local citizens. The fact that a similar series of talks conducted by Mr. R. G. Riddell of Victoria College receives an attendance of about ten students, would seem to indicate that the American students are more interested in these questions than we are.

The general attitude appears to be that lectures are work and therefore students who of necessity spend hours every day listening to lectures prefer to satisfy a natural interest in world

### NEW RELIEF BILL VALUED AS STEP TO GREAT REFORM

British North America Act  
is Obstacle to be Overcome  
before Bill is Effective

### NO PANACEA FOR ALL ILLS

Federal Authority may be  
Found in Treaty Clause  
of Constitution

The unemployment relief bill now before the Dominion government is a valuable step towards the solution of the entire unemployment problem, in the opinion of Mr. A. E. Grauer of the Economics Department here. Mr. Grauer, who is recognized as an authority on labour problems, when interviewed by *The Varsity*, stated, however, that unless the recent bill was merely the first step in a general reform, it would be of little value, since it affects only a small section of the working class.

"There is bound to be a great deal of disappointment," Mr. Grauer continued, "because two things are not generally realized: (1) that unemployment insurance is not in any way a cure; it does not attempt to remedy causes, and (2) that the unemployment insurance bill will not help those who are at present unemployed. Only those who have jobs can qualify for future unemployment insurance benefits. Such a measure cannot be regarded as a panacea for all our unemployment ills."

"The employment and social insurance commission set up by this bill to administer the system should be carefully chosen, and given wide powers of investigation and recommendation. If its powers are to be emasculated like those of the Tariff Commission, it cannot hope to give the new system that intelligent and constant adaptation which alone will enable it to meet the complex needs of the present situation."

Mr. Grauer pointed out that the unemployment insurance system which has been in force in England for some years has been constantly revised to cope with new situations, and that the intention of the Canadian government probably was to revise the present form when its results in its present form had been observed.

### CONSTITUTIONAL BARRIERS

Before the unemployment insurance bill at present before the House can become a statute it must first over-

### VARSITY WINS THRILLER IN BASKETBALL CONTEST

NATIONAL COUNCIL  
RESEARCH PRIZES  
TO BE AWARDED

The following National Research Council scholarships are to be awarded in 1935:

Bursaries of the value of \$450 will be open to award to applicants who have graduated with high distinction in scientific study.

Studentships of the value of \$500 will be open to award to applicants who have already done some original graduate research in science.

Fellowships of the value of \$550 will be open to award to applicants who have given distinct evidence of capacity to conduct independent research in science.

Attention is called to the fact that owing to drastic reduction in the appropriation available this year for scholarships, only a limited number of awards can be granted. Consequently, applications should be strictly confined to candidates with outstanding records, both in their undergraduate and post-graduate courses.

March first is the final date on which application may be made.

Application blanks and copies of the regulations governing these awards may be obtained from the Registrar of your University. Mail applications direct to "The Secretary, National Research Council, Ottawa."

### VARSITY SECONDS WIN HOCKEY GAME

Beat Hinde and Dauch by  
4-2 in Fast and Exciting  
Game

### LOUGHEEO STAR OF GAME

The dashing Varsity Seconds clinched a playoff berth in the T.H.L. circuit when they defeated Hinde and Dauch by a 4-2 count at Varsity Arena last night. The contest was fast and exciting, but the brand of hockey displayed was not of a very high calibre.

The opening frame was merely an exhibition of how not to play hockey, despite the fact that Varsity garnered two tallies. The first came as a result of a scramble, McIlquham banging in Jeffery's rebound between the posts. Forty seconds later Jeffery took a beautiful pass from Devine and laced the disc past Cunningham. Sloppy play featured the balance of the period.

Shortly after the opening bell for the second period had sounded, Waddington scored on a pretty solo dash. Hinde and Dauch then proceeded to put on a gangling attack with the Blues hemmed in for some little time. Seagran managed to break away and lay a beautiful pass to McIlquham, who made no mistake in blasting the disc into the upper corner of the twine.

After this little spurge the Blues became careless and Lougheed had a

(Continued on Page 3)

### INJURED STUOENT RESTING EASIER AFTER OPERATION

John Dix, Victoria College student, injured by a hit-and-run motorist on the Kingston highway Sunday night, is today undergoing a delicate skull operation at Toronto East General Hospital in an effort to relieve the pressure on the brain. The success of this trepanning will be an important factor in the recovery of the young student. The condition of Miss Anshing, his companion in the accident, shows a slight improvement.

Last Minute Basket by Levy  
Gives Blues Win Over  
Danforth

### DOWN 17-10 AT HALF-TIME

The Close 30-28 Win is Sixth  
Consecutive Victory for  
Hayman's Senior Team

By M. Glushin

A beautiful long shot from centre as the final whistle sounded gave Lew Hayman's Varsity senior basketball team a 30-28 victory over Danforth S.M.C. at Broadway Y.M.C.A. last night and enabled them to chalk up their sixth consecutive victory in the Big Six loop.

Irwin Levy was the hero of the encounter as it was his million dollar basket that climaxed one of the greatest uphill fighting displays shown by the Blues this year. Trailing for 39 minutes and down 17-10 at the half-way mark, the victorious Haymanites began cutting into their opponents' lead and with a little over 2 minutes to play were trailing by a 26-24 count.

Gillespie's foul made it 27-24, but Levy's beautiful basket as he was facing in the opposite direction cut the lead down to a point. Another Gillespie foul was quickly followed by Bodrug's basket as he dribbled down the side and shot from a difficult angle. This tied the score and put the crowd into a frenzy. With seconds left to play Varsity got the ball from the tip-off but lost it to Gillespie, but his pass to Watson under the basket was too high and Varsity got possession. The pass out came to Levy and with everybody yelling to shoot he let go a looper from centre that caught the twine just as the final whistle blew.

Danforth got off to a 17-10 lead at half-time due to the expert sniping of "Colbie" Gillespie and Len O'Hara's eagle-eye foul shooting. Meagher kept Varsity in the hunt, accounting for eight of their ten points. The Blues found it hard to fathom the S.C.M. attacking system and the quick breaking Danforth squad took advantage of this to score repeatedly. Connolly led the Blue scoring rush in the second half and his loss through the four personal foul route was a severe blow to Varsity victory hopes.

Danforth's expert shooting from the foul line gave them the remarkable average of 16 points in 18 tries, while Varsity could only count on 5 out of fifteen. Gillespie was the individual star of the game, accounting for 16 of his team's points, while O'Hara, Sanford, Patterson and Watson were also effective.

(Continued on Page 3)

### MEMORIES

JANUARY 31st

1918—Owing to an influenza epidemic all the University buildings were closed at one o'clock, October 18 to remain shut until November 5.

1922—The women's basketball team defeated McGill. The headline read "Girls in Big Bloomers too Much for Attractively Clad McGills."

1923—One hundred and fifty burned to death in a fire at the Pharmacology Laboratory. Don't get alarmed. They were only white rats.

1931—Whitney Hall is officially opened. The rent of the east rooms in Trinity House jumps one hundred per cent.

1933—A freshman wandered into the women's reading room down at the Library. On being informed that he was in the wrong pew he said, "How many reading rooms are there in this Hart House anyway?"

## These Ugly Campus Buildings

If you look up any foreign encyclopaedia, and especially one written in a language which a Torontonian is not supposed to understand, you will find some very uncomplimentary things about this city. For instance, the Spanish "Espana" says there are no beautiful buildings in Toronto, the only outstanding feature being the bugginess of many trying to ape the American "biggest something in the world".

It goes on to say that despite the blessing of straight streets which can permit interesting and attractive vistas, Toronto has overlooked this feature which can easily add to the city's beauty. A view down any street is only a medley of varying heights and styles, and at times even of decent building lines.

Anyone who goes through the city will see scarcely any building that even attempts beauty, and if there does happen to be an architectural gem, likely as not some hideous edifice will completely detract from its appearance, just as the municipal fathers let their city hall be swamped by department stores and corset and linoleum signs.

But did the writer of these encyclopaedic articles remember to visit Queen's Park? Evidently not. We know that it is full of architectural triumphs such as even a European capital might envy. Why then is no mention made of them? Is there a reason?

We venture that when the writer was taken around Toronto, his well-meaning guide wanted to show him University College first, and in his haste took him straight up the nameless street from the foot of which you look up at the venerable structure.

Just fancy! Beside him to his right was the Mining Building, and to his left the equally ugly Chemical Building. Beyond each lay respectively the horrible red Schoolhouse and the Physics Building which some architect started as a Roman mausoleum and let his bricklayer's little boy finish off as a shoebox.

Convocation Hall is a cross between a wedding cake and a Carnegie Library while the Medical Building almost completely detracts from the little gem of the Biological Building beside it.

However, there is a blessing in that hardly a stone structure is unattractive. Perhaps this is due to the ingrained permanence of the material, because you can find beauty in practically everything lasting. One look at Hart House, or Trinity, Knox, or Victoria and you are in love with them. But the exquisite Queen's Park facade of the Museum is utterly destroyed when you get to Bloor Street and see the disgusting cavern of brick facing that thoroughfare.

Many talk about replacing the present Library with a larger institution, but we sincerely hope that if anything is done about it, they leave the attractive little edifice to be used as something if abandoned by its staff, since it is a most delightful feature of the campus and worthy of preservation.

But we do not ask that fate of the eyesores, especially those to the south of the main Place. If they ever have to be made over, let them first be torn down!

## Study the Markets

A very successful modern author was recently asked how he divided the time devoted to his work. The reply caused some surprise: for, he asserts that he spends one-third of the time thinking about his subject and preparing the material; one-third in the actual writing; and one-third in studying the markets. Of course it is the fact that so much of the time is devoted to the marketing question, that rouses the surprise; yet to that he attributes a large measure of his success. For, he explains, there is no point in writing what isn't wanted. No matter how fine the material may be, if it isn't the material of the hour it won't sell; and if it isn't sell, what is the use of writing it? This is sensible reasoning from any writer's point of view: has it practical application in other fields of endeavour? A brief consideration will show that it has.

As students, how much of our time has been devoted to studying the markets for our services, either before we came to University or since? The question can be glibly dismissed, but not answered, by replying that there are no markets to study. There are some; fewer and more difficult to discern than formerly; but existent nevertheless.

Instead of floating along and trusting to luck to blow us ashore happily somewhere, sometime; (as at least a few of us do), how about giving a little more consideration to our markets and possibly making necessary changes in an attempt to cater to them.

## Be Selective

Be mentally selective; when choosing, choose the best; collect, and store up for future use, as many of the best ideas as you can gather in. This is the advice which President Cody offered during an address to a group of students recently. To what extent do we endeavour to apply it?

Thoughtlessness is one of mankind's most serious handicaps and assuredly plays havoc with this advice. In the world of material things, it is ridiculously easy to see that the results of continually collecting junk is—a junk heap; and the result of collecting fine trinkets habitually, is a valuable store. We forget that the same holds true in the mental realm. The results, though less evident, are just as real.

To be constantly ready to snatch up the errors which others make and harp on them; to observe the points of doubtful integrity and to give them consideration, can have but one result,—a mental junk-heap. On the other hand, to be on the alert for new and brilliant ideas; to give prominence to the best part of every action observed, inevitably yields a mental treasure-chest.

It isn't human nature to see only the good in everything; nor is the opposite true. We simply see or hear whatever is going on before us; but the power to dwell upon or refuse to dwell upon any idea is ours to exercise; and it is there that the distinction is made which determines the result. The mind is a master device with enormous capacity and permits the storage of a vast hoard of material. Thus it is that some minds may be described as a motley collection of junk and treasure mixed.

More often though the mental energy devoted to something worthless is not only wasted but is turned aside from exerting itself on something worthwhile. We might do well to give some honest consideration to the suggestion. Let us be mentally selective.

## Religion and the S.C.M.

Should we insist on religion being practical or should we be satisfied to let it remain wholly spiritual?

There seems to be a certain feeling among some students that the S.C.M. is going in too much for economic study groups and folk-dancing parties. The latter activity does give the appearance of a poorly disguised attempt to attract the wayward to the fold by the use of "nice" social activities as bait. Should the S.C.M. not devote itself, frankly and entirely, to religious studies so conducted as to interest the lay student?

In a class lecture it was recently suggested by a professor that we are being offered too many sermons on such subjects as, "Does religion pay?" or "Does it pay to be a Christian?" The current fad for applying economic principles to every phase of life is even being carried into the field of religion.

We believe that spiritual inspiration can be of considerable help to one engaged in the very practical occupation of living. However, this is something apart from the unhealthy desire so manifest at the present time, which insists on demanding a "practical spirituality" in religion.

## ART, MUSIC & DRAMA

### Hart House Theatre

Tonight in Hart House Theatre the University College French Club presents Labiche's *Le Voyage de Monsieur Perichon*, a French farce of which alternating generations of matriculants have wondered as to its actual stage presentation. It is, however, a play of considerable merit. There is an abundance of comprehensible humour in the actual lines and characters as well as complicated situations. It most certainly is a play worth seeing.

On Friday and Saturday Trinity College presents a very famous stage piece in Balderston's *Berkeley Square*, under the direction of Dixon Wagner. The play belongs definitely to the theatre and no amount of ingenuity can make it thoroughly adaptable to the screen. It is a drama of atmosphere which is only created by mixing reality and unreality in such a fashion that the audience is lost in a sea of doubt. It is a gripping and pleasing play and one which college students can well produce.

### Eaton Auditorium

The ladies had their innings last night at Eaton Auditorium, where Myra Hess again demonstrated her ability to stir up Toronto audiences. It was well-founded enthusiasm. The programme—

Continued on Page 4)

Listen, my friends, and I'll tell you a sad, sad story, all about poor old Uncle Joab and his feline family.

For many moons, dear old Uncle Joab waxed fat and was happy in his mind as his grey matter circulated freely and his index finger tap-tapped out Cats. But when winter came with its snow and ice, the old grey matter turned blue with cold and stopped circulating and Uncle Joab ran out of Cats.

With tears in his eyes and a harassed look on his face, he beseeched his youthful assistants to come to the rescue with a flock of cute Kit-Kats, but very few did he receive. Whereupon *The Varsity* files got theirs as all the ancient Cats were carefully perused in search of modern-mirth-provoking laughter, and many be-whiskered wraiths were disinterred to once more roam the campus of their alma mater. (In fact, it was this digging in the files that wore all the claws off the Cats' paws—no offence Catspaw.)

But even this ghostly source was not inexhaustible, and so in desperation, Continued on Page 4)

## Correspondence

Correspondents are reminded that all letters must be accompanied by signatures, and they are requested to limit themselves to approximately 300 words.

## CANADA AND HER RELATIONS

The Editor of *The Varsity*.

Dear Sir:

Prof. Underhill as quoted by *The Varsity*, states that "there are only two relationships which can entangle Canada in war: (1) membership in the British Commonwealth, and (2) membership in the League of Nations." Is it not equally true that perhaps these two relationships may prevent Canada from becoming entangled in war? It seems to me that the position of Canada as an independent nation without alliances or ties of any kind, would become precarious when one considers the many powerful nations now overburdened with population. When Britain is fighting the defensive war for her life, can Canada, even if she should have no formal ties, remain aloof? Remember that Britain is the Old Country, the Motherland to tens of

Representatives please note the picture of this year's Torontonensis Representatives will be taken at Freeland's Studio, Bloor St. West, on Thursday next, [January 31st at 5 p.m.

A full attendance is requested.

This is the last week that space may be taken in the Book.

[[All]]write-ups and Pictures are now due.

## FELT GRESTS

Official University felt grests are on sale at S.A.C. office, Hart House, or Room 82, University College.

**50c.**

To be worn only on University Blue. Suitable for sweater, gym suit or blazer.

## THE SPORTSWOMAN

By E. S. W.

At last we have definite news for you about the interfaculty badminton February 16 from 9.30-12 a.m. at the tournament. It will be held on Saturday, York Badminton Club. All colleges are to give their entries to Agnes Gardner or Dot Dempster before Wednesday, February 13. A new ruling has been made this year. No girl is to play in both the doubles and the singles without a special certificate from Dr. Gordon. This measure has been introduced to protect both the players and the executive. Last year one of the Vic girls played in both the doubles and the singles, and was so exhausted that she nearly collapsed while playing.

Regarding the U.C. tournament, Dot Dempster wishes us to tell the U.C. girls to watch for a list on the notice-board in the common room or the residences. Your tournament will start early next week, and it must be finished by February 13. U.C. will enter their champion singles player and the two best doubles teams in the interfaculty. The small turnout last fall was rather disappointing, so let's see some enthusiasm. Don't give this tournament the bird.

The intermediate basketball team was planning to play a game with the Y.W.C.A. team tonight, but this could not be arranged. There will be a practice tonight as usual in the O.C.E. gym at six o'clock. What has happened to the rest of you basketball enthusiasts? There were only eight girls out at the practice on Tuesday. We want a good team to represent Varsity with such a team can be chosen best when there are a large number of players from which to pick. Kay McKenzie is giving her time, advice, and experience. How about a big turnout tonight?

The hockey schedule has been changed quite a bit, so please note the changes. The Meds-U.C. I game was to have been played tonight, but has been postponed and will be played on Saturday from one to two o'clock at Varsity Stadium. St. Hilda's will play St. Mike's tonight at 7 o'clock at Varsity, instead of on Friday night as scheduled. These changes are confusing, but they can't be helped. How about a little support at these games? Given a cold night, smooth ice, a cool breeze, some studying to do, or a dance to go to, and everyone but the players stays home!

## Sport Notices

### B. W. and F.—

Draw for senior assault will be made at 1 o'clock. Call at the Athletic Office to see when you fight. Those fighting be on hand at 4.30 o'clock sharp.

### U.C. Hockey—

Game with O.C.E. today at 4 p.m. at Varsity Stadium. Will the following players turn out: Abbot, Dawson, Campbell, Evans, Coulter, Keithe, Harwood, Thompson, Morlock and Fowler.

### Trinity Basketball—

The team will leave Hart House at 3.45 p.m. today. It is most essential that the following men be present: A'Court, Grant, Stewart, Eaton, Harvie, Gardner, Brennan and Staples.

### Intermediate Basketball—

Practice 6-7 at O.C.E. gym. Any players intending to turn out please do so this Thursday.

### Indoor Track—

All those interested be out at 5.15 p.m. sharp Tuesday, Feb. 5 for the following events of the interfaculty indoor track meet: 1 mile walk, high jump.

## DENTS AND S.P.S. WIN 'POLO GAMES

### Junior School Lose to Dents —Senior Schools Defeats U. C.

Two interfaculty waterpolo games were played yesterday in the Hart House pool. Dents defeated Jr. School in the opening encounter while Senior School saved the day for S.P.S. by taking Sr. U.C. 4-0. The other game scheduled, between Trinity and Jr. U.C. did not materialize and will be played at a later date.

Sr. U.C. had only six men to tangle with the regulation seven from Sr. School. At that they put up a good fight, giving Thompson plenty to do. School divided it up by snaring two goals each period. Zachanko snared two goals, while Hoag and Morgan got one each. Walker was the standout for U.C., ably assisted by Culiner and Trimble. Ballantyne in goal played a good game and had no chance on the shots that beat him.

### ST. MIKE'S VICTORS ON BALL DIAMOND

St. Mike's defeated Trinity College in the big gym at Hart House yesterday afternoon in an interfaculty baseball game by the score of 11-5. The game was fast and well played throughout, seven innings being played in the hour.

St. Mike's: Finan; J. Driscoll, Scandifio, Sullivan, Blum, Bedford, Forstall, Nalley, Wiacek; subs, Timmins, McGivern and Marley.

Trinity: Morgan, Clark, Tucker, Burchell, Seed, Church, Reid, Burton, Kemp; subs, Campbell and Perrin.

Umpires: Crookower and Himmel.

### O.C.E. TRIMS WOODMEN IN BASKETBALL GAME

In a well-played interfaculty basketball fixture, played yesterday in the upper gym, O.C.E. took the measure of Forestry to the tune of 32-21. The Teachers turned out a smooth-working team that showed plenty of scoring ability, in addition to a good defense.

Forestry: Hick 6, Skolko 2, Barron 4, Kantola 2, Greer, Harrison 2, Chalk, Heggie 2.

O.C.E.: Costigan 8, Miller, Dilworth 10, DeMuy 4, Dool 4, Blackford, Sherbarth, Morrow 2.

### DENTS AND VICTORIA WIN INTERFACULTY HOCKEY GAMES

The first game scheduled at the Stadium last night netted Victoria another two points as Knox failed to produce a team. The Vic boys went out and had a face off and scored a goal for formality's sake and then proceeded to have a work out.

The second game nearly resulted in another default but Dents allowed the Meds a while longer to assemble a team and at 5.30 the game got under way. Dents finally came out on top with a well earned 3-0 win.

Leask, Squires and Joynt were the scorers for Dents while Greco showed up well on the defence. For Meds Coxon and Young played well.

Dents: Goal, McCartney; defence, Greco, Squires, Spencer; forwards, Clark, Mackie, Joynt, Rollaston, Leask and Larkin.

Sr. Meds: Goal, Fowler; defence, Lynch, Coxon, Williams; forwards, Young, Star, Hazelwood.

### VARSITY SECONDS WIN HOCKEY GAME

(Continued from Page 1)

busy time as a result. Driscoll was penalized and Varsity was forced to undergo a four man barrage. Immediately after Driscoll's return Jeffery got the gate for tripping and the rubber pellet began humming about Loughheed's ears. The action was frantic around the Varsity net for some minutes and finally Bawcott scored on a pass from

## SPEAKING OF SPORT

By W. A. Crookower

On a few occasions in the past this column has had occasion to remark upon the lack of interest shown this year, by the students, in athletic activities around the campus. It appears that the situation has reached a point where it is considered as being a serious problem on the hands of those in charge of athletics at Hart House. This lack of interest has become clearly evident after looking at attendance figures of recent Blue games. The interfaculty contests no longer hold the interest they once commanded. The excellent facilities in the athletic wing of Hart House, it develops, are not being used as much as in former years. As many as seventeen fraternities once competed in an interfraternity basketball league. This year only one fraternity has asked for permission to use the gym floor. This certainly is a lamentable situation. Here we have an excellent gymnasium and everything that goes with it and very few students seem interested enough to use it. Some lads, who are less fortunate, would give anything for such facilities. Another regrettable angle is that "playing for the sake" has, in some quarters, been replaced by a "desire to win". With this we refer to the recent request of the senior S.P.S. hockey squad, in an endeavour to build up a winning team, for permission to use a Graduate Studies man, a fairly good hockey player, on their team, although there is no lack of other hockey material registered in the little Red Schoolhouse. Another curious situation is the inability of some colleges and faculties to get enough men interested in trying for a place on the interfaculty squads of the colleges and faculties. What's to be done? We don't know. Do you?

An excellent example of what we have been referring to in the preceding paragraph is provided by the current senior interfaculty assault. It seems strange that not enough material could be drawn from seven thousand students to fill a two-night programme. At any rate the assault will get under way tonight and it is our firm belief that the bouts will provide plenty of action.

Up at the Arena last night we watched an exhibition of ice-lacrosse and if there's anything funnier on skates we'd like to hear about it. At any rate the game converted us into a staunch member of the throw-out-the-blue-line-movement. After watching the lacrosse game on skates we feel sure that throwing out the blue lines and putting in a goalkeeper's crease would improve and speed up hockey.

On Saturday night the big Red squad from McGill will be on display up at the Arena in the opening game of the intercollegiate senior hockey league. For the second time this season the fans will have an opportunity of seeing the Blues at work against a squad which is more or less of equal calibre and as a result the tilt should provide some exciting moments. The Redmen are reported to have a strong squad and already have two wins dangling from their belts—both at the expense of Queen's. The Blues promise that McGill's winning streak will stop on Saturday.

Low Hayman's squad chalked up their sixth consecutive win in the Big Six last night against Danforth Sunday Morning Class—better known as Danforth S.M.C.—to maintain their position as undefeated leaders of the Big Six. The game was a thriller from start to finish with the Blues fighting an uphill battle all the way. In the last few seconds of play with the score tied at 28-all Irwin Levy accomplished what every basketball player dreams of—scoring the winning basket in the last play of the game. Seconds before the whistle blew Levy sent a high one from centre front towards the basket and as the ball rippled the twine the whistle blew to end the game.

On Saturday night the Blue eagles play hosts to two squads from St. Catharines—intermediates and Big Six. The St. Kitts' Big Six squad have only lost one game this season—and that to the Blues in St. Catharines. As a result the Peninsula eagles hold down the second-place berth in the Big Six. A win for the St. Kitts basketballers will mean that the Blues will have to share their position on the top rung of the ladder. As the Blues are desirous of avoiding such a situation we take it that they will be out to make sure of the Big Six title by a conclusive win on Saturday night.

This afternoon at four, Mac McCutcheon and his intercollegiate intermediate cage squad enbus for Guelph to open the intercollegiate intermediate basketball season. Mac's squad, at the present time, is made up of a group of invalids and near invalids and it is doubtful whether they'll make a winning appearance against the Aggies.

The Varsity wishes to offer congratulations to Mr. John T. Stubbs, whose marriage to Miss Marion Pallett was recently announced. Mr. Stubbs was formerly Sports Editor of The Varsity.

### Clarke Heyd.

The final session commenced fast and furious, with the Hinde and Dauchers striving to tie the score. They put on a ganging act and Loughheed put on a sensational act, kicking out the rubber from all angles. Jeffery snared a loose puck with the opposition left flat-footed, and breezing merrily in, drove a sizzler by Cunningham, thereby putting the game on ice.

Hinde and Dauch played four men up during the final five minutes, but Loughheed outgassed them. The stars of the fracas were MacQuham, Devine, Jeffery and Loughheed. The Blues backed checked well during the entire game, but the defence was woefully weak, forcing Loughheed to bear the brunt of the opponents' offensive thrusts.

Varsity: Goal, Loughheed; defence,

Driscoll, Bauer; forwards, Devine, Kieff, Jeffery; alternates, MacQuham, McConvey, Seagram, Morgan and Disher.

Hinde and Dauch: Goal, Cunningham; defence, Bawcott and Cain; forwards, Lackey, White, Cec Heyd; alternates, Clarke Heyd, Gardnett, Waddington, Wilson and Marshall.

### RELIEF BILL SEEN

AS REFORM STEP

tion would rest in the interpretation of the courts put upon the statute. He said, "By the B.N.A. Act the provinces are given control over matters of property and civil rights which would include questions of hours of labour and employers' and employees' relations. The federal government, on the other hand, has power to deal with 'peace, order and good government' and 'the carrying out of treaties.' It depends under which of these powers the new legislation is interpreted to be."

"Is it correct to say that the bill would hinge on the Treaty of Versailles?" "Yes, by that treaty the signers agreed to rectify social matters that were likely to cause such unrest as to create an international situation."

"Do you think that the matter will be taken to the courts?" "That is a very hard question, for there are four parties affected by the

bill, each of whom might bring a suit, the employer, the employees, the province, and the federal government."

"Will Mr. Bennett have to get the consent of the nine provinces before he passes the bill?" "No he can pass it without their consent but they, of course, may bring suit any time after the passing and claim that their powers have been transgressed. One statute went to the Privy Council eighteen years after it had been passed, for instance. In fact, it is only by a trial that the legality of the statute can be tested."

"Is it likely that the B.N.A. will be amended to make way for the bill if it is found to be in its way?" "It would be very difficult, but not impossible. The governments may all be glad to get some measure of unemployment insurance in force and the question of its legality may never arise."

FRIDAY, FEBRUARY 1st  
ROYAL YORK HOTEL

MEDICAL AT-HOME

Dancing 9 p.m. to 3 a.m.  
Stan St. John's Orchestra

## Coming Events

THURSDAY, JANUARY 31

- 9.1—Parkdale Ex-Pupils' Association dance, Parkdale Collegiate, with Bus Brown's orchestra.
- 8 p.m.—Youth Unit, League of Nations Society, annual meeting, Room 1, 45 St. George Street.
- 5 p.m.—At the Women's Union, Dr. Gwen Mulock will speak on "Eugenics, and the Individual Responsibility" to the women of University College.
- 4.15—Meeting of M. and P. Society. Two papers to be given on "The Adler Planetarium," and on "The Setting of Fairer Examinations." Refreshments. Members please turn out.
- 8 p.m.—Commerce Club smoker (members free), Hart House. Mr. Cortland Elliot, economist of A. E. Ames and Co., formerly professor at University of Saskatchewan, Brookings Institute (Washington), and Statistical Dept. of Federal Reserve System. Smokes and refreshments.
- 1.30—Vic women. There will be a meeting in the chapel for all women who expect to graduate in '36. Important.
- 8.30 p.m.—"Le Voyage de M. Perichon." Annual play by U.C. French Club in Hart House Theatre.

FRIDAY, FEBRUARY 1

- Meds At-Home at the Royal York Hotel, Stan St. John's orchestra. Dancing 9 p.m. to 3 a.m.
- 9 p.m.—Loretto College Annual At-Home in the Alexandra Room of the King Edward Hotel. Leo Romanelli's orchestra will furnish music.
- C.O.T.C. ball, Hart House. Music by Nels Kelly and his Varsity Kampus Katz.

FEBRUARY 1, 2

- Trinity play, Berkeley Square, at Hart House Theatre. Tickets may be obtained at Porter's Lodge, Trinity College.

SATURDAY, FEBRUARY 2

- 8.15—Victoria College Dramatic Society At-Home in Wynmwood. Music by Hal Taylor.
- Third year Victoria skating party at Varsity Stadium this afternoon. Refreshments afterwards at Annesley. Members of other years invited.
- "Berkeley Square", annual production of the Trinity College Dramatic Society at Hart House Theatre.
- 8.30—The Victoria College Dramatic Society holds its annual At-Home in Wynmwood.
- Charity ball, Omega chapter, Sigma Alpha Mu Fraternity. Crystal Ballroom, King Edward Hotel. Ferde Mowry and his orchestra. Floor show.
- TUESDAY, FEBRUARY 5
- 8 p.m.—English and History Club at Wynmwood.
- 8.15—The University C.C.F. Club will meet in Wynmwood.
- 1.20—Vic women's S.C.M. The first of the series on "Significance of Religion" will be taken by Mr. E. L. Wasson at Wynmwood. At that time Mr. Wasson will speak on "Science and Life".

## NEW APPARATUS CURES FROSTBITE

(Continued from Page 1)

of frozen parts with snow had a good foundation. Difficulty may arise when they are thawed out too quickly, or frozen too long. "Dr. Riley's treatment should be effective," concluded Dr. Ryerson, "as it is more scientific than the snow treatment."

Dr. N. B. Taylor, professor of physiology, also thought the new idea a reasonable one, although he felt that a more detailed report would be helpful in determining the effectiveness of the treatment.

Toronto—James Durham, 14 years old, of 1038 Mount Pleasant Road, died last night as a result of injuries sustained when the sled on which he was coasting crashed into a small bridge in Sherwood Park.

## DEMOCRACY VOTED DOWN AT HART HOUSE DEBATE

(Continued from Page 1)

rac," he said, "had its beginning in the breakdown of the feudal system in medieval times. The form of control that was put into effect was quite adequate for the time. Soon, however, the influence of the railroads, banks and other business concerns began to be felt by governments. Corrupt practices crept into government administration and the people realized that their democratic institutions provided no way to curb this evil. "There can be no good government except by virtue of the soul," said the speaker, "and those people were just beginning to find it out."

To provide the necessary barrier to these deceitful practices new constitutions were evolved. Then the governments went to the other extreme. They set up so many complex forms of control that the true spirit of democracy was lost in the ponderous machinations of government that they erected. These were broken down to make way for the commission idea of control. Under this form the administration of government reached its highest point, but only for a short time. The party idea came next, but the workings of this system at the present time are sufficient evidence of its uselessness.

"The breakdown of all these systems can therefore furnish only one thought for the future of governments," said Professor Leacock, "and that is that in the government of the future, honesty will be the prime requisite. Only as long as virtue is uppermost will any system survive. I honour democracy for the part it has played in the past, but it is not the thing for today."

An innovation in the arrangement of the House last night caused some comment. In the new layout the Speaker's chair is placed at the west end of the room with the opposing factions lined up along the north and south walls of the room. Another novelty was introduced when the Speaker was presented with a triangular cap similar to that of the famous general under whose frowning visage the throne now stands.

The debate was opened by Mr. A. D. Harris, St. Michael's, who traced the parallel growth of democratic government and capitalism, then proceeded to show how the present state of capitalism was outstripping the machinery of democracy, and therefore he demanded that governments be revamped under the leadership of able men into controlled centralized organizations.

The chief contention of Mr. P. A. Bridle, U.C., who opposed the motion, was that only under a representative democratic government could economic justice be obtained.

Mr. M. Wayman, U.C., speaking in support of the motion, conceded that democratic government was sometimes an outward show of the power of the capitalists but nothing could be so detrimental to the proletariat as a continuance of the present two-party system of government. "As capitalism became retrogressive and reactionary, so did representative democratic government become retrogressive and reactionary."

T. C. Keenan, U.C., for the opposition, stated that sane socialism and democracy are almost parallel when properly administered, but Canada would not be governed in the most beneficial way by any other government than a democracy.

Hon. Chas. McCrear added some relevant statements to the opposition platform, as did W. C. Smith, U.C., B. Shaffer and M. Mirsky.

Messrs. Scollard, Lanning, Munro and Biggs spoke in defense of the motion.

Fidelity in small things is at the base of every great achievement. We too often forget this, and yet no truth needs more to be kept in mind, particularly in the troubled eras of history and in the crisis of individual life.—Charles Wagner.

It is estimated that the average landsman eats 50 per cent more on shipboard than on land, unless he is seasick.

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at either the men's office in Hart House, or at the women's office in University College. No notices will be taken over the telephone, after 6 p.m. notices must be taken to the Press Building. Notices for the Bulletin Board are limited to ONE insertion only.

### ART BALL

Ticket list for the Arts Ball closes today at 5 p.m.

### VIC DRAMATICS

A try-out for the next one-act play will be held today at 4 o'clock in the Alumni Hall. A large cast is required. Anyone interested please turn out.

### U.C. PARLIAMENTARY CLUB

Today, 3.45 p.m. in front of U.C. to be photographed for Torontocensis. 4 p.m. Junior Common Room, joint meeting with Trinity. "Resolved that Chivalry's Dead as an Ethical Law: Agnes Macphail was the Last Straw." Pivnick, Speaker; Buck, Clerk; Kaplan, Premier; Stoble, Acting Premier; M. Mirsky, Leader of Opposition.

### V.D.S. AT-HOME

Tickets for the Victoria College Dramatic Society At-Home will be sold in the college hall on Friday from 12 to 2 o'clock. Membership fees may also be paid at this time. Members who plan to attend are requested to notify a member of the executive today. The party is on a strictly dutch basis.

## 'TWIXT TWO

### OUR PRESS

Dear Ted—

Some months ago somebody remarked: "Yes, I read the New York Times in order to find out what is happening in Canada." It struck me as rather an illuminating remark. Is our press really so bad as all that? If so—why? Why is it that our papers don't give us what we want?

It is quite logical to say that the press wishes to sell its papers as widely as possible. Hence it seems obvious that one must cater to public taste—and isn't that done? People certainly seem to be interested in the last accident or some choice bit of scandal which has just been revealed. Occasionally one buys a paper just for the sake of the movie page. You find dozens

### INCONSEQUENCE

(Continued from Page 1)

seeking out the implications of their commitment individually and socially.

How is all this to be achieved in a University whose students are either reluctant to admit or actually lack any interest in things religious? The study of "Christian biographies, Christian and religious beliefs, the meaning and forms of worship, and the Church and the Bible" will obviously fail to attract large numbers of them, and no amount of persuasion could make them even consent to try them out. These studies have a place for those who are already keen about religion, and who seek means of personal strength, and training for leadership. But the S.C.M. must not limit its programme to these students, nor to this one side of the help which they need. The committed student needs help in working out the applications of his principles in all the spheres of life, and here groups on the Social Order, the Art of Living, and World Outlook, play an important part. But all this is far easier for the S.C.M. to plan than is an intelligent programme for all the different types of men and women who may slip through college without ever having faced the problem of what they can believe, how they can find lasting happiness, and what basis they are going to have for their lives. Here, if anywhere, the S.C.M. has fallen short, for it has lacked insight, imagination, understanding and experience. So often where tactful influence might have

ens of people pouring over the sob stories, the comics, Dorothy Dix and all the trash which is so disgusting.

Of course we find many people who say that the papers aren't worth reading, that they don't report much worthwhile news, and when they do, they don't report it correctly. It seems to me the reason for this is that people prefer a sensation rather than a truth—it gives them something to discuss.

So what right have we to criticize our worthy press when it does its best to satisfy our demands. Certainly the public won't take what it doesn't want, and is there any reason why it should? I think we are too prone to run down our institutions without really finding out whether or not we are justified in doing so.

Phyllis.

made a life more purposeful, more creative, it has only antagonized by its apparent over-theological tone, too radical assertions or too persistent urging. It is necessary to appeal to students through spheres in which they are already interested, or about which they have a desire to know more. So many areas of life, if penetrated to their fundamentals, teach the same truth. Thus, while we are motivated by the same conviction, and place highest importance on the life and teachings of Jesus as the "supreme revelation of God, and the means to a full realization of life", the S.C.M. seeks to share this with others by all the means which intelligence and experience may present to us.

### NO ENTHUSIASM FOR WORLD EVENTS

(Continued from Page 1)

events by some more varied method. If a knowledge of international current events were a subject which could be substituted for some other on the curriculum there is no doubt that most students would prefer to study it since it is of vital interest in the present.

One student was of the opinion that if one reads the newspapers and listens to the radio it is possible to attain a knowledge of international affairs without attending an additional lecture.

### ART, MUSIC AND DRAMA

(Continued from Page 2)

gramme was admirable, the performance magnificent. Miss Hess is a highly competent musician and a masterful pianist, whose playing at no time ceases to be beautiful. Indeed, the constant loveliness of her work, and her obvious sincerity, make it possible for the listener to smile even upon passages where the reading seems doubtful.

An instance of this was the Mozart *Sonata in C Major*. This work was played beautifully, and one tended to sympathize with what the pianist was trying to do. Yet it must be said that the tender lyricism which she ever so delicately infused into the music was not true to Mozart. That composer is only heard when the performance is crystalline.

Much gratitude is owed Miss Hess for giving us the marvellous Beethoven *Sonata in C Minor*, Opus 111. The English critic, Mr. W. J. Turner, has remarked that when Beethoven's last Sonatas are played at all, the hearer is bound to be mightily impressed; and Miss Hess's performance last night was far from ordinary. It therefore seems a pity to detract from so noble and earnest a presentation of a tremendous work. Miss Hess has a grand conception of this Sonata, and the actual playing was powerful and great. Not for a moment would anyone wish that she had left this composition alone. But a critic cannot avoid noting that Miss Hess is not the sovereign pianist, the possessor of the supreme musical mind, who can alone play the C Minor Sonata adequately. The unearthly calm of the second movement requires a detachment and an understanding which even Miss Hess cannot bring to bear upon it. Yet—how shall one criticize, except vaguely, any great pianist's performance of late Beethoven? By what standard shall one judge?

But there can be no questioning on the subject of the artist's Brahms and Schumann. No source of discontent could arise in the second half of the programme. The over-played Schumann *Carnaval* came to life again in Miss Hess's able hands. At this point, though the observation may be improper, it is hard to avoid casting a sardonic leer in the direction of a certain Russian gentleman who lately captivated a large number of Toronto concert-goers with his Schumann. . . . At any rate, in the *Carnaval* this English woman revealed fully the maturity and mellowness of her art, her fine control of the instrument, and her superb musical sensibilities. In the *Carnaval* her tenderness of feeling, misplaced in the Mozart, had full play.

Miss Hess can scarcely be placed in the very first rank of pianoforte geniuses. But that she can provide unalloyed musical pleasure was made manifest last night. And so long as she can offer recitals of anything like this calibre, she will not want for acclaim.

N.F.L.

### CHAMPUUS CAT

(Continued from Page 2)

with a Cat-less Champus staring him in the face, Uncle Joab offered a prize of theatre tickets for the best Cat to be submitted, and warning the Public that all entries would be published no matter how poor they were.

Well, Uncle Joab, what about it? Should we try to write some satirical essay on "humour" with a lead something like: "Humour, like the devil, comes from going to and fro upon the earth—" or should we break out in parodying verse:

"Ding dong bell  
Pussie's in the well  
What well?  
The ink well!"

But no; we're writing to Uncle Joab, not Hy Moyer, so that's out.

We might give a play-by-play description of a conversation heard in *The Varsity* office, resulting from a recent editorial re-nudism, only we're saving that for the Jazz Issue (certainly there's going to be one this year).

Right now, we'd like to submit a humble wish that Kandid would write his Memoirs—we think they would be very interesting. We have noticed that Kandid follows a good old Toronto cus-

tom by keeping his home and his flat on opposite sides of Yonge Street. Very disconcerting to his friends—never know where to find him.

And if Kandid doesn't like that last, I hope he won't know where to find Julep.

### CORRESPONDENCE

(Continued from Page 2)

thousands of Canadians—if not to Professor Underhill.

With respect to the League of Nations—it is probably in the same situation as many of our campus activities, where two or three do all the work and the rest "feel no sense of responsibility whatever". I think the League has been more than fair in its treatment of the conquered (pardon the word) nations after the war. Witness the position of Germany today. And if Germany considers herself slighted by the League, it is because she herself took the wrong turning some years ago. If Germany had retained her

democracy—government by a representative group of her wisest and best (which democracy should mean), and had not fallen under a one-man despotism—the League could have achieved much more in helping Germany to rehabilitate and take her place in Europe. Germany has not been recovering from the Versailles treaty but from the drainage of her life-blood and resources in the war. As for war being inherent in capitalism—it is rather in the abuses of capitalism. For many people the ideal today is socialism—i.e., state capitalism—but still capitalism.

Let us be loyal to our British ideals of justice, fair play and common sense; and let us help Canada—Our Country—to support the League. It needs support badly—in fact in order to exist. America gave up the Monroe Doctrine long ago—can Canada now set up one for herself?

Yours sincerely,

T. D. Lindsay,

### STUDENT ATTITUDE DRAWS CENSURE

Mrs. Henderson Stresses  
Need for Reform in  
Education

### TRUE DEMOCRAT CULTURED

"A cultured person is a true democrat. Canadian University students should learn to abandon their attitude of superiority, and should mingle with their fellowmen, and share their knowledge with them." Dr. Rose Henderson of the Board of Education gave this message to students in an address last evening.

Due to the efforts of Mrs. Henderson, many needed reforms are to be effected in the secondary schools of this province. Text-books are to be supplied free to needy students, the final examination fee is to be abolished, and the final examinations will be over before the first of July.

Vital changes are taking place in the educational systems of many countries today. The students are being trained to discipline themselves and to develop

(Continued on Page 4)

### W. E. CARRIER, NEW YORK ADDRESSES ENGINEERS

Talk on "Air Conditioning"  
Discloses Interesting  
Facts

The importance of learning the fundamental principles of a subject thoroughly was stressed by Willis E. Carrier of New York City in an address before the student branch of the American Society of Mechanical Engineers last night in Hart House.

Mr. Carrier, who is associated with the Carrier Engineering Corporation, spoke on "Air Conditioning", on which subject he is regarded as the foremost existing authority. He was responsible for the making of many of the mathematical charts used in the determination of humidity. He gave a detailed discussion of the elementary and advanced theory of the subject illustrated with references to actual installations, particularly a theatre in Mexico City and the Crown Mine in South Africa. The latter mine is over 8300 feet deep.

The importance of artificial cooling is indicated by the fact that every person normally gives off as much heat as a 100 watt electric lamp. It is interesting to notice that if it were possible to dig half way to the centre of the earth the atmospheric pressure would be more than ten million times greater than at the surface, assuming known physical laws to hold true. At this pressure the density of air would be one hundred times the density of mercury.

### NEWS OF THE WORLD IN BRIEF

Ontario—Hon. Dr. Leonard J. Simpson, Minister of Education, announced yesterday that all secondary school examination fees were to be abolished and that all examinations were to be ended by June 28.

London—When the United States Supreme Court announces its decision on the gold clause cases, it may temporarily close the New York Stock Exchange and security commodity markets throughout the nation.

Washington—That negotiations with Soviet Russia for the settlement of Soviet Russian-American debts had collapsed, was announced last night by Secretary of State Cordell Hull.

S. M. HERMANT

Who will represent the University of Toronto against the University of Western Ontario tonight at 9 p.m. over station CKNC, 142 metres. They will uphold the affirmative of the resolution: "Resolved that Canada can never be a nation so long as we have separate provincial governments".

S. F. RAE

### VERSAILLES TREATY DECLARED A FAILURE

Mr. Riddell Deplores the Downfall  
of European Democracies  
at Present

### CURRENT EVENTS GROUP

The democracies instituted in Europe by the Treaty of Versailles have not been successful. They are being superseded by Communism, Fascism or a nationalistic government because the countries in which they were set up ignored parliamentary tradition and conventions. Their downfall was discussed yesterday afternoon by Mr. W. G. Riddell in his Current Events Group at Wymilwood.

"The popular conception of the last war," stated Mr. Riddell, "was as a 'war to make the world safe for democracy'. The situation at the end of the war, democratic allies against the two great autocracies, gave the idea great plausibility. Democratic institutions were set up by the defeated powers and the newly formed states. Now these parliaments, if not overthrown, are at least so limited as to be ineffective."

The British government has grown like an organism; it has certain good

### ITALIAN-SPANISH CLUB PRESENTS THREE PLAYS

Hunt for Blonde Moustache  
Makes Riotous Comedy

The annual University Italian-Spanish Club theatre night is being held in the Women's Union Theatre on Tuesday, February 12th and offers to the public three plays on the one programme.

Two plays are in Spanish, namely "El bigote rubio" and "Esgrima y amor", while the third, "Telemaeo il disordinato", is Italian.

All are riotous comedies and so earnestly are the participants rehearsing that they are all certain to be instantaneous hits.

### Varsity Masthead

The Torontontensis picture of the masthead of *The Varsity* will be taken this afternoon at five o'clock (on time) at the Ashley and Crippen studios on Bloor St. W. Women are asked to bring gowns.

### ECONOMIC FUTURE VERY ENCOURAGING SAYS MR. C. ELLIOT

Economist Thinks Our Troubles  
Have Been Definitely Over  
for Four Years

### CONDITIONS ABNORMAL

Fear of National Bankruptcy  
Has Been Grossly Exag-  
gerated in All Quarters

"Economic mysteries and financial ghosts" was the subject of an address given by Courtland Elliott, a well-known economist of A. E. Ames and Co. before some one hundred members of the Commerce Club in Hart House last night. Commencing with a comparison of the study of economics of pre-war days, and of the present, the speaker showed how this branch of study has taken on a more practical significance during recent years, owing to the necessity for its application in modernizing the monetary and general business conditions, to cope with the unnatural state of affairs arising from the Great War.

Going on to explain some of these economic mysteries, Mr. Elliott stated that the real business depression which we have experienced was really ended in May 1931. The abnormal conditions with which we have since had to deal are merely the results of general business panic, and the necessity to settle matters which should have been settled immediately after the war. The economist claimed that the fear of the ghost of national bankruptcy was very greatly exaggerated. He cited instances of governments of other countries that had met with this catastrophe and explained that people still continued to live there without any disastrous changes.

### Sketch Exhibit

The exhibition of work done by undergraduate members of Hart House will open in the Sketch Room on Monday 11th February.

Members are reminded that all exhibits should be in the Warden's office not later than 6 p.m. on Wednesday next, 6th February.

### STUDY OF EUGENICS TOPIC OF TALKS

Dr. Gwen Mulock Discusses  
Sex with Women  
of U.C.

### FIRST OF SERIES

The first of a series of lectures on "Eugenics and the Individual Responsibility" was delivered by Dr. Gwen Mulock at the Women's Union yesterday afternoon, to the women of University College.

"Eugenics," declared Dr. Mulock, "is a very wide subject. It is a fairly new science, having come into existence only since the acceptance of the theory of evolution. The evolutionary tendency is definitely upward and has been since the dawn of time. According to Darwin's theory of evolution the forces causing the upward trend are 'natural selection' and 'the survival of the fittest'. Existence was a struggle, only the strongest and brightest mentally surviving and finding mates. The process of selection continued for generations, resulted in the race becoming increasingly stronger and wiser."

It is possible that the human race has reached the apex of development and that the tendency is now for the race to retrogress evolutionally. Mod-

### Chivalry and Agnes McPhail Suffer Attack But Still Prevail

Shivering over chivalry in the drafty Junior Common Room, the U.C. Parliament yesterday waxed anorous over the bill, "Resolved that chivalry's dead as an Ethical Law; Agnes McPhail was the Last Straw". Once again the government was overthrown and the "last nail driven in its coffin", this time by a substantial majority.

This session was the occasion of a visit from some members of the Trinity Parliament, so a special effort was put forward to give the visitors some "meat" to carry home with them.

The Rt. Hon. Member from Stobie opened the debate by tracing the history of our attitude toward the "Weaker Sex", from feudal society. He graphically portrayed the men going forth to the wars and their reverent (?) attitude toward all womankind. Simultaneously, he stated, the ladies were "at home in their kitchens raising families and cherishing an ideal of their warring menfolk". He went on to say that in modern times women have equal rights, economically, with

men, but that we still maintain this unfortunate attitude of hypocritical chivalry. "We must sit down on this one," but the rest of his exclamation was lost in a chorus of "Sit down yourself!"—which he did.

"Do you want to give up the noble traditions of gentleness which have been handed down through the ages?" began the Rt. Hon. Mr. Livingstone; but the substance of his speech was side-tracked over the question of the colour of Rt. Hon. Stobie's trousers.

"We have been giving up our seats in street-cars and tipping our hats for ages," stated Prime Minister Israel Kaplansky, "now that the basis for those privileges has been removed, let them cease."

Referring to the second line of their rhyming resolution, he said, "Agnes McPhail is a throwback to the time when men swung in trees—she is the exception that proves the rule."

### University Radio Debaters Will Challenge B.N.A. Act

### John C. Dix

With deep regret "The Varsity" records the passing of John E. Dix of fourth year Victoria, who died early yesterday evening at the Toronto East General Hospital from injuries received when he was struck by an automobile last Sunday evening.

John Dix was president of the senior class at Victoria College and enrolled in the fourth year of the Classics course. He was an active member of the Victoria Classical Club and the Dramatic Society. His home was in Scarborough and previously he attended Scarboro Collegiate Institute. He was injured by a motorist on his way home from Washington United Church where he was a prominent member and president of the Young People's Society. His companion in the accident, Miss Sadie Anshing, III Pass, of Victoria, is expected to recover.

"The Varsity" extends to the family of this esteemed young man its deepest sympathy.

Hermant and Rae to Show  
Futility of Divided  
Nation

### OVER CKNC TONIGHT

Public Able to Hear Students'  
Opinions Through These  
Broadcasts

From nine o'clock until nine-thirty tonight Mr. S. F. Rae and Mr. S. M. Hermant of the University of Toronto will debate over station CKNC against the debating team of Western University. The subject will be "Resolved that Canada can never be a nation as long as we have separate provincial governments"; Toronto will uphold the affirmative. Then, a week from today, the winners of this debate will oppose the champions of Western Canada. This discussion will involve the British North America Act and the position of the provinces under it.

These intercollegiate debates were started last year by the Canadian Radio Commission, which awards a shield to the winners. The programme this year is on a much more extensive scale than last year. So far, in Central Canada, Toronto has beaten Queen's and in Eastern Canada, McGill has beaten Laval. In Western Canada, Manitoba and British Columbia are debating in the finals.

A radio debate of this type is a

### Varsity Staff Party

Malloney's Art Gallery was the scene last night of the gay reunion of past and present members of *The Varsity* staff at the annual winter informal dance last night. Highlights of the evening were the wedding march for Mr. and Mrs. John T. Stubbs, who recently announced their marriage, and very short speeches by most of the more prominent members of the staff, to the accompaniment of rising cheers.

Among those who cavorted were Mr. Lou Golden and Mr. Pat Usher, former editors of *The Varsity*, divers members of the S.A.C. and some members of the U.C. French Club who crashed at about one p.m. The revellers were joined by Hal Taylor's orchestra, who supplied sound effects for the occasion, and adjourned to the Campus Coffee Shop, the University Press, and points East, West, North and South. Latest reports as *The Varsity* goes to press state that the party is still adjourning.

### T.I.C.C.U. Holds Rally

The Inter-Varsity Christian Fellowship, of which the Toronto Intercollegiate Christian Union is the local branch, is conducting a Week-End Rally in the People's Church, 100 Bloor St. E. on Saturday, February 3.

The afternoon session commences at 3 p.m. with Group Reports from local branches, followed with an address by Prof. T. W. Isherwood, M.A., of Wycliffe College.

The evening meeting starts at 7.30 p.m. and includes brief addresses by Rev. E. A. Brownlee, B.A., B.Th., Toronto Secretary of the China Inland Mission, and Stacey Woods, B.A., B.Th., General Secretary of the I.V.C.F.

### At-Home Cancelled

Due to the death of John Dix, a member of the society, the Victoria College Dramatic Society annual At-Home will not be held on Saturday evening, February second, as planned. Plans for a future date will be announced later.

### PROFESSOR WANTS MORE VALID EXAMS

E. P. Sandiford Suggests  
Improvements on Present  
System

### MR. CRADDOCK ALSO SPOKE

"If I were head of the Mathematics and Physics course I should see that as many students passed in this faculty as in any other," was the statement made by Professor E. P. Sandiford, at the meeting of the Mathematics and Physics Club yesterday, when he spoke on the setting of fairer examinations.

"Examinations," continued Professor Sandiford, who is professor of educational psychology and director of educational research, "may be studied from three aspects, objectivity, reliability, and validity. As individual examiners seldom give the same scores to identical papers, the objective type of paper requires many remedies. It is with accuracy of measurement that reliability is chiefly concerned and this may be obtained by giving the same examination after an interval of one week, or by making the paper very long, for the greater the length the more certain the reliability. Validity is the most difficult element to secure. The term is practically synonymous with fairness and to obtain it various methods should be employed. In matriculation examinations a paper, to be fair, should be set in accordance with the curriculum and the prescribed text."

Another feature of the meeting was an illustrated reading on the Adler Planetarium, given by Mr. Craddock of the Ontario College of Education. Mr. Craddock described the situation of this institute built by Mr. Adler in Chicago, and dwelt mainly upon the projection apparatus within. By means of this mechanism the effect of the heavens is produced, and the succession of day and night portrayed.

## Even the Radio

An editorial in Thursday's *Mail and Empire* commends the Canadian press for its "restraint and decency" in reporting the Hauptmann trial and goes on to discuss the hysteria rampant in the United States over the case. Which reminds us once again of the morbid sentimentality which marks our age.

Even the radio, which heretofore has always been noted for the brevity and conciseness of its news casts has succumbed to the disease. Since the beginning of the Hauptmann trial the Radio Press Bureau at Washington has been furnishing special despatches on its progress. That much we are willing to concede to a case which has attracted such wide-spread attention. But the other day we were edified to hear a reproduction of part of the cross-examination with two N.B.C. announcers impersonating Mrs. Hauptmann and the prosecuting attorney! This continued for about ten minutes.

Presumably there were some thousands of people in the United States, and in Canada too, who were listening avidly to every syllable. It is hard to pardon the radio for this pandering to the popular taste for sensational and unsavoury details.

The afore-mentioned editorial says: "Some newspaper circulations are reported to have been increased by 50,000 because of the extravagant but evidently popular manner in which they have reported the case." The press may exert a great influence on the public but assuredly the public exerts a greater one on the press.

So to a certain extent the press is the victim of its own utilitarian instincts, but no such case can be made out for the radio. It makes no financial difference to the Radio Press Bureau whether one person or one thousand listens to its broadcast. Surely then they might spare the ears and sensibilities of those who like their news presented in its proper aspect.

## The Velvet Glove

*The Well-Known Democratic System*—1.

The mills of government grind exceeding slow, and the amount of human suffering brought about through the delays of administrative red tape is beyond estimate, perhaps. But it is probably among those receiving public relief that the pinch is felt as hard as anywhere, and often groups of these unfortunate people naively seek to short-cut past the syster by sending deputations direct to the top.

Usually of course they get the well-known cold shoulder.

But it seems that Ontario is to have a new deal in this respect. A grimly determined delegation of unemployed from the village of Lakeview recently went to Hon. David Croll at his office. The Welfare Minister listened to their complaints, promised concession to some, denied it to others, then invited the deputation to lunch with him in the East Block cafeteria! They left in a daze, with a vastly improved opinion of the man to whom they had come, in battling mood, to make demands!

This sets an example which should not be too difficult to follow. The sending of these deputations is of course not to be encouraged, and they must be shown that the granting of special concessions to small groups would be highly unfair to the majority. But after all some of these people have come

long distances to present their cases to the higher-ups. Their sense of injustice must be exceptionally keen and ranking before they make the journeys, and to turn them away harshly is merely to make a bad condition worse.

Systems of government were designed for the welfare of the citizens. If suffering exist among the citizens, the system is at fault. There is no denying these truths that are as old as civilization. If an iron hand must be used to teach aggrieved citizens that they must wait until the system it remedied, let it be covered with the velvet glove of kindness, as it was in the case mentioned. As always with genuine kindness, the cost is slight, the benefits vast!

## An Explanation

A very unfortunate error occurred in Wednesday's issue of *The Varsity*, when it was stated in a front page notice that Professor Stephen Leacock of McGill University would not be able to attend the Hart House debate that evening as had been planned. It was one of those glaring errors which happen in even the best regulated papers, and deserves an explanation.

The message in this case evidently referred to a meeting on Thursday of a University political club, which Professor Leacock was scheduled to attend, but could not, due to an engagement in Montreal. It was received over the telephone. Two members of the staff of *The Varsity* received the message and both state definitely that their informant, who did not identify himself, said that Professor Leacock would not attend the Hart House debate. Since they had both heard the same message, they did not check up further, but took for granted the truth of the information.

The mistake was unfortunate, in that many people who would have attended the debate remained away, but it is one for which one can not definitely place the responsibility.

If it does nothing else, it calls to attention the reason for the strict instruction to *Varsity* night editors that they are not to take the general run of bulletin board notices over the telephone. With the noise and confusion of the University press, and the lack of accuracy of any telephone message, it is too easy to make mistakes.

## Unemployment Insurance

Mr. Bennett's latest statements of policy have caused quite a furore amongst the good people of this dominion. His speeches, which have flatly contradicted all previous speeches, have made it clear that from now on there is going to be a radical departure from the policies of the past.

It should be fully appreciated that this change of policy involves a tremendous personal sacrifice from Mr. Bennett. For four years he has held office, and during that time his enormous powers of diligence and perseverance have been devoted to the task of untangling the difficult complications of foreign policy. Mr. Bennett is peculiarly fitted to the practice of diplomacy, and it must be quite a task to wrench himself away from these lofty considerations and to return to the mundane drudgery of putting to rights the domestic issues which have piled up in the meanwhile. Nevertheless he has made the sacrifice and has pledged himself to carry out a programme of social reform if re-elected to office.

His first great measure is the bill providing for unemployment insurance which will apply to a limited group of persons. *The Varsity* is heartily in favour of the principle of unemployment insurance; we approve of its introduction now, although we are inclined to doubt that it will amount to any more than a momentary palliation of present evils, taken by itself. No system of social insurance can take the place of employment. Unemployment Insurance, like all other schemes of insurance is at best only a means of provision against an unforeseen event, possible in the remote future. Moreover, Mr. Bennett's plan has this further drawback—its material benefits are very temporary.

Unemployment insurance provides a convenient stop-gap between the loss of one position and the appointment to another. But unemployment today is not a temporary matter, nor one to be leisurely provided for by a scheme of social insurance. Rather it is a living and vital reality.

Mr. Bennett could well have introduced unemployment insurance at the beginning of his term; perhaps then it would have sufficed, might even have met the needs of today. But four years have passed. Mr. Bennett must now realize that for any plan of unemployment insurance to be efficacious it must be supplemented by a concerted effort to give the unemployed employment. How far he is willing to go in that direction is at present unknown. Perhaps more radio speeches will enlighten us.

## ART, MUSIC & DRAMA

### Sunday Evening Songster

The sixth songster of the year will be held in the Music Room of Hart House on Sunday evening next at 8.45 o'clock.

J. Campbell McInnes will conduct the following Burns programme:

Judge Eternal  
Ae fond kiss  
Ca' the Ewes  
A Highland lad my love was born  
O Willie brewed a peck o' maut  
My heart is sair for somebody  
A hundred pipers and a'  
Ye Banks and Braes  
Scots Wha Hae  
Auld Lang Syne

### Friday Afternoon Recital

Leo Smith has arranged a Canadian programme of short quartets, songs and violin solos for this week's Friday Afternoon Recital.

## Correspondence

Correspondents are reminded that all letters must be accompanied by signatures, and they are requested to limit themselves to approximately 300 words.

The Editor, *The Varsity*.  
Dear Sir:

If the writer of your article headed "Esperanto Again", in your issue of January 28th, has made a real study of the Esperanto movement, he is to be congratulated upon the thoroughness with which he has concealed that fact.

May I be permitted to point out that Esperanto is not intended to be "the tongue of everyday life"? It is an international, auxiliary language—not a universal language. True, non-travelling Canadians have not the same immediate need for Esperanto as have people in other countries, but the use of a good atlas and a modicum of imagination should help your contributor to get some idea of the need for an international language throughout the world.

Your writer's proposition that the ratio of importance in which Esperanto stands towards other languages is indicated by the relative class enrolments in Toronto adds a welcome touch of humour to his article.

Having used Esperanto for some 28 years in several European countries, I have had some proof of the value and practicability of his language, in spite of the guesses of your contributor, to whom I should like to suggest that an expression of opinion on any subject should follow, and not precede, a study of that subject.

Yours very faithfully,  
David W. M. Jenkins.  
President,  
Toronto Esperanto Society.

## THE SPORTSWOMAN

By M. A. F.

The Blue and Grey pucksters went to town last night and triumphed over the San Miguels with a 3-0 tally. The first year players definitely came to the fore on the winning outfit—Elaine Knight was the star and banged in two goals; Helen Elliott also played nice hockey and chalked up the third point. For St. Mike's Mary McGuire did her best to keep the puck in St. Hilda's territory, and Katherine Laughlin in goal played exceptionally well. She is a real goalie and kept out many a hard driven shot. The play on the whole was more evenly divided than has been the case in most of the games in this series. In fact all in all the match was a treat for the spectators—such as they were. How about giving your college reps a little bigger hand?

We have quite a choice bit of news about that all-star team we mentioned a few weeks ago. Such a team will definitely be selected. There is to be a general try-out after the completion of our local schedule and we hope to be able to put up a real threat to the McGill team which is coming down to play off with us on March 2 at the Varsity Arena. It is hoped that Jimmy MacPherson will be coaching this star group—and he can be counted on to turn out a real team.

As we pointed out yesterday, there has had to be another change made in the interfaculty schedule. The game which was to have been played last night between Meds and U.C. 1 will come off Saturday at 1 p.m. at the Varsity rink. Both of these teams are smart outfits. The odds are with U.C. but Meds are playing remarkably fine games and this contest should be quite a tussle.

Again may we ask the U.C. women to have an eye open for the badminton tournament list in the common room or residences. Your tournament has to get under way early next week so that entries will be ready by February 13. All players who have any aspirations towards representing their respective faculties in the playoffs on February 16 are urged to get practicing immediately. There is a big movement on to make badminton a major sport, and a bang-up tournament will be a real step in achieving this end.

Most of the tragedies in this world are caused by the actions of people who are neither wholly right nor wholly wrong.—Dean Inge.

## BLUE SENIORS MEET MCGILL HERE TOMORROW

Bobby Bell's Fast Q.H.A. Team Have Lost Only One of Last Ten Games

CHANCE FOR U. OF T. WIN

Contest Marks Thirty-Second Year of Red and Blue Competition

By G. C. Vair

Riding on the crest of two victories over the Tricolour, Ebbby Bell brings his big Red machine to Toronto tomorrow night for the opening of the intercollegiate hockey schedule at Varsity arena. Saturday night will mark the thirty-second year that the Red and Blue warriors have clashed in an annual battle for intercollegiate hockey supremacy.

Although not as strong as last year's squad, the 1935 edition has been setting a fast pace in the Q.H.A. and are at present ensured of a playoff position. In the last ten games played the crown-crested players have only dropped one contest and that to Yale while on an American tour.

The fact that Yale split two games with McGill while the Blue team took the Bulldogs in two straight games would indicate that the Toronto squad are just as formidable a hockey club as the McGill Redmen.

The showing of the Varsity sextet, although below form, was considerably better than that of Coach Bell's men, who played the same teams on a recent visit south. Hence it is obvious that the homesters have more than an even chance in tomorrow night's game and a good chance of annexing the intercollegiate title which the visitors have held for the past two seasons.

When the teams line up Saturday night eight men who saw action in last year's feud will renew hostilities against five veteran McGill performers. The remainder of both teams will be made up of men new to intercollegiate competition.

SENIOR VIC DOWNS FORESTRY IN 9-2 WIN

Pitcher Edwards Stars in Interfaculty Game

The powerful nine representing Senior Vic remained undefeated in the Interfaculty Baseball League by downing Forestry yesterday afternoon by 9-2.

## SPEAKING OF SPORT

By Ken Burn

Tomorrow night McGill will be here to open the intercollegiate hockey league. The Redmen have won the title for the past two years but as the old saying goes, all good things must come to an end. For Varsity the college loop takes on the appearance of a consolation series after their disastrous journeys in the O.H.A. McGill have two wins to their credit over Queen's and will be seeking to place the championship on ice tomorrow night. But notwithstanding the Blue team's erratic performances in the past, we think that they should win.

In order to foster a little interest in the game a competition has been announced open to any holders of student season tickets. The general idea is to search through all your cupboards until you find the season ticket which you put away at the end of the rugby season last fall. The fortunate students who find theirs will be admitted to the game on presentation of Coupon No. 23.

Last night the grunt and groan artists battled merrily to decide who would have the honour of taking it on the chin for dear old Varsity. The most pertinent result was the showing of the O.A.C. second team who picked up 45 points without much trouble. The Student Farmers take their B. V. and F. quite seriously and we would not be surprised if they win the senior intercollegiate this year.

## Varsity Secons WIN AT GUELPH

Himel Stars for Blue Squad in Snappy Struggle with Farmers

Varsity in Fine Shape

The Varsity intermediate basketball team started off on the right foot in the intercollegiate loop when they out-guessed O.A.C. 29-10 in a fast game in Guelph last night. With three of their men on the sick list, Varsity played an aggressive game which gave them a considerable margin over the Aggies.

The first half found the Blues playing excellent ball in the face of close guarding. Their combination was beautiful to watch and netted them seven baskets, while their defence worked marvels, holding O.A.C. to three points, in foul shots only.

In the second period O.A.C. rallied and made things too interesting for the Varsity squad, checking them in their own half. Even at that rate they hit the hoop only three times. Toward the end of the game, Varsity's aggressiveness and condition began to tell and their "round-the-mulberry-bush" combination gained them six more field goals.

Every man on the Blue team played well, but Himel was a stand-out. His brilliant checking and play-making was responsible in no small way for the visiting squad's success. Magwood was high scorer with 8 points; and played a fine game throughout. Vanderleek turned in a nice performance at centre, and Carey on defence also showed up well.

Mitchell of O.A.C. was a thorn in the flesh of attacking forwards, and along with Paddon and Awde played well for the Aggies.

Varsity: Sullivan (5), Doran, Vanderleek (4), Gibson (1), Magwood (8), Krakauer, Himel (5), Carey (6).  
O.A.C.: Paddon, Thorpe, Ward (3), Mitchell (4), Awde (2), MacDonald, Hutchinson (1), Burnett.  
Referee: Tom Pogue.

The game was very close until the last inning, with Vic holding a slim 3-2 lead at the end of the third. However, the Forestry infield went to pieces in the fourth inning and Vic pushed over six runs to win decisively.

Edwards, pitching for Victoria, was the main factor in his team's victory. His blinding speed had the Forestry batters swinging wildly, and with a little luck he might have registered a shutout.

Forestry: Garrette, Carique, Lien, Hick, Heggie, Greer, Johnstone, Ward.

Senior Victoria: Dickie, Grills, Edwards, Walker, Alleman, Gastle, Morrison, Amos and Hills.

## MEDS VICTORIOUS IN SENIOR ASSAULT

Varsity Intercollegiate Team Will Be Weak Is Opinion

O.A.C. IN SECOND PLACE

After the tumult and shouting had died down at Hart House last night, the statisticians went to work and announced that Meds were the winners of the annual senior assault. While all the bouts were keenly contested the quality was very poor and it appears as if Varsity will send a very weak team to the intercollegiate meet. O.A.C. are entering senior competition for the first time this year and were not allowed to enter their first-string team in last night's bouts, but even then managed to finish in second place.

Point standing: Meds 67, O.A.C. 45, S.P.S. 34, U.C. 28, St. Michael's 14, Trinity 11, Victoria 4.

BOXING  
Semi-Finals

118 lbs.—Mills, S.P.S., defeated Arnp. O.A.C. decision.

165 lbs.—Burke of Victoria defeated MacPherson of S.P.S., K.O. in first round.

175 lbs.—Scheffer of Meds, defeated Toole of Victoria, technical K.O. in third round.

Finals

118 lbs.—Pidduck of S.P.S. defeated Arnp. O.A.C. decision.

125 lbs.—Fred Smith of S.P.S. defeated Young of O.A.C., technical K.O. in first round.

135 lbs.—Gay of O.A.C. defeated Kemp of Victoria, technical K.O. in first round.

145 lbs.—Orr-Ewing of O.A.C. defeated Grant of U.C. by technical K.O. in first round.

155 lbs.—Brunk of U.C. won over Fraser of O.A.C. by decision.

165 lbs.—Wolfe of O.A.C. defeated Burke of Victoria by decision.

175 lbs.—Scheffer of Meds defeated Thompson of O.A.C. by decision.

Heavyweight—Pocius of St. Michael won by default.

FENCING

(1) Mitchell, Trinity; (2) Bachert, U.C.; (3) Cornwall, Trinity; (4) Tushingham, U.C.; (5) Jennings, U.C.; (6) Perrin, U.C.

WRESTLING  
Semi-Finals

125 lbs.—Corner of O.A.C. defeated Keefe of U.C. by decision; Johnston of Meds defeated Buttsch of S.P.S. by decision.

145 lbs.—MacKenzie of Meds defeated Limpert of O.A.C. by decision; Martin of O.A.C. defeated Rodzic of S.P.S. by decision; MacKenzie of Meds defeated Houle of S.P.S. by decision.

Finals

118 lbs.—Austin of U.C. won by default.

125 lbs.—Johnston of Meds defeated Corner of O.A.C. by two falls.

135 lbs.—Minaker of S.P.S. defeated Robertson of Meds in overtime decision.

145 lbs.—MacKenzie of Meds defeated Martin of O.A.C. by one fall in overtime.

155 lbs.—MacDonald of O.A.C. defeated Crossley of Forestry by decision.

165 lbs.—Newell of U.C. defeated Lavender of O.A.C. by two falls.

175 lbs.—VanAllen of St. Mike's defeated Archer of Trinity by two falls.

Heavyweight—Snelling of Meds defeated Wolfe of O.A.C. by one fall.

as is in the business, boasting such stars as the Cambary brothers, Maxie Pearl and Wilf Newman, formerly of Queen's, who have been piling up large scoring totals against opposing teams with regularity.

The Blue team should be strengthened by the addition of their star defenceman, Hughie Marks, who has been out of the game due to illness since the American trip, but has recovered and is ready for action. The Blues have attained quite a reputation this year as strong finishers but they will have to be going at top speed all the way

This joyous young couple, quite snappy. Have discovered a way to be happy. Just to ask for a smoke. They consider a joke—You must say "BRITISH CONSOLS," Old Chappell!

8:15 p.m.—Mr. S. Carr's study group  
on "Leninism". Auspices, University  
Young Communist League. 630 Col-  
lege St. Open to anyone.

## NATIONAL COUNCIL RESEARCH PRIZES TO BE AWARDED

The following National Research  
Council scholarships are to be awarded  
in 1935:

Bursaries of the value of \$450 will  
be open to award to applicants who  
have graduated with high distinction  
in scientific study.

Studentships of the value of \$500  
will be open to award to applicants who  
have already done some original gradu-  
ate research in science.

Fellowships of the value of \$550  
will be open to award to applicants who  
have given distinct evidence of capacity  
to conduct independent research in  
science.

Attention is called to the fact that  
owing to drastic reduction in the ap-  
propriation available this year for  
scholarships, only a limited number of  
awards can be granted. Consequently,  
applications should be strictly confined  
to candidates with outstanding records,  
both in their undergraduate and post-  
graduate courses.

March first is the final date on which  
application may be made.

Application blanks and copies of the  
regulations governing these awards  
may be obtained from the Registrar  
of your University. Mail applications  
direct to "The Secretary, National Re-  
search Council, Ottawa."

## TREATY OF VERSAILLES DECLARED A FAILURE

(Continued from Page 1)

manners in the procedure which are  
accepted. The new parliaments knew  
nothing of these things. They were  
blamed for the unfavourable peace  
treaties; they had to reorganize de-  
feated and disgraced countries; be-  
cause of the multiplicity of parties  
their inefficiency was very glaring.  
There was corruption and said Mr.  
Riddell, "corruption was discredited by  
people who didn't understand tradition."  
"Franchise was formerly restricted so  
that voters had time to formulate  
sound opinions. Now the appeals are  
emotional and decisions made on the  
eve of an election. The voting is less  
rational and few people know what  
the real issues are."

The opposition in a new democracy  
has not the patriotism of "His Maj-  
esty's most loyal opposition." Nation-  
alism is now in direct antipathy to  
democracy. All the new states are  
against the ceding of sovereign rights  
to the League of Nations.

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at  
either the men's office in Hart House, or at the women's office in  
University College. No notices will be taken over the telephone, after  
6 p.m. notices must be taken to the Press Building. Notices for the  
Bulletin Board are limited to ONE insertion only.

### PHYSICS LECTURE

Dr. W. H. Kold of the Laboratory  
of the Rogers Radio Tubes Co. Ltd.,  
will lecture in the Physics Building  
(Room 43) on Friday evening, Feb-  
ruary 1st at 8 o'clock on "The Braun  
Tube or Cathode Ray Tube". The lec-  
ture will be illustrated by slides and  
experiments.

### M. AND P. SOCIETY

The M. and P. Society will hold the  
annual At-Home on Mon. Feb. 18.  
Oak Room, Union Station. Watch for  
further details.

### THE FORUM

Meeting to be held today at 4 p.m.  
in Room 3, U.C. Mr. Keenan will be  
in the chair and Messrs. Daly and  
Jones will speak. Last week's meeting  
was not well attended. Members please  
note and come if at all possible. A  
popular member of the staff will be  
present.

### 3T6 VICTORIA

Skating party planned for Saturday  
afternoon has been postponed until  
further notice.

### RIFLE ASSOCIATION

Tonight is the last night for the spoon  
shot. Don't miss it. Team practice to-  
morrow at 1 p.m. All those turn out  
who were at last week's practice.

### T. I. C. C. U.

Saturday, Feb. 2nd. The Toronto In-  
tercollegiate Christian Union is con-  
ducting a Week-End Rally at The  
People's Church, 100 Bloor St. E. The  
meetings commence at 3 p.m. and 7:30  
p.m. Supper at 6 p.m. All University  
students are invited to attend the meet-  
ings.

### C.C.F. CLUB

Dr. Luke Teskey, provincial organ-  
izer, and candidate in South York, will  
address the C.C.F. Club in Wymilwood  
at eight o'clock on Wednesday, Feb-  
ruary 6th.

### T. I. C. C. U.

Sunday, Feb. 3rd, 11 a.m. The In-  
ter-Varsity Christian Fellowship has  
arranged for a special Student Service  
in Knox College Chapel. Bishop Lucas  
will preach. All students invited.

### WYMLWOOD MUSICALS

Guest artists, the Canadian Singers,  
accompanied by Mr. W. E. Cameron,  
Wymilwood Hall, Sunday, Feb. 3 at  
9 p.m.

### C.O.T.C. BALL

Announcement has come from the  
U. of T. contingent, C.O.T.C., that all  
tickets for the annual ball have been  
distributed. No further applications will  
be considered.

## 'TWIXT TWO

Dearest Phyl:

With a magnificent medley of meta-  
phors, one of the first speakers at the  
Hart House debate cursed the pioneers:  
"Those ruffianly exploiters of our  
country skimmed the cream from our  
virgin resources"—just one of the  
bons mots that passed completely un-  
noticed. When Stephen Leacock rose  
to close the debate there was wild ap-  
plause; everybody expected him to be  
funny, but the most comical part of it  
all was the way he laughed ahead of  
time at his own joke. He ranted about  
the foolish debaters who are ruining  
our country trying to make all the old  
forms, the outworn clichés still do  
service. But he found oratory in the  
grand style very useful in his own  
mouth.

He referred rather cuttingly to the  
mania for self-assertion which posses-  
sed those youthful Ciceros who were  
bold enough to speak before him. He  
didn't like the cultivation of what  
seemed to him the great waste of time  
—oratory. But is it a useless occupa-  
tion—isn't it rather a valuable means  
of learning to express oneself and

think clearly; to forget one's self-  
consciousness and acquire poise; to dig  
up all sorts of arguments for the un-  
popular side of a question? Hart House  
debates have failed to provide a high  
standard for the rest of the campus.  
Each month we hear the Communists  
wistfully pleading for Marx, the Lib-  
erals for individualism, booming like  
Bennett and always a fascist from  
St. Mike's. Never in their lives do these  
people try to find the truth, to speak  
against their own convictions; they wal-  
low blindly in their dogmatism till they  
die.

According to Walter Lippmann, de-  
bates are dead and dull. The emphasis  
always lies on words and little ways  
of tripping up opponents. The listeners  
of a debate get the raw deal every  
time—they never learn anything but  
how to be smart. The trouble is that  
speech is nothing but a means of re-  
presenting our thoughts and falsely  
misusing our intellects to arouse emo-  
tion. It would be preferable to expect  
each speaker to give both sides of a  
question and show honesty rather than  
fool himself.

—Ted.

## O.A.C. SCALPS TRINITY IN GUELPH PLAYOFF

O.A.C.'s intercollegiate basketball team  
took Trinity into camp by a 19-7 score  
at Guelph last night. Trinity had their  
share of the territorial play but lost  
the game through inaccurate shooting.  
Over-anxiousness detracted from the  
effectiveness of both teams and poor  
shooting, rather than close checking,  
held the score down to 5-4 in favour  
of Trinity at half time.

In the second half the "farmers"  
began to find the basket and ran in 7  
counters, while the best Trinity could  
do was two fouls, both by Stewart.  
O.A.C. showed a little combination,  
while Trinity's numerous long shots  
got them nowhere.

O.A.C.: Cook (4), Campbell (2),  
Aysworth (1), Crowe, Bradbury (4),  
Gerran (8), Huff and Bartlett.  
Trinity: Grant (2), Harvie, Stewart  
(2), A'Court (3), Carzon, Spoles.

### RADIO DEBATE

(Continued from Page 1)

radical departure from those usually  
held in Hart House, for it is to be  
broadcast over all Ontario and in that  
way will enable the people to get in  
touch with student opinion. It is to be  
hoped that they will avail themselves  
of this opportunity and, moreover, if

## STUDY OF EUGENICS

(Continued from Page 1)

ern warfare kills the strongest and the  
wisest of the generation and results in  
the propagation of the race by weak-  
lings and mentally unfit and results in  
a definitely inferior class of children.  
Our social system tends to preserve  
the weak from the operation of the  
natural laws of survival of the fittest.  
The insane and the feeble-minded  
should be segregated in order to pre-  
vent them from propagating. Steriliza-  
tion of the feeble-minded with their  
permission if capable of giving it or  
with the consent of their guardians if  
they are not capable of giving it was  
held out as a means of avoiding the  
danger of having the feeble-minded re-  
produce their kind.

The tendency is now for professional  
and higher mercantile classes to have  
smaller families. Professors, said the  
doctor, have on the average one and a  
half children, whereas if the profes-  
sorial class is not to die out they must  
have at least four. "It may seem like  
a good thing to you now to have the  
professors die out, but it won't seem  
so good to you later on."

the co-eds feel that they are missing  
something in the Hart House debates,  
these are certainly open to them.

## A STUDIO COUCH

Is a Grand Thing to Have in Your House

If you have a small room yet want it to look like a living  
room . . . the smartest way to do it is to have a studio couch  
and EATON'S has some beauties offered just now at Semi-  
annual sale prices.

The one sketched is awfully good-looking in green, rust or  
brown novelty cotton cover. It's fitted with an inner spring  
mattress and sagless cable spring. And if you wish may be  
opened into two single beds or a large double one.

And the low sale price is only \$25.50.

May be purchased on the D.P. Plan if desired.

FOURTH FLOOR

EATON'S—COLLEGE STREET

## CHAMPUS CAT

(Continued from Page 2)

cent amateur production. The hero in  
George M. Cohan's *All Dressed Up*  
deserts his tailor's apprenticeship to  
become, by hook or by crook, a man  
of destiny, and very nearly succeeds.  
To his newly won society sweetheart  
he boasts, "I'm going to do the things  
Napoleon left undone."

After his fall from temporary grace,  
the haughty young lady discovers him  
back in the tailor shop pressing a pair  
of trousers.

"So these," she muttered (to the  
horror of the home folks), "are what  
Napoleon left undone!"

C—C

Which may prove the undoing of  
The Muddy Yorker.

## ART, MUSIC AND DRAMA

(Continued from Page 2)

day Afternoon Recital to be held at 5  
p.m. in the music room. On this occa-  
sion Myrtle Bruce Brown, Florence  
Richardson, Muriel MacDonald and  
Mrs. Leo Smith will be the assisting  
artists.

## St. Thomas Church

At the Choral Eucharist service at  
11 a.m. Sunday, the Rev. J. R. Davies,  
M.A., will preach and the service will  
be sung to music composed by Dr.  
Willan; also the motet, "O Sacred  
Feast", is from the pen of this Cana-  
dian composer. The Rev. W. Lyndon  
Smith, M.A., will preach at the 7 p.m.  
Choral Evensong and Areade's "Ave  
Maria" will be sung. The next Even-  
tide Recital will be given Sunday, Feb-  
ruary 10th.

## French Club Play

Last night's production of *Le Voyage  
de Monsieur Perrichon* raises in  
the mind an important question. Is  
the French Club's annual show an ex-  
hibition of proficiency in the French  
tongue or an entertainment for that  
part of the general public which un-  
derstands and enjoys the language. As  
a display of lingual dexterity one can  
have little fault to find, but as an  
amusement it was most disappointing,  
save for the delightful acting of Stan-  
ley Aquarone in the leading role. Be-  
fore choosing another Labiche farce  
for public presentation, the French  
Club would do well to ponder the no-  
tably limited potentialities of a pig's  
ear.

The diction of the players was ex-

cellent and on that score any adverse  
criticism is precluded. The pure vowels  
and difficult consonants of French were  
really admirably produced. All con-  
cerned must have laboured hard and  
long on this difficult aspect of the play  
and the results were praiseworthy.

As M. Perrichon, Mr. Aquarone had  
a good deal of responsibility in his  
hands and he discharged it brilliantly.  
From beginning to end he carried the  
play with a fine sense of tempo notice-  
ably absent in the rest of the cast.  
Betty Price's Mme. Perrichon was  
good, and would have been splendid but  
for the bad cold from which she was  
obviously suffering. Eric Medcalf as  
Le Commandant Mathieu displayed a  
command of the language and acting  
ability somewhat marred by incoher-  
ence in both departments. Mr. Yarrill  
was good enough to be playing a much  
bigger part than that of Majorion.

On the whole, the players seemed con-  
tent to spout their lines like a public  
fountain and to move through their  
parts at a steady jog-trot. The large  
and responsive, if somewhat collegiate  
audience, demonstrated that there is  
an ample public for French plays; in  
fact only the magical power of the  
press made it possible for your humble  
critic to gain admittance at all. It is a  
pity that preoccupation with diction,  
on the part of both players and producers,  
prevented a more satisfactory perfor-  
mance.

G.H.R.

## STUDENT ATTITUDE DRAWS CENSURE

(Continued from Page 1)

their faculties for self-expression.  
"Russia and the Scandinavian countries  
have made a remarkable advance in  
education along these lines, and in the  
Canadian schools where experiments  
have been tried on these principles the  
results have been gratifying, since his-  
conduct has been decreased and the  
pupils actually enjoy attending school,"  
stated Mrs. Henderson.

Thus psychological factors are play-  
ing an increasingly important part in  
education today and indeed in Den-  
mark each teacher is a trained psychol-  
ogist and in that country as well as in  
Russia each student is given a psycho-  
logical analysis and directed to pursue  
the career for which he or she is best  
fitted. Dr. Henderson hopes that this  
system will be applied to the Canadian  
schools, although as yet it appears that  
it will take considerable time before  
such a change is effected.

### NOTED EDUCATIONALIST DEAD; PRINCIPAL OF UPPER CANADA, DR. GRANT WIDELY MOURNED

Distinguished Career Closes  
After Short Illness  
of One Week

#### BROADENED EDUCATION

Outside Activities Included  
League of Nations Work,  
Civil Service Reform

After a week's illness, Major William Lawson Grant, M.A., LL.D. (Queen's and Toronto), Principal of Upper Canada College, died at 3 o'clock yesterday morning. He was in his sixty-third year.

In the realm of education, in Canada and internationally, the name and influence of Dr. Grant have had to be reckoned with. Fearless and independent, he seldom concealed his strong feelings concerning the need for educational reform. Many of his ideas he put into practice at Upper Canada, where he tried energetically to broaden the scope of pre-university training, introducing among other things studies in music and public affairs. Those who knew him well describe him as combining the more austere and conservative Scottish traditions of education with a remarkable flexibility and imagination which enabled him to relax the rigorous classical doctrines when he found what he thought was worthwhile in more modern ideas.

Dr. Grant took an active and interested part in the Workers' Educational Association, which strives to educate adults who have had little opportunity for earlier training. He made many warm friends among the members of the W.E.A. during the considerable period in which he taught classes there.

A field of reform outside education in which Dr. Grant was intensely and vigorously interested was that of the Civil Service, and he wrote many magazine articles on this subject during his life.

The son of former Principal George Monro Grant of Queen's, himself a famous educationalist in his time, Dr. Grant was educated at Queen's and Oxford. At the latter university he

### "Canada Should Give Up Seat In Labor Office"—Grauer

Canada not in Eight Leading  
Industrial Nations, so  
Protest Useless

#### U.S., RUSSIA JOIN

"Canada would do far better to follow Belgium and accept with grace her demotion from the governing body of the International Labour Office," stated Dr. A. E. Grauer in an interview with *The Varsity*. "There can be little doubt that Canada is not among the eight leading industrial nations, and that therefore Riddell's proposal to appeal to the Council of the League of Nations, while provided for in the Peace Treaty, would be a useless gesture."

The displacement of Canada and Belgium from the executive of the Labour Organization is due to the recent admission of two of the great nations, namely, United States and Russia. The latter has sufficiently overcome her repugnance to "capitalistic alliances" to join both the League and the I.L.O. As for the United States, President Roosevelt early became in-

### Sunday Evening Concert Tickets

Representatives from the various colleges and faculties are requested to call at the Warden's office on Monday 4th February between 12.30 and 1.30 p.m. for their allotment of tickets for the Sunday Evening Concert on 10th February when the artists will be Joyce Hornyansky, Florence Richardson and Eugene Kash.

Every member is urged, if he finds he cannot use his ticket, to return it to the Hall Porter's desk if at all possible before 1 p.m. on Thursday 7th February.

### SENSATIONAL PRESS DEPLORED BY AULD

Political Economy Professor  
Calls Hauptmann Publicity  
"Contrary to Justice"

#### PRAISES BRITISH METHOD

The sensational publicity that has recently been given to the Hauptmann case in the United States by both press and radio was termed "undesirable" and "absolutely contrary to justice" by Professor F. C. Auld, of the Department of Political Economy, when interviewed by *The Varsity* on Saturday.

"If such a thing happened in this country," he said, "I would like to see the judge issue an order for contempt of court. It would have a salutary effect if a few such cases were sent to jail."

He much preferred, he said, the attitude of the English papers, which studiously keep their reports of such matters to mere details, and characterized it as an intolerable state of affairs when the radio usurps the functions of judge and jury, and evidence excluded from court can be sold to the newspapers or syndicates for publication.

### NEWS OF THE WORLD IN BRIEF

London—England and France yesterday completed a defensive air-alliance with Germany, Italy and Belgium will be invited to join. Another proposal to be considered by these five powers is the readjustment of the Armament Clauses in the Versailles Treaty.

Ottawa—Mr. Bennett will introduce new legislation in the next week to provide a forty-eight hour week as maximum for workers in industrial concerns.

Bronte—Rescue efforts for the ice-bound Bronte fishermen succeeded late Saturday afternoon when an open launch brought the three marooned men back to land after other methods of search had failed.

Washington—Reports from Washington state that the United States is preparing a black list for those countries which continue to discriminate against American goods.

### BLUES HUMBLING BY RED SKATERS IN DULL HOCKEY

Montrealers, with No Losses,  
Now Practically Sure  
of College Title

#### VARSITY DISAPPOINTING

McGill Less Powerful than  
Last Year, but Heavy;  
Crutchfield Stars

#### By Ken Burn

In a listless game that lacked the sparkle which enables promoters to truthfully call hockey the fastest game in the world, McGill defeated Varsity 4-2 at the Arena Saturday night. This victory practically assures the Redmen of the college title as they have registered three victories in as many starts while neither Queen's nor Varsity have yet broken into the win column.

Varsity turned in a very disappointing game and unless they show a remarkable reversal of form should not provide much opposition to the McGill team in Montreal. Their fighting, never-say-die spirit, which has drawn many loyal supporters to the banner of a losing team, was only noticeable

(Continued on Page 3)

### CAMPUS SOCIETY 'TAKES OUT' PAPER

"Gateway's" Invitation Taken  
by "Militant Misogynist"  
Students

#### AT ALBERTA UNIVERSITY

The staff of *The Gateway*, the student publication of the University of Alberta, recently issued an invitation to any campus society to take out an issue. This invitation has been accepted by "The Society of Militant Misogynists" and the forthcoming issue is awaited with lively interest by Alberta students and members of *The Gateway* staff particularly.

This action establishes a precedent for Canadian universities as far as *The Varsity* is able to ascertain, and should be productive of interesting results and may lead to widespread repercussions in other universities.

There is a possibility that *The Varsity* may try a similar experiment.

### CHINESE VESSELS SHOWN AT MUSEUM

Collection Dates Back Far As  
1050 B.C., Says W. C. White  
in Talk on Rituals

An interesting account of early Chinese customs was given in a lecture by W. C. White at the Museum on Friday afternoon. Some of the old glamour was recaptured in his accounts of the early Chinese festivals.

In the early days there was natural religion. In Chinese Neolithic times ancestral worship was carried out with regard to their ideas of death. In those days, ancestral worship was the very backbone of ceremony in China.

In general there were two main types of ritual vessels; those used in courts and in the homes on festive occasions; and those that have to do with ancestral worship. In the Royal Ontario Museum there are seven or eight of that set. These go back to about 1050 B.C. Some forty or more

### John Dix Funeral

A special college funeral service for the late John Everest Dix will be held in the Victoria College chapel at 11.15 this morning. The body will lie in state from 11.00 to 11.15 o'clock.

Regular chapel, and morning lectures after 11.00 o'clock at Victoria, are cancelled.

### MAYOR SUGGESTS 'UNIVERSITY DAY'

Sees Need for Closer Relation  
Between Students and  
Citizen Body

#### SPENDING IS IMPORTANT

Yesterday at his home on Indian Rd., *The Varsity* interviewed Mayor James Simpson. The subject upon which the mayor was questioned was a statement printed in a downtown newspaper in which he said that there should be closer relationships between the city and the University.

Mayor Simpson, contrary to many men who have occupied important positions in the city government, realizes the contribution which the University has made and is making to the city. "Few people comprehend," he said, "the amount of money placed in circulation in Toronto by the students at the University." Mr. Simpson went on to point out all the persons there were who obtained their living directly or indirectly from University students. "Not only this," he continued, "but Toronto University is one of the finest universities in the world and that in itself is a very strong factor in bringing people to Toronto. But the great contributions which the University makes to the city, in the mayor's opinion, are those intellectual and cultural influences which play such an important part in the life of Toronto.

Realizing all this, Mr. Simpson intends to take some action in order to bring a closer connection between the University and the city. One plan which he has in mind would be the setting aside annually of some certain day, to be known as "University Day". On this day the various departments of the University would be given the

### FRENCH PICTURES GAIN POPULARITY

Wednesday Performances  
Throughout Afternoon  
and Evening

The films sponsored by the French Department are now being given in the afternoon and evening, first presentation being on Wednesday, February 6 at the Hollywood.

"La Guerre des Valées," said Miss MacDonald of the staff, "brings again the inimitable Chaplin remembered for his splendid character portrayals in *Le Barbier de Séville* and *Le Gendre de M. Poirier*. The role of Queen Victoria is taken by Madeleine Ozary who is at present thrilling Paris in *The Constant Nymph*. The charming Ferdinand Gravey makes a delightful Strauss. Melichar has arranged the musical score, basing it on themes from the rival composers."

*Les Miserables* has been definitely booked for Saturday morning, coming April 6, 13 and 20. These are the only days for which the picture could be obtained, stated Miss MacDonald. "The picture is a masterpiece and we are very fortunate in having it. It will be

### SECOND-PERIOD SCORING DRIVE GIVES BLUES 44-22 VICTORY OVER ST. KITTS BASKETEERS

Varsity Second-String Quintet is Soon Taken Out as Squad  
from Fruit-farm District Takes 4-2 Lead at End  
of First Five Minutes of Play

#### STELLAR OFFENSIVE BY VARSITY IN SECOND HALF

Marks, Connelly, Gold, Meagher, and Crowley Are White Hopes  
of Lew Hayman in Brilliant Exhibition  
of All-Star Combination Work

#### By M. Gluskin

One of the largest crowds of the current basketball season, including quite a delegation of fans from the Garden City, saw Lew Hayman's Varsity senior double the score on St. Catharines' Big Six team at Hart House on Saturday night, the final count being 44-22.

After some ragged and sloppy basketball which found them down 11-9 to the visitors at half-time, the Blues began a tremendous scoring drive in the second half that finally netted them 35 points as against 11 scored by St. Kitts, who were only enabled to score 2 baskets in the last 4 minutes of play in the second half. Every Blue cager but Gordon, who also played effectively while on, shared in the scoring onslaught that cracked the St. Kitts defence wide open and permitted the expert ball-handling and sniping Blues to score almost at will.

### COLLOIDS SHOW TO BE IMPORTANT

Synthetic Rubber, Butter,  
Paper, Brain Cells All  
Colloids

#### KISTLER TALKS TO R.C.I.

Many new and pertinent facts concerning the structure and action of two of the most important colloid materials, cellulose and rubber, and two of the most common classes of colloids, emulsions and gels, were revealed by Dr. S. S. Kistler, Professor of Physical Chemistry at the University of Illinois at the Royal Canadian Institute lecture on Saturday evening.

"Colloidal materials, when dissolved do not go into solution as individual molecules but as groups of molecules," was the definition given by the lecturer. All living material, as well as

Continued on Page 3

Lew Hayman started his second string quintet of Gordon, Newman, Mancel, Munroe and Levy, but yanked them in favour of the Marks, Connelly, Gold, Meagher, Crowley combination after 5 minutes of play with the score 4-2 for St. Kitts. Crowley intercepted a St. Kitts' pass to dribble in for a beautiful basket, which added to two foul shots by Connelly, gave the Blues a 6-4 lead. St. Kitts began taking advantage of Varsity's loose play and, led by Wilf Newman, took an 11-6 lead which was reduced to 11-9 when Bodrug scored a basket and a foul shot near the end of the first half.

Coach Hayman's halftime oration must have inspired the Blues, as they came back with as bewildering a display of offensive basketball as has ever been seen at Hart House. In five minutes the Gold, Marks, Crowley, Meagher, Connelly hoopers had assumed an 18-13 lead which rose to 30-15 after 10 minutes of the second half. Even Hayman's substitution of the second team did not impair the effectiveness of the Blue hoopers as they continued the scoring barrage led by Bodrug and

### Varsity Radio Debaters Win On Canada Constitution Issue

#### Symphony Tickets

A limited number of special student tickets for the Toronto Symphony Orchestra concert of Tuesday 5th February will be on sale at the Hall Porter's desk, Hart House, on Monday and Tuesday from 12.30 to 1.30 p.m.

### C.O.T.C. Ball Is Gay Affair

Hart House was the scene of the annual ball of the University of Toronto Contingent, Canadian Officers' Training Corps last Friday evening. Dancing in the beautifully decorated gymnasium, two hundred and fifty couples spent a happy evening under the musical guidance of Nels Kelly and his orchestra.

Supper was served in the Great Hall and the Faculty Union, and the swimming pool used for sitting out. Among the distinguished visitors were the officer commanding, Lt-Col. J. R. Cockburn, M.C., and the Honorary Colonel, President H. J. Cody, and the patronesses Mrs. H. J. Cody, Mrs. R. Loudon, Mrs. H. H. Madill, Mrs. W. S. Wilson and Mrs. M. B. Watson.

Show Canada to be Suffering  
Because of Divided  
Authority

#### "B.N.A. ACT OUTMODDED"

Messrs. S. F. Rae and S. M. Hermant, representing the University of Toronto, were once again successful in the series of intercollegiate debates by radio, when, over CKNC on Friday evening, they defended the motion "Resolved that Canada can never be a nation so long as we have separate provincial governments." The debate marked the elimination from the series of the University of Western Ontario, represented by Miss Angela Arnott and Edward Fox.

Messrs. Rae and Hermant showed Canada to be handicapped in many ways both in her external and her internal affairs, by the interference of her provincial governments. Internally her social welfare was impeded by her inability to pass bills covering minimum wage laws, unemployment insurance and social insurance that could be enforced throughout the dominion. Her relations with other nations had practically no significance because of provincial interference. At Geneva, her voice has been continually stifled be-

## Our Apologies, Queen's

Periodically, Hart House authorities conduct a systematic check-up of everyone present in the house to make sure that they are all members. These check-ups are a very good idea, particularly during the winter when there are a number of overcoats stolen, but like any other good idea, may be overdone. We refer to the ejection of visiting representatives from other universities because they have not been introduced properly.

Any student has only himself to blame if he is caught without his registration card, and told very brusquely to "get out", but visitors from neighbouring colleges should at least merit the interjection of "please", "if you don't mind", or perhaps even an explanation of the house rules. In particular when the visitor happens to be a representative from the campus newspaper, the resulting publicity can only be damaging to the prestige of the University of Toronto in his home college.

The specific instance to which we object occurred last Saturday morning, when the visiting reporter from the *Queen's Journal* was told to "get out", very plainly and, in our opinion, very rudely. The representative of the *McGill Daily* was also in the house at the time, and no doubt met with the same treatment. At any rate he did not reappear at the office of *The Varsity* as he had planned, probably because he had been told to leave the building.

Representatives from this paper are invariably treated with courtesy when visiting other universities, and we feel sorry that the University of Toronto should be shown in such a bad light in comparison. It has become customary for visiting reporters to pay a visit to the office of this paper to identify themselves when they arrive in the city, and we should like this pleasant habit to continue. In the light of last Saturday's happenings, the custom seems to be in danger of dying out.

Hart House is, of course, perfectly within its rights in ejecting visitors from other colleges, but is this a wise course to take? We can not but feel that by ejecting these reporters on Saturday, the official guardian of Hart House showed a deplorable lack of that hospitality for which the University of Toronto should be known, the courtesy for which Hart House management usually is known, and the tact for which that gentlemen himself always has been known.

To our guests from the *McGill Daily* and the *Queen's Journal* and to their respective papers we can only apologize. Such treatment is not typical of the University of Toronto.

## The Motion Picture Situation

In circles of the alleged intelligentsia, among which we presumably may include university students, when the talk turns to motion picture films, it has become a matter of course to deplore the whole film industry and dismiss the subject with the assertion that ninety per cent of its products are rubbish.

This attitude is not without justification. Since the moving picture industry began, the public has been subjected to a deluge of trashy films supported by clever advertising, that are not only worthless but in many cases subversive of the public good. This

is a commonplace. On the other hand, the various studios have succeeded at one time and another in producing pictures of superlative merit. Of late, the public has been treated to a number of historical films of great entertainment value. It is a remarkable achievement on the part of the producers that they have been able to bring out this entertainment feature in films treating of historical subject matter in a manner, if anything, more successful than in films whose avowed purpose is simply to entertain. An example of this superior type of entertainment is to be seen in the new Gaumont British production, "The Iron Duke", with Mr. George Arliss, which is to be released shortly.

The problem—and it is one in which every University student should take an interest—is to encourage the production of this better class of picture, this much is obvious. It is simply not enough to deplore the condition of the industry. The only language the producers can understand is that of box office receipts. It is to our interest then, if we wish to effect any kind of reform upon the motion picture industry, to see that the box office tells the producer what we want and what we don't want in entertainment. A more efficacious method of reform, of course, would be to take the production of films out of the hands of individuals who are activated solely by the profit motive and put it in the hands of persons whose interest is the common good. We must leave that until the advent of socialism, however, and turn our attention to the more immediate method of merely showing studently discrimination in our choice of films.

## "For Reasons . . ."

It has become fashionable to criticise the present economic system and its attendant ills. Even Mr. Bennett, whom the system has served right well, if his wealth is any criterion, is denouncing it and warning the country that fascism will follow in the laissez-faire Liberal wake. The York County Council apparently has not been affected yet. The other day Mr. Shatz, Chairman of the York County Collegiate Board, was dropped from that Board, although he has served on it for four years, and sitting members, unless proven utterly incapable, are invariably re-appointed. The fact that in 1933 Mr. Shatz was elected vice-chairman of the board and in 1934 chairman, sufficed to show the esteem in which he is held by his colleagues.

But Mr. Shatz was active in the Canadian League Against War and Fascism (along with Rev. Salem Bland). On Armistice Day he spoke at York Memorial Collegiate Institute condemning war and fascism. His speech was enthusiastically received by the majority of those present. York Memorial Collegiate Institute, however, has a small band of fascist students with pro-Nazi leanings. They disagreed strongly with his speech and sent a letter of protest to the Board defending the New Germany and fascism as found there. The Board filed the letter.

On several occasions Mr. Shatz's speeches showed him actively opposed to war and fascism and a staunch upholder of the British tradition of freedom of speech. When the Russian film "Ten Days that Shook the World", was to be shown in the collegiate, the local Council of Women protested that the film ought to be suppressed and attacked the Chairman of the Board. The Board filed their complaints.

Three years ago teachers' salaries were cut twenty per cent. Last year Mr. Shatz, with the unanimous support of the Board, was successful in restoring half the cut. This year the board proposed to raise the salaries again. These actions have not, it seems, found favour in the eyes of the County Council, composed in the main of old guard Conservatives, and Mr. Shatz has been dropped from the Board for "reasons it would not be in the best interests of the County to reveal" although his "ability and personal integrity are not questioned".

We have always felt that the indiscriminate use of terms such as "fascization of education" and "cultural reaction", was to be condemned but, this incident coming as it does so close on the heels of King Gordon's much publicized dismissal and the refusal to allow professors of the University of Alberta to take part in politics and similar if less famous or rather infamous examples of suppression gives food for thought. Two years ago a professor of economics giving his final lecture of the year to the graduating class declared: "If any of you come back for extended graduate work, you will probably find that you won't be getting lectures such as you got today, since they will, in all probability, be read by the authorities before delivered." There seems to be a definite trend in all this and the question is: Will Varsity be next?

## ART, MUSIC & DRAMA

### Art Gallery

The current exhibition of "International Watercolours" in the Hart House gallery is a cosmopolitan curiosity of a somewhat puzzling nature. It could perhaps be summed up in the one word, fresh. The pictures are in no way representative of the eight different countries to which the catalogue says they owe their origin. America, England, France, Germany, Italy, Japan, Spain and Mexico are stated as the sources of this small collection. England, the leading country in water-colour painting of this era, is represented by one lone production of E. Barnard Lintott.

The two examples from Mexico entitled Head and Jungle Scene, which are no doubt intended to exemplify the renaissance art of that land, attract attention by their peculiar qualities of technique and colouring. Both have good decorative qualities. Japan is inappropriately signified by a mysterious effort captioned Picking Wood on the Sidewalks of New York. Among others we fail to catch the significance of the Little Garden Sprite by a Mr. Paul Klee of Germany.

W.L.S.

Continued on Page 4

Since the Muse of Humour has evidently decided to prolong her visit to Florida, even though the cold snap is over, the Cat must again fall back on the Feature Editor's contribution file. If anyone were to examine an F.E.'s pockets the meaning of that statement would be much clearer. An examination of our pockets this morning revealed:

Item, Two dance programmes. Item, A copy of Toke Oike. Item, Eight cigarette cards. Item, 1 Hart House shoe shine ticket (expired). Item, A San Toy programme (autographed by Chas. Jolliffe. Any offers?). A last year's driver's license. 4 contributions to the Cat. (2 from Mundusvult, used. 1 history of the cold snap, and 1 bit from the Women's Editor). Item, An obscene parody on Hamlet's soliloquy, and a parody on the Mitch scene from Macbeth (used). Also a poem, quoted by a U.C. professor in a lecture, which we present here.

## Let's Go Places

*Wings in the Dark*, at the Imperial, is one of those pictures that sneak up on you without any ballyhoo and provide a pleasant surprise in the form of an unusual story well filmed. Cary Grant is a famous pilot conducting experimental work in the new art of "flying blind", piloting from take-off to landing by instrument alone. When a gas stove explodes in his face inflicting complete and probably permanent loss of sight, a girl stunt flyer, Myrna Loy, tries to hearten him in his complete dejection at the prospect of being forever "grounded". Grant conceives the amazing scheme of installing in his plane instruments which he can read by touch, to thus convince the skeptics of instrument navigation by showing them that a blind man can fly. The story soars on from there through a brilliant panorama of striking sky photography to reach a clever and convincing climax—with just the slightest drag in the action as hero and heroine profess mutual love via radio telephone from plane to plane.

25c. to 7.00 p.m.

## FRENCH TALKING PICTURE

### "LA GUERRE DES VALSES"

FERNAND GRAVEY and JEANINE CRISPIN

Feature shown at 3.19, 5.24, 7.29, and 9.34 p.m.

*La Guerre des Valse* is right in line with the popular trend in British and American films, as it is concerned with music and musicians. It is an account of the fight between Joseph Lanner and Johann Strauss for the favour of Queen Victoria, when the Queen was choosing an orchestra to play at the royal fetes. Strauss and Lanner were the chief contestants for the honour.

## THE SPORTSWOMAN

By M. A. F.

We had a few qualms over the week-end as to the state the ice would be in for the next few days. But once again fate or whether it is with us and as far as the weather is concerned it would seem that the hockey schedule can proceed as arranged. However, until noon today it will not be settled as to whether or not the game called for 6 p.m. this evening between Vic and St. Hilda's will be played. However, if this match does not come off tonight it will take place at the same time tomorrow.

The games scheduled for last week were all run off with the exception of the one between Vic I and Vic II. Most of the players on both teams were down with flu, but they seem to be recovering nicely and the game will be played on Saturday at the Little Vic rink. May we ask all you hockey fans to bear this change in mind.

You probably all can well imagine the state of the ice for the game at noon on Saturday. Yes, it was terribly soft and in consequence the game was really worse than slow. To make matters more deplorable each team played only five on the ice. Betty Mark kept things going for U.C. and banged in both their goals—she made the last one in the final period to tie up the score at 2-2. For Meds Bliss McQuarrie and Mary Thom each made a goal and turned in very nice games.

We seem to be incessantly harping at you about badminton and swimming. But unfortunately these repeated pep talks are very necessary. A week from tomorrow the entry list for the badminton tournament closes and the big event itself comes off on the 16th of this month. There is a month before the interfaculty swimming meet but constant practice from now on is really imperative. And furthermore in a very short time the three inter-year meets are scheduled to take place. And so again we urge every mermaid in the University to get right in the swim!

## Sport Notices

### Vic Waterpolo—

Important interfaculty game with Trinity, Monday, 4.30 p.m. Everybody out.

### Jr. Vic Basketball—

Game today at 4 p.m. Everyone out.

### Jr. U.C. Baseball—

Game today with Jr. S.P.S. at 4 p.m.

### MAYOR SUGGESTS

#### "UNIVERSITY DAY"

(Continued from Page 1)  
opportunity to bring before the eyes of the people of Toronto the work which they are carrying on. Another plan which Mr. Simpson has in mind would be to make some form of recognition of the Toronto young men and women as they graduated. "This is an occasion which is really of great significance to the city and should be recognized in some definite form."

"Perhaps," he went on, "these two events which I have in mind could be united on the same day." Although these proposals are as yet only "brain children" of Mr. Simpson's, still the realization of them in part at least, will not be very far distant. "In the future there will be more co-operation between the city and the University," said Mr. Simpson.

"On the other hand, do you think the city could benefit from any service which the University might in turn render it?" Mr. Simpson was asked. Then *The Varsity* suggested that with the help of the Department of Economics, perhaps the City Fathers could reduce the tax rate to about 22 mills! "No," Mr. Simpson laughed, "the professors of Economics have their place, but there is nothing they could do in that direction."

## U.C. TRIMS SCHOOL BY SINGLE GOAL IN WATER POLO

Fluke Shot by Thompson Finds S.P.S. Net Near End of Close Game

### GROUP FINALS TODAY

Vic-Trinity, Jr. Meds-Dents, Sr. Meds-Sr. School Are Vital Games

Playing off a postponed game on Friday afternoon Senior U.C. defeated Senior S.P.S. in a close checking interfaculty waterpolo game. Due to the great playing of the respective goalies and to the aforementioned close checking the score was kept down to 1-0. The result of the game does not affect the standing in the group but it won't be until after the last game which is today before the ultimate winner is known. Sr. S.P.S. and Sr. Meds are at present tied for the leadership with Sr. Meds being able to carry off the honours with a win over the U.C. men on Monday.

Starting out with a strong offensive the School team seemed to be on the way to victory until one of their men fouled and was put out for most of the game. The Schoolmen held off a U.C. rally until the end of the period when the score stood at nothing-all. The second half had the S.P.S. team on the defensive most of the way and it wasn't until the dying moments that Walker for U.C. put an impossible shot past Thompson in the School net. Thompson played a wonderful game in goal stopping some sure shots during the second period U.C. rally.

Today there will be three waterpolo games and they all will decide the respective group honours. Besides the Sr. Meds-Sr. S.P.S. game, there will be an all-important game between Vic and Trinity. These teams are also tied at the top of their group and their previous meeting ended in a tie. It will be a close game. To round out the programme Dents will encounter Jr. Meds. If Jr. Meds win the group will be all tied up while if the result is the other way around the Dental students will carry off the honours.

Sr. S.P.S.: Thompson, Charters, Pitts, Morgan, Hoag, Bruce and Zack-anho.  
Sr. U.C.: Gage, Mutteroff, Lipman, Walker, Culiner and Ballantyne.

### JENNINGS CUP SCHEDULE

Feb. 5	4.00	Trinity vs Wycliffe	At Stadium.
6	4.00	Emmanuel vs Jr. Meds	At Stadium.
5.00		Forestry vs Sr. S.P.S.	At Stadium.
5.00		Dents vs U.C.	At Arena.
7	3.30	Vic vs Wycliffe	At Arena.
4.30		Pharmacy vs O.C.E.	At Arena.
8	4.00	Jr. S.P.S. vs Emmanuel	At Stadium.
5.00		Sr. Meds vs Forestry	At Stadium.

### NOTICE

Faкультies are reminded that games must start right on time. Penalty of default will be imposed if clubs are not at full strength by ten minutes after the scheduled time.

### P.T. Credits For Rowing

Only candidates who turn out on the water until July 1st and try to make a position in a crew will be granted credit for P.T. in the following session. In the meantime candidates must take P.T. classes. Those desiring P.T. credits kindly sign the list in the Athletic Office.

T. A. Reed.  
T. R. Loudon.

## SPEAKING OF SPORT

By George C. Vair

Saturday night Bobby Bell's crown crested crusaders from Montreal killed two birds with one stone when they practically blasted Varsity's hopes for an intercollegiate title to the high heavens and broke a long standing jinx by taking the homesters in the Blue Citadel. It is the first time in history that the boys of old McGill have won a hockey game in the Queen City but they certainly deserved their 4-2 triumph on the week-end.

The winners' attack was about as effective as a ship without a rudder in the initial period but the Blues couldn't get organized and successive forays on the Redmen's citadel were eventually broken up by Wigle and Meiklejohn, hard hitting defence on the Red squad. These boys proved to be a brick wall and McHugh in the nets had an easy night, being in difficulty on but few occasions. Halfway through the middle stanza the Redmen began to work like a well-oiled machine and outscored Varsity 3-1.

The visitors play a rugged brand of hockey although they haven't the speed and effectiveness of the 1934 edition. The majority of the players are in first or second year of their respective courses and we wouldn't be surprised to see them as Allan Cup contenders in the near future. Two of the McGill puckchasers sustained minor head injuries in the game, "Bing" Crosby when he tried to crash through the north boards and Wigle when he collided with MacPherson at centre ice.

St. Catharines' hope of sharing the top rung of the Big Six basketball ladder with Lew Hayman's senior hoopers was given a severe jolt when the Blues ran amok in the second half to score a 44-22 win over the visitors. Varsity have scored seven straight victories in their league and are sitting on top of the heap by a considerable margin. Congratulations, team!

The St. Kitts club are a powerful team and are hard to beat on any floor. At half-time they held an 11-9 lead but the Varsity basketballers started off with a bang after the rest period and bombarded the St. Catharines basket for a total of thirty-five points in the last twenty minutes. What we would like to know is what Coach Hayman said to the boys while they were getting a breather between periods. Anyhow it had the desired effect and that is the main thing.

### BLUES HUMBLING BY RED SKATERS

(Continued from Page 1)

by its absence on Saturday night. Outside of the first period when the game was close and fairly interesting, the team appeared to be fully convinced that life is futile. Their backchecking was woefully weak and on many occasions the defence appeared completely disorganized. Varsity's second line was not as lax in this regard and for the first time this season showed to advantage as compared with the work of the first string men.

This year's edition of the Redmen is not nearly as powerful as last year's but they are a heavy team and on Saturday outscored the Blue team. This added speed enabled them, without much danger of being caught flatfooted, to backcheck the Blue team to a standstill. One pleasing feature was their aggressiveness when playing short handed. Their close checking style earned them many tripping penalties yet they continually forced the play into the Varsity zone when the Blue team had a man advantage. Crutchfield, whose brother graduated from McGill to Les Canadiens, was the best man on the ice and should trace a wide path for himself in hockey circles.

The first period produced more good hockey than the last two periods. Jimmy MacPherson raised the hopes of the Blue supporters when he scored the first goal after eleven minutes of play. Ernie Rey, although not credited in the official scoring summary deserves a lot of applause for the initial counter. The speedy defenceman stick-handled his way through the McGill defence and took his shot. Hendry cut in from the wing and poked at the rebound but it was not until the Varsity captain got his stick on the puck that it went into the net. Crutchfield evened up matters a minute later when, after he appeared to be stopped by the defence, he shook himself loose and sailed in to beat Loughheed. Both teams attacked dangerously for the remainder of the period but the red light never flickered.

The second McGill goal was typical of the spirit of the rest of the game. Early in the second period Wigle was chased for tripping and Crutchfield was ragging the puck in order to waste time. He started from his own blue line and coasted to the Blue net. Although two Varsity men trailed him all the way he managed to take a leisurely shot at the goal that left Loughheed fanning. In the dying seconds of the period Morse centred out to Crosby

who deflected the pass into the net to put the Redmen two goals up.

Although trailing by two goals Varsity didn't force the play in the third period and McLernon cinched the game when he scored the fourth McGill tally. The final Varsity goal came in the last few minutes when the Blue team were playing five forwards in a hopeless effort to salvage the game. From a scramble in front of the net, McLernon and MacPherson simultaneously banged at the disc with the former getting the official nod for the counter.

McGill: Goal, McHugh; defence, Meiklejohn, Wigle; centre, Crutchfield; wings, Duff, McLernon; alternates, Lamb, Elie, Crosby and Morse.  
Varsity: Goal, Loughheed; defence, Rey, Charles; centre, McLeland; wings, Hendry, MacPherson; alternates, Campbell, Devine, Jeffreys and Valiquette.

Referee: J. Mitchell, Hamilton.

### SUMMARY

#### First Period

Varsity.....MacPherson (Hendry)	11.00
McGill.....Crutchfield	12.30
Second Period	
McGill.....Crutchfield	6.30
McGill.....Crosby (Morse)	19.20
Third Period	
McGill.....McLernon	6.30
Varsity.....McLeland (McPherson)	15.50

Penalties—First period: Wigle, Jeffreys, Campbell; second period: Wigle, MacPherson, McLernon, Crosby; third period: McLernon, Meiklejohn.

### SENSATIONAL PRESS DEPLORED BY AULD

(Continued from Page 1)

tion. British justice, he said, allows only evidence given in open court and subject to cross-examination, when the prisoner is safeguarded by the rules of the court.

Sensationalism in the treatment of such cases has its effect on the judge and jury, even when they are prohibited from reading it, he said, yet every man should be entitled to the benefit of the doubt, and the presumption of innocence should be in his favour. When asked whether he thought such an emotional handling of the case was due to the demands of the public or to newspapers seeking greater circulation, he stated that newspapers were largely responsible for forming public opinion. "I doubt," he said, "if papers realize the importance of their influence over public opinion." On being asked, however, what he thought of the way the Toronto papers had dealt with the Labatt case, he said that on the whole they had handled the matter with commendable restraint.

### VARSITY DEBATERS WIN

CONSTITUTION ISSUE  
(Continued from Page 1)

cause, though her representatives may be in favour of motions passed there, yet they are aware that there can be no hope of enforcing them in Canada, once again due to this interference.

The relations between British Columbia and Japan were cited as an example of the way in which one province often dictates the foreign policy of the whole dominion, even though that policy may not be to the advantage of the country as a whole. The British North America Act was shown to be no longer to Canada's advantage. "When the economy of Canada was a local one," said Mr. Rae, "the Act served Canada well." But now that she has emerged to become an important country its limitations are only a hindrance to the country's growth. "A nation which cannot change her external laws is no real nation. Our constitution of 1867 has failed to meet the problems of today. To amend the constitution each of the nine governments must be in favour of that change, with the consequence that no action is ever taken."

The negative differed from the affirmative in the definition of a nation, and claimed that Canada was already one, that she had been since the signing of the Treaty of Versailles, citing Professor G. M. Wrong in support. "Show us, first," Miss Arnett concluded her speech, "that Canada is not already a nation before there can be any argument against provincial governments." Mr. Fox contended that no valid argument against the provincial governments had been set forward by the affirmative. "Abolish these governments," he said, "and their petty quarrels will merely be carried to the Dominion parliament."

The decision of the judges was given on Saturday evening, in favour of the Toronto participants. This is the second debate of the series in which the Toronto team has taken part and in both it has been successful. The next debate will be on Feb. 15th, when the same team will oppose the champions of Western Canada.

In the Eastern Group, Dalhousie, upholding the negative, defeated McGill. In Western Canada, the University of British Columbia is debating against the University of Alberta, and the winner will meet Varsity as noted above. Varsity will uphold the negative of the resolution that "Exploitation is inevitable under the present organization of Canadian industry." These debates are all being broadcast over station CKNC.

### VARSITY CAGE TEAM DEFEATS ST. KITTS

(Continued from Page 1)

Mencel. Two baskets by Dixon in the last four minutes of play plus seven foul shots, was the sum total of the St. Kitts scoring efforts in the second half, which saw the banishment of H. Cambray and Wilf Newman for St. Kitts and Munroe for Varsity by the foul rule. Referee Pogue's "diap-sing in fouls" drew a total of 49 shots. St. Kitts scoring 10 out of 25 chances. Varsity tallying on 16 out of 25 chances.

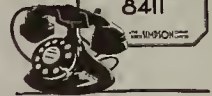

On their play in the second half, every Blue cage that saw action looked like a star. Marks' return to the Blue line-up bolstered the Blue attack considerably. Meagher was high scorer with 9 points, while Bodrug and Connolly, followed close behind with 8 and 7 respectively. Phil Gode gave a smart exhibition, being instrumental in starting most of the Blue scoring plays. Crowley's work at the pivot position marks him as the most improved Blue player this season. Gordon, Newman, Mencel, Munroe and Levy, although used sparingly, played effectively while in action.

Wilf Newman and Dixon were best for the losers, accounting for 15 of St. Kitts' 22 points. Diggins, Haire, Collins, Peart and the Cambray brothers were not up to their usual form due to the brilliance of the Blue attack.

Varsity: Gordon, Newman 2, Mencel 3, Munroe 2, Levy 4, Marks 3, Connolly 7, Gold 1, Crowley 5, Meagher 9, Bodrug 8.

St. Catharines: H. Cambray, Collins 2, C. Cambray, Dixon 7, W. Newman 8, Peart 3, Diggins 1, Haire 1,

In an exhibition curtain raiser to the Varsity-St. Kitts game Mac McCutcheon's intermediates won a close overtime game against the powerful Danforth S.M.C. intermediates, the final score being 36-31. Baskets by Fitton, Himel and Krakauer in the overtime period gave Mac's boys the margin of victory.

Varsity: Sullivan, Carey, Vanderleek, Fitton, Hinch, Doran, Krakauer, Hogg, Dorsey and Gibson.  
Danforth S.M.C.: Newman, Halliday, Willis, Taylor, Manson, White, Anderson, King, Phillip and Martin.

### COLLOIDS SHOWN TO BE IMPORTANT

(Continued from Page 1)

such substances as gelatine, pectin and cellulose, fall under this classification. "It is only in the last ten years that the structure of cellulose has been unravelled," declared Dr. Kistler, "although cellulose is the second most important product of Canada. It is the raw material of the pulp and paper industry, the manufacture of rayon, of moving-picture films and cellophane."

Rubber, the second colloidal material discussed, was the most interesting for its elasticity, but this factor is one of the most difficult to explain. It depends on the irregular arrangement of the molecules which makes crystallization very difficult. Synthetic rubbers called Duprene and Vinyl Chloride which were made by the lecturer, were exhibited. These have perfect elasticity but do not have the snap that rubber has. They are being manufactured by rubber factories under patented names, and the Duprene is a competitor of the much used cellophane.

"An emulsion is a suspension of one liquid in another," Dr. Kistler stated. "Such ordinary materials as butter, cream, mayonnaise and brain cells are perfect emulsions."

An interesting machine for the whipping of cream was demonstrated. It had been invented by one of the professor's students, and the product is made by combining the cream with nitrous oxide or laughing gas.

# THE ARTS BALL HAS BEEN CANCELLED

## Coming Events

## MONDAY, FEBRUARY 4

8.15 p.m.—Mr. S. Carr's study group on "Leninism". Auspices, University Young Communist League, 630 College St. Open to anyone.

## TUESDAY, FEBRUARY 5

1.20—Mr. E. L. Wasson will speak on the subject of "Science and Life" at Wymilwood.

8 p.m.—Study group of Macdonald-Cartier Club, 2 Papers on Grievances of Nova Scotia as compared with those of British Columbia. Dr. Innis will criticize. Members please note.

8 p.m.—English and History Club at Wymilwood.

1.20—Vic women's S.C.M. The first of the series on "Significance of Religion" will be taken by Mr. E. L. Wasson at Wymilwood. At that time Mr. Wasson will speak on "Science and Life".

## WEDNESDAY, FEBRUARY 6

5 p.m.—Vocational Guidance open meeting in Alumni Hall, Victoria College.

8.15—The University C.C.F. Club will meet in Wymilwood.

S.C.M. candy sale in the U.C. Rotunda and the Household Science Bldg.

7.30—Mr. E. L. Wasson will speak on "The Meaning of Friendship" in the common room of Cody House. This is the third in the S.C.M. series on the "Art of Living".

4.15—U.C. Players' Guild presents *The Wolf at the Door* by Daniel Hanlon.

5 p.m.—Sketch Room, Hart House, Mr. Martin Baldwin will speak on "Architecture—the Urge to Build." (Illustrated by slides.)

5 p.m.—Vocational guidance open meeting in Alumni Hall, Victoria College. Address by Dr. K. S. Bernhardt.

## SATURDAY, FEBRUARY 9

8 p.m.—376 Class party will be held in Annesley Hall. Admission by ticket only. See notice elsewhere.

## WEDNESDAY, FEBRUARY 13

8 p.m.—Women's Union. Joint meeting of the W.U.A. and the Literary and Athletic Society of University College. Skits and dancing. All U.C. men and women invited.

## UPPER CANADA PRINCIPAL DR. W. L. GRANT, MOURNED

(Continued from Page 1)

took first honours in "Greats", a rare distinction, achieved by few colonial students. After a few terms as master at St. Andrew's and Upper Canada Colleges, he resumed his studies in Paris and London.

In 1905, Dr. Grant was named Beit Lecturer in Colonial History at Oxford, whence he returned to Canada about 1910 to take a professorship in the same subject at Queen's University.

During the War Dr. Grant went overseas with the 49th Battalion, in which he attained the rank of major. He was injured in France, and returned to Canada in 1917, to become principal of Upper Canada, succeeding Principal Auden. Since the War, like many of those who saw the conflict at first hand, he has been ardent in the cause of peace, and was for some years President of the Toronto branch of the League of Nations Society.

As was natural with one whose interests were so wide, Dr. Grant's writings are numerous. As well as his articles on Civil Service reform, he wrote a biography of Joseph Howe which is highly regarded, and a biography of his father, which he entitled *Principal Grant*. He is also the author of text books, including the *Ontario High School History of Canada*.

Under Dr. Grant's leadership, the attendance at Upper Canada more than doubled. The progressive introductions which he made in the curriculum and the innovations which he brought into the system at the college, were instrumental in bringing to Upper Canada contributions to the college fund of nearly half a million dollars from the Massey Foundation and Carnegie Corporation. These made possible the construction of several new buildings and the almost complete remodelling of the main school, in 1932 and 1933.

Dr. Grant is survived by Mrs. Grant and four children, one son and three daughters. Before her marriage in 1911, Mrs. Grant was Miss Maude E. Parkin, daughter of the late Sir George Parkin, principal of Upper Canada in the early years of the century. Dr. Grant's passing will be mourned by St. Andrew's and Upper Canada Old Boys in Canada and the world over, and by many graduates of U.C.C. in attendance at this university, as well as by his friends in the Workers' Educational Association.

The funeral service will be conducted in the chapel of Upper Canada College at 12.30 noon tomorrow, by Rev. Dr. Stanley Russell of Deer Park United Church and Rev. Dr. J. R. P. Sclater of Old St. Andrew's United Church. In accordance with his own wish, members of the family asked yesterday that no flowers be sent.

## "CANADA SHOULD GIVE UP SEAT IN LABOR OFFICE"

(Continued from Page 1)

terested in the Labour Bureau whose programme was in line with his own progressive ideas, and persuaded the Senate to pass the necessary legislation. There was some doubt as to whether a country not in the League of Nations could associate itself with the I.L.O., but this was ironed out last year, and the U.S. is now a duly constituted member of the Bureau.

As constituted by the Versailles Treaty, the governing body of the I.L.O. consists of representatives of capital and labour from all parts of the world, as well as representatives from the eight leading industrial nations. At present the eight nations are Great Britain, France, Germany, Italy, Japan, India, the United States and Russia. It is obvious as Professor Grauer pointed out, that Canada cannot hope to stand in with these countries in point of industrial importance. Our representatives as Raoul and Riddell, have played a not unworthy role in the history of the Labour Organization; but the Dominion, after all, is not one of the great nations, and would be letting her national pride run away with her if she protested the new arrangement. In any case, provision is made for at least four other industrial nations to be represented on the governing body, and Canada may well be included among their number.

Not by flattering our appetites, but by awakening the heroic that slumbers in every heart, can any religion gain followers.—Carlyle.

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at either the men's office in Hart House, or at the women's office in University College. No notices will be taken over the telephone, after 6 p.m. notices must be taken to the Press Building. Notices for the Bulletin Board are limited to ONE insertion only.

## ENGLISH AND HISTORY CLUB

Next meeting tomorrow night at Wymilwood at 8 p.m. Mr. Wm. Stobie will read a paper on F. S. Eliot.

## 376 VIC CLASS PARTY

Tickets for the Third Year "Hearty Hop" Valentine Party will be sold in the College Hall between first and second lecture periods on Tuesday and Wednesday mornings.

## C. C. F. CLUB

Students interested are requested to keep the evening of Wednesday, February 6th, open for the regular meeting of the University C.C.F. Club in Wymilwood at 8.15.

## VIC CLASSICS CLUB

The February meeting of the Victoria College Classics Club, scheduled for Tuesday, February 5, will be cancelled, owing to the death of John E. Dix.

## LENINISM

Sam Carr's group on "Leninism" will meet tonight at 8.15 p.m. at 630 College Street. Auspices of University Young Communist League. Open to anyone.

## HISTORY OF THE GOLD SNAP

By Ignatz

Fifteen reporters collapse after searching the files to find the previous coldest January 25.

T.T.C. raises cold quota one lump per car.

Star finds that cold spell came during Bennett regime.

Tety recalls colder spell during King's term as Prime Minister.

Hundreds of people ruin chances of entering Heavenly Kingdom by prevaricating about the temperature.

Hundreds of people ruin chances of entering Heavenly Kingdom by swearing about the temperature.

Winter bathers killed in rush to get their pictures in the paper.

Every man over eighty years of age asked to forecast the weather.

Every man under eighty does it voluntarily.

Sensible people sit at home by the radiator. (As does Ignatz).

C—C

Mr. D. Lloyd George, we note, according to *The Varsity's* editorial column, recently made the profound observation that "Where there is no vision, the people perish." Well, when we clip an item, we at least copy somebody who is alive to defend himself.

But the guy who wrote Proverbs would be sore about it though.

Joab.

## ART, MUSIC AND DRAMA

(Continued from Page 2)

## Toronto Symphony

A programme of excellent salon music was given by Mr. Leo Smith, Mus.Bac., well-known Toronto cellist and member of the Toronto Symphony orchestra at the Friday afternoon recital in Hart House Music Room. Mr. Smith was assisted by Myrtle Bruce Brown, Muriel MacDonald (viola), and Mrs. Smith (violin).

The programme consisted of three quartets, several vocal selections and three violin solos. The interest of the programme was considerably heightened by the fact that in every instance save two the music of the evening was

## CHRISTIAN SOCIALISM

Dr. John Line will give the last address of this series today at four o'clock in Room 5, Emmanuel College. The subject of the address will be "Is Political Faith Enough?"

## RIFLE ASSOCIATION

Anyone who was not able to shoot the spoon target on Fri. will have the opportunity of doing so tonight. This will be the last chance. The range will be open for practice as usual this week.

## ROVER SCOUT CREW

The regular meeting of the U. of T. Rover Scout Crew will be held tonight in the Debates Anteroom, Hart House, at 7.30 p.m. sharp. Mr. Lionel Bishop will speak on Fire Investigations. Please be there on time.

## MACDONALD-CARTIER CLUB

Tues., Feb. 5, 8 p.m. Study group of Macdonald-Cartier Club—a paper on Grievances of Nova Scotia as compared with those of British Columbia. Dr. Innis will criticize. Members please note.

written by Mr. Smith. The remaining two were composed by Dr. Ernest MacMillan—*Our Lord in Beggar's Gaiety* (quartet)—and Mr. Keith Bissil, whose work was entitled *Cradle Song*.

Mr. Smith's programme began with Dr. MacMillan's quartet, which was followed by two quartets of Mr. Smith's own composition. These were so well received that it is no mere conjecture that these numbers shall become more popular as time goes on. The noteworthy element in these quartets was the outstanding individuality of the parts, each of which was equally important and equally interesting, portraying delicate shades of colouring and in several movements an excellent background.

Following the quartets was a group of songs by Myrtle Bruce Brown, a very interesting soprano singer who has a rare ability of expressing the character of the music with her well controlled voice. Mr. Smith, the composer of four out of five of these songs, is to be congratulated on his accompaniments, as they decidedly enhanced the rendition of such works as *The Dressmakers*, *Echo*, and *My Mother Sea*. It afforded the audience considerable satisfaction to be able to obtain an exact interpretation of the moods and technique of such works from the hands of the composer himself.

The style of the songs is of a very individual nature, and fall very much in line with Wilson MacDonald's style of poetry, in this writer's opinion, in that there is a decidedly dramatic element involved throughout, though the numbers have a simple and almost lyrical beauty about them, which will make them deservedly greater upon each successive hearing.

Miss Florence Richardson rendered *Tambourin* in musical style, showing a fine degree of technique on the violin and a certain dash quite unexpected from girl violinists. *Freckles* also was received with enthusiasm.

Mr. Smith is to be congratulated for his most masterly compositions, which it is to be hoped shall be heard more often in Hart House, and also sincere commendations are to be given to the members of the ensemble of strings for their careful interpretations of the quartets.

W.T.L.

## Sunday Evening Concert

The following programme will be given at the concert in the Great Hall of Hart House at 9 p.m. on Sunday 10th February:

rondo (allegro)

Eugene Kash, violin  
Florence Richardson, viola  
Joyce Hornyansky, 'cello

## Trinity Dramatic Society

The Trinity production of "Berkeley Square" by John L. Balderston, was an interesting attempt to interpret a fantastic theme, marred at times by a pronounced feeling of amateurishness and unreality.

The play itself, based on the principle of the relativity of time, carries one back with a purely modern man into the past, to London in 1784. There, masquerading as an ancestor of his, newly arrived from America, he has ample opportunity to see London as it was, not as in his dreams but shorn of its romance. He falls in love with a girl who was dead long before he was born, and who finally realizes his yearning for his own age, and sends him back. The play closes after Peter Standish has sent away his fiancée and sits dreaming of the past, in the very room where in another age, the girl he loved made him return. This briefly is the story of the play. The theme is that of the dream and the sense of longing to escape from the prison in which we are held. There are entertaining moral and social comparisons between the eighteenth century and our own age. Peter Standish, the modern, is horrified at the brutality of the law, the public attendance at burnings and whippings, etc., and the people of that day regard his habit of taking regular baths as something almost degenerate.

Nature prevented Eric Atkinson, as Peter Standish, from taking full advantage of a difficult part. He brought a great deal of vitality to his role but it lacked the delicate interpretation which should have made the part more meaningful. Arthur Abraham as Throstle might almost have been taken for a dual personality ranging from the grotesque to a very sincere performance at times. Helen Coleman as Kate Pettigrew was hardly impressive while Valentine Barrow tried hard but could not rise to the role of Helen Pettigrew.

The New York production of this play was put over by Leslie Howard, and on the whole it was too ambitious an undertaking for an amateur east to attempt. The entire performance lacked polish, but however one is left with the feeling that they managed to make pleasant entertainment out of a play whose theme demanded just a little bit more.

fierce birds of prey now ripped the gory flesh. The limbs had been hacked off and the gruesome remains, suspended upside down, would have evoked horror and pity from the most cold-hearted of mortals, etc., etc."

Paradoxically enough the film was a roaring comedy. The action centred around a down-at-heel tipster, jokingly nicknamed the Cobbler, who was apprehended by the law because, being well oiled on the night of the tragedy, he could not remember when and where he left the supposed victim. He is befriended by a too, too utterly apple-cheeked and juvenile reporter, but the gay ensemble, continually poking fun at the pomposity of judges, lawyers, plainclothesmen, dentists, editors and detective thrillers in general finally solve the mystery.

The story was delightfully presented, checkful of amusing incidents such as le Bouif's escape from his pursuers via a vespa and the judges' interpretation of a tip, to cite only two. The dialogue, being generously sewn with slang, was far from classically correct French but perhaps near "*Le français tel qu'on le parle*". On the whole the film was thoroughly enjoyable and one of the most satisfying we have yet seen.

### DECEASED SCRIBE HAD ACTIVE CAREER AS VARSITY EDITOR

Death of Strangways Mourned  
In Journalistic  
Circles

#### GRADUATE OF VICTORIA

Attack Nine Years Ago On  
Student Apathy to  
Politics

The loss to Toronto journalistic circles last week in the unfortunate death of Fred Strangways, sports columnist of the *Toronto Telegram*, recalls *Varsity* history of a decade ago when the deceased, then a brilliant student in his final year at Victoria College, was editor of the undergraduate daily.

"Fred Strangways (editor in the term 1925-26) is remembered by many for a clear, vigorous, style unequalled by editorial writers of our generation," is the tribute offered by another past editor, L. J. Ryan, in a letter to *The Varsity*.

The *Varsity's* editorial policy nine years ago shows Strangways to have launched a thundering attack on the still present plait of student apathy towards politics. With a federal election scheduled for October, *The Varsity* supported a move on the part of the S.A.C. to secure the franchise for all students otherwise eligible, who were threatened with disqualification.

### NEWS OF THE WORLD IN BRIEF

Bolton, Feb. 4.—Brampton, Schomberg, Maple and Weston were yesterday called upon to aid in extinguishing a blaze which threatened to destroy the main business block of the village.

Vienna, Feb. 4.—The Prince of Wales arrived in Salzburg yesterday afternoon and will continue his journey to Kitzbuehel to attend the winter sports. Severe snowstorms have necessitated a change of route, thus disrupting preparations for an official welcome which had been planned for him by the Austrian government.

Berlin.—Chancellor Hitler yesterday was non-committal in his attitude toward the Anglo-French proposals. It is understood, however, that Belgium and Italy are prepared to co-operate with England and France.

London, Ont., Feb. 4.—Two Toronto women have been produced as witnesses against David Meisner, alleged kidnapper of John Labatt. Both contend that he was the man who came to Leonard Lake, Muskoka, on Sunday, Aug. 5, to negotiate for the rent of a cottage.

Toronto, Feb. 4.—Hon. Mitchell F. Hepburn declared yesterday that contrary to the impression created by the press, he found the task of discharging people from their positions, definitely unpleasant. He stated that expenditures had to be cut down and in order to accomplish this, this distasteful duty must be performed.

Washington, Feb. 4.—Canada has been asked to co-operate in a plan advanced by Representative Walter Andrews, New York republican, in which he proposes the preservation of the Falls by preventing further erosion of the rocks.

### Sunday Evening Concert Tickets

Double tickets to the Sunday Evening Concert in Hart House next Sunday will be given out in the Junior Common Room on Wednesday morning at 8.45. Registration cards must be shown.

### UNIVERSITY BRINGS WORLD FAME—CODY

Should be Better Relations  
Between University and  
City

#### GREAT ASSET FOR TORONTO

President H. J. Cody, last night, when asked for his opinion with regard to establishing a closer relationship between the city and the University said: "Emphatically, on general principles, it is to be hoped that there will be better relations between the two."

"There are certain specific matters in which co-operation with the city can be had, for example, between the city and the hospital. The city contributed to the building of the hospital and has four persons on its board."

When asked whether he considered it would be advantageous that the co-operation between the city and the University be on a similar basis of arrangement as that which exists between the city and the hospital, the president said that as yet he did not feel free to express any definite opinion regarding the specific form this closer co-operation should take.

In agreement with Mayor Simpson's statement in yesterday's *Varsity*, President Cody said: "The University is one of the greatest assets of the city, both from a financial point of view and also from the point of view of publicity. This University brings fame to the city of Toronto from all over the world."

### STUDENTS EVINCE SMALL ENTHUSIASM

Old Tradition Wanes with  
Cancellation of Arts  
Ball

#### U.C. LIT. WITHDRAWS HELP

The Arts Ball, traditional formal dance of University College, will not be held this year, according to the decision of the executive of the U.C. Literary and Athletic Society, sponsors of the event.

Mr. S. M. Hermant, president of the society, stated that lack of interest, as evidenced by the very slight demand for tickets, was the reason for the cancellation.

### Incompatibility of Life And Religion Discussed In S.C.M. Lecture Series

The Victoria Women's S.C.M. have planned a series of addresses on topics which they consider to be of vital interest to all who are seeking to relate their religious beliefs to modern life and knowledge, or to those who have decided that the two are incompatible and have therefore ceased to find meaning or purpose in life.

These addresses will take place in Wymilwood on Tuesdays at 1.20 p.m. The speakers include the Rev. E. L. Wasson, Rev. Frank Fidler, Mrs. Jean Hutchison, Miss Gertrude Rutherford. It is the hope of the S.C.M. that as many as possible will attend these meetings.

### GOAL OF THEATRE IS ENTERTAINMENT NOT EXPERIMENT

Even "Little Theatre", Says  
Harvey, Must Attract  
Public

#### IS GUEST DIRECTOR

"Be Content with Small Part"  
Advice to Would-be  
Actors

"The primary purpose of the theatre is to provide a good evening's entertainment," stated Rupert Harvey, guest director for Hart House Theatre, in an interview with *The Varsity* last night. "You should not expect the public to pay to see experiments. They should be carried on behind closed doors."

"At Hart House Theatre we are trying to make the public aware that they don't have to belong to the University to see the plays. If they would only realize that they can see a play for the price of a movie by just going in the door of the theatre it would be a fine thing for the future of the Little Theatre." When it was suggested that this catering to the general public was what the students objected to, Mr. Harvey said that there was plenty of room in the theatre for everybody.

"As regards students acting," he continued, "we are quite glad to have them. All they have to do is to leave their name and a record of their experience with Mr. Key in the office."

When asked what advice he had to offer people who were anxious to make a start in dramatics, he said, "Be content with a small start. They may take more time than they appear to warrant but it is through them that you develop a good technique."

With regard to the present play, *The Circle* by Somerset Maugham, which will be played all next week, Mr. Harvey stated that it was Maugham at his most cynical and most witty. "It is an example of my idea of a good play. It is thoroughly amusing and should cause no regrets. The humour of the play comes from the clash of views of the characters, each of whom is right according to his way of thinking."

Mr. Harvey in the near future is leaving Toronto for Winnipeg to direct "Twelfth Night" and play the lead in Ibsen's "Master Builder".

### C.C.F. REORGANIZE CLUB TOMORROW

Effort Being Made to Give  
Organization its Proper  
Status

#### OR. LUKE TESKEY TO SPEAK

New officers will be elected at the meeting of the University C. C. F. Club in Wymilwood tomorrow night. *The Varsity* was informed by members of the provisional committee set up to arrange for a reorganization meeting. Dr. Luke Teskey, C.C.F. candidate in South York and provincial organizer, will address the meeting.

The club was practically inactive last term, certain of its officers having to resign due to pressure of work, and a serious effort is being made by the present membership to give the organization its proper status on the campus. *The Varsity* was told.

"We find it difficult to believe that there are not at least thirty students on the campus of sufficient conviction

(Continued on Page 4)

### Sketch Room Talks

The series of informal talks held before Christmas in the Sketch Room were so well attended that the Sketch Committee have arranged a further series on the first three Wednesdays in February (i.e., 6th, 13th and 20th). Mr. Martin Baldwin, well known as Curator of the Art Gallery of Toronto, will speak in the Sketch Room at 5 p.m. tomorrow on "Architecture—The Urge to Build", illustrating his talk with lantern slides.

### MAN'S WORK NEEDS AID OF GOD:—LINE

Political Faith is Insufficient  
Without Religious  
Aid

#### PASSIVE RELIGION OPIATE

"Is religion needed today?" questioned Dr. John Line in his lecture on Christian Socialism at Emmanuel College yesterday afternoon. "The fact that the value of religion is not evident shows that it is on the defensive. Its achievements haven't put its value beyond all doubt."

"People claim that religion is a deterrent to self-improvement and moral and social well-being," stated Dr. Line. A religion that teaches us to acquiesce this is a dope or opiate. "Rightly conceived partnership with non-human agency is not fatal to effort or efficiency," maintained Dr. Line. The work of a farmer would be futile without Nature's support. The same is true of the physician. Man's experience of working with God may be vital, supply the motive, and inspire the will to persevere for righteous ends.

There are three positions—Humanist, Marxian and Christian—which differ in relation to our problem of whether the enterprise after a just society is solely our human responsibility or out-

### SEVERE FURNITURE PERIOD DISCUSSED

Rigid Economy Influences  
William and Mary  
Period

#### FOREIGN INFLUENCE GREAT

Furniture in the William and Mary period was discussed by Miss Ruth Home at the Museum yesterday afternoon. In this period a chair first becomes an article upon which you can sit comfortably, she told the audience.

William was responsible for ushering many continental ideas into England. His chief reason for accepting the English throne was to gain access to the British money bags and thus have the necessary funds to carry on his foreign wars. Consequently so much money was spent on cannon fodder that there was none left for luxuries.

As a result furniture falls to a utilitarian level. Gold and silver furniture disappeared entirely and was replaced by gilded furniture which satisfied their desire for respectable household furnishings and at the same time was economical.

The chair backs, which had previously been tall, straight and richly carved, when subjected to the foreign influence of William, adopted a slight curve to fit the shoulders. This remained constant throughout the Queen Anne period. The cabriole legs during the William and Mary period gradually grew sturdier and supported a seat of greater dimensions, probably due to the fact that the ladies of that period wore voluminous hooped skirts.

### CAGERS MEET McMASTER TO-NIGHT OUT FOR EIGHTH STRAIGHT WIN

### SQUASH PLAYERS RETRIEVE TITLE

Hubert Martin of Hamilton  
Defeats Cousin to Win  
Tournament

#### SNELL FORMER CHAMPION

Hart House players brought credit to themselves and Hart House in their performance in the annual singles tournament of the Canadian Squash Racquets Association, held at the Carlton Club, Toronto, Friday, Saturday and Sunday last. J. Leibel and M. Goldenberg disposed of two highly rated American players in their first round. Leibel was defeated in the second round by Hubert Martin, who ultimately won the tournament, but Goldenberg missed a chance to go into the semi-finals only when he lost a close match to D. Guthrie. The finals was a family affair, Hubert Martin of Hamilton defeating his cousin Harold of Montreal. The title thus returns to Canada, having been held by Snell of England last year.

### ILLINOIS CHEMIST HERE TO LECTURE

Physics Department Announces  
Subjects of Talks by  
Prof. Kistler

#### COLLOIDS GENERAL THEME

In co-operation with Professor J. W. Bain of the Department of Chemical Engineering, the Department of Physics has arranged for the following lectures on Colloids by Professor S. S. Kistler of the Department of Chemistry, University of Illinois.

Last Saturday, Professor Kistler lectured on "An Excursion into the Realm of Colloids". Yesterday the "Thermal Conductivity of Porous Materials as a Function of Pressure and Composition of the Gas Phase" was the topic of the address. The remaining lectures are as follows:

1. Tuesday, February 5, at 5 p.m. in Room 43 of the Physics Building. "The Theory of Capillary Condensation in Gels." Much of the sorption of vapours by gels has been attributed to capillary condensation. The foundations for this hypothesis are critically examined. For the first time it becomes possible to check the quantitative calculations.

2. Wednesday, February 6, at 5 p.m. in Room 43 of the Physics Building. "The Retention of Water in Silica Gel and its Physical Significance."

Continued on Page 4)

### Vocational Guidance Department Planned By B.C. Government

Young men and women fresh from school in British Columbia will be assisted in the difficult task of obtaining work by a department of vocational guidance, to be set up by the Provincial Government, Hon. George S. Pearson, minister of labor, announced recently. A vocational officer capable of learning the aptitudes of young people and of helping them to develop opportunities will be sought, Mr. Pearson said. He will have headquarters in Vancouver, and will be assisted throughout the province by local voluntary committees.

### Blues Have Yet to Lose a Game in Big Six This Season

#### McMASTER STRENGTHENED

Last Year's Championship  
Team Practically Intact  
for Game

Tonight Lew Hayman's Blue basketballers will endeavour to make it eight straight in the Big Six basketball league when they meet the McMaster cagers, who were last year's champions, in the Big Gym at Hart House. Preceding the Big Six contest, which will get under way at nine o'clock, a regular scheduled intercollegiate intermediate game will bring together the second string squads from both universities.

Coch Hayman's squad has yet to lose a game in this year's campaign. However, McMaster, with last year's team practically intact, may prove a stumbling block to the weary Blues. Varsity have had a strenuous two weeks while the Mountain City squad have had quite a period without games. Reports from the Ambitious City say that the Garnet and Gray crew has been practicing daily and are all in perfect shape for tonight's game. Laughlin and Turnbull will probably be starting on the forward line with Palmer, former St. Mike's star, at centre. Stroud and Lennie will form the rearguard.

Varsity's first string of Meagher and Marks on the forward line, Crown-

### LISMER CRITICIZES ART CURRICULUM

Present Study of Art Limits  
Natural Creativeness  
of Youth

#### POWER OF ART STRESSED

A glimpse of the possibilities put into the reach of the child by means of art, was given by Mr. Arthur Lismer on Monday afternoon in the first of a series of lectures on "Education through Art".

If we are to have a future society where there will be a survival of imagination and beauty, the builders of that future society—the children—must not have their minds filled with facts and formulae only, but Art, in its broadest sense, must be an integral part of the early education of the child. Art is at present taught in public and high schools, but it is of a kind which

### MEMORIES

FEBRUARY 5

1920—William Butler Yeats, well-known poet, addresses a gathering at Hart House.

1925—Annual fees in Arts raised to \$75.

1927—Prime Minister Mackenzie King makes an innovation by taking part in a Hart House debate.

1930—News of the abolition of 1st year Pass Arts leaks past *The Varsity* to a downtown paper. It was false of course. "Yo-yoing" becomes the rage on the campus.

1931—Charles G. D. Roberts, speaking to Victoria students, spurs them on to greater literary efforts.

## What Price Slang?

A member of the Ontario department of education in a recent address to a teachers' convention, while admitting the value of humour in newspaper comic strips, deplored the fact that they were making a "decidedly unhappy influence" upon the language habit of school children. However, he does not see any remedy for the problem.

No one who enjoys the comics would wish to improve the vocabulary of the characters but undoubtedly they are one of the degrading influences affecting our language today. Gangster films, popular thrill-magazines, catch advertisements, would-be hard-boiled writers are among the other offenders. Slang has become so much a part of our daily conversation that it is used unconsciously by many well-educated and careful speakers.

There are occasions when a slang word or phrase expresses the idea more aptly than conventional language. In such cases the slang term will probably in time be sanctioned by good usage and become assimilated into the language. Then there are the doubtful phrases which hover between slang and colloquialisms. Many of these too will become part of correct speech. It is by this means that languages grow and become enriched. You all remember the discussion which took place last year over Mr. Roosevelt's use of the word "chiseler". Such words are natural and necessary additions to the language.

More deplorable features are slovenly pronunciation, especially dropping final g's, the use of what may be termed underworld synonyms like "skirt", "moll", "kink", and the amazing limitations of our vocabulary of adjectives. Who said "the only two words I learned at college were 'lousy' and 'swell'?"

Of course, our defence is that we know better and can, when necessary, speak impeccable English. True enough, but habit is binding, and every time we utter a slang phrase we are influencing the speech of someone else and if college graduates do not let the example of using good English, who will?

## Spelling Reform

While we believe in spelling reform as an admirable aim, we cannot see that it can possibly be put into practice unless through some revolutionary upheaval that is so strong it will affect the written language.

For one thing, English is spoken in so many countries that it would be all but impossible to get concerted action in this direction. If any one country or group should try to put it into effect, they would find that the English language had been irreparably defiled, and quite possibly that division would find England and the United States on opposite sides and a final disintegration of the language begun.

For another matter, any attempt at spelling reform would have to be final and complete, else reactionary tendencies might cause the process to stop halfway and leave spelling in as great a muddle as before. This is what the Americans are trying in their "nite" and "tho" which are not purely phonetic and only an attempt at solution of the problem.

When one considers the difficulties of reading even a page of phonetic English, think of the enormous problem of reorganizing our immense printing establishments to turn out whole papers in the new type, for it would have to be new type, because our twenty-six letters by no means are sufficient. No single newspaper today would gamble with the chances of almost total loss of circulation because

the new appearance of the paper would be discouraging to all but the most enterprising.

When Japan began to go western with the verve for which she is so famous, an earnest attempt was made to replace the old ideographs by our alphabet or *Romaji* as it is called in Japanese. But they found their ancient characters much better adapted to carrying their thoughts than the new style, and it is seldom that you find it except in books for foreigners.

Now English spelling can be compared to ideographs, and it is true that each child learns almost every word as a separate character. We do not read by single letters, but by the words composed of them. If, therefore, when our thought comes to us more easily by reading the way this type is set, why bother to unsettle our train by an innovation that is not only costly and inconvenient, but also almost impossible?

## Diogenes and Leacock

Two thousand years ago the greatest of Cynics, Diogenes, proclaimed: "I am seeking an honest man". At Hart House debate of last Wednesday, Professor Stephen Leacock showed himself a worthy successor. He too seeks honest men for democracy has become penetrated with corruption, and "in the government of the future, honesty will be the prime requisite".

It is difficult to comprehend that Professor Leacock, allegedly versed in the intricacies of political economy, should forget that honesty is relative. There has never yet been a ruling class however corrupt and cruel in reality but has not proclaimed itself the mirror of virtues, but has not arrogated to itself a divine right. The rulers have always demanded that their honesty go undoubted, but they themselves have looked upon the commons with distrust.

Further, "I honour democracy for the part it has played in the past but it is not the thing for today. We must look for the government of those who know how. I do not mean a change from individualism to collectivism, but if you have a good man, keep him. Even if he is a dictator, keep him." Surely the greatest corruption and dishonesty were reached under the individualism which Leacock lauds. Surely the fascist dictators have been among the dishonest both in their rise to, and in their retention of, power. And has there yet been a man in public office who modestly murmured that he "did not know"?

May we be so bold as to suggest that the fundamental reason for the inevitable breeding by democracy of corruption and an asocial outlook is that democracy is the political expression of a society inextricably bound up with the profit motive as its fundamental base. From which reasoning we are irresistibly forced to the conclusion that only the elimination of the profit motive both in economy and politics will bring honest men to the fore and guarantee an incorruptible democracy.

Munich Nazis are forbidden to mix "Heil Hitler's" and pleasure:

Use of the Hitler salute, adjudged too sacred a gesture for frivolous occasions, has been barred for the Munich carnival season. Loyal Nazis are officially recommended to use in its place "a more or less stately bow, placing the right hand over the heart."

Death Valley, California, shows the scientists how little they know about it:

The skull of a Titanother, belonging presumably to the eocene or oligocene period, has been found in Death Valley. Noted paleontologists had predicted that no fossils would ever be found in the valley.

Possible coyness of Canada as a source of the raw materials of yellow journalism causes William Randolph Hearst, United States publisher, to remember the Boy Scout motto:

John D. Coffin, representing the Hearst papers, is in Finland, studying newspaper production. Hel-singfors business circles assumed Mr. Coffin's visit might have been prompted by the expectation of government price-fixing on newsprint in Canada, an important source of supply for the United States.

Another word whose slangy use has given it a connotation which it does not deserve is "alibi", which is popularly understood to be an excuse. As a matter of fact it means elsewhere.

Hitler says that when Germany enters into any international agreement she will do so after consulting her own interests and not the interests of any of her partners. There's a partner for you!

## ART, MUSIC & DRAMA

### Art Gallery

The show at the Gallery this month includes a collection of contemporary British oil paintings and the Sculptors' Society of Canada Exhibition. The Print Room is occupied by the photographs of the late A. E. Hammond. The sculptors work has attained considerable distinction this year and the display deserves credit. There is a wealth of fresh talent and a variety of style which speaks well for the future of this art in Canada. The work of Wm. Osterhoff, done directly in limestone, promises an interesting future for him. A piece called "Pied Piper" is particularly fine. Stephen Trenka's wood carvings are also outstanding and have a freshness and individuality which command attention. The work of Elisabeth Wood in particular, two pieces, "Girl with Grain and Man with Pine" show an interesting use of design which is most effective. "Equestrian Fragment" by Emmanuel Hahn is rather a classical horse's head executed with a fidelity of detail but lacking in originality of treatment.

The British oil paintings are sad. The least said the better. An amazing variety of treatments are shown but all seem to miss the mark. There seems to be an effort to break away from tradition but with no apparent object in view. Britain has never been as outstanding in oils as she has been in watercolours, but still.

W.L.S.

### The H.C. Pipers' Guild

*The Wolf at the Door*, by Daniel Hanlon, should fulfill the expectations which are bound to be aroused by such an imposing title. Here is melodrama at its gloriously bromidic best. Virtue is rewarded in the nick of time, when the blind beggar throws off his disguise and rescues the faithful wife and her starving child from a hapless fate.

*The Lion*, the bold adventurer to the Klondike, is played by Norman Phillips, the Wolf, subtly disguised as a landlord, by Dick Fonger, and the Lamb, invincible in her purity, by Thelma Hermanson.

The noble and high-flown sentiments of the play are interspersed throughout with practical common-places, which bring the situation down to brass tacks with startling thoroughness, but the characters do not forget themselves for long and promptly take it back to its former soul-stirring level.

This amazing production will take place at the Women's Union on Wednesday, February 6th, at 4.15 p.m. Come on out folks for some good old heart-throbbing dramma, the best since *Uncle Tom's Cabin*.

There is one thing about a rabbit It's hare however you look at it It's quite a different matter about a whale

You don't know if it's fish or if it's an animal, Or may be minerale Or vegetable— And so it is when you are looking for a true pacifist You never get any farther than, say, a Christian Socialist Or an unchristian Communist And when you go to a monster labourers' rally You find about fifty cops and one or two Working men generally. And Hart House soup that today is called consommé Is exactly the same stuff as was clam-chowder yesterday And pepper-pot the day before yesterday

And so on eternally Or to infinity Amen. Mundusvult Decipi.

## Correspondence

Correspondents are reminded that all letters must be accompanied by signatures, and they are requested to limit themselves to approximately 300 words.

### CAPITALISM AND WAR

To the Editor of *The Varsity*. Dear Sir:

Having heard Prof. Underhill's address to the Student Peace Movement I was quite surprised to read the unjust criticism appearing in your correspondence column last Thursday.

I would like to make it clear to the writer of the above-mentioned letter that Prof. Underhill did not advocate that Canada withdraw either from the British Empire or from the League of Nations. He did, however, admirably point out how these relationships could embroil Canada in a foreign war. Obviously if we are to fight against war we must have an understanding of the possible ways Canada might be entangled in war.

The writer seems to believe that Prof. Underhill told his listeners not to support Britain when she is fighting a defensive war or a war in which she is fighting for her life. What Prof. Underhill did say was that those in whose interests it is to have war always manage to make people believe that every war in which Britain enters is a defensive war or one in which she is fighting for her life. In other words, defensive and fighting for her life in *The Varsity* report should have had quotation marks about them.

Also the writer seems to have quite a confused idea of the relations of Germany with the League of Nations. He does not seem to know that Germany under her democratic governments could obtain no concessions whatsoever from the League in respect to armaments. In other words, the League was intent upon keeping Germany in the position of a conquered nation. However, now that the fascists have come into power and threaten to take by force what Germany was denied by right, the respective governments of the League are beginning to see things in a different light. From this and from her treatment of China, it seems to me that the League of Nations understands the meaning of force much better than she does the meaning of right. Let it not be understood that I am opposed to the principle of the League of Nations. I say, however, (Continued on Page 4)

## THE SPORTSWOMAN

By M. A. F.

The indecision about the hockey game between St. Hilda's and Vic I was all cleared up and the match was played last night. There was nothing at all decisive about it for the final tally was a 1-1 tie-up. Both teams had their goals well tended: Maisie Cowan for Vic made some neat saves and Marg McDonald on the Blue and Grey outfit played her usual steady game. The Saints were rather leery at first but they soon warmed right up and turned in nice hockey. Joyce Kirk put in the Saints' goal and Gladys Wagg retaliated with a point for the Scarlet and Gold team just before the final whistle. Vic missed quite a number of shots but definitely provided tough opposition for the Trinity ladies.

We mentioned a change in the U.C. and St. Hilda's swimming meets due to the U.T.S. pool being unavailable on the nights they had wanted. The Saints' inter-year meet will now be held on Monday, February 11 and the U.C. contest will come off on Tuesday, February 12. The date of the Vic meet remains unchanged. A good turnout of swimmers for these events is very important as the faculty teams are chosen from the winners. Furthermore, they are plenty of fun for the spectators—we are looking for huge crowds.

Dr. Gordon is ready and waiting to receive all swimmers and badminton players before the various tournaments and meets come off. This visit has to be made so why not come early and avoid the rush? Really, we cannot over-stress the importance of having these examinations. The ruling in this connection will not be broken.

The senior basketballers went through a gruelling workout last night and things seem to be shaping up fairly nicely. The absence of K. Brown and E. May considerably weakened the forward line but Edie Ardagh and Mary Carre were right in there. A practice game has been planned for 7 p.m. on Friday at the U.T.S. gym when the '35 Varsity squad will make its initial appearance against Hamilton Normal. After seeing them in action we will have a better idea as to how our hopes stand for the intercollegiate tournament.

## Sport Notices

### S.P.S. Sr. Basketball—

Meet at Hall Porter's desk in Hart House in uniform at 3.30 p.m. Feb. 5 for group photograph. Game with Sr. Vic at 4.00.

### School Swimming Team—

There will be a practice tonight and Thursday night at 5. Team will be picked Thursday. Anyone doing the 100 yds. free in less than 56 secs. need not come to Tuesday's practice.

## S.P.S. PUCKSTERS BOW TO PHARMACY

Pharmacy and S.P.S. provided plenty of excitement for the handful of spectators assembled at the Stadium to see the game on Friday afternoon when the Druggists eked out a 1-0 win. From the face-off to the final whistle, every minute of the game was full of hard checking and nice passing plays, with a little touch of excitement added by a tendency to fly high and an evident desire on the part of some for fists to fly.

S.P.S.: Young, Hewitt, Stodhart, Hodgson, Kerr, Stavert, Aiken, McNicol, Davidson and Patterson. Pharmacy: Garneau, Rhinhardt, Bingham, Pronger, Cottrell, Wilton, Ellinghausen, Goulierre and Coulter.

## HAMILTON TIGERS HERE TOMORROW

Senior O.H.A. Champions in Last Appearance at Varsity

### BLUES STILL LOSING

Well on their way to another Senior O.H.A. championship, the league leading Hamilton Tigers will pay their last visit to Varsity Arena tonight to engage the Blue sextet. With visions of an Allan Cup starting them in the face as well as a chance to represent Canada in the 1935 Olympics, the mighty Bengals both at home and away from their mountain lair have proven thus far in the campaign that their ambitions will take some frustrating.

On the occasion of their last visit to Toronto last Friday night Hamilton demonstrated a powerful fast checking combination, defeating Torontos, mercantile pets, without much difficulty. However, in their three contests with Varsity, the Redding-coached squad have been extended to garner their wins.

Having acquired the habit of losing games, twelve so far in the Senior O.H.A. schedule, Varsity carried this condition into the intercollegiate series, to be sent down to a 4-2 defeat by McGill, thereby virtually casting their chances for an intercollegiate title into oblivion. Whether this state of affairs will spur the Varsity crew to greater efforts tonight against Tigers, by taking it out on the Hamilton squad will be known at approximately 10.45 p.m. E.S.T.

Whatever the result may be in this evening's encounter a last chance to view the 1934 O.H.A. senior champions should prove appealing to hockey enthusiasts as well as the fact that Varsity may break their unblemished record of no wins, but to do this they will have to be what the well-known "nose" star on Broadway and Hollywood says; in other words, "Colossal".

### BASKETEERS MEET McMASTERS TONIGHT

(Continued from Page 1)

lay at centre and Connelly and Gold on defence, have been burning up the court in the Blues' last few encounters. These five men were all outstanding in Varsity's overwhelming win against the powerful St. Catharines Grads, as well as in the Blues' aggressive second period rally against Danforth. In the second string squad of Newman, Mence, Munroe, Levy and Gordon, Coach Hayman has an outfit that is rapidly rounding into a group of stars. The members of this string are all young and have shown amazing improvement in the last few games. Bill Bodrug has been a tower of strength to the Blue team all season and has been used to good advantage with both squads where his field generalship and deadly cye have made him one of the outstanding playmakers and scorers of the Big Six league.

The first tilt will probably be the outstanding game of the intercollegiate intermediate season. Both teams have played one game in the intercollegiate schedule, McMaster taking Western by a twenty point margin while the Blues were winning from O.A.C. 29 to 10. With such men as Himmel, Magwood, Sullivan, Carey and Fitton, last year with the Garnet and Grey squad, ready for duty, Coach McCutcheon's outfit are confident of victory. McMaster enters the Believe-it-or-not Hall of Fame in using a one-armed basketball player on this squad. This boy's play will probably be one of the features of the evening. The intercollegiate game will get under way at eight sharp to enable the senior contest to start on time.

On the whole, the programme shapes up as being one of the best of the year, and a fairly large crowd is expected to be on hand when the starting whistle is sounded.

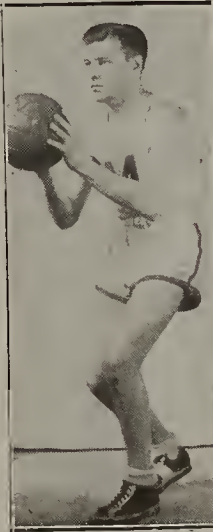

## SPEAKING OF SPORT

By B. J. McGuire

The Varsity very Blues have just two more engagements before they complete their O.H.A. series. The Students will entertain Hamilton Tigers here tonight and will play one more game with the Oakville team. After that they are scheduled to play at Port Colborne, but rumour has it that this game will be defaulted. After all they can do no good by going to the Port. They can affect no change in the standing and the house would be of an insignificant size, which would indicate that there is little if any use of proceeding with the game.

Friday another band will venture forth in an effort to extend the bounds of international sport. This time it will be the B. W. and F. team who will journey to distant points. The wrestling team will be seen in action in Rochester and Buffalo, while the boxers will journey southward to meet the men of Cornell. While they ran into a night of grief in their last start against U.S. men, re the Syracuse team, they hope to fare better against the Cornell battlers, who have been in the business a relatively short period of time.

The record breaking habits which the swimmers have been prone to develop of late years will probably be in evidence again Saturday night in the Hart House pool. The occasion will be the annual inter-faculty swimming meet. The customers have become so accustomed to seeing records fall at swimming meets that they feel they have been gypped if they view a meet where nothing happens. And then following the meet there will be another dance in the gym. These parties after events have become increasingly popular and as a result Saturday's combination should be well attended.

PHIL GOLD

Of the Senior Blue basketball squad.

## JR. MEDS CAGERS BEAT VIC, 25-16

In their second group encounter against Jr. Vic, last night in the upper gym at Hart House, the speedy Jr. Meds basketball squad turned the tables on their opponents to win an easy victory by the score of 25 to 16. Clipperton opened the scoring in the first minute of play and an additional foul shot put Jr. Vic ahead by 3 points. However, the Meds' machine was soon in full swing; they easily overcame this initial handicap and forged well ahead so that by the end of the first half they had piled up a substantial lead of 6 points with the score 14 to 8 in their favour.

The second half saw some close checking by Jr. Vic but the losers were powerless to stem the tide. The Meds added to their lead in this half but this lead was somewhat reduced to-

## VIC, SENIOR MEDS WIN POLO GROUPS

Title Holders Decided in Two Interfaculty Divisions

### VIC SHOW NO-LOSS SEASON

Two group champions were declared in the waterpolo triple-header played in the pool yesterday afternoon. Victoria defeated Trinity for the first time in two years, by a 3-0 score, to finish the regular season without a loss. Sr. Meds eked out a 1-0 win over Sr. U.C. to take their group, and Junior Meds also won by 1-0 when they beat Dents, to put the two of them in a three-cornered tie with Junior School.

Vic showed good form in defeating Trinity, who were regarded as the strongest team, and look like the class of the league. Close checking and careful passing by Victoria broke down their ancient rival's effectiveness, and were responsible for their win. Trinity's defence performed well but were unable to hold Whitting and Fisher, who, feeling right at home in the water, scored once and twice, respectively.

The Sr. Meds-Sr. U.C. game was hotly contested, both actively and verbally. A lot of too-close guarding produced a lot of whistle blowing, but it was an interesting game, nevertheless. Dick made the only score in the first period and Meds' strong defence protected their lead very capably.

Jr. Meds' strong defence of Penfold and Brown allowed Dents very few scoring opportunities, while the Dents' net had several shots aimed at it. Adams played a stellar game throughout, and was responsible for the only score.

wards the closing moments of the tilt by an apparently rejuvenated Jr. Vic team.

Jr. Meds: S. Wise, Cash, Metzler, Fenner, Zarsky, Barrett, Cork, Waks, Epping, Laski, Crookover and D. K. Wise.

Jr. Vic: Miller, Maitland, Hamilton, Vaughan, Clipperton, McCordic, Dunlop, Burgess, Lang and Tiller.

Referee: J. D. Lorimer.

## Hollywood Theatre

## FRENCH TALKING PICTURE

### "LA GUERRE DES VALSES"

FERNAND GRAVEY and

JEANINE CRISPIN

Feature shown at 3.19, 5.24, 7.29, and 9.34 p.m.

La Guerre des Valses is right in line with the popular trend in British and American films, as it is concerned with music and musicians. It is an account of the fight between Joseph Lanner and Johann Strauss for the favour of Queen Victoria, when the Queen was choosing an orchestra to play at the royal fetes. Strauss and Lanner were the chief contestants for the honour.

"The Lantern" solicits your patronage on the basis of a wonderful variety of fresh, tastily prepared foods: Soup, Meat, Fish, Salads, Vegetables, Desserts, all carefully selected and prepared under the supervision of Mrs. Ann Nicholls. Here you may enjoy your meals in the most cheerful surroundings and you will be agreeably surprised at the small amount of your check.

## THE LANTERN TEA ROOMS

5 WILLCOCKS STREET

## SCHOOL TRIMS U.C. IN SOFTBALL, 11-5

Engineers Find No Difficulty in Solving U.C.'s Pitchers

Junior School defeated Junior U.C. 11-5 in an interfaculty softball game in the big gym yesterday afternoon. The Schoolmen had no trouble with a pair of U.C. pitchers, and clad in their new brilliantly coloured sweaters, took advantage of many U.C. errors to ring up a very convincing win. U.C. were unable to cope with the offerings of McMillan, who tossed them up in brilliant style for the winners, and their inability to hit seemed to reflect itself in their erratic fielding efforts which was much in contrast with the spirited play by the boys from the little red school house.

Jr. S.P.S.: Rogers, McMillan, Willmott, A. King, B. King, Marks, Pidduck and Busby.

Jr. U.C.: Yanhook, Finhelman, Barnes, Bryden, Lelf, Kreiger, Beatty, Kidd, Verner and Abbott.

Umpires: Carveth and Cumming.

A drive which started in 1927 to obtain a new library building at the University of Oregon was recently successfully terminated when the Public Works Administration allotted \$350,000 for construction of the building.

Will those men desiring double tickets to the Hart House concert next Sunday evening please sign the list in the college hall today.

### 376 VIC CLASS PICTURE

Members of third year Victoria please plan to be at the college on Wednesday at 1.40 for the class picture.

### MACDONALD-CARTIER CLUB

Tues, Feb. 5, 8 p.m. Music Room, Hart House. Study group of Macdonald-Cartier Club. Dr. Innis will criticize. Members please note.

## 'TWIXT TWO

### LEARNING TO THINK

Dear Ted—  
People do seem to talk such a lot about thinking—about how to think, and why. Fortunately they don't tell us what we should think about—and that is where so many people are stuck. They don't know how to think. Yet isn't that what we go to school and college to learn?

And it is at school where one discovers that it is better not to think—the children are taught to learn. Everything is there in black and white to be memorized, whether they understand it or not. Certainly one should never think at an exam—it is usually fatal. My young sister came home the other day with a lesson to be written out ten times. She didn't know what it meant. The amazing part of it is, I believe, that the teachers quite honestly would

not believe that the children don't profit by their instruction. They feel that they are doing their duty in the best possible way.

The result shows, however, when the student comes to college. Here he has to do his own thinking—and nine times out of ten he can't do it. There are a sufficient number of adjustments for a student to make, without having the added burden of learning to do without this customary "spoon feeding". To me this is shown by the number of failures, the losses of scholarships, and the things that students say themselves. It is a crime that we should go on allowing this capacity for thinking in our children—the foundation of intelligence for everyone—to be so dulled that the victim cannot measure up to normal standards.

—Phyllis.

## Ginity Justice Meted Out To Editor Court Spectacle Impresses Monkey

(By L. J. R.)

My pet monkey John Millington Singe and I were walking home the other night after a hard day's labour on the part of one member of the party. The professors in Commerce and Finance certainly work the monkeys hard.

When we were walking past the back campus there was a rugby game going on and we had great difficulty in keeping John Millington's attention distracted from the spectacle lest he forget himself and suffer a throw back to the days when he and his fellow apes battled in forest tangles for the Jungle Jug. To keep him looking the other way we dilated at length on the glories of Wycliffe's architecture and seeing a light in the office of *The Varsity* we sang for J.M.'s benefit:

*The Varsity* office is functioning,  
Affairs are quiet and stable,  
The reporters are merrily typewriting,

And Hugh is under the table.  
Just when we had finished this lyric the bells of Ginity College began to ring. John M. wept bitterly as he thought of his misguided past. His eyes gleamed, he dragged us towards

the venerable pile and to our horror he cast off his clothes apparently in preparation for an active return to his prehistoric vocation of tree jumping. "Shame on you, John Millington!" we cried, "where is your taste in architecture? Have you forgotten your Kuskin? That is not the jungle. That is Ginity College. It is in imitation of Ginity College, Dublin."

But J. M. was not to be deterred from the goal of his desire. He rushed to enter Ginity, goal of his dreams. "What do you want in there, stupid?" we asked. "No one in there speaks your language but R. T. H., and he is too busy reading Eugene Field." But when he led me in, an astounding scene met our eyes.

A court was in full session. Stern faced judges sat around the wall and listened to witnesses who deposed solemnly after kissing the *Life of Bishop Strachan*. The evidence concluded, a grim personage on the bench addressed a wretched creature who was covering in the dock. "Editor of the *Telegram*, you are called upon for the last time to apologize for your failure to bootlick the College Meeting. Apologize at once or you will be forced to prowl the galleries of the *Ginity University Review*." The culprit, refusing, was taken out to torture. Hours later the court officers dragged him back, a broken man.

"Editor," said the terrible jurist, "apologize or your paper will never be read again by any one in this college except the Evangelicals." The defendant quivered and a low sob escaped him but he did not flinch.

"Editor," said the Chief Justice (loaned by Victoria for the occasion), "apologize or report to Mr. Hadley

## Publication of Posthumous Papers Policeman Prods Poor Professor

We regret to announce that the *Chaperone Emeritus* passed away a day or two ago from heart failure. The following story was one of several found among her papers.

Once upon a time there was a professor, as there always has been and always will be. Now this Professor had three little goldfish in a bowl which he watched most closely, for he was making a study of goldfish. One day he was informed by the powers that be that his headquarters were to be moved to another building. Accordingly he got ready to move his goldfish. But alas, he dropped the bowl which was to carry them upon the floor. What was he to do?

After some thought, he decided to wrap the fish in a wet handkerchief and so carry them to their new home. And it was so. But it happened, as he was walking along the sidewalk, a particularly slippery bit of ice passed unnoticed. Down went the professor, and away went the goldfish to a comfortable resting place in a snowbank. Not stopping to rub his bruises, the poor fellow began prodding frantically in the snow. Just at this moment there appeared a good fairy in the form of a tall gentleman with a fur cap and silver buttons. "What are you looking for?" he asked.

"Goldfish!" briefly replied the professor, still prodding frantically in the snow.

"Goldfish!" echoed the dumbfounded policeman, (for that was what he was) then, "Come, Sir, that will be all right, just come along with me and we'll get them."

Just at that moment, however, a bit of flashing colour appeared in the professor's hand. The policeman's eyes opened wide; he mumbled something about making a mistake, and then, down he went on his knees beside the professor. Many proddings were rewarded at length by the recovery of three squirming bits of golden fish, which were wrapped with due care in their protecting handkerchief. And then the two sat down on the curbstone to recover their breath. A moment or two later they parted, the one with his precious fish carried carefully before him as he picked his way slowly across the campus, the other with much brushing and shaking, and a vain attempt to look dignified. And just two words broke the strained silence:

"Sorry!"

"Thanks!"

The good fairy is still wondering what got into his thermos bottle that night.

### CORRESPONDENCE

(Continued from Page 2)  
that if the League is to be effective in promoting world peace the member nations must be subject to the will of an enlightened and educated people and not subjected to the dictation of mighty financial interests.

By calling socialism state capitalism you cannot dismiss the question of capitalism's responsibility for war. The writer says that war is a result not of capitalism per se but of the abuses of capitalism. However, recent events are proving that the abuses of capitalism are so ingrained in it that we can only do away with the abuses (and they are many indeed) by working for the establishment of a socialist order. Let me make clear the distinction that whereas capitalism means grab as much as you can and the devil take the hindmost, socialism means the control of the means of production by the people, not for the benefit of a few, but for the benefit of the people as a whole.

Sincerely,

A.S. III U.C.

## DECEASED SCRIBE HAD ACTIVE CAREER

(Continued from Page 1)

because of their summer absence from the city. A daily front page feature contained biographical sketches of former University men running for election in the Dominion house.

With the powerful Queen's gridiron machine just commencing its climb to intercollegiate and Dominion supremacy at that time, Fred Strangways directed his paper's influence to back the organization of a Rooter's Club to create greater enthusiasm and support for the long suffering Blue team among the student body.

Another editorial denounced the management of Hart House Theatre for refusing accommodation to college dramatic clubs, a policy apparently abandoned after a brief trial to which much objection was aroused.

## C. C. F. REORGANIZE CLUB TOMORROW

(Continued from Page 1)

who would gladly make use of an official socialist organization on this campus if it were made possible to them," said a member of the committee. "Of course, it is late now to hope to do anything on a large scale—the club should have started right in at the beginning of last term—but we hope to hold at least five regular meetings this term and to enrol a small membership of serious students who may be of assistance in the forthcoming elections and who will provide a solid nucleus for next year's activities. An executive will be elected tomorrow evening to carry this out for the balance of the year.

"We do not want or expect a large attendance at the meeting but we do hope that those who come will do so with the determination to support and establish definitely a student group representing the Co-operative Commonwealth Federation on the University of Toronto campus, insofar as such activity will not interfere with their academic pursuits."

## ILLINOIS CHEMIST TO LECTURE

(Continued from Page 1)

These lectures will be of interest to advanced students in all scientific departments, as Professor Kistler is an outstanding authority on the subjects with which he is dealing, according to Mr. E. F. Burton, Director of the Department.

for immediate service on the soccer team." There was a wild cry: the victim apologized.

The anti-Hydro-anti-Johnson Hicks, anti-Lloyd pro corporationists celebrated their victory in a special edition of *Torontensis*.

## MAN'S WORK NEEDS AID OF GOD—LINE

(Continued from Page 1)

side of our human power. The Humanist is the sole custodian of his ideals. The Marxian stresses, in addition, to individual enterprise, the economic forces that determine history, the forces that reflect the order of the world. The Christian believes in the moral determination of things—the ultimate factors and forces which surround man's life, determining its advance and retreat. Christianity and religion make you aware that you stand in relation to the moral wholeness of things. "If religious faith can do this we need it as well as political faith," concluded Dr. Line.

## LISMER CRITICIZES SCHOOL CURRICULUM

(Continued from Page 1)

limits and hems in the natural creative power of a young mind. Instead of art being a small, isolated part of the curriculum, it should be made to illuminate every subject. Instead of art being purely a test of accuracy detested by children, it should be made an outlet for their inventive and imaginative powers. Art must not be regarded by children, and adults too, as something in a golden frame in an art gallery, something limited to a few people, but as something for everyone to take part in and enjoy.

Children should be given an art education, not so that they may become professional artists, but as a means of seeing and appreciating the creative unity and beauty of the world, and of helping to keep that world beautiful for themselves and others. This is the power of art, Mr. Lismer says. Let us use it to the full.

## STUDENTS EVINCE SMALL ENTHUSIASM

(Continued from Page 1)

cancellation. "Under the circumstances," he said, "the dance could not be staged without financial assistance from the society, and the executive feels that the money involved can be more suitably expended in some other way. As far as I am aware, this is the first time since its inception that the Arts Ball has been cancelled."

## I.M.C. SECRETARY HERE FOR S.C.M.

Dr. John R. Mott, secretary of the International Missionary Council and veteran worker among students, will address an open meeting of students in the Sheraton Memorial Hall, Wycliffe College, this Friday, February 8th, at 4.10 p.m.

Dr. Mott has just returned from a world tour and although the subject of his address has not yet been announced, *The Varsity* was assured that he will have a message of moment to all University students. The meeting

will be under the auspices of the Student Christian Movement.

## LAST TRIBUTE RENDERED TO PRINCIPAL W. L. GRANT

Many Notable Colleagues Were  
Present at Service  
in U.C.C.

### STUDENT BODY ATTENDED

Service One of Simplicity  
According to Wish of  
Dr. Grant

The funeral service for the late Dr. W. L. Grant, principal of Upper Canada College, was held yesterday at 12.30 from the school's historic old assembly hall. Attended by the entire school body, with many distinguished visitors, the service was one of extreme simplicity, as had been Dr. Grant's wish. The casket bore only one wreath—of laurel, daffodils, and red carnations in the shape of the U.C.C. crest, and tied with blue and white ribbon.

Half an hour before the service was to begin many notables began to arrive. Lieutenant Governor and Mrs. Herbert Bruce, R. A. Laidlaw, chairman of the Board of Governors of Upper Canada College; George Gale, president of the College Old Boys' Association; Dr. H. J. Cody, president of the University of Toronto; Dr. Hamilton Pye, president of Queen's University, were in attendance. The Board of Governors of the college attended in a body and Hon. and Mrs. Vincent Massey took their places with the chief mourners. Dr. Grant's widow

## NEWS OF THE WORLD IN BRIEF

Ottawa—Backed by the best information of experts of the Department of Agriculture, the Dominion Government is preparing to launch a programme early this spring which it hopes will deal effectively with the critical problem of drought areas in the three Prairie Provinces.

London, Ont.—Norman F. Newton, Acting Crown Attorney, said the balance of the gang responsible for the kidnapping of John S. Labatt will be under arrest within two weeks.

Paris—Premier Flandin announced to the French Chamber of Deputies yesterday that Britain and France have no intention of signing a mutual air-defence treaty from which other nations of western Europe will be excluded.

London—James McGovern, fiery Glasgow Laborite, launched an attack on the King and members of the Royal family, but was promptly ruled out of order.

Capetown—Oswald Pirow, South African Minister of Defence, in addressing the fifth Imperial press conference yesterday declared that civil war in South Africa might follow any "rash" commitment to fighting the Empire's battles overseas.

Berlin—Chancellor Hitler is expected to answer the Anglo-French plan for European peace in the form of a questionnaire. Meanwhile the British Foreign Office has informed foreign embassies that Britain might be prepared to conclude a mutual air assistance pact with France regardless of adherence of other powers.

## N.F.C.U.S. Announce Travel Service

It is announced by the N.F.C.U.S. that the English National Union of students has decided to extend to Canadian students the services of its travel bureau. Any Canadian students contemplating a visit to Britain or Europe this summer therefore have a splendid opportunity to save money and to have a better time than they could on their own. Full information can be obtained from "The Travel Department, National Union of Students, 3 Endsleigh Street, London W.C.1, England".

The English National Union of Students is planning more tours this year than ever before—both in Britain and on the continent. They are planned for the student purse and taste, and afford an opportunity to meet and travel with students of all countries and nationalities. Many of the tours will include a visit to Budapest to attend the International University Sports held in August.

## SYMBOLIC DANCING NOT FOR CHURCHES

Had a Place in Primitive and  
Oriental Religions State  
Professors

### PART OF PRESENT TREND

Interpretative or symbolic dancing "before the altar," as a part of the service, seems unlikely to become of any great importance in Toronto, according to professors in Theology at the University. "Of course, you never can tell what will come in the course of the next thousand years, but I hope that it won't appear for a long time," said Rev. Dr. C. V. Pilcher of Wycliffe College. "The dance is not a part of the Christian religion. It has a place in primitive religions, or in such religions as Mohammedanism, where we have the 'dance of the dervishes', but there is no place for it in the Christian service. The Christian church has always had its art, partly in architecture—the cathedrals of the Middle Ages,

Has Wide Experience in  
Industry

W. A. McLeod, general superintendent of Canada Packers Ltd., was the speaker at the Industrial Chemical Club smoker in Hart House last night. He described the purification and saponification of various edible oils.

Mr. McLeod, who possesses a deep southern accent, is a graduate of the Clemson Agricultural and Engineering College and has a wide experience in this branch of the chemical industry.

The vegetable oils used in Canada, with the exception of the corn oil produced at Port Credit, must be purchased in the world market. They are expressed by hydraulic pressure from cotton, or similar seeds, and shipped by tank cars. The oil is refined in tank cars by treatment with an amount of caustic soda solution determined by the analysis of the individual lot. The

## FINANCES HINDER FAIR MARKSMEN FROM ORGANIZING

Require Five Hundred Dollars  
to Give Them Same Position  
as Other Co-eds

### WOMEN CAN SHOOT

Suggest Joining Local Civil  
Ranges—Have Good Record  
at Bisley

For approximately five hundred dollars the women of the University of Toronto could be in the same position as those in English and American universities, in the fact that they would have a rifle team, according to Dr. Lucas, captain of the Rifle Association of the University of Toronto.

"Women can shoot," Dr. Lucas continued as he told of the success of women in the Bisley, British Empire competition, to which shooters from all over the world are sent.

With reference to women members in the Toronto University, there would be no objection except that they would not be allowed in the range, which at present is in Hart House. Therefore, under existing conditions, it is out of the question.

In order to start an independent association, the women would first have

## POLITICAL CLUB HOLD FIRST IN SERIES OF STUDY GROUPS

The topic studied by the Macdonald-Cartier Club in the first of a series of study groups, meeting last night in Hart House, was a contrast between the grievances of Nova Scotia and those of British Columbia. Papers were read by W. Hills and John Depew, two outlining the grievances of the two provinces as understood by a student. The papers were criticized by Dr. H. A. Innis in the light of the report of the provincial economic conference of which Dr. Innis was a commissioner. These meetings are held by the club in order to meet with a need to study problems of political significance in an impartial manner. Most of the meetings held by the club, R. S. McAdam, vice-president, told *The Varsity*, take

## EUROPEAN POWERS SEEK AGREEMENT

Professor Glazebrook Points  
Out Similarity between Old  
and New Negotiations

### FRANCE DEMANDS SECURITY

The similarity between the present negotiations for a five-way defensive agreement among the European powers and the Locarno agreement of 1925, was pointed out by Professor G. de T. Glazebrook, in an interview with *The Varsity* yesterday.

"I think they are trying to get some more regularized agreement between the powers and Germany. Germany's arming has already rendered obsolete Section 5 of the Versailles Treaty, which forbade this. Britain wants to establish a definite agreement, recognizing Germany's status, but France demands security now as she did before.

The recently announced Anglo-French accord has an added significance in the fact that it specifies a particular type of warfare, calling for

## HAYMAN'S BIG SIX CAGERS SCORE 8th STRAIGHT WIN

Blue Intermediates Capture Lead in Intercollegiate Series  
by Outplaying McMaster Crew to  
the Tune of 43-15

### JUNIORS CHALK UP 29-21 WIN

Seniors Featured Thrilling Last Minute Offensive—  
Intermediates Shared Honours of Game—  
Juniors Showed Action

By W. A. Crachover

A fairly large and enthusiastic crowd of basketball fans turned up at the big gym in Hart House last night to watch Coach Lew Hayman's Blue cagers register their eighth straight win in the Big Six League at the expense of McMaster's Garnet and Gray squad by a 45-28 count. To make the evening a perfect one for Varsity Coach McCutcheon's Intercollegiate Intermediate squad downed the McMaster second crew 43-15 while the junior Blues chalked up a 29-21 win against St. Michael's in a Y tilt.

The Big Six game, which was almost ruined by too much whistle blowing, featured a thrilling Blue offensive in the last few moments of the game. The Mountain City crew, employing a zone defensive system, cracked wide open under the steady pressure of Hayman's crew and the Varsity quintet rained short after shot on their opponents' basket to make the score mount rapidly.

Owing to the McMaster zone defensive system the senior tilt was on the slow side most of the time. The Blues had difficulty in piercing the stout Garnet and Gray defence and played a very poor brand of ball in the first half. They failed to capitalize on many of their scoring opportunities. Coach Hayman started his second line and his lads quickly ran up a six-point lead at 8-2. The Blue first string, however, failed to get going and McMaster aided by free throws, soon evened the count. A few quick baskets by Munroe, Meagher, Connolly and Newman again gave the Blues a lead and played ended for the half with Varsity leading 18-10.

The second half saw the Blues again failing to successfully cope with the McMaster defensive system for twelve minutes. At this point the Ambitious

## HAMILTON WINS IN FIERY TILT

Varsity Still with Clean Slate  
for Present Series  
Tussle

### BLUES ONE MAN SHORT

Hamilton continued their enviable record in the O.H.A. last night when they shot six goals into the Varsity net while the best the winless Blues could do was put three past Teno. Varsity were outplayed last night by a better team but the Blues turned in a very creditable performance.

At times the game threatened to develop into a free-for-all with both teams sharing the honours as far as rough work was concerned. One exhibition of fisticuffs and two minor displays of pushing accounted for six penalties, while other infractions of the rules brought the total rest periods up to the ever dozen.

## Australian Students Here To Study Social Science

College Clubs  
Prepare Debate

Warm debating is assured for tomorrow's joint meeting of the U.C. and St. Michael's College Parliamentary Clubs in the junior common room at U.C. The motion under discussion is: "Resolved that this house favours a freer immigration policy in Canada."

This is the second session of the government in power and its defeat is accounted probable. Members of the government refuse to be interviewed, and there are hints that the Prime Minister, Kaplansky, will approach the subject from a purely mathematical basis. Speaker Pivnick was beyond the reach of the telephone.

The Mirsky brothers, Mervin and Jack, at the helm of the opposition, will be supported by the Hon. Ted Livingstone and Hart Buck, speaker of the house, who has handed in a pro-tem resignation in order to be able to express his disapproval. The Rt. Hon. Wilfred Smith, the last premier, will also have something to say against the motion.

Hurried Trip Made During  
Antipodean Summer  
Vacation

### FIFTEEN GIRLS ON TRIP

An entourage of some fifteen young Australian ladies arrived in Toronto late yesterday afternoon from Chicago; they are students and graduates of the School for Social Work at Sydney, New South Wales, and are making a tour of North American Social Science Departments to see and study varied methods of training and practice in the different branches of Social Service in which they happen to be interested.

The *Varsity* stopped in at 74 St. George St. last night to interview one or two of the members of this tour from the Antipodes and was fortunate enough to be able to get hold of Miss Eileen Kirkpatrick, president of the Board of Social Science at Sydney, who is in charge of the group. Miss Kirkpatrick explained that the trip was being made during the Summer vacation in Australia, and that, therefore, it would have to be rather incomplete

## Mr. Zaharoff Smiles

Are Britain and the United States at war? You are surprised at the question. You will be more surprised at the reply. *They are*. While ambassadors pass between London and Washington on peaceable business, men are dying on the battlefields of the Gran Chaco. The reason—oil.

The generals of the Bolivian and Paraguayan armies are fighting for their respective countries. But prominent oil interests of the United States and Great Britain are conceded to be in control of the destinies of these countries. And they see riches in the oil deposits of the Chaco valley.

We in Canada are in the main of a pacifistic nature. When John Copp was killed by a gun in the hand of a burglar last year resentment was strong against the murderer. Brakeman Lynch would never have been acquitted if it had been proved that he had thrown the switch with the deliberate intention of killing the occupants of the train. But when the oil baron moves a pawn in his game of finance, a hundred, perhaps a thousand, lives are wiped out by shell-fire. And yet we honour him as a benefactor to humanity.

Does the hundred thousand dollars he may have given to an orphan's home make up for the hundreds of Paraguayan and Bolivian children whom he has deprived of fathers?

Mr. Zaharoff looks on and smiles.

## For Good Coeds Only!

Among Arthur Brisbane's daily syndicated profundities recently appeared a short paragraph on the subject of college girls. Said the noted columnist, "There could be no better wife or mother than a good college girl." To *The Minnesota Daily*, in its capacity as official student publication at the University, this statement raises a serious question of philological meaning.

Does Mr. Brisbane in using the term "good" to describe a college girl have the classic conception or the common campus conception of the word in mind? The former meaning of the word is best illustrated by a quotation from the poet who said, "Be good, sweet maid, and let those who will, be clever." The sort of coed who would qualify under this definition is noted for her solid horse sense, and her ability to please the college professor who is on the lookout for "good" minds, if not for her pulchritude. This sort of coed makes an eminently good wife and brings up her children according to the most advanced psychological theories.

On the other hand, we have the college girl who is defined as good by Joe College, himself. The old phrase, "Good, she's gotta be good", best typifies her. The highest type of this sort of coed is renowned for her ability to catch her man and hold him. She rarely has many ideas outside the realm of clothes, cute instructors and men in general. But then, she succeeds without them. She usually marries and may develop into a first class social climber. However, less marked coeds of this type make excellent wives and think that their husbands and babies are the best in the world.

Mr. Brisbane, just what did you mean?

—Minnesota Daily.

## Advice for Today

Did you ever try keeping one jump ahead of a lecturer instead of behind him? The question isn't intended to be sarcastic, ridiculous, or funny. It only implies that you might have adopted a plan of study which is not generally followed.

The policy may be very old and widely used, but it came before our attention only a short time ago, when its use was admitted by a student who has established a brilliant scholastic record. He had been asked to explain how it was that he got such outstanding results without apparently working any harder than his colleagues. His explanation was that he strove to do his work in the easiest way possible. For him this meant doing it at a certain time, and included taking a few minutes to glance over the work expected in the next lecture.

The explanation of course neglects the greater ability of the Scholarship student; but apart from that admitted fact it has substance of general interest. For almost every task there is a time when it can be accomplished with a minimum expenditure of energy. To delay the job means to increase the work. What is the result? The honour student, getting higher standing than his colleagues, may be doing less work; and getting away with it simply by utilizing fully the time element.

To appreciate this policy it must be tried. If you have tried it you are, of course, using it; if not, give it a trial.

## We Want Subways

There are a lot of Victoria College students who take Chemistry and every one of them has reason to curse the landscape-architecture of the University. If he walks alone he can, if he is lucky, pass from the College to the Chemistry Building in ten minutes flat. If his gait is encumbered by one of the opposite sex (as is not infrequent among men in Victoria College) he will arrive, if he is lucky, ten minutes late, and ironical salutations will embarrass him from the front rows of the lecture-room.

These estimates do not include the usual impediments, such as the donning of rubbers and coat, the wait for a break in traffic at Queen's Park Crescent, and detours for mud and swamps in Queen's Park and the Front Campus. This, of course, is an extreme instance; other instances are from St. Michael's College to the Applied Mathematics Building and from McMaster Hall to Baldwin House.

*The Varsity* considers it against public policy that the students of the Provincial University should be interrupted in their lawful occasions by intrusive public highways and public parks which are permitted to straddle the University premises. Also it deems the planning (or its absence) of the University premises, whereby long distances often have to be traversed in a few minutes between lectures, as unfortunate. The Pittsburgh idea, which collects all the University departments (save Dentistry and Medicine) into one skyscraper, seems to have great merit. It would, however, be too great a capital expenditure here.

The Pittsburgh skyscraper, it goes without saying, possesses fast elevators which offer inter-classroom transit in far less than ten minutes flat. At Toronto the ideal solution would be an underground subway system.

Such a system would comprise a network of tunnels underneath the campus, with exits at all the foci of lectures. In fact, the need could be served by two circuits, the first connecting University College, Whitney Hall, Trinity College, McMaster Hall, Lillian Massey Hall, Victoria, and St. Michael's and St. Joseph's; the second, connecting all the University buildings south of University College, displayed about the Front Campus. Stations would connect with the basements of these buildings. Cars would be electric, and would whiz through the tunnels like those of New York. Transfer between the two systems would be made underground, as in that city. Entrance would be made through turnstiles primed with brass slugs, 500 for a dollar—or no, it would be free to students showing registration cards. Between lectures there would be a train through each station every minute, during lectures every ten minutes. A spur line would connect with the Toronto General Hospital, and mayhap another with the newest hotel on Bay Street.

A system of tunnels exists already; it carries steam from the Power Plant to all the buildings of the University, and in the main would need no more than occasional widening. All that is necessary is some cars and more public spirit. We leave the details to the Superintendent.

## ART, MUSIC & DRAMA

The programmes of the Symphony this season have been of such uniformly high character and worth, and their presentation and performance so creditable that they scarcely need the questionable publicity and dogged support of certain acrimonious critics: though several earlier concerts have merited a great measure of enthusiastic commendation it is doubtful if we shall be privileged to hear more than a few programmes comprising such an abundance of interesting and unusual music as was gathered into last night's fare.

Followers of the Symphony will know that three contemporary modern composers, recently deceased, Debussy, Elgar and Holst, were the composers prominently figuring in this evening of English music. Time alone can pronounce the final word on the permanent worth of all artistic creations. Still it is more than likely that these men shall always occupy a most important place in the history of English music. Their respective contributions have been as diversified as the variety shown in the programme itself.

Holst is by far the boldest and most modern in his harmonic texture. The three movements from "The Planets" (Continued on Page 4)

## A COURSE FOR VANDALS

Owing to the lack of system used by Vandals in these parts, we are here presenting a short course in systematic Vandalism.

### Lesson One: BOOK DEFACING

1. When a professor desires to make marginal criticisms of a text, such as Rotl Utter Nonsense! A Fine Passage, or the ever intelligent (?), he should sign his name. The book is usually, good or bad, endorsed by an author's signature, and the book can be judged in the light of his reputation. Marginal notes would be increased in value with such a standard on which to judge them.

2. Corner Turner Downers. Always turn the dog ear down far enough to cover the page number. This insures the book of more careful perusal.

3. Underliners. If every line on a page is underlined, nobody can see the cause of the underlining, and thus nobody can be biased in their reading. This provides pleasant entertainment for the vandal of bookish inclination.

### Lesson 2: WOOD ETCHERS

1. In carving your initials on a desk, there is the pleasant satisfaction of (Continued on Page 4)

## Let's Go Places

British Gaumont Films brings to the Imperial Theatre this week one of the distinctly better films of the year: *The Iron Duke*, with George Arliss. Because of its nature, the dramatization of a character famous in British history, the film will be widely advertised but in this case it will merit it, as a preview indicates.

The picture is unusual in that it portrays—successfully—the Duke of Wellington in a manner decidedly different from that in which history text books and biographies are wont to do. While the military exploits of the Duke are faithfully depicted, much attention has been given to the portrayal of the man rather than the soldier. The infatuation of the Lady Frances Webster for Wellington and the subsequent scandal, intimate glimpses of the Duke at home, his role of the statesman at the Congress of Vienna and at the French Court reveal to us a character which we would scarce have suspected was the man whom we read about in history.

The story begins with the Vienna (Continued on Page 4)

## THE SPORTSWOMAN

By M. A. F.

At 7 p.m. this evening the second Vic team is to be the guest of St. Mike's at the Varsity rink. Both these outfits are pretty smart and the game should be good. This is the last week of the hockey series (that is, before the finals come off), and it would be more than gratifying to the players if the numbers attending these matches could increase.

The intermediate intercollegiate basketball team makes its debut at 6 p.m. tomorrow at the O.C.E. gym in a practice game with the lasses from Eglington United Church. The workout last night was stiff but thanks to several such gruelling sessions the team is getting nicely whipped into shape. There is a fair representation from all the colleges, and Kay Mackenzie can be counted on to make the most of the twelve players on deck.

There is a mere mention of an intermediate game after the senior game on Friday with Hamilton Normal—but we have no definite word about that yet. Sometime next week both the first and second squads will be playing the McMaster aggregations here. As yet there are no plans for return games with McMaster and the intermediates are still waiting for word from Guelph. It is evident, however, that this group is definitely getting all set to go and the schedule sounds really promising.

The Vic women who are playing in the badminton doubles tournament are asked to speed up their rounds so that the winners may be declared by the end of the week. Next Tuesday is the deadline for entering the interfaculty tournament, you know. It is not expected that the Scarlet and Gold singles tournament will be finished before the twelfth. However, a singles representative will be selected and the match will go on regardless.

The Saint Hildeans have had their playoffs and the team is warming up for the final event. St. Mike's are practicing also and getting along quite well. U.C. does not seem to have responded to the call as quickly as had been expected. May we ask (in fact beg) any U.C. women who are at all keen to play to get in touch with Lenore Fraser or Dot Dempster immediately.

## VIC BASKETEERS DEFEAT SR. SCHOOL

Decisive Victory Scored after Spasmodic Game Played

FINAL SCORE, 21-4

Sr. Vic scored a decisive 21-4 victory over Sr. School in an interfaculty basketball game played yesterday in the upper gym.

S.P.S. opened the scoring with two quick baskets by O'Flynn and Lottimer but the initial outburst must have been too much for them since they were unable to hit their stride throughout the remainder of the game.

The first half was a listless exhibition, featured by loose ball handling on the part of both teams and ended with the Schoolmen out in front 4-3. Vic came to life in the second half and completely outclassed their rivals, piling up 17 points, at the same time presenting an air-tight defence which did not allow School a single field goal.

S.P.S.: Reid, O'Flynn, Lottimer, Miller, Wood, Brigham, Westheuser, McArthur.

Sr. Vic: Edwards, Gladish, Faux, Price, Toole, Rutledge, Necb, Hills, Richardson, Cameron, Stubbs.

## TRINITY SWAMPS WYCLIFFE TEAM

Fast Hockey Shown Last Night in Decisive Game at Arena

DEFENCE, DECIDING FACTOR

After a session of warming up the Trinity hockey team went to work on the weaker Wycliffe team and overwhelmed them by the score of 8-0 yesterday afternoon. The first string forward line of the winners accounted for six of their eight goals and were always dangerous when on the ice. The Trinity defence proved the nemesis of the opposing forwards and after some very futile attempts to get close in for a shot they had to resort to ineffective blue line shooting. Peglar in the Wycliffe net did a very nice job while the Trinity goalies spent most of the time trying to keep warm.

Trinity: Owen, Sutton, MacLellan, Burchell, Brennan, Ford, Scrivener, Campbell, Seed and McMillan.

Wycliffe: Peglar, Huether, Emmett, Ruch, Fairweather, Wood, Newton-Smith, Toome, Symons.

## BLUE BASKETEERS TAKE HONOURS IN THREE GAMES

(Continued from Page 1)

City crew cracked and the Blues opened up their thrilling offensive to make sure of the game.

Clary Palmer, former St. Mike's star, was the star performer for Coach Burridge's squad. He acted as the spearhead for the McMaster attack and his brilliant play made him high scorer for the contest. Stroud and Dingwall also played well for McMaster. The entire Blue squad played good ball with every man but two taking a hand in the scoring. Munroe, who has improved tremendously since the season began, turned in a very good performance.

As a result of their win in the intermediate contest McCutcheon's crew are now in the driver's seat in the intercollegiate series with two consecutive wins. As in the senior tilt the McMaster aggregation's defensive style of play kept the scoring down in the first half. The lead changed hands five times in this half with neither team being able to do much damage in a scoring way. Towards the end of the half the Blue efforts were more successful and the half ended with Varsity leading 18-8. Led by Jerry Vanderleek the Blues opened up play in the second half and had no difficulty in displaying their superiority by virtue of fine playing.

The playing of Vanderleek was a standout. Big Jerry couldn't miss and rang up a total of fifteen points. Henry Himel turned in his best performance since donning a Blue uniform and was a tower of strength all night. With Himel and Vanderleek playing excellent ball the rest of the Blue squad had an easy night.

The junior tilt provided some fast action but lacked anything of the spectacular. Both the Varsity and St. Michael's crews turned in fair performances with the Blues just managing to stave off a last-minute Irish offensive.

Varsity I, 45: Levy 4, Newman 4, Munroe 4, Bodrug 6, Gordon, Connolly 8, Marks 6, Meagher 5, Gold 4, Crowley 4, and Menzel.

McMaster I, 28: Dingwall 4, Hill 3, Palmer 11, Lennie, Stroud 5, Moore 2, Laughren 1, Turnbull 2 and Fudge. Varsity II, 43: Sullivan 3, Magwood 5, Vanderleek 15, Himel 7, Carey 7, Newman, Krakauer 4, and Fitton 2. McMaster II, 15: Young 5, MacNeill 2, Bush 3, Downes, Thornton, Low 2, Fletcher 3, Coome.

Referee: Percy Millar.

Varsity III, 29: Molson 9, Hogg 10, McGregor 6, Denne, Krakauer 4, Roberts, Harlock, Green, Cooper, Dorsey, St. Michael's 21: Powers 7, Griffin 2, Bedford 5, Miller 3, Dougherty 4, Sullivan, Martin.

Referee: Joe Menzel.

## SPEAKING OF SPORT

By Ken Burn

At times last night's hockey game resembled a comedy of errors with the officials in charge playing the leading roles. A few minutes before game time Varsity were without a goal judge. After various threats and promises some nameless hero offered to call the shots. Midway through the first period Fitzgerald scored a clean cut goal which the aforementioned hero chose to overlook. When the call to arms was sounded at the beginning of the second session the bashful youth had decided that discretion was the better part of valour and decamped. Once again the Varsity scouts had to comb the ranks to find a volunteer. Play had hardly resumed when the red light flickered at the other end. An investigation showed that Fitzgerald had hit the upper post but Referee Armstrong rules that close ones didn't count and once again the play went merrily on. A few minutes later Devine banged one home that was disallowed. The goal judge's first decision was that the puck was in. When the powerful orators from Hamilton (they must practice yodelling on that mountain) raised their voices, however, he modified his decision by stating that half the puck was over the line and half wasn't. Apparently the more potent half wasn't over for the goal was called back, which evened up matters for the evening.

These errors in management had a slightly humorous touch that didn't leave too bad a taste in our mouths but the work of the referee left much to be desired. When play began to roughen in the second period a few penalties at the proper moment would have curbed it but he chose to let it slide probably hoping it would abate. The grand climax was reached when a free-for-all started at the Varsity nets with the principal contenders being, from left to right, MacPherson, Loughheed and Howard. The popular Varsity captain must have pulled the powerful personality act for he went scot free while McLellan, who joined the fray at a late date, was sent to the cooler.

One of the inevitable results of the rough play occurred when Valquette was dumped heavily. For a moment it appeared as if he was seriously hurt but fortunately his injury was only slight.

Hamilton's basketball squads suffered a double reverse at the hands of the Blue teams last night. The Big Six crew registered their eighth win in as many starts while the Seconds remain unbeaten in the college loop. The senior team face a tough struggle this week-end when they journey to London. Western have won their two games in the intercollegiate and already are talking of championships. However, the Blue squad have ideas along similar lines and our vote goes for the Hayman coached team.

## HAMILTON WINS IN FIERY TILT

(Continued from Page 1)

Hamilton ran up a large lead in the first half of the game and at the half way mark were leading 4-0. Varsity's first counter came late in the second period and in the final frame they took half of the four goals scored.

Varsity showed to better advantage when playing a man short than at any other time this year. When Rey was chased in the first period Hamilton kept the puck inside the Students' blue line for the entire two minutes but were unable to score. The next time the Hamilton team had the added manpower they were only able to get one shot on goal while on the third occasion Varsity carried the play into the Bengals' territory during the penance period.

Bennett was the sole marksman to find the net during the initial period. After two minutes of play he sallied forth alone, cracked the Varsity defence and beat Loughheed with a hard drive from just outside the crease. Neither team had a distinct advantage during this period but Hamilton appeared much more dangerous inside the blue line.

There was a good deal of ill feeling shown in the second session with the result that play, although exciting to watch, slowed down considerably. Hamilton scored three goals at regular intervals and appeared much the better team. Hendry scored the Blues' tally to the goal mouth.

Primeau ran the count to 5-1 early in the final frame when the Varsity defence, in attempting to clear, bounced the puck to one of their own men and left it sitting in front of the goal. Varsity dominated the play for the next few minutes and ran in two goals that left them with a fighting chance but Chisholm's tally placed the Bengals in the driver's seat, where they remained for the balance of the game.

Bruce Charles played a splendid

game for Varsity and the rest of the regular team all fought valiantly. Hamilton looked like an all-star aggregation and if they learn to curb the roughing tactics would be worthy representatives of Canada at the next Olympics.

Hamilton: Goal, Teno; defence, Howard, Radke; centre, Kerr; wings, Primeau, Fitzgerald; alternates, Bennett, Blake, Liscombe, Chisholm. Varsity: Goal, Loughheed; defence, Charles, Rey; centre, McLellan; wings, MacPherson, Hendry; alternates, Campbell, Devine, Kiehl, Valquette.

## SUMMARY

First Period	
Hamilton.....Bennett	2-0
Second Period	
Hamilton.....Liscombe (Blake)	4-5
Hamilton.....Bennett (Blake)	9-0
Hamilton.....Chisholm (Radke)	12-0
Varsity.....Hendry (Rey)	16-0
Third Period	
Hamilton.....Primeau	5-15
Varsity.....Valquette (Charles)	6-00
Varsity.....Charles	7-30
Hamilton.....Chisholm (Primeau)	12-00

Penalties—First period: Primeau, Rey, Charles; second period: Radke, Campbell, McLellan, Chisholm (major), Howard; third period: Howard, Charles (2), Fitzgerald.

## POLITICAL CLUB STUDY GROUPS

(Continued from Page 1)

on a high political colour, and consequently the fairest and most impartial views cannot be reached. To offset this difficulty these study groups have been arranged in which the members are able to discuss their own opinions, and find the right solutions for their problems, without being influenced by narrow party policies.

Two similar meetings were held last year in which the British North America Act and the railroad problem were discussed by the members of the club, and members of the staff were asked to criticize.

## AUSTRALIAN STUDENTS ARE HERE ON TOUR

(Continued from Page 1)

in that it was hurried. "As far as I know," she said, "it is the first tour of this kind that has ever been tried by students of a school of Social Work. There are fifteen girls on the trip and Miss Mary Davis, secretary of the Board of Social Study at Sydney, of which I am the president. We landed at San Francisco and visited schools there and at Minneapolis and Chicago.

When questioned as to how North American departments in Social Science compared with those in Australia, Miss Kirkpatrick explained that the field had only recently been entered down there and that for that reason we up here were of course able to offer rather more in the way of practical experience of social work. "There are only two centres, as a matter of fact," she went on. "Our own school in Sydney was started some five or six years ago and there is one more in our neighbouring state that has only just started this year. The Department of Social Science here will be able to give you a much better idea of our work, of course, but, in the main, it consists of training young girls for social work as a profession or for volunteer work, but more particularly the former."

## FINANCES HINDER FAIR MARKSMEN

(Continued from Page 1)

to get a range, which includes an adequate lighting system, buy rifles and get instructors. An annual subscription fee, such as the members at Hart House pay, would be necessary to pay for ammunition and cost of cleaning rifles, etc.

Since none of these facilities seem forthcoming from the government the best plan for women interested, would be to join local civilian ranges. The feminine members of these associations have already given good exhibitions of their skill at the Long Branch competition which is sponsored by the Ontario Rifle Association, with which the University range is affiliated.

Dr. Lucas commented upon the fact that there is no evidence of militarism in the rifle range, and that the men partake in it solely as sport. He also added that women would not only enjoy it, but benefit by it, as it is a "training of eye and body in close co-operation."

## EUROPEAN POWERS SEEK AGREEMENT

(Continued from Page 1)

a defensive alliance in case of "aerial invasion". The importance is thus recognized of the tremendous advances made in this type of warfare since 1918. An aerial invasion allows no time for the usual diplomatic activities or the summoning of allies to the aid of the country attacked.

Professor Glazebrook suggested that the cold reception tendered the announcement of the new accord by Germany is only to be expected. While probably favouring some such agreement, the Berlin authorities are not willing to assent to a treaty in which they have had no hand in the preparation.

## Sport Notices

Trinity Basketball—  
Practice in upper gym 2-3. Game with U.C. 4-5. The following men must turn out: A'Court, Eaton, Grant, Loring, Stewart, Harvie, Gardner, McCarty, Staples and DiIworth.

U.C. Swimming—  
4.30—Hart House pool. All interested in taking part in interfaculty swimming and diving meet please turn out. Arrangements will be made for entering a team.

Rugby Elections—  
The elections for the Rugby Club will be held on Friday, February 15th. Nominations should be filed in the Athletic Office not later than Friday, February 8th.

Volleyball—  
Game tonight at Central Y at 9.30. Everyone be out.

Jr. S.P.S. Waterpolo—  
Group playoff game with Dents tonight at 5 o'clock. The following players report: Partridge, Young, Schmitt, Reider, Hogg, Otter, Eggert, Alden.

U.C. Hockey—  
Game today at 4.30 p.m. at Varsity Arena. All those who have played so far turn out.

Victoria Waterpolo—  
Important interfaculty game with Sr. Meds Wednesday, 5.30 p.m. Everybody out.

Waterpolo Playoff—  
Waterpolo group playoff, Jr. School vs Dents, Wednesday at 5.00.

Waterpolo Semi-final—  
Sr. Meds vs Vic, Wednesday at 5.30.

Engineer in the Public Service" by G. B. Desbarats, will be read. The annual dinner and dance of the Institute will take place Thursday evening. Professor R. W. Angus, head of the Department of Mechanical Engineering, will give an address on "The Graphical Solution for Pressure Rise in Pipe Lines" on Friday morning. Wm. Storrie, a Toronto consulting engineer, will speak on "The Toronto Waterworks Extensions", at the same meeting.

In the afternoon "The Water Supply of the Prairie Provinces" will be discussed by a number of authoritative speakers.

Saturday morning arrangements will be made to visit several engineering works of interest, including the Ontario Research Foundation Laboratories, the Toronto Toll Equipment of the Bell Telephone Company, the Hydro Electric Laboratories, and the Hydro Park Filtration Plant.

## LET'S GO PLACES

(Continued from Page 1)

Congress at the opening of 1815, where the powers of Europe had met to effect a division of Europe amongst themselves. In the middle of the Congress Napoleon escapes from Elba. Events take place rapidly and we are carried from the Duchess of Richmond's ball on the eve of Waterloo, to the battle, back to Paris where Wellington forces Louis XVIII to dissolve the French Government, thence back to England and the House of Lords, where an attack is made upon the Duke. Wellington squelches his critics with the famous "pound of flesh" speech and departs from the House amid cheers to attend a cricket game with his wife and family.

Some magnificent photography is shown in pictures of the battle of Waterloo. The charges and action on the field are thrilling to behold. Artists gives his usual superlative performance and the acting of Ellaline Terry as the Duchess, Allan Aynesworth as Louis, Gladys Cooper as Madame, and Leslie Waring as Lady Frances is excellent. The reconstruction of famous historical scenes has been done with much finesse.

*The Iron Duke* is one of those pictures that would lead us to believe that historical films have even greater possibilities of fine entertainment than the ordinary run of pictures.

G. H. J.

## FUNERAL SERVICE OF DR. GRANT

(Continued from Page 1)

Following the service, which was opened by Principal W. Hamilton Fyfe of Queen's and continued by Rt. Rev. J. R. Renison, of St. Paul's Anglican Church; Rev. J. R. P. Sclater, of Old St. Andrew's Church, and Rev. G. Stanley Russell, of Deer Park United Church, the casket was borne through the halls to a point in front of Dr. Grant's office, where it was placed. The student body then walked slowly past their dead principal's bier with sorrowful countenances. The pallbearers were all senior prefects of the college.

Cremation took place at Necropolis and burial will be in Kingston, Ont.

## W. A. McLEOD SPEAKS BEFORE CHEMICAL CLUB

(Continued from Page 1)

objectionable colour and odour of the crude oil are removed by treatment with Fuller's earth and a heating process approaching steam distillation, leaving a product with which no housewife could find fault.

The hydrogenation is carried on with hydrogen furnished by a new steam-iron process, which, despite Hydro process. It is followed by a chilling and claims, is displacing the electrolytic heating process designed to improve the texture of the finished shortening.

"By-products have made the modern packing industry possible," stated Mr. McLeod, in describing the development of the hydrogenation industry.

At the conclusion of the meeting Professor Ardagh obliged with his usual humour, ably assisted by Dr. McLaughlin.

## SYMBOLIC DANCING NOT FOR CHURCHES

(Continued from Page 1)

or in music. Many of the greatest composers wrote for the church—Bach, in Germany, and the Elizabethan musicians such as Orlando Gibbons. Religion should appeal to the intellect, rather than to the emotions or the aesthetic senses."

In the opinion of the Rev. Dr. W. W. Brydon of Knox College, symbolic dancing is merely part of a present-day trend towards an increased emphasis on the interpretation of religion from the aesthetic point of view. Such a phase is interesting for the time being but it is not a lasting one. "This tendency," said Dr. Brydon, "which is due to an ebbing of vital interest in the church throughout the past years, is a great mistake. The church becomes pure symbolism—for example, the Russian church. It has become almost entirely devalued, through making this element dominant, leaving nothing to hold a materialistic people. Religion must be fundamental—it must appeal to the soul rather than the eyes."

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at either the men's office in Hart House, or at the women's office in University College. No notices will be taken over the telephone, after 6 p.m. notices must be taken to the Press Building. Notices for the Bulletin Board are limited to ONE insertion only.

### FIRST YEAR PASS U.C.

A very limited number of 377 pins can be purchased at the U.C. Lit. office Wednesday and Thursday mornings at 10 o'clock.

### S.C.M. CANDY SALE

An S.C.M. candy sale is being held in the U.C. rotunda, U.C. women's cloak room and the Household Science Building, Wednesday morning, February 6.

### S. C. M. SERIES

Rev. E. L. Wasson will speak on "The Meaning of Friendship" in the common room of Cody House tonight at 7.30. All U.C. women are invited.

### THIRD YEAR VICTORIA

The class picture will be taken at the college today at 1.40. Please co-operate by being on time.

### U.C. PARLIAMENTARY CLUB

Thursday, February 7, 1935, 4 p.m. Junior Common Room. Joint meeting with St. Michael's: "Resolved that this house favours a freer immigration policy for Canada." Pivnick, Speaker; Buck, Clerk; Kaplansky, Premier; Mervin Minsky, leader of Opposition.

### C. C. F. CLUB

The University C.C.F. Club meets tonight in Wymilwood at 8.15. Dr. Luke Teskey will speak. Election of officers. Men and women interested are invited to attend.

### U.C. PLAYERS' GUILD

The U.C. Players' Guild presents *The Wolf at the Door* by Daniel Hanlon, on Wednesday, February 6th, at 4.15 p.m. in the Women's Union. Members are reminded that all unsold tickets for *The Wild Duck* and all proceeds of ticket sales must be brought in today.

### VOCATIONAL GUIDANCE

The Vocational Guidance Committee of the Victoria College Alumni Association has arranged an open meeting in Alumni Hall, Victoria College, on Wednesday, February 6th at 5 p.m. This meeting will be addressed by Dr. K. S. Barnhardt on the general subject "Vocational Guidance." Announcement will also be made regarding the various groups that are now being organized. This meeting is open to all men undergraduates of Victoria College.

### VIC MUSIC CLUB

The treasurer will be in the college hall from 1-2 today and at 10 and from 1-2 on Thursday, to see members wishing to return scores and pay fees. Only members who have paid fees and settled for scores and tickets are eligible to attend the at-home.

### M. AND P. SOCIETY

The M. and P. Society will hold its annual At-Home on Monday, Feb. 18 at the Oak Room, Union Station. Dinner 7.30-9. Dancing 9-1. Watch for further details.

### VIC WOMEN

"Lit" groups for February. Miss Coburn on Nineteenth Century Poetry today from 4 to 5 p.m. in the Green Room at Wymilwood. Please bring copies of Wordsworth and Coleridge.

On Friday, February 8, Mrs. Creighton on Restoration and Eighteenth Century Drama in Mrs. Creighton's office, third floor, Victoria. Please bring copies of "All for Love".

These groups are open to Victoria women students of all years.

### VIC GRADUATING

Members of third year Pass at Victoria are particularly reminded of the class picture today.

## ADDRESSES MEETING AT WYCLIFFE

DR. JOHN R. MOTT

Noted student worker, Y.M.C.A. executive, and secretary of the International Missionary Council, who will address a meeting of students in Sheraton Memorial Hall, Wycliffe College, next Friday afternoon.

"The possibilities of such services ever becoming popular in Toronto, is very remote," said Dr. McMillen, of Emmanuel College. "Interpretative dancing would only be of value to those who truly appreciate it, as is any other art. And judging from the attendance at the dance programmes in Massey Hall, Toronto would hardly welcome such an innovation."

### O.C.E. Defeat Jr. Vic

O.C.E. chalked up their second straight victory in the interfaculty baseball series yesterday by defeating Jr. Vic 6-1. The Teachers' pitcher, Fitton, was the standout of the game, being credited with 14 strikeouts in the five innings, weakening only in the last inning, when he allowed Vic their one run.

## ART, MUSIC AND DRAMA

(Continued from Page 2)

Mars, Mercury, Jupiter are representative of the direct and forceful utterances from his pen. Elgar, the most orthodox and most prominent of the three, a man self-taught who quietly and permanently came into renown through the unmistakable fruits of a great genius was typically represented by the *Prologue to "The Apostle"* and the *Enigma Variations*. The former is an oratorio not so well known as the *Dream of Gerontius* soon to be performed in Toronto. It radically departs from the traditional form. The strong majestic chorus gives way to a more personal expression of religious feeling. The texture of the music is shot with a mysticism and a deep reverence which only later methods of choral and orchestral writing could express.

After Mr. Hubert Eisdell had sung the folksong on which Delius has based his *Brigg Fair*, the Fantasia was played. The soloist, Mr. John Goss, the Conservatory Choir and the orchestra joined forces to perform Delius' setting of Whitman's *Sea Drift*. It may not have been the greatest masterpiece of the evening but it was breath-taking in its poignant beauty. Mr. Goss has a small voice but his artistry is of the finest. The Conservatory Choir has improved considerably and in a broad sense it shows a choralism that is set in the right direction. The quality of tone and its gradation was nicely handled. The singing was smoother than that which the choir had previously achieved. What seems to be the most pressing need is a greater solidity and earnestness.

The orchestra becomes increasingly finer as every orchestra should under competent leadership. It is a matter of time and constant practice. The fact that the "Enigma Variations" can be played with authority speaks volumes. F. B. S.

## CHAMPUS CAT

(Continued from Page 2)

knowing that the desk will undoubtedly become valuable if you ever are famous. Always make the initials in such a scraggly form that their artistic value will never outweigh their human interest value.

2. Cigarette butts can create rather fine designs on the edge of a table. Leave them burning. If they are good cigarettes, they will burn a cute little furrow in the window sill or table edge. Lesson 3:

### STATUE DECORATION

1. Venus Dressers. The conventional bust measurement is 38 inches. It is also helpful to put an Empress Eugenie hat on the head of a Venus, or to put a cigarette in her mouth.

2. Hermes Mustaches: When giving whiskers on Hermes, use only Le-

pages Water-Proof. Also, the Greeks never played squash raquets.

### Lesson 4: SIGN COLLECTION and GENERAL VANDALISM

1. Concentrate on Danger Signs and Red Lanterns. This gets more results.

2. In hanging Park Benches on trees, first remove the occupants of the benches.

3. When painting buildings, tearing down fences, and removing decorations, avoid dropping registration cards. It puts people to a lot of trouble returning them.

4. In damaging the mental and facial qualities of Joab.

P.S.—Avoid making him lose his temper.

## 'TWIXT TWO

Dear Phyllis—

Once upon a time a wise man remarked (and I wish that I could remember his name) that democracy always cuts its own throat by fostering education: the more educated an individual becomes, the less willing is he to entrust the government of his country to a democracy; he becomes more anxious to pick on some other ruling class than a democracy provides. I say "class" advisedly, for since as long ago as the time of Aristotle a democracy has been a government by the common people, a definite class of poor people opposed to the rich. And in our country it is still trying to break free from the slavery which this class rule implies; today the government is supported by the people, but it is controlled by the rich—in the form of protected manufacturers and newspaper owners.

Yesterday *The Varsity* outdid itself in providing hackneyed editorials, but there was a wistful phrase or two which declared that "only the elimination of the profit motive both in economy and politics will bring honest men to the fore and guarantee an incorruptible democracy," thus implying that the solution for our political difficulties lay in democracy still. And that's a very common idea.

What are the other solutions? The most important is socialism; it runs the gamut of the shades of pink and

red from the hopelessly idealistic type to the Marxian die-hards of U.C. Undoubtedly it will play a large part in whatever compromise we adopt, for it is a constituent even of fascism and technocracy. Dictatorship we must abhor because it restricts the very purport at which we are engaged, study. Technocracy is out of the question, because it requires that we give it absolute control, for a fair trial—and so do communism and the weak-kneed foolishness known as hero-worship or fascism. In a University the place of the educated man in the new social order should be in the front of every theory. I am inclined to agree with *The Varsity* in so far as it advocates getting honest men into the government—but in a more socialistic state than our outworn democracy.

—Ted.

## EXHIBIT ARRANGED FOR RARE VOLUMES

(Continued from Page 1)

during past years. Work on the case has been going on for the past three weeks and today it stands in the library ready to receive its interesting contents.

The display case measures six feet in length and forty inches in width, consisting of two sections covered with plate glass. It is constructed of fumed oak. A selection of valuable books will be placed on display immediately.

# The Varsity

## The Undergraduate Newspaper

VOL. LIV.

UNIVERSITY OF TORONTO, THURSDAY, FEBRUARY 7th, 1935

No. 81

### NEWS OF THE WORLD IN BRIEF

London, Ont.—David Meisner, accused of the kidnapping of John S. Labatt, was found guilty on three counts, after the jury had been deliberating but one hour yesterday afternoon. He was sentenced to 15 years in Kingston penitentiary. Meisner persists in declaring his innocence.

Paris, France—Hundreds of students yesterday participated in a riot in Place de la Concorde. It was the anniversary of the Stavisky affair riots of a year ago. Police were able to thwart serious trouble.

Vienna—Fearing a repetition of last February twelfth's anti-Fascist rebellion, thousands of Communists and Socialists were arrested yesterday.

Massey, Ont.—During her funeral service yesterday which was being conducted in orthodox Indian fashion, a Spanish River Reserve squaw sat up and asked what it was all about. She had been considered dead for two days.

New York—The far-famed "anti-disestablishmentarianism" has been displaced from its position as the longest English word. The National Puzzlers' League have "discovered" a new one. The usurper is "Antielectrophotomicrographically".

### SINCERITY SECRET OF GOOD ORATORY

Personality, Conviction and  
Logic are Necessary  
Attributes

#### MALE SPEAKERS BEST

In an endeavour to ascertain the real characteristics that go to make a superlative speaker, *The Varsity* interviewed several prominent speakers of the University who agreed that the criterion by which to judge a good speaker is the effect he has on his audience. A good orator must always consider the type of audience he is addressing and mould his speech to suit the audience. A speaker may hold his audience by the power of his personality, by the force and persuasiveness of his delivery, and by the amount of conviction he himself displays. In the opinion of one prominent debater, University students appreciate informality in the speaker. They prefer the straightforward, logical speaker rather than the over-elquent or one who reads his speech from copious notes. Mr. Arnold Smith maintains that a little humour is an excellent thing if brought in at the right place, but the use of too much humour tends to lower the standard of the speech.

The general opinion seems to be that men are more appealing speakers than women. Mr. Smith suggests that

#### Hart House Committees

Debates Committee — Nominations open, Wed. Feb. 6, 9 a.m., and close, Mon. Feb. 25, 6 p.m. Withdrawals to Tues. Feb. 26, 2 p.m. Elections, Wed. Feb. 27.

Other committees — House, Hall, Sketch, Music, Library, Squash, and Camera. Nominations open, Fri. Feb. 22, 9 a.m. and close, Wed. Feb. 27, 6 p.m. Withdrawals to Thursday, Feb. 28, 6 p.m. Elections (including Camera), Wed. March 6. Squash elections, Thursday, March 7.

### UNFAILING LOYALTY OF ALUMNI LAUDED BY MANITOBA HEAD

Responsibility of Graduates Is  
Outlined by President  
S. E. Smith

#### SOUNDS OPTIMISTIC NOTE

Criterion for Valuing a University  
Is Spirit of  
Graduates

Sidney E. Smith, president of the University of Manitoba, interrupted his return to Winnipeg from a short trip to eastern Canada to address the Toronto Alumni Association of the University of Manitoba last night in the Oak Room in the Union Station. President Smith outlined the new financial policy of the university, and discussed the opportunities and responsibilities of the alumni of a university. "Your support of your university should not cease upon graduation. By reflecting credit on your alma mater in successful careers, by interpreting the university to the public, and the public to the university, you continue to evince your interest in its progress," was his message.

The president made a plea for more fellowships and scholarships to enable students without financial backing to obtain university educations. "Their ambitions must not be crushed while there are alumni interested in the advancement of culture."

Speaking of the financial situation in Manitoba, President Smith stated that he expected larger appropriations would be made by the government with the return of better times. "The re-establishment of salaries, cut because of loss of endowments, and the replacement of worn equipment will be the first care of the Board of Governors in this event," the president promised. (Continued on Page 4)

### LEISURE IS A MYTH TO ALL GRADUATES

Years After Graduation Are  
Vital in Getting  
Established

#### SOME HAVE HOBBY

Leisure time is non-existent, according to the undergraduates questioned by *The Varsity* yesterday. Also, the general opinion is that after graduation, for the first few years, if one is fortunate enough to secure a position, most of one's so-called spare time is taken up with trying to keep this position or work up to a better one. If a man gets married soon after graduation every moment of his time is utilized in an effort to accumulate the wherewithal to keep a roof over his head and feed his family in this day of low salaries. Similarly, a woman graduate who settles down to an early married life finds her hands more than full raising a family and keeping house.

A recent graduate of this University stated that a college education is not of much value unless it provides one with some idea of how to spend one's time in order to get the best out of life. Frequently, the former college student takes up some hobby such as reading plays which is either directly or indirectly the result of his University course.

Doubtless, spare time in any quantity is very bad for one and tends towards mental laziness. Especially is

(Continued on Page 4)

### S.A.C. Meeting

The ninth regular meeting of the Joint Executive of the Students' Administrative Council was held in Room 82, University College, yesterday afternoon at 5 p.m. The following business was transacted:

1. Acceptance of the Auditors' report for the six months ending December 31st, 1934.
  2. Decision to continue this year's policy of joining with the Board of Governors in the publication of the University Directory and paying one-half of the cost of publishing the 1935-36 edition.
  3. Acceptance of the recommendation of the Debates Committee that Mr. Saul Rae and Mr. Arnold Smith of University College be appointed to represent the University of Toronto in the radio debate against the University of Manitoba on Friday, February 8th.
  4. Amendment to the Constitution to include the Secretary of the Hart House Debates Committee as a member of the Students' Administrative Council Debates Committee. (Subject to the approval of the Board of Governors).
- (Signed)  
A. E. M. Parkes.

### DENTAL STUDENT SOCIAL ADDRESSED BY DR. LOTT

In order to provide an opportunity for the students to meet each other socially the Dental students of 376 held a dinner last evening at the Open Hearth Tea Room.

As a part of the evening's entertainment Harris Crows and Jack Westlake played a piano duet and Dr. George Clarke rendered an amusing dialect vocal recitation with all the gestures. The main feature of the evening was a talk by Dr. Lott based upon the means of communication during the Great War.

### If Scholarships You Cannot Win Maybe Here You'll Shine, in Sin

'How yuh doin', girls? How do you rate when it comes to chastity? Are you really good or just fooling? If you want to find out, here's a way that is proving quite popular.

Washburn co-eds have been amusing themselves recently by taking a test to frankly determine whether they're "pure" or not. It has not been given officially, but it got to the campus somehow—from down east, they say, and it has been going the rounds among the female element of the institution.

I hope at this point woman's insatiable curiosity is aroused. Anyway, wouldn't you just like to know a little about the test? You don't have to publish the results, understand.

O.K.—Now there are 20 questions. Every question that you can answer with "no" gives you five points. "Yes" takes off the same amount.

The first few questions dealt with "promiscuous osculation"—kissing to you. If you've been kissed mark off 5 points. (Don't let a bad start scare you—I'd hate to think you scored on this one.) If you've been kissed by more than 10 boys, take off another 5.

If you've ever taken a drink, forfeit another 5. (Here's where Carrie Nation's prodigies shine.) If you've

Former Premiers Held Up to  
Ridicule in Spirited  
Address

#### C.C.F. ARE THE DRISTS

Opinion is Expressed that  
Old Parties Are Heading  
for a Fall

Dr. Luke Teskey, addressing the C.C.F. Club at Wymilwood last night, gave a brief resume of Canadian political history, stressing particularly Sir John A. McDonald's part in the C.P.R. deal, Sir Robert Borden's "fraudulent use of government funds", and Mackenzie King's sphinx-like attitude over a period of years.

Enlarging on Rt. Hon. R. B. Bennett's part in Canadian politics, Dr. Teskey stated that his present plea to the Canadian electorate is not sincere and that he deserves no consideration from the voting public. "Bennett is

#### Hart House Elections

Elections for Hart House committees will take place on Wednesday, 6th March. Nominations open at 9 a.m. on Friday 22nd February and close at 6 p.m. on Wednesday 27th February. Withdrawals permitted only until 6 p.m. on Thursday 28th February.

Blue Icemen Are Equal to  
Telephone Squad on  
the Play

#### STANDING UNAFFECTED

Varsity Four-Man Attack a  
Feature of the Hectic  
Third Period

By John P. Futhery

The Varsity stalwarts met Nemesis in the garb of the Bell Telephone sextet at the Arena last night and emerged on the short end of a 3-1 count in a snappy hockey encounter. Bells were without the services of Percy Allen, who was injured last night, but managed to get along quite nicely without him.

Coach Stevens brought up four juniors for the battle and the entire quartette played nice hockey all the way. The score was by no means indicative of the play and Varsity deserved at least a tie on the proceedings. Despite the defeat, the Collegians still remain on the top rung in the league standing.

The opening canto commenced at a rapid clip with the Blue defence neatly breaking up the rushes of the Hello-men. Cy Allen finally scored at the twelve minute mark after wandering around within the blue line for more than a minute. It was sloppy work on

### FRIENDS ESSENTIAL IN ENRICHING LIFE

Friendship Between Women Is  
Due to An Emotional  
Feeling

#### MEN GOVERNED BY LOGIC

"Friendship is that relationship between two people characterized by love," stated Mr. E. L. Wasson in his speech last night at Cody House on "The Meaning of Friendship". The scope of the subject of "Friendship" was, however, too vast to be considered as a whole, the speaker went on to say, and for that reason he confined his talk to the consideration of friendship between women.

The friendship existing between a child and its parents is one of dependence on the child's part but as he develops he gradually outgrows this dependence. This proves a very trying time in the life of any individual. Thus a girl will perhaps stay out until two o'clock in the morning not because she particularly wishes to but in an unconscious endeavour to assert her independence.

The friendships of women may be considered as twofold. Firstly, there is the desire of one girl to dominate another. Such a relationship eventually arouses resentment in the dominated

### MEMORIES

#### FEBRUARY 7

1927—Premier Wm. Lyon Mackenzie King, in accordance with the best traditions of Hart House debates, is given a 428-125 victory on a motion that in the same tradition is so ambiguous that anyone can support any side and win.

1930—The president of Colgate U. writes to compliment Varsity on its sportsmanship.

1933—Varsity fulminates editorially against bribing the students to join the C.O.T.C.

### ANNUAL PHARMACY DANCE SLATED FOR TOMORROW

Dancing Will Probably Go On  
Till the wee Small Hours  
of Morning

The graduating class of the Ontario College of Pharmacy is perpetuating an ancient tradition when they hold their annual graduation dance tomorrow evening, Friday, February 8th. This year's gala affair is being held in the Crystal ballroom of the King Edward Hotel and promises to be extremely successful. In other years the Pharmacy ball has held a place of high merit in the scale of social events of the academic year and the hard-working committee are determined that this dance will be bigger and better than ever.

Dancing will begin at 9.30 p.m. and continue *ad infinitum*. The music is being supplied by Neilson's famous Jersey Milk orchestra under the direction of Geoffrey Waddington. A feature of the evening will be a dainty buffet supper served in the Alexandria Room. An atmosphere of gaiety will be created by the distribution of favours and novelties and all the trimmings necessary to create a perfect evening.

## Mayor Simpson's Conference

On Friday, February 1, 1935, Mayor James Simpson held a conference to discuss and evolve a concrete plan to help the "lost generation": the present unemployed youth, and the students about to graduate from schools and colleges, who will add to the unemployed ranks. Mayor Simpson sent private invitations to several organizations, and a public invitation to all youth organizations and any interested individuals to attend.

Among those present was Mr. Peter Hunter representing the League against War and Fascism, and Mr. Peter Lindsay, of the Unemployed Youth Association.

According to the Toronto Daily Star, Feb. 1, 1935, Mayor Simpson told Mr. Lindsay, when he presented his credentials, that he had not been invited, was "disrupting" the meeting (?), and would have to leave. Mr. Hunter protested and he too was asked to leave. As a matter of fact, Mr. Hunter was literally picked up and thrown out.

There are two things about which we are curious. Was the conference to be composed only of C.C.F. and C.C.Y.M. delegates, to be held under the camouflage of a general youth conference? That is a political question that can be raised best by the city at large. Further discussion on that is not of interest to University students.

Second, does the "lost generation" refer only to those unfortunate unemployed who were born on the right side of the railroad track (high school and university students) and who are or will be amongst the unemployed only due to the depression?—in contradistinction from those who are destined to be amongst the unemployed most of their lives.

Mr. Monkman of the C.C.Y.M., divided the unemployed youth into three groups: "(1) those whose parents can support them; (2) those whose parents are on relief; (3) those who are entirely dependent on the municipality." (Toronto Daily Star, Feb. 1, 1935.)

Degeneracy due to enforced idleness is facing all three groups; but (2) and (3) are having starvation, destitution and delinquency thrust on them to accentuate their degeneracy to its rankest limits. The last two groups are the ones that undoubtedly need immediate and concrete help.

Mr. Hunter and Mr. Lindsay came to the conference with definite proposals on recreational and educational necessities. Their proposals were based on work that they had personally done with the unemployed youth. They would obviously be perfectly fitted to representation at the conference. But their unemployed organizations were garnered from the wrong side of the railroad tracks. They were groups (2) and (3) to a great extent. Solace and comfort, kind words of advice and sympathy, would not help them at all. Only work (which according to the accredited conference members is desirable but not forthcoming) or cash relief could settle their bodily needs; only centres for activity could settle their recreational and educational needs.

Why did Mayor Simpson refuse to listen to the "disruptive" delegates? Was he afraid that what they had to say was too vital to the situation? Was he afraid that instead of mere talk and blab the conference would be coerced into definite action for a large part of the community that is steadily becoming more and more discredited? We do not know—Mayor Simpson has made no statement on his actions at the conference.

As students we must realize that we are not so different from our brothers on the other side of the

tracks. They are a large body in the City of Toronto, and if numbers count they should be influential. And, (to use good old Americanese), if they "get it in the neck" physically, we are sure to suffer spiritually—and spiritual suffering can be much keener than physical.

## Convention Again

The power of convention, so often exhibited, is demonstrated anew in the recent criticism of Premier Hepburn's attitude toward the Ontario Lieutenant-Governor's traditional state dinner.

The attacks levelled against the abandonment of the old custom are particularly odious because they have practically one brunt. They all harp on the fact that an old convention is being broken. Of all the arguments, for or against any policy, the one which supports it merely because of its antiquity is the most despicable. In any field, the fact that a custom is long established is the puniest reason why it should be continued, if it is found obsolete.

In the present instance there are weighty arguments which could be brought up on either side, but they all remain under the dust (where they have been since 1867) while a lament goes up lest a mere convention be jarred.

## Pardon Us

An irate defendant of the large oil interests writes in to today's correspondence column, commenting on the ignorance of people who write editorials on subjects they know nothing about. It does our heart good to reprint such a proof that our editorials are read by someone, even if they are not digested very thoroughly.

Yesterday's lead editorial was in error no doubt in stating that there is oil in Gran Chaco swamp—but our correspondent would have a hard time proving there is none. And we admit that Mr. Zarafah should have been referred to as Sir Basil, but we were never one to cling to formality. The one main point to which the correspondent objects is the reference to the part played by the oil barons in the warfare.

Strenuous objection is raised to the suggestion that oil interests are behind the fighting—and later in the letter the statement is made that Standard Oil of New Jersey and Royal Dutch Shell of England are financing the two belligerent countries, perhaps reluctantly, but nevertheless paying for the war in order to keep intact their own interests when they could have it stopped.

Which is exactly the point we wished to make.

## The Intelligent Minority

Very few people listen to intercollegiate radio debates. This is a statement of fact resulting from two days of research during which time no student was encountered who had heard a radio debate except *The Varsity* reporter who had to write a news story on the last. And yet the Canadian Radio Commission goes to considerable trouble and expense to put students on the air Friday nights in a series of broadcasts lasting several weeks. Why?

The radio columnist of the *Western Producer* wonders why too, and asks why they are not aired as a counter-attraction to the New York Philharmonic Orchestra on Sunday afternoons, or else dramatized, with sound effects. He considers nothing more depressing than verbal battles between university students, classing them as "a specific example of what people do not want to listen to." He deplores the use of radio stations at the hour of nine o'clock, when he would rather hear a dance programme. But is this stand logical?

Fifteen reporters of this paper, when interviewed, declared emphatically that they were not interested in debates, and particularly radio debates, which immediately puts debating in the class of the Better Things, which are enjoyed by the intelligent minority. On this basis, it would be illogical to hold the debates at the same time as the Philharmonic Orchestra, because the courageous and intelligent minority which crawls out of bed in the cold gray dawn of Sunday afternoon for the sheer pleasure of listening to a programme of good music is probably the same intelligent minority which listens in to the radio debates, and to run the two at the same time would be to rob them of two of the highlights in their week's entertainment, obviously an unkind arrangement for the intelligentsia.

Nine o'clock on Friday evenings is a much better arrangement, as most of those people who wish to listen are free to do so, and those who do not have a wide choice of more plebeian entertainment on other stations.

## ART, MUSIC & DRAMA

### The M.C. Players' Guild

The U.C. Players' Guild yesterday presented their first play of the spring term at the Women's Union, a one-act effort, *The Wolf at the Door*. The play was the product of one Daniel Hanlon, who wrote plays about the Klondyke, back in the days when plays about the Klondyke were popular.

The theme, although perhaps at one time original, has through the course of several decades lost a slight measure of its originality. There was, of course, a hero, a vile villain and a heroine. And of course the hero won and the villain (lost the heroine). The hero left his wife, in search of gold in the Klondyke. The wife, faithful to her marriage vow, refused to elope with the landlord, the Villain, when he threatens to foreclose the mortgage and force her to go to the poorhouse.

The hero, Norman C. Phillips, assistant news editor of *The Varsity*, returns in the guise of a blind man, and not a very attractive blind man either, and expounds some helpful philosophy. (Continued on Page 4)

"BONG" yawned the Clock on the City Hall tower. It was one a.m.

"Toronto," remarked the Chief Gar-goyle on the Commerce Building, perceiving that his friend was awake, "is a City of Trees."

"I know that," exclaimed the Clock peevishly, not wishing to be impolite but just dying to roll over and go to sleep again. "That's what it says in the pamphlets that the Tourist Bureau sends all over the continent."

"I never read pamphlets, except the religious tracts they print every morning down here at Yonge and Melinda. I know that Toronto is a city of trees because I can see 'em. They're all over the place: Riverdale Park, Queen's Park, High Park; and in the summer the whole skyline from Bloor Street north is just a mass of green."

"Is that right?" exclaimed the Clock, frankly envious. "There's hardly even

(Continued on Page 4)

## Let's Go Places

The Hollywood's second series of French talkies began very auspiciously yesterday with *La Guerre des Valses*, a pleasing light comedy with a musical background.

The lifting melody of the waltz becomes the central theme of an amusing musical battle. Johann Strauss, a young violinist with a passion for converting everything into waltz time on shirt-sleeves, cuffs, handkerchiefs, and other blank objects, quarrels with the leader of his orchestra, Joseph Lanner, another apostle of the waltz, and forms his own orchestra. His young friend, Franz, who is in love with Lanner's daughter, Kathi, is torn between love and loyalty to his friend, and finally joins Strauss.

In the meantime, Sir Robert Phillips, (Continued on Page 4)

First year students are not entitled to wear the Crest.

## THE SPORTSWOMAN

By M. D. S.

Today at 1:30 in Room 82 at U.C. there will be a meeting of the Hockey Club. This is a very important meeting as plans for the final games are to be made so will all those concerned please be there on time.

The first intermediate basketball game is scheduled for tonight at 6 o'clock in the O.C.E. gym. The Varsity team is to meet the Elginton United Church players, and they certainly would appreciate a good turnout so how about showing a little college spirit and give them some encouragement.

U.C. are the guests of Vic II at the little Vic rink tonight at 6 o'clock. There is no need to remind the Vic supporters to turn out. But how about U.C. giving their team a hand? This ought to be a close game and worth seeing. The odds are definitely with U.C. but they have been considerably weakened by the loss of Jean Atkinson, one of their star players.

The outdoor games finish on Feb. 9th, so we hope the weather will hold out till the end of the week. So far it's been perfect and no games have had to be put off on account of the lack of ice. If the other games are finished on time we hope to get the playoffs started next week and then there will be some real hockey! Vic I are still unbeaten but were tied by St. Hilda's. They are practically the same team as last year and will need strong competition to prevent them from getting the championship again this year. U.C. and St. Hilda's are still game for a fight and winning will be no easy matter.

Last night Vic II defeated St. Mike's to the tune of 1-0. The game was close all the time, Vic having a slight edge on their opponents. The first period was marked by penalties for both teams but being a player short seemed to incite the remaining 5 to fight harder and the only goal was pushed in by Betty Van Every in the second period. In the final period both teams fought hard and both goalies were kept busy but neither team was able to score.

## Sport Notices

Jr. and Sr. U.C. Baseball—  
Practice at 2 p.m. today.

### Indoor Track—

All those interested be out at 5:15 p.m. sharp on Tuesday, February 12 for the following events of the inter-faculty indoor track meet. 2 mile run, one half mile relay.

### Women's Sports Notice—

Important meeting of the Hockey Club in Room 82 at U.C. today at 1:30. All out!

### U.C. SENIOR SQUAD OUTPLAY TRINITY

Second Half Sees Trinity Uncork a Spurt to Lead 14-11

In an interfaculty basketball game yesterday Trinity found the Senior U.C. squad too powerful, and were defeated 30-15. The Red and Black team seemed lacking in experience, and although they put up a good fight they were outclassed all the way.

U.C. started off at a fast clip and accounted for three baskets, while their opponents were throwing the ball about aimlessly. After Trinity got organized, however, the play was fairly even and half time found U.C. ahead 13-7.

The Red and Black came back strongly in the second half and managed to make the score 14-11, but the spurt was short-lived. U.C. soon regained their stride and steadily piled up the baskets.

For U.C., Culiner, Damsky, Hennessy and Bell proved very effective throughout. A Court was the high scorer for Trinity with 12 points, while Staples and Grant did their share.

## HALF A HUNDRED ABLE HOCKEYISTS BATTLE VALIANTLY

Jr. Meds, Sr. School and Dents Win in Interfaculty Contests

### FISTICUFFS FEATURED

Three interfaculty hockey games were red-hot yesterday afternoon at the Stadium and Arena, resulting in Jr. Meds taking Emmanuel 3-1; Sr. School outscoring a fighting Forestry sextet by the same score and Dents defeating U.C. 2-1.

Junior Meds had little difficulty with a very disorganized Emmanuel squad, outplaying the Theologians in every department. The Doctors ran up a 3-0 lead in the first period due mostly to Emmanuel looseness around their own nets. The slow skating lads from Queen's Park north came out to put on a very much improved exhibition, scoring from Dyke's stick and holding the Jr. Meds scoreless. Gray and Button were the pick of the winners, while Dyke, Crosby and Young were the best for Emmanuel.

Forestry were only able to dress six players for their game with Sr. School but they were not lacking in aggressiveness and put on a very creditable performance. School ran up a three-goal lead in the first period with goals by Stavert and Hodgson. The Foresters held the Engineers scoreless for the remainder of the game, due to brilliant work by Larson in goal, and averted a dose of kalsomine when McConnell scored. The game was enlivened considerably when Johnston soothed his feelings by landing a beautiful hook with Aiken on the receiving end.

Dentistry were able to take their game with U.C. when Joynt scored on a last minute goal just after Keith had knotted the count for U.C. with two minutes to go. The game was a close checking, ragged affair with the Dentists being able to outpace and outslug the Arts students. Dents showed a hard hitting defence in Greece and Squires that had U.C. shuffling from well out. Keith, Coulter and Harwood were the pick of U.C. when Joynt, Rollaston and Lankling showing up well for Dents.

### Wilson Cup Notice

Interfaculty gymnastic competition for the Harold A. Wilson Cup will be held Monday 11th at 5 p.m., upper gym, at Hart House. Teams composed of three men from the following faculties: Meds, Trinity, S.P.S., and some individuals from Forestry, U.C. and Vic.

The intercollegiate gymnastic competition, McGill vs Varsity, Sat., Feb. 23, 8 p.m. Dancing, 10-12 p.m.

### DEATH VALLEY FOSSILS DISCUSSED BY SPOULE

Fossils not Found in Upper Strata but in Lower Formations

J. C. Sproule, B.Sc., Alb. M.A., instructor in Geology, University of Toronto, wishes to correct the statement in *The Varsity* of Tuesday, February 5th, "that Death Valley, California, has shown the scientists how little they know about it."

A true paleontologist would never predict that fossils would never be found in this valley. They may have said that no fossils could ever be found in the top encrustation, because it was formed in recent times, and according to the definition of a fossil, "some manifestation of life that has existed in time prior to the recent", it would be impossible for a fossil to be found in this encrustation.

Col. T. T. Chung, Chinese wireless commissioner, estimates there are no more than 40,000 radio sets in all of China, which has a population of more than 400,000,000.

## SPEAKING OF SPORT

By W. A. Crochower

Those big glaring yellow and red posters which have been doing their best to blind people these past few days are merely announcing the senior interfaculty swimming and diving ado at Hart House on Saturday night: With the big Blue teams visiting elsewhere the interfaculty lads are going to be in the limelight for a few fleeting moments. Just in case some of you missed the last few lines on the poster or were blinded before reaching them—there's to be good music at 10:00 p.m. All of which should bring the laddies and lassies out in large groups. While on the subject of swimming—the University of Michigan swimming team will be on display at Central Y on Friday and inasmuch as they hold the United States intercollegiate swimming title, Tommy Walker's lads will have to do a great deal of splashing to come out on top.

Coach McCutcheon's junior Blues put over a sensational one-point win last night against West End Y to win a place in the playoffs with Broadview. With twenty-two seconds to go to full time and one point down Dorsey netted one just as the whistle blew. However the battle isn't over yet as the Broadview youngsters have always been a thorn in the Blues' sides but on their present form we see nothing but a junior Y title in store for Mac's youngsters. The playoff dates haven't been set yet but the first game may be played at Hart House on Friday evening.

Warren Stevens' Beavers met their first defeat in the second series of the Major Commercial League at the hands of the Bell Telephone pucksters last night. The Blues just couldn't get going soon enough and despite their good play in the last period they failed to get their fourth straight win in the second series. At present the Blues are holding first position with a two-point margin with Bell Telephone and Post Office tied for second place with four points each. Stevens' pucksters meet Post Office on Saturday afternoon and a win then should give them a commanding lead for the home stretch.

On Saturday morning Coaches Hayman and McCutcheon will lead their respective charges to London to battle with Western's Purple and White clad cagers. The intercollegiate senior game is a very important one since it will decide which team will take the lead in the series. Western have won two and lost one, while the Blues have won only one intercollegiate senior game to date. Should Hayman's lads win in London, and we feel sure they will, they will be sitting pretty as far as the title is concerned. It has been a very long time since we've seen a team as powerful as the senior Blues. Both strings have scoring power to spare. A quick glance at the scoring records of recent games shows that every man on the team does his share in a scoring way and with such a situation the Blues will lose very few games this year. However, despite the good raw material which was at hand at the start of the season, it took good work on the part of Lew Hayman to weld the boys into two good lines. Lew did a lot of shifting around and experimenting and now has a sure winner.

The very same is true of Mac McCutcheon. Mac was troubled by the indifferent attitude of some of his men as far as turning out for his second squad was concerned. Mac went to work on the men who did turn out and he has some of them playing the best ball of their careers. Vanderleek, Himel and Magwood provide the proof of this statement. Jerry Vanderleek and Henry Himel turned in exceptionally good games against McMaster on Tuesday night and Charlie Magwood, in addition to being the sparkplug of the squad, has played brilliantly all through the season. The Blue intermediates are now heading the intercollegiate group with two wins and no losses and a win in London will make life rosy for Mac. The Purple and White seconds were recently defeated by McMaster by 20 points. We can therefore reach only one conclusion—it looks like a double win for the Blues in London on Saturday.

## KNOX INFLECT LOSS ON WYCLIFFE NINE

Anglicans Take the Lead at First but Fade in Last Half

FINAL SCORE 6-5

In a rather ragged game Knox defeated Wycliffe baseball team in the little hump where the ships were not taken farther by the tide," thus stated Mr. Brian Cook in his lecture on London. Eng. in Convocation Hall last night.

Mr. Cook traced the developments of London. He spoke of the Great Plague, which started in Holland in 1663, the germs being carried to London in ships. The result of this plague was the loss of over 100,000 lives. We then have the great fire of London. Although disastrous results followed both, the old, uncouth flats were wiped out by them and so a new style of architecture was introduced.

In the 18th century, English architecture settled down to the Georgian mode. Towards the end of the century mellow brick gave place to stucco. There was a great boom in building and the villages were lapped up by the ever-spreading metropolis. The ideas of Mr. Wren, the architect who was called upon to rebuild London, were too radical for conservative-minded London. However, we owe to him such masterpieces in architecture as St. Paul's Cathedral and the tower of Westminster Abbey. After the Industrial Revolution architecture was neglected for a time.

Mr. Cook showed many interesting slides and concluded by saying London has always seemed more attractive and appealing on return. It is a capital

## HOLLAND TO BLAME FOR BLACK DEATH

Mr. Brian Cook Traces History of Ever Attractive London

INSPIRES ENGLISHMEN

"So vast, so old that nobody could really know it is London, born on a little hump where the ships were not taken farther by the tide," thus stated Mr. Brian Cook in his lecture on London. Eng. in Convocation Hall last night.

Mr. Cook traced the developments of London. He spoke of the Great Plague, which started in Holland in 1663, the germs being carried to London in ships. The result of this plague was the loss of over 100,000 lives. We then have the great fire of London. Although disastrous results followed both, the old, uncouth flats were wiped out by them and so a new style of architecture was introduced.

In the 18th century, English architecture settled down to the Georgian mode. Towards the end of the century mellow brick gave place to stucco. There was a great boom in building and the villages were lapped up by the ever-spreading metropolis. The ideas of Mr. Wren, the architect who was called upon to rebuild London, were too radical for conservative-minded London. However, we owe to him such masterpieces in architecture as St. Paul's Cathedral and the tower of Westminster Abbey. After the Industrial Revolution architecture was neglected for a time.

Mr. Cook showed many interesting slides and concluded by saying London has always seemed more attractive and appealing on return. It is a capital

## NATATORS STAGE DOUBLE FEATURE

Jr. School and Vic Returned Victors in Well Played Games

### QUALIFY FOR FINALS

With the water polo schedule all finished, two games in the playoffs took place last night in the Hart House pool. In group three a three-cornered tie existed between Dents, Jr. School and Jr. Meds. Last night's game sent Jr. School into the group finals against Meds by virtue of their 5-0 victory over Dents. The second game was the semi-final of the playdowns between two group winners, Sr. Meds and Vic. The Scarlet and Gold advanced into the finals when they scored a convincing 2-0 win.

In the first clash School was all over Dents and clearly deserved their victory. The latter had numerous chances to score but were very slow and feeble with their shots. School were faster, cleverer with the ball and checked very strenuously, thus bottling up consistently the molar artists. Otter was responsible for three tallies while Cavanaugh was the shining light for the Dents.

The second game was very fast and produced some very classy water polo. Vic looked very good and on their performance of last night should experience little difficulty in coping the championship. They clearly outplayed Sr. Meds, and only the good playing of Korman in goal kept the score down. Fisher scored first for Vic when he took Whiting's tip off, to lodge the leather in the net. This same player tipped Dalziel's long shot into the twine for the final goal late in the second half. He was the outstanding player for Vic. However, their whole team played very classy water polo. Witus and Vaughan were best for Meds.

Dents: Parish, Leeking, Cavanaugh, Wildfong, Wood, Preston, Gerard, McIntosh and Booth.

School: Partridge, Young, Schmitt, Reider, Otter, Eggert, Alden, Coy and Miller.

Vic: Scott, Rennells, Dalziel, Hay, Fisher, Menzies, Whiting, Malcolm and Dickie.

Meds: Korman, Vaughan, Groves, McDonald, Glassman, Witus, Stubbings, Dick and Cameron.

which inspires an Englishman with great love for his native land. It is a city different from every other in the world and often different from itself.

## BLUE HOCKEYISTS LOSE TO TELEPHONE SQUAD

(Continued from Page 1)

the part of the defence and the goal was a gift.

Less than a minute later Thompson and Scott combined on a beautiful rush and the latter hoisted a high one past Shipp, who didn't have a chance on the drive. Varsity were not covering their men and looked very shaky. The period ended with no further scoring.

The second stanza was very different and the Blues had a wide margin of the play. Their passes were not clicking, however, and they had plenty of tough breaks around their opponents' net. Ripley broke through and looked good for a goal when Thompson tripped him. The Blues put on a desperate four man rally during Thompson's absence but could not tally although they made several pretty attempts.

Scott and Cy Allen broke away during a lull and Scott sunk a hard drive into the Varsity net, putting Bells three up. The Blues were going great guns and completely dominated the play during this frame. With any sort of luck, they should have garnered a couple of counters.

The closing period was quite hectic and produced the most exciting hockey of the evening. Kieff rifled one at Doble from in close on a pass from Sissons but 'twas not to be. A moment later Bauer cracked in solo but Doble was still too good. A few seconds later Devine dashed through alone and shot the disc at Doble, who managed to stave off the rebound while prostrate on the ice. It was a fortunate save and a tough break for the Blues.

Edwards was juggled for charging and Varsity put on a spirited four-man attack which finally produced their tally of the fray when Greasy scored during a scramble. The proceedings were quite frantic at this stage and the Blues put on several promising rushes which were nullified by Doble. The contest ended with Varsity pressing hard.

Doble was a thorn in the losers' side all night and to him goes a great deal of credit for the Bells' win. The Blues had little difficulty with Bells' mountainous defence, but Doble was unbeatable. Varsity's second line of Ripley, Shultis and Greasy, all juniors, played sound hockey. Sissons, on the rearguard, also a junior, performed well.

Bell Telephone: Goal, Doble; defence, Thompson, Stewart; forwards, Horne, Scott, S. Allen; alternates, Shill, Wright, Pipher, Edwards, Price. Varsity: Goal, Shipp; defence, Bauer, Sissons; forwards, Devine, Kieff, McConvey; alternates, Ripley, Shultis, Greasy, Scagram, Morgan.

The quickest way to describe the cosmic ray is to say it is a force that comes from the depths of space, its origin unknown.—Prof. R. A. Millikan.

## Coming Events

THURSDAY, FEBRUARY 7  
4 p.m.—Dr. Arnold's Current Events group on the League of Nations, at Wymilwood.

5 p.m.—At the Women's Union, Dr. Gwen Mulock will give the second lecture of a series of three on "Eugenics and the Individual Responsibility."

8 p.m.—A. D. Shatz, deposed chairman of the York County school board, will address an open meeting of the Student League of Canada at Pythian Castle Hall, 247 College St. Everyone welcome.

FRIDAY, FEBRUARY 8  
Pharmacy dance, King Edward Hotel. Music by Nelson's orchestra under the direction of Geoffrey Waddington.

4:10—Dr. John R. Mott will address a meeting of students in Sheraton Memorial Hall, Wyndcliffe College.

SATURDAY, FEBRUARY 9  
3 p.m.—Carlton Club of Toronto plays its last match with Hart House in the city inter-club tournament on Hart House courts.

8 p.m.—376 Victoria "Hearty Hop" Valentine party in Annesley. Novelty dances, favours, refreshments. Admission by ticket only.

8 p.m.—376 Class party will be held in Annesley Hall. Admission by ticket only. See notice elsewhere.

7:45 p.m.—Victoria first year Valentine party, Burwash Hall. Don Ramanelli's orchestra.

SUNDAY, FEBRUARY 10  
2:30 p.m.—Fratelanza meeting in Hart House music room. Members please confirm their intentions of assembling.

MONDAY, FEBRUARY 11  
9:2—Annual Panhellenic Association dance, Eaton's Auditorium. Karl Mueller's orchestra.

TUESDAY, FEBRUARY 12  
8:30 p.m.—Italian-Spanish Club Theatre Evening, Women's Union Theatre. Three good comedies.

12:00—Vic S.C.M. Second topic in the series "Significance of Religion" will be taken by Rev. Frank Fidler at Wymilwood. Mr. Fidler will speak on "What can I believe about God?"

4:30 p.m.—Women's Press Club at the Women's Union. Speaker to be announced later. Tea will be served.

WEDNESDAY, FEBRUARY 13  
8 p.m.—Women's Union. Joint meeting of the W.U.A. and the Literary and Athletic Society of University College. Skits and dancing. All U.C. men and women invited.

SATURDAY, FEBRUARY 16  
4:30—V.C.U. women's tea dance, at Wymilwood.

### UNFAILING LOYALTY OF ALUMNI LAUDED

(Continued from Page 1)  
He paid tribute to the unflinching labour of the Board during the critical past two years, stating that by their efforts the cost of the maintenance of the administration of the university was cut by 50 per cent in 1933-34.

Sidney E. Smith, president of the University since October 1933, was previously dean of the law school, Dalhousie, and at one time engaged in educational work in Toronto.

### FACULTY REPLACES STAFF OF 'GAZETTE'

(Continued from Page 1)

unable to answer a question.  
The talents of the French Department have evidently been given full rein. One of the contributions is a translation, in French, of Grey's Elegy In A Country Churchyard. Another is a description of a French Summer School and its students, written also in French.

A feature is a long contribution in free verse, entitled "Of Thee We Sing" and reminiscing for two columns on memorable features connected with college life, both past and present. It tells of individuals who are "institutions" around the university, of traditional customs that have passed away with time, and of present-day students, and their probable future. The world, it says, has always had its students, from Ninevah to Nijni-Novgorod, from Kalamazoo to Toronto, and when all else has passed away, "these and the earth remain".

### COLERIDGE DISCLAIMED CONFIRMED DRUG ADDICT

Literary Group at Victoria Interpret Best-Liked Poems

The Literary Group of Victoria College discussed nineteenth century poetry at its meeting yesterday under the leadership of Miss V. Coburn. Some of Coleridge's best liked poems were read aloud and many ingenious interpretations of them were brought forward by members of the group. Miss Coburn corrected the misconception that is popularly accepted with regard to Coleridge's addiction to opium.

Coleridge began taking the drug when he was a student at Cambridge, from a quack doctor who prescribed it as a cure for neuritis. However, he was able to overcome the habit to the extent of cutting the quantity down to a minimum dose every day. "There has been too much made of this business," she declared.

She told of the scheme undertaken by Coleridge and Southey to set up a communistic society in the United States, "which," she remarked, "is very interesting in the light of developments now."

### BENNETT'S REFORMS BITTERLY SCORED

(Continued from Page 1)

merely a great lawyer appealing to ignorance in a large voluminous voice." After "Toronto's" election of a C.C.F. mayor, Bennett realized that a new front must be presented to the voting public who are "as dumb as dumb-bells, as Borden and John A. Macdonald have proved."

Speaking of old age insurance, Dr. Teskey stated that although it is "a long fast from forty to seventy," men over forty cannot readily obtain employment, even in government positions.

"The C.C.F. party is a group of intelligent men, trying to give guidance and direction to Canadian thought. They are not politicians, otherwise they would have been sweeping the country from coast to coast. They have laid down a programme for the Canadian people to follow. The old parties must look well to their laurels, because the C.C.F. stands for production for use, not for profit."

During the business meeting which preceded Dr. Teskey's address election of officers took place. The successful candidates were, Mr. Gordon Jack, president; Mr. J. V. McCutcheon, vice-president; Miss Dorothy Stock, secretary; Mr. George Proust, treasurer.

### SEARCH FOR TRUTH SAID STUDENTS' AIM

(Continued from Page 1)  
thought was the important question of compulsory military training, discussed by Francis G. Smith, editor of the Daily Princetonian, Princeton University, and president of the association of college editors.

"Teaching truth is more important than teaching the use of arms," he said. "It is not unpatriotic to want peace—and to demand it."

Other editors also pointed out that a knowledge of world affairs, taught as they really are, is the desire of the majority of the students throughout the country.

The students of Louisiana State University, Baton Rouge, La., the editor of the Reville said, are seeking academic rights, and has drawn a "distinction between liberty and license."

### FRIENDS ESSENTIAL IN ENRICHING LIFE

(Continued from Page 1)

party and unless the feeling is rationalized such a friendship will end in dissatisfaction. For friendship between women is pre-eminently a "feeling" relationship, while that between men is rather a logical relationship. Secondly, there is that friendship built up between two distinct personalities by a gradual process of adjustment. But in avoiding a sense of loneliness they must maintain a sense of separateness.

Friendship between girls is essential for by it something is contributed to our psychological nature.

Nothing in the world is so heroic as to cut one's way alone through conventions and habits, out into the open where there is no company but conscience—John Kelman.

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at either the men's office in Hart House, or at the women's office in University College. No notices will be taken over the telephone, after 6 p.m. notices must be taken to the Press Building. Notices for the Bulletin Board are limited to ONE insertion only.

## THE FORUM

Meeting of the Forum, Fri. Feb. 8, at 4 p.m. in Room 3, U.C. Mr. Sheffer will be in the chair and Messrs. A. G. Cohen and T. C. Keenan will speak. Mr. Endicott of the English Department of U.C. will be present to give criticism.

## M. AND P. AT-HOME

The yearly At-Home at the Oak Room, Union Station, Monday, Feb. 18, Dinner and Dance. See your year rep. for details.

## VIC S.C.M.

Dr. Arnold's group on Current Events will meet today at 4 p.m. in Wymilwood on the subject of the League of Nations.

## U.C. PARLIAMENTARY CLUB

Today, 4 p.m., Junior Common Room. Joint Meeting with St. Michael's. "Resolved that this House favours a Freer Immigration Policy for Canada." Pivnick, Speaker; Buck, Clerk; Kaplan-sky, Premier; Mervin Mirsky, Leader of the Opposition.

## W.U.A. AND MEN'S LIT

A joint meeting of the W.U.A. and the Literary and Athletic Society is being held on Wednesday, February 13th in the Women's Union. Skits and dancing. All U.C. men and women are invited.

## A. D. SCHATZ

Deposed chairman of the York Township School Board, will address an open meeting of the Student League of Canada, tonight at 8 p.m. at Pythian Castle Hall, 247 College St.

## SOCIETY OF INCOMPATIBLES

The next regular meeting of the society will take place on Sunday, February 10th, at Graduate House, 44 Hoskin Avenue, at eight o'clock. Mr. H. N. Frye, B.A., will read a paper on the Philosophy and Social Significance of Music. Admission by invitation only. Refreshments.

## CANDY SALE

S.C.M. candy sale in the Household Science Building today.

## 'TWTX TWO

My Dear Ted:

Have you ever given the temperance question much consideration?—or didn't you think that it was necessary? A bunch of us were talking about drinking, the other night, and I was rather surprised to find so many disapproving. You never can judge people by their appearance.

I feel quite strongly that the emphasis is laid in the wrong place. Because a man gets drunk people say that liquor should not be accessible; because one person has no control, the majority must suffer. If one drinks too much one gets — the common expression is tight. If one eats too much eandy one gets ill (I won't give you the common expression). Aren't they parallel cases?

The whole point is in self-control. Of course, experience is necessary too. I heard a story of several boys who were being entertained—they had just

received positions. They were offered drinks, and they took them—but they didn't know their limit, and they naturally came to a sad end. The community was quite down on them—they were useless fellows. Yet it quite obviously wasn't the fault of the boys.

Sundays schools do a great deal of harm in this respect too. They teach—or used to do so—that it is wicked to take a drink. At one time, mere youngsters who didn't know what they were doing, were made to sign a pledge that they would never drink. Perhaps the Sunday Schools feel that this is the only way they can save the present generation. If they spent a little more time in teaching the children to regard the problem intelligently, and to exercise a little self-control, there might be a good deal less drunkenness.

—Phyllis.

P.S. There is nothing personal implied in this.

## CORRESPONDENCE

(Continued from Page 2)

barons so viciously attacked in the aforementioned editorial. And that brings me to the most important point of this letter. The oil interests of the world are not behind the Chaco warfare; as a matter of fact they are in daily fear of losing vast sums of money through the affair. If there is any oil in the district of the Chaco (I'll wager that the author of that editorial didn't know where the place was anyway!) it is far too unattainable and would be a terrific gamble such as the hard-headed oil merchants of the United States and Britain would never dream of taking. Meantime such concerns as the Standard Oil Co. of New Jersey and the Royal Dutch Shell of England are being browbeaten by the belligerent governments into financing the countries at the threat of confiscation of wells and property.

The oil magnates, in fact, would probably do a great deal to be able to put a stop to the fighting in the Chaco district. I have been there and certainly there is no scope for sale of petroleum products to an army operating in that jungle! On the other hand all South America swarms with the representatives of the great armament manufacturers, Armstrong-Vickers, the Bethlehem Steel Corporation and Imperial Chemical Industries being but a few.

The war between Bolivia and Paraguay started when outpost forces of the two nations came into conflict in a strip of territory whose ownership had hitherto been left undecided and undisputed—a worthless district of jungle, fever and swamp. It was fanned from the start by the great armament trusts and almost involved the rest of the southern continent at one time; it grew from a series of skirmishes to

a real battle of vast proportions; the lesser military geniuses of the Great War were called in on one side or the other; General Hans Kundt, of the German High Command during the World War, was put in charge of the Bolivian forces; the war spread and more and more men were poured to the front—a series of tiny forts hidden in the depths of the forests. Thousands have been killed in this war; thousands have been maimed and crippled. But the only people to blame are the two countries involved and the firms that are supplying them with armaments. Oil never entered into the question; and the ignorance of people who write editorials on subjects that they know nothing about it just about as dangerous sometimes as bogeys they scare up seem to be.

Respectfully yours,  
Stewart Brechin.

### SINCERITY SECRET OF GOOD ORATORY

(Continued from Page 1)

this is due to the fact that women are too coy and modest to display their talents to the full.

When questioned as to what type of speaker draws the best audience the answers varied. Often the speaker's reputation in other lines will create interest, whether or not he is known to be a good speaker. It may be his subject rather than his manner of speaking which draws the crowd.

A University in the States has conducted a student campaign to discover whom the students judged to be the best speaker on the campus. Opinion here seems to be that the organization of such a campaign would be more trouble than the results would be worth, although if it could be put across it might stimulate interest in public speaking.

## CHAMPUS CAT

(Continued from Page 2)

a patch of grass here for me to stand on."

"Well, at least you can't blame it on the pigeons. But Toronto is a city of trees, of parks blooming with leafy foliage and brilliantly coloured flower beds,—all in due season, of course."

"Yes, yes, yes. But why all this sudden passion for trees, coming from you who are master of the greatest pile of stone and steel in the British Empire? Where could one possibly find wood in the Bank of Commerce building, except possibly in that funny little penthouse when the Board of Directors are in session. And yet you rave of trees?"

The Gargoyle began to wonder just how sleepy the Clock really was, but went on with his plaint.

"Why shouldn't I rave?" he demanded. "You admit that Toronto likes trees and parks, yet Toronto refuses to have them talked about, let alone dramatized!"

"What, exactly, is biding you?"

"Toronto's refusal to be shown *Within the Gates*!"

"Oh my,—but the papers all say that is a highly immoral play!" the Clock's eyebrows arched unconsciously.

"On the contrary it is a very wonderful play and it all takes place within the gates of a beautiful park, full of trees and flowerbeds and green benches, and—just like Allan Gardens, for instance."

"How strange! Yet they say there are some very wicked people in this park. . . . Hm! . . . Allan Gardens."

"Well, not necessarily Allan Gardens," exclaimed the Gargoyle in some confusion. "A park just like any of our parks,—Riverdale, or . . ."

"A park just like any of our parks," the Clock interrupted, musing out loud. Then he glanced up at the Gargoyle. "Yes, parks are beautiful and they are full of trees,—but are they moral?"

Having quickly regained his composure and sophisticated air, the Gargoyle came back sarcastically, "Oh, of course, you'd have to smell out immorality even in the innocent realm of nature!"

The Clock, however, was really looking quite sleepy by now. "You forget," he yawned, "that old Mother nature!"

goes to sleep all winter, and takes the trees and the flowers all with her. The parks are practically deserted,—so how can you expect Toronto to be interested in seeing *Within the Gates* in this zero weather? . . . Now maybe if they brought the play here next summer . . ."

"Come, now,—you're falling asleep. Maybe what?"

"I say, maybe if they brought the play here . . . next summer . . . when the folks . . . are all away in Muskoka . . ." the suggestion trailed off into a half-hearted musical chime. It was one fifteen and the Clock was quite, quite asleep.

The Muddy Yorker

## LET'S GO PLACES

(Continued from Page 2)

Superintendent of the Balls for Queen Victoria, has come to Vienna to secure for her fetes the best orchestra and composer to introduce the waltz into England. He returns with Strauss and his group. But Kathi has reorganized her father's orchestra, and continues to glorify his waltzes. Both orchestras seek the favour of the Queen. Strategies are employed; Kathi has Strauss spirited away on the night of a grand ball, and Franz is inspired to masquerade as the composer. The waltz finds favour; Queen Victoria is intrigued. But she has heard of the composing habits of Strauss: he must improvise for her. Franz is nonplussed. By some strange chance he discovers a handkerchief on which Strauss has inscribed a waltz. The "Handkerchief Waltz" is a glorious success—but it is Lanner's!

Complications continue, as you may imagine, culminating in a great battle of waltzes, in which a bombast of music is hurled by both parties. Lanner seeks legal satisfaction, but is finally reconciled. The picture ends in a splurge of waltzing, orchestrated by both bands.

The tone of the picture is light and gay throughout. All parts are played with a gaiety and verve completely in keeping with the theme. Fernand Gravey is amusing as Franz, giving his interpretation a certain disarming boyishness. The portrayal of Queen Victoria is charming; one is grateful for a departure from history, in which the prim little Queen we hear of is transformed into a gay, whimsical young girl, very much in love. The scenes of her courting by Prince Albert are especially delightful.

The music of Lanner and Strauss was brought into the film with good effect. All in all the picture was well presented, and provided genuine entertainment. F.S.

### LEISURE IS A MYTH TO ALL GRADUATES

(Continued from Page 1)

this is the case when a University graduate finds himself in a small town with no facilities for mental stimulation to compare with the wide variety at his disposal during his undergraduate days. Such a lethargic state of mind results in spending one's leisure at the local motion picture theatre.

Actual observation brings one to the conclusion, however, that the average University graduate is more likely to take up an educational hobby than is the person who has not had the benefit of the popularly termed "higher education".

## The Undergraduate Newspaper

VOL. LIV.

UNIVERSITY OF TORONTO, FRIDAY, FEBRUARY 8th, 1935

No. 82

### NEWS OF THE WORLD IN BRIEF

Hamilton—Declaring that their finances are in a critical condition, Hamilton yesterday approached the government asking that it either relieve them of their relief costs or provide new avenues of taxation. Hon. H. C. Nixon promised that although the government is prepared to co-operate to the fullest extent, it cannot give assurance that Hamilton's relief costs will be borne.

La Plata, Argentina—Federico de Hoz, the Provincial Governor, was forced to resign by rebel police and General Juan Pistarini was rushed here from Buenos Aires. Declaration of martial law was declared imminent.

Valleyfield, Quebec—Edouard Groulx and his wife were held responsible for the death of their six-year-old child, Laura, and are awaiting their sentence for manslaughter.

### AIMS OF SOCIALISTS ARE INCOMPATIBLE

Left Wing Embarrassed by  
Communist Communities  
Says Riddell

### DISLIKE COSMOPOLITANISM

Socialistic parties, so well entrenched in Europe before the war, have fallen with democratic institutions. Gaining power at the close of the last century, they managed to maintain it, some until 1919, others until a few years ago. Mr. R. G. Riddell discussed the reasons for their failure at his Current Events group yesterday afternoon.

The aims of the left wing are based on the 1841 manifesto of Marx and Engels. Socialists were suppressed in Germany and France until 1890. The prosperity of England at that period made the working man less interested. But before 1913 there were well developed socialist parties in all countries of Europe.

At the end of the war social democrats, those seeking creation of a socialist state by parliamentary and constitutional means, were important in the newly established democracies. But the success of communists disastrously divided the leftists. Socialists had to put down communist communities. They were discredited for not being able to repudiate obligations. In Germany they were blamed for loss of the war and in Italy for the defeated territorial ambitions.

"Socialists have never had a clear majority," said Mr. Riddell. "They have continually had to compromise to pass any measures and their dual aims, the amelioration of workers' conditions and a fundamental changing of the economic system are incompatible."

### PUBLIC SPEAKING COURSE FOR EXTRA TRAINING

The executive of the Parliamentary Forum of the University of British Columbia are sponsoring a course in Public Speaking at the University to supplement the work already being done by the Forum in training students along oratorical lines. Students who are interested in the proposed course have been asked to register with the Council Office in the near future.

Senior members of the Forum will assist Dean M. L. Bollert and Professor J. F. Day in instructing the newly formed classes. The sponsors have issued a plea for prompt and regular attendance to ensure the success of the new venture.

### Varsity Opposes Manitoba Broadcast Debate To-night

"Democracy Suitable Only for  
Periods of Prosperity"  
is Topic

#### OVER CKNC AT NINE

A. C. Smith and S. F. Rae Up-  
hold Negative Side at  
Varsity

At nine o'clock tonight, Mr. A. C. Smith and Mr. S. F. Rae of the University of Toronto will speak from station CKNC against the debating team of the University of Manitoba. The subject will be "Resolved that democracy is suitable only for periods of prosperity." Toronto will uphold the negative. The discussion should centre around the reactions of democracy to various crises in the past and the ability of a dictator to cope with them.

In this instance the Toronto team is composed of Mr. A. C. Smith and Mr. S. F. Rae, with Mr. S. M. Hermant acting as assistant. So far this team has been victorious over the other colleges of Ontario and they are now entering on the semi-finals in the competition for the dominion championship. Next Friday the winners of tonight's encounter will meet the representatives of Dalhousie University, the champions of Eastern Canada, in the final debate of the series.

Yesterday's editorial commented on the astounding apathy, on the part of students, towards these debates which contrasts sharply to that shown at Hart House, where it is advisable to come early in order to get seating accommodation. (Continued on Page 4)

### CANADIAN VERSE LACKS RUGGEDNESS

Macdonald Says Modern Poets  
Are Sentimental  
Rhymersters

#### ROBERTS, SCOTT, EXCEPTED

Canadian literature was the subject of an interesting lecture by Professor Macdonald at University College yesterday afternoon. There have been three stages of Canadian literature, according to some critics. The authors of the first period wrote for an audience in the home lands. Then came a rising consciousness of colonialism. And finally there was a revolt from the former style—with, as a result, a form of expression, national, purely Canadian.

Prof. Macdonald does not, however, agree that the last regime was purely national. It is cosmopolitan rather, in most cases. With the exception of distinctive scenery, the themes and mode of expression are suitable for any land.

Phillip Gibbs is quoted as saying, "I never hear a Canadian speak but I seem to feel the ice in his voice." Prof. Macdonald argues that this "ice," this quality of ruggedness, is just what is lacking in Canadian verse. With the exception, perhaps, of the early works of Charles G. D. Roberts and those of (Continued on Page 3)

#### Masthead Meeting

There will be an important meeting of the masthead of *The Varsity* today at 5 p.m. All members of the masthead are expected to be in the Women's Office, University College, at 5 p.m. sharp.

ARNOLO C. SMITH

Who will speak tonight over CKNC in the semi-final intercollegiate debate. The University of Toronto team will oppose the University of Manitoba over a Radio Commission network.

### SCHOOL MEN LEARN LEGAL PROCEDURE

Judge Macdonell Outlines  
Requirements for Good  
Witnesses

#### ADVISED TO BE FRANK

Addressing the Engineering Society yesterday afternoon, Judge Ian Macdonell gave a detailed account of the requirements of ordinary and expert witnesses before a court of law. Judge Macdonell graduated from the Faculty in 1915 and later attended Osgoode Hall. He was introduced by Mr. R. E. Laidlaw, a School graduate of the same year who followed a similar career and is now lecturing in law at the Faculty of Applied Science.

"Good witnesses are very rare," Judge Macdonell stated. Circumstantial evidence, although generally considered unreliable, may sometimes be better than direct evidence, especially in the case of identification of the suspect under poor light and similar conditions. Hearsay evidence will not be accepted. (Continued on Page 3)

### Campus Night Club Quite Alive Proves More Popular than "Dive"

An answer to the problem of providing a student recreational centre which will keep large numbers of good-time seeking collegians on the university campus out of roadhouses and cabarets has been found by the University of Wisconsin at Madison, the authorities believe. The university has a night club of its own.

This unique institution has operated on week-end evenings during the past year, and has been an overwhelming success. The night club is held in the student club-house, attractively arranged to suit the needs of the patrons. Although nothing stronger than 32 beer is sold, no local night club, tavern or roadhouse boasted of an equal volume of sale. In the fall and winter evenings the night club has a floor show, lighting effects, and a master of ceremonies.

The success of Wisconsin's enterprise has set the staid and conservative authorities of some colleges buzzing. The fact remains, however, that the idea, having undergone a year's period of experimentation, has been

### 'POOR POLITICIAN' CONFESSES SCHATZ AT OPEN MEETING

Student League to Demand  
Reinstatement of Schatz  
in Former Position

#### DEMONSTRATION PLANNED

"Bigots, Reactionaries, Fogies"  
of York County, Oppose  
Student League

An open meeting of the Student League of Canada was held last night at Pythian Castle Hall. Miss Stern was elected chairman for the evening. The report from the National Bureau stated that a day of demonstration against war and fascism is planned for April 5, the centre of which will probably be the University of Toronto, and the support of every student is needed.

Mr. A. D. Schatz, formerly of the Collegiate Institute Board of the County of York, was the speaker of the evening. He himself admitted he had been a poor politician during his term of office. He stated that he managed to get many reactionaries, militarists and followers of the Oxford Movement against him. When the Board allowed communists to use the auditorium for meetings outsiders objected to the propaganda being spread and the Board helping it. This and their permission to run the film "Ten Days That Shook the World" at Vaughn Road Collegiate, (Continued on Page 3)

#### DR. MOTT MAKES DEBUT AFTER TRIP AROUND WORLD

Students of Wycliffe to Hear  
Address by Dr. Mott  
Through S.C.M.

The enthusiasm acquired during his lengthy visit to Africa will be conveyed to a student audience at Wycliffe College today by Dr. John R. Mott, who has just completed a trip around the world.

The continual travel involved in his varied career is a unique source of experience inducing a cosmopolitan outlook which will allow his student audience to glean much valuable inspiration. The address is to be given under the auspices of the Student Christian Movement at Sheraton Memorial Hall (Hoskin Avenue) at 4.10 p.m.

### Opposition Brings Defeat At U.C. Parliament'sky Meet

SAUL F. RAE

Second speaker on the University of Toronto radio debating team which will oppose the University of Manitoba tonight. The debate is scheduled for nine o'clock over station CKNC.

### Varsity TO MEET WESTERN IN LONDON

Intercollegiate Title at Stake  
in One of Important Games  
of the Season

#### TEAM IN "PINK"

Tomorrow afternoon Coaches Hayman and McCutcheon will lead their two intercollegiate squads to London to do battle with the Purple and White cagers of Western. The senior game, with the intercollegiate title at stake, will probably be one of the best intercollegiate games this season.

The Blues, as yet undefeated by any Canadian team and fresh from a decisive and spectacular win against McMaster in the Big Six, are going at top speed right now and the Purple and White squad will have to be exceptionally good to get a win. A victory for Western on Saturday night will give them a record of three wins against one loss. If the Blue win it will be their second successive win against no losses.

Coach Hayman intends to keep his squad divided up into two strings since each has been very successful to date and each have held their end in a scoring way. Crowley, Marks, Newman, Gold and Connelly will again form the first string, the other being composed of Munroe, Bodrug, Mencil, Levy and Gordon.

The Blue intermediates are at the present time displaying their best form were recently defeated by twenty points (Continued on Page 3)

### LIBRARY FEATURES RECENT ADDITIONS

Dr. Wallace Announces Fine  
Collection of Law  
Reports

Probably most of the University students have noticed the display of autographed and century-old books now on exhibit in the corridor of the main library. They are very recent acquisitions, coming from the private library of Honorable Wallace Nesbitt, the treasurer of the Law Society of Upper Canada, for many years. Some, too, have been bequeathed to the library by the Honorable Mr. Justice Armour.

Dr. Wallace, the librarian, stated that besides the books on display a wonderful collection of law reports has now been added to the law library.

Motion for Freer Immigration  
Opposed by Mirsky's  
Successfully

#### HON. KAPLANSKY RESIGNS

Freer Entrance Would Improve  
International  
Goodwill

Last night in the common room of University College the Socialist government of the Rt. Hon. Israel Kaplansky was defeated, and although upheld in a vote of non-confidence, the ministry determined to resign if only to show up the incapacity of the opposition to hold office. Several members from St. Michael's College were present, but took no part in the debate.

The subject of the debate was "Resolved that this House favours a freer immigration policy for Canada." Mr. Kaplansky, in opening the debate, affirmed that the real reason for the present check on immigration to the Dominion was the fear of the radical element among workers of Europe. He stressed the need for widening immigration facilities for the reason that it would develop international amity. Although he recognized the fact that extension of facilities for immigration would impose a financial strain by adding to unemployment, he was inclined to believe that the increase in the ranks of the unemployed would be slight compared to the present number of unemployed citizens, whom he estimated at 1,600,000.

Mr. Mervin Mirsky for the opposition maintained that an increase of population through immigration would be desirable under the socialist state, but he emphasized that Canada's policy for immigration must be decided in relation to present circumstances and not for future generations. He pointed out that immigration would increase unemployment, because of the general tendency of immigrant farm labourers to gravitate to the city. The immigration laws of Canada were framed for the purpose of selecting suitable new citizens for Canada, and allowed for free entrance of people of talent, and for those who were in a position to provide for themselves, he stated. Besides that, freer immigration was bad for the newcomers themselves. Youths were brought over from the Old Country and placed on farms at \$5 per month, from which they went shortly to swell the tide of unemployed in the cities.

Mr. G. Bryce spoke from the floor on the side of the Opposition, maintaining the restriction of immigration on the economic motive remarking that we did not need prosperity but bread. To this another member rejoined by stating that if we were to get prosperity we would get bread too. Increase in immigration would consume the surplus of grain, and so raise purchasing power, which is at a low ebb in Canada at present.

## Speedy Justice

Never before has the reputation of Canadian courts for "speedy justice" been more dramatically brought before the public eye than in the concluded case of the Meisner trial. Started weeks after the much publicized "Hauptmann Trial", within a week and a half all evidence has been given, a decision reached, and judgment meted out.

The trial was conducted entirely in accord with the best principles of British justice. Attempts were made by certain papers to build up the case, but nowhere did one read about "the great drama being unfolded before the public eye" . . . etc., etc.

The case was tried in the courtroom, the proper place for trials, and not through the press and over the radio. We did not hear pseudo-witnesses being re-cross-examined over the radio, to the utter disgust of every intelligent human being. It is indeed a sorry state of affairs when a nation has so degenerated that such momentous events as the vote against the United States entry to world courts or the "Gold Clause decision" are relegated to obscure corners of our papers as space-fillers.

## What of Fascism?

In a survey conducted some years ago among Catholic, Protestant and Jewish children in the public schools of New York City, it was found that the younger the children were, the more intense was their religious hatred, and the less logic they used in their hating.

For the past few years we have heard much against Fascism, but never have we found a single logical reason given for this dislike, and can only assume that it must be the same childish hatred cited above. It seems the world moves on the impulse of slogans rather than reason, and that the catchword "Nazi" goes right to our hearts without the slightest discretionary investigation on the part of our brain.

When Mussolini came to power about a decade ago we remember the laughingstock he was, but now we are forced to sit back and admit that Il Duce is a very clever man, admirable in statesmanship, a master in the diplomatic game of chess. His system is Fascism, and has its ill effects in Italy; would it have them here in Canada?

We hear someone raising that suggestion that dictatorship would mean the end of liberty and of democracy. But what would that signify?

First of all, what liberty we have is hemmed by law and tradition: we cannot murder, rape, or wear orange-coloured suits to church on Sunday morning. In what way Fascism would affect our liberty we do not know except unless we murdered, raped, or wore orange-coloured suits to worship. Liberty is only a slogan which in the final analysis is not licence but freedom within the bounds set by law and convention, and these latter change all the time anyway.

Then what about democracy? Can we say that democracy means anything to us when frequently there are elections in which only a minority of the voters cast their ballots, and a great percentage of these do it not because they firmly believe in democracy, but because they have been used to doing so.

If we look at Fascism closely, we shall see that it is only paternalism, and paternalism after all is only socialism. Yet the chief opponent of Fascism is the socialist. What, then, is the reason for the latter's

objections? Is it possible that he realizes that in the event of a dictatorship, he is not the man?

Can he furnish any reasons, not emotional outbursts, to prove just what is wrong with Fascism?

## Students Old and New

Reading a short while ago the biography of Francois Villon, the Vagabond King, we found the descriptions of student life of the fourteenth century extremely interesting. The university at Paris was under its own jurisdiction, and woe betide the unarmed city guards who ventured into the university precincts. Over a period of years such hostility had developed between university and the city because of the thieving habits of the impoverished and dissolute students, that the students were always ready to pick a fight with representatives of the city, and students would only venture into the city in a body.

It was banishment from Paris for his part in the murder of a guard that sent Villon wandering into the provinces, and clothed him in the romantic halo of the Vagabond King. Delving into the student life of the Middle Ages discloses many curious facts. For example, in such high esteem was literacy held in England that the ability to read Latin enabled the cleric who had committed a murder to cheat the hangman.

The boisterous student days of Villon are gone and forgotten. The following centuries found students a more sedate and zealous group but removed from contact with life as it really was, and they had difficulty in adjusting themselves to the outside world. Until recently the university student led a cloistered existence. After his sheltered years within the college walls, divorced from the world's more pressing problems, he could emerge into a world in which there was yet place for him. The past few years have taught a lesson. The student must from the time of his admission into the university study well the world into which he will enter. He must not let himself be deluded by false hopes. And students understanding their position have let nothing short of brute force stay them in their struggles for their rights. We read of student massacres in China, endless student strikes in Japan, internment of striking students of Belgrade in concentration camps, and of waves of student strikes in the United States.

The recent anti-Red drive launched by the Hearst syndicate against American universities is an indication of the way the wind is blowing. Repression cannot but convince the student that the authorities will not uphold him in his struggle to make his future secure. At the present time the country has little need for the large numbers of students that are being turned out, and the powers that be view with uneasiness the progressive thought of students and professors. The reaction that greeted the action of sixty-eight Toronto professors who upheld freedom of speech is but one case to the point. More recently we have the Board of Governors of the University of Alberta forbidding professors to take part in politics.

It is with a tinge of nostalgia that we look back to Villon's day when students took their lives in their own hands. We do not ask for a return to the bigotry of those days. We do ask that students be fearless and untiring in their struggle to assure themselves a future, though we recognize that clashes with authority may result.

## Why Slide?

These past few weeks with their ideal climatic conditions for the production of treacherous spots of ice on the sidewalks have been a period of great joy to those who indulge in the gentle pastime of sliding.

It has always been a cause of wonder to us why the sight of a strip of ice measuring approximately two inches by two feet should inspire everyone from eight to eighty to glow with enthusiasm and make a run for it. We are accustomed to youngsters gambling in ice and snow. That is comprehensible; small delights satisfy small minds. But when a staid professor of law or serious-minded University student goes in for the same pastime we confess bewilderment. It is a problem for the psychologist. Surely the mere physical pleasure of being carried forward two feet by the sliding method is more than outbalanced by the greater exertion necessitated by the acceleration of locomotion which must always precede the slide.

Far be it from us to condemn this practice for it is the symbol of eternal youth. It is also a good way to break your neck and survival of the fittest is the only sure method of maintaining the virility of the race. So we do not condemn it but admit our mystification. Just what is the attraction?

## ART, MUSIC & DRAMA

### St. Thomas Church

The Rev. G. F. Kingston, Ph.D., of Trinity College, will preach at the Choral Eucharist at 11 a.m., during which a brilliant setting of the service by Lovelock will be sung, also Maurice Besly's motet "O Lord, support us." will be heard. At the Choral Evensong at 7 p.m., the Rev. J. R. Davies, B.A., will preach and the anthem is Stern-dale Bennett's "Abide with me." There will also be a short recital including organ and choral works by Karg-Elert, Gounod, Lotti, Fletcher, in which the Male Chorus will be heard. A boys' choir and a soloist, Master Arthur Cooper. The church being on Huron Street, is close to all Residences and Fraternities; a cordial welcome is extended to all University students.

### Caton Auditorium

The third concert of the Music Masters' Series was given last night when Ethel Bartlett and Rae Robertson played a recital of music for two pianos. In the art of two piano playing, which has become exceedingly popular in recent years, this team has acquired an enviable reputation. Since this is the first time that I have heard Miss Bartlett and Mr. Robertson and unfortunately on this occasion my seat was so situated that there was a pronounced preponderance of one piano over the other, it is impossible to judge certain aspects of the evening's work with any great degree of certainty.

Judging from its favourable reception the recital was not without merit and appeal. The programme was not unattractive in itself: the first part was drawn from the classics, the moderns figured prominently on the second. But despite the pleasant prospect of Comperin, Farnaby and Bach, I am not sure that the satisfaction was commensurate with the pleasurable expectation.

Seventeenth century music loses much of its delicacy and true flavour when played on a single modern grand.

FRATER AVE . . . .

## C-C

Another Cat comes to the end of its life with this issue, to follow Chaz, Etaoin, and Shirdlu down the primrose path to the everlasting bonfire. No, it was not run over by a car; it was not even run into by an S.A.C. For certain reasons the balance between economic and academic pressure began to swing towards the academic (which, Brethren, is quite a swing): as Mundusvult Deici puts it:  
Muffle the life and muffle the dome  
Joab goes to his long home.

Here is no resignation in huggery-muggery  
Joab has taken farewell of skull-duggery  
Not again, through any moral compunction  
But in response to professorial injunction.

## C-C

Down at the Press Building there are more activities than the printing of *The Varsity*, and we note with a wicked leer that in the page proofs of Acta Victoriana there is a little item crossed out. It is about the quotation from Proverbs: "When there is no vision . . .", which has caused words to be exchanged between rival editors. The editor of Acta caught the mistake first, we give him credit, but he took so long in printing it that the Cat stole it. There is no truth in the humour that steel partitions and padlocks are going to be used at the Press.

## C-C

And now to our paradise of perpetual passes; and at the same time we

## THE SPORTSWOMAN

By M. A. F.

The hockey game called for 6 p.m. yesterday did not come off as U.C. was unable to get up a team due to numerous illnesses. We can not say yet when this match will be played—in fact if it comes to the worst U.C. will have to default. The complication is that Vic II is the other factor in the event and they have a game on Saturday with Vic I. Furthermore, two contests are scheduled for tonight, but they are both at 6 p.m. and since neither outfit concerned in the postponed game are participating perhaps they will be able to play off at 5 or at 7.

At 6 p.m. this evening St. Mike's are to be the guests of Vic I and St. Hilda's are playing at Meds. These games are both important since Vic I and St. Hilda's rank with U.C. in high score for games played so far. Vic I is really in first place but a loss to St. Mike's would alter their position. In fact an upset in either of these bouts would be quite vital. So if you are hoping to see your faculty representatives in the semi-finals get out there and cheer them on to a victory tonight.

One more word about hockey—at a meeting of the club yesterday plans were laid for the semi-finals and the finals. The former will be played at 1 p.m. on Monday and Wednesday of next week at the Stadium. There will be three periods of ten minutes each. At the same hour on Friday and the following Monday the final matches will come off, and in these the three periods will each be fifteen minute ones.

This is very vital—at 1 p.m. on Thursday the Hockey Clubs hope to have the tryouts for the all-star team. And we have been asked to warn you not to get qualms at the imposing title with which this outfit has been honoured. There is a chance for everybody and a large turnout will greatly improve the calibre of the group selected. Jean Atkinson is being suggested by the club to the Athletic Directorate as manager of this team.

Will all U.C. women who are interested in badminton please sign the lists posted in the locker-room immediately. The tournament will be played off on Monday and Tuesday of next week and the first five players will represent U.C. in the interfaculty playoffs. Incidentally the York Club will be the scene of this action.

The intermediate basketball team made its initial appearance last night—and it was a good one for they defeated the girls from the Eglington United Church by a 24-11 tally. The game was not overly exciting but was fairly close. Both aggregations lacked organization, but it is quite evident that the Varsity players have it in them to be quite a squad. The forward line looked especially good and we are counting on Joyce Tenenbaum and Myrtle Robb to do some real offensive playing. We are apt to forget about this team in our concern for the seniors. They have some good games planned and it is a schedule you should support.

The seniors make their debut at 7 p.m. tonight when they meet Hamilton Normal at O.C.E. gym. Let's get them off to a good start!

### INTERFACULTY HOCKEY

Tuesday, Stadium, 4 p.m., Wycliffe vs Jr. Meds; Dents vs Sr. S.P.S.

Wednesday, Arena, 5 p.m., U.C. vs Sr. Meds.

Wednesday, Stadium, 5 p.m., Forestry vs Pharmacy.

Thursday, Arena, 3.30, Trinity vs Jr. S.P.S.; 4.30, O.C.E. vs Sr. S.P.S.

Friday, Stadium, 5 p.m., Victoria vs Jr. Meds.

## VARSITY AND QUEEN'S TO CLASH TONIGHT

Blue and White Pucksters Pin Hopes of College Title on Win Tonight

### BEST FORM ESSENTIAL

Undaunted by their defeat at the hands of the McGill Redmen, the senior hockey team leaves tomorrow for an important tussle with Queen's. If they are able to take the Tricolour team in the next two engagements it will leave them with an opportunity to finish in a tie with McGill.

McGill have twice defeated the Queen's outfit but in both struggles were extended and tonight's game will be no soft spot for the Blue team. The outcome of the game will probably depend on whether or not Varsity will be playing up to par. This season they have turned in some stellar performances that belie their inglorious record. When they have been on they certainly looked a lot better than McGill did in their appearance here and a win tonight may be the impetus they need to sweep to a college title.

Besides their intercollegiate games, Queen's play in the Senior B group of the O.H.A. with varying success. At the time of writing they have a somewhat insecure grip on the second place position in the group.

## KNOX AND JR. MEDS SCORE DOUBLE WIN

Young Doctors Have Easy Time in Third Successive Victory

### SHORTT PLAYS WELL

Last night's basketball double header in the upper gym produced some lackadaisical play with Emmanuel bowing to Knox, the final score being 27-10 and Jr. Meds taking a slow game from Jr. U.C. by the score of 25-11. The first game was featured by Shortt's rallying, six baskets and a foul shot accounting for his efforts. He was ably assisted by Shaw and Mutrie, who between them garnered twelve more points for Knox.

The second tilt saw Jr. U.C. toting the line, with Jr. Meds easy victors. S. Wise opened the scoring and the Meds' lead continued to pile up steadily with Mettler leading the scorers. The U.C. squad were swamped until the last minute of play, when a basket by Applebaum ended the scoring in the first half with Meds leading 9-2.

The second half saw some good play in spots and was featured by the nice shooting of S. Wise, Zarsky and Fenner of Meds. The Meds lead was increased considerably in this half but Sharpe's rally during the last few minutes of the affair reduced it somewhat. Jr. Meds: S. Wise 9, Mettler 4, Cork, Cash 2, D. Wise, Bondo and Fenner 5.

Jr. U.C.: Beckett 1, Applebaum 3, Gerstein, Humenick 1, Levine, Losh, Kash, Sharpe 4, Ortoed 2, Holt, Beatty and Shaberman.

Referee: R. E. Willis.

Being refused by a woman is like being turned down in an election; the unlucky candidate's first sensation is sorrow, but after that he spends years of amiable amusement in watching the struggles of the successful party.—Marquerite M. Marshall.

Courage is like the diamond—very brilliant, not changed by fire, capable of a high polish; but except for the purpose of cutting hard bodies, useless.—C. C. Colton.

## SPEAKING OF SPORT

By B. J. McGuire

The ever increasing popularity of fist fights at sporting events, and the noticeable lack of such display of energy on the part of the mercenary athletes who are paid to fight has been one of the features of the alleged "progress" along the sport trail of late. The fact that John Public expects to have a few brawls thrown in with his evening performance at such events as hockey matches, and incidentally he does, would indicate that there is something wrong with the sport and the noble cause it is professed to fulfil. It also indicates that there is something wrong with the public conception of what is sport and what purpose it should serve.

The one noticeable fact in this regard is the education which the sport following public receive, or rather which they do not receive in their early years of attendance at sport functions. We refer here to the high school and prep school games in which the teams of the various schools compete. Just why these events should be regarded as an occasion when the followers of the various teams are privileged to cast aside any semblance of an education they may have received and shout for blood and battles is rather difficult to discover. There are rules, it seems, covering the conduct of students going and coming from school but once in the stands or the arena all discipline seems to vanish. We are not advocating that the students maintain a stoney silence throughout a contest but we would suggest that they display some courtesy toward the members of competing teams. The instance of injured players is one in particular when we believe some respect should be shown.

It is not unusual to see injured players, the recipients of a barrage of insulting remarks as they are assisted from a field. We have in mind several instances where this cold-bloodedness was displayed by high school students in the course of athletic meetings, but one which will serve to demonstrate occurred last fall at Varsity Stadium. A St. Mike's player had his arm broken while in a playoff game with Vaughan Road Collegiate. While he was twisting in agony on the field, his arm twisted completely around and obviously broken, the Vaughan Road supporters kept up a constant barrage of taunts and wisecracks, continuing till the injured player was out of hearing distance. This is merely an example, many of which could be recorded, but it shows the spirit of sportsmanship which is becoming so evident in the schools today. And it is this conception of sport which is creating the unhealthy atmosphere prevalent about many sporting activities today. We know of no better place in which to educate children than in the schools, but to us it appears to be just as important that the graduates know how to conduct themselves at such functions as football and hockey games as to know that the king of Persia came second in his battle with Alexander.

Incidentally, the interfaculty swimming meet Saturday in the pool, is already giving indications of being more than slightly successful. The dance in the gym after the meet should prove popular, and while Trinity look to be the team to win in a walk there should be some real races on the eard before Carl Mueller strikes up the orchestra.

## SCARLET AND GOLDS SWAMP WYCLIFFE

Pharmacy Victorious in Close Struggle with O.C.E.

### SEVERAL PENALTIES DRAWN

The champion Victoria College hockey team continued to outclass the other teams in their group as they swamped Wycliffe by 8-1 yesterday afternoon. In the other half of the double header played at the Arena, Pharmacy blanked O.C.E. by 3-0.

In spite of the fact that they gave several of their regulars a rest, Victoria completely dominated the play in the first game and won as they pleased. Joblin, Lavery and Monzon each scored two goals for Vic, while Grover and Gregory netted one apiece. Fairweather was the only Wycliffe player who succeeded in shooting the puck past Amos in the Vic net.

The second game was much more closely contested, although Pharmacy had a slight edge in the play throughout. However, the Druggists drew down several penalties, and O. C. E. always made things interesting when they had an advantage in man power.

Goals by Addison and Wilton gave Pharmacy a 2-0 lead in the first period and Pronger scored on a clever individual rush in the final twenty minutes to complete the scoring. Durnford and Collingwood were outstanding for O.C.E., but they were unlucky around the net.

Victoria: Goal, Amos; defence, Putnam, Wainwright; centre, Monzon; wings, Grover, Lavery; subs, Gregory, Duffin, Joblin, Edwards.

Wycliffe: Goal, Peglar; defence,

## DON'T MISS THE VICTORIA COLLEGE AT-HOME

## SCHOOL MEN LEARN LEGAL PROCEDURE

(Continued from Page 1)

In regular legal procedure there are two classes of witnesses. The ordinary witness may be called upon by subpoena at any time. Testimony from an ordinary witness must be a statement of simple fact, or one of the occurrence of an accident, as seen by the witnesses. An expression of opinion is not allowable. He is paid the nominal fee of \$1.00 and expenses.

An expert witness may be called to give the judge and jury his opinion upon some phase of the case with which he is especially familiar. This class includes handwriting experts, doctors, engineers and technical men of every description. Textbooks, catalogues or reports on experimental research may be used by an expert witness to prove his statements. Notes, other than those made at the actual scene of the occurrence, may not be used by the witness in giving testimony. Since the experience and training of an expert witness determines the value of his evidence it is essential that he should submit a full and accurate account of his previous experience to the court. It is also important that he should not engage in any case which would be likely to damage his reputation.

A witness is subject to cross-examination from the opposing counsel. The cross-examining lawyer is permitted to question the witness on various subjects of little direct value, to test his knowledge of the subject.

"Be frank, or at least give the appearance of being frank," was the judge's parting advice to prospective witnesses. Testimony couched in technical or medical language is frequently entirely unintelligible to the average jury. The witness is called to furnish information, and not to argue the case, that must be left to the lawyers.

## OPEN MEETING HELD BY STUDENT LEAGUE

(Continued from Page 1)

turned public opinion against him as chairman.

Mr. Schatz was finally dropped from the Board on the ground that he was too outspoken and radical and that he did not represent the views of the County of York. As consolation he has been appointed to an advisory council which has no real powers. Mr. Schatz tried to show the Board that students graduating without any prospects of employment would inevitably turn to fascism and that by allowing an anti-fascist group to organize they would show the dangers of this course.

Mr. Schatz showed in his address that "bigots, reactionaries and fogies of York Township" were against the Student League but that there were also many supporters. The League intends to protest strongly against the deposition of Mr. Schatz and demand his reinstatement and also to continue the campaign for the use of rooms in County schools to organize the pupils in an anti-war, anti-fascist movement. Mr. Cratie and Mr. Singleton of York Memorial Collegiate have also expressed a wish to use rooms at the schools to organize a fascist group. Mr. Schatz believes that the British fascist movement is behind them, having definite contacts here and is sending over instructions and propaganda.

An open meeting of the Student League will be held next Friday at the Women's Union and Dr. Wylie, editor of the York County Post and theoretist of Social Credit, will speak.

## VARSITY TO MEET WESTERN

(Continued from Page 1)

and should have an easy time of it against the Western squad. The latter by McMaster. The Blues won handily from the latter on Tuesday night to take the lead in the intercollegiate intermediate series. Jerry Vanderleek, who has been showing excellent form of late, will hold down the centre berth and Sullivan and Magwood will be at his sides. Himel and Fitton will form the rearguard. Carey, Newman and Krakauer will round out the squad.

## Sport Notices

### Indoor Track

All those interested will turn out at 5.15 p.m. sharp on Tuesday, February 12 for the following events of the interfaculty indoor track meet: Two-mile run, one-half mile relay.

### Volleyball—

Practice Saturday 2-3 in upper gym. As there are games next Tuesday and Wednesday, it is compulsory that everyone should be out.

### Victoria Waterloo

Interfaculty semi-finals game with Sr. Meds. Friday, 5.30 p.m. Everybody out.

### U.C. Women—

All U.C. women interested in badminton please sign lists posted in the locker-room today.

## CANADIAN VERSE LACKS RUGGEDNESS

(Continued from Page 1)

Duncan Campbell Scott, this period is not essentially Canadian.

Crummond, looked upon as a Canadian author, wrote a special genre—and stands apart from the rest of his contemporaries.

These writers "melt the ice of a great utterance into luke-warm sentiment." It became the fashion to write decorative poems, describing the more placid aspects of nature. It is very pretty poetry with some few fine imaginative flights, but is for the most part as sweet and unreal as the ending of a popular movie.

Prof. Macdonald complains that many of the topics lay in regions we cannot penetrate, such as "Autumn in Heaven". He would prefer one of Roberts' prose works from "Forest Strategy" to a whole fustia of "meditative icebergs".

In conclusion, our prose judged by any high standard is superior to our verse. Our poetry has an artificial tinge but we find the freedom of our tongue in prose.

Ticket list closes on Sat. at noon.

## ART, MUSIC AND DRAMA

(Continued from Page 2)

Two pianos with an injudicious and excessive use of pedal quite destroy the originally intended effect. Furthermore these artists offered nothing original in their conception and presentation of the music played. The Brahms' *Variations on a Theme by Haydn* showed an appreciable lack of real insight into the significance and greatness of Brahms. It had volume without the inherent strength and grip which is requisite to convey the deeper message of thought.

In the performance of Debussy, Arensky and Chopin which were better adapted to their particular style, the artists were happier. Considering the fact that the Choral *Jesus Joy* is rapidly becoming, if it is not already hackneyed beyond good taste, it might well have been replaced with something more suitable to the two pianos medium. The suggestion of sentimentalism in the playing of this number, not to speak of various other procedures such as the holding of final chords beyond their reasonable time value is not calculated to inspire respect.

Others more favourably situated, found the general effect and the balance of the ensemble quite pleasant and satisfactory. The Mendelssohn *Scherzo* was especially noted for the synchronization, delicacy and charm of the performance. The *Two-part Invention* was certainly one of the happiest inspirations of the evening.

## GOVERNMENT RESIGNS FOLLOWING U.C. DEBATE

(Continued from Page 1)

Mr. Jack Mirsky, replying, asked if the forcing of immigrants to starve in our cities furthered internationalism. The capitalist system and the competition for labour forced these people to accept low wages and so lowered the cost of living, he charged. There is no socialistic legislation in Canada to take care of that situation. We have to do the best we can with our present system.

Honesty is like a 7 per cent interest; it will beat all kinds of speculation in the long run.

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at either the men's office in Hart House, or at the women's office in University College. No notices will be taken over the telephone, after 6 p.m. notices must be taken to the Press Building. Notices for the Bulletin Board are limited to ONE insertion only.

## M. AND P. MEN ATTENTION

Tickets will be issued today for the annual At-Home, to be held Monday, February 18, Oak Room, Union Station. See your year representative. Dinner 7:30-9. Dancing 9-1. A bridge tournament will be staged for those who feel inclined.

## T. I. C. C. U.

Saturday, February 9, 8 p.m. The Toronto Intercollegiate Christian Union meets at 67 Pembroke St. Discussion topic, I John 3:1-10. Everybody welcome.

## POLISH STUDENTS' CLUB

There will be a meeting of the Polish Students' Club on Friday at 8 p.m. at 583 Adelaide St. W. All students are cordially invited to attend.

## ST. MICHAEL'S SMOKER

All St. Michael's students are asked to be present at the smoker to be held in the East Common Room on Friday at 8 o'clock.

## FRATELLANZA

On Sunday, February 5th at 2:30 p.m. in the Music Room, Hart House, the Fratellanza of the University of Toronto, will hold an important meeting re the policies to be adopted for the remaining scholastic term. Members please note their vote on the agenda must be registered in person.

## ESPERANTO CLUB

The Esperanto Club of Toronto will meet today, February 7, 1935, at 8 p.m. at the Central Y.M.C.A., College Street between Bay and Yonge Streets. Anyone interested in the subject (pro or con) is welcome.

## PHYSICS LECTURE

Dr. W. H. Kohl, of the Laboratory of the Rogers Radio Tubes Co. Ltd. will lecture at 8 o'clock today (Friday, February 8), on The Electron Microscope. Slides and experiments will illustrate the lecture. Physics Building, Room 43.

## Wandering Reporter Goes To Baffin Esquimaux Maidens Keep Him Laughin

Special to The Varsity

Baffin Land, Feb. 7.—We arrived here late Friday night after an uneventful ride on "Spirit of Prosperity", an airship of our own invention, made from spare parts fished out of Hart House soup. We call her "Spirit of Prosperity" because she comes down much faster than she goes up, and was specially built for slipping around corners. This last feature is essential for navigation among the icebergs, as they are thickly planted with fields of iceberg lettuce which clogs up the clockwork if you come too close.

We were met by a delegation of Esquimaux maidens in native costume, and have decided to go to Hawaai . . . Hawaai . . . to go to Honolulu next time.

We had brought along a can of worms, as we had heard, of course, that the neighbourhood is famous for its baffin, and had counted on doing a little fishing at the same time, thus killing two birds with one stone.

We soon discovered, however, that in this country baffin has nothing to do with Saturday night, due undoubtedly to the inefficiency of the Circulation Manager. Baffin is a unique sport, unknown to other lands, as the primitive baff abounds only among the Arctic wastes, and is unable to survive the humidity of colder climates. It is, of course, a carnivorous animal, but not by nature predatory, living almost exclusively, as one might surmise, on waste matter, though it will go a little higher and tackle the white meat when desperate.

The method of hunting the animal

is extremely interesting. The Esquimaux have long been accustomed to using a light spear as their only weapon, but are able to throw this great distance, and as the baff always runs in unbroken packs (wrapped in cellophane, of course) the natives used to be able to kill them in large numbers. Of late years, however, the animals have grown wiser, and now whenever they see an Esquimaux they immediately get behind him, and stay there. As a result, the unfortunate hunter is forced to swing his spear backward over his shoulder, and as the first cast always dislocates the joint, is never able to bag more than one victim, with the exception of the occasional felloso so fortunate as to be ambidextrous.

Fortunately we had brought along Minnenwerfer. Our trusty sawed-off shotgun, just in case we should be chased by sharks—of course you can't shoot sharks with a sawed-off shotgun, but you can scare them away by starting a racket, and whoever heard of anybody succeeding in a racket without a sawed-off shotgun?

But to resume, we took Minnie with us on the baff hunt, and made a big killing by the simple expedient of fastening a piece of hose-pipe on the barrel and bending it back over our shoulder. In fact, we got all the baffs but one, and would have had him only he had the presence of mind to run up and hide between our legs, where we couldn't find him. We decided to tame him by reading him editorials, and in a few seconds he fell unconscious at our feet. Thus endeth the first lesson.

Chaz von Munchausen.

best suited to the condition of the ground, ready to move off at 1915 hours.

The time at the Armouries will be devoted to Inspection manoeuvres and the contingent will move off from the Armouries at 2030 hours.

Dress—Uniform, greatcoats will be worn. Officers will wear swords. Those members to whom a cap has not yet been issued will report in plain clothes, will draw arms and march to and from the Armouries in the rear of the contingent.

The band will attend.

(Signed) D. R. Nicol, Capt. &amp; Adj.

## 'TWIXT TWO

Dear Phyllis:

Nothing goody-goody about you, eh!

You're a bit biased about liquor; you haven't seen enough of it to judge whether it is a matter of individual responsibility: the very fact that a bunch of you were discussing the question implies that you are too far away from your subject to feel its emotional side.

There are two subjective attitudes to drinking. The man feels that liquor provides a very real and useful means of drowning his sorrows and that it's nobody's business but his own. The woman is quite sure the law should help her to repress this devilish serpent in the bosom of her family; she is even more certain when the bleary eyed man comes home and they begin to quarrel over the money he's spent.

Of course the woman is right: if there is any justification at all for interfering laws, surely this is a good example. The state cannot deny it helps her in other regulations—she is entitled to a share of his wages and the presence of children provides a further legal call on his money. Society admits this but is unwilling to prevent family abuse by removing liquor.

Apparently most people believe there is more to be said for the drinker; we are bound by the "equality" of our era to give the poor man the privileges of the rich. Many people believe as you do that the individual should be left on his own responsibility as much as when he eats candies. Surely it is not necessary to point out the peculiar effects of alcohol as a narcotic; in deadening the senses and movements of a man driving a car, in loosening social inhibitions about sexual morality and in creating a craving or habit.

Some have the rather amoral attitude: Let the drinker go to hell in his own way, and his family be hanged. How do we stand? We see no reason why wine should not be served at dinner and cocktails at supper. Take a typical student whom I know: he is brilliant; an intense worker but able to relax at will and as often as his friends interrupt; apart from a wide acquaintance of men and a number of women

his only outlet for the primitive within him has been drinking. Since he has actually fallen in love his drinking has fallen off. I know you don't believe that smoking is a sexual sublimation, but don't you realize this has all the ear-marks of a substitute for "love"; by drinking he fortifies his conceited self-delusions when he's not getting enough flattering attention.

Looking at the question in that way, I must reply, "Why not abolish all liquor laws." It wasn't until a century or so ago that beer and disgusting drunkenness became unfashionable in English aristocracy and they managed to get along as well before as afterwards. Since it is always the weaker and less desirable elements of the population which suffer racial elimination from poor living habits, why not adopt this as a far more subtle method than birth control of cutting out lower classes?

The L.C.A. should have worked even better than it did. The government was pledged to use its fifty million dollars in educational campaigns against liquor. It is best to help a man realize all the implications his drinking will entail, not to restrict his liberty of choice; the penalties for drunkenness are good, because they protect the safety of others. . . . All in all, it's too bad the hotels charge more than the government stores do.

—Ted.

## VARSITY DEBATERS BROADCAST TONIGHT

(Continued from Page 1)

modation. But the National Federation of University Students is fostering this series for the benefit of the people all over Canada who are not so apt to be satiated with student opinions as are those who have them all the time.

Yet, we might wish for a little more interest on the part of the students, if only in loyalty to Toronto, for, while we have athletic meek with the other universities, it is only by means of these radio debates that we can meet them on the basis of intellectual ability so let's cheer for Varsity tonight.

## Toronto Debaters Advance To Finals in Radio Series

A. C. Smith and S. F. Rae Upheld the Negative Side of the Canadian Radio Commission's Debate Against the Manitoba Team

### EFFICIENCY OF DEMOCRACY UPHELD

According to an announcement made Saturday, Messrs. A. C. Smith and S. F. Rae, representing the University of Toronto in the Canadian Radio Commission's inter-university debate on Friday evening, successfully upheld the negative of the resolution, "Resolved that Democracy is Suitable for periods of Prosperity Only" against the University of Manitoba, and thus qualified for the final round of the series.

The representative of the University of Manitoba, speaking from Winnipeg, opened the debate by defining democracy as the ruling of a country by "representative government institutions." "The depression has laid bare the inadequacy of governments conducted on this basis in times of crises," he said. He went on to point out the apathy which is characteristic of democracy in modern times. It is unable to introduce the necessary changes called for by some critical period in the state's career. Men, he claimed, "tired of the uselessness of political interference, were demanding new values." This fear of insecurity and sense of frustration is resulting in the developing of factions to meet these inadequacies; which factions are advocating coercion and physical violence rather than political endeavours.

He summed up his case against democracy with two outstanding indictments. "In a democracy the best men available are not in power in time of crises" and "... in the same period of crisis a government is unable to remain in power long enough to adjust themselves to the problem."

Mr. Saul Rae, speaking from Station C.K.N.C. in Toronto, admitted that democracy like everything human, undoubtedly had its flaws. But on the other hand he claimed that "the advantages of democracy are great enough to balance any weaknesses it may have."

Showing a keen appreciation of historical values, Mr. Rae illustrated the power of democratic forms of government, by citing the record of democracy in the histories of contemporary countries. In all the many and varied crises that United States has undergone (Continued on Page 4)

## NEWS OF THE WORLD IN BRIEF

Rome—Trouble between Italy and Abyssinia over the week-end resulted in the conscription of 75,000 Italian troops. Reports have been received of clashes along the border in which many have been killed and wounded. Extensive troop movements have been in progress throughout Italy for the past forty-eight hours, directed for the most part toward the Italian Somaliland.

Berlin—Chancellor Adolph Hitler signifies his intention of accepting the terms offered by England and France in the formation of a defensive air alliance. The terms of the wide spread peace alliance and security scheme will be the basis of further negotiations in the near future, it was announced.

Ottawa—C.C.F. leaders in Ottawa declare that the Bennett reform policy is entirely inadequate to meet the present situation, and announce their intention of continuing with their reconstruction campaign.

## Hockey Hopes Fade As Tricolour Wins

Intercollegiate Title Goes to  
McGill as Blues Lose  
in Kingston

### SCORE IS 6-4

By Ken Burn  
Kingston, Feb. 8.—Protecting their citadel for the last two periods against a desperate band of Varsity warriors who were striving valiantly to overcome a first period deficit, Queen's emerged on the long end of a 6-4 count in the senior intercollegiate hockey game played here Friday night. The Tricolour victory was of the dog-in-the-manger type as it spoiled Varsity's mathematical chance of winning the college title and at the same time definitely established McGill as winners of the league for the third consecutive year.

The game was a wide-open affair and a break would have sent the pendulum of victory swinging in either direction. Queen's got theirs after only three minutes of the first period had elapsed when Charles was penalized for illegal body checking. The Varsity stalwarts held off the Kingston students (Continued on Page 4)

## UNUSUAL BOOKS NOW ON DISPLAY

Hart House Library Places  
Rare Volumes on  
View

Following the announcement of a week ago in *The Varsity*, the management of Hart House Library has placed on view in the library an exhibit of rare books. *The Varsity* is informed that the books now shown will be changed from time to time.

The present exhibit features specimens of the best printing of this age. Among the books on view is "Reveries over Childhood and Youth," by William Butler Yeats. This copy is No. 226 of a publication limited to 425 copies, and was published at the Cuala Press by Miss Elizabeth Yeats. "Miss Yeats," the footnotes tell, "who had come under the influence of William Morris, set herself the task of reviving fine printing in Ireland."

An example of the work of William Morris is shown in "The Friendship of Amis and Amile," "done out of the ancient French into English, by William Morris, and printed by the said William Morris at the Kilnscott Press." The Kilnscott Press was founded by Morris himself in 1891. (Continued on Page 4)

## FRENCH DISORDERS NOT SO SERIOUS PROFESSOR HOLDS

Possibility of European Wars  
resulting from Internal  
Riots Deemed Slight

### FORESEES NO CHANGE

Present Government is Staple  
and Equal to the  
Situation

Unable to find any grounds for the recent war scares in Europe, Professor DeChamp of the University College French Department told *The Varsity* Saturday about the fears of ex-President Doumergue of France in that regard. Doumergue recently made a speech warning the French people against civil rioting and stating that internal strife would be sure to bring war. "What foreign war could occur just because of a few riots in Paris?" asked Professor DeChamp. "Last year, perhaps," he continued, "but I see no reason for war in Europe now; the nations all want peace."

Professor DeChamp thought the present situation in France not nearly as bad as it has been made out and blamed the foreign press correspondents (Continued on Page 4)

## OBJECTS TO FASCISM ON ECONOMIC BASIS

Present Standards Would  
Stamp Policy as  
Tyranny

### OBJECTIONS EMOTIONAL

"The need for some sort of economic planning is evident. Most of us are agreed upon that. What we do not see is that this planning should be done by the group that has been in the saddle so long—by big business. That is the fundamental objection to fascism." Such was the general position assumed by Professor Urwick of the Political Science Department of the University with reference to Friday's editorial—"What of Fascism?"

"What about the charge that opposition to Fascism is largely emotional?" (Continued on Page 4)

SIR ROBERT FALCONER

Former president of the University, who celebrated his 68th birthday yesterday.

## SPEEDY CONTEST WON BY POSTIES

Beavers Share First Place  
with Civil Servants as  
Result

### SCORE IS 4-1

Case Curzon's up and coming Post Office squad moved into a first place tie with Varsity in the T.H.L. Major League on Saturday afternoon at the Varsity Arena when they rang up a convincing 4-1 count on the Blues. Royal Canadians also entered the charmed circle by mopping up Hinde and Dausch, thereby creating a triple tie for the flag position.

The Posties were full value for their win and only Shipman's sensational display and their own inaccurate sniping kept the score down. The contest was extremely fast all the way and both teams were leg-weary when it ended. The teams are now on the home stretch and the finish should be exciting as they are all well matched.

The Blues secured their lone counter in the first minute of play when McIlquham scored on a pass from Sweeney. Play alternated from one end to the other with both net-minders making numerous stops. Sissons was banished for tripping and Posties put on a determined four man rush. Their for- (Continued on Page 3)

## Varsity Cagemen Continue Victorious March in Series With Double Win at London

### Staff Meeting

An extremely important meeting of the entire Varsity staff will be held this afternoon in the Women's Union, St. George Street. The meeting will commence promptly at 4.30, and there will be dancing from 5 to 6 p.m.

Every member of the staff is requested to be present.

## Varsity Battlers Give Good Display

Boxers Split Card of Eight  
Bouts at Cornell  
University

### WRESTLERS LOSE

Varsity's week-end invasion of the U.S.A. by the B. W. and F. team was comparatively successful—compared with the havoc recently wrought on the Blue ranks by the Syracuse ring artists. The boxers showed a marked improvement in form and divided the honours with the Cornell mittmen, each team taking four decisions. Meanwhile, the wrestlers were less successful in Rochester, losing five out of eight bouts. The Varsity fencers did some superlative blade-flashing but lost out by the skin of an ear, or something.

Milison, in the 118 lb. class, heightened his reputation as a "sweet fighter" when he took the opening bout after an exciting struggle. Freddie Smith followed suit in the next contest, with a clean-cut win. Tom Powell celebrated (Continued on Page 3)

## DR. MOTT SEES NEED OF YOUNGER LEADERS

Believes Educational Centres  
Should Produce Men  
of Merit

### UNSELFISHNESS NEEDFUL

"The world has never before been in such great need of leaders men who will begin a new order of things, and take a more aggressive attitude towards ignorance, poverty and sin. The task has never been so difficult or so complex, and this generation, the first to be called upon to deal with international affairs, is not prepared. The result is bitterness, misunderstanding, and strife, but the world-wide depression cannot be met unless we deal with it internationally.

"Our machines are ahead of our social and religious systems, therefore millions are unemployed. The extensive and profound changes which must be brought about can only be met by the new leaders, and the places to look for them are the centres of learning," said Dr. John R. Mott in his address to young people, especially those who are going in for divinity or missionary work, at Wycliffe College Friday afternoon. Dr. Mott has just returned from an extensive tour of foreign countries (Continued on Page 3)

Seniors Sweep Mustangs to  
Decisive 31-15 Defeat at  
London

### SECOND COLLEGE TRIUMPH

Intermediates Clush Western  
Seconds with a 29-7  
Reverse

By W. A. Crocker

London, Ont., Feb. 9.—Clearly demonstrating their superiority Lew Hayman's Varsity basketball squad blasted the University of Western Ontario's hopes of an intercollegiate senior basketball title by a clear-cut 31-15 win on Saturday night in a fast and thrilling game played in the gym of the London Technical School. In the preliminary game Coach McCutcheon's intercollegiate intermediate squad took a firmer grip on the lead in the intermediate series by crushing Lew Davies' Western Seconds 29-7. Both games were played before an overflow crowd of very partisan fans.

A feature of the evening's play was the wonderful defensive work of both Blue squads. The intermediate aggregation kept the Western crew basketless until three minutes of full time at which point Carr-Harris ripped the twine for the lone Purple and White hoop of the game. In the senior tilt the Mustangs again failed to get a basket in the first half but managed to sink three balls through in the twine in the final period. The Blue seniors counted one more. Varsity was never headed at any point in either tilt.

The senior tilt, which marked the Blues' second successive intercollegiate win and tenth straight victory for the season, was a fast and exciting encounter. Both squads proceeded cautiously at first after Connolly had opened scoring after one minute of play. Gold followed this up with a "dogg" and Bodrug netted one from "the hole" to give the Blues a six-point lead. At this point Whitwill sank the first four of the sixteen free throws which were donated to the Western cause. With the count 6-4 in favour of Varsity both squads began to open up somewhat but the Blues had difficulty in getting the ball to stay in the hoop as time after (Continued on Page 4)

## MEMORIES

FEBRUARY 11

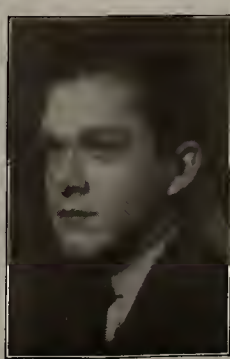

1924—As a matter of discipline, 20 Trinity sophomores were fined \$25 apiece for disturbing freshmen rooms. The freshmen were absent at the annual banquet at the King Edward Hotel at the time.

1930—A small shed of tasteful and simple, though not ornamental architecture, has been erected during the past week between the old college building and the excavation for Emmanuel College. Officials yesterday neither refuted nor affirmed the rumour that the shanty was the first wing of the greater Emmanuel College.

1931—Miss Carolyn Temple, II Victoria, was hailed the University's most perfect female, with a total of exactly 1,000 points. Miss Phyllis Smally was the most popular entrant.

Messrs. A. C. Smith and S. F. Rae, who defeated the debating team from the University of Manitoba in the inter-university radio debate on Friday evening.

## The Hockey Situation

Last Friday's decision to have the senior Varsity hockey team forfeit the remaining games on its O.H.A. schedule because there would be no purpose served by playing them calls for a few words about something which has been a source of irritation and disgust in local sporting circles throughout the season. The lamentable showing of the Varsity squad leaves them with a season showing exactly no victories, and one tie game, despite the fact that individually the Varsity players rank quite high.

Why, ask the hockey fans, is there no hockey coach at this University, when there is so much talent available in Toronto? The question remains, officially, unanswered.

Most hockey teams find that a coach who knows something of the game is a valuable asset, for teaching them how to play the game, for building up team spirit, and for providing them with the necessary pep to go out and win. Yet at the U. of T. the Athletic Directors have displayed startling, although useless, originality by having their talented rugby and basketball coach act as mentor for the hockey team, and then getting another man to coach the basketball team. The whole business, according to current grumblings, smells to high heaven of favoritism and rank inefficiency.

The hockey fans are not the only grumblers. There has been bickering and dissension among the players themselves all season, with several men talking of quitting the team. Others feel that they are not getting a square deal from the Athletic Directorate—certainly not without reason. This is the second year Varsity has been in the doldrums, and if some remedy for the situation, in the form of a coach, is not forthcoming, the boys might just as well beat their hockey sticks into ploughshares, and go back on the farm.

What irritates everyone concerned is the fact that numerous good hockey coaches have offered their services to the Athletic Directorate, only to have the offers spurned with scant courtesy. Francis "Duke" McCurry, widely known professional player who is now studying dentistry, is considered by both students and down-town sports writers as the logical man for the job but he has been turned away. Practically any member of the Maple Leaf hockey team would be glad to coach the Varsity team for the benefit of his reputation, and yet nothing is done to make use of their services. Instead, the Varsity coach is a man who, with his wide abilities in other fields, has never played hockey.

By turning away all hopes for a winning hockey team, and the increased gate receipts which would be bound to result, the gentlemen now in charge of athletics have showed for two years a decided lack of business ability and competence, in the hockey realm at least. It is to be hoped that by next year the University of Toronto, in addition to excellent leadership in other sports, will have the benefit of a good hockey coach.

## Student Movements

In a recent editorial, the New Republic asks a question: "Is there a student movement?", (referring of course to the United States). After admitting that some worthwhile activity has been carried on against various manifestations of militarism, etc. the New Republic concludes that there is no student movement.

In reply to this editorial, the Parthian, the official newspaper of Marshall College, Huntington, W. Va., says: "If by a student movement is meant a body of young men and women sworn to oppose the R.O.T.C., to combat militarism, to eliminate discrim-

ination against the negro, to oppose jingoism, to fight social injustice, to effect the socialization of industry, or the overthrow of the capitalist system, then there is, if we see correctly, nothing comparable to a student movement in America. . . . If by a student movement the New Republic means a hundred thousand young men and women in pursuit of the unimportant (and quite capable of rationalizing their pastime) eager, impatient, wonderfully full of zest for the strangest things, attwitter over the latest chatter, drunk with the beat of drums, blue clarinets and mellow, gold saxophones, healthy, likeable, but oh so disappointing, so unpromising, then there are, according to all indications, some traces of a student movement in America. That is, if you define student broadly. Whether or not this is the movement for which the New Republic seeks is another question entirely."

We wonder whether this description of the student movement in the mind's eye of the Parthian is a real one. To us it does not quite ring true. From our experience with students we formed the idea that students, faced with economic necessity just as everyone else, worrying about the likelihood of unemployment after graduation, were no longer "drunk with the beat of drums and blue clarinets, and mellow, gold saxophones".

But even if this picture of a student movement were a true one, we wonder which is the more desirable — a student movement which, recognizing that the position of students is fundamentally interrelated with that of society as a whole, sees things clearly in their true light, and determine "to fight social injustice". Or a student movement which no matter how "likeable", refuses to come down to earth, but wandering in an imaginary haze, is intrinsically shallow, false, and distorted.

## The Japanese in Brazil

Recently we received a magazine from Brazil in which the position of 150,000 Japanese who have settled in that country was discussed. As our correspondent has the English name of Edwin Wyatt and still cannot speak our language, the remarkable melting-pot of Brazil has interested us greatly, and the article mentioned seemed to deal with the subject in an especially significant manner as it was about a race which almost everyone from the Coast believes is assimilable and noxious.

Brazil does not think so, and welcomes the Japanese as progressive pioneering people. Instead of giving up in holy horror, she has set about encouraging assimilation, and colleges have been founded to attend to the education of these "Brazilian children, sons of Japanese colonists". And the most striking feature is that these schools are recognized by Tokio even to the granting of charters!

The final paragraph is most significant, and we shall quote it to show the exact attitude:

"That which is done must remain, is beyond discussion. The Japanese is strong, intellectual. Many Japanese girls are pretty, and those of mixed blood even more so. The notable works which they build indifferently through every state with the view only of bettering the conditions of the district which they choose as a field for their activities eloquently attest to the fitness of the immigration of the Nipponese race. From the Japanese, crossed with indigenous elements will come in a striking manner, capacity for resistance, discipline, genius for initiative, methodical work, qualities we need so much!"

The Brazilians have found that the Japanese can be assimilated, and are making concentrated efforts to accomplish it. The Japanese government stands behind them because it knows that these people are expatriated probably forever, but will nevertheless always form an element sympathetic towards Nippon. If they have this element, which in a generation should love Brazil just as much as we do Canada, Japo-Brazilian relations should stand a chance of being friendly, to each country's mutual advantage.

In British Columbia there is a useless strain of feeling towards the Japanese. We wonder why this must exist, if we cannot also adopt a broader viewpoint and appreciate the Japanese for his qualities of worth. Is it possible that he can form a desirable element of our population with his great intelligence and industry?

## Just About Time to Call a Halt

The Kingfish is at it again in Louisiana. And this time he is not trusting to fate or propaganda. Potential hired assassins, ostensibly organized as the National Guard, engaged in battle with a hundred anti-Long citizens at Baton Rouge Saturday.

As a funny-man swaying in the breeze of public spotlight, Long may be inoffensive. That is a debatable question. But such a man should not be entrusted with the power to command men.

—Stanford Daily

## ART, MUSIC & DRAMA

### Sunday Evening Concert

While generally observed to show a preference for the modern composers, the Hart House audience at last evening's Sunday Concert was enthusiastic in its appreciation of the string trio, playing Reger and Beethoven, Eugene Kash, violin Florence Richardson, viola and Joyce Hornyansky, 'cello, were the artists who performed this greatly enjoyed hour's recital.

The programme was begun with the trio Opus 77b, by Reger. A delicate work throughout, the third of the five movements, the scherzo (vivace), was recorded the highest favour, being repeated later as an encore. Beethoven's trio in D Major, Opus 9, No. 2, provided the final half of the programme, and was performed with even more satisfying excellence than the Reger suite.

R.G.A.

A certain man, Joab, called unto him his two sons and said, I am grown old and my years weigh heavily upon me. I must now withdraw from the rush of this hurried life.

No more will I be a writer of Cats, and so my youngest son I now declare my successor in this enterprise. But the eldest son, Ignatz, did object loudly, claiming that his should be the inheritance. Whereupon the youngest son said with scorn, Truly it was thine, but thou didst sell me thy birthright for a mess of pottage.

Woe unto me, cried Ignatz, I have lost all for a mess of pottage, what now can I do? And his brother replied unto him, Try Grape Nuts.

But the father, Joab, did persist in his purpose and again declared to all who were by, for the servants of the house had gathered, To my youngest son I hereby give, devise, etc. —When a certain servant, Mundusult, did interrupt and cry, Hey, that's my line, but his master harkened unto him not.

And so Joab did close his shop for the last time, and it was two of Friday morning when he finished writing the last Cat and did put her out for the night, and did hand over to his youngest son the key. Now the son didst receive this key with reverence, for it was the capital "C" key from the old family typewriter. On any typewriter there is a bar for spacing, but on Champus typewriters there is also a key for spacing which is always used

## Let's Go Places

The York's contribution on Saturday last, *La Fille du Regiment*, was a let-down. No matter how good the scenario, a film wins and dies if the leading lady does not display either feminine pulchritude or intelligence and Little Mary unfortunately had neither. She might have been entertaining in a third-rate music hall but the film improved greatly every time she moved out of camera and mike range. The music had possibilities but . . . Mary did all the singing. And her accent! She was either a foreigner who had learned her French at Marseilles or an ambitious actress aspiring to a role in *Marius*. At any rate her adverb endings reeked.

And the script girl's brickbat was also earned. At the beginning of the film the rowdy regimental ward could write her name only with difficulty—two reels later she was allowed to pen 8 lines of poetic adieux, of which only 4 appeared when the verse was shot. She skied to a little cabin situated in the middle of a valley and the next scene shows her precipitated through the roof feet first and no skis in view, or, as the translation explained it, she stumbled on a smugglers' hide-out.

The mountain photography was perfect—the scenes of skiing, especially of soldiers at night with torches, were

# TRINITY CAPTURES SWIMMING HONOURS HANDILY

## FIVE MARKS SET AS TRINITY WINS SWIMMING MEET

### Injury to Guelph Diver Mars Evening's Performance in Hart House Pool

The Trinity swimmers dominated the swimming meet on Saturday in the Hart House pool. The meet was very successful with keen competition being the general order. Five new records were created, the most notable being Wins McCatty's mark in the 440 yards free style, which lowered the record by seven seconds, and Cres McCatty's time in the 100 yard back stroke, which lowered the record by 8 seconds. A novel situation was created in the 100 yards free style when McDonald of O.A.C. and Stratton of Trinity, swimming in separate heats, were clocked in the same time.

An unfortunate accident occurred in the diving when Benelick of O. A. C. severely wrenched his back when making his final try.

#### SUMMARY

300 yds. Medley relay: 1. Trinity A (M. McCatty, W. McCatty, Bickell); 2. S.P.S.; 3. Trinity B. Time, 3:23 3-5 (rec.).

Diving: 1. Eggert, S.P.S.; 2. Stratton, Trinity; 3. Benelick, O.A.C.

50 yd. free style: 1. Bickell, Trinity; 2. Grant, U.C.; 3. Woodsworth, Vic. Time, 26 2-5.

440 yd. free style: 1. W. McCatty, Trinity; 2. Follinsbee, O.A.C.; 3. Hampson, Vic. Time, 5:47 2-5 (rec.).

100 yd. backstroke: 1. C. McCatty, Trinity; 2. Dilworth, Trinity; 3. Robertson, O.A.C. Time, 1:09 2-5 (rec.).

100 yd. free style: 1. MacDonald, O.A.C. and Stratton, Trinity; 3. Kirby, Trinity. Time, 1:02 4-5.

220 yd. breast stroke: 1. Jennings, S.P.S.; 2. Collins, Meds; 3. Woods, S.P.S. Time, 2:53 4-5 (rec.).

200 yd. relay: 1. Trinity A (Dilworth, Stratton, Bickell, C. McCatty); 2. S.P.S.; 3. Trinity B. Time, 1:48 2-5 (rec.).

Points by faculties: Trinity 46, S.P.S. 21, O.A.C. 10 1-2, U.C. 3, Meds 3, Vic 2 1-2.

### ENGINEERS WIN HANDILY FROM EMMANUEL SEXTET

Emmanuel College was defeated by Jr. S.P.S. in an interfaculty hockey fixture played at the Stadium on Friday afternoon by the score of 4-0.

### DRUGGISTS SCORE WIN IN SLASHING TILT

Pharmacy raced to a smashing 25-12 win over the Jr. S.P.S. team in a flying interfaculty basketball tilt played in the upper gymnasium in Hart House Friday afternoon. The winners had it their own way all the time, allowing their opponents but two baskets in the first period.

## SPEAKING OF SPORT

By B. J. McGuire

There just isn't anything left to hope for as far as the hockey is concerned around the local halls of learning, and the best we can do is hope for a more successful year next time. The failure of the Blues in their contest at Kingston saw the last faint ray of hope for recognition in the hockey world vanish. The title now belongs to Bobby Bell's McGill Redmen for another year despite the fact that there are still two games to play. The Varsity team will meet the Montrealers this week-end in Montreal and then will play Queen's here in the final game. But with two victories over the Tricolour already to their credit, the Redmen cannot be overtaken. A playoff between the first and second teams in this case would be something desirable as it would keep the interest in the game until the bitter end.

Queen's, making a return to the senior ranks, certainly took the wind from the Varsity sails and although they did themselves no good except satisfaction, they did Varsity wrong. However, the expectation that the Tricolour would be the weak sister in the loop was blasted in no uncertain fashion and with it was blasted any hope of a hockey title around this side of the park.

The work of the basketballers in London, was, however, more worthy of comment. The cagers appear to be travelling a non-stop route to a title and their conquest of the Mustangs leaves them still undefeated in either the intercollegiate or Big Six race. The Mustangs had two teams in action Saturday night and against the Blue invaders the two teams were able to collect a total of four baskets in two games. This is truly an eloquent commentary on the defensive strength of the Toronto forces.

One of the most promising performers among the local athletes appears to be one Charlie Burke, who gets his exercise on the leather market in the local gym. Burke, a newcomer to the boxing game, scored a one round knock-out over Thayer, one of Cornell's leading exponents, in their bout Saturday night at the Cornell gym. Pocius, the local heavyweight, was another surprise, being stopped in the third round. On the evening's work the Blues won four scraps and lost the same number. The wrestlers dropped five of their fixtures.

The swimming meet Saturday night did the expected by producing several new marks. In all five new records were made by the boys as they splashed to victories for their faculties. The first accident of many years marred the meet when Bannalick, of O.A.C., was injured in his last dive. The Guelph diver twisted his back and was removed to the hospital but was able to leave under his own power in time to catch the train home. Barring this unfortunate occurrence the meet was a brilliant success, as was the dance which followed. A good time was had by all, including the Victoria immigrants.

## THE SPORTSWOMAN

By M. A. F.

Will any St. Hildean who swims at all please turn out at 8 p.m. this evening for the inter-year meet to be held at the U.T.S. pool. Of course, the primary purpose of this event is to get a line on the available material for the Blue and Grey team which will be entered in the interfaculty finals. But this is also an ideal opportunity for those who do not excel to have a good swim, a lot of fun, and also to get their own year a good turn. There is to be a relay race so each year must have at least four swimmers. And how about showing some real Trinity spirit in supporting this classic?

The badminton tournament has been postponed until February 23, so please note this important change. This gives more time to get entry lists made up and the Vic tournament will probably be completed in time now. The U.C. tournament is to get under way today and it is hoped that by this evening the first round will be off. It is essential that this event be finished this week so that the team may be chosen and get some practicing in before the 23rd.

Our senior basketball team seems to have definite possibilities. There is some A1 material there and although things were by no means perfect on Friday night they are looking up well. The team does appear to need a lot more practice and organization if it hopes to cop the "Bronze Baby" again. Kay Brown and Edie Ardagh are working in excellently together. Mary Carre did not play her usual stellar game. Eugenia May is a flashy forward and a speedy little player but hardly up to the standard of the other three. The Varsity defence was not spectacular but Kay Grubbe and Billy McGarry were working in better as the game continued. And one must remember that this is the first time these girls have been out on the floor together.

The first part of the hockey series has now been completed except the game between Vic I and Vic II which

will be played at 1 p.m. today in the Stadium as a combination preliminary and semi-final game. On Wednesday U.C. and St. Hilda's clash; and then on Friday and Monday the winners of these two contests will come together in the finals.

U.C. and Vic II played to tie it up at 2-2 at noon on Saturday. It was a close game all through and the hockey was of quite a good brand. Betty Mark was the stellar U.C. puckster and Norah Noble was outstanding among the Scarlet and Gold players.

On Friday evening the St. Hilda's team went to town when it defeated Meds by a 4-0 tally. The game was played under difficulties due to the continual snowfall which slowed things up and made the puck decidedly elusive. St. Hilda's was on the offensive in the first two periods but in the last session the play ranged up and down the ice more equitably. Elaine Knight and Mary Dignam were good for the Saints and Mary Thom was the pride of the Meds' aggregation.

The snow was an equal drawback in the Vic I-St. Mike's game which came off at the same time as the Meds-St. Hilda's battle. The play at first was sloppy but both teams tightened up at the end. Gissy Lockwin, the San Miguel's goalie, deserves a real hand for her game. And for Vic, Holly Sclater and Gladys Wags were really playing super hockey.

### VARSITY RIFLEMEN WIN FROM IRISH

Shooting the fourth match of the season last Thursday night, the rifle team defeated the Toronto Irish by a score of 728 to 720. The team is composed of six men, the five high men counting. Each man shoots a fifteen shot target with a maximum value of 150. The individual scores were:

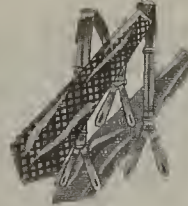

For the University: A. Sharpe 147, B. Broad 147, Lee 145, F. B. Pickett 144, S. M. Rottman 144, Odell 143. For the Irish: Stack 147, Angel 147, Rogers 144, Vanplew 143, McRoberts 139, McRoberts 139.

The head, like the stomach, is more easily infected with poison when it is empty.—Richter.

EATON'S - COLLEGE STREET

### DR. MOTT BELIEVES YOUNGER MEN NEEDED

(Continued from Page 1)

and spoke with authority and conviction.

The requirements demanded of a leader are many: the power to comprehend the background of the people with whom he is dealing; the creative faculty; it is not mechanical workers but thinkers who are needed; statesmanship; the power of vision; co-operative spirit, the progress of a nation can be judged by its ability to co-operate, and the same is true of any society; unselfishness. "Read David Livingstone's journals," advised Dr. Mott, "and you will never doubt that unselfishness is the supreme trait; in courage this generation will not be found lacking, it is as good as any other.

"The task of present-day leaders is to make Jesus Christ known, trusted, loved, obeyed, and exemplified in all the range of individual life and in all human relationships. Contrary to the belief of many, there is room for the youth of today, young people are needed to fill the gaps which are all over the world. The older generation is tottering in old age, is weak in health, and some are incompetent and should give way to those with more adequate qualifications. We must have more students to press the unprecedented advance and take advantage of the rising tide. There are three hundred and fifty millions in the world today who are not exposed to the living example of Jesus Christ and one-third of the human race is without the aid of medical science.

"Choose a work that will call out your whole personality and which you will not regret ten or fifteen years from now," concluded Dr. Mott. "Let nothing but God Almighty detract you from your work and begin now while you are at college. You have only one life to live, do not be satisfied with the second-best."

### SPEEDY CONTEST WON BY POSTIES

(Continued from Page 1)

ward line broke through the Blues in waves and subjected Shipman to a prolonged barrage which proved fruitful when Walker caromed one in off Doran's skate. The Varsity goalie didn't have a chance on the shot.

McLean opened the scoring in the second frame after the Posties had put on a concerted attack. It was a soft shot but Shipman had been lured out of position. Ripley and Creasy made several pretty plays but had tough luck when in close. Disher crashed through solo but couldn't get his shot away. Varsity nearly got one when McElquham and Morgan broke through but Morgan's drive was blocked. The Blues were more than holding their own and had several opportunities to tie the count. Just as the period ended Ripley and Summerhill were waved off for swinging at each other a trifle too lustily.

Posties got a soft one just as the final canto commenced when Nevins lofted a slow one from the blue line which eluded the usually alert Shipman. Sissons put on a temporary one man show but could not score. Sweeney then circled the net and made a neat pass-out but it failed to click. The Blues put on a four man drive at the ten minute mark that had the crowd in an uproar but they could not beat Timson. The Mailmen came right back with a powerful attack and Kressler slapped the disc past Shipman, thereby putting the game on ice.

Varsity had quite as much territorial play as Post Office but lacked scoring punch when in close. Five juniors took part in the fracas as the team was shorthanded. Shipman, Sissons, Ripley and Sweeney played stellar hockey for the Students.

Post Office: Goal, Timson; defence, Marshall and Nevins; forwards, Phillips. Doran, Walker; alternates, McLean, Kressler, Summerhill, Houston, Miller.

Varsity: Goal, Shipman; defence, Sissons and Bauer; forwards, McElquham, Sweeney, Disher; alternates, Shultis, Creasy, Ripley, Morgan, and O'Leary.

### VARSITY BATTLERS GIVE GOOD DISPLAY

(Continued from Page 1)

a return to form by taking his man in the 145 lb. division. But the pleasant surprise of the evening was when Burke, a first year man who has been improving all season, hammered his 165 lb. opponent into submission. The Toronto heavyweight, Pocius, was sadly out-reached by Jenkins, who shot a wagon-tongue left from long range to

win by a technical K.O. Gibson, Sheffield and Brunke were the other Varsity men to lose, the last named dropping a very close decision to Cramer, the Cornell captain.

Though only winning three out of eight bouts, the U. of T. squad of bone-benders gave the Rochester maulers little to brag about. Austen, of Varsity, was too good, taking the 118 lb. decision when his opponent retired with a broken collarbone. Joinston, in the lightweight class, also gave his man a bad time of it, to clinch the decision. Van Allan earned Varsity's third victory after a close struggle in the 175 lb. division.

### GYMNASTS PERFORM IN ANNUAL MEET

Interfaculty Meet Held in Upper Gym Tonight at 5 O'Clock

The annual interfaculty gymnastic meet will be held tonight in the upper gym at five o'clock. From the winners of this meet will be chosen the team which will meet McGill in the intercollegiate meet here later this month.

The teams are as follows:  
Meds: D. M. Spence, A. M. Crossland, E. S. Macdonald.  
Trinity: C. R. Kirk, F. H. Buck, G. M. Maclochlin.  
Lewis: G. F. Beard, F. D. Brunk.  
S.P.S.: M. L. Sherwood, A. B. Individual: E. A. Ryan, St. Mike's I; J. L. Farrar, Forestry III.  
Judges: Harold Greenwood, Chas. Swygard.

### Sport Notices

#### U.C. Athletes—

A picture will be taken of all University College "T" holders and "U.C." holders at 1 p.m. Tuesday at the front door of U.C.

#### Indoor Track—

All those interested will turn out at 5.15 p.m. on Tuesday, February 12, for the following events of the interfaculty indoor track meet: 2 mile run, 1-2 mile relay.

#### Jr. S.P.S. Waterpolo—

Practice tonight at 5.30.

## They Will Wear Longer

No. 690

Guaranteed First Quality

If you are looking for a better wearing, better looking stocking, that is most reasonably priced, you must see our No. 690. The chiffon is beautifully sheer and soft, the Service Weight, smart and sturdy. All the wanted shades.

69c

No. 6000

"Perfection in women's hosiery." This exquisitely sheer, permanently dull chiffon now has the advantage of being Splash and Shower Proof. Every new shade.

\$1.00

## Coming Events

## MONDAY, FEBRUARY 11

8.30 p.m.—The meeting of Mr. S. Carr's study group on Leninism will be held at 630 College St. under the auspices of the University Young Communist League. All cordially invited.

9.2—Annual Panhellenic Association dance, Eaton's Auditorium. Karl Mueller's orchestra.

## TUESDAY, FEBRUARY 12

5 p.m.—Miss Jessie McEwen, of Jonathan Cope, Ltd., will speak on "Book Reviewing," at a meeting of the Women's Press Club, at the Women's Union.

8.30 p.m.—Italian-Spanish Club Theatre Evening, Women's Union Theatre. Three good comedies.

1.20—Vic S.C.M. Second topic in the series "Significance of Religion" will be taken by Rev. Frank Fidler at Wynilwood. Mr. Fidler will speak on "What can I believe about God?"

## WEDNESDAY, FEBRUARY 13

8 p.m.—Women's Union. Joint meeting of the W.U.A. and the Literary and Athletic Society of University College. Skits and dancing. All U.C. men and women invited.

7.30 to 8.30—Last lecture in the S.C.M. series on the Art of Living, in Cody House common room. Gertrude Ruthford will speak on "After College—What?"

4.15—U.C. Players' Guild presents the last act of *Candida*, by George Bernard Shaw.

## FRIDAY, FEBRUARY 15

Victoria College At-Home in Hart House.

## JUNIOR SCHOOLMEN REACH WATERPOLO PLAYOFF

As a result of the waterpolo games played Friday in the Hart House pool, Jr. S.P.S. and Vic meet in the final for the waterpolo championship. Jr. School erased Jr. Meds from the list of contenders when they won the championship of group three by taking the sudden death game 1-0. Vic reached the finals through the inability of Sr. Meds to overcome the two goal handicap they spotted Vic on Wednesday.

## VARSITY CAGEMEN WIN IN LONDON

(Continued from Page 1)  
time it rolled right out of the twine. The half ended with the Blues leading 11-5.

In the final period Hayman's crew again trotted out their characteristic second-half scoring spurge. For eight minutes the Purples kept the Blues from counting but the Varsity machine would not be denied and the Blues kept the score mounting slowly but steadily to double the score on their rivals.

Once again Joe Connelly and Phil Gold, Varsity's sterling defence, led their squad to victory. Joe was high scorer while "Silver" Gold was close behind. Bill Bodrug and Alex Munroe performed well. Whitwill, who scored six free throws, Hayter and Fletcher were best for Western.

The preliminary game saw Western's Seconds completely outclassed by McCutcheon's classy squad as the latter rang up their third successive win in three attempts in the intercollegiate series. The Blue Seconds had matters well in hand at all times. Mac's men completely outplayed the Purples in every phase of the game and but for bad luck at the hoop would have sent the score well over their final total. Fitton was especially outlucked around the baskets as on three occasions his shots went into the twine and twisted right out again. From a half time score of 12-2 for Varsity the Blues twice doubled the score on Western.

Carey, Sullivan, Himel and Krakauer played exceptionally well for the Blues. Carey was high scorer with nine points while Krakauer, who has been brought up from the juniors, fitted in well with his new mates. Carr-Harris and Harvey were the pick of the Western squad.

Varsity I, 31: Bodrug 3 and Marks 2; Crowley 2; Connelly 9 and Gold 6; Munroe 5, Levy 4 and Newman.

Western II, 29: Fletcher 3 and Hayter 3; Whitwill 6; Garrett and Rider 3; Gettas and Cherniak.

Varsity II, 29: Magwood and Sullivan 6; Vanderleek 2; Himel 4 and Carey 9; Fitton, Krakauer 6 and Newman 2.

Western II, 7: Harvey 3 and Coates; Carr-Harris 2; McVicar 1 and Farrell; Smith, McArthur 1 and Harrington.

## HOCKEY HOPES FAOE AS TRICOLOUR WIN

(Continued from Page 1)

until Charles reappeared. However, he had been on the ice less than a minute when he was again chased. There seemed to be some doubt of the validity of the sentence but an argument only resulted in another two minutes being tacked onto Charles' term. Queen's took advantage of Varsity's shortage of man power and ran in two goals. This reversal definitely put the Blue team off their game for the first twenty-five minutes of the game, by which time the score stood 4-0 for the Gaels. At this point Varsity snapped out of it and began a whirlwind attack which never ceased until the final bell.

Queen's presented a well balanced outfit that played the breaks to the best advantage. They had less scoring chances than Varsity but made the most of the opportunities they did manufacture. Johnny Wing with three goals and an assist was a big factor in the Tricolour win although the individual honours go to Forsythe, the goalie. He repeatedly coped with shots that to the spectators appeared to be sure goals.

Wing scored his first two goals in the premier session when Varsity were playing short handed. He broke through alone on the first while Patterson was credited with an assist on the second. His partner on the wing, Munroe, out-guessed the Varsity defence and sailed in to beat Loughheed in the latter part of the period to give Queen's a comfortable lead. Varsity had a few shots on goal that were either wide or which Forsythe handled capably.

Wing fattened his average at the beginning of the middle chukker when he gave Stollery a wide lateral pass just inside the blue line and the defenceman went on to score. From this point on Varsity outplayed Queen's and at the twelve minute mark McLelland scored on a pass from MacPherson. Hendry netted the second Varsity goal when he went in alone one minute from the end of the period and picked the right hand corner.

In the final session Varsity contin-

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at either the men's office in Hart House, or at the women's office in University College. No notices will be taken over the telephone, after 6 p.m. notices must be taken to the Press Building. Notices for the Bulletin Board are limited to ONE insertion only.

## U.C. MUSIC CLUB

If the proposed production of "Good News", scheduled for March 2, is to become an actuality, the cast must make every effort to attend each rehearsal. Rehearsal for all except the chorus, on Tuesday (Feb. 12) at one o'clock—Women's Union.

## VIC MUSIC CLUB

All who want to redeem scores must hand them in by Tuesday at the latest. The treasurer will be in the college hall on Monday and Tuesday from 1-2.

## ITALIAN-SPANISH CLUB

Tickets for the Theatre Night comedies may be secured from 11 a.m. to 2 p.m. today and tomorrow in the main rotunda of U.C.

## VIC AT-HOME

Tickets will be on sale today, Tuesday and Wednesday in the college hall from 1.30 to 2 p.m.

## SYMPHONY ORCHESTRA

A rehearsal of the University Symphony Orchestra will take place at the Women's Union, Tuesday, 6.30 p.m. A full turn-out is requested.

## MEN'S GLEE CLUB

An important rehearsal will be held at 5 o'clock this afternoon in the Music Room.

## VIC WOMEN

Discussion of Bennett's social reforms on Wednesday at 1.20 in Wynilwood in preparation for Monday's debate.

## VIC WOMEN

Lists for the V.C.U. tea dance are posted in the college hall today and tomorrow. Allotments for each year, so sign early. Tickets on sale Thursday, 10-2.

## U.C. PARLIAMENTARY CLUB

Thirteenth meeting, Junior Common Room, 4 p.m., Thursday, February 14, 1935. "Resolved that Employment be confined to males." Pivnick, speaker; Buck, clerk; Mervin Mirsky, premier; Kennan, acting premier; Shaffer, leader of opposition.

## LENINISM

Sam Carr will take his group on Leninism tonight at 8.15, 630 College Street. Auspices of University Young Communist League.

## WOMEN'S PRESS CLUB

Miss Jessie McEwen, of Jonathan Cope, Ltd., will speak on "Book Reviewing" at the Women's Union tomorrow afternoon. Tea will be served at 4.30 p.m. and the address will be delivered at 5 p.m.

## 'TWIXT TWO

Dear Ted:

"Politeness is like an air cushion; there may be nothing substantial in it, but it eases our jolts wonderfully." "I rather like that way of putting it, don't you? A few weeks ago *The Varsity* was commenting on courtesy students showed to their professors. At the time, student opinion was obtained, and most of them seemed to feel rather indignant at the suggestion that they were rude. However, nobody asked any of the professors what they thought about it—I should rather like to know.

At present, I myself feel that there are many students at the University who do their best to be rude to their professors, to trip them up at any small point, without getting into any trouble themselves. I wonder how many times I have heard a polite young gentleman beg the professor to explain this point a little more clearly. Invariably, the well-meaning professor is checked up

usually forced the play with four and five man rushes. This meant that the defence had to come back into position on the rush and the two goals that Varsity scored were nullified by an equal number from the Queen's sextet. Munroe got his second tally of the evening when he drove a hard shot in between the Varsity defencemen. Campbell retaliated half way through the period when he poked a back hand shot into the corner of the net. Five minutes later Guy scored the final goal for Queen's when he got his stick on Brydon's rebound just outside the crease. McLelland and MacPherson again combined for a counter in the last minute of play.

Varsity: Goal, Loughheed; defence, Rey, Charles; centre, McLelland; wings, MacPherson, Hendry; alternates, Devine, Kieff, Valquette, Campbell.

Queen's: Goal, Forsythe; defence, Stollery, MacDonald; centre, Wing; wings, Patterson, Munroe; alternates, Brydon, Holland, Guy and Barnabe.

Referees: J. L. Smith and W. Watts, Kingston.

## SUMMARY

## First Period

Queen's.....Wing ..... 5.05  
Queen's.....Wing (Patterson) ... 6.05  
Queen's.....Munroe ..... 17.50

## Second Period

Queen's.....Stollery (Wing) ..... 4.64  
Varsity.....McLelland (MacPherson) ..... 12.05  
Varsity.....Hendry ..... 18.55

## Third Period

Queen's.....Wing ..... 4.25  
Varsity.....Campbell ..... 10.06

loss of liberty. But that is a superficial view of the matter. Hitherto, our idea of liberty has included provision for minorities to assert their opinions. Fascism does away with all that. Unless we are willing to adopt a new conception of liberty, Fascism as it exists in Europe today stands condemned as unqualified tyranny. Britain, for instance, would never tolerate a man like Mosley seizing power by a coup d'état—although, it must be admitted, it is quite probable, that should Britain suffer an economic relapse, she would slide into a dictatorship of the right through the reactionary party."

The Varsity was only able to secure Professor L. T. Morgan between lectures, but it was long enough to catch the remark: "It is a rather ludicrous situation for a would-be Fascist to decry emotionalism, when that is the very basis of Fascism in Europe today."

## FRENCH DISORDERERS

## NOT SO SERIOUS

(Continued from Page 1)  
for much of the sensational news that has been circulating recently. He laid the riots of last week at the door of the communists about Paris, explaining "that in the red belt around Paris there are between fifty and a hundred thousand communists, mostly working men from the great automobile factories in that district. One or two of these districts are completely red and they tried to invade Paris proper but were stopped at the door, so to speak, by the government." The reason for the riots he said was the memory of the nineteen men killed in the demonstrations at this time last year.

"I don't foresee any change in the government in France," said Professor DeChamp. "The present cabinet is more or less a union cabinet. Flandin, a moderate, is making tremendous reforms in the country. It is all rot about France not feeling the depression; we have felt it very badly. But Flandin has made great changes—towards the farmers, for instance, and in his banking policy. He is trying to bring greater safety into trade and business but not as Roosevelt—he has no desire to change the value of the franc or to leave the gold standard."

## TORONTO DEBATERS IN FINALS

(Continued from Page 1)  
gone, democracy has never failed. "Great Britain," he continued, "has come out of her various crises on a sounder basis than that which she enjoyed previously."

Two courses offer themselves to modern democracies, either that of altering their present form of government to meet conditions, or of discontinuing their democracies and setting up a dictatorship. Mr. Rae disapproved of the latter course and advocated the former. Using the history of Great Britain during the last few years as an illustration, he showed the remarkable adaptability of a democracy which after a \$145,000,000 deficit in 1931 were able to choke the depression and balance their budget by means of a National government. "... adaptation is better than innovation," concluded Mr. Rae.

Mr. Arnold Smith, supporting Mr. Rae, showed the evils of choosing the other alternative—dictatorship. The lack of freedom of speech, of the press and of personality, were natural concomitants of a dictatorship. Militarism always accompanies such a coercive form of government. Labour organization is forbidden under all European dictatorships. For these and many other reasons which Mr. Smith pointed out, he stated that dictatorship has failed in such countries as Italy and Germany. The declining trade figures of Germany were used as concrete proof of this fact. "We can rid our country of its defects," he concluded, "not by a march on Ottawa but by the expression of the will of the people."

In rebuttal the Westerners said that the loss of liberty and other privileges in Italy and Germany were caused by the failure of democracy. Conditions cannot be remedied by "calling forth the ghost of laissez-faire."

Toronto orators will contest against the winner of the debate between Dalhousie University and the University of Ottawa.

Divers are after \$3,000,000 in sunken gold off Seattle. Why not just leave it there and issue currency against it?—Wichita Eagle.

Regency High Necklines are Featuring

## Pearls!

The lustrous beauty of pearls adds the crowning touch to the pretty frills and furbelows so predominant in Regency fashions.

Or if you prefer Vogue's 1935 interpretation—"over the turtle neck of your dark sweater or shirt, wear several strands of pearls." Simpson's has a splendid selection of one, two and three strand necklaces, a few of which are listed:

Single Strand Graduated Pearls, 16, 18 and 20 inches, \$1 to \$10.50  
Double Strand Graduated Pearls, 18 inches, \$6  
"Marina" 3-strand, 20 inches, \$6.50  
60-inch, Single Strand, \$1.95, \$2 and \$7.50

## STREET FLOOR

twice together as, "C-C". For the art of the Champus is to space and space and space yet again, and this art is handed down from generation unto generation. Selah.

And two days passed, and it was Monday morning and the youngest son did open up the shop of which he was now proprietor. Then did he call before him his servant Julep, son of Mint, and ordered him, saying, Take thou this scroll which I will write for thee and bear it to the Star, and tell them to run it as an advertisement of the kind which is called classified. And so he took pen and wrote—

## LEGAL

On and after this date I will not be responsible for debts (cash or passes) contracted by Jaob, in the name of this Department. Mine Host of the Babloo, please note.

And unto this he did affix his signature, as

The Muddy Yorker.

## LET'S GO PLACES

(Continued from Page 2)

unusual and very well done. One detail alone was wrong; the Perth hills had undoubtedly been filmed in Switzerland. The story was romantic and sentimental but not bad. In fact the situations were very amusing and the presentation quite entertaining, once you could ignore the star.

Next week's picture, *Matriacle* 33, being the career of a French spy during the war, has plenty of thrills and excitement and promises to make up for this week's disappointment.

D.H.C.

## FEMININE CAGERS

## OUTPLAY HAMILTON

The senior intercollegiate women basketballers made their bow on Friday night at U.T.S. gym when they defeated Hamilton Roman 37-21.

The final tally fairly indicates the relative playing exhibited by the two outfits. Neither aggregation displayed any marked plan of attack. When the ball reached the shifty Varsity forwards the floor play and ball handling were good but otherwise they were generally weak.

Kay Brown, for Varsity, played real basketball and Edie Ardagh worked right in with her, Kay's pivots and tricky play had her defence fooled from the start.

# The Varsity

## The Undergraduate Newspaper

VOL. LIV.

UNIVERSITY OF TORONTO, TUESDAY, FEBRUARY 12th, 1935

No. 84

### NEWS OF THE WORLD IN BRIEF

Rome—Reports state that 260,000 Italian troops are mobilized ready to move against Abyssinia and that Marshal Italo Balbo, at the head of an air fleet of sixty planes, has taken off from Libya for Eritrea.

Honolulu—The British cruiser, H.M. A.S. Australia, with the Duke of Gloucester aboard, responded for the second time to the S.O.S. sent out by the schooner "Seth Parker", which is in difficulties in the South Seas where the worst hurricane in years is reported to be raging.

Leicester, Eng.—R. C. Chadwick claims to have invented a powerful ray machine which will kill painlessly at a distance of a few hundred yards. The inventor refused a demonstration to the air ministry on the grounds that he did not want it to become an engine of war.

Flemington, N.J.—Defence counsel made a final plea for the life of Bruno Hauptmann yesterday, declaring that evidence against their client was "planted" and suggesting that the crime was the work of a "gang".

Kingston—N. Rogers, professor of political economy at Queen's University, was chosen last night to be the Liberal candidate in his constituency in the forthcoming federal elections.

### PROLETARIAN RULE DEEMED NECESSITY

State Used by Capitalists  
to Suppress Workers  
States Carr

### U.S.S.R. IDEAL DEMOCRACY

"The dictatorship of the proletariat is not something we want but a grim necessity," declared Mr. Sam Carr, last evening when addressing a group on Leninism, held under the auspices of the University Young Communist League.

Mr. Carr defined the state as the apparatus used by the bourgeoisie for the suppression of the working class. Its aim is to preserve itself. In direct contrast to this the chief task of the communistic state is to execute itself and to prevent the old state from establishing itself. Under the capitalistic system the state is the apparatus employed by a small minority for the exploitation of the majority. A dictatorship of the proletariat is the means used to prevent such a practice. Its purpose is to thwart this small minority in its attempts to oppress the majority.

Democracy means the rule of the people. In a capitalistic state, it only exists for the class which is crushing the workers. In U.S.S.R. the broadest democracy in the world exists. Factories which employ 600 workers elect their own deputy. Smaller ones combine to choose their representative. In Russia all the people can vote with the exception of those who are in the secret police system or who make religion their vocation. The fact that the power of recall can be exercised over any deputy who does not prove himself to be really representative of their views, is a true democratic measure.

The army in U.S.S.R. is the people's army. Regiments are under the patronage of factories. Under the judicial system cases are in the hands of three workers who are advised by someone skilled in points of law. Such a state, when it has fulfilled its mission, will wither.

### Student Passes

The death of Gilbert T. Jackson yesterday is mourned by his many friends among the graduates and undergraduates of the University. Entering Trinity College in 1929, he graduated in Arts in 1933 and was at the time of his death completing his second and final year in Theology. He supported many college activities during his six years at the University, and took part in various inter-year athletics. For two years he played in the Varsity Band, and was an interested member of the C.O.T.C., in which unit he held the rank of Sergeant. Quiet and unassuming in temperament, his good sense won him many friends both in Trinity and the whole University.

### EXCAVATORS UNCOVER PREHISTORIC CITY

Ruins Believed to Antedate  
Ur by a Thousand Years  
—Currelly

### BUILT BEFORE FLOOD

A joint archaeological expedition from the American School of Oriental Research and the Museum of the University of Pennsylvania believe that they have discovered a city 1,000 years older than the city of Ur in Mesopotamia, which until now has held the title of being the oldest in the world. This second city was discovered to be under the ruins of Ur.

Dr. Currelly, curator of the Museum here, when interviewed yesterday, gave his opinion that it is very probably true that this new city is 1,000 or even several thousand years older than Ur. Ur is believed to have been built on the silt left after the famous flood of Noah's day which drove the inhabitants from the first city. It is possible that these former inhabitants or some of them, returned after the flood and built the relatively modern city of Ur upon the site of the first city which had been filled up by the mud and silt left by the subsiding waters of the flood.

It is impossible, according to Dr. Currelly, to predict just how long it will take to complete these excavations.

### A. A. Track Meet

The University of California was chosen as host to the National College Athletic Association track meet, it was learned today. Edwards Field, the college stadium, is one of the best in the United States, and especially suited for such an event.

The meet will probably be held on June 14 and 15 and will feature some of the best track men in the country.

### DANCE SPONSORED BY PANHELLENIC

At the annual formal banquet and dance of the Panhellenic Association of the University of Toronto, held last evening at Eaton's College Street Auditorium, Miss Edith H. Anderson, president of Alpha Omicron Pi, spoke briefly on the challenge of fraternities on the campus.

Mrs. H. J. Cody replied to the toast to the University, proposed by Margaret Patterson.

Miss Marion Ferguson, Dean of Women in University College, presented the Panhellenic Cup to Kappa Alpha Theta fraternity for maintaining the highest average.

After enjoying a short play, the members of the association and their escorts danced to the music of Karl Mueller and his orchestra.

### VISUAL EDUCATION WIDELY USED HERE STATES DEAN HOWE

Says Observational Classes  
Indispensable in Forestry  
and Mining

### CITES VALUE OF MODELS

Little Progress Has Been Made  
in Applying These Methods  
in Arts

The University of Toronto stands second to none in the use of visual education, according to a survey of the Departments of Forestry and Mining made by *The Varsity* yesterday. After an urgent plea on its behalf by Dr. William Mayo, famous physician, before the Board of Regents of the University of Minnesota (of which he is a member), a check-up was made to ascertain the position of the University of Toronto in this respect.

On being approached, Dean Howe of Forestry, stated that "though the depression has seriously curtailed our funds, lantern slides, motion pictures, stereographs, and models still play an important part in our course. We would greatly like to extend our services on the field; each year we send classes to  
Continued on Page 4)

### INTERFACULTY MEET WON BY TRINITY

Individual Champion Title Goes  
to C. R. Kirk of Trinity  
334 Points

### S.P.S. AND MEDS COMPETE

Trinity College won the interfaculty gymnastic championship at the annual interfaculty meet held in the upper gym before a large crowd last night. The boys on all three teams put on a brilliant exhibition of movements on the horizontal bar, parallel bars, horse and mats. The intercollegiate team will be chosen from the winners of last night's meet, which speaks well for Varsity's chances to retain the intercollegiate championship.

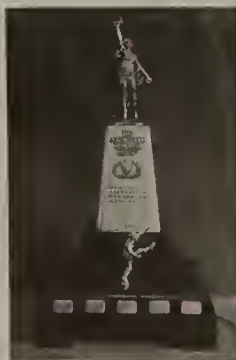

The Trinity team, under the leadership of Charlie Kirk, the individual champion of the meet, were more evenly balanced and showed more finish than the teams from School and Meds, the last mentioned of which won the  
(Continued on Page 3)

### MACAULAY TO DISCUSS LAW AS VOCATION

Will Speak of Virtues and  
Problems that Must Be  
Overcome

Hon. L. Macaulay will address a group in Vocational Guidance on Thursday, Feb. 14 on Law. The groups are open to all undergraduate men in Victoria College, and the purpose of the meetings is to help students decide upon a vocation. At each group meeting, a graduate of the college prominent in his vocation, will meet the students, and discuss with them the merits and problems to be overcome in his particular vocation.

The Vocational Guidance Personal Service will be conducted by Dr. K. S. Bernhardt of the Psychology Department in the senior common room on Wednesday afternoons between 2 and 5.30 p.m. Dr. Bernhardt will receive for consultation by appointment, any students having personal problems which they wish cleared up.

JOHNNY COPP MEMORIAL  
TROPHY

Which is to be awarded annually to the member of the University of Toronto football team who is "adjudged most worthy".

### THEATRE RESUMED AFTER TWO YEARS

Italian-Spanish Club Gives  
Novelty Presentation  
Again

### EFFECTIVE INTERPRETATION

Tonight the Italian-Spanish Club is having its annual Theatre Night at the Women's Union. For several weeks now the casts of the three comedies have been practicing, and each play promises to be an effective interpretation of the countries they represent.

Professor Goggio, Professor Cano, and Miss Elliott of the Italian-Spanish Department have proved very valuable in helping and advising the players, while Miss French, a former president of the club, has proven invaluable in the longer Spanish piece.

The costumes are very interesting and some of them have been obtained at considerable trouble. The novelty of the presentation should prove a great attraction in the opinion of the executive. This feature is being revived after a hiatus of a couple of years because formerly considerable overwork was involved, but now by splitting it up the major part of the difficulty has been overcome.

### DR. SAUL DUSHMAN WILL LECTURE HERE

Series of Lectures Arranged  
by Department of  
Physics

The Department of Physics has arranged for a series of lectures to be given by Dr. Saul Dushman, assistant director of research at the General Electric Company of Schenectady, N.Y. Dr. Dushman is also lecturing on Saturday, Feb. 16 at 8.15 p.m. to the Royal Canadian Institute. His series of lectures at the University will extend from Wed., Feb. 13 till Sat., Feb. 16. The subject of his first lecture, Van der Waals' Forces, deals with types of intermolecular forces and wave mechanics interpretation, by London, Slater and others, and will be delivered at 5 p.m., Feb. 13, in Room 43 of the Physics Building.

His second lecture on Thursday, Feb. 14 at 4.15 p.m., in Room 43 of the Physics Building, which is to take the place of the ordinary seminar, will be a discussion of activation, energy in chemical kinetics and phenomena of diffusion fluidity, evaporation and surface tension in liquids.

His Friday lecture at 5 p.m. in Room  
(Continued on Page 3)

### Blue Cagers Are Victorious Over Broadview in Play-off

### Senate Awards New Degrees

At the regular meeting of the Senate of the University, held on Friday evening, February 8th, the following were admitted to degrees:

Doctor of Philosophy: H. E. Conrad, A.B. (Brown), M.A. (Clark); H. W. Hilborn, M.A.

Master of Arts: H. W. Lowry, Miss K. S. Patterson, J. A. Seabrook, Miss H. M. Woodcock.

Bachelor of Applied Science: H. K. Armstrong, C. W. Dolbear, J. M. E. Drummond, S. Tenenbaum, J. A. Upper, A. S. Wright.

The Robert Bruce Bursary was awarded to I. J. W. MacHattie, enrolled in the fourth year of the honour Chemistry course in University College.

Varsity Rallied in Second  
Half to Cut Visitors'  
Lead

### FOULS NUMEROUS

Blues Have Big Advantage but  
Championship Still  
Doubtful

By Clarke Hood

Varsity juniors won the first game of the "Y" League basketball finals from Broadview last night in the Hart House gym, by a score of 26-25. The scene now shifts to the Broadview Y for the next game and a third one if necessary. On the play shown last night anything is liable to happen, and while Varsity have a big advantage yet they will have to step to win the championship. Last night's game was out to a very classy exhibition of the winter pastime but was brilliant in spots. In the first half particularly, play was very ragged. Both teams missed many opportunities to net the ball and fouls were numerous. Varsity were guilty many times of the latter, having twenty-one personal and four technical fouls chalked against them. Referee Millar was very strict in calling them, which accounts for the huge number recorded.

Dorsey started Varsity in the right direction by caging a long shot. This type of scoring was Dorsey's specialty and he made several during the evening. Baskets by Shack and Mersson put Broadview in the lead. The Blue cagers put on a vigorous offensive for a spell and baskets by Dorsey, Cooper and Krakauer gave the students a nice lead. This melted before the counter-attack of the east-enders, in which Maxwell, Chessum and Turstead played an important part. The score at the first half was 15-9 for the visitors.  
(Continued on Page 3)

### U.C. PARLIAMENT CLUB WILL DEBATE AGAIN

That fiery Ottawa Liberal, Mr. Tom Keenan, will uphold the motion at next Thursday's meeting of the U.C. Parliamentary Club. He will be opposed by the sly Fort William Fox, Mr. Bernard Shaffer. It is rumored that Mr. Shaffer will sing "Louie the Roue". It is whispered also that the doors will be tyed so that admittance will be confined to males.

The subject of debate will be, "Resolved that Employment should be confined to males".

### MEMORIES

FEBRUARY 12

1923—A spectacular fire in the Pharmacology Laboratory in the Medical Building caused serious damage and the loss of a hundred and fifty white rats being kept for experimental purposes.

1924—A measure was sponsored by T. L. Church in parliament to introduce reduced railway fares for students and sports organizations for excursions to attend sports events.

1929—An unique presentation was made to the Athletic Association of the U. of T. in the form of the sear belt, bearing Royal Arms, belonging to Tom Sayers, the famous English boxer and heavy-weight champion in 1859.

1932—*The Varsity* published the first of a series of articles upon the Geneva Disarmament Conference, edited direct from Geneva by James F. Green of Yale University, who was sent to Geneva by the Intercollegiate Disarmament Council.

## Youth Must Be Encouraged

What has happened to the sage counsels of our elders? Why can we no longer look to them for guidance in our chosen work? In the past, the youth who cherished ambitions brought his brave attempts to some older person, experienced in his field, in the confident assurance that here he would receive helpful advice and sane guidance. By learning of his shortcomings and how to overcome them, by testing his abilities, he could develop his powers.

But what is the case now? The older experts are spreading a new idea: youth must be encouraged! The "tender blossom" must not be exposed to the "chill blast" of honest criticism or, forsooth, it will perish! Better to foster a maudlin delusion, to allow a crop of remediable faults to spring up, and run riot, than to give one word of practical, constructive criticism. This attitude of "tender nurturing" is evident in the press's treatment of all college activities.

In the field of literary criticism this tendency is also evident. So long as these "experts" are not expected to buy the manuscripts in question, their comments will remain on a pleasant, "Well, this is admirable" plane. The whole vicious system of platitudinous comment is crystallized in an incident which took place several years ago. A group of young students, reading their poetic effusions before a meeting of eminent Canadian writers, received honest and helpful criticism from a single author. The rest, almost in a chorus, murmured, "You young people are simply splendid!"

Let it not be supposed for a moment that we advocate the harsh censure which blights all youthful inspiration and withers all hope. We agree with the gentle but unhelpful "encouragers" in the essence of their plan: we wish to see youth assisted in developing its powers. It is imperative that youth be allowed to express itself. But sane encouragement is necessary. What these people do not realize is that this formative period of youthful attempts is one in which defects and errors may be most easily destroyed without killing the fundamental value of these attempts.

We look to them for aid: they can foster a broader, finer self-expression in youth, by pointing out the mistakes we can correct. We need the wisdom they have acquired through experience, to teach us to evaluate our work aright. We ask their honest criticism in the firm belief that undue praise is as harmful as unjust censure.

## Women and "The Varsity"

The history of the slow but sure emancipation of women down through the ages is nowhere better exemplified than in the history of women on *The Varsity* staff. The most amazing fact revealed by the dusty old files of our newspaper is the rapidity with which women took their places in the daily life of the University.

In 1880 when *The Varsity* first made its appearance women were just beginning to demand the right to attend lectures and the editorial columns of that year are full of arguments in their favour. By 1892 women had evidently come to stay but not with the unanimous approbation of the men, as a letter signed "Old Roman" in *The Varsity* in February testifies. An irate co-ed rose up to defend her sex and women had entered upon their journalistic career.

The next term saw a woman — Miss Evelyn

Durand — included among the associate editors of the then weekly publication. The activities of women's organizations, in particular the Women's Literary Society, dating from 1891, were given more or less publicity in *The Varsity* until in 1897 a new department was inaugurated headed "The College Girl". This department was a combined editorial and social column under the direction of a woman editor.

The war, which is generally blamed for projecting women into all spheres of life, had its effect on *The Varsity* too, and in November, 1914, a woman was for the first time entrusted with the supervision of an issue. History does not say what happened but there is no record of a similar occurrence for nine years, by which time the paper had become a daily and was printed at night. Women night editors appear at ever more frequent intervals until their present schedule of taking out two issues a week was put into practice.

The last issue of the spring term of 1918 carries an important announcement (the war again, no doubt!). "The greatest feature of this year," so runs the editorial, "was the granting of equal standing to the women students of the University on *The Varsity* staff. Every facility has been accorded these lady members of the staff; and it is not beyond the reach of the imagination to say that the work which they have begun this year will be extended in years to come." In the seventeen years since this was written women's work has undoubtedly been extended and perhaps we may even hope for a still greater extension in the future.

## Cultural vs. Practical Education

Several weeks ago there was an editorial in *The Varsity* advocating that training in the collegiates should lead directly to the practical courses offered at the University. Although there was no public comment or discussion in *The Varsity*, there was much disagreement in private circles as to just what the function of a university is or should be. This point in particular was raised: Is the University of Toronto based on the European idea of a university as a higher cultural centre; or is it following the U.S.A. trend of popularizing the university into a more specialized organ for practical training.

It is superfluous to discuss what this University should be. It can, however, be casually taken for granted that the University of Toronto is hanging on to a great many of its English traditions, while at the same time keeping up with the needs of today by enlarging the number of practical courses. *The McGill Daily* in its editorial on "Culture and the Filthy Lucre", also takes up the problem:

In these days of depression more than ever the relation between the path of culture and the money bags becomes a pressing problem. Culture by its very meaning denotes something far far distant from the everyday sordidness of going out into the cold, and rather inhospitable world and grubbing along to eke out an existence. How therefore are we going to combine culture in a university curriculum in such a manner that at the same time the student will be prepared to look out for himself financially in later life.

Away back in 1921, the following and rather apt editorial appeared in our pages: . . . Briefly enunciated the question is this: whether the university, which has hitherto been regarded as a centre of higher learning and a dispenser of culture, is to continue in this capacity; or is it to be made into a diverting toy for the man in the street, which appears to be the present-day tendency.

Besides the illusive glamour of novelty the second alternative gains adherents by other and more compelling means. For so many universities are to a great extent dependent on the generosity of the citizen body for their very existence, that they must of necessity be in some degree subservient to the whims and fancies of the many, who afford them this indispensable support. This is the tragedy of the position of the modern university, which McGill is compelled to share along with the rest.

Apparently no one considers the possibility of pursuing a middle course between the two alternatives. The old-fashioned type of university is being violently, though none the less inevitably cast into the discard, while its place is being taken by the so-called "popular" university, where thousands upon thousands of the youth of the nation are gathered promiscuously together. . . . The entrance requirements are lowered still further, and the dry-rot of decentralization eats deeper into the heart of the university, whose individuality is swamped by a clamouring wave of humanity.

We may thank our Fates that McGill has not yet definitely cast in her lot with the ultra-modernists. But she has come to the parting of the ways. If for financial reasons she must in some measure be subject to dictation from the civic world outside the gates let it at least be on a "give and take" basis. The merchant would justly resent interference with the management of his counting-house, and surely the university has a right to the guidance of its own internal policy.

The question that is raised is a serious one. But a less snobbish point of view, treating present conditions and trends with some degree of sympathy, would have provided a better background for the real objections against "popularization"—objections that, from the manner of presentation, can only be overlooked as superficial.

## ART, MUSIC & DRAMA

### Art Gallery

The Undergraduate Exhibition is exceptionally fine this year. The amateur artists of the University deserve a great deal of credit. The outstanding section of the show is the watercolours by the School men. Most of the work was shown recently at the architectural exhibition at the Art Gallery. These watercolours are of exceptional merit and are well worth seeing. There are fewer "pictures" this year and many fine examples of art work. A new feature are the products of the Craft Room of Hart House which amply justify its existence. Two pieces of modelling by Jarvis and Kemp, the latter a first effort, are outstanding. The woodcuts are another feature from this new centre of undergrad art and they are a credit to their creators. It is to be hoped that this evidence of the progress of the Craft Room will produce an increased enthusiasm for next year.

The Sketch Club is not as fully represented this time as in the last show, but the calibre of the work is considerably improved. The work of J. A. Kemp in the commercial field shows the quality of the art work turned out by some of our undergraduates. The exhibition should inspire many more of the student body to take an interest in this valuable campus activity.

W.L.S.

### Royal Alexandra

Dennis King appeared before a Toronto audience last night for the first time in fourteen years. The play, *Petticoat Fever*, a new comedy by Mark Reed, was well received by the audience.

The story is that of the isolated wireless operator who after two years of absence from any organized society is brought into contact with a beautiful woman. The woman happened to be engaged and was on her way to be.

(Continued on Page 4)

Toronto radio stars have organized a hockey league. At that, Varsity Seniors might be good on the air.

C-C

How these politicians like to drag up long forgotten controversies. Among his plans for better government, Jimmy Simpson plans to call out the Clergy Reserves.

C-C

Writing in the *Canadian Forum*, Professor Underhill remarks that Premier Bennett's right-about-face reveals Tim Buck as Canada's most dangerous counter-revolutionary. U.C. Parliament please note.

C-C

The Toronto papers are now divided on a question of spelling,—Meisner or Miesner? Kingston papers will spell it 57429.

C-C

The old customs linger on, and while the Senior Promenade at Victoria is to be done away with this year, Trinity still holds its Conversation. When your daughter asks, "Mother, what was an At-Home?", be nonchalant: light a Mazda.

C-C

Mitch Hepburn won't go to Government House for dinner or to the Parliament Buildings for tea. When he starts bringing his own lunch the boys will be glad to see him in the Tuck Shop.

C-C

The new U.C. Music Club will present *Good News* with two months' rehearsal. The U. of T. Faculty already are making plans for their monster show. *Bad News*, to be presented from May 1 to May 23rd. The play will then go on the road to tour Ontario, the last two weeks in June.

C-C

Meanwhile, watch the hordes go by. To the Library.

—Rip Rapperty.

## Correspondence

Correspondents are reminded that all letters must be accompanied by signatures, and they are requested to limit themselves to approximately 300 words.

### LIBERTY VS FASCISM

To the Editor of *The Varsity*.

Dear Sir:

Editorially, you ask the "socialist" to show you the difference, if any, between socialism and fascism. To my mind the fundamental distinction lies, with certain reservations, in the personnel, and in the aims and ideals of the autocracy, to which you appear to attach no importance whatever. A fascist autocracy is imbued with the aims and illusions of competitive business. The ultimate aim of fascism is the prosperity of business within the country, because under capitalism production is not carried on at all, except by the striving for profits of compelling business men. And profits, upon which production depends, are the spread between costs and selling price. The way to cut costs is to reduce wages, which is quite possible as long as unemployment exists. Any hardships that result, the fascist contends, lead to the survival of the fittest, and a nobler manhood. The way to raise prices is to restrict output; or possibly the reduced output is the result of the price rise. But in any event it can scarcely be expected that the common man will exhibit irrepressible enthusiasm over either of these methods of curtailing his livelihood. To sum up the argument, "Profits is a business proposition, livelihood is not".

This is why fascist governments are determined to stamp out trade unions; and this is why we have economic nationalism and industrial consolidation—so that the business men will be able to get something for nothing, at the cost of the common man at home and abroad, and so that at least some part of the production which is technically possible may be carried on. To such a government the common man is an expense, and nothing more.

An autocracy controlled by the proletariat or by technicians, however, would have quite different immediate aims. Such a government would not be bound by the exigencies of the market, by the chance of profit, but would direct production with a view to the highest possible standard of living (in the long run) for the common man.

The ultimate aims of a dictatorship (Continued on Page 4)

## The PUREST FORM...

"The purest form in which tobacco can be smoked."  
Lancet

● Cigarette making is the work of a specialist. There is no short cut, no easy way of getting experience. Traditional skill in selecting and blending choice tobaccos is required, and it must be augmented by the most modern, scientific manufacturing methods.

Each is a notable contributor to Sweet Caporal quality; nothing you eat or drink is prepared or protected more carefully than one Sweet Caporal Cigarette. This is your guarantee of their mildness and their appealing flavour.

## THE SPORTSWOMAN

By M. A. F.

At 8 p.m. this evening the U.C. mermaids will gather at the river (or the pool, to be more exact) for their faculty meet. These events are a complete flop unless there is a good turn-out—even if you are no stellar swimmer you will be doing your part by getting out there and at least swelling the numbers. U.C. has several people who are real stars, but two or three girls can not make a whole team. So remember, 8 p.m. at U.T.S. U.C. is keen to retain the swimming title.

Here is a further notice for U.C. women. Your badminton tournament is going on at the present time. The draw list is posted in the locker room. You are requested to indicate the result of all matches promptly and to get your rounds played off with much speed. The whole event must be completed by the week-end.

Vic I secured its position in the hockey finals when it knocked the second Scarlet and Gold team out of the running with a 3-0 tally. Gladys Wagg was responsible for the three goals scored by her outfit and turned in a smart game. Jean Gordon and Molly Slater as usual were outstanding. For Vic II Norah Noble, Sarah Merrick, and Betty Van Every were especially good. The game was distinctly closer than the score would indicate but the girls all seemed quite unaccustomed to the large expanse of ice which the Arena has to offer.

The St. Hildens ran off a very successful swimming meet last night. Six brave Trinity men managed to get out there and support their year-mates—or something. And a goodly number of Saints were on the spot. The swimmers gave them a good show. Some definite talent was unearthed in the first year—Jock Whiteside and Rosemary Greening both placed in several events. Jock will be a valuable addition to the Blue and Grey squad in speed events. Enid Palmer came off with high honours, 24 points, with Vic Ord second. The second year won the event and along with the first year deserve a big hand for the large number of enthusiasts they had entered.

### ST. MIKE'S VICTORIOUS

The Forestry pitching offered no difficulties to the St. Mike's baseball team and they knocked the old apple all over the gym to win by a 26-2 score in five innings, in a scheduled interfaculty affair, played in Hart House yesterday afternoon.

St. Mike's 26: Fena, Lynch, Scandiffio, Connolly, O'Sullivan, Cozzi, Bedford, Forristal, Wiscock, Morling.

Forestry 2: Hick, Hoggie, Johnston, Garrett, Greer, Crossley, McConnell. Umpires: Carveth, Barnes.

### Sport Notices

#### Volleyball—

Game tonight at Hart House at 7.30.

#### Sr. U.C. Baseball—

Game today at 4 p.m. Everybody out.

#### Sr. Vic Basketball—

There will be an important practice on Wednesday at Hart House from 1-2. Coach requests and insists that everyone be out.

#### Rugby Club—

Nominations for the executive of the University Rugby Club should be handed in at the Athletic Office, Hart House, immediately. The annual meeting of the club will be held in the Debates Room, at Hart House, on Friday, February 15th, at 5 o'clock.

## ST. MIKE'S DEFEAT JUNIOR U.C. SQUAD IN CLOSE CONTEST

Loose Defence Responsible for Victory of St. Mike's

### INTERFACULTY BASKETBALL

U. C. Rally in Second Half Almost Placed Victory on Their Side

Capitalizing on every opportunity offered by the red-trunked team's loose defensive work, St. Mike's outpointed Junior U.C. 34-22 in an interfaculty basketball game played in the upper gym yesterday afternoon.

The disorganized U.C. squad were easy prey for the St. Mike's snipers in the first period allowing them several unmolested shots from under the basket and the boys from across the park seldom missed, running in nine baskets without difficulty. Loose passing and poor shooting held U.C. down to three counters.

But the second half was a different story. Jr. U.C. began to click offensively and their defence tightened up, resulting in a reversal of the play. St. Mike's were held off by the U.C. guards and couldn't stop the forwards' scoring, so that at one point, U.C. were only six points down. But here, with victory almost within grasp, U.C. relaxed on the defence and the St. Mike's sharpshooters ran in several baskets to make the second half even.

McGivern of St. Mike's was high scorer with seven field counters, and looked like the best man on the team. Nally and Blum with ten and seven points respectively, turned in excellent performances. Applebaum, Beckett and Huminick were the pick of the U.C. squad.

St. Mike's 34: Blum 7, Nally 10, McGivern 14, Brigger, Doocy 3, Harris, Cerame, Dailey, Barone, Rizer, Hoffman.

Jr. U.C. 22: Applebaum 8, Holt 2, R. Beatty, Beckett 8, C. Beatty, Yankoo, Huminick 4.

Referee: Crockower.

### VIC I PUCKSTERS DEFEAT VIC II GIRLS

Freshmen Overcome Opposition After Stiff Battle to Score 3 to 0 Win

Yesterday afternoon at the Varsity Arena Vic I showed themselves to be superior to Vic II by scoring 3 to 0 in a hard fought encounter. Gladys Wagg started by scoring two points in the first period. It looked as though Vic II would be able to reduce this lead in the second period, but in spite of the strenuous efforts of Norah Noble and Sarah Merrick they were not able to score. However, they held back their opponents until the first few minutes of the final period when Gladys Wagg again pushed the puck in for a decisive win. The splendid defence work of Mollie Slater and Jean Gordon certainly reduced the 2nd team's chance of scoring. Better combination and passing on the part of the 1st team's forwards would probably have increased their score.

Vic I: Goal, Maisie Cowan; defence, Jean Gordon, Mollie Slater, Jean Blundell; forwards, Marion Clements, Jennie Batho, Gladys Wagg; subs, Ruth Leavens, Muriel Eastwood.

Vic II: Goal, Kay Coleman; defence, Norah Noble, Grace Workman; forwards, Mary Pratt, M. Turner, Eleanor Hart; subs, Sarah Merrick, Betty Van Every.

Igor Sikorsky, great authority on aircraft designing, was inspired in the lifting possibilities of air while watching his father's shirts flapping on the line.

## SPEAKING OF SPORT

By B. J. McGuire

Three weeks hence the intercollegiate sport calendar will have passed into history for the current season. At home Varsity will meet just four teams. The hockey squad will be hosts to the goat-getting Tricolour team on Feb. 23rd, while on the same date the gym team will be hosts to the McGill men on the flying trapeze. The McGill basketball team will play to a Toronto audience here this week and on March 2 the Western Mustangs will feature the final act of the sport parade.

There still remain several road trips, but the hockey team will be through this week-end and the B. W. and F. men will also complete their official season with the assault at Kingston this Friday and Saturday. The following week the basketball team will meet Montreal and Queen's in a tour which will complete their road games, while the same week-end the Blue swimmers will be in action at Montreal. This completes the summary of what will be doing in an intercollegiate way between now and when the last togs are tucked away.

In the meantime the boxers and their cohorts will concentrate on winning the B. W. and F. crown again in the annual meet, held this week-end in the Limestone City. The Blue battlers are much stronger this season than last, while they have the additional advantage of having had considerable practice. The boxers are particularly improved over the team of last season, which is fortunate for the boxers. A wrestler can lose his bout with a minimum of unpleasantness, but it is always a painful process for the boxers to finish second.

The Blue hockey team, while they will be making every effort to win in Montreal, have nothing to gain should they get down in front. The system appears at present to be inadequate, for while the series is just half over looking at it from the number of games, it is entirely over as far as the title goes. This is, indeed, unlike the mill run of hockey series where the playoff system allows for the elimination of one team in five and the rest play off for the title. The football idea proved popular in the college circles and there seems to be no good reason why it should not work just as well with the hockey team, except, of course, that the customers would be neither so plentiful, nor so generous.

The highly unsatisfactory nature of the close of the current hockey season starts speculation as to what will be the procedure adopted next year. It is understood that the Blue team is playing its last season in the O.H.A. and are leaning toward a more extensive intercollegiate series. Whether this will include a schedule with the Eastern American colleges, has not yet been determined, but it is highly probable. There is the possibility of a league forming out Michigan way, with another down East and the two playing off. This looks like the logical procedure, at some time in the future, and the concern at present is just how far in the future this is contained.

### SECOND YEAR WINS AT SWIMMING MEET

The second year took the honours at the St. Hilda's inter-year swimming meet with a 41 point total. The fourth year came in second with a tally of 25; 24 of these points were won by Enid Palmer, to whom go the individual honours for the event. Vi Ord ranked second with Jock Whiteside rating third position. The first and second years were well ahead as far as number of entries is concerned.

Plunge: (1) Rosemary Greening (1); (2) Amy Britton (II); (3) Enid Palmer (IV).

Free Style: (1) J. Whiteside (I); (2) Vi Ord (II); (3) K. Grubbe (III).

Sir James H. Jeans, British astronomer, calculates that the sun is diminishing at approximately 250,000,000 tons a minute.

### SQUASH STANDINGS

At the end of the first week of play the standing in the interfaculty squash tournament is as follows.

Graduates 6, U.C. 4, Trinity 4, S.P.S. 3, Dentistry 3, Victoria 2, Forestry 2, Medicine 0.

The following games are scheduled for this week:

Feb. 11—Grads vs U.C.  
12—Meds vs Forestry  
13—Dents vs Trinity  
14—S.P.S. vs Victoria.

### INTERFACULTY MEET WON BY TRINITY

(Continued from Page 1)

championship last year.

Buck of Trinity, whose work was a feature of each event, won the highest points in the horizontal bar event, when he gave a nearly perfect performance in very beautiful style. McDonald of Meds, the runner-up for the individual title, gave an excellent exhibition on the horse to win that event. Kirk, last year's intercollegiate champion, rang up victories in the parallel bar exhibition and matwork with characteristic performances of that super-gymnast. The standing in the race for the individual championship was as follows:

1. Kirk, Trinity, 334 points; 2. McDonald, Meds, 316 points; 3. Buck, Trinity, 314 points.

The standing of the teams: 1. Trinity, 888 points; 2. School of Science, 858 points; 3. Meds, 830 points.

Trinity: C. R. Kirk, F. Buck, G. Maclochin.

Meds: D. Spence, A. Crossland, E. Macdonald.

S.P.S.: M. Sherwood, A. Lewis, G. Beard, F. Brunk.

Judges: H. Greenwood and Chas. Swygard.

### BLUE CAGERS DEFEAT BROADVIEW IN FINAL

(Continued from Page 1)

The second half was very much faster and the teams turned it on with a vengeance. Varsity showed plenty of fight to cut down the visitors' lead. The Blues spotted the Y another basket, with Turnstead getting it. Varsity then proceeded to go to work and scored nine points without a reply. Dorsey scored two more of his long shots and Molson displayed some smart dribbling prior to netting the ball. Singles by Hogg, Molson, Krakauer and McGregor were the points which gave Varsity the lead once more. From then on the lead continually changed hands until Krakauer scored two quick ones to give Varsity a stranglehold on the lead. Broadview fought desperately in the last few minutes and the Blues were hard pressed to keep them at bay. A single by Turnstead and a basket by Chessum got back three of the neces-

sary four to tie it up, but that was all the visitors could do.

For Varsity Dorsey, McGregor and Krakauer were best with honourable mention going to Cooper, Hogg and Molson. Chessum, Maxwell and Turnstead showed up best for Broadview.

Varsity 26: Dorsey 8, Molson 3, McGregor 1, Hogg 3, Krakauer 7, Harlock, Cooper 4, Green, Roberts and Denne.

Broadview 25: Maxwell 5, Shack 4, Mersson 2, Chessum 2, Levantes, Jupp, McDowell 1, Black, Turnstead 5, and Carphan.

### DR. SAUL DUSHMAN

#### WILL LECTURE HERE

(Continued from Page 1)

43 will be on the subject of Surface Tension and Cohesion Phenomena. In this lecture Dr. Dushman will consider the formation of molecular films on liquids, their behaviour and interpretations of observations in terms of cohesive forces.

In his lecture on Saturday to the Royal Canadian Institute at Convocation Hall, Dr. Dushman will deal with the Production of Light, and will include topics of universal interest such as phenomena observed with ultra-violet and infra-red light, and he will give experimental demonstrations of some of the physical and chemical methods of producing these types of light.

**UNIVERSITY COLLEGE "T" Holders and "U.C." Holders**

Pictures will be taken at 1 p.m. to-day in front of the Main Door of U.C.

Smoke a FRESH cigarette

### APATHY IS APPARENT IN WORLD AFFAIRS

(Continued from Page 1)

I. M. Hilliard, president of the Men's Cabinet of the S.C.M., was of the opinion that the editorial writer was mistaken when he claimed that these movements should come down to earth.

"The ideal and the real are not so far separated as we might think," he said. "Students should spend time trying to understand the problems of society and to prepare themselves for practical work. I think that students would devote the time if they had it. The only reason for the apparent apathy of the students is their lack of time."

"There have been enough manifestations of interest in the various movements that have been organized in the past to justify us in predicting a really lively student movement in the future," stated Angus Blair, secretary of the Liberal Club.

"It is true that they are rather uninterested now but soon they will realize the significance of the things which are going to be of personal importance in the immediate future."

## Coming Events

### TUESDAY, FEBRUARY 12

5 p.m.—Open meeting, Medical Society, Anatomy Building. Speaker, Dr. John S. Lundy, Mayo Clinic.

5 p.m.—Mackenzie Waters will speak on "The Development of the House", Sketch Room.

5 p.m.—Miss Jessie McEwen, of Jonathan Cope, Ltd., will speak on "Book Reviewing", at a meeting of the Women's Press Club, at the Women's Union.

8.30 p.m.—Italian-Spanish Club Theatre Evening, Women's Union Theatre. Three good comedies.

1.20—Vic S.C.M. Second topic in the series "Significance of Religion" will be taken by Rev. Frank Fidler at Wymilwood. Mr. Fidler will speak on "What can I believe about God?"

### WEDNESDAY, FEBRUARY 13

The Biological Club, in their regular meeting at Wymilwood, presents Dr. L. C. Coleman, who will speak on "Rural Life in India".

5 p.m.—Open meeting, Medical Society, Anatomy Building. Speaker, Dr. John S. Lundy, Mayo Clinic.

5 p.m.—The Political Science Graduate Group meets at the Graduate Union. Miss Irma Patterson will speak on the economies of retail merchandising.

8 p.m.—Meeting of the Student branch, Friends of the Soviet Union. Beaux Arts Hall, 8 Robert St. Speaker, Mr. A. D. Schatz, on "Fascism".

8 p.m.—Women's Union. Joint meeting of the W.U.A. and the Literary and Athletic Society of University College. Skits and dancing. All U.C. men and women invited.

7.30 to 8.30—Last lecture in the S.C.M. series on the Art of Living, in Cody House common room. Gertrude Rutherford will speak on "After College—What?"

4.15—U.C. Players' Guild presents the last act of Candida, by George Bernard Shaw.

### THURSDAY, FEBRUARY 14

5 p.m.—Open meeting, Medical Society, Anatomy Building. Speaker, Dr. John S. Lundy, Mayo Clinic.

8.30—Open meeting of the Toronto Branch of the Student League of Canada at the Women's Union. Dr. E. Burnham Wyllie will speak on "Social Credit".

5 p.m.—Open meeting, Medical Society, Anatomy Building. Speaker, Dr. John S. Lundy, Mayo Clinic.

Victoria College At-Home in Hart House.

4 p.m.—Political Science Graduate Group meets at the Graduate Union. Miss Irma Patterson will speak on the economies of retail merchandising.

### SATURDAY, FEBRUARY 16

4.30—V.C.U. women's tea dance, at Wymilwood.

### SUNDAY, FEBRUARY 17

4.30—World Student Christian Federation Day of Prayer, S.C.M. International Tea. Speaker: Miss Gertrude Rutherford. 79 St. George St. Tea will be served.

### TUESDAY, FEBRUARY 19

5.00—Victoria College Dramatic Society presents "A Man Should Have a Wife", by Lisa Rembova in Hart House Theatre. Admission free.

### SATURDAY, FEBRUARY 23

S.C.M. week-end conference, "Missions and the Modern Student".

### SUNDAY, FEBRUARY 24

S.C.M. week-end conference, "Missions and the Modern Student".

### VISUAL EDUCATION WIDELY USED HERE

(Continued from Page 1)

government nurseries and paper and saw-mills to observe operations from start to finish.

Laboratory work, of course, is indispensable in science—education and practice. Members of the Faculty of Mining Engineering regretted that no provision was made for instructing the students at mines, although mining students must work a certain length of time in mines to obtain their degree. Arts courses supply a fertile field for experiments in visual education, but little progress has been made.

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at either the men's office in Hart House, or at the women's office in University College. No notices will be taken over the telephone, after 6 p.m. notices must be taken to the Press Building. Notices for the Bulletin Board are limited to ONE insertion only.

### T.I.C.C.U.

Arthur Gowan will address the T.I.C.C.U. today, Tuesday, at 5.10 p.m. at Wymilwood. All welcome.

### LIFE SAVING CLASSES

Members of the Life Saving classes are reminded of the lecture on "Resuscitation", to be given by Dr. Porter in the Debates Room, tomorrow, Wednesday, at 5 o'clock. The attendance will be taken to apply on Physical Training credits.

### M. AND P. SOCIETY AT-HOME

Monday, February 18. Dinner 7.30-8. Dancing 9-1. Please get in touch with your year representative and obtain your ticket early. A bridge tournament will be held for those of the staff who would like to participate.

### HART HOUSE THEATRE

The Victoria College Dramatic Society will present a one-act play by Lisa Rembova, entitled *A Man Should Have a Wife*, in Hart House Theatre one week today at five o'clock in the afternoon. All students are invited to attend. No charge.

### VARSITY BAND

Practice tonight at 5 p.m. as usual. C.O.T.C. parade tomorrow night at 7 p.m. Very important practice next Tuesday evening in S.P.S. at 7.30 p.m. This is absolutely necessary if the concert is to be a success. So make arrangements now to be free on that evening. Tuesday, Feb. 19th, from 7.30-9 p.m.

### VICTORIA MEN

Don't forget the noon hour group today in Wymilwood at 1.20 p.m. Rev. Frank Fidler, B.Sc. will speak on "What Can I Believe About God?"

### CORRESPONDENCE

(Continued from Page 2)

of the common man can not be appreciated except by clearly differentiating economic liberty from political liberty. It is true, with certain reservations, that we have political liberty at the present time. In theory, also, we have economic liberty. The labourer is free to serve whatever employer will offer the highest wage. To state this is to see its absurdity. The labourer is indeed fortunate if he has the opportunity of working for even one employer at the employer's terms. It is said that since the compulsion which drives him to accept the one employment offered is neither assault and battery nor breach of contract, it receives no legal recognition. But it is compulsion, for all that. And the workman has a more real interest in the choice of his foreman than in the choice, from the two who offer their services, of his Prime Minister.

When the standard of living had been sufficiently raised, a socialist government would endeavour to leave individuals free, with intelligent guidance, to choose their own occupations, not with a view to individual self-aggrandisement, but with a view to maximum productivity from the social point of view.

Hiram Jolley, III U.C.

### DOES NOT LIKE FASCISM

To the Editor of *The Varsity*.

Dear Sir:  
I do not know whether the editorial in last Friday's *Varsity*, entitled "What is Fascism?", was written to provoke reply: I presume it was. I cannot credit for a moment that the suggestions contained in it were ever entertained for a moment by any thinking individual. I cannot but feel that even as an attempt to rouse comment, it was a singularly unfortunate piece of folly to appear in the editorial columns of a paper of such high standing as *The Varsity*. Nevertheless it did appear in those columns; so it seems necessary

### STUDENT CHRISTIAN MOVEMENT

Sunday, February 17th, 4.30 to 6.30 p.m. World Student Christian Federation Day of Prayer. S.C.M. International Tea will be at 79 St. George St. There will be music, an address by Miss Gertrude Rutherford on "The World Student Christian Federation" and worship service. Tea will be served.

### MEN'S GLEE CLUB

Full rehearsal at 5 o'clock this afternoon in the Music Room.

### CHRISTIAN MISSIONS CONFERENCE

Over the week-end of February 23-24, the S.C.M. will hold a conference on the subject, "Missions and the Modern Student". Are missions justifiable today? What are missions doing? What are you going to do about it? Please register early.

### VIC AT-HOME TICKETS

Tickets will be sold today and tomorrow in the college hall from 1.30 to 2 p.m.

### ITALIAN-SPANISH CLUB

Tickets for the Theatre Night are on sale today from 11 till 2 p.m. in the main rotunda of U.C.

### VOCATIONAL GUIDANCE GROUPS

Wed., Feb. 20, Room 18, Victoria College—Teaching, A. C. Lewis, '15. Post Graduate Work, Dr. N. W. DeWitt, '99.

Thurs., Feb. 21, Room 18, Victoria College—Advertising, S. J. Allin, '22. Stockwell, '30. Room 14, Victoria College—The Ministry, Rev. S. J. Mathers, '23.

to make some answer.

The writer says: "For the past few years we have heard much of Fascism, but never have we found a single logical reason given for this dislike." I do not know where he has been for the last few years. Or perhaps he is one of those who do not believe that the urge of mankind for ever higher things is something apart from the realm of thought. Fascism breeds war: this is an undeniable fact. Fascism means a reversion to a more primitive economy than is possible under present conditions. Fascism means nationalism in its worst aspects; race hatred; suppression of racial minorities. These are facts. Fascism means the negation of human progress; the denial of science except for purposes of war; the repudiation of higher culture. These are facts: anyone doubting them has but to read the reports from Fascist countries. Are these no logical reasons for a dislike of Fascism? Nay, a profound hatred of this destroyer of mankind!

The writer says "Liberty is only a slogan." Does he actually forget the rivers of blood which have been shed generation after generation by civilization's advance-guard to give us this measure of liberty? Does he ignore the fresh smell of blood wafted over us from Europe, from Asia, where thousands are being slaughtered in the cause of liberty? He cannot be serious when he suggests that Fascism allows even the liberty, limited though it may be, which is ours today. Is the galley slave driven to slow death under the whips of his master as free as the sailor under his captain's command? That is no extreme metaphor: it is the choice between Fascism and our present democracy. Surely the writer cannot have considered the choice?

He says: "If we look at Fascism closely, we shall see that it is only paternalism, and paternalism after all is only socialism." Fascism is only paternalism! Since when did the most bloodthirsty tyranny become paternalism? Fascism means the iron rule of

a small group of oligarchs over the great mass of the people; a people which has been forced down to degradation, to bitter suffering; a people which have been disciplined into hatred of all other peoples. Socialism is paternalism? Socialism is the rule of the people! If necessary a dictatorship of the masses. A classless state in which all wealth is for the masses; not for the selfish pleasure, the unconscionable greed of the few. Perhaps I will be accused of being idealistic. I would be proud of that accusation: proud to stand in the light of history and say that mankind will still go forward in spite of all creeds like Fascism which have no hope, no belief in a greater future!

The writer asked for "reasons", not "emotional outbursts". When the soul of mankind cries out through all suffering that there are still greater deeds to be done; still a vast world to be conquered, it is reason enough! There is no other reason.

Yours truly,

K. C. Woodsworth,  
III Victoria.

### ART, MUSIC AND DRAMA

(Continued from Page 2)  
married when their plane crashed over the Labrador coast. Mr. King, as the operator, falls in love at first sight. Complications are provided by the arrival of his fiancée of two years past, a title-seeking young blonde. The comedy is provided by the attempts of the radio operator to marry his latest acquaintance.

The plot is not new nor is the play good comedy. The cast is forced to work hard for the laughs. The whole idea is amusing only because it is ludicrous.

Dennis King has been seen to better advantage in musical comedy. Rudolf Friml gives him a wider scope than Mark Reed, the author of the present work. He is a good comedian, but the role of *Vagabond King* is more natural to him.

At one point in *Petticoat Fever* the song *Love Tipped through My Heart* is introduced and the ring of Mr. King's voice is pleasing to the ear. But the song, like the play, is not likely to make a great hit.

M.K.H./N.C.P.

### The U.C. Players' Guild

This week's presentation at the Players' Guild is the last act of Shaw's *Candida*, under the direction of Gordon Robertson. Like the last act of most Shaw plays, this can be treated as a dramatic entity and presented without reference to the preceding acts, since all such references in the dialogue are self-explanatory.

The maternal Candida will be played by Lucy Jane Grabell, who has shown herself capable in both juvenile and mature parts, and the dreamy, heroic, young poet, lost in his world of metaphors, by Ted Strythes. Don Stewart will play the Reverend James Mavor Morell, moralist and orator, and Jack Graham is the inadequate curate from Oxford. Prosperine Garnett, Morell's secretary, who abandons her pledge in favour of two glasses of champagne, will be done by Anne Ferguson. The choice of the cast suggests the possibility of good entertainment.

### Hart House Theatre

It is a peculiar characteristic of English playwrights to write comedies on the same framework as does Somerset Maugham in *The Circle*, which is being presented at Hart House Theatre this week. The formula consists of having an elderly gentleman be the cause of humorous situations, to which are added his brilliant and witty lines. He is built up as just the person we want to be, wise, witty and wonderful, then finally we see his superiority wane, which brings joy to his fellow characters and smiles on our faces, derived partially from a guilty conscience. It is a good method, and *The Circle* is no exception. As the title implies, the plot presents the problem of squaring two isosceles triangles.

Thirty odd years ago Lady Catherine Champion-Cheney ran away with Lord

Three Good Comedies

"El Bigote Rubio"

"Telemaco II Disordinato"

"Elegria Y Amor"

Tuesday, February 12th

8.30 p.m.

WOMEN'S UNION THEATRE

Admission 25c.

Porteous and left Clive Champion-Cheney with aught but a humorous cynicism. Today Elizabeth Champion-Cheney confronted with all the details of such flights, runs away from her parliamentary husband with a chap from the Malay States, despite the sagaciousness and helpfulness of father Clive. The play provides plenty of good entertainment and a vehicle for some excellent acting.

W. A. Atkinson as Lord Porteous, shows himself a splendid actor. Deta Forsythe introduces herself to Toronto theatre in a most convincing manner, in her Hart House Theatre has made a profitable discovery. Arthur Pettapiece as Clive Champion-Cheney and Jane Mallet as Elizabeth do some of the best acting we have seen in Hart House Theatre for some time. The last scene with these few people is one of the better efforts. John Humphrey as Edward Luton is a bit too belligerent, though perhaps in keeping with the character, it does not fit the lines. The main flaw the production is that many of the cast tend to give their lines as speeches and thereby sacrifice naturalness.

The scene as designed by Eric Haldenby is a bit too rich. Realism on the stage is a bit obsolete, and with some reason. We go to see a play, not an architectural exhibit. The set looks forbidding in that we fear that directors will look for plays to fit the solid, Georgian room. The lighting is a bit low and patchy. This rather harsh criticism is more of detail than total effect, for the production is of a generally high merit. The play is rather a treat and the cast is particularly able.

### Four Year Course Doomed College Authorities Say

#### NEWS OF THE WORLD IN BRIEF

San Francisco—The world's largest dirigible, the U. S. S. Macon, was forced down at sea after a wireless message had been received from her commander stating that a bad casualty had taken place on board. The Macon was returning from fleet manoeuvres off the Californian coast. Naval vessels of all sizes rushed for the spot where the Macon was reported to have fallen, and it is believed that most if not all of her crew have been saved. Commander Herbert V. Wiley of the Macon was one of the three survivors when a similar disaster overtook her sister ship, the U.S.S. Akron last year.

Rome, Italy—Haile Selassie, emperor of Ethiopia, issued a statement denying Italian charges that recent border conflicts were of Ethiopian making. The Emperor stated that he would defy Italian invasion with over a million men. Meanwhile all Italy hummed with preparation as troops were moved and rumours of embarkation beset the country.

Berlin—Adolf Hitler is expected, not only to agree to Anglo-French peace projects, but also to urge extension of the proposed air-alliance scheme.

Geneva—No notification of war or preparation for war has been received by the League of Nations from either Abyssinia or Italy.

#### MACLEAN'S EDITOR TELLS OF SCOOPS

Napier Moore at Meeting of  
Women's Canadian Club  
Yesterday

#### "ADVENTURE IN THE NEWS"

The inside story of exciting work on a newspaper was revealed by Mr. Napier Moore, editor of MacLean's Magazine, in his address on "Adventures in the News", which was given at a meeting of the Women's Canadian Club yesterday afternoon.

It is generally supposed that a reporter has an unusual faculty for finding out "scoops", but Mr. Moore confessed that the only two he had ever had the good luck to cover were entirely accidental, and the same is true of most reporters' stories. He was the first man to greet the commanders of the R34, which was the first dirigible to fly the Atlantic; and in September, 1920, he was the only reporter on the spot at the time of the great Wall Street explosion.

When the Prince of Wales was travelling through Canada in 1919, he was asked to make an official visit to Washington. He refused to go unless he could also see New York, but at this time Ireland was causing England a great deal of trouble, and it was feared that the hostile Irish element in

Dr. Owen Thinks Public Junior  
Colleges of Moderate Size  
Will Be Formed

#### DEGREE IN SECOND YEAR

Canadian B.A. Equivalent to  
M.A. from American  
Universities

The present four-year college is doomed, according to the predictions of Dr. Owen, professor of education at Temple University. He foresees 1940 as the peak year in college enrolment, and then a gradual falling off will occur until in 1960 public junior colleges will be formed in most towns of moderate size and the present institutions will be split into junior and senior colleges. Degrees will be given at the end of the sophomore year and post-graduate work will begin at this point.

"We have already taken one step in this direction with the inclusion of the complete senior matriculation in the schools," said Mr. Fennell, Registrar of the University. "I believe that the current idea that a university education must be provided for every child that leaves school is a fad," he declared, and for this reason he does not agree with Dr. Owen that numbers will continue.

#### PAST LIFE SHOWN BY FOSSIL STUDY

Fossils May Be Submerged and  
Later Uncovered by Earth  
Movements

#### PROOF OF EVOLUTION

Dr. W. A. Parks, Director of the Royal Ontario Museum of Palaeontology, gave an illustrated lecture on the study of fossils, at the Museum on Tuesday afternoon. The object of studying fossils is to gain knowledge of past life on the earth and to discern the order in which this life has developed.

Because the earth is capable of moving, continents which are at one time under the sea have completely emerged by a later period, only to be submerged again in another geological age. The animal and plant life living on the earth becomes embedded under the sea and fossils are formed in the rocks. These are discovered centuries later when the earth's crust moves again. There are various types of fossils, such as shells, skeletons, teeth, coral and petrified wood. A limited number of these have been discovered which gives an idea of the vast number of creatures which have lived in the past.

Fossils are preserved under very different conditions. A large number are discovered in the same condition as when they are entombed. Others have

#### New Formal For Engineers

The premiere of the new Faculty of Applied Science party—the School Formal—will be held in the Banquet Hall of the Royal York Hotel on Friday evening, when Geoffrey Waddington's eleven-piece band will furnish the rhythm for dancing from nine until two. The engineers are expected to attend the new party in force, as it is replacing the more expensive "School At-Home" of former years, which was cancelled by the Engineering Society

#### Sketch Room

Mr. Mackenzie Waters, one of the most successful young architects of this city, will speak on "Domestic Architecture" at 5 p.m. today in the Sketch Room of Hart House. He will trace the development of the house from the earliest times to the present day, illustrating his remarks by blackboard sketches.

#### DR. SAUL DUSHMAN TO ADDRESS R.C.I.

Famous Physicist and Graduate  
of Varsity Will Demonstrate  
Methods of Light Sources

#### AUTHOR OF "HIGH VACUA"

Dr. Saul Dushman, assistant director of the research laboratory of the General Electric Company in Schenectady, will address the Royal Canadian Institute in Convocation Hall, University of Toronto, on February 16th on "The Production of Light". The nature of light, visible and invisible, with some of the phenomena observed with ultra-violet and infra-red light, will form the burden of his lecture, with a discussion of the different physical and chemical methods for the production of ordinary and ultra-violet light. He will demonstrate experimentally these methods and the efficiencies of light sources, and will also discuss some re-

#### SIMPLICITY IN ART IS MODERN TREND

Peter Hawarth Discourses on  
Craftsmanship at Art  
Gallery

#### "FRANKENSTEIN" SPIRIT

Since time immemorial creative art has expressed the spirit of the prevalent age. Art should fit the people of the age and thus the modern trend against decoration is quite justifiable, according to Mr. Peter Hawarth, whose subject last night at the Art Gallery was "Craftsmanship—The Making and Decorating of Things."

The love of beauty is a primal in-

#### INCONSEQUENCE

#### A BAS LES FEMMES!

We hear with interest the announcement of the formation of a Society of Militant Misogynists on the campus of the University of Alberta. The idea of such an organization is novel and amusing, and possibly it was formed largely for the purpose of achieving publicity for its founders and is actually neither militant nor misogynistic. We prefer to believe, however, that the inception of this group is significant of a growing realization on the part of male students that association with women is incompatible with the pursuit of an education, or of anything else worthwhile for that matter.

If we were to instance the downfall of Antony through his disastrous association with Cleopatra, the excesses of the St. Bartholomew's Day massacres for which Catherine de Medici was responsible, the tragic case of Eloise and Peter Abeldard, the unfortunate influence of Madame Lupescu upon King Carol, Josephine's ruination

#### LISMER UPHOLDS CHILD AS ARTIST KIHL DISAGREES

Viggo Kihl Refutes Statement  
That Child Can Learn to  
Paint and Play

#### REQUIRES NATURAL TALENT

Proper Instruction for Child  
Is Necessity Says  
Viggo Kihl

The statement of Dr. Blatz, made at the Heliconian Club, that 'any child given the proper training could learn to paint or play as easily as to read or write' was upheld by Mr. A. Lismer of the Toronto Art Gallery. When interviewed by *The Varsity* he said "The child from four to nine years old is eighty-five per cent artist, and it is really less difficult for them to learn to paint than to learn to spell or read." Mr. Lismer added that after a certain age their talents and desires change and therefore they can only become artists to a certain point.

Mr. Viggo Kihl of the Toronto Conservatory of Music refuted Dr. Blatz's statement in saying that: "If some children I have heard play cannot spell or do their fractions any better, then I have little hope for their intellectual possibilities." Mr. Kihl also stated "Any child can learn to play up to a point

#### Sale Unusually Large For Victoria At-Home

Scarlet and Gold will dominate the lighting and decorating effects for the annual At-Home of Victoria College in Hart House this Friday. Indications are that a large number of Victoria's undergraduates and graduates plan to attend this important affair, the most attractive of the college's social functions.

The patronesses on this occasion will be Mrs. H. J. Cody, Mrs. E. W. Wallace, Mrs. F. L. Bartlett, Mrs. J. R. L. Starr, Miss Jessie Macpherson and Miss Muriel Manning.

Novel favours will be given to the dancers this year and the music will be provided by the Victorians' favourite maestros, Stanley St. John and Harold Taylor.

The sale has been unusually large. *The Varsity* is informed, and students who have signed the lists are advised to secure their tickets today, which is the last day of the sale.

### ATHLETIC HEADS SILENT ON HOCKEY COACH ISSUE

#### Very Buggy!

Fraternities at University of California held a baby buggy chariot race during the weekend. Five-men teams were entered and a prize was given for the best dressed teams. The main prize was a rubber baby buggy bumper.

#### Jrs. Bow to Rangers In Colourful Game

Blues Put Up Game Fight  
and Extend Opponents  
to Limit

#### FINAL SCORE IS 7-3

By Jim Tiller

Varsity's never-give-in junior hockey team lost to Young Rangers by a 7-3 score, at the Arena last night. Although the result meant nothing from a Varsity standpoint, the junior Blues put up a game fight that forced the strong Ranger squad to extend themselves before winning the game, which puts them at the top of their group. The play was admirably clean, with only three penalties being handed out—one to each team in the first period and one to Rangers in the third.

Varsity started off in fine style and had the Black and Whites on the run for several minutes. Shultis opened the scoring at the five-minute mark when he divided the defence and beat the goalie nicely. Rangers now began to go places and a series of dangerous rushes was rewarded when Chipman beat Campbell from close in. Varsity held their own for the rest of the first period, but in the second they were badly outclassed, crossing their opponents' blue line on very few occasions. The Rangers carried the play to them

(Continued on Page 3)

#### ITALIAN-SPANISH CLUB REVIVES THEATRE NIGHT

Three near-perfect comedies were enjoyed by an appreciative audience last night at the Women's Union when the Italian-Spanish Club revived the popular feature of an annual Theatre Night.

*El bigote rubio*, a sparkling Spanish comedy revolving around a mistranslated billet doux in French, starred Isobel Westwood as Clemencia, Betty Campbell as the General's wife, and Gordon Kidder as the Colonel with the *bigote rubio* (the blonde moustache).

The second, *Telemaco il disordinato*, a short Italian farce, was greatly enjoyed by the Italian members of the audience although the excellent Italian of Ricco Taschetti and Lidia Orlando was a bit too fast for a mere Canadian.

The last play, *Esgrima y Amor* (fencing and love), was a light Spanish comedy. John Boland as the fencing master and Margaret Haygarth as his daughter Obdulia, filled their roles very acceptably.

L.E.H.

#### St. Mike's Debate McMaster Here

On Thursday, February 14, St. Michael's College and McMaster University will hold an exchange debate. The subject of the debate will be "Resolved that the League of Nations was justified in admitting Russia as a member." J. C. Doyle and L. A. Campbell will represent St. Mike's at McMaster. J. Brigger and D. F. L. Scollard will oppose Howard Bantall and William Cranston of McMaster at Hart House.

(Continued on Page 4)

Members of Directorate Refuse  
Comment Regarding Possi-  
bility of New Coach

#### MEETING TOMORROW

Opinion of Students Favours  
Appointment of Coach  
for Hockey

Members of the Athletic Directorate maintain a complete silence on the possibility of a hockey coach being appointed for next year, a question raised by *The Varsity* on Monday. Athletic Directors have a mutual agreement that no questions are to be discussed before meetings, according to one member, but some news is expected tomorrow.

Professors M. A. Mackenzie and J. F. MacDonald and Messrs. A. H. Squires and J. W. Magladery, all of the Athletic Directorate, were among those sought out for their comments. Professor MacDonald was reported as being out of town and Professor Mackenzie refused to state his opinions on the matter, saying that, as an individual member of the Directorate, it would not be for him to criticize or comment upon that body's action. He advised, however, that the Directorate be approached "in toto" if opinions were wanted.

It was considered probable that the whole matter will come up for discussion at the next meeting of the Athletic Directorate, scheduled for tomorrow. T. A. Reed, the Secretary-Treasurer, declined to state definitely that

#### Electrical Engineers

The American Society of Electrical Engineers will meet on Friday to hear an address by Mr. H. A. Afell of the Bell Telephone Laboratories, New York, regarding the development and operation of a system by which time signals and accurate frequency synchronization may be transmitted by wire to radio stations, power companies and similar apparatus.

Contrary to the usual procedure, the meeting will be held in Room 43 of the McLennan Laboratories, commencing at 8.15 p.m.

#### MEMORIES

#### FEBRUARY 13

1927—McGill considers establishing a department of Chinese studies.

1928—In replying to a *Varsity* questionnaire on whether students should be vaccinated on entering college, M. R. Culbert, III, D.D.S., states, "It all depends where."

1929—The Blue and White win their twelfth intercollegiate hockey title, defeating McGill in a listless game at Montreal.

1931—The University of Manitoba Athletic Directorate announced that it was without funds and that all season tickets would be cancelled.

1932—Mr. H. T. Wright and Mr. V. A. Woods were injured in an explosion in the Mining Building and were removed to the Toronto General Hospital in a critical condition.

1933—At the time of going to press a rumour was verified that "Daffydil Night" will not be censored this year. It has long been felt that "Daffydil Night" has been seriously handicapped by the fact that there has been a certain reluctance to take your girl there. A member of the committee assures *The Varsity* that girls are safe to attend this year.

#### Men's Press Club

An important meeting of the Men's Press Club will be held Thursday afternoon at 5 p.m. Plans for a party will be discussed.

## The U.S.A. and the World Court

Last week the United States Senate overthrew the World Court issue and another great attempt at International Peace went by the board. Although fifty-two of the Senators, representing over sixty per cent of the total electorate, were in favour of adherence to the Court, thirty-six, representing a bare thirty-nine per cent, were against the motion, to uphold which, a majority of two-thirds was necessary.

Although every great President of the United States since the opening of the century has advocated closer international relationship, the American Senate still sees fit to maintain its stand-offish attitude and avoid even the most intelligently directed efforts at International Co-operation and Good-will for the furtherance of Peace. Although the great majority of the citizens of the United States are patently in favour of relinquishing the old ideas and of forgetting the Monroe Doctrine in the cause of Humanity, such apparently intelligent men as Senators Borah and Johnson still persist in their pig-headed isolationism.

There is no doubt that two extraneous factors appeared in, and had a great deal to do with, the final result of, the controversy that raged over the World Court question. These were the Hearst Press and Father Coughlin, the former being by far the more important of the two. William Randolph Hearst is the Dictator of the American Press; the chain of newspapers and magazines under his control is probably greater than any other similar syndicate in the World; he has far more influence with the American Public than is good for any one man, particularly a man holding some of the opinions that we so often find voiced in his publications. It was entirely due to the efforts of the Hearst Press that over 200,000 telegrams were dispatched to Washington to make the Senators of California, Washington, Montana, North Dakota, South Dakota, Minnesota, Iowa, Oklahoma, Louisiana, Delaware and Massachusetts vote the country out of the control of the World Court.

The other great influence on the World Court issue the famed Father Coughlin of Detroit, is less understandable in his action; usually a clear thinking man with at least some of the interests of the people at heart, Father Coughlin came out, last Sunday, with a terrific radio speech blasting the idea of a World Court and demanding all his millions of listeners to send their telegrams immediately to Washington and request their Senators to vote against the proposition.

When a nation such as the United States, populated by over 120,000,000 peoples, the richest and one of the most powerful nations on the Earth, led by a Democratic Government, refuses to see her way to co-operate with the other nations of the World in any way, there seems little hope for any very effective step being taken in the direction of the permanent Peace we all desire. That such forces as a Press syndicate controlled by one radical anti-humanitarian and an equally radical middle-aged priest (who is Canadian-born, by the way, and a graduate of this University,) should stand behind this refusal of the United States to come to its senses, forecasts a dark future for Humanity.

## Milk Millionaires

It is becoming evident, from down-town talk, that the City Fathers are beginning to recognize the urgent need for reform in the distribution of milk and of bread in this city. Action, on behalf of the humanity, dictated by plain common sense, is long overdue.

The methods of producing and distributing milk and bread are among the most exaggerated examples of capitalistic enterprise and its evils. A large dairy has become the subject of the same calloused exploitation as a big mining concern, and has much greater possibilities of success for the promoter. But such exploitation can only be called inhuman.

The man who accepts exorbitant profits extracted from the sale of bread or milk is, after all, of the same moral standard as one who would steal candy from a baby. Capitalism as it is may shield such action, but it can never justify it. The man who opens up a new mine, is adding to the net wealth of the community, and is to be commended. But he who buys milk from the farmer at less than he bargains for, and sells it to the public at more than it ought to pay, is exploiting a helpless public—a traitor, in truth, to humanity. Society should not tolerate milk millionaires.

A number of factors enter into any criticism of milk distributors. Everyone except the promoter seems to be getting a raw deal, while he, because the price is kept at a high level by artificial means, stands to make a comparatively high profit if his business is moderately successful.

The main criticism is the fact that the distribution of milk and bread should be treated as a matter of public concern, and run by government or municipal authorities. At present there is so much waste in the distribution of these products as to influence the price very greatly. Advertising costs, investments in machinery and rolling stock, and duplication in services all along the line make the capitalistic competitive system look not only silly, but evil.

Each day, on every street in the city, from one to three dozen delivery trucks go over the same route. They all deliver the same goods, for after all, milk from contented cows has the same food value as from a harassed bossy. There is no reason why, under government supervision, one deliveryman can not supply everyone in a small area, instead of trailing for miles to supply an occasional house here and there.

The situation with regard to bread baking is in exactly the same wasteful state, with the exception that the big bakeries and the big milling companies are under the same control, while there are small bakeries which keep the price down to a reasonable level. Nevertheless the difference in price between chain store bread and that which is delivered to your door shows what difference is effected by inefficient delivery and advertising systems.

Men have grown wealthy by skillfully manipulating these industries, but there is no reason why society should tolerate such an absurdity any longer. The time will come when bread and milk will be distributed under municipal guidance, as electricity, water, gas, and street car service is now handled. And the sooner this is done, the better for everyone concerned.

## Lectures or Books?

Two California students were recently apprehended at a lucrative business—selling detailed reports of lectures to their friends. Some round dozen classes were "covered" by the system, in which shorthand notes were taken, edited, and mimeographed. The notes sold at five cents per copy, until the pair were forcibly induced to forego the racket by the indignant professors.

The students were excellent business men but poor psychologists: a little persuasion should have made clear to the professors that the public could only condemn them for the insipidity of their lectures and applaud the boys for their ingenuity and energy.

If a "teacher" puts nothing into his discourse which a clever youth cannot distill and put into handy graphic form, then it is not a teacher but an automaton which the school is hiring. It could do better to buy a book and obtain a boy with a clear voice to read to the class for fifty cents an hour.

Or better yet, it could print the professor's lectures itself and distribute them to the students. There's no efficiency sitting on uncomfortable seats for an hour to learn what might be read on the printed page in fifteen minutes.

—Stanford Daily.

Only 131 college graduates are listed among the 4,323 convicts in the Ohio state penitentiary.—The Daily Californian.

## ART, MUSIC & DRAMA

### Mussey Hall

A great artist of a generation of musicians that time is removing one by one from the concert platform, Feodor Chaliapin sang a song recital last night that must have recalled to many triumphs of a former day. There is an unmistakable quality that makes these recitals by artists of the older school unique. It is more easily felt than described, and arises from the breadth and grasp of the genius, the domination of the artist's personality, the emphasis that rests on the individual interpretation rather than on the music *per se*. It must be admitted that a certain warmth and congeniality pervades such a recital and when the artist is truly great the experience is extremely powerful.

Chaliapin has been a great singer. He remains a great artist with a voice remarkably preserved for his age. Its power and quality is frequently surprising, although the tragic limitations are only too apparent. There was so much to enjoy and admire in this recital: artistry everywhere transcended physical imperfections. The dramatization of each song was all compelling. For the moment a scene was enacted after which the artist withdrew from the picture and reality reigned.

Ivan Basilievsky was more than a capable accompanist. He is a fine pianist with a strength and command of the instrument that is a delight to the ear. F.B.S.

### Organ Recital

The fifth organ recital of the Convocation Hall Series was played yesterday afternoon by Harvey Robb. The opening number, a *Choral Prelude* by Pachelbel, with its demanding climax, was played in such a manner as to give assurance of Mr. Robb's capability to meet the demands of the remainder of his varied programme. The *Prelude and Fugue in E flat*, commonly known as the "St. Ann", and one of Bach's greatest organ works, was presented in a somewhat restricted manner, lacking the usual warmth of that composer's works. Two short numbers, done with interesting registration, and a characteristic overture from Handel's "*Alcina*", made up the first part of the programme.

All the numbers in the second part were of the Modern French school, with Cesar Franck's *Piece Heroique*, possibly the most familiar of the group of five. Louis Vierne's *Carillon de Westminster*, based on the Westminster chimes, and his fanciful *scherzo* were especially interesting. The typical style of the French composers made an agreeable contrast with the general character of the first numbers, and Mr. Robb played with a quiet and deliberate manner. H.K.

Dong! Dong! Dong! . . . Three o'clock and still no Mary. The watching figure in the chair sat, brooding and grim. Things had been getting steadily worse for the last year, and this was the end. Something must be done.

A noise outside; it was she . . . Steps on the porch . . . a long pause. The door opens carefully. Mary comes in, flushed, radiant.

"Mary!"

"Yes, mother."

"You are very late."

"Well mother, if a fellow takes you to a show the least you can do is kiss him good-night."

"Yes, I suppose so. But I thought you went to the Meds At-Home?"

"Yes, mother."

## THE SPORTSWOMAN

By M. A. F.

At 1 p.m. today the second of the semi-final hockey games is to be played off at the Arena. St. Hilda's is clashing with U.C. and it will definitely be a game worth watching. U.C. has Betty Mark and Charly Grant, who are ex-intercollegiate pucksters and both play real hockey. The Saints have a more evenly balanced team and they have their highlights too—Elaine Knight and Mary Dignam. One o'clock is an awkward hour for a lot of people—but how about dropping in on the end of the match. U.C. beat St. Hilda's in their first encounter and are out to repeat the performance. But the Saints are equally determined to get into the finals so it will be a real tussle.

Are all you hockey players—stellar and mediocre alike—bearing in mind that all-star try-out on Thursday at 1 p.m.? Every team that played in the interfaculty series had some outstanding players whom we are hoping to see plus all their team-mates. It is well worth the try and for the members of teams who have fallen by the wayside before the finals it is a good chance for one more skate.

The date for the interfaculty badminton tournament is at present unsettled. Watch this column for definite information about this event.

Molly Stevens copped the laurels at the U.C. meet last night and Betty Rowlin ran her a close second. Esther Garb did some nice work in the speed events, winning both the free style and the back stroke. U.C. has proven the fact quite nicely that although Kay Brown is their star she is by no means their only swimmer.

### DENTS HARD PRESSED TO OVERCOME O. C. E.

**Bloor St. Boys Make Twelve Points on Fouls—Final Score Only 22-24**

Dents eked out a slim victory over O.C.E. in the interfaculty basketball game played last night when they outscored the Teachers 22-20. Dents obtained their two-point lead in the first half and were hard pressed to equal the Bloor St. boys in the final session. O.C.E. only scored four baskets but garnered twelve points by the foul route. In contrast to this the Teachers hadn't a foul issued against them and Dents were forced to earn all their points the hard way. The first session saw most of the scoring, with thirty of the forty-two being accounted for. Dents: Potasnik 2, Dempster 10, Brown, Weir, Stoughton 8, Parish, McHugh, Sharken 2, Kingsberg. O.C.E.: Costigan 6, Morrow 5, Dilworth 7, De Muy, Dual, Miller, Schubarth, Cameron.

Eight freshmen of the University of Washington were arrested while attempting to steal their term's supply of text books at the university book store.

## Sport Notices

**Jr. S.P.S. Waterpolo—**  
Game tonight with Vic. The following men report at 5.15. Partridge, Young, Schmidt, Reider, Otter, Eggert, Hogg, Alden and Miller.

**Victoria Waterpolo—**  
Final game of interfaculty waterpolo Wednesday at 5.30 p.m. Everybody out.

**U.C. Hockey—**  
Game with Sr. Meds at 5 p.m. today at Varsity Arena. Will the following players turn out: Pritchard, Dawson, Campbell, Coulter, Harwood, Keith, Fowler, Morlock, Thompson and Hamilton.

**Indoor Track—**  
All those interested will turn out at 5.15 p.m. sharp on Tuesday, February 19 for the interfaculty indoor track meet: 1 mile relay, 100 yds. dash, standing broad jump, shot put.

## JUNIOR MEDS WIN SR. SCHOOL TIE WITH DENTISTRY

**Meds Held Off Till Dying Moments of Game with Wycliffe**

**FINAL SCORE IS 3-0**

**Stellar Goalkeeping Plays An Important Part in 1-1 Deadlock**

Yesterday's interfaculty hockey doubleheader at the Stadium resulted in only one victory being turned in. Jr. Meds taking a 3-0 verdict from Wycliffe, while the Sr. School squad battled to a 1-1 deadlock with the undefeated Dents.

In the first game Meds had the situation well in hand the whole time, but were held off by a fighting Wycliffe team until the dying moments of the game when they rammed in two fast goals to clinch the victory.

The first period produced a pretty good shindy game, but that was all. McEwen banged one home from a wild scramble in front of the Wycliffe net to put Meds one up.

In the second period the Meds recovered their form and using their superior speed and weight to advantage, gradually wore down the battling Anglicans. They attacked time and time again only to be repulsed by Pegler, who performed in almost sensational style in goal. Finally in the last few moments White and Anderson broke through to register two more tallies and make the score 3-0 for Meds.

The second encounter proved to be a much better brand of hockey, both teams playing a fast, hard-checking game, with Referee McConvey handing out several penalties.

Ewen missed a great chance in the first session to put the Engineers in the lead when he caught the opposing forwards flat-footed and broke through the defence, only to fall before he could get his shot away.

Dents opened the scoring at the beginning of the second period, Lankin batting one in on a pass from Clark. Sr. School came right back to tie it up with Kerr scoring on a beautiful solo rush. The remainder of the period was featured by a display of stellar goalkeeping on the part of both Young and McCartney, neither team being able to score.

Jr. Meds: Williams, Anderson, Wilson, McKee, Ker, Button, Hickey, Lindsay, White.

Wycliffe: Pegler, Heather, Ruche, Wood, Fairweather, Emmet, Newton, Smith, Zimmerman.

Sr. School: Young, Hewitt, Aitken, Hodson, Kerr, McNichol, Davidson, Stothart, Patterson.

Dents: McCartney, Greco, Squires, Lankin, Clark, Rollason, Mackie, Spence, Leask.

### U.C. PARLIAMENT DEBATES EMPLOYMENT OF WOMEN

**"That Employment be Confined to Males" is Motion for Thursday Meeting**

Excitement is rising as Thursday's meeting of the U.C. Parliamentary Club approaches. Mr. T. C. Keenan, Acting Prime Minister, will uphold the resolution, "That Employment be Confined to Males." To *The Varsity* he said: "I have nothing to say till I out-Mirsk Mirsky next Thursday."

"There will be surprises," said ex-Follies star Bernard Shaffer, who now leads the Opposition. "Meanwhile, if we confine theatrical employment to males, we shall have to suppose that talent like the U.C. Follies east is commoner than it really is. And for other forms of employment, this is Canada not Greece."

It is understood that Mr. G. G. Bryce will speak for the government and may open the case.

The University of Texas conducts a Nursery Training School to train nursery teachers, while the University of Oregon has a "Charm School."

## SPEAKING OF SPORT

By Ken Burn

At this time of year two facts become very evident. The first is that you have as much chance of passing as of getting a glass of beer in the W.C.T.U., and the second is that with the curtailing of the athletic activities around the University, ideas for this column become scarcer than the proverbial hen's teeth. However, as you can always fall back on the coca cola and aspirin, so we fall back on the scissors and paste pot and purloined the following interesting notice from the *Western Gazette*.

"It is interesting to note that Toronto's team will include one man from the University of Toronto. The rest are from Ontario College of Education and St. Mike's. Featured stars of the Varsity line-up will be Bill Bodrug and Alex Munroe, both of whom have coached at Western. Our Assumption College has just about the best team in the country and are eligible to compete for Western. We wonder what Toronto would say if we trotted them out on the floor sometime."

And so gentle reader, if, in your strolls across the campus, you should happen to see some gentlemen whose faces are lined with worry and who are continually glancing nervously over their shoulders, you will know it is only the basketball team worrying over the possibility of having to play Assumption College. Or perchance it may be the employees of the department of publicity who must be afraid of losing their jobs for allowing such erroneous information concerning the University to seep to the more rural parts of the province.

Of course, as every public school child could tell the sports editor of the *Gazette*, St. Michael's is a federated arts college of the University of Toronto and is just as much a part of the University as Huron College is a part of Western. Until two years ago it was the customary thing for the Bay Street students to turn out for the Varsity basketball team. Then St. Mike's decided they could form a team from their own faculty which would be strong enough to enter senior company. With the abandonment of that idea, what could be more natural than that the St. Michael's students once again turn out for Varsity teams?

The *Gazette* was also in error regarding the faculties from which the players came. St. Mike's contribute three, Vic two, Meds two, U.C. one and O.C.E. one. The title of the *Gazette's* sport column is "Mustang Meditations—With An Occasional Idea." As a matter of fact we obtained two ideas from the column under consideration. That it is an excellent idea to be sure of your facts before raising a howl, and that it is more gratifying to the ego (ask Meddler for an interpretation of this) to have a prepared alibi that the team that beats you is composed of "ringers."

From all accounts Western has a good team that put up a real battle against the Varsity squad but such reflections on the visiting teams are liable to make neutral onlookers overlook their fighting qualities. Twice to you knowledge the *Gazette* has seen fit to reprove the student body in its editorial columns for their unsportsmanlike attitude towards visiting teams, but it can hardly be wondered at when the other departments of the paper deliberately prejudice those intending to view the game.

On the surface it would appear that a college like Western were at a disadvantage in intercollegiate competition as the first year enrolment at Toronto is almost equal to the total enrolment of the London university. However, certain factors enter into consideration which tend to even up matters. For example the academic restrictions are not as severe at Western and this tends to increase the number of students that partake in athletics. From observation we know that there is more honour attached to making a team at Western than there is at Toronto. For example a larger number attend the rugby dance at Western than attend our Athletic At-Home although the purposes of the two functions are identical, namely to honour the athletic representatives of the University. Also the athletic department at the smaller universities are on the lookout for potential stars and make a point of inviting them to attend their university while McGill and Toronto are content to sort out the material that turns up voluntarily.

With so much sham prevalent in amateur sport, many of the die-hards rest their final hope on intercollegiate competition for truly amateur sport, yet controversies such as these tend to cheapen and tarnish the college loop. We have no desire to add fuel to any feud and this may be considered as an explanation of what we truly believe is a false impression gained by the other universities in the senior basketball loop.

### JR. VIC DEFEAT SR. U.C. AND TIE WITH O.C.E.

**Ganz's Wild Throwing Gives Victoria Four Points in Two Innings**

Yesterday afternoon Junior Vic baseball team earned a tie with O.C.E. for the leadership of their group when they defeated the Senior U.C. team by the decisive score of 11-3. The game, which was played in the big gym at Hart House, produced a fast and interesting brand of ball with lots of noise and enthusiasm from both teams.

The Victoria pitcher had the U.C. boys baffled with a tricky drop ball in the first two innings and they were only able to put one runner across the plate. Due to the wildness of Ganz, the Red and White hurler, Vic scored four times in these two innings. Then came the third inning. U.C. crept up within one run of the Scarlet and Gold team in their half of the inning and it began to look like a real battle. In the second half the Victoria bats, coupled with some walks, accounted for seven runs and set the game away on ice.

Jr. Vic: Ferguson, Walker, Cumming, Cowan, Hamilton, Fallis, Matheson, Beattie and Clipperton.

Sr. U.C.: Himel, Haig, Cole, Gluskin, Ganz, Laskin, Lipman, David and Harris.

Referees: Carveth and Crockower.

### U.C. WOMEN RUN OFF MEET AT U.T.S. SWIMMING POOL

**Individual Honours Captured by Molly Stevens—Second Place to Betty Rowlin**

At 8 p.m. last night the U.C. swimming meet was run off at the U.T.S. pool. Individual honours go to Molly Stevens, with Betty Rowlin in second position and Esther Garb rating third place. The turn-out was fairly encouraging and some new talent was discovered. The results are as follows:

Plunge: 1. Molly Stevens, 57 ft; 2. Enor Kennedy, 53' 8"; 3. Betty Rowlin, 50'.

Free Style: 1. Esther Garb, 25 secs.; 2. Audrey Neilson, 26 3/5 secs.; 3. Doris Samuel, 27 2/5.

Diving: 1. Betty Rowlin, 2. Molly Stevens, 3. Audrey Neilson.

Breast stroke: 1. Mono Lang, 42' 4"; 2. Betty Rowlin, 44'; 3. Molly Stevens, 48 3/5.

Style: 1. Doris Samuel, 2. Molly Stevens; 3. Betty Rowlin.

Back: 1. Esther Garb, 15 sec.; 2. Audrey Neilson, 15 1/5 sec.; 3. Molly Stevens, 15 2/5 sec.

Ornamental: 1. Molly Stevens; 2. Betty Rowlin; 3. Enor Kennedy.

Three members of the Indianapolis police force, who are college graduates, have been deputed to lecture in the schools on "safety first".

## VOICE OF CHURCH WOULD PREVENT WAR

**Doctrine of 'Just War' Has Now Little Application, Says W. G. Onions**

**WORLD COURT ADVOCATED**

W. G. Onions, writing in the February edition of *The Canadian Student*, official publication of the Student Christian Movement, declares that "if the Church could only speak with one voice, what government would dare to plunge us into war?"

Since the first centuries after Christ's death, Church and State have been inter-related; and while the early Roman Christians had been obstinate pacifists, later Christians, to protect the privileged position of the Church in the State, sanctioned what they termed the "justum bellum."

Such men as Augustine, Thomas Aquinas, and Grotius have all taken great pains to define just what constituted a "Just War" and under what conditions a nation was justified in resorting to armed force.

"The doctrine of Just War, however, has little application today," says Mr. Onions. "All such doctrines were based upon the assumption that war was necessary to settle disputes in the absence of machinery for arbitration, and today such machinery exists."

There should be a World Court, supported by the signatories of the Kellogg-Brand pact, which will, if necessary, use force to subdue the transgressing nation.

"Power, vested in the proper authorities, is essential to the safeguarding of civilized life; and if the Church could unite on this point, it would deal the death blow to international anarchy and war."

### SIMPLICITY IN ART IS MODERN TREND

(Continued from Page 1)

stinct in man and he has always endeavoured to express himself in art. However, besides being dynamic and vital, art should come from an inner urge and not be merely a matter of copying, stressed Mr. Hawarth.

In the past century there have been tremendous changes in modes of life and art has had to conform to these vicissitudes. The speaker first dealt with craftsmanship in the home and revealed how home decorations are associated with an intimate expression of the life of the people. He ridiculed numerous social customs such as period decorating fans, copying from friends, and choosing decorations from local magazines.

"The pre-Raphaelite period which produced exuberance of creative decoration has given place to a kind of decoration in conjunction with the present 'robot' and 'Frankenstein' spirit." Architects of today have little time for enhancing details and our buildings are becoming more mechanized and monotonous.

Craftsmanship in the past influenced the trend of decoration and slides were shown depicting cathedrals which were built to represent religious aspirations. Even costume has exercised a great influence in decoration. To illustrate this the slides presented pictures of special chairs that were necessary to accommodate the women's costumes of Queen Elizabeth's time. In sharp contrast to the elaborate furniture and architecture of the Elizabethan period were the pictures representing the simplicity of form in the decorations of today.

The modern trend is against decoration, and architecture, which is really functional, is almost devoid of extraneous beauty.

### U.C. Literary Society

The University College Literary and Athletic Society will be the guests of the Women's Undergraduate Association in the Women's Union tonight. According to Miss Mary Salter, president of the Women's Undergraduate Association, and Miss Madge Shaw, who will be mistress of ceremonies, the visitors will be entertained with an exhilarating programme of skits. Dancing to the strains of a five-piece orchestra will follow.

## JRS. BOW TO RANGERS IN COLOURFUL GAME

(Continued from Page 1)  
continually and Varsity were lucky to hold them to two goals. Hamill got the first at the halfway mark and Cooper flipped in a rebound at the eighteen minute point, after Campbell had made a brilliant save on a sizzler from Chipman.

Varsity launched a brilliant attack in the final period but in doing so neglected their defence and Rangers counted four times in ten minutes. Hamill, Ingram and Cooper got the goals, the first named nicking two. The Blues played every man up and gave the Ranger goalie a busy time of it. Walkey and Ripley scored from a scramble in front of the net. The final gong found the Blues still trying to erase a four-goal deficit.

O'Leary and Sissons rendered yeoman service on the Blue defence, playing nearly the full sixty minutes. Ripley, Shults and Walkey, the goal getters, performed well on the forward line. For the Rangers, Hamill, with three goals, was a standout at centre, and well supported Chipman, Cooper and Ingram.

Varsity: Campbell, O'Leary, Sissons, Shults, Cressy, Ripley, Leslie, Slingsby, Bottereth, Walkey.

Young Rangers: Braithwaite, Godfred, Ingram, Hamill, Brannigan, Patterson, Trotter, Gregor, Chipman and Cooper.

Referee: "Babe" Dye.

## NEWS OF THE WORLD

(Continued from Page 1)

Tokio—Reports circulated to the effect that Japan had notified Italy of her hostility to an Abyssinian invasion were accredited false here.

Ottawa—Nine members of the House of Commons were named to form a committee for studying and reporting on the best methods for amending the British North America Act.

Brantford—Tim Buck stated that he would not report to the police, thus breaking the parole on which he was released from the Kingston penitentiary in December.

New Bedford, Mass.—Three ancient schooners and their crews and passenger lists of some sixty odd were reported long overdue and little hope is held for them.

Laws are like cobwebs; the small flies are caught, the great break through.—Anacharsis.

## PRESENT COURSES DOOMED COLLEGE HEADS DECLARE

(Continued from Page 1)

tinued to increase. "It was an idea bred of an era of prosperity but in the future I don't think that parents who have themselves had the experience of a college education will place so high a valuation on it for their children." Mr. Fennell went on to emphasize the differences in the American college systems and our own. Very few colleges have anything which corresponds to the standard of our honour courses. A Canadian B.A. is equivalent to the M.A. of most American universities. He believes, however, that the three-year Pass Arts course is thoroughly worth while and could not be supplanted effectively by any two-year course.

Mr. McAndrew, Registrar of University College, believed that the diversity between the college systems of the United States and Canada made any comparison as to their future development untenable. He admitted, however, that many of the students around the campus might be employing their time more profitably at some sort of junior college.

## ENGINEERS' FORMAL

(Continued from Page 1)

executive earlier in the year. The enthusiasm of the engineers would brook no curtailment of their social activities, and the new party, at reduced rates, has resulted in the place of the At-Home.

A feature of the evening will be a floor show of professional dancers, and lists for the party are being rapidly signed at the Engineering Society's store.

## PAST LIFE SHOWN

BY FOSSIL STUOY

(Continued from Page 1)

been mineralized and petrified. Dr. Parks gave several practical lessons gained by this study. Each fossil discovered helps to fit the layer of rock in which it is embedded, into the correct place in the story of the physical changes of the earth. These discoveries also support the theory of organic evolution by proving a definite sequence in the development of animal fossils in relation to their antecedents.

## LISMER SAYS CHILLO

CAN LEARN TO PAINT

(Continued from Page 1)

perhaps, but to play to give pleasure requires a natural talent. Unless the ear is sufficiently fine or capable of development, progress soon ceases to all outward appearances at least."

Mr. Kihl stressed the necessity of a child having proper instruction. The child might have a great deal of imagination but unless properly instructed the imaginative part of the child's genius would be hindered instead of brought out. Regarding Dr. Blatz's statement that "to concentrate is to go to sleep," Mr. Kihl said, "I have yet to see a student who can play who has not the ability to concentrate."

### WANTED

Undergraduates (men and women) interested in summer employment. Apply Mr. R. G. Bell, B.I. Medicine, Room 59, University College, Wednesday afternoon, 2 p.m. to 5 p.m., or phone Midway 2234.

## Coming Events

### WEDNESDAY, FEBRUARY 13

The Biological Club, in their regular meeting at Wymilwood, presents Dr. L. C. Coleman, who will speak on "Rural Life in India".

5 p.m.—Open meeting, Medical Society, Anatomy Building. Speaker, Dr. John S. Lundy, Mayo Clinic.

5 p.m.—The Political Science Graduate Group meets at the Graduate Union. Miss Irma Patterson will speak on the economics of retail merchandising.

8 p.m.—Meeting of the Student branch, Friends of the Soviet Union. Beaux Arts Hall, 8 Robert St. Speaker, Mr. A. D. Schatz, on "Fascism".

8 p.m.—Women's Union. Joint meeting of the W.U.A. and the Literary and Athletic Society of University College. Skits and dancing. All U.C. men and women invited.

7.30 to 8.30—Last lecture in the S.C.M. series on the Art of Living, in Cody House common room. Gertrude Rutherford will speak on "After College—What?"

4.15—U.C. Players' Guild presents the last act of Candida, by George Bernard Shaw.

### THURSDAY, FEBRUARY 14

5 p.m.—Open meeting, Medical Society, Anatomy Building. Speaker, Dr. John S. Lundy, Mayo Clinic.

5 p.m.—At the Women's Union Dr. Gwen Mulock will give the third lecture on "Eugenics and the Individual Responsibility."

8 p.m.—St. Mike's vs McMaster, intercollegiate debate: "Resolved that the League of Nations was justified in admitting Russia."

### FRIDAY, FEBRUARY 15

8.30—Open meeting of the Toronto Branch of the Student League of Canada at the Women's Union. Dr. E. Burnham Wyllie will speak on "Social Credit".

5 p.m.—Open meeting, Medical Society, Anatomy Building. Speaker, Dr. John S. Lundy, Mayo Clinic.

Victoria College At-Home in Hart House.

4 p.m.—Political Science Graduate Group meets at the Graduate Union. Miss Irma Patterson will speak on the economics of retail merchandising.

### SATURDAY, FEBRUARY 16

4.30—V.C.U. women's tea dance, at Wymilwood.

### SUNDAY, FEBRUARY 17

4.30—World Student Christian Federation Day of Prayer, S.C.M. International Tea. Speaker: Miss Gertrude Rutherford, 79 St. George St. Tea will be served.

9 a.m.—Holy Communion, Hart House Chapel.

### MONDAY, FEBRUARY 18

M. and P. At-Home. Dinner 7.30-9. Dancing 9-1.

### TUESDAY, FEBRUARY 19

5.00—Victoria College Dramatic Society presents "A Man Should Have A Wife", by Lisa Rembova in Hart House Theatre. Admission free.

8 p.m.—Commerce Club smoker, Hart House. Speaker: Mr. L. McGregor, Commissioner from the Dominion of Australia to Canada. Members free. Smokes and refreshments.

### FRIDAY, FEBRUARY 22

1 p.m.—Luncheon meeting of the MacDonald-Cartier Club, W. Earle Rowe, M.P., to speak.

### SATURDAY, FEBRUARY 23

S.C.M. week-end conference, "Missions and the Modern Student". Federation of Young Canada Conservative Clubs annual meeting in the Royal York Hotel.

### SUNDAY, FEBRUARY 24

S.C.M. week-end conference, "Missions and the Modern Student".

### McMASTER DEBATE

(Continued from Page 1)

This is the first venture of these colleges into the field of intercollegiate debating and if their efforts are accorded a favourable reception it is expected that a schedule will be drawn up earlier in the season next year.

The debate here will be held at Hart House and will begin at 8 p.m.

Only two of the 158 graduates of the class of 1934 at Arizona State are unemployed.—The University Hatchet.

Why we should be so beguiled by the antique is a riddle that perhaps only the interior decorator can solve.—Cornelia Otis Skinner.

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at either the men's office in Hart House, or at the women's office in University College. No notices will be taken over the telephone, after 6 p.m. notices must be taken to the Press Building. Notices for the Bulletin Board are limited to ONE insertion only.

### VIC DEBATING PARLIAMENT

Monday, February 18: Victoria College Debating Parliament at 8.15 p.m. in Alumni Hall. Subject: "Resolved that in the opinion of this House the social programme of Premier R. B. Bennett is in the best interests of Canada." Speakers: Meeda Williams and Joe Okell, Harriet Christie and Wilfred Deeth. Nominations for next year's executive will be received.

### 3TS VICTORIA

Important class meeting on Thursday, February 14 at 1.30 p.m. in Room 18. Everybody out.

### VIC WOMEN

Remember the meeting in Wymilwood at 1.20 today to discuss Bennett's social programme in preparation for Monday's debate.

### W.U.A. AND U.C. LIT

Joint meeting tonight at 8 p.m. in the Women's Union. Skits and dancing. All U.C. men and women invited.

### S. C. M.

Miss Gertrude Rutherford will speak on "After College, What?" in the common room of Cody House, Whitney Hall, tonight, from 7.30 to 8.30. This is the last in the S.C.M. series on The Art of Living. All U.C. women and friends are invited.

### VIC AT-HOME TICKETS

Tickets will be sold today for the last time from 1.30 to 2 p.m.

### ACTA VICTORIANA

Acta Victoriana staff tea, today, at Wymilwood at 4.30.

### MACDONALD-CARTIER CLUB

There will be a luncheon meeting on Friday, Feb. 22, and the annual meeting of the Federation of Young Canada Conservative Clubs will be held Saturday, February 23, followed by a dinner and a dance. All members are urged to be present at both these meetings.

## 'TWIXT TWO

Dear Phyllis:

"Think of the poor guy from Tibet!" "No, no, think of the poor guy from the North Toronto Collegiate who comes down here to Varsity and still worships Conacher or Red Horner..." Two men in Hart House bitterly disputing the advantages of being a missionary's son.

Missionaries' offspring are sensitive about their peculiarities, but they are forced to masquerade as conventional Ontario-breds. It is only natural that a child who has lived in comparative seclusion within a foreign culture, in a warping religious atmosphere should be fundamentally different; he has a broad outlook on international problems but he is unsophisticated in individual contacts; he is widely travelled but he gets on at the wrong end of the street car; he knows something of exotic religions but has no critical foundation for his own.

When he enters University society where agnosticism and casual social intercourse are *de rigueur* he finds all his vaunted savoir-faire of no use to himself, and indeed distasteful to his fellows. Away from the steady influence of his home he is incapable of coping with the subtle confusion of belief and practice in western civilization. On the whole, these turn out to be only temporary disadvantages.

Both of us have friends born, but not brought up in the Orient; I wager they are better off than if their parents had personally superintended their adolescent years. There is much to be said for the system of State education of children. Don't you think you would have been a more accomplished woman if you had been turned over to be trained by educational experts? But then, you are satisfactory as it is!

Your devoted

—Ted.

## Professor, Student, Even Co-ed Cleave Air Like Gangster Lead

The following has been submitted to *The Varsity* as the ruminations of one, D.K.M., upon reading an editorial decrying the almost universal local desire to take a run and slide on every available piece of ice. The editorial appeared in last Friday's issue of this paper:

Breathes there the man with soul so dead  
Who never to himself has said:  
"Aha, I spy a slide ahead,  
And though I may land upon my head,  
And wake up in a hospital bed,  
Or even wake up very dead."

### DUSHMAN TO LECTURE ON METHODS OF LIGHT

(Continued from Page 1)

cent developments in artificial light sources.

Dr. Dushman, who was born in Rostov, Russia, and crossed the ocean when seven years old to settle in Canada, graduated in 1900 from high school in Toronto with the highest honours in the province, and matriculated at Toronto University, having won the Prince of Wales Scholarship. He received his B.S. degree in 1904, and for five years acted as demonstrator in electro-chemistry at his alma mater. In 1909 he became a lecturer at the University in the same subject. During the last three years of this period he studied for and received his Ph.D.

In 1912 Dr. Dushman joined the research laboratory of General Electric at Schenectady, and became an associate of Dr. Irving Langmuir, Nobel prize winner and then assistant laboratory director in investigating the characteristics of vacuum tubes. In 1922

he became director of research for the Edison Lamp Works at Harrison, N.J., returning to Schenectady again in 1925, when the two lamp works were combined to form the company's incandescent lamp division.

Dr. Dushman's work has been with the production and study of high vacua, with vacuum tubes, electron emission phenomena, photoelectric cells, and with the study of electrical discharges in gases at low pressures. He has also done some work on physico-chemical problems, in 1921 developing an equation for unimolecular reactions.

He published a book, "High Vacuum", in 1923, and for many years has been a contributor to the *General Electric Review*, the *Physical Review*, the *Journal of the A.I.E.E.* and others, writing upon the structure of matter, magnetism, the kinetic theory of gases, and many allied subjects. He is a member of the American Physical Society, the American Chemical Society, the American Association for the Advancement of Science, and the American Institute of Electrical Engineers.

## INCONSEQUENCE

(Continued from Page 1)

first-rate contribution in art, literature, music or political thought, demonstrates that they lack the imagination which is so essential in a creative scientist.

The implication in all this is that women are incapable of being educated in the sense in which education is understood at a university. This in itself should occasion no astonishment or concern, for it has long been recognized that women have a primary function which has nothing to do with education. But while co-education may have failed in its purpose of educating women, it appears to have had one consequence and that a serious one. It has brought women into association with men while in the pursuit of education with the unfortunate result that men have been seriously hampered by this association. The failure of various political clubs on the campus has been ascribed to the presence of women in their memberships. Many and loud have been the complaints that the Victoria College Debating Society is getting nowhere in the training of future leaders in Canadian political life because it admits women. On the other hand many distinguished statesmen and public leaders have developed their forensic skills and their ability to think clearly at sessions of the University College Parliament. In this regard we rejoice that the suggestion to admit women to Hart House Debates was promptly set aside.

Women's organizations on the campus have made no noticeable contribution to the University as a whole or to their individual members. The various science and journal clubs on the campus whose nominal purpose is the discussion of scientific problems have become tea clubs and dating bureaus.

We do not know much of the purpose or organization of the Militant Misogynists at the University of Alberta, but if they do nothing more than to bring into complete review the question of co-education, they will have justified themselves. It is a question which might well be considered by intellectual students at this University.

J. V. M.

To every male who has work to do it becomes a conviction that women (no, not The Ladies) are an intolerable nuisance. D. H. Lawrence has said the characteristic of all true males is Purposiveness, and of females something else. Schopenhauer's womanphobia is well known to all males past adolescence. St. John the Baptist and St. Augustine both call women something worse than useless: "too vile for the grave" is among the mildest of their epithets. It will be remembered who said "Woman, what have I to do with thee?"

Biologically, woman has had, so far, a use. Woman's body has been designed by the mechanical-engineer Evolution for the purpose of reproduction; woman's body has been decorated by Father Nature to distract men into the grand biological game; and woman's mind has been planned so that not serious and enduring work will occupy it, but the maintenance of a source of reproduction and the nurture of the products.

It was Dr. Schopenhauer who ploughed through the mists of biology and saw that woman's physique was really unaesthetic. Biology-bound males speak differently; and we infer that woman seriously innuendoes men's aesthetic judgments. Therefore do male architects in Toronto still design sham-Tudor and pseudo-Georgian houses, whereas a fine functionalism is expressed in Berlin, where Reichsfuehrer Hitler has begun to put woman in her place.

In the economic sphere, women have intruded into the industrial and clerical and professional ranks; if often they are successful and efficient, it is because they work without imagination, like robots instead of human beings; wherefore males who have the creative imagination are in the bread-line. And vast in the statistics bulk items where woman supplements her biological power; if she remained in purdah where cosmetics and financially-toplopy finery are useless, the economic energy saved would employ the men in the breadline in manufacturing food and housing.

Samson.

## EDITOR OF MACLEAN'S TALKS ON REPORTING

(Continued from Page 1)

New York would do the Prince untold harm. He insisted, however, and drove from Whitehall to the City Hall standing on the seat of the car, all the while smiling in such a disarming way that he completely won the people's hearts, and there was not the slightest disturbance. During this visit the Prince kept the reporters busy twenty-four hours of the day.

"When you look at your newspaper," concluded Mr. Moore, "don't be discouraged when you read the comics; remember that there wouldn't be any if the people didn't want them. A recent survey proved that 67 per cent of the women read the comics and 7 per cent the foreign news. \$2,000 was sent spending the highspots of the Dempsey-Carpenter fight from Jersey City to a paper in Australia, while the same paper allowed only \$10 to get the results of a disarmament conference also held the same day in Washington. But the foreign correspondent of the better type of newspaper is trying to tell the truth, and is more truly the ambassador than the man who wears the uniform, for he really represents the people."

## ATHLETIC HEADS SILENT ON HOCKEY COACH ISSUE

(Continued from Page 1)

it would, but it was suggested by A. H. Squires that some information should be forthcoming after this meeting.

Both Mr. Squires and Mr. Magladery, who are VI year Meds students, followed the example of Professor Mackenzie and refused to comment, the former intimating that some information might, possibly, follow the meeting of the Directorate, scheduled for tomorrow.

The editorial in question was headed "The Hockey Situation", and questioned the reason for Warren Stevens' appointment as hockey coach despite adverse feeling in the University and over the heads of several officers received from sources more likely to be acceptable for the job. The editorial implied that this year's failure of the Varsity hockey team to win even one game in their O.H.A. group was due, at least in part, to a lack of confidence in the coach.

Student opinion on the matter was definitely in favour of the appointment of a hockey coach, which would allow Warren Stevens to devote his time to other branches of University athletics.

## The Undergraduate Newspaper

VOL. LIV.

UNIVERSITY OF TORONTO, THURSDAY, FEBRUARY 14th, 1935

No. 86

### NEWS OF THE WORLD IN BRIEF

Flemington, N.J. — Bruno Richard Hauptmann was sentenced last night to die in the electric chair on the week of March 18, for the kidnapping and murder of the Lindbergh baby. The jury deliberated 11 hours and 6 minutes before returning the verdict of guilty. Edward J. Reilly, chief defence counsel, announced after sentence had been passed that he would appeal the case.

Rome, Italy — Peaceful settlement of the turbulent Italo-Ethiopian border dispute in East Africa was brought closer as the Fascist Government prepared to attempt negotiations between the Italian minister at Addis Ababa, capital of Ethiopia, and the Emperor Haile Selassie I.

Berlin, Germany — Germany's reply to the London proposals will include refusal to join any pact guaranteeing Austria's independence unless "the will of the Austrian people" as to union with Germany is first consulted, it was stated by German officials.

Toronto — Premier Hepburn, it is understood, will report an increase of \$60,000,000 in the provincial debt for the fiscal year ending October 31 last, when as provincial treasurer, he makes his budget address during the coming session.

### SAYS HART HOUSE BEST GOTHIC TYPE

Prominent Architect Scores  
Modern Architecture in  
Toronto

#### FOREST HILL CRITICIZED

While deploring the architecture prominent in some parts of the city, mainly Forest Hill Village, Mr. Mackenzie Waters, prominent local architect, speaking in the Sketch Room yesterday, had words of praise for the architecture of Hart House, which he said was a most successful copy of the Gothic style, quite in keeping with the neighbouring building, University College, and quite superior to Gothic construction in United States universities. Mr. Waters traced the development

### S.C.M. Corner

Sunday, February 17, is the day set aside by the World's Students Christian Federation for a corporate exercise of prayer. The questions that come to the mind of most students are: why pray? and what is this W.S.C.F.?

Today, there is a widespread distintegration of all forms of organized religion, accompanied by a general unrest and feeling of fear. On the face of this the Christian message is: let man take cognizance of the "beyond" which, from time to time, we feel to be a reality. The S.C.M. likewise affirms that this "beyond", this power, or principle of life, is rooted in a God with Whom man can enter into relationship, by prayer. Now, as far as we can go back into the study of humanity, we find records of men at prayer, under one form or another. Many have criticized prayer as being mere auto-suggestion, but, judging from the records, prayer must have some intrinsic value, for, as Dr. R. Roberts wrote it: "If it had been an entirely fruitless behaviour man would have given it up." A man

## DOCTORS APATHETIC OVER HEALTH PLAN

State-Control of Medicine  
Thought Unlikely by  
Medical Students

### VALUE DOUBTED

Regulations initiating compulsory health insurance for indigents in all organized municipalities in the province will go into effect on March 1. This plan will be financed jointly by the province and the municipalities. The administration of the funds will be done gratuitously by local committees of the Ontario Medical Association. In some circles this is regarded as a step toward state controlled medicine.

Apparently the scheme has made no stir in the Faculty of Medicine. The majority of those interviewed had not heard of it. The rest confessed that they knew so little that they preferred that their names be suppressed.

"I think it is a good move, as it ensures payment to doctors for work they have to do anyway," said one fifth year student. "It was about time

## TAKE-OFF OF U.C. FOLLIES FEATURES JOINT MEETING

Acrobatic Dancing and Impersonations Are Hits of the Evening

An unprecedented event was the second joint meeting of the W.U.A. and the U.C. Lit, which was held last night at the Women's Union. Up to this time there has been but one such joint meeting each year.

The women of the W.U.A., ably provided the programme for the evening, which consisted of a take-off on U.C. Follies called the "Frighty Female Flu Flus."

Madge Shaw impersonated Saul Rae as master of ceremonies, assisted by Leslie Brennan.

An amateur chorus of young co-eds added much to the professional air of the production in which the stars were Mary Page and Kay Stewart. Mary Page, as a sophisticated country miss in overalls, rendered a modern tap dance. Later in the evening she also gave a splendid exhibition of acrobatic dancing which was the hit of the evening. Kay Stewart called forth much applause from the audience by her impersonation of Harpo.

### Men's Press Club

There will be an important meeting of the Men's Press Club this afternoon at five o'clock in *The Varsity* office.

## CATHOLIC TAXATION HELD AN INJUSTICE

Increase in Government Grant  
to Separate Schools Now  
Requested

### CONDICTIONS NOW CHANGED

The controversy concerning the share of Ontario public school taxes due to separate schools hinges on the fact that since the B.N.A. Act was framed the whole industrial situation has changed, according to Mr. Quinn, President of the Catholic Taxpayers' Association, who explained his conception of the matter in an interview with *The Varsity* yesterday. Mr. Quinn told how, whereas at the time of its passing taxes for schools were collected from real estate, Catholics are now shareholders in the promotion of big concerns that have come into existence since those days. They are users of

## St. Valentine a Man of Parts Still Bewilders Human Hearts

Messrs. Birks-Ellis-Ryrie (formerly Ryrie-Birks, formerly Ryrie's, etc., etc.) have burdened the mails on this bright and merry St. Valentine's day with a very attractive folder about engagement rings. Mr. Birks, Mr. Ellis, and Mr. Ryrie have been doing some statistical work and have discovered that more young men come into their store between February 1st and 15th than in any other two weeks all year. The folder isn't very clear about what the young men do after they get into the store; probably most of them look around nervously and go out again. Hence the little booklet, which tells you all about the engagement rings beforehand so that you can stride unblushingly into the store, plunk down your eighty dollars (or the first installment thereof), yell brusquely at the clerk, "Gimme A-3026", and having pocketed the love-band thus catalogued, head for the door. Bringing A-3026 back for a refund on the 15th is something else again.

Ever since St. Valentine slew the

Willing to Tolerate  
Fairer Sex

In the opinion of the male students a Misogynistic Society would not be successful here although they do believe that women have not the same ability as men for logical thinking and that they are not capable of coming to any but a personal or subjective conclusion, as stated in yesterday's *Varsity*. Women's opinion on the necessity of a Misogynistic Society is not available.

Many men questioned by *The Varsity* reporter agreed that women were a deterrent to a man's academic activities, but they were unanimous in deprecating the oblivion of women to sens-

## TECHNIQUE OF PLAY DEFINED BY CRITIC

Playwright's Inspiration Is  
Usually Sudden Says  
Van Druten

### EMPHASIS ON PLOT

John van Druten, distinguished young English playwright, yesterday afternoon addressed a large audience in Hart House Theatre on the subject "When is a play not a play?"

In opening his address the speaker stated that the subject had been suggested to him when he heard a lady comment, at the end of the first night performance of "Journey's End"—"It is very good, but it is not a play." "I did not understand the meaning of that statement," he said, "but I did ask myself 'Just what is a play?'"

"First of all a play must have a plot," he said, and pointed out some of the differences between a story and a plot. "The King died and the Queen died." That is a story. But "The King

## Varsity and Royal Canadians Tied For League Leadership

Coldwell to Speak  
At Hart House

Mr. M. J. Coldwell, National Secretary of the Co-operative Commonwealth Federation and leader of the Saskatchewan C.C.F., will address a meeting of Hart House members in the Debates Room today at 1.30 p.m. on the subject "Pressing Problems of the Prairie Provinces." All members of Hart House are invited to attend.

Varsity Have Best of Play  
Throughout but Lack  
Scoring Punch

### FINAL SCORE 2-2

Blues Display Best Brand of  
Hockey During Overtime  
Period

By J. F. Putney

Coach Stevens and his cast of performers displayed their bag of tricks at the Arena last night and when the furor had subsided after ten minutes of overtime the score read Varsity 2, Royal Canadians 2. The result leaves both teams still deadlocked for first place in the league standing.

There was some weird manoeuvring before the boys hung up their blades for the night. The Students played the entire game with two porters on the starting line and an equal number of right wingers on the second line, a peculiar state of affairs to say the least. In addition to this, the Blues also had to battle the referee, a decrepit old gentleman with failing eyesight who did his best to further the cause of the Royals.

Despite these disturbances to their equilibrium the Students should have won on the evening's play, but they were outluckened when around their opponents' goal. The opening period was

what Alleviated Hard-  
ships

### PEASANTS IN MAJORITY

The picture one derives from Indian and foreign lecturers usually depicts the urban life of India, but this, according to Dr. L. C. Coleman, who spoke to the Biological Club last evening, is not an entirely fair view to give. Approximately eighty per cent of the population depend for their income on agriculture, thus leaving a relatively small percentage engaged in the industrial and professional life of the city.

The most potent factor in Indian agricultural life is the ever-present

## DEBATES COMMITTEE ELECTIONS ANNOUNCED

Mr. A. D. B. Marshall (III University College) and Mr. S. F. Rae (III University College) were last week re-elected to the Hart House Debates Committee for 1935-1936. The remaining six undergraduate members will be elected at the final debate which will take place on Wednesday 27th February. Nominations (for this committee only) open at 9 a.m. on Wednesday 20th February and close at 6 p.m. on Monday 25th February, with withdrawals being permitted until 2 p.m. on Tuesday 26th February.

The following change has been made this year in the election procedure of the Debates Committee: "After two candidates have been elected from one college or faculty any candidate from another college or faculty which as yet has no representative elected shall be elected to the committee if he has polled at least 40 votes, the faculty or college of the two members carried over not to affect the election of new members."

Nomination forms are now available at the Warden's office.

## MEMORIES

1923—Professor J. F. Aggrey, M.A. visited the University on his way out to join the British Advisory Committee on Education. Professor Aggrey was both a graduate of Columbia and a native prince of Africa.

1926—Head Coach McCutcheon became the fact that to get four hundred people out to watch a basketball game you had to hold a dance after the game. He was considering having some American teams up to show the public what the game was like.

1927—Trinity was not the only place gowns were worn. The U.C. co-eds held their third annual Gown Week, when all co-eds wore gowns between lectures from October 1 to November 4.

1930—When asked to comment on the epidemic of coat-stealing one Simcoe Hall official said, "There is too much puff published in *The Varsity*. We don't want any published about this."

## Recognizing Our Graduates

In a recent interview with *The Varsity*, His Worship Mayor Simpson expressed hope that something might be done during the course of his term in the way of recognizing the value which the University has to the city of Toronto. *The Varsity* is pleased with this mark of interest; we welcome every move that would make for a close relationship between the University and the city; we hope that the authorities of this institution will see fit to reciprocate, believing as we do that closer co-operation will lead to beneficial results on both sides.

Mayor Simpson's suggestion is that a day be set aside in which the importance of the University's part in the culture of the city might be stressed, and also to give an opportunity to the city of making proper recognition to the graduates.

All of this we heartily approve, but it would not be amiss to point out at this point that there is no more tangible way of paying tribute to the University and the graduates than to grant to its students, in fact to grant to all young people over twenty-one the municipal vote.

The city of Toronto, as does all municipalities, has a definite obligation towards young people, especially so towards young people who have been trained in University institutions. These graduates leave college with their degrees, fully trained and eager to enter into the life of the community. Yet so often do they find their services not wanted, they learn that they cannot be absorbed into industrial or academic service, that seemingly their hard work is wasted so far as tangible results are concerned.

Yet Toronto needs these University trained men and women. With their fresh outlook and their optimism they come to stake their interests in this community. They are valuable to the city. *The Varsity* believes and maintains that even if they are not able to find positions owing to present unsatisfactory conditions, yet by virtue of their very willingness to enter community life they should not be denied the right to participate actively in the affairs of civic government. We are confident, moreover, that they would use the privilege extended to them sanely and wisely and to the best interests of the city. After all the jazz age is past, young people are not irresponsible.

The extension of the franchise is also provision for the future. Some day these young people are going to take control. If the city denies them the vote now, how will they be able to handle unprepared the intolerable condition left by the vacillating and fear-ridden older generation?

There could be no more sensible step taken in the direction of granting suitable recognition to our college graduates than to extend to them the power to change their present environment which lies in the municipal franchise.

## Huey Long, —Pro and Con

The American people spend a great deal of their spare time talking excitedly about Hitler, Germany's iron-handed Dictator; many of them do not seem to realize, or at least do not seem to be interested in the fact that in one of their own States, in Louisiana, there rules a Dictator not one whit less iron-handed than Herr Hitler. Huey Long, in five days of legislation, transformed Louisiana from a democracy into a military despotism. Now, with supreme arrogance, Long rides roughshod around the state

and over the heads of his political or private enemies much as does Hitler in far-off Germany.

Seven years ago Huey P. Long became Governor of Louisiana; at that time the State was illiterate, badly run, without highways and without bridges. Now Louisiana boasts over 3000 miles of State highways, a complete system of schools and many of the finest bridges in the country. Throughout his terms as Governor and now as Senator at Washington, Long has fought steadily for the lower ninety per cent of the Louisiana electorate; his worst enemy has been the mighty Standard Oil Co., and legislation after legislation has been directed at them and their kind. Recently he conducted a "Holy War" against the gamblers and vice merchants of New Orleans, and succeeded in purging, not only that notoriously evil city, but most of Louisiana in addition. Long's great platform is the redistribution of wealth, the limiting of incomes to \$1,000,000, and of capital to \$3,000,000.

In the last six years, with Huey Long at the helm, the Public Debt in Louisiana has mounted from \$11,000,000 to over \$100,000,000. Long has been accused time and time again of using his powers as Governor or Senator to carry on his private war with the Standard Oil Co. and of handing out State jobs to his henchmen at exorbitant salaries. His great ambition in life is, admittedly, to become Dictator of the United States. He has organized a nation-wide chain of clubs pledged to follow him, he has meddled more than just once or twice in the affairs of other Governors and other States, and his main thought is "Power!"

In Louisiana, Long has established virtual martial law by calling out the State militia and the National Guard and passing laws such as those forbidding the gathering of more than two people on the street. Usually travelling with a bodyguard, Long has had one or two narrow escapes, recently, from assassination. His worst enemies have always been the Oil companies and the city of New Orleans. A private police force of Huey Long's, that operates much as did the OGPU in Russia, patrols the State and brings all the news and rumours to the ears of the Dictator.

Although it is true that the number of illiterates in Louisiana has been decreased by nearly 100,000, and that the State has provided the text-books in use at the new schools, yet it is equally true that few of the teachers are being regularly paid and that a great many of the new schools have been forced to close their doors for lack of funds. Louisiana's new roads may be beautiful to look at, but they are of little real value for gasoline has been so heavily taxed that motoring has not increased greatly despite the other facilities.

## The Wastebaskets of University College

University College is a beautiful place.

We are not saying this, however, with any idea of writing a eulogy. We are stating a bare fact that anyone will admit, even a man from Victoria or the School; for we have a wonderful institution to the north of the main campus, one that is admired throughout the world and that figures on more pictures of Toronto than any other building in the city. It is perfect in practically every detail, architecturally, educationally, and comfortably. But there is one glaring omission: it has no wastebaskets!

What went wrong when the powers-that-be forgot them as they went about the place installing this and that? They might have been within their rights if they refused them in the lecture halls on the assumption that they would become easy targets during drowsy hours, but if in that case, why were there none for the corridors? Surely there are plenty of nooks and crannies where they might be of use and still be out of the way.

It is most annoying to find yourself with a scrap of paper which you must either drop on the floor, take with you, or tuck behind a radiator, which latter we admit to be our most frequent practice as it is most convenient and least unsightly, although we are a trifle afraid to interview the caretakers on the subject. Even though we appreciate that things should be kept neat and clean, we cannot see why we should be forced to go for hours trying to get rid of something we should find as easy of disposal as it is in Hart House.

We cannot say for certain how the other buildings are fixed for these conveniences, but certainly the elder sister of them all should be provided. If we were a young Communist, we should threaten to go on a strike until the question was settled, but not being a young Communist, we shall merely draw attention to the subject and suggest something should be done about it.

The Sahara desert was found to be the source of dust falling in Great Britain during a recent storm. —The Stanford Daily.

## ART, MUSIC & DRAMA

### The M.C. Pingers' Guild

Yesterday afternoon the Players' Guild presented the third act of *Candida* in the theatre of the Women's Union. The piece was under the direction of Gordon Robertson. The production was one of the best acted bits the Guild has put on for some time, the highlight being Ted Seythes' interpretation of the young poet. Although Mr. Seythes' movements are at times jerky and undecisive, his voice shows amazing improvement. Donald Stewart, who played Reverend James Mavor Morell, has done considerably better acting than he did yesterday. He played the part too calmly and without enough force. Anne Ferguson's initial Guild appearance was a decided success; as Prossy, she gave a very delicate but sound performance. Miss Grabbell orated occasionally, as did some of the others, but her stage demeanour is very satisfying. The presentation was particularly fine because it gave the desired effect of an entity in which all the cast fit together.

M.B.L.

### U.C.S. Dramatic Society

Last night the U.T.S. Dramatic Society made a valiant attempt to present *Henry IV, Part I*, one of a group of Shakespeare's plays which are most difficult to produce by an amateur company.

It is interesting to note that the exacting scenes in the tavern and on the field of battle were the most successfully portrayed. Mavor Moore, in the role of Falstaff, was excellent; his manner was particularly Falstaffian, with an amusing mixture of the drunken old rascal and the little naughty boy in his demeanour. His voice was remarkably fine and flexible.

Harry Tattersall, as Prince Hal, had moments of lucid drama, but generally the effect of his excellent voice and diction was slightly marred by a tendency to gesticulate flightily, and an over-anxiety to prove his madcap youth by constant laughter. Charles Walker, as King Henry, gave a splendid performance, lending his role a certain restraint and power which made (Continued on Page 4)

With the Vic At-Home and the School Formal both coming on the fifteenth, local merchants should chalk up a new low in Valentine sales. One Mundusvult Deicipi, however, has solved the problem in his own enigmatical way. He writes 'em and we print 'em. He may know why he writes them.

It ain't the heat, it's the Cupidity.  
—The Muddy Yorker.

## Made in the TIME-HONOURED WAY

Many experiments have been attempted in making cigarettes, but nothing has yet been found to equal the time-honoured Sweet Caporal method. It calls for the choicest tobaccos, aged and mellowed like vintage wine for at least thirty months, then firmly rolled in the finest papers. It requires a large amount of money, and complete facilities, but it's the only way to make a good cigarette. This is why more and more smokers are saying every day that "Sweet Caporals are milder—and they taste better!"

# BLUE BASKETEERS MEET MCGILL HERE SATURDAY NIGHT

## THE SPORTSWOMAN

By M. A. F.

This is the big day for the all-star hockey team try-outs. All enthusiasts are expected to put in an appearance at 1 p.m. at the Arena. Perhaps it would seem that we have been harping overly much on this matter of mediocre players getting out and joining in the fun. But the Hockey Club is very keen to give everyone the chance and the rest is up to you. Every faculty would surely like to be represented on this outfit so will those in charge of the various teams who have competed in the interfaculty games see that at least their best players are sent up.

There has been a change made in the managers of the intercollegiate basketball teams since the beginning of the season. These managers have tough jobs and definitely deserve recognition. So we are taking this opportunity of making it known that Lib Leach is managing the senior squad and Hazel Brown is attending to all details in connection with the intermediate group. It is hardly necessary to repeat that Muriel Atkin is coaching the first team and Kay Mackenzie the second.

U.C. and St. Hilda's have both run off their swimming meets. The Vic event is scheduled for next week. St. Mike's are not having a meet. What we are driving at, however, is that these meets are only the beginning of the grind. From now on until the final meet everyone who hopes to swim for her college must get into training and practice systematically. We have no intercollegiate team so this interfaculty contest is the big women's swimming event of the year, and it depends on the contestants to make it a success.

It is the St. Hilda's squad which will meet Vic I at 1 p.m. on Friday in the interfaculty hockey finals. U.C. was forced to take the lower berth in the 2-1 tally in which their game yesterday with the Saints resulted. The game was close and hard fought all the way through. There were several exciting scrambles at both goals. Mary McDonald, who tended the danger point for the Saints, showed herself to be highly efficient and made some beautiful saves. Elaine Knight and Mary Dignam were especially good on the Blue and Grey team; for U.C. Betty Mark and Charity Grant were, as usual, outstanding. U.C. was considerably improved by having Charity on deck again.

## VIC WINS VICTORY IN 'POLO FINALS

Moves into Commanding Lead When S.P.S. Outplayed in Dull Game

Victoria College water polo team secured a commanding lead in the first game of the finals of the interfaculty series. Yesterday in Hart House pool they defeated Jr. S.P.S. 5-0 and take that lead into the last game of the season on Friday. This gives Vic a strangle hold on the title and nothing short of a catastrophe will prevent them taking the cup. However, the School team were away below par yesterday and outside of Oter did not display nearly the speed of which they are capable.

In the second half School missed one real chance to score when Oter's drive drifted past the goal post. The Vic goals this period were scored by Menzies Whiting, and Hay. Fisher, the rangy centre, assisted in each one. Vic scored another a split second after the final whistle blew on the combination of Dalziel to Whiting.

For the winners the whole team played very well, much credit for which must go to coach Devitt. This team was the best coached outfit to appear this year. If it is possible to pick stars without discrediting the work of the others, then the orchids go to Fisher, Hay and Dalziel.

## Senior Med Sextet Bow to U.C. Squad

U.C. Seize Opportunity to Score Three Goals in Closing Minutes

### MEDS' CONDITION POOR

U.C. eked out a 4-2 victory over the poorly conditioned Sr. Meds sextet yesterday afternoon at the Arena. U.C. took a 1-0 lead after fifteen minutes of play but Lynch tied the score shortly after the start of the second half. U.C. finally were able to capitalize on their numerous scoring chances and ran in three goals in the last five minutes, while the determined doctors were getting their second counter.

Play opened up at a fast clip with the line of Coulter, Keilh and Harwood working in close with neat combination play, but they were unable to hit the open net on numerous occasions, and it was not until near the close of the period that Harwood scored from a scramble.

The embryo doctors were able to hold their own against U.C.'s second line, but were unable to match strides with the fast stepping regulars, who missed glorious scoring chances time after time.

The Meds started the second period with the best display of hockey they showed during the game and Lynch tied the score on a beautiful solo goal.

The game developed into a very close checking affair and play only opened up when Bobby Coulter and his wingmen were in action. With five minutes to go this line started to click on their passes and scored three goals in as many minutes, all three of which spelled class for the scorers. Young scored the doctors' second goal in the closing seconds of play on a long drifter from outside the blue line that slipped in between Pritchard's skates.

## VARSITY SQUAD TIE ROYAL CANADIANS

(Continued from Page 1)

a drab affair, with very little hockey being played. Rey was penalized at the two minute mark (reason unknown) and during his absence Nicholson tallied during a scramble on a pass from Boston. Porter then got the gate and the Blues put on a five man rush but failed to score.

Jeffrey romped right through as the second canto commenced but lifted the rubber over the net. Rey barged in solo but Carey was too good. McIlquham was judged and the Royals started ganging. Valiquette brought a roar from the crowd when he went down the right boards and scored. It was a pretty play.

Royals kept on ganging as Varsity were still one short and finally Roden dented the twine during a scramble. Their lead was short-lived, however, as Devine tore down centre, neatly split the defence and walked right in on Carey to notch the equalizer. This play was the best individual effort of the contest.

The Blues had several grand chances during the final period, but Lady Luck was not with them. Charles went in alone for what appeared to be a sure score but his shot was weak. Rey then skated through the entire team and with Carey at his mercy hit the post. A few seconds later Devine coasted in but couldn't beat the Royal net-minder.

Varsity made one last effort during the overtime but Carey couldn't be beaten. McIlquham backhanded one which the goaler juggled but finally deared. Devine stickbanded through but missed the net. The Blues shelled Carey from all angles during the final two minutes but they could not garner the winning tally.

The majority of Varsity's plays were individual efforts since the wingmen were lost in their new positions and combination was impossible. Longuehead turned in his customary starry performance and was a tower of strength to the team. Devine and Valiquette went well up front.

## SPEAKING OF SPORT

By W. A. Crockower

The recent rumblings which have come from London smack of the spoiled child who has been unlucky enough to have lost something which he now values quite highly. The lost articles are Alex Munroe and Bill Bodrug, members of Varsity's intercollegiate senior basketball squad and the spoiled child is collectively the student body of the University of Western Ontario. When Bodrug appeared on the Varsity line-up last year a mild protest was voiced by Western. However, Munroe's arrival on the stage seems to have been a little too much for our Purple and White friends. When Alex walked on to the floor at London last Saturday to play against Western he was greeted by as loud a salvo of cheers, of the "Bronx" variety, as we have ever heard. The displeasure of the fans was clearly evident. On analysis the situation boils down to the fact that University of Western Ontario students, guided by a misinformed *Gazette* think that, by playing Munroe and Bodrug, their team is being wronged.

Briefly the facts of the case are these. For the past three years Munroe had coached Western's senior basketball squad, while two years ago Bodrug mentored the Western Second eage team. Being paid coaches neither could play for Western. Due to a change in the rules, last year, both Bodrug and Munroe were eligible for amateur competition—after a certain specified period of time had elapsed. Bodrug, we believe, had to wait ten weeks, or some such period, and Munroe had to kick his heels for a year. The former's period passed during the summer before he registered at Varsity and the latter spent his term of waiting in his last year at Western. Both are therefore eligible to compete this year. However, West End Y raised a protest against their playing for Varsity in the Big Six and both lads appealed to the amateur officials for an investigation with the result that cards were granted to both. In view of the above facts it seems that Western is simply peeved at having been unfortunate enough to have lost the services of the two lads, since they surely can't question the amateur standings of the two players.

The case of Munroe is a strange one. Although an all-round athlete, Alex was certainly not a star at the cage pastime when he first turned out for the Blue squad. The foundation was there but the polished playing of a senior performer was not evident. However, under the careful tutelage of Lew Hayman, Munroe has developed into a capable centre player, a man who is highly dangerous under the baskets. We doubt very much whether anybody else could have turned Munroe into a star in so short a space of time. Alex has never before played for any basketball team and therefore Hayman deserves credit for manufacturing a dependable centre player for the Blues.

The big Red squad from Montreal will pay us their annual cage visit on Saturday. After a reign of four years the McGill crew have been toppled so heavily from their throne that they have fallen down to last place in the intercollegiate senior series. The Red crew have lost two home games to date and have yet to chalk up a win this season, which means that the Blues should have an easy night on Saturday. In the preliminary game Mac McCutcheon's fast-travelling Seconds meet the O.A.C. contingent in a game which should definitely give Mac's men the intercollegiate intermediate title. The Blue Seconds form a speedy, smooth crew which are far beyond the calibre of ordinary second teams.

Some time today the B. W. and F. team depart for Kingston for the intercollegiate assault. This year's assault will mark the entrance of the O.A.C. battlers into senior assault competition, which should make competition for the title a lot keener. Varsity is again expecting to bring the title back to Hart House, for the third successive year. However, if the O.A.C. wrestlers succeed in taking a few of the bouts in the grunt and groan department, which is Varsity's stronghold, serious complications may develop for Varsity. Those of you who remember seeing the Guelph grapplers in action, last year in the interfaculty assault will at once recall that they were classy performers. The O.A.C. aggregation of wrestlers will take plenty of shoving around before succumbing.

Mac McCutcheon's Blue juniors failed to take the second of the Y junior playoff series and as a result the record is one win and one loss. The final and deciding game of the series will again be played at Broadview Y, thus giving the East Enders a decided edge in the series as Broadview squads are hard to beat on their home floor. The Juniors have a powerful fight on their hands and should they win they'll know they've been through a struggle.

Warren Stevens' Beavers were held to a 2-2 draw last night in the Major Commercial series. There seems to have been something wrong last night. On one line Steve had two right wingers in action and on the other he had two left wingers performing. We never did claim honours as a hockey authority but we feel sure that with such a situation Steve had a good part of his team operating at a disadvantage throughout the contest. Or are we wrong again? It seems to us that this system is quite an innovation in hockey circles but hardly one to ensure success.

## DRUGGISTS TAKE S.P.S. IN FAST BASEBALL

In an interfaculty baseball game yesterday afternoon in the big gym at Hart House, Pharmacy defeated Sr. School by 9-4. The game was fast and exciting, both teams displaying an excellent level of ball.

The Druggists slugged the ball often and hard until McLaughlin came into the box for School and finished the game off by striking out the first five men to face him.

Pharmacy: Ford, Pugen, Kofsky, Goldie, Green, McEain, Powell, Hall and Stewart.

Sr. S.P.S.: Silver, Troster, Dembitsky, Hawker, Young, Sweet, Junker, Smith McLaughlin.

Umpire: W. Crockower.

## S. P. S. BASKETEERS WIN OVER GUELPH

Yesterday afternoon Sr. S.P.S. interfaculty basketball team defeated the O.V.C. squad from Guelph by the decisive score of 29-10. The game, played in the upper gym at Hart House, was too heavily checked to permit any brilliant playing.

## BROADVIEW CAGERS CRUSH BLUE HOPES

(Continued from Page 1)

Shack and Merson led the easterners to a fiery finish to keep ahead of McCutcheon's men, who staged a last rally. Molson and Dorsey, playing coolly, finally led the undergrads to their usual brand of ball so that the Blues cut down a 23-10 lead to 25-20. With four minutes to go the Y.M. players resorted to a methodical keep-away to keep their heads above water until they reached shore.

Last night's winners accounted for

## Simpson's Advance Sale of Spring Suits and Coats

You must have a suit this Spring to be in the Fashion swim, so why not buy it at Simpson's NOW when the Advance Sale prices offer substantial savings. We have a colorful, dramatic group with all the features that make fashion headlines. Suits and coats are tailored, sporty or definitely dressy. They are swagger, fitted, flared or caped. Materials range from stimulating new tweeds to classic plain wool weaves.

Choose your Spring outfit NOW, while prices are dollars less than they will be in a few weeks, when the regular Spring season breaks.

THE ROBERT SIMPSON COMPANY LIMITED

## Sport Notices

**Indoor Track—** All those interested will turn out at 5.15 p.m. sharp on Tuesday, Feb. 19 for the following events of the interfaculty indoor track meet: 1 mile relay, 100 yds. dash, standing broad jump, shot put.

**Jr. U.C. Basketball—** Game with Victoria College postponed till Friday, Feb. 15 at 4.10 p.m. Following team out: Lucash, Shaberman, Levine, Sharpe, Holt, Huminick, Beatty, Girstein, Applebaum, Beckett, Ortvad.

**Jr. U.C. Baseball—** Practice today at 2-3 p.m.

**Women's Basketball—** The following is the selection of players for the intermediate Varsity basketball team: Forwards: Joyce Tenenbaum, Myrtle Robb, Louise Prior, Ruth Thomas, Betty Jenkinson, Hazel Brown, Doris Wagstaff. (Any people who would like to turn out for practice will be welcome.)

The intermediates will play a game with Macdonald Hall, Guelph, in Hart House gym, at 6.45 p.m. on Saturday, Feb. 16.

Monday night, 6 p.m. in O.C.E. gym. Varsity intermediates vs McMaster intermediates.

**Jr. Vic, Jr. U.C. Basketball—** Game scheduled for Thursday will be played on Friday, Feb. 15 at 4 p.m.

## Coming Events

- THURSDAY, FEBRUARY 14**  
 1.30 p.m.—Mr. M. J. Caldwell, National Secretary of the C.C.F., will address an open meeting of men in the Debates Room of Hart House.  
 5 p.m.—At the Women's Union Dr. Gwen Mulock will give the third lecture on "Eugenics and the Individual Responsibility."  
 8 p.m.—St. Mike's vs McMaster, intercollegiate debate: "Resolved that the League of Nations was justified in admitting Russia."  
**FRIDAY, FEBRUARY 15**  
 8.30—Open meeting of the Toronto Branch of the Student League of Canada at the Women's Union. Dr. E. Burnham Wyllie will speak on "Social Credit."  
 5 p.m.—Open meeting, Medical Society, Anatomy Building. Speaker, Dr. John S. Lundy, Mayo Clinic.  
 Victoria College At-Home in Hart House.  
 4 p.m.—Political Science Graduate Group meets at the Graduate Union. Miss Irma Pattison will speak on the economies of retail merchandising.  
 Friday 15th. Open debate between St. Hilda's and Trinity, in Trinity College Library at eight o'clock. "Resolved that Man is a Higher Being than Woman." Refreshments.  
**SATURDAY, FEBRUARY 16**  
 4.30—V.C.U. women's tea dance, at Wymilwood.  
**SUNDAY, FEBRUARY 17**  
 4.30—World Student Christian Federation Day of Prayer, S.C.M. International Tea. Speaker: Miss Gertrude Rutherford, 79 St. George St. Tea will be served.  
 9 p.m.—Wymilwood musicale. Guest artists: Mignon Telgman, violinist, and Frederick Skitch, pianist.  
 9 a.m.—Holy Communion, Hart House Chapel.  
**MONDAY, FEBRUARY 18**  
 M. and P. At-Home. Dinner 7.30-9. Dancing 9-1.  
 4 p.m.—Women's Debating Society at the Women's Union. Debate between U.C. and Trinity. Tea will be served.

## Buckingham Contest Winner Announced

The winner of the Buckingham Limerick Contest, advertised in *The Varsity*, which ended February 9th, was J. Moranis, 15 Lauder Ave.  
 The limerick as completed by Mr. Moranis is as follows:  
 "Once an art stude named Timothy Teazy  
 Found himself both shortwinded and wheezy  
 Till, wise man, he turned back  
 To his Buckingham pack,  
 Now he smokes, while he jokes! it's so easy."

## INCONSEQUENCE

### A Misogynist Speaks

From industrial employment thoughtful men would relegate woman to the home. Even there the creative imagination of man has made vacuum cleaners and washing-machines and all other devices that really make useless a special half of humanity to work them. Women prepare food in most homes; but the culinary geniuses have invariably been men. (Men, moreover, do excel in the designing of clothes for women.) The institution of the home is itself a piece of womanish claptrap, evolved by woman as a place of secure uselessness for herself, and by all true males detested. They hate ladylike tidiness and feminine frippery: it is true that a million men can make an encampment but only a woman a home; men prefer the encampment, or at any rate the club. The ideal of the Canadian home is of a piece with the "sweet and pure influence of God's noblest creation, woman", and both have blighted life and art to move all thoughtful males to masculine profanity.

As for the life of the mind, it is there that the intelligence of men is paramount, being creative and realistic and dynamic; if it fails of being these things it is because the biological cellophane suffocates it. In themselves, woman is inutile in intellectual and cre-

## STRUCTURAL FAULTS HELD CAUSE OF "MACON" WRECK

(Continued from Page 1)  
 U.S. Airship Akron, which crashed under somewhat similar circumstances with a loss of 73 lives, and the numerous French and English dirigible disasters in recent years, Colonel Joy stated that the frequency of these accidents would indicate that there is something radically wrong in the design of airships. "The airship," he said, "has most certainly not proved its efficiency. It is subject to air and wind conditions which do not affect the airplane, and which have not as yet been satisfactorily worked out." Colonel Joy had just returned to the city by plane when interviewed and was not familiar with all the details of the disaster.

Professor T. R. Loudon, Professor of Applied Mechanics, was of the opinion that airships of the size of the Macon could be built to operate safely. To substantiate this, he pointed out that the Germans were now operating a regular airship service to South America. "It is a difficult matter," he said, "to construct such a ship, but it has been done." He stated the difficulties to be of such a technical nature that it would be impossible to define them for newspaper publication. "The ship is designed to withstand all known emergencies," he continued, "but once in the air may meet with unforeseen contingencies." Its weakness lies in the fact that once in the air it may meet with weather conditions on which the designer has not counted. "In theory," he said, "there is absolutely no reason why a serviceable airship of the size of the Macon can not be built."

## SAYS HART HOUSE BEST GOTHIC TYPE

(Continued from Page 1)  
 of houses in England from the time of the Romans until the present. He pointed out that the earliest houses were designed as a means of defence, and this idea is dominant in their construction.

Mr. Waters went on to show that with the 13th century the house planned to include some measure of comfort was first developed. The idea of defence was still outstanding, however, and so all living quarters for the owner and his family were on the second floor. The following centuries saw the changing of the living quarters to the ground floor, and the introduction of bay windows, fireplaces, etc.  
 In the 18th century, domestic architecture took its first step backward with the Gothic revival. Mr. Waters stated. Instead of adopting the fundamentals of Gothic architecture, Gothic detail was merely imposed on Renaissance structure, with disastrous results. Mr. Waters did not deal with the Victorian or Georgian periods to any great extent.

## Women Lead a Double Life First a Stenog. Then a Wife

A modern thinker has said: "The so-called emancipated woman is a fool." We might also add that she is a fraud. We recall a cartoon which represented a girl whose bulging biceps were revealed in a fashionably cut evening dress as saying to her escort: "Isn't it wonderful how we girls can play your men's sports all day and then be so feminine at night!" In every sphere of activity which women share with men they reserve the right to be feminine when they wish. And the girl who, in her role of business woman, would not require her associate to yield her his seat on the street car, can in a moment assume the more natural part of the affronted woman, the helpless woman, the provocative woman,—which her mothers have played since Eden's gates swung ajar. Talk business to me while the sun shines,—but caress me after dark as of yore!

The co-ed of our classes desires to be our good companion. She insists on paying for her lunches, for her theatre tickets and her cigarettes; she would like us to swear before her (if we would), she wishes us to criticize her work as we would our own. But under the moon or over the lunch table the bubble may burst, and our little friend of the psychology lab lays off the mental habiliments of an inter-sex and becomes in mind as in body a woman once more.

We wonder if women have forced

themselves into the universities because they wished equality with man in the matter of education, or because the men were there first. We could believe in their sincerity if we saw them doing sound and constructive work in their own associations. But while this may be possible, they very evidently prefer to share the activities and "opportunities" of men's organizations. A man welcomes office or responsibility because it offers him a chance for the exercise of his intellectual talents; we are compelled to believe that women seek equal opportunities and distinction more for the satisfaction of being associated with men. This would be tolerable if the effect of their participation were nil; but the usual effect is actually the vitiation and devaluation of activities which might otherwise have had a positive value.

The experiment of co-education has now proceeded for some years, and the time is at hand when the results of that experiment must be critically considered. If the average co-ed is more interested in the flowers she receives on graduation day than in her sheepskin, more elated on seeing her picture in the paper than in hearing the Chancellor's "Admitto in Universitatem", then the University is no place for her. For our part, we feel that the majority of the co-eds of our acquaintance would rather receive a valentine than a B.A.

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at either the men's office in Hart House, or at the women's office in University College. No notices will be taken over the telephone, after 6 p.m. notices must be taken to the Press Building. Notices for the Bulletin Board are limited to ONE insertion only.

### RIFLE ASSOCIATION

A team practice will be held tonight from 5.10-6. Don't miss it as there will be no practice on Saturday.

### VIC AT-HOME TICKETS

The few remaining tickets will be sold today in the college hall at 1.30 to the first comers.

### AT 1.30 TODAY

Mr. M. J. Caldwell, National Secretary of the Co-operative Commonwealth Federation, will address a men's meeting in the Debates Room of Hart House today at 1.30, under the auspices of the University C.C.F. Club. All members of the House are invited to be present.

### FOR MEN ONLY

U.C. Parliamentary Club, 4 p.m. today, Junior Common Room. Resolution: "That Employment Should be Confined to Men." Pivnick, Speaker; Buck, Clerk; Mervin Mirsky, Premier; Keenan, Acting Premier; Shaffer, Leader of Opposition.

### S. C. M.

World Student Christian Federation Day of Prayer will be observed Sunday, February 17th at 79 St. George St. There will be an international starting at 4.30 followed by music and an address by Miss Gertrude Rutherford on "The World Student Christian Federation", concluding with a prayer service and messages from the foreign students.

## TECHNIQUE OF PLAY DEFINED BY CRITIC

(Continued from Page 1)  
 died and the Queen died of a broken heart because she loved him so much." That is a plot. Similarly, "The King died and the Queen died, and after a long investigation it was discovered that she died of a broken heart because she loved him so much"—that is a mystery. Few great works of art are methodically planned, according to the speaker, most of them being the result of developing some thought that has occurred to their author "like a sudden flash". There are, however, many plays written on certain standard lines, the inspiration for these works being secured by pilfering or re-hashing other stories.

The value of proper technique was also stressed by the lecturer. "Technique," said van Druen, "is the author's attempt to maintain the illusion which

is conveyed to the audience by means of exposition."

At the close of the lecture it was announced that Dame Sybil Thorndike would speak in Hart House Theatre next Monday afternoon at five o'clock.

## FEAR OF DROUGHT SCOURGE OF INDIA

(Continued from Page 1)  
 dread of drought. In Mysore, irrigation plants, reservoirs, and dams guard against this constant menace. In the more densely populated regions of the north the land is barren and droughts are more frequent than in the southern provinces, for example, Mysore.

Class distinctions are sharply demarcated in India. As an illustration, Dr. Coleman cited the waning of Gandhi's political power which he declared started in when he identified himself with the emancipation of the Outcasts.

### ART, MUSIC AND DRAMA

(Continued from Page 2)

it very interesting. Both of these were excellent in the reconciliation scene, where each took full advantage of the dramatic undertones.

The chief disappointment of the production was the part of Hotspur, played by Ralph Sturgeon. Besides a disturbing use of vociferation, he had a tendency to "amble up and down" which was most disconcerting, particularly since he gave full vent to this perambulating urge each time he was in earnest conversation with another person, and consequently often turned his back on the person whom he was addressing.

In the smaller role of Francis, Talma Hunt was very amusing, and showed a real knowledge of stage business. His "anon, anon, sir!" was truly tipster-like.

The production was put on in a very lavish fashion, with care to details. The costumes were especially beautiful. The players are to be congratulated on one general virtue—that of excellent Shakespearean diction.

F.S.

### S.C.M. CORNER

(Continued from Page 1)

lost in the woods cries out, whether he knows or not, that someone will hear him; prayer's history has proven that "Someone" has heard man, the contact has been established with the "beyond". Who has been found to be a personal God.

This impulse to pray is as old as mankind, and, in reply to it, sincere men and women have had revelations, just as in the realm of biology, the effort of the human organism to perceive light has produced the eye, which, in turn, gave vision to man. Further developments have shown to men that corporate prayer, or prayer in common, is one of the strongest means at our disposal to establish an unbreakable bond between us, and bring us together, in line with God's purpose.

The W.S.C.F.—which is the federation of all national units of the various S.C.M.—has experienced that when, during the War, nationalities erected barriers between students, prayer and fellowship were the only means strong enough to break these barriers. Indeed, the W.S.C.F. is the only international body that did not break up during the last war. This is why it has established this annual "Day of Prayer", that is observed by the majority of the 300,000 members of the S.C.M. throughout the world. It is a call to consider our individual relation towards God and our fellow-beings; to visualize more clearly God's purpose and to rededicate ourselves to it, in the same spirit as Christ during His life.

It is a challenge, and a call to all students, and this is why the S.C.M. cordially invites all students to join in their special meeting, on Sunday, February 17, at 4.30 p.m., to be held in the Women's Union at 79 St. George St. (See notice in Coming Events.)

## DOCTORS APATHETIC OVER HEALTH PLAN

(Continued from Page 1)

this was done," was the comment of another.

That this was a move toward state medicine was not thought to be likely. One medical student, a doctor's son, said that doctors do not want this sort of thing, if it will lead to state medicine. "A doctor cannot do good work if he is paid by the hour like a day-labourer."

Still others who were interviewed stated, quite frankly, that they considered it more a matter of interest to insurance agents and students in commerce and finance.

## WYLLIE TO SPEAK ON SOCIAL CREDIT

(Continued from Page 1)

it gained wide popularity in the West among the debt-ridden, mortgage-burdened farmers. Recently it was brought up on the floor of the House of Commons, and there are indications that R. B. Bennett is flirting with the idea. Although the Student League does not advocate social credit as a panacea for the economic ills of society, yet the subject is of sufficient importance to warrant a discussion. The fact that it has gained the adherence that it has, shows that it has a certain attractiveness for certain social groups. It is with the view to demonstrating the social implications of the theory that this discussion is being held.

## CATHOLIC TAXATION HELD AN INJUSTICE

(Continued from Page 1)

public utilities and as a certain proportion of the population they should get a proportion of the taxes accruing from these.

"Separate schools in Canada were not any special privilege to Catholics," he declared. "When Quebec passed legislation they gave the Protestant minority in Quebec right to all taxes arising from public utilities and since that we've been asking Ontario governments for this and nothing more. Catholics in the minority in Ontario should get their share as the Protestants in Quebec. Quebec had the necessary legislation. Ontario never had."

It is the belief of Father McCorrell, Superior of St. Michael's College, that it is a just move, which has been too long delayed in the interests of better education and that it will improve the quality of students coming to the University.

### WALLACE SEES DIFFICULTIES IN NEW HIGH SCHOOL COURSE

#### Hart House Announces Continuing Committees

During the past week the following members have been elected to next year's committees:

Library Committee: C. N. Brebner (IV Medicine) and A. W. M. Kirkpatrick (II University College).

Music Committee: H. V. Rice (V Medicine) and H. J. Bright (V Medicine).

Sketch Committee: J. A. Kemp (I Trinity) and F. N. Smith (III Applied Science).

Camera Committee: J. R. Macdonald (II Applied Science).

All members are reminded that nominations for the standing committees and the Camera and Squash Racquets Committees open at 9 a.m. on Friday 22nd February and close at 6 p.m. on Wednesday 27th February. Withdrawals will be permitted only up to 6 p.m. on Thursday 28th February.

Nomination forms for all committees are now available at the Warden's office.

#### CO-EDUCATION FAVOURED IN ENGLAND—C. A. ASHLEY

#### Politicians May Have Reasons for Their Single Blessedness

Professor C. A. Ashley of the Department of Economics, commenting on the current misogynist issue, deplores the conditions under which co-education exists in this University. In his estimation we are in a neutral state, possessing neither the advantages of absolute misogyny on the one hand, nor of co-education in its most comprehensive sense on the other.

He strongly favours the latter alternative because it prevails in most English universities with great success. Oxford and Cambridge are the two exceptions, men having privileges forbidden to women. Men and women intermingle in the same common rooms, lunch together, study together, sit side by side in lectures, and belong to the same clubs. In short, men and women possess equal advantages, with the result that there is less formality and less self-consciousness than there is here.

Rev. Lyndon Smith, lecturer in Ethics at Trinity College, was quite amused with the whole matter, but considered that "a Bachelors' Club is the last desperate struggle before a man goes under for the last time."

(Continued on Page 3)

#### NEWS OF THE WORLD IN BRIEF

Ottawa—Hon. Ernest Lapointe, former Minister of Justice, speaking in the debate on unemployment insurance legislation, urged the Prime Minister to go about the reform in a sound and effective way. He believes that a national scheme of unemployment insurance can be reached only by amendment to the British North America Act.

Ottawa—Drastic reforms are proposed by the Price Spreads Commission with respect to Canadian wage scales, hours and conditions of labour and kindred subjects. The Commission finds that low wages prevail in many Canadian industries, that sweatshops still survive, and that there is grave need for the enactment of remedial legislation.

Blenheim—Provincial police made a thorough search between Government Relief Camp, Rondeau Government (Continued on Page 4)

#### Student Must be Prepared for Practical Encounters with Life

#### NOT UNIFORMLY DESIRABLE

Principal Malcolm W. Wallace of U.C. pointed out in an interview with *The Varsity* yesterday the difficulties which would be encountered in selecting the subjects for the proposed new two year high schools for children. This plan has been brought up by the Department of Education to give children who cannot attend school for a longer period but must go to work, a fairly general education.

"Such a course would necessarily have options," Dr. Wallace went on to say, "since what would be beneficial to one student might be a waste of time to another." Even with a knowledge of the children it would be difficult to plan so short a course which would have such an important bearing on the child's life. But in such a short time and with no knowledge of the pupils the only way to arrange the course for the best results would be to give him a general idea of as many things as possible so that he could find out in what direction his tastes lay in order to cultivate them later.

For those who showed unusual ability Dr. Wallace advocated Ancient History to save them from supposing that we are the brightest race. English Literature was another subject which Dr. Wallace thought important for the average intelligence; whereas a language might be of great use to a clever pupil in opening up his mind but to a (Continued on Page 3)

#### RIDDELL TRACES RISE OF FASCISM

#### Fascism in Germany and Italy Aided by Eloquence of Dictators

#### DISCONTENT IN GERMANY

It is impossible for any intelligent person to be unaware of the far-reaching influence of two political factions, Communism and Fascism, is the conviction of R. G. Riddell, discussing Fascism with the S.C.M. Current Events group yesterday at Wymilwood.

There are at least three declared fascist governments: in Italy, Germany and Austria, and there are definite parties in Canada, the United States and other countries. In Italy and Germany the movements began as radical "left wing" parties that (Continued on Page 3)

#### SILENCE ON CRIME NOT BEST POLICY DEBATERS DECIDE

Newspapers were conceded the right to publish crime news at S.P.S. inter-year debate in Hart House last night. The third year successfully supported the negative of the resolution "that the suppression of crime news by newspapers is in the best interests of the community." Q. Jackson and Verne Parrish of first year were on the affirmative, while F. S. Hutton and R. H. Self supported the negative.

The debate, the second of the inter-year series, was featured by a discussion of "the demoralizing effect of lurid sensationalism." The splashing of crime news across the front pages of prominent dailies was declared to be responsible for the large increase in juvenile crime. The psychological influence of crime news was also denounced by Mr. Jackson.

(Continued on Page 4)

#### Hold Songster Sunday Evening

The seventh songster of the year will be held in the Music Room of Hart House on Sunday evening next at 8.45 p.m.

J. Campbell McInnes will conduct the following programme:

Turn O My Soul  
Lazarus  
All through the night  
Bonnie Earl of Moray  
Go down Moses  
Deep River  
Canada our Broad Dominion  
The Curate's Song  
Go from my window, go  
The Berkshire Tragedy  
All women born  
Fill every glass

#### NEED FOR LAWYERS BECOMING GREATER

#### Possession of a Wide General Knowledge Essential to Success

#### PERSONALITY NECESSARY

The Hon. Leopold Macaulay met with a group of would-be lawyers at Victoria College yesterday afternoon. This meeting was one in a series devised to help the undergraduates in the business of choosing their ultimate occupation.

"The need for lawyers is greater than ever before," remarked Mr. Macaulay by way of introduction. The new social legislation and the "crop of new deals" which are springing up, were detailed as "so much grist in the lawyer's mill." Nevertheless the output of lawyers is greater than it ever was before. A considerable amount of hope was held out, however, for anyone with the necessary quality to make a real success of practising law.

Certain considerations must be faced and certain abilities possessed before Mr. Macaulay would advise students to enter law seriously. The first consideration must always be, whether the individual will feel that "inner satisfaction and joy" which comes only to persons pursuing the vocation for which they are fitted. An "elastic mind" was an essential feature of the lawyer which was mentioned. "A man must have the ability to acquire knowledge (Continued on Page 3)

### Employed Women Vindicated In Valentine's Day Debate

#### CAROTENE IN DIET CURE FOR COLDS

#### Effective As Preventative Against Colds but not Influenza

In order to discover whether the addition of carotene to a diet already containing a normal supply of vitamin will increase resistance to colds, the Wellesley College freshmen submitted to treatment. Dr. A. C. Willard, assistant professor of Household Science, commenting on the experiment, stated that carotene has already been established as the precursor of vitamin A by Dr. Moore of Cambridge.

"Vitamin A has been found effective in increasing resistance to some infections. It has been proven in recent experiments to be successful in increasing resistance to colds but not to influenza." It has not been fully established, however, if carotene has the same effect as vitamin A.

A great deal of work has also been (Continued on Page 3)

DR. SAUL DUSHMAN

Assistant Director of Research for the General Electric Co., Schenectady, N.Y., who will lecture on Saturday evening at Convocation Hall, on the subject, "The Production of Light", under the sponsorship of the Royal Canadian Institute.

#### EDUCATIONAL ISSUE UNIQUE IN CANADA

#### Unity of Schools Impossible Due to Catholic Population

#### SCHOOL SECTION OUTDATED

Canadian educational problems are many and varied, pointed out Professor Peter Sandiford in his lecture on the "Problems of Education" yesterday afternoon in University College. On account of its size and sparsely settled population, Canada presents rather unique difficulties. Our climate is against us also. It necessitates sturdy built schoolhouses which are expensive both to build and to heat. The variety in racial origin in Canada presents a third problem. Although the Canadian-born element is steadily increasing, there are still foreigners numbering 20 per cent by the 1931 census. The fourth and probably the most important problem is that of diversity in religion. When 41 per cent of the population are Roman Catholics, educational unity is well nigh impossible. The French system is based on the fact that education and religion are one, and the true religion is to be found in the (Continued on Page 3)

#### Shameful Exploitation of Males Must Cease, Says Keenan

#### GOVERNMENT DEFEATED

"Resolved that Employment Should be Confined to Man," was the subject of the debate with which the University College Parliamentary Club celebrated St. Valentine's Day. Although the government was decisively defeated on the motion, the loyal opposition refrained from moving a lack of confidence vote, preferring to give the government another chance next week.

The debate was opened by Acting Prime Minister Keenan, who declared that the men of Canada were enslaved by women, who were in control in almost every sphere of national life. He declared that this economic exploitation of males by the opposite sex must cease and that his government was going to see that it did. "Women (Continued on Page 3)

### DECIDE LEAGUE NOT JUSTIFIED IN ADMITTING RUSSIA AS MEMBER

#### Costly Parade

As a result of a pajama parade at Queen's last term, the first and second years have been assessed a total of \$97.19 by the Alma Mater Society in a recent decision. The sum covers bills received for property damage and for articles "removed". Items included are signs, a board fence, wagon shafts, verandah chairs and house plants.

### McGill Meet Varsity For Basketball Title

#### Varsity Will Seek to Maintain Perfect Record of No Defeat This Season

#### TORONTO VICTORY LIKELY

The old order bids fair to take a tumble when McGill's senior cagers, intercollegiate champions for the last four years, meet "Hayman's Huskies" in the annual basketball classic at Hart House tomorrow night. McGill will be fighting to remain in the running for their fifth consecutive title but are conceded little chance of taking the starry Varsity squad, who will be out to maintain their perfect record of not a single loss in ten scheduled games this season.

This will be the third intercollegiate encounter for both teams. McGill have two losses against them, having dropped home games to Kingston and Western, while Varsity have defeated both these teams, taking the Gaels into camp here by a 41-29 count and throwing the Mustangs in their own corral for a 31-15 loss. This gives Varsity a favourable balance of 28 points while McGill are 11 in the hole, indicating a Toronto victory tomorrow night.

The Varsity line-up will consist of nine players chosen from the well-known ten: Bedrug, Marks, Crowley, Connelly, Gold, Munroe, Levy, Mencil and Gordon. All of these men are dangerous scoring threats and any combination of them should out-match the McGill line-up, which will probably consist of Small, Bowes, Young, Jeffrey, Brown, Wilson and Hue. Toronto will remember, too well perhaps, the past performances of the first three named. "Marty" Bowes played a brilliant game against Queen's last week and will require special attention. McGill have attributed their two defeats to the absence from the line-up of their star performer, Fred Schaefer of Cleveland, who has been sick with the flu.

(Continued on Page 3)

#### SEARCH FOR BEAUTY PHILOSOPHY OF LIFE OF C. G. D. ROBERTS

A reading by Dr. Charles G. D. Roberts was a pleasant interlude in the opening gathering of the Circle of Art Appreciation last evening. The poet confessed that he did not write with "his eyes rolling in poetic frenzy" but that he "wrought each line with care". Modern freedom he admires, but modern ugliness has no place in his work; the search for beauty is a part of his philosophy of life. He considers "The House" his best love poem.

The Circle of Art Appreciation has been inaugurated by Mrs. Lucille Henderson, as a means of bringing together those who are interested in the various arts, whether actively or otherwise. Artists, writers, singers, representatives of all the artistic professions meet and discuss their various interests in an informal manner. Their programme will include musicals, skiing parties, literary evenings, bridges and dinner parties.

#### Soviet Desires to Promote Peace in Harmony with League Covenant

#### RUSSIA'S ENTRY MEANS WAR

According to a report received by "The Varsity" this morning the St. Michael's debating team visiting McMaster in Hamilton last evening were successful in winning their debate.

The debating team of McMaster University consisting of Howard Bental and Wm. Cranston successfully upheld the negative of the debate, "Resolved that the League of Nations was justified in admitting Soviet Russia as one of its members" in Hart House last night against J. Brigger and D. Scollard of St. Michael's College.

Outlining the relative positions of Soviet Russia and the League of Nations since the Great War, Mr. Brigger, the first speaker, stated that these two bodies have been "the most glaring question marks in the world since that time", and their keen opposition has only been eradicated by the admittance of Russia into the League. Stress was laid on the fact that among the world's representatives in the League's assembly, thirty-nine voted for and three against Russia's acceptance. He cited (Continued on Page 3)

### EMMANUEL, JR. MEDS BASKETBALL VICTORS

#### Meds, St. Mike's Game Merely Demonstration of Foul Shooting

#### SCORE 24-18 IN BOTH GAMES

Emmanuel College and Jr. Meds emerged the victors over Wycliffe and St. Mike's respectively, in yesterday's interfaculty basketball games played in the upper gym at Hart House, both by the same score 24-18.

The Emmanuel-Wycliffe encounter proved to be the most exciting of the two, the final verdict being in doubt until the last few minutes. Wycliffe took the lead at the start. Emmanuel soon steadied down and evened the score. The lead changed hands several times during the remainder of the session, with Emmanuel out in front 13-11 at the half-way mark. The second half (Continued on Page 3)

#### MEMORIES

1927—H. Hume Wrong, assistant professor in the Department of History of this University, has been appointed to a secretarial post in the Canadian Legation at Ottawa. He graduated from University College in 1915 and has the degrees of B.A. and D.Litt. from the University of Oxford.

1932—The Prime Minister of the kingdom of Italy has presented to the University of Toronto eighty beautiful volumes, dealing with Italian art, literature, history and philosophy.

1933—Mayor Cermak of Chicago was mortally wounded by Giuseppe Zangara who also attempted to assassinate President Elect Roosevelt as he stood in his automobile greeting a crowd of Miami citizens.

1934—A new crisis threatens Chancellor Dolfuss today in spite of his defeat by the Socialist insurgents, as members of his own party accuse his government of responsibility for the uprising.

## No Tickets For Racketeers

History repeats itself. One of the main functions of this paper, as shown by history, is to get into difficulties with its employers, the members of the Students' Administrative Council, either individually or collectively. While the big disturbances come as a result of big issues, the real tension and cause of bad feeling between this paper and the S.A.C. is caused by misanthropic bunglers, usually on the S.A.C., who would rathericker about petty details than make an effort toward fostering peace and harmony.

One person who always bears the brunt of this tension is the Editor of *The Varsity*. He has not only to edit the paper, but to act as an intermediary between the staff of the paper and the Students' Council. When members of the council insist on creating petty difficulties, and antagonize the staff of the paper, the editor has to try and be peace-maker, a very unsatisfactory job at most times.

At present there is considerable bad feeling being caused by the really very minor matter of dance tickets. It is a custom at all universities for campus societies to allow a member of the staff of the student paper to attend all social functions, in appreciation for the work done by unpaid reporters in covering their less enjoyable activities. In our case the passes are distributed by the editor to reporters for work which is of a particularly high standard.

There are many faculties at this University which do not extend a courtesy pass to *The Varsity*. There is no need for the habit, as we can find no case on record when any official faculty organization has been refused publicity because it did not contribute its quota of dance tickets. Nevertheless, it is a generally recognized courtesy, and one which breeds good feeling to the advantage of everyone. Some faculty representatives on the Students' Council feel, however, that the dance ticket is worth more to them than the goodwill.

Recently the president of the Medical Society declined to give the customary ticket to the Formal At-Home sponsored by his faculty, and asked for the usual advance publicity. Naturally, he got it, without argument being necessary. The right to refrain from inviting *The Varsity* to the party was his, and he exercised it. But in addition he went to the extent of paying a visit to the office of *The Varsity* and attempting to intimidate those reporters present in a manner which, we are told, was very unpleasant and entirely uncalled for.

His argument at the time, was that students in his faculty did not get enough service from *The Varsity* to merit an invitation being extended. Regardless of the reasons behind the visit, it accomplished nothing except to leave a bad taste in everybody's mouth, and lower the prestige of his faculty to an unprecedented level in the eyes of the staff of this paper. It was his loss, not ours, so we are willing to let it go at that.

And now the latest faculty to join the "Varsity-staff-haters" ranks is Victoria College, which has refused a ticket to tonight's At-Home because, as their S.A.C. representative put it, the request was "just another example of *Varsity* racketeering". An excuse for not giving the ticket was made on the basis that publicity was not given soon enough (it was first sought last Monday) which is obviously untrue, since tickets were still on sale yesterday, and every available ticket for the dance has now been sold. The fact is that the gentleman concerned resents the feeling that a member of the staff of this paper should be allowed to attend the At-Home,

the only one of its dances to which Victoria College has in the past extended an invitation.

The two members whose actions we criticize are the two senior members of the Publications Committee. They are men who, if they had sufficient conscientiousness, would make an effort to foster co-operation between the S.A.C. and the staff of *The Varsity* instead of doing their best to break it down. They should make an effort to see both sides of the question, and assist the editor in his peace-making activities. Instead, they make an effort to increase our difficulties, and put us in an untenable position by such pointed unpleasantness that the staff members of *The Varsity* cannot ignore it.

After four years' work on the staff of this paper, we state without hesitation that there is no group of people anywhere for whom we have greater respect for their perseverance and willingness to do a thankless job well, than the staff of *The Varsity*. To hear the two senior members of the Publications Committee state that *The Varsity* is not worth a dance ticket per year to them, that the staff is composed of racketeers and chisellers, that reporters use the paper as a wedge to secure advantages for themselves, and that they do not do their duty, not only leaves us resentful, but it burns up.

If we thought for a moment that the two members of the Publications Committee, who have so little use for *The Varsity* except as a free advertising medium, expressed the views of the 1900 students whom they represent, we would very seriously recommend suspending publication of *The Varsity*, and thereby save each undergraduate seventy cents per year. But they do not.

These recent incidents may be taken as an example of the petty parsimony to which great men can fall, or the weakness of a democracy which puts little men into big positions, depending on which way you look at it. The net result, in any case, is that when two of the leading S.A.C. members express such low opinions of *The Varsity* staff, to the staff, instead of through the proper channels, *The Varsity* can only feel that the attitude of the whole Students' Council is definitely antagonistic, something which we do not believe to be true.

The two S.A.C. representatives under discussion are two of our most influential bosses, and criticising them is a dangerous pastime. Nevertheless it should be pointed out that as members of the Publications Committee they should be interested in fulfilling their duties to the extent of co-operating in efforts to keep relations friendly between *The Varsity* and the S.A.C., instead of picking imaginary fights, and creating ill will all around, for no good purpose. Tilting at windmills is always a waste of time.

## Whoopie! Boys, Hauptmann Burns

Hauptmann has been sentenced.

The bizarre circus that has rocked the American continent, and almost the entire world, is finished. The big top is down, the animals in their cages, the acrobats gone. The show is over, and the spectacular pageantry loving American people will have to find an outlet for their morbid curiosity elsewhere. Hauptmann is to die.

And while twelve good and true citizens debated the fate of a human life, and the anxious relatives waited in tearful suspense for their verdict, Fleming's only hostility prepared noise making clackers, printed with advertising of their favourite cocktail, to distribute as an aid to the carnival spirit that would result from their decision. Then, telegraph keys clicked, motorcycles and aeroplanes hummed, and the world knows that a man, the central puppet in the latest performance, is doomed.

Americanism turns in horror from the blood-thirsty bull fight. It decries with upraised hands the barbarity of the cock fight. And all the while, under the name of justice, a still more hilarious drama, with higher game at stake, and more elaborate sets, is prepared, and proves a sell-out.

On March the eighteenth the final act will be played. A human life, perchance a guilty one, will be offered on the altar of *Justice*, or, perhaps, of public demand for the spectacular. And when the final act is finished, the show will become an episode for discussion over bridge tables, a genuine and very true twenty cent thriller. Twelve people who have appeared from nowhere like meteors, and basked for a little while in the limelight, will return to their drab lives. Many years from now they will boast to their grandchildren—"I was on the Hauptmann jury." The lawyers will seek another stage or bull ring, the crowd another curio, and the tumult and shouting never dies.

The orchestra is rounding out the grand finale. The fun is nearly over. Ring out the bells, and let us be merry, for Hauptmann is to die.

## ART, MUSIC & DRAMA

### St. Thomas Church

The Precursor of the Diocese, the Rev. Canon Pilcher, D.D., will visit St. Thomas' Church and will preach at the 11 o'clock service, which will be sung, unaccompanied, to a setting by Dr. Willan. Palestrina's motet "Be not Thou far from us", will also be sung at that service. The Rev. W. Lyndon Smith, M.A., will preach during the Choral Evensong at 7 p.m. and the Anthem will be Sterndale Bennett's "God is a Spirit". The next Eventide Recital will be given Sunday, Feb. 24th.

### Toronto Conservatory

Ever since that memorable evening at the Promenade Concert, when Sara Barkin, Russian-Canadian coloratura soprano, captivated an audience of 6,000 people with her brilliant execution of "Caro Nome" and "Voice of Spring", music lovers have been looking forward to hearing her in a programme of her own. On Tuesday, Feb. 21st, at 8.30 p.m., at the Conservatory Concert Hall, their wish will be gratified, on which date Miss Barkin is giving a song recital in conjunction with (Continued on Page 4)

### SLOP ARMS

Parade . . . greatcoats, etc.  
Place—187 College St.  
Time—1905 hours.  
A khaki-clad arrives and enters the grey-brick building. Is at once forced to the wall by a dense mob of more khaki-clads, who, confined to a floor-space of one square foot (estimated) per man, are trying to manage belts, bayonets, buttons, rifles, cigarettes, gloves and handkerchiefs, all at the same time.

"Thankgawd we don't have to wear puttees!"  
"A and D Upstairs." Fights his way through the mob and gets his rifle.  
"Take your rifle on the right—Hey!—on the right, stupid!—ON THE RIGHT!"

Time—1915 hours. "EVERYBODY OUTSIDE!"  
"What Comp'ny are yuh in?"  
"D."

## Correspondence

Correspondents are reminded that all letters must be accompanied by signatures, and they are requested to limit themselves to approximately 300 words.

Editor's Note—Today's letter is printed because the writer felt that only one side of the question had been aired, and in justice we must give the Orange Order a chance. This letter will definitely be the last comment on this question allowed in our columns.

### SEPARATE SCHOOL TAXES

To the Editor of *The Varsity*.

Dear Sir:  
On Friday, Jan. 25, there appeared in your admirable little paper an editorial headed, "Twentieth Century Intolerance". It dealt with the just protest lodged by Protestants throughout the province against Mr. Hepburn's proposed extension of privileges granted to the Church of Rome. Your own words, Mr. Editor were, "Immediately the Orange Order, jealous of their privileges, rises up in protest" and "It is the principle of the thing (this protest) that is wrong."

May I mention the fact that the Loyal Orange Lodges have never been jealous of anyone's privileges. They have always opposed special rights of any kind. Why should they not protest (Continued on Page 4)

## EMMANUEL WINS FROM KNOX BATTERS

Emmanuel College defeated Knox by the decisive score of 13-5 in an interfaculty baseball game played yesterday in the big gym. The Emmanuel batters were just too good for the Presbyterians and scored in every inning, while their fielding left little to be desired. Campbell relieved Hebbon of the pitching duties for Knox in the fourth inning, but was unable to do much better.

Emmanuel: Dyke, Young, Moffat, Birch, Amos, Martin, Hussar, Taylor and Shaw.

Knox: Wier, Hebbon, Smith, Sinclair, Campbell, Macdonald, Fumstan, Evans and Adams.

## EMMANUEL, JR. MEOS BASKETBALL VICTORS

(Continued from Page 1)  
was an exact repetition of the first, until Gardiner and Stinson ran in two baskets in rapid succession to put the game away.

The other half of the double-header was just a demonstration of foul shooting, with Referee Himel handing out no less than twenty-four free shots, including two technicals. Meads held a slight edge throughout, leading 10-7 at half time.

Jr. Meads: Wise, Metzler, Cash, Laski, Zarsky, Wales, Crocker and Barrett.

St. Mike's: Nally, Blum, Rizer, Cerame, McGivern, Dooley, Harris and Kauffman.

Wycliffe: Kaminsky, Fairweather, Emmet, Roche, Chevins, Newton-Smith. Emmanuel: Stinson, Gardiner, Todd, Griffiths, Bath, Nunn, Lautenschlager.

## B. W. AND F. TEAM TO DEFEND TITLE AT ANNUAL MEET

Teams from McGill, O. A. C. Queen's and Varsity to Contend

### SENIOR TITLE AT STAKE

O.A.C. Expected to Afford Keen Competition at Kingston

This week-end will see the senior B. W. and F. team journey to Kingston to defend their intercollegiate title in the annual meet against teams from McGill, Queen's and O.A.C. The Aggies after winning the intermediate title since away back when, are entering into senior competition for the first time and will tighten up the race for individual honours.

Last year the Blue squad got down in front in the last event when the boxers saved the day for their alma mater, and beat out the Tricolour. This year will see a number of new faces on the Blue roster but the boys have been getting plenty of competition and are reported to be in perfect shape for a big week-end.

Led by Powell, who last year defeated Merv Peever, Queen's welterweight champion, and Freddy Smith at 125 lbs., the boxers should more than break even in the hempen space. Although the Varsity leather pushers dropped a decision in their international meet with Syracuse and earned a draw with Cornell they gained a wealth of experience which should stand them in good stead.

Snelling and Johnson, champions of the 1934 meet are all that remains of last season's squad. Four intermediates and two newcomers make up the rest of the eight. The Varsity line-up will be as follows:

Boxing: Millson 118, Smith 125, Gibson 135, Powell 145, Grant 155, Archer 165, Scheffer 175, Pocius, heavyweight.  
Wrestling: Austin 118, Johnson 125, Robertson 135, Houle 145, McKenzie 155, Wright 165, Van Allen 175, Snelling, heavyweight.

Fencing: Mitchell, Bachert, Cornwall.

## S.P.S. WIN ONE, LOSE ONE IN INTERFACULTY HOCKEY

Hockey squads from the little Red Schoolhouse broke even in yesterday's interfaculty games played at the Arena. Trinity defeated the Jr. S.P.S. team 3 goals to 2, while Sr. S.P.S. eked out a 1-0 win against O.C.E.

Both games were fast and well-played. Scrivenor, Brennan and Ford scored for Trinity while King and Upper put the red light on for School. In the second tilt Hewitt scored the lone goal to give the Senior Schoolmen a narrow margin for victory.

## SPEAKING OF SPORT

By W. A. Crocker

At four o'clock yesterday afternoon a veritable host of Blue athletes departed for points east. Coach Warren Stevens and his charges were bound for Montreal, while the remainder of the athletic aggregation were scheduled to stop off at Kingston. While these lads will be cavorting in distant pastures the Blue eagles will put on a show for Varsity fans in the big gym at Hart House. All of which points to a busy week-end ahead for Blue coaches and athletes.

Down in Montreal Stevens' collection of pucksters will again be on the spot. Steve's crew have been on the well-known spot so long and so often this season that the boys are beginning to call it home. At any rate if the score is at all one-sided we'll again have the "hockey coach" walling. Furthermore should the final count be anywhere near respectable but again against the Blues the black eye which hockey has received in these parts this year, will turn purple. Although there is nothing to gain by a victory it would be sweet music to our ears to hear that the Blues had taken the big Red champions in their own lair. At any rate we can be optimists until the bad news leaks out on Saturday night.

This afternoon at 2 o'clock the B. W. and F. men start the ball rolling in Kingston in the preliminary rounds of the intercollegiate senior assault. On speaking to some members of Varsity's wrestling squad we learn that they scoff at the idea that the Guelph grapplers will throw a surprise in the grunt and groan division. We were also enlightened about the fact that Varsity intends to take at least four boxing titles. Furthermore we were informed that there isn't a chance of Varsity losing the title which she has held for the past two years. To which we might add that we shall see what we shall see.

Those of you who like to see a champion being given a severe trouncing had better be on hand when Lew Hayman's classy collection of eagles play hosts to McGill on Saturday night. This being a very easy week for the Blues as far as games are concerned Hayman divided his crew up into two squads on Wednesday and ordered a full forty-minute game. Both squads performed well with the so-called second string men taking a 37-35 victory. In view of that performance we feel sure that the Blues are still travelling in high and a victory against the Big Red squad seems almost a certainty. However McGill always did have a habit of winning in Toronto. Mac Cutcheon's Seconds will proceed to demonstrate conclusive claims to the intermediate title in a game with O.A.C. as a preliminary to the big game. We also notice that Varsity's female eagles are scheduled to meet an aggregation from Guelph's MacDonald Hall at 7.00.

## McGILL MEET VARSITY FOR BASKETBALL TITLE

(Continued from Page 1)

Mac Cutcheon's intermediates have been playing above their opposition in the college loop this season, and have won three times in as many starts, scoring 101 points as compared with only 32 scored against them. They should experience little difficulty in stopping the O.A.C. II's tomorrow night as they outplayed them 29-10 up in Guelph a few weeks ago. The intermediate game will precede the senior and will start at 8 p.m.

Fiton will not be able to play tomorrow and his place will be taken by Kinsey or Doran. The other Varsity players will be Magwood, Vanderleek, Sullivan, Himel, Carey, Krakauer and Newman.

## CAROTENE IN DIET CURE FOR COLOS

(Continued from Page 1)

done in testing the validity of the theory that vitamin A aids the regeneration of the visual purple in the retina of the eye, the substance upon which depends the ability to see in the dark, or to recover quickly after bright light stimulation.

Dr. Edith Gordon, medical adviser for women, agrees that vitamin A offers resistance to colds, but recommended cod liver oil as even more effective.

## CO-EDUCATION FAVOURED IN ENGLAND—C. A. ASHLEY

(Continued from Page 1)

Women ought to be accepted as a groom accepts his bride "for better or for worse."

He thought that some of Canada's outstanding public men, such as Messrs. Bennett, King and Beatty, had abstained from matrimony because "a politician invariably needs to have the last word."

## DIFFICULTIES SEEN IN NEW COURSE

(Continued from Page 1)

dull pupil such a study would be a waste of time.

In summing up the aim of this newly proposed course Dr. Wallace claimed that it was far more important to prepare the student for practical encounters with life and to open up his mind to the nature of the world instead of concentrating on teaching him the profession he is intending to follow, which instruction he would be able to get later in a more specialized course.

## Victoria Water polo

Finals of interfaculty water polo with Jr. S.P.S. Friday, 5 p.m. Everybody out as early as possible.

## THE SPORTSWOMAN

By M. A. F.

At 1 p.m. today Vic I meets St. Hilda's in the first game of the interfaculty hockey finals. This contest comes off at the Varsity Stadium and will be a real battle. Vic I lost no games in the preliminaries but tied the one game they played with the Blue and Grey outfit. The Saints lost to U.C. but redeemed this defeat in the semi-final game on Wednesday. It would seem, therefore, that both teams are entering the fray with fairly equal chances, and we are well justified in predicting a most exciting game.

The tryout for the all-star team yesterday was very well patronized, some eighteen pucksters getting out there to battle for a chance on the big Varsity outfit. Jimmy MacPherson, who is the coach, seems highly optimistic and thinks he can work up a better team than Varsity sent out last year. No definite decision has been made as yet as to who will be playing with the all-star group; the final announcement will not be made until the very last minute. Practices will go on next week at 1 p.m. on Tuesday, Wednesday and Friday at the Arena. Considering the change in the weather at this point it seems quite fortunate that the rest of our hockey schedule will go on inside where there is no need to depend on the elements.

At 7 o'clock this evening the senior intercollegiate basketball team is playing the Y.W.C.A. Thors at the Parkdale Collegiate gym. This is a preliminary game to the senior and intermediate playoff games in the City League under boys' rules—the senior game being between Supremes and the Community House.

At 6.45 on Saturday evening the intermediate basketballers are meeting a team from Macdonald Hall, Guelph. The game is to be played at the Hart House gym. This is a neat little outfit; surely you can have sufficient interest in basketball to support both the senior and intermediate squads.

## WOMEN VINOICATE IN U.C. OEBATE

(Continued from Page 1)

hold money on a higher plane than men", was his closing remark, which raised cries of shame from both sides of the house.

Mr. Shaeffer attacked the government as a reactionary body which was attempting to turn the clock back 5000 years. He pointed out the hardships which would be wrought by the proposed legislation, on widows and orphans bereft of their male breadwinners. Madame Curie, he declared, was an example of a brilliant woman whose work the government was attempting to minimize. Mr. Keenan, he implied, was attempting to emulate Hitler, and was a dangerous Fascist.

Mr. Bryce, upholding the motion, advocated a relaxation of the marriage laws. He also accused the opposition of destroying the institution of the home, which he believed to be the basis of the state.

Mr. Stobie, in a fiery address, also accused Mr. Keenan of Hitler-like ambitions. He declared that women were to be removed from employment to provide jobs for the hired rough necks, the storm troopers of the Fascist government.

## LEAGUE UNJUSTIFIED IN ADMITTING RUSSIA

(Continued from Page 1)

the important points of the League's covenant, emphasizing the desire to promote world peace, and showed that with all these aims of the League the Soviet was in absolute harmony.

The first representative from McMaster claimed that Russia, owing to her anti-social doctrines, had forfeited her right as an individual nation to membership in the League. "The basis of communistic philosophy," he stated, "was world revolution, a war between classes within nations, which is worse than war between nations, and it is only through this class warfare that the aims of the U.S.S.R. will be propagated."

## Sport Notices

### Rugby Club—

Rugby Club is to meet at 5 o'clock at the Athletic Office. All interfaculty football managers and two representatives from each faculty are asked to be present.

### Volleyball—

Practice Saturday, upper gym, 2-3.

### Interfaculty Hockey—

Monday, Arena, 5 p.m., Trinity vs Jr. Meds.

Tuesday, Stadium, 5 p.m., Sr. Meds vs Forestry.

Wednesday, Arena, 4 p.m., U.C. vs Sr. S.P.S.; 5 p.m., Dents vs Pharmacy.

Friday, Arena, 4 p.m., O.C.E. vs Sr. Meds; 5 p.m., Jr. School vs Wycliffe.

Friday, Stadium, 5 p.m., Pharmacy vs Forestry.

All difficulties in fulfilling this schedule must be reported immediately to the Athletic Office.

### Jr. U.C. Basketball—

Game with Victoria at 4. All out.

The admission of Russia was interpreted by the last speaker, Mr. Cranston, as an alliance between the great European powers. The triumvirate of Great Britain, France and Italy, seeing the military possibilities of Russia, "played the League of Nations for a fool", and by the inclusion of Russia formed a great and powerful alliance, which will eventually and inevitably lead to a war far greater than the last.

7.30 p.m.—The regular meeting of the U. of T. Rover Scout Crew will be held in Room A, Hart House. All out and on time please.

M. and P. At-Home. Dinner 7.30-9. Dancing 9-1.

4 p.m.—Women's Debating Society at the Women's Union. Debate between U.C. and Trinity. Tea will be served.

## Classified Advertisements

### CO-EDS

We are introducing a new line of cosmetics, made from a French Formula, which will appeal to fastidious women. Good money can be made in your spare time on our excellent commission basis. Telephone EL 4550 between 5 and 6 p.m. for interviews at your convenience.

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at either the men's office in Hart House, or at the women's office in University College. No notices will be taken over the telephone, after 6 p.m. notices must be taken to the Press Building. Notices for the Bulletin Board are limited to ONE insertion only.

### PHYSICS LECTURE

Dr. Saul Dushman, Assistant Director of Research, The General Electric Company, Schenectady, N.Y., will lecture on "Surface Tension and Cohesion Phenomena in Liquids." Today, Friday, February 15 at 5 p.m. (formerly announced for 8 p.m.) in Room 43 of the Physics Building.

### STUDENT CHRISTIAN MOVEMENT

Sunday, February 17th, 4.30 p.m. at 79 St. George St. An S.C.M. International Tea will be held to observe the World Student Christian Federation Day of Prayer. Music and an address by Miss Gertrude Rutherford on "The World Student Christian Federation."

### SYMPHONY TICKETS

A limited number of special student tickets for the Toronto Symphony Orchestra concert will be on sale from 12.30 p.m. to 1.30 p.m. on Monday and Tuesday next at the Hall Porter's desk. Hart House.

### VIC S.C.M.

Third in series on "Significance of Religion" will be taken by Mrs. Jean Hutchison, on Tuesday, Feb. 19 at 1.20 at Wymlwood. Mrs. Hutchison will speak on "The Significance of Jesus."

### FREE LANCES

All Free Lances and those who wish to become associated with them are invited to the home of Dr. Edith Gordon, 35 Kendal Avenue, for supper on Saturday evening. Those who intend to accept the invitation will please telephone Miss Jackes or Dr. Gordon.

### CORRESPONDENCE

(Continued from Page 2)

when this act, should it become law, will have 14 per cent of the school taxes of the United Church Publishing House, the Ryerson Press, go to support Roman Catholic schools teaching Roman doctrine? If the Church of Rome desires to teach the doctrines of her church to her children I hold that she may do so; but she must also pay the price. We, in Ontario, have a public school system which need never take a back seat to any other. It does not teach religious dogma or doctrine. Rome could send her children to our public schools without the slightest fear of contamination but she does not always wish to do so. If she wants this privilege let her pay for it. She is raising the issue today. It certainly is not the "intolerant" doing of the Protestants of Ontario.

In the issue of Thursday, Feb. 14 you also lead a news item with the glaring headline "Catholic taxation held an injustice." This was followed by an interview with Messrs. Quinn and McCorkell. In those interviews it states that "Roman Catholics are now shareholders in the promotion of big concerns . . . and that they should get a proportion of the taxes accruing from these." May I express wonder at these gentlemen not even knowing the details of the Separate School Act? In 1886 and also in 1904 amendments were passed in our Legislative Assembly stating that whenever it could be shown where Roman Catholics hold shares in an incorporated company a proportion of the taxes, in ratio to the holdings, may be allotted to the Separate School.

There have been many attempts to compare the school systems of Ontario and Quebec, but their differences are too numerous to mention at this time. However, they are not at all comparable. Quebec has no public schools. Her schools are all sectarian. Children either attend a Roman Catholic or a Protestant school. If there are not enough Protestants in a community the children are forced to attend a Roman Catholic school. On the other hand in Ontario the only sectarian schools are the Roman Catholic ones. If there are not enough Romanists to form a school the children are free to attend the public school and receive the same non-sectarian education as the Christian and Jewish children. I know, too, of several schools where this condition exists and the parish priest goes to the public

### V.C.U. TEA DANCE

There are still some tickets left for the V.C.U. tea dance on Saturday. For anyone wishing them, they will be on sale Friday in the college hall from 1.30 to 2.00.

### SOCIAL CREDIT

Dr. E. Burnham Wyllie, Editor of York County Post, will address an open meeting of the Student League of Canada tonight at 8.30 in the Women's Union. All students welcome.

### WYMLWOOD MUSICAL

The guest artists this Sunday will be Mignon Telgman, violinist, and Frederick Skitch, pianist. Wymlwood Hall, Sunday, 9 p.m.

### M. AND P. AT-HOME

M. and P. men—make this a bang-up evening. The Oak Room, Union Station, will supply the atmosphere—yours for the evening. Dinner 7.30-9. Dancing 9-1. Don't fail to see four year reps. immediately. Monday, Feb. 18.

### YE SANDWYCHE PARLEMENT

This famous institution of Victoria will meet on Wednesday, February 20, to debate the motion brought up by the President of the V.A.G., the Rt. Hon. Mr. Hugh Peart, that "Victoria expects every man to do his duty." U.C. Parliament welcome.

### U.C. MUSIC CLUB

Monster rally rehearsal of "Good News" for all principals, and the singing and dancing chorus. Saturday afternoon at 2—Women's Union. Everyone in the show must be there to rehearse with the orchestra.

school after or before regular school hours and teaches his own children their beliefs. Numerous members of the Roman Catholic hierarchy spent their early years of education in public schools and they do not seem to be unduly contaminated. By law Ontario must provide education for every child in the province but the Church of Rome has the privilege of educating her own if she so desires. Now she is desirous of having the state and the Protestant people share in this cost. Already her grants are not only double those granted the public schools, but since 1930 22 per cent extra has been tacked on to this unfair allowance. Sir, it is not rabid bigotry or sordid sectarianism that causes me to write these words; but rather an earnest desire for fair play.

If Rome wants Separate Schools in the province of Ontario, and by the Act of 1863 she may have them, very well; but do not, please, Mr. Editor, neither by an Act of the Legislature, nor by the subtle propaganda of the University of Toronto's paper make the Protestants of Ontario pay the cost of teaching the Roman Catholic beliefs.

Sincerely yours,

Wallace Nickle,  
Wycliffe College.

### CHAMPUS CAT

(Continued from Page 2)

they are called by the pacifistic grand-daughter of a General) move east on College, led by THE band, who play their march for two blocks and then relapse into silence. South on University Ave.—"Turn those corners square." Dundas. CKCL. Same ol' cop to escort the corps past the red lights (thereby making the T.T.C. conductors see red).

Nearing the Armouries, the band strike up "Toronto" and effectively drown all commands as the battalion forms up in companies, facing left. Then, THE DRILL . . . "huff said. 'Well, anyway, it's better than the physical torture that Martin and McCutcheon put you through in P.T. periods—'isn't it Sergeant-Major!"

"My poor left arm!"  
Time—2:00 hours. Drill over.

THE ROAD BACK. The band still limited to "Caught in a mouse-trap," and the collegiate anthem. And that

cold wind whistling down University Ave.—"Brr—r, a man's war."

"Next parade, I'm going to wear heavy underwear."

"Great sport," says Red.  
But one advantage is the absence of any thrill-seeking War Correspondent. So while those loyal lads and true are out wagging bellum and raising hellum, the Muddy Yorker can follow the art of taking up space in a civilian chimney-corner.

C—C

187 College St., again, and the Battalion is dismissed, beginning with D Co. for the first time in history—no doubt an attempt to humour the faculty that supplied the local envoy to the student's peace conference. A good subject for the Vic Debating Parliament.

C—C

Time: 2:30 hours, and All's Well and Quiet on the Campus Front (and in the old river bed).

Thank God for the Navy, Suh, and the boys in blue who protect us from armed invasion.

Col. Julep,  
O.C. Kaintucky Rifles.

## Let's Go Places

Loew's reopens this week with the film version of *David Copperfield*, the masterpiece Dickens wrote after the pattern of his own life. Hollywood continues its new programme of producing British stories. Hugh Walpole has done a fine job of adapting the novel to the screen. The only parts that are cut are those that do not interfere with the essential story. Dickens' lovers may miss them but the eliminations are necessary to make a successful film.

The cast is composed of some of Hollywood's better entertainers. The best work is done by W. C. Fields, Frank Lawton and Edna May Oliver. Fields was obviously intended for the part of Micawber. Some may question whether the audience sees Wilkins Micawber or W. C. Fields, but it cannot be disputed that he provides some very fine humour. Mr. Lawton is one of the best juveniles on the English speaking stage today and his reputation is considerably enhanced by his characterization of David after he has left school. Miss Oliver, portraying the donkey- and man-hating Betsy Trotwood, does wonders with her facial expression.

The director has made considerable use of a musical score in place of human voices on the lines of "Sunshine Susie" and with very good effect. Although he skimped on the use of London scenes his handling of young David's tramp to Dover gives some interesting scenes of the English countryside.

## RESIGNATION OF "VARSITY" EDITOR PREDICTED BY MEDS PRESIDENT

### NEWS OF THE WORLD IN BRIEF

New York—Prime Minister R. B. Bennett, speaking to the Canadian Club of New York, hailed the new attitude of the United States towards world trade as a move forward in international co-operation. He promised the aid and support of his government in any trade treaties that might be suggested.

York Township—Eighty-three were held by the police after the raid they carried out on the "Brown Derby", Lake Shore Road gambling house. Eleven officers took part and besides the usual gambling machines seized they also impounded \$1500 in cash. The house was one of the most complete ever raided and ran a phone contact direct to a track in California.

Porto Praia—Codos and Rossi, French aviators, landed here when it became apparent that disaster faced their long distance effort.

London—According to reliable advice reaching here the Abyssinians are massing their troops on the border to meet the invasion of the Italian force if peace efforts fail.

### Undergraduate Days Recalled by Blatz

Professor Blatz, M.A., M.B., Ph.D., treated the present personnel of University Residence to vivid glimpses of his own undergraduate days, in an address at the first meeting of South House Alumni held at the Carlisle Hotel, on Saturday evening last. "I had the distinction of being kicked out twice," stated Dr. Blatz, a former president of South House committee. The spirit of the "good old days" was revived by his anecdotes, which held the audience spellbound.

The Alumni was then officially organized, a member to represent each year back to 1915 being chosen to act on the executive. All former members of South House are requested to co-operate in making their new Alumni Association a future success.

## Lectures Overburden Students No Time For World Affairs

Dame Sybil Thorndike, D.B.E., the leading actress of Great Britain, will speak at 5 p.m. today in Hart House Theatre. Admission is free.

### UNIVERSITY COLLEGE MEET TRINITY DEBATERS

The women of Trinity and U.C. will strive for the debating union trophy this afternoon at 4.30 in the Women's Union.

The subject, "Resolved that women have justified their position of equality with men on the campus", will be debated by Joyce Kirk, II Trinity, and Eileen Holden, III Trinity. The men's side will be supported by Josephine Le Pan, I U.C., and Anne Ferguson, II U.C.

Clark Praises Own Efficiency  
As President of Society at  
Meds' Open Meeting

### DENIES BULLYING PRESS

Prediction of His Resignation  
Greeted by Editor with  
Crisp "Nerts"

Predicting that the editor of *The Varsity* would apologize and resign as a result of the leading editorial in last Friday's *Varsity*, Roy G. Clark, President of the Medical Society, addressed an open student meeting last Friday after an address by Dr. John S. Lundy in the Anatomy Building. The editorial claimed that the president of the Medical Society did not co-operate sufficiently with the editor of *The Varsity*. Informed of Mr. Clark's statement last night, C. R. Ellis, Editor of *The Varsity*, expressed surprise, and was heard to remark briefly, "Nerts".

In a short and pithy speech, Mr. Clark emphasized the efficient manner in which he had fulfilled the trust placed in him a year ago, saying that he had carried out his duties to the

### Exam. Applications

Students registered in the Faculty of Arts are reminded that applications for the Annual Examinations should be filed on or before March 1st. Forms may be obtained at the Registrar's Office, Simcoe Hall, or at the College Registrars' Offices.

## LUNDY DISCUSSES NEW ANAESTHETIC

Canadian Trained Medicos  
Compared Favourably  
with American

### METHODS ILLUSTRATED

Dr. J. S. Lundy, of the Mayo Clinic, speaking to an open meeting of the Medical Society Friday afternoon, gave a description of some of the difficulties and opportunities for doctors in the field of anaesthesia, illustrating his lecture with both moving pictures and lantern slides.

Dr. Lundy emphasized particularly the need of able men to carry on research in this work, and stated that he thought more would come from his lectures at Toronto and McGill than from his others, as Canadian trained men are better than those of southern universities. He said that new developments rather than new discoveries were necessary. He commenced his lecture by showing modern methods of applying the anaesthetic, and later illustrated various machines for applying artificial respiration. The first reel showed McGill's anaesthetic treatment, by which the patient breathes the gas lead by a tube which is thrust through his nose and into the trachea. When this was connected, drapes were laid over the patient's face, leaving a wide operating area for the surgeon.

In the second part of his lecture, Dr.

(Continued on Page 4)

## WYLLIE OUTLINES SOCIAL ECONOMY

New Credit System Formulated  
by Douglas Is Based on  
Central Authority

### DESTROY BANK MONOPOLY

"A system of Social Credit as formulated by Douglas," Dr. Wyllie said on Friday evening to the Toronto branch of the Student League, "is an indispensable basis to the operation of any state organization, socialistic, communistic, or capitalistic." Major Douglas is not an alarmist, but a realist, the speaker declared, "who having faced facts built his plan on sound, well recognized economic principles."

Dr. Wyllie illustrated the A plus B theory of costs. Production costs fall into two groups, those paid to the individual in wages, and those that pay for the over-head costs. The latter invariably exceed the cost of labour and material.

The Social Credit is not destined to end the depression but is to destroy the monopoly of money which the banks now control by virtue of their charters. The new system would set up a national credit authority which would on no account be called on to make an important decision but merely to see that the new machinery of finance was

## ENGLISH SCHOOLS HIGHLY PRAISED BY DR. ALINGTON

At Seventeen Eton Boys Free  
to Specialize in Best  
Subjects

### HART HOUSE LAUDED

English Public Schools Will  
Continue Forever Expects  
Ex-Head

A greater measure of academic specialization was advocated by the Very Reverend Cyril Alington, Dean of Durham and ex-headmaster of Eton, when interviewed by *The Varsity* on Saturday. Dr. Alington arrived in the city on Wednesday and has been staying with President Cody.

"The ordinary boy at Eton," said Dr. Alington, "takes his certificate, that is, his matriculation, at the age of sixteen or seventeen. Then he specializes, dropping those subjects in which he doesn't seem to find much interest, and going more intensively into those he likes. Most of them drop classics pretty completely. It is all nonsense to say that we in England teach classics all the time. It used to be true but not now."

### Concert Tickets Now Available

Representatives from the various colleges and faculties are requested to call at the Warden's office on Monday 18th February between 12.30 and 1.30 p.m. for their allotment of tickets for the Sunday Evening Concert on 24th February when the artists will be the Glee Club under the direction of Charles Peaker and Margaret Parsons, pianists.

Every member is urged, if he finds he cannot use his ticket, to return it to the Hall Porter's desk if at all possible before 1 p.m. on Thursday, 21st February.

## TRICOLOUR CRUSH OPPONENTS TO SCORE DECISIVE VICTORY

### Attendance Papers Are Now Available

Certificates of attendance in connection with the payment of the second instalment of University of Toronto Scholarships (not including College Scholarships) may be obtained at the Registrar's Office, Simcoe Hall.

Score Twelve Victories Out  
of a Possible Total of  
Seventeen

### VARSITY WINS THREE

McGill and O. A. C. Win  
One Event Each in Sur-  
prising Meet

By B. J. McGuire

Kingston Feb. 16—The Tricolour flag of Queen's University was raised over the fist horizon on Saturday night in one of the most surprising displays and startling upsets ever to occur in the annual intercollegiate B. W. & F. meet. The rapid rise of the Kingston team to supremacy in this sport has seldom been equalled in Canadian sport. Back in 1931 Queen's won the title for the first time in twenty years, won it by the slim margin of a lucky knockout in the final fight. Saturday night they again won the Tom Gibson Cup but this time they totalled twelve victories. Varsity in second place amassed a total of three wins while O.A.C. scored once and McGill won only the fencing. Never before has so decisive a victory, or crushing defeat been attained.

The University of Toronto had but four men in the finals on the last night. Of these four, three went on to capture intercollegiate crowns. Jack Millson, boxing at 118 pounds, gave Varsity their only boxing title. Johnstone, wrestling at 126 and Wright at 165 both scored impressive victories in the finals of their wrestling class. The other Toronto grappler to reach the finals, Mackenzie, dropped a decision

(Continued on Page 3)

### VICTORIA TO DEBATE ON CANADIAN AFFAIRS

The Victoria College Debating Parliament is again attacking a problem significant in Canadian affairs with the motion "Resolved that, in the opinion of this House, the social programme of Premier R. B. Bennett is in the best interests of Canada."

The affirmative will be supported by Mr. Joe Okell and Miss Meeda Williams while Mr. Wilfred Deeth and Hamet Christie will endeavour to disprove the motion.

The nominations for next year's executive will also take place at this meeting which is scheduled to start at 8.15 in the Alumni Hall.

## Agile Tongues of Fairer Sex Severely Crush Trinity Males

Cleopatra, Cavernomen Cited  
to Prove Feminine  
Equality

The superior egotism of the male received a crushing blow when the resolution that "Man is a Higher Being than Woman" was defeated by a vote of seventy-two to thirty-two in the open-house debate at Trinity College Friday evening.

Charles Depew, first speaker for the affirmative, claimed that women are shallow, frivolous, catty, unreasonable, and inferior in every way to the lord of all beings man. From the beginning she was never intended to be anything more than a cooker of pies, a drawer of water, and man's plaything. Mr. Depew admitted that "women have

(Continued on Page 4)

### MEMORIES

1890—University College was still smouldering after the great fire which destroyed it completely except for part of the west wing. The flames were seen as far as Hamilton, while there was only snow to fight the blaze.

1919—Sir Wilfrid Laurier passed away after an illness of some time.

1932—Mr. V. A. Wood, IV S.P.S., succumbed to the injuries received in the explosion a few days ago in the Mining Building.

1933—Varsity took both the Senior Assault for the boxing, wrestling and fencing championships and the senior basketball for the Big Five title.

## Burnt Sacrifice

The astonishing tragic farce of the Hauptmann trial was another of those incidents which reveal to the thinking minority all over the western democratic world the seeds of self-destruction which lie in the system.

It can be said, in fact, that such an incident shows the system to be no longer democratic at all, if indeed it ever was. If a free citizen can be taken from society, deprived of freedom for a long period and finally put to death, for an anti-social act of which he has not been unquestionably proven guilty, the society can in no sense be called a democracy.

There is little doubt that the guilt or innocence of the prisoner was not the real issue at stake in the famous trial. If it had been, Hauptmann would today be a free man, for proof of his guilt is far from unquestionable. Such evidence as was not merely circumstantial was very feeble indeed.

Bruno Richard Hauptmann is a middle-aged, middle-class German immigrant, with a face devoid of any distinguishing mark, a flat, uninteresting, ordinary voice with no characteristic save a German accent and manner of speech. That description would fit thousands, even scores of thousands, of men in the New York area this day. Such a face was partly seen, such a voice was indistinctly heard, by a frantic father and an eccentric old man, at night in the surroundings of a cemetery. Later on they were seen and heard momentarily by a taxi-driver who was given no cause to remember the incident from among scores of others, until some time afterward. Yet, nearly three years later, the identification of Hauptmann by these three, as the man they had seen and heard in such circumstances, is accepted as partial evidence of guilt!

The original line to Hauptmann came through the ransom money. Yet he had only a quarter of it when discovered, and considerably less than half can even be traced to him. Only a little more than half, as a matter of fact, can be traced at all. Nearly half of the Lindbergh ransom money is still in the possession of someone else—who isn't likely to be spending it for a while!

The ladder and ransom-note evidence is decidedly shaky. First it was said that the ladder was made from lumber in a yard where the prisoner had worked. Then some expert claimed to have found it was made of wood from the attic of Hauptmann's home. Then someone else found that the attic wood was quite undisturbed, which seems more likely, since the Hauptmanns moved into the house in April, and the ladder had been used on the first of March!

Then there was the handwriting. Hauptmann's hand was careless and erratic as any schoolboy's. The writer of this article has a friend whose handwriting has been described as well-developed and highly individual. Yet he has seen writing of others so much like it as to be hardly distinguishable from the first. How many hundred thousand people write with Hauptmann's uncharacterized scrawl?

As for the spectacle of a state's attorney attempting to influence a jury by making the prisoner use the phrase "a year already", and pointing out that the same idiom was used in the ransom notes, a more conspicuous example of the weakness of democratic justice would be hard to find. When will juries be picked with more regard for educational qualifications? No student of languages would allow such

a manoeuvre to influence him for a moment. He would know that anyone native to the German or other Teutonic tongue uses such turns of words constantly. Yet the state's attorney, knowing well enough the probable culture in that direction of those in whose hands the fate of the prisoner rested, did not hesitate, not only to use such methods, but to make an emphatic point of the testimony.

Whether or not they were swayed by that incident, these men convicted Hauptmann.

And so we get the whole picture: The mobbed courthouse, covered with its dense matting of press wires, the ballyhoo, the crowds outside, the brow-beating prosecutor, the ineffectual defense, the jury, of doubtful capacity, the judge trying hard to be fair in the face of the enormous weight of popular spite, all surrounding one bewildered, vastly tired man.

Whether guilty or not, the man was convicted. It was almost a foregone conclusion. The state's attorney had been elected by the people. The people, stirred by what was probably history's most-popularly-detested single crime, and as always never stopping to reason, demanded blood—anyone's blood. The state's attorney had to give it to them, or face defeat in the next election. The New Jersey police, goaded almost to distraction by a frenzy of vituperation—all the world called them bunglers, and worse were determined to nab anyone on whom they could pin the most fragile evidence, and fasten the crime irrevocably on his shoulders, whoever he was.

And so Hauptmann was sentenced to die. Noise makers, held in waiting for the verdict, were brought out, model kidnap ladders were sold for souvenirs; the jury decides to accept a stage contract "because we all need the money, and everything will be quite dignified", the crowd moves away, and democratic justice has again triumphed.

## The World And the Student

University students may once have had the hallucination that it was but a short step out of their graduation gowns into a swivel chair in a private office. Admittedly this attitude became evident at times in, among other things, an inaptitude to accept the advice of superiors whom they felt, no doubt mistakenly, to be their mental inferiors. An unprecedented large percentage, among the rising generation, of highly educated young men and women was invading the business world, and for a while their value was perhaps over-estimated.

The pendulum has swung to the other extreme during the last few years. Now, to many big business heads a man newly graduated from University is a fledgling, and an arts degree is a synonym for inexperience. He must work up from the bottom in order to learn about the world before he can provide the advanced theoretical knowledge and assistance which would be ultimately his value to the firm. Perhaps the big business head is ashamed to offer a graduate the small wage which he considers to be all that he is worth to the firm at present. Where, then, will he find an opening?

Recently an employer met an application for employment from a University graduate with the question: "Do you know what we pay our unskilled labour?" With that he closed the discussion. His attitude, moreover, is by no means unique.

A handsome wage for the student at Osgoode Hall is five dollars a month, although he is probably twice as valuable as any office boy would be at forty dollars a month. While working for a chartered accountant's diploma the magnificent salary is likewise five dollars a month.

Students of Household Economics spend many hours a week going into the practical, experimental and theoretical angles of dietitian work and household management. Yet after graduation, before there can be any hope of lucrative employment, there is a long apprenticeship, in restaurants showing customers to their tables, or in hospitals performing menial tasks. There is an example of this in a downtown first-class dining-room, where the head dietitian draws an annual salary of twelve thousand dollars, while her under-dietitians, although they are partially experienced beforehand, credulously serve a six-month apprenticeship with no wage, and no definite assurance of further employment.

Why should the would-be lawyer, accountant, or dietitian be exploited because he is willing to "take" anything in order to accomplish his ambition? Moreover, although University graduates have no desire to deprive men with a lesser education of their only means of livelihood, if there are no available positions of the type that they can best fill, let them have a fair and unprejudiced chance at those to be had, unless it can be proven that a hand calloused by polo is less efficient than one calloused by ditch-digging.

The Saga  
of

## The Varsity

(The Undergraduate Newspaper?)

1881—The Varsity first appears on the Campus.

1884—The Varsity organizes student strike, which results in the formation of the S.A.C.

1906—S.A.C. organizes to run The Varsity.

1934—

Oct. 1—Varsity commences publication.

Oct. 3—Editor resigns.

Oct. 4—Editor fired.

Oct. 5—Editor (Pro-tem) appointed.

Oct. 6—Editor (Pro-tem) fired.

Women's Editor takes charge.

Oct. 7—New Editor appointed. Women's Editor reduced to Women's Editor.

Oct. 8—Varsity refused admission to Medical At-Home for moral and ethical reasons.

Oct. 9—President of the Medical Society, disguised as an efficiency expert, invades The Varsity office asking more free publicity, saying, "Dr. Dafoe will get you if you don't watch out! Varsity staff cringe in corner."

Oct. 10—Varsity Night Editor makes mistake and prints Champus Cat in Editorial Column, alleging that Medical Society has dropped to a new low level.

Oct. 11—President of Medical Society officially denies this as impossible. President of Medical Society reiterates that he is the man who put the "fish" in efficiency.

President of Medical Society demands an apology, alleging that the aforementioned article made a fish instead of an efficiency expert out of him.

Demands the resignation of Premier Hepburn, President Cody, Manager of the University Press, President of the S.A.C. and the Editor of The Varsity.

Anti-War Society arbitrates.

Oct. 12—All medical students on Varsity staff transfer to Engineering. Rumour creeps north that Editor is to be fired.

Oct. 13—Editor again beats gun by resigning. Writes his essays for the last three years.

Oct. 14—Editor fired.

Oct. 15—Association of Ex-Editors formed, and proves to be the largest organization on the campus. New association rumoured to control the S.A.C. S.A.C. takes out issue of The Varsity. Item, three hours overtime \$90.00. Varsity appears on campus at 5 p.m.

University police morality squad suspend further publication of The Varsity. University Press, having no Varsity to print, goes bankrupt, and is demolished.

Oct. 16—President Cody suspends

## Correspondence

Correspondents are reminded that all letters must be accompanied by signatures, and they are requested to limit themselves to approximately 300 words.

PARDON US, HART HOUSE

To the Editor of The Varsity.

Dear Sir:

In one of your recent editorials I note an apology to the McGill Daily because its representative was supposedly summarily ejected from Hart House on the day of the McGill-Varsity hockey game.

As that representative I would like to correct the impression given to your readers that Varsity is inhospitable to visiting students. On the contrary I wandered around Hart House for some time, unchallenged, spent some time in the reading room, and visited the Editorial Offices of The Varsity.

I was received most cordially everywhere—Mr. McGuire, your Sports Editor, offered me the use of the office typewriters if I wanted one to write up my story, and your Athletic Manager, Mr. Reed, was most cordial and

OF THE  
YEAR

## The University College Follies

OF 1934

An hilarious, revised, up-to-the-minute production will be FEATURED at the

## Annual Concert of the Varsity Band

to be held at

Convocation Hall, Tuesday, February 26th, 8.15 p.m.

The evening will provide entertainment to the taste of everyone. Make a point of being there.

TICKETS 25 CENTS

On sale S.A.C. Office, Hart House or from any bandsman.

## FELT CRESTS

Official University felt crests are on sale at S.A.C. office, Hart House, or Room 82, University College.

50c.

To be worn only on University Blue. Suitable for sweater, gym suit or blazer.

## UNIVERSITY OF TORONTO CREST PINS or RINGS

(Official—Registered)

The Students' Administrative Council control the exclusive manufacture and sale of these for the sole use of the student body. Crest Pins or Signet Rings may be obtained at any time at Room 82, University College, or from the Council's office in Hart House.

A supply of Rings and Pins is kept in stock.

**STUDENTS' ADMINISTRATIVE COUNCIL**  
Room 82, University College and Hart House

First year students are not entitled to wear the Crest.

## SPEAKING OF SPORT

By B. J. McGuire

Varsity's excursions afield led to nothing but disaster over the weekend just past. And the weekend saw Queen's score one of the most impressive victories ever recorded in an intercollegiate B. W. and F. meet. The Tricolour, noted for year for their fighting qualities, seem to have talked the boys into doing their fighting where it will count most and as a result when we arrived from Montreal, from seeing McGill do more counting than Varsity in the hockey game we found that there had been a lot of counting going on in Kingston, and unfortunately quite some quantity over the Blue batters.

A meet of such a kind is always productive of more surprises than a weather forecaster. Things just don't work out. The boys don't seem to be themselves. Many of the timid little chappies, who have been bullied for years by smaller fry with bigger nerves, suddenly become two fisted killers, pocket size Manassa maulers and such. Other chaps who have quite a reputation suddenly get stage fright and forget to duck or hit till it is too late. Nearly every fight produces a surprise. That is why the Queen's gym, with a seating capacity of 1500 was packed to the limit Friday and Saturday. These boys come there to act, not to prance around and look bored with it all.

The failure of the Guelph aggregation in their first year in senior company was perhaps as great a surprise as Varsity's showing. The real disaster, however, settled on McGill, who took home a single point. Incidentally this disaster was never written more plainly than it was on the countenance of Bert Light, who has for years coached the boxing team. The Red team collected a single point in the fencing matches thereby winning the F. unit of the B. W. and F. meet.

The entire production was conducted in a very efficient and pleasing manner. The only complaint we have to make is to Referee Clickman, who handled most bouts perfectly, but in our opinion made one error. Two sluggers, McLean and Marks, a pair of middleweights, the kind who send their punches by express, met in the finals. Midway through the first round, McLean landed a terrific wallop midway between the Marks knees and waist. It was obviously low and sent Marks to the floor in agony. Then instead of either counting Marks out or disqualifying McLean, Clickman called a one minute truce and then sent them back at it. Marks, the O.A.C. man, went the distance, but was floored for three nine counts in the process. This we believe to be a needless method of inflicting pain.

The most amusing incident of the meet was when Murray Griffin, ex-St. Mike's man about town, won the heavy wrestling title. Murray, whose wrestling knowledge is a negative quantity, discovered that he could stand up longer than most men, therefore he decided to be a wrestler. Somewhat of a campus character, he drew rounds of applause as he gravely deposited his gum on the post as he entered the ring and then promptly rolled his man to the floor and having thus exhausted his repertoire of mat tricks, merely sat on him till the bell went. The local lad weighs around 230 and stands about 5.6. Incidentally, despite the fact that he left the ring the new intercollegiate champion, he did not neglect to retrieve his gum.

### Tricolour Crush Opponents To Gain Decisive Victory (Continued from Page 1)

The work of Jack Millson in battling his way to the 118 title was brilliant. Jack was originally a lightweight but sealed down. In the prelims he stopped Alexander of Queen's in the first round. Then to win the title he had to get by Caron of O.A.C. Caron was fast and shifty, with a flickering left hand that caused Millson some trouble. Millson however forced the fight the entire distance, followed his foe continually and landed the cleaner blows, gaining the unanimous decision.

In the earlier fights, the Blue batters met disaster. Freddie Smith, one of the two men to win in the fights here with Syracuse, was rendered hors de combat in the first round of his battle with Smolkin of Queen's. Smolkin, a mere novice, connected with a wild swing which dazed Freddie and the bout was halted. Gibson in the lightweight class was doing very nicely against Gay of Guelph when he was cut over the eye, and although not badly hurt, and well in front on points, the bout was halted.

## M'GILL REDMEN VANQUISH VARSITY TO CINCH TITLE

Strong McGill Defence Holds Varsity Until Last Minute

### MACPHERSON SCORES

By B. J. McGuire

The Forum, Montreal, Feb. 15.—The gloomy shadow of defeat, which has been hovering about the Varsity camp since the opening of the hockey season, loomed up again to throw its depressing pallor over the hopes of the Blues in Montreal, Friday night, when they were met and defeated for the second time of the year by the McGill Redmen. The Montreal team, on the strength of their 3-1 victory, add to their string of successes, not only the Canadian intercollegiate title, but also the mythical North American College championship.

Not until the final minute of the game was the Varsity team able to break through the Red defence for their opening point and then it was Jimmie MacPherson, captain of the club who, when the team were trailing by three goals, continued to fight it out to the end, and finally whipped one past McHugh with but forty seconds left to play. The McGill goalie, who is leading the senior Montreal league in the number of goals allowed, was trying hard for a shutout and just failed.

Disaster overtook the Blue team in the opening minutes of the game. A shot on Shipman, in the Varsity nets, was deflected in the air, and it came down right at the goal mouth, and in spite of the efforts to clear, it hopped over the line. McGill capitalised on a Varsity penalty to storm the Blue citadel, and finally clicked for the second time. In the final period a Varsity rush was broken up at the Red blue line and the return rush caught the Blue team flat footed, and the three McGill forwards went in on top of Shipman for the third corner.

The game, which attracted only 2000 people, produced a rather mediocre brand of hockey. The first period was listless but the second speeded up slightly. Most of the fast hockey was, however, reserved for the final period when both squads turned it on for the entire twenty minutes.

The Redmen, with their fast forwards and backchecking tactics, together with a solid defence, proved to be one of the hardest teams the Blues have faced. McHugh, McLernon and Crutchfield were the pick of the winners, while the work of MacPherson, Valiquette and Devine was outstanding for Varsity.

### INTERMEDIATE CAGERS EASILY DEFEAT O.A.C.

Varsity II's too Good for Guelph Aggies; Score Easy Win

Varsity's second basketball team practically cinched the intermediate intercollegiate title when they won their fourth straight victory in the college loop at Hart House Saturday night, defeating the O.A.C. II's for the second time this season, by a score of 26 to 17. Varsity had the advantage of the play by a wide margin and only their careless shooting prevented a lop-sided score.

O.A.C. played a better brand of ball than in their previous meeting with Varsity and held them to a 9-9 tie at half time, due to the expert sniping of their centre, Padden. Varsity out-maneuvred the Aggies, but their shooting was off. The Toronto line-up was considerably weakened by the loss of Carey via the four personal route near the end of the first period, but managed to run up a nine point lead in the second, due to the fine work of Newman, who counted three times to make himself high scorer for Varsity.

Varsity 26: Sullivan (2), Carey (5), Magwood (1), Vanderleek (5), Himel (4), Krakauer (2), Doran (1), Newman (6).

O.A.C. 17: Paddon (10), Ward, Fraser, MacDonald (2), Brechin (3), Maxwell, Burnett (2).  
Referee: Tom Pogue.

## THE SPORTSWOMAN

By M. A. F.

Vic are now 2 points up on St. Hil-ds in the interfaculty hockey finals. The bout at 1 p.m. today decides the big event and it will be well worth watching. The game on Friday was a real thriller. Vic were in perfect form but the Saints battled hard right down the start to try to push through the strong Scarlet and Gold defence to do some scoring. There was plenty of spirit on both sides. The game was fast throughout and the hockey in the third period was really super. Elaine Knight played a beautiful game on the Saints' forward string and was definitely the outstanding player on the ice.

The senior basketballers took the Y.W.C.A. Thors for quite a ride on Friday night. The basketball played was definitely of an inferior calibre. Enid Palmer showed up well at centre—a position which incidentally, she is quite un-acustomed to playing.

The game on Saturday between the Varsity intermediates and the Macdonald Hall outfit was a treat to watch. The Varsity girls were distinctly out-classed but they put up a very nice tussle. Joyce Tenenbaum and Myrtle Robb work in beautifully together and Hazel Brown and Betty Jenkinson make the Blue and White defence quite powerful.

For Mac, R. Jupp, the tall centre, turned in a lovely performance. H. Baddock is a smart forward and G. Caudwell and M. Robertson have some crack defence plays which seem to work every time. Mac's plays on the whole clicked better than Varsity's and they showed greater snap and precision—but there were moments when the Varsity squad showed they have the real stuff in them and will be valuable senior material next season.

The senior sextet meets McMaster tonight at 7 p.m. at O.C.E. The McMaster team is supposed to be very fine and so we are expecting to see a real game.

Once again—do not forget the last game of the interfaculty hockey finals at 1 p.m. today at the Arena. Trinity and Vic at least should be out there in full force.

### Blues Eliminate Redmen In Basketball Tourney (Continued from Page 1)

only player to leave via the foul route. Connelly and Referee Pogue were at loggerheads all evening and when the erstwhile St. Mike's star refused to name the position he was playing, Pogue seized the opportunity to chase him.

Varsity got off to a bad start and at the ten minute mark were trailing 10-4. The play had been generally slow and Varsity's shooting was erratic. Baskets by Munroe and Gold brought the Blues within two points of the McGill crew. A foul shot by Marks sliced another point from the deficit and two baskets by Munroe sent them forging ahead in which position they remained for the rest of the game. Small scored just as the whistle blew and the half ended with Varsity leading 13-12.

Running true to form Varsity pressed hard at the start of the second chucker. Marks scored five points and Gold a single to give the Blue team a 19-12 lead. McGill put on a short lived rally when both Wilson and Young broke under the basket to score. Munroe intercepted a pass and raced down the floor and Gold garnered the second rebound to score. Four foul shots by Varsity and one by McGill raised the score to 25-17. Varsity again forced the play, with Marks getting a basket and Gordon a brace. Gormley scooped up the ball and slung it over his head and to everyone's surprise scored. Newman scored a single point and a minute later Crowley took a one-handed stab at his rebound and pushed the ball into the basket. Levy sank two foul shots that raised the ante to 36-19. The crowd began to yell for Varsity to double the score but two quick baskets by Small destroyed such illusions. The rest of the game was a ding dong affair with neither team showing too much advantage. Levy scored a high school hero basket when he threw a long one in the dying seconds of the game.

McGill: Small (12), Gormley (3), Young (3), Brown (3), Bowes (3), Huff, Wilson (2), Jeffrey.

Varsity: Marks (11), Newman (1), Crowley (2), Gold (3), Connelly (1), Munroe (6), Gordon (7), Levy (6).  
Referee: Tom Pogue.

A proposal before the Minnesota legislature to vote financial aid for needy university students was overwhelmingly defeated. It was considered in many quarters a dodge to pay football players, while others thought youth should be working, not sponging on the public, in times like these.

### JR. U.C. BEAT JR. VIC IN OVERTIME STRUGGLE

In a bitter interfaculty basketball struggle the Junior U.C. team nosed out a win over Junior Vic on Friday afternoon. At the end of the first half the score stood at 8 all; at the end of the second 18-13, and at the finish of the overtime period 21-18 for the red and white men.

### AGGIES SLOW IN START LOSE TO SR. U.C. CAGERS

Sr. U.C. defeated O.A.C.'s fourth team 21-12 in an interfaculty basketball game on Saturday afternoon. The boys from U.C. displayed too much speed and skill for the Aggies to cope with successfully and led 13-3 at the end of the first half.

### JR. MEDS TRIM JR. S.P.S. IN BASEBALL GAME

Clearly demonstrating their superiority Jr. Meds trounced Jr. School at baseball to win 9-7 and tie with School for their group leadership. Junior Meds rallied in the sixth inning, came from behind and remained on top during the rest of the game. Another game will be necessary to decide the group winner.

### INTERFACULTY HONOURS WON BY VIC POLOISTS

Smart Victoria Team Blank Junior School; Win Title Handily

Victoria College are the new possessors of the Eckardt Trophy, symbolic of the interfaculty water polo championship. On Friday they defeated Jr. School 4-0, thus taking the round 9-0. The game on Friday was much closer than the score would indicate. School displayed more speed than the victors but poor checking and loose ball handling cost them what chance they had to score.

Vic displayed class in every department and are worthy champions. Hay was the individual star, scoring two goals and assisting in another. Fisher got one goal and tossed a nice assist to Hay for another counter. Whiting scored the other tally. Scott in the Vic net displayed some great form and was kept much busier than in the first game. Runnels played a good game but his work was overshadowed by the flashy play of his defence partner, Dalziel.

## With an eye to Spring Fashions

Gloves are Fanciful

### Imported Kid Gloves

## Resignation of Editor

Predicted by Medico  
(Continued from Page 1)

best of his ability. He denied the charge contained in the editorial, that "he went to the extent of paying a visit to the office of *The Varsity* and attempted to intimidate those reporters present in a manner which, we are told, was very unpleasant and entirely uncalculated for."

"Since last February when you placed your trust in me and made me your president I have in every way done my best in this office. In this morning's *Varsity* the editor has laid various accusations against me. I deny these charges. I believe the editor is going to retract them and perhaps to resign."

Mr. Clark continued to speak of the work he had done in the past year, and the efficiency with which he had done his duty, and promised to follow such policy as he considered best for his faculty.

## NEW SOCIAL CREDIT SYSTEM OUTLINED BY DR. WYLLIE

(Continued from Page 1)

operated. Its first business would be to make an inventory of Canada's assets including her population, buildings, natural resources and railroads.

Forty per cent of a loan repaid to the bank today means a withdrawal of that amount from circulation. To prevent this the Social Credit system would take that forty per cent from the national wealth and thus keep money in circulation. Because of the development of science and industrial efficiency there will always be unemployment and man will count less as a worker. This will not hinder the volume of goods produced and man's indispensable power as a consumer must be amplified by subsidizing consumption as we have subsidized production. To do this Douglas would pay the individual an annual sum of money sufficient to maintain a decent living standard.

## New Anaesthetic Methods Are Fully Illustrated

(Continued from Page 1)

Lundy stated that he had been forced to invent some machine which would do the work of artificial respiration, as he was too often called upon to do that when he was already busy giving an anaesthetic. The first pictures showed a machine which pumped air in and out of the patient's lungs through a tube. Certain pictures showed the tube connected with a bladder which would alternately fill and empty with air. The second machine was in the form of a vest and contained various bladders which would fill and empty with air and accordingly apply pressure at different points on the patient's body, making him breathe naturally. At the end of his address he showed some slides indicating the uses of various anaesthetics. These showed that ether was still used in fifty per cent of cases, but that its method of application varied greatly.

## WORLD DAY OF PRAYER OBSERVED ON CAMPUS

(Continued from Page 1)

and devotion to Jesus Christ provided a basis for friendship and that in the universities it would be possible to draw together and make tangible this friendship which was implied in the Christian religion. There are now twenty or thirty countries in the organization though it is hard to estimate the exact numbers as in some countries, such as Russia, the movement has been driven underground. Since its inauguration in 1895 the organization has had many difficulties to surmount, particularly in times of crisis, such as the world war. Their present problems are well illustrated by the difficulties encountered in trying to call a conference to discuss the Pacific situation.

"The aim of the organization is not merely to create friendship and extend our hands to people of foreign nationalities, but through the friendship thus created to gain a better understanding of life. Together we can study our problems and strive for the creation of God's kingdom on earth," said Miss Rutherford. By this fellowship and conception the attitude and outlook and finally the actions of the members will be influenced.

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at either the men's office in Hart House, or at the women's office in University College. No notices will be taken over the telephone, after 6 p.m. notices must be taken to the Press Building. Notices for the Bulletin Board are limited to ONE insertion only.

### S.C.M. LUNCHEON

Again we announce that Mrs. Sascha Davidson will speak at a S.C.M. luncheon. This time our friends will not be disappointed. The luncheon is Tuesday, February 23 from 1 to 2 p.m. at the Women's Union. Tickets may be obtained from Betty Bealey or members of the executive before Tuesday.

### U.C. MUSICALS TICKETS

Tickets for the Sunday evening musical at Hart House, Sunday, February 24 will be given out in the junior common room of U.C. on Tuesday morning at 8.45 a.m. Registration cards must be presented.

The freshman class of University College is giving a dance at Malloney's Art Galleries on Thursday, March 7.

### RIFLE ASSOCIATION

The last Mitchell Cup match of the season will be fired this week. This match will decide the interfaculty winners and the scores also count for other aggregate prizes, so don't miss it.

### WOMEN'S DEBATING UNION

Debate between U.C. and Trinity at the Women's Union, February 18th. "Resolved that women have justified their position of equality with men on the campus." Trinity upholds the affirmative. Tea will be served at 4 p.m. Everybody welcome.

Sara Barkin will be heard in the Recital Hall of the Conservatory on Thursday, February 21st, not Tuesday as printed in *The Varsity*.

### UNIVERSITY SYMPHONY

A rehearsal of the University orchestra will be held at the Women's Union, Tuesday at 6.30 p.m.

## 'TWIXT TWO

### Dear Ted—

You are at perfect liberty to regard the present discourse as personal. I love reforming people—or at least attempting to. It is usually confined to an attempt.

In one's first few days at college one learns about a very important college rule, one which is so seldom broken that it has become one of those without exception—and that is "never be on time." When you come to think about it, you realize how sensible it really is, only of course everybody must obey it.

In the first place it is amazingly sensible, because people can be, and practically always are late. Then also, no one would ever feel at all rushed, no one could ever feel annoyed over being kept waiting; our speakers at meetings would always be on time, and

no one would ever begin to worry whether he was coming or not. Everybody would always be on time—in fact there wouldn't be any "late."

However, if we are really going to adopt this idea—I mean more so than at present, we still find the occasional crank—we should do it properly. Penalties should be enforced on those who arrive on time—and doubly heavy ones on those who regard it as a virtue (because they can't do so without talking about it). No lectures, labs, groups, meetings of any sort would begin until some fifteen minutes past the appointed hour. It would be bliss.

Ridiculous, you say! But, my dear man, I am only trying to make the best of a difficult situation. These things happen—I ought to know—and all the talking people do never has any effect. Nobody knows that as well as you. Phyllis.

## Eton's Ex-Headmaster Praises English System

(Continued from Page 1)

Take Eton; we have 1150 boys at Eton, 250 of whom have already passed their certificate and are specializing. Only 50 of those do classics; the rest have dropped them."

The *Varsity* questioned Eton's former headmaster very closely on the subject of the public school system in England and its comparison with our own Canadian systems. About the latter Dr. Alington claimed he knew very little or nothing at all, but he was full of praise for the former.

"I think the public school system a brilliant thing," he said. "It will continue for an inestimable period. More and more boys are attending our English public schools. Probably the best argument in their favour is the very obvious fact that nearly every man who has attended one of the big public schools wants to send his son there."

Dean Alington's last visit to Toronto was away back in 1897, fully 38 years ago. In comparing his memories of the last trip here with the present one, the Dean found the most interesting and startling change to be that of the institution of Hart House. Like most

visitors from abroad to the University of Toronto, he was full of praise for the beautiful buildings and wonderful facilities afforded here; above all he liked the Hart House Theatre, stating that it was "almost perfect."

### French Summer School

To be Held in Montreal

(Continued from Page 1)

plays, cinemas, newspapers, restaurants, church services, etc. of Montreal play their part in the reality of the "living in French" experience and the historic background of what was once "New France" lends an added interest.

As a rule all parts of Canada and the States are represented in the student body and ages run from eighteen to eighty. The cultural level is high and the spirited exchange of ideas forces expression. As will be seen in the advertising columns circulars may be obtained on application to the Secretary, Residential French Summer School, Montreal, Canada.

### MOUSE KILLS BOA

The University of Vermont's pet boa constrictor was killed by a mouse which had been given him to eat. The mouse bit the boa's tail, causing an infection.

## CHAMPUS CAT

(Continued from Page 2)

University police.

Oct. 17—Premier Hepburn suspends President Coyle.

Oct. 18—McMaster University moves to Toronto, taking over all faculties except Medicine. Medical Society moves to Burnside.

Premier Bennett promises action in new series of radio addresses.

Oct. 19—*Varsity* staff resigns and takes over Hush.

Pass to Daffydil Night extended to Hush as usual.

Anti-War Society changes name.

Oct. 20—Muddy Yorker comes from lunch, and finds Champus Cat commandeered. Goes out to look for job.

Oct. 21—League of Nations report difficulties adjusted and all Quiet on the Varsity Front.

The Cat's Quintuplets.

P.S.—The above story is not entirely true.

## CORRESPONDENCE

(Continued from Page 2)

generous in the matter of tickets for the game.

In fact my reception could not have been better and I certainly did not share the fate of our unfortunate friend from the Queen's Journal.

I write this in vindication of Toronto's well-known hospitality, and only hope we will be able to reciprocate it as well when your representative comes to Montreal.

With best wishes for the continued success of *The Varsity*.

Sincerely,

Allison T. W. Walsh,  
Managing Editor, *McGill Daily*.

## Students Lecture-Burdened - No Time for World Affairs

(Continued from Page 1)

and that their interest in world affairs finds expression in other ways than by attending lectures on the subject.

Professor F. C. Jeanneret, Head of the French Department of University College, stated that his experience has been that in the past ten or fifteen years there has been an increase of interest among the students in the contemporary politics of France. "Of course, there may be exceptions but on the whole the students do tend to give more thought to present day politics," he said.

Mr. H. Peterson of the Spanish Department, considers that honour students show some interest in world affairs but that the pass course students do not give much thought to such things.

## Trinity Males Lose Debate, Feminine Equality Proved

(Continued from Page 1)

their uses, but so also have horses, pigs, cows and other beasts of burden, and are they not indispensable to the welfare of man? On the other hand they, like women, cannot get along without a lord and master, and who is better qualified to fill the position than man?" After this speech certain members felt moved to change their position to the negative side of the house.

Roxalyn Read, first speaker for the negative, maintained that "although woman was forced into an inferior position in the days when clothes grew on trees and men fought for her possession, her mind was nevertheless intent on higher things, far away from the two great louts who were showing off before her in their efforts to win her approval. Woman has always had a marvellous intuitive faculty, and although you may laugh at intuition, it is nothing more nor less than a keen penetrating intelligence which enables woman to see at a glance what the thin-skinned, thick-skulled man could not see with searchlights and telescopes.

Ross Gray, second speaker for the affirmative, asserted that woman's inferiority lay not in her physical weakness but in her total inability to reason. She is a gibbering, gullible, fickle farce and a menace to civilization as soon as she leaves the home. How many musicians, philosophers, artists or engineers have been women, in spite of man's generosity in giving them opportunities. He gave woman a chance to show her mettle, and was disappointed, because little mettle was forthcoming, and that little was tarnished.

Elspeth Chisholm, second speaker for the negative, cited numerous examples from history to prove woman's equality. Cleopatra, by her beauty, wit and audacity, disarmed two of the greatest generals Rome ever sent to Egypt. The women of the French salons caajoled

## The Spring Fabric Story

by Simpson's

A thrilling tale of bold, unusual colour combinations and pretty pastel shades. The fashion interest lies in the surface of the fabric—be it silk, cotton or wool, it is matelasse, crinkled or open mesh. Tweeds during the day, and filmy, fluttery chiffons in the evening lead to a climax of smartness, with taffeta playing a dramatic role. The happy ending—if you purchase your materials at Simpson's—is a Spring wardrobe of unsurpassable chic.

Simpson's — Second Floor

THE SIMPSON COMPANY LIMITED

## Let's Go Places

The complicated plot of *Matriecule* 33, shown at the York on Saturday, proved remarkably easy to follow. Spy picture usually shows either beautiful but morose damsels continually sobbing or mysterious sirens who won't talk: the leading man is one of those strong silent specimens; the enemy ranks them with leering brutes. The story is continually changed to show off the box office attraction to the best possible advantage, with the result that the finished film often lacks continuity. In a production where every minute detail is important we can be thankful that French producers hire actors rather than mannequins and fill roles with experienced players who look the type they are to portray. *Matriecule* 33, having splendid direction, cast, diction and photography, was an excellent film.

Not that our hero was unattractive—banish the thought! The Germans were obviously German, especially the prince imperial. The most difficult role, that of an alluring enemy spy beneath those ultra-smart Parisian creations there beat a heart of gold, was very capably played by an actress from the comedie française.

The outstanding merit of the picture lay in its excellent enunciation. Each word was said distinctly—no mumbling to make the story more confusing than was necessary. The local colour was again perfect with beautiful shots of San Sebastian, Paris and Brussels. The last scenes, in which the woman, in a glittering garment that would have made Cleopatra turn green with envy, detained the bete noire so that her dear enemy might safely escape, made a very romantic finale and likened the dangers of counter espionage to glorious adventure.

D.H.C.

men by wit, smiles, and a pleasant atmosphere and influenced politics immensely, stimulating the national thought that led to the French revolution. Woman is superior because she can utilize her apparent inferiorities, her weakness, her "dumbness"; she can do more with that indefinable something than any man who ever lived could do without her. She can successfully fulfil the functions of homemaker, artist, and business woman. Therefore, most conclusively, man is not a higher being than woman.

VOL. LIV.

UNIVERSITY OF TORONTO, TUESDAY, FEBRUARY 19th, 1935

No. 89

### NEWS OF THE WORLD IN BRIEF

Washington—The Roosevelt administration scored a sweeping practical victory when yesterday the Supreme Court by 5 to 4 justified the abrogation of the Bond Clause.

Ottawa—One of the rare occasions on which the chamber has ever achieved unanimity of opinion happened yesterday when the Commons voted 100 to 0 for unemployment insurance.

London—Great Britain launched an enquiry into the private manufacture of arms, implementing a promise made by the Government in the House of Commons last autumn.

Naples—Two battalions of Fascist Black Shirt militia—2,186 officers and men—sailed for East Africa at noon today.

### SMALL CHANGE SEEN IN GRADUATE STATUS

Feeling in Some Places Is that University Grads Are Impractical

### SOME SALARIES INADEQUATE

The question of the reception of the University graduate by the business world has been raised again. It is evident that he does not receive the warm welcome which was extended in former years. Is this due to the changed conditions in that sphere or is it discrimination against the student?

It is the opinion of Mr. K. B. Conn, secretary-treasurer of the Alumni Federation, which assists in finding employment for graduates, that the University graduate is still in demand. He reports that last week an insurance firm which never employed University men before applied for a graduate to fill the position of salesman. "There is only one case on record where a firm offered an inadequate salary," (Continued on Page 3)

### MEASUREMENT OF TIME EXPLAINED BY AFFEL

Intricate Process Supplies Time to Most of U.S.A.

Speaking before the Toronto section of the American Institute of Electrical Engineers last Friday night, Mr. H. A. Affel of the Bell Telephone Laboratories in New York, explained part of the intricate process of supplying time to a nation.

Most of the United States depends upon two small rings of quartz crystals for its accurate time. They are scarcely more than an inch and a half in diameter—but as true measurers of time, they are second only to the movement of the earth itself.

When subjected to a flow of electric current, said Mr. Affel, these finely ground crystals oscillate at a frequency of 10,000 cycles a second. In order that no variation can occur in this frequency, the crystals are kept at a constant temperature, controlled to one-thousandth of a degree.

From the central laboratories, this frequency is transmitted over the company's lines to various points. Depending upon its purpose, it is lowered by beams of special apparatus. From its original frequency of 10,000 cycles, for instance, it could be reduced to a frequency of 25 cycles, similar to that of Toronto's alternating current supply. When an electric clock is "plugged in" its motor runs at the correct-time speed.

### BENNETT PROGRAM NOT TO ADVANTAGE PEOPLE OF CANADA

Vic Debaters Defeat Motion Upholding the Bennett Government

### DOLE SYSTEM CONDEMNED

Claims Economic Nationalism Results in Breakdown of Capitalism

"Resolved that the social programme of R. B. Bennett is in the best interests of Canada" was the subject of the debate at Victoria College Debating Parliament last night. The motion supported by Mr. Joe Okell and Miss Meeda Williams, was defeated by Wilfred Deeth and Harriet Christie, who successfully upheld the opposition.

The debate was opened by Joe Okell, who upheld the government. He declared that although the government had done nothing in the last four years towards reform, it is a fact that measures of reform should be initiated and carried out, not in time of depression but in times of prosperity and it is only now that the stabilization of economic conditions is such that reforms can be undertaken. He outlined them (Continued on Page 4)

### CHEMISTS TO HEAR TALK BY MARLING

Address Will Cover Certain Phases of Lacquer Technology

### DINNER TO PRECEDE TALK

Students of chemistry will be interested in the annual joint meeting of the Toronto Chemical Association and the Toronto Paint and Varnish Club, to be held on Friday, February 22nd in the library of the Royal York Hotel. The speaker will be Mr. P. Marling of Thomas and Hochwalt Laboratories, Dayton, Ohio, who will speak on the subject, "Recent Developments in Lacquer Manufacture". The meeting will be preceded by an informal dinner in one of the private dining rooms of the hotel.

Mr. Marling's address will cover the more interesting phases of modern lacquer technology, including the "Shapless Process" with the development of which he has been associated.

Members wishing to attend the dinner are requested to phone the secretary, Dr. A. D. Barbour, in advance (Continued on Page 4)

### Pretty Pink Pyjamas--Pooley

Victoria College Library is the latest institution to succumb to the pyjama craze, as witnessed by the peculiar sight of a chubby figure in bright pink night-wear wandering about in the reading room yesterday at noon. In his most Habbeshavian manner the victim failed to explain to *The Varsity* that he was the victim of a cruel frame-up; he had merely been trying the pyjamas on in the Men's Common Room, home of the Sandwich Parliament, when he was seized from behind and conveyed to a rather conspicuous spot in the Reading Room. At a late hour last night *The Varsity* was unable to learn why the gentleman was trying on pyjamas in the Common Room at noon. "Oh shucks," he remarked characteristically,

### Dame Sybil Thorndike Outlines Position of Amateur Theatre

Audience Is Emotional Rather Than Intellectual States Eminent Actress

### EXPERIMENT NECESSARY

The Little Theatre in England Provides an Indication of Public Taste

"The function of the amateur theatre is to act as a beacon to the professional stage," stated Dame Sybil Thorndike, prominent English actress, in an address yesterday to an audience which filled Hart House Theatre to capacity.

Speaking in an informal and highly pleasing manner, Dame Sybil made it very clear that the true purpose of amateur theatre movements such as that which has its headquarters in Hart House is to go ahead and act as research laboratories for the professionals and not merely to attempt to copy them, a thing which they cannot hope to do successfully.

Dame Sybil related the manner in which the Amateur Theatre Movement got its start in England as a method of showing its true purpose. "After the war, there was a grave danger of the theatre dying," she stated, explaining that this was due to the fact that the majority of the theatres during the war had been presenting the very lightest entertainment they could. When the war ended and there was no longer such a deep need for emotional outlet, the theatre fell more or less into disrepute, and the huge war-time crowds were no longer in attendance at performances.

"But you can't kill a thing for which there is a deep need," declared the noted actress, "and consequently little amateur groups sprang up all over England. It saved the theatre by giving the professionals a vision of what the (Continued on Page 4)

### SANDWYCHE CLUB DEBATE INVOLVES WOMEN'S RIGHTS

Tomorrow at noon Ye Sandwyche Parliament will meet to debate the motion, brought up by Hugh Pearl, the most outstanding Vag at Victoria, "Victoria expects every man to do his duty."

Hugh Pearl, the president of the V.A.G. (Victoria Association of Gigolos), will uphold the motion. Although the Vags, anti-Vags, contra-Vags, mis-Vags, un-Vags and dis-Vags all agree that Victoria College is absolutely overrun by women they all disagree with Pearl's method of solving the problem. The Vags believe that harems and seraglios should be revived in Victoria despite the fact that they are out of the style even in Turkey, thanks to the bothersome influence of Mustapha Kemal Pasha. The contra-Vags, under the leadership of Jack Thompson, say that they should take advantage of so many women and be particular about the one they choose. On the other hand George Proust and his anti-Vags deplore the day that women were even allowed into University and whose idea is to retire into a misogynistic biding. All these solutions will be argued at the debate tomorrow.

There is a rumour that the weaker sex, on hearing of the Victoria Association of Gigolos and their proposed plans, have formed the Victorian Order of Gigolettes who are determined to fight to retain their present status. Perhaps we won't have to go to Afghanistan to see the next war.

Ye Sandwyche Parliament holds the exclusive patents to the new method of welcoming speakers. This interesting innovation will take place tomorrow when Harry Beer will be the Speaker of the House.

### Publication Committee Issues Statement

At the meeting of the Publications Committee of the S.A.C. yesterday afternoon, Mr. C. R. Ellis, editor of *The Varsity* was charged with breaking his agreement with the S.A.C. by his having made use of the editorial columns of *The Varsity* on Friday, February 15 to make a personal attack on two members of the student body, and by his having in the same editorial stirred up resentment and hostility between faculties and students at this University. The question as to whether the statements made in the said editorial were true or not was discussed at considerable length, but was ruled not necessary to substantiate the above charge. The Committee decided that the charge was valid, and demanded the resignation of Mr. Ellis.

As Mr. Ellis refused to retract or apologize for the said editorial unless his statements were proven untrue, and as the Committee felt that the editorial should be retracted, no other action remained but to suspend the editor until the next S.A.C. meeting on Wednesday, Feb. 20. In the meantime Miss Mary White, Women's Editor, will be in charge.

### INITIATION SEVERE IN N.Y. UNIVERSITY

After Visit to States Varsity Best Appreciated Say Mirskys

### NOTHING LIKE HART HOUSE

"The best way to appreciate Varsity is to come back here after a week in the States," was the comment of the Messrs. Mervin and Jack Mirsky, who have spent a week in New York and New England, between them visiting New York and Boston Universities. They came back last Sunday to take over the government at the U.C. Parliamentary Club.

"We were there over Hell Week, when the fraternity initiations are held," said they, "and they make S.P.S. look like St. Valentine's Day at Branksome. We saw freshmen fainting and half-dead. They are sent on errands that keep the houses in linen and hardware for a full year."

Fraternities are very strong, in the absence of a centralizing influence like (Continued on Page 4)

### STUDENTS TO CONDUCT S.C.M. CHAPEL SERVICES

During the S.C.M. International Week the regular Victoria chapel services, held under the auspices of the S.C.M., will be conducted by students.

Each morning from 9.50 to 10.10 a student acquainted with some foreign country will give an outline of student activities in the field of nationalism, communism, religion or peace, the object being to stimulate ideas in the direction of a better understanding of each subject.

On Monday, P. C. Addy, an exchange student from India, spoke on nationalism and religion. On Tuesday, S. Navisa, from China, is speaking; Wednesday, J. Riddell on nationalism and religion in Europe; Thursday, J. Kim from Korea is speaking on communism and religion. And on Friday, Miss V. Tenant will complete the week by a talk on international student relations.

### Correction

Mr. C. A. Ashley, supervisor of studies for the Commerce and Finance course and assistant professor in accounting has asked *The Varsity* to correct the statement in yesterday's editorial to the effect that graduates working for a chartered accountants diploma receive only five dollars a month. Mr. Ashley would only say that this was not the case.

### ST. HILDA'S DEFEATS U.C. DEBATING TEAM

Resolved Women Are Justified in Demanding Equality on Campus

### MEN MORE INFLUENTIAL

In the Women's Union yesterday, University College Contended with Trinity for the trophy awarded to the most successful debaters on the campus. The subject discussed was, "Resolved that women are justified in demanding their position of equality with men on the campus."

Trinity, in upholding the motion, gained the decision of the judges. Eileen Holden, leader of the affirmative, pointed out that women already have this equality to a certain extent that they have been on the campus comparatively few years and are already branching out in such supposedly masculine courses as Meds and S.P.S.

"In academic, religious and dramatic work," stated Miss Holden, "woman is showing an interest as great as man on the campus, therefore she should have equality."

Josephine Le Pan, of University College, questioned women's desire for equality and stated that as their outside interests were so much wider than that of men, they had not so much time to take part in campus activities. She pointed out that while women are monopolizing positions which men might occupy in order to make their dependents financially secure, they are not able to learn how to run a house at the same time.

Joyce Kirk, second speaker for the (Continued on Page 4)

### Crafts Room Club Invites Membership

The most mysterious hide-out frequented by undergrads is a bright little room far below the maze of Hart House halls, where weird unfinished figures in wood and clay cast haunting shadows upon the yellow walls, partly decorated with clever etchings. This is the Crafts Room, accommodating a club formed only last fall, which supplies remarkable facilities for every student whose hobby falls in the category of carving, modelling, engraving, painting, line-cut work, and certain other branches of art. Since augmentation is desired, Jim Forsythe, one of the twenty-three members, enthusiastically invites all interested to join and take advantage of the expert instruction given three hours a week by Professor Schaeffer of the Central Technical School.

Among the work now in preparation for an April exhibition, is a fascinating clay creation by J. Kemp, depicting the rise of mankind from chaos; this is expected to stir deep emotions within the breasts of those throngs of student spectators who will be attracted when word of its appearance is passed around. A feature of this display will be etchings whose subjects are chosen from familiar U. of T. scenes; and this work is of a character that will insure a brilliant future for the Crafts Room Club.

### NEW REGULATIONS GOVERN ELECTIONS AT HART HOUSE

Changes in Procedure at Hart House for Committee Elections

### NOMINATIONS WEDNESDAY

Elections for Committees Will Be Held on March 6th 11 a.m. to 6 p.m.

Regulations regarding this year's elections for the various Hart House committees have been announced and several changes in the voting arrangements have been made. Eight candidates are to be elected to each of the House, Hall, Library, Music and Sketch committees, two of this number being elected by the out-going committee in each case. The candidate securing the highest number of votes in each faculty or college will become a member of the committee, provided he has received a total of at least three hundred votes and provided that a representative from his faculty or college has not already been elected by the out-going committee.

A college or faculty which is represented by a member chosen by the out-going committee cannot have a second member elected until the highest candidate has been elected from each of the other colleges or faculties, providing that candidate has polled 300 votes. Elections for the above committees will take place on March 6, between 11 a.m. and 6 p.m.

Elections to the Squash Racquets and Debates Committees are this year arranged on a new basis.

### DEBATES COMMITTEE

The new procedure for the Debates Committee is as follows: After two candidates have been elected to this committee from one college or faculty any candidate from another college or faculty which as yet has no representative elected shall be elected to the committee if he has polled at least 40 votes, the faculty or college of the two members carried over from the previous committee not to affect the election of new members.

The elections will take place on the occasion of the last debate, Wednesday, 27th February. Ballots will be (Continued on Page 4)

### MEMORIES

1927—For another year Varsity will retain the intercollegiate swimming title, making it the fifth time out of nine years that Toronto has held the premier honours in this sport. The Varsity representatives trounced those from McGill, in Hart House tank 44-23.

1930—At the women's interfaculty swimming meet, spectators were startled to see a mere male, fully dressed, dive neatly from the balcony, climb out ignominiously and sink away murmuring, "Who wouldn't for ten dollars?"

1932—For the fourth year in succession Varsity's women's senior intercollegiate basketball team captured the intercollegiate basketball title, thereby retaining possession for another year of the "Bronze Baby," coveted trophy of intercollegiate competition.

1933—Dr. C. E. Silcox, author of the words to the "Blue and White", the official student's song of the University of Toronto, described for *The Varsity* how he was persuaded to write the song in 1908, as a result of his own editorial in *The Varsity* demanding that someone do so.

## National Scholarships

A proposal was made in the House of Commons last week to consider plans for making national scholarships available to outstanding students of universities, agricultural colleges, and technical schools. The resolution points out that Great Britain and other industrial countries spend large sums of money on scholarship systems to enable brilliant boys and girls to secure adequate training to prepare them to be leaders in the industrial, professional and public life of their respective countries, and suggests that Canada should adopt a similar policy. In the words of the Honourable Charles Stewart who introduced the resolution, "in this age of scientific advance in all walks of life, in which knowledge is the limiting factor in the progress which can be achieved, Canada cannot afford to lose the tremendous asset it possesses in latent ability for trained leadership of its brightest young people."

The suggestion comes at a particularly apt moment. There can never be too many scholarships as any of the people connected with the administration of the various scholarship and loan funds in connection with the University will testify. In this period of economic stress the need is all the greater. If the war destroyed many of the men who should now be leaders in the public life of the country, no less is the depression destroying those who should be the leaders ten, fifteen, twenty years hence. The proposed scholarships would constitute an investment which would pay in future dividends many times its actual immediate cost.

We presume, or at least we may hope, that high academic standing will not be the prime requisite for these scholarships, for it has been demonstrated time and time again that the men and women most outstanding in their professions have not been those who took the highest honours in examinations. But rather we would hope to see them awarded to those students who show a real capacity for leadership, the ambitious energetic ones, especially those in more outlying districts. It is so frequently the case that the most brilliant boys and girls are just those who lack sufficient financial resources to obtain their training for themselves and who do not, for one reason or another qualify for any of the scholarships which are attached to particular institutions of learning. A system of national scholarships could be made extremely broad in its scope.

If the resolution is adopted Mr. Stewart will be hailed as a benefactor by thousands of ambitious men and women across Canada. Canada may yet become a real "land of opportunity".

## Forestry Facilities

The undergraduate organization of the Faculty of Forestry in this University have recently appointed a committee to consider ways and means of obtaining a practice forest. We have often advocated enlarging the Library and other essential facilities but the idea of a forest belonging to the University is something new and does not concern the Faculty of Forestry alone.

A forest, or even a woodlot, under organized control and management would be a demonstration of the aims and methods of forestry. Recent events show that most governments in Canada do not

understand what forestry is and that those who elect the governments are equally ignorant. An actual example of forestry near Toronto would help to dispel some of that universal ignorance. The practice forest would also be an indication of the efficiency of forestry methods and the state in Canada needs to be convinced that they are efficient in spite of the lessons from Europe and the fact that private companies operating in the woods are starting to practise forestry and employ more foresters because it means greater economy.

The value of a practice forest to forestry undergraduates would be immense. At the present time efforts are made to make the student acquainted with the carrying out of some kinds of forestry work, with logging operations, with forest-nursery practice, and with wood-using factories, but these are not enough. They do not allow the instruction to be related to actual practice. Technique is studied but not its application. Even a small wooded area such as may be found along Yonge Street within twenty miles of the city could be used profitably in the teaching of almost all forestry subjects.

Toronto lags behind all important forestry schools in the world by not having a forest. In the United States the practice forest is often over 5,000 acres while in Europe 20,000 acres is not an unusual size. Even the two small schools in Canada, at Vancouver and Fredericton, have their own forests.

The University's lack of such an area is a serious omission in a well equipped institution. The forest is the forester's laboratory and is just as necessary to him as the physics and chemistry laboratories are to the scientist.

## Abyssinia

Abyssinia is the only country in Africa today that is wholly independent of foreign control, although even now Europe is nibbling at her borders. Liberia claims to be a black republic, but unfortunately she has had to sell out to rubber interests in order to bolster her exchequer; while Egypt is fretting under a nominal independence that does scarcely more than say it, for England still feels she must control affairs as long as she has her interests in the Suez.

Recent events have shown that on some pretext or other Italy may try to gain a further foothold in this part of Africa, not being content with Eritrea and Somaliland, where both Britain and France have ceded territory to the aspirant nation from the Mediterranean. There may be two reasons for this advance: Italy wants to expand and give vent to national feeling in acquiring this empire that defeated her so ignominiously a few decades ago; or she is taking the brunt of the feared Japanese advance into this part of the world.

However, we are not immediately interested in Italy's motives, but rather in the affair as it presents itself from Abyssinia's point of view. Supposing that again Italy were forestalled in her aspirations? Even if not, she would still have a seething nationality under feet, ready to boil over at any moment. But if there is an invasion, and Abyssinia should rise to repel it, what then?

Ethiopia has a long and glorious history, and a history partly made of legends is even more dangerous in the hands of a people than one cut and dried like those of modern Europe. Africa is awakening, awakening from a drowse of centuries to find her hands tied. Here is one great nation still not conquered, having the banner of freedom thrust into her hands. Will she take it?

Nominally Christian, Abyssinia has sufficient Moslem population to be significant. All Islam is chafing that the chosen of Allah should be in bondage to the infidel. Once given a cause hopeful enough and the fire would sweep over the Sudan to all Africa north of the Equator with strong possibilities that it turn south as well towards and past the Congo.

For Europe such a conflagration would be awful. Europe has not been a kind master and should be a little sorry now. Perhaps nothing will happen after all, but yet there is the possibility that it may. But there are only the alternatives of either absolutely helotizing the continent, which is well nigh impossible, or of being kinder, of being rather partners than slave drivers in this vast region that is just beginning to rub its eyes and wonder if everything is all right in the world about it.

## ART, MUSIC & DRAMA

### Sunday Evening Concert

The following programme will be given at the concert in the Great Hall of Hart House at 9 p.m. on Sunday, 24th February:

I  
The Lincolnshire Poacher ..... folk-song arranged by Dunhill  
Fortune my foe ..... Old English tune  
My bonny lass ..... Morley (1557-1603)  
Down among the dead men .....  
Eighteenth century

II  
Thirty-Two Variations .....  
Beethoven (1770-1827)

III  
Fairest Isle (solo by Mr. F. Onley).... Purcell (1658-1695)  
Fear no more the heat of the sun .....  
Adapted from plain-song

IV  
March (Love for the Three Oranges) Prokofiev (1891- )  
The Prince ..... Frank Bridge (1879- )  
Pavan ..... Anson (1895- )  
Rhapsody in C major .....  
Dohnanyi (1877- )

V  
Hey Robin, jolly Robin .....  
Geoffrey Shaw (1879- )  
Hallelujah, Amen (Judas Maccabeus) Handel (1685-1759)  
arranged by Davison  
The Glee Club  
Charles Peaker, conductor  
John W. Linn at the piano  
Margaret Parsons, pianist  
(Mason & Risch piano used)

### Royal Alexandra

No one will ever claim that John Van Drute has added very much to literary annals with his *The Distaff Side*, now playing at the Royal Alexandra. It is, however, good theatre, brilliant, witty and novel. And with no less a stage personality than Dame Sybil Thorndike. Van Drute almost makes a story out of loves and not-loves. He does make a remarkable character study of a group of women, who, each in her own way, has some different love motif. The grandmother loves herself, her daughter loves loving in its broadest sense and her daughter in turn is just learning what she does mean by love. An aunt loves in a truly passionate manner when she loves at all.

Mildred Natwich as *Mrs. Venables*, the grandmother, does an exquisite bit of acting—every movement and every word gives exactness to a difficult role. Sybil Thorndike as *Mrs. Milward* is an actress that needs none of our applause to convince anyone of her worth to the theatre. A mellow voice, a grace of movement, and a beauty of presence is hardly describable. Dame Sybil is supported with admirable finesse by Estelle Winwood as her sister, *Liz Frobisher*, Clinton Sundberg and Viola Keats as *Mrs. Milward's* children, give delightfully vivacious performances. No one can afford to miss a production with Dame Sybil Thorndike, especially as she is so well enhanced by a good play and a fine supporting cast.

## Correspondence

Correspondents are reminded that all letters must be accompanied by signatures, and they are requested to limit themselves to approximately 300 words.

### "SAMSON" CRITICIZED

To the Editor of *The Varsity*.  
Dear Sir:

I would like a word of explanation as to the intention of some articles signed "Samson" which have been appearing in *The Varsity* recently. Are they intended to be humorous? If so the taste of their author is execrable and his material too morbid and unpleasant to arouse any feeling but disgust.

Are they a study of character? If so they are of interest only to students of abnormal psychology and calculated to excite popular opinion against the University.

Are they intended to represent a body

## IMPORTANT

All Torontonensis Write-ups, Group Photographs, Dean's Messages, must be handed in to the Student's Council Office, Hart House, not later than Saturday, February 23rd. This is the final date with the exception of some Athletic Groups for whom arrangements have been made.

After that date no space can be reserved.

DAFFYDIL NIGHT! Hart House Theatre, Thursday, February 21st

## THE SPORTSWOMAN

By B. L. M.

Vic I retained the hockey crown for another year by virtue of their victory over St. Hilda's yesterday. They entered the fray with a 2-goal lead over the Saints and managed to bang in 3 more goals while the Saints got 1. Rita Swartz and Jennie Batho made Vic's tallies, scoring 1 and 2 goals respectively.

But the game was by no means a one-sided affair. The Saints played real hockey and have some outstanding players. Elaine Knight was always a threat and Mary Dignam and Helen Elliott were right in there, Helen scoring the Saints' lone tally. Unfortunately Mary Dignam was hurt in the second period and this left the Saints in a rather disorganized condition. There was a good deal of tripping and swinging of sticks throughout the game and although two penalties were given there should have been several more handed out.

Today at one o'clock in the Arena there will be another practice for the all-star hockey team. Last week's try-out was very encouraging and Coach Jimmy MacPherson expects to have a real team ready to meet the McGill aggregation when they arrive here on March 2. So don't forget to keep that night open.

The senior basketballers are going it in great style. Witness their 13-11 victory over McMaster seniors. It was a very good game, fast and exciting and as it happens, the closest game Varsity has played to date. Kay Brown kept things humming as usual, and Mary Louise Carre and Edie Ardagh did some lovely teamwork. The seniors' next game takes place tonight at 5:15 when they meet O.C.E. and this, too, should prove well worth your attention.

Another close game, but this time it ended in defeat, McMaster intermediates beating Varsity intermediates 17-15. The Blue and White girls al- though made the grade as the score was 15-15 with two minutes to go but McMaster put on a spurt and dropped in the fatal basket. Joyce Tenenbaum was high scorer for Varsity with 9 points and Myrtle Robb made 6. Betty Jenkinson played a very good game also.

There will be no intermediate practice today but everyone is expected to be out on Thursday.

### Dents Victorious Over Pharmacy

Last night Dents clinched a playoff berth in the baseball series when they snared a 10-8 victory from Pharmacy in the big gym. This gives them undisputed leadership of Group II and although they still have one game to play against S.P.S. the standing is such that they can't lose.

The Druggists had only five players for the first inning and the winners lost little time in cracking out 7 runs before the remainder of the team put in an appearance. Pharmacy turned on the pressure counting 8 runs in the next few innings but the Dentists collected 3 at the same time and won the ball game. The losers turned in a fine effort after a shaky start but the 7 run handicap was too much for them.

### VIC WOMEN WIN LEAD IN HOCKEY PLAY-OFFS

On Friday afternoon at Varsity Arena, Vic's husky first hockey team went to work on the plucky lassies from St. Hilda's and succeeded in defeating them by a 2-0 score, in the first game of the interfacuity playoffs. The tilt was hard fought and fast throughout, but the St. Hildaean pucksters just couldn't get their shots past Maisie Cowan, the Scarlet and Gold goalkeeper. Marian Clements and Ruth Leavens scored the only goals in the game, and they were ably assisted by their invincible team mates. Elaine Knight and Mary Dignam were stand-

## ST. MIKE'S CAGERS DEFEAT VICTORIA

Cerame Scores Fifteen Points in Brilliant Play for Winners

FINAL COUNT 40 TO 28

St. Mike's fast-stopping, interfacuity cage team out-scored Junior Victoria 40-28 in a scheduled basketball encounter in the upper gym yesterday afternoon, to take second place in Group II with a mathematical chance of a tie with Jr. Meds for first place.

St. Mike's used a shifty combination that the Scarlet and Gold squad could not cope with, getting in for "under-the-basket" shots which they seldom missed. Jr. Vic had their share of the play until the last few minutes but missed many scoring opportunities through careless shooting.

St. Mike's led 19-11 at half-time due to some long distance scoring by Cerame. Victoria pressed hard in the second half but were out-luckered around the basket and just couldn't score. Towards the end, Vic relaxed on the defense and the Michaels ran in a few quick baskets to give them a twelve point lead at the final whistle.

Cerame, from Rochester (that home of good basketball players), was a veritable sensation, scoring fifteen points. Nally also played brilliantly for St. Mike's, shooting eleven points. McGivern, Dooley and Blum played heady games and shared in the scoring.

Maitland of Victoria gave a near-perfect exhibition of foul shooting, throwing in seven out of eight attempts. Clipperton, Vaughan and Hamilton also performed in a creditable manner for the Scarlet and Gold team.

St. Mike's: Nally 11, Cerame 15, McGivern 7, Dooley 4, Blum, Brigger, Kaufman 3, Dally, Harris, Barovi and Rizer.

Jr. Victoria: Clipperton 8, Vaughan 5, Hamilton 5, Lang 3, Burgess, Dunlop 1 and Maitland 9.  
Referee: Crocker.

### Lew Hayman's Team To Meet McMaster

Tonight Lew Hayman's senior hoopers meet McMaster's Big Six entry in the Garden City in an attempt to make it an even dozen wins for the Blues, nine consecutive in the six-team loop and three straight in the inter-collegiate series. In the first game Varsity's second string team meet the Garnet and Grey in a regular inter-collegiate fixture. At present both teams are well out in front in their respective groups.

The seniors have yet to meet defeat and prospects for a provincial title look very good should the powers-that-be allow the players to continue after the regular schedules have been completed. This situation developed two years ago but Varsity and St. Mike's dropped out to let the Lizzies go into the playoffs for Toronto and district honours.

Chances for a double win tonight look especially bright in view of previous meetings between the two colleges. When Hayman's crew defeated McMaster senior 45-28 and the intermediates ran up a 45-15 score to win their game in a walk.

outs on the opposing forward line, but although the Saints worked hard the sturdy Victorians were a little too much for them. Marg MacDonald of St. Hilda's put in some pretty work at goal, forcing the victors to be content with only two effective shots.

Vic 1: Goal, M. Cowan; defence, J. Gordon, M. Selater, J. Blundell; forwards, G. Wagg, J. Bartho, M. Clements, R. Leavens, M. Eastwood, R. Swartz.

St. Hilda's: Goal, M. MacDonald; defence, D. Searle, P. Harrison; forwards, H. Elliot, E. Knight, M. Dignam, R. Hopkins, J. Kirk, I. Wallbridge.

My list of the four most preferable things in life is: First, wisdom; second, domestic happiness; third, recognition and encouragement; fourth, welfare of one's country.—Dean Inge.

## SPEAKING OF SPORT

By B. J. McGuire

Pardon us for reminiscing about the events of the weekend but our usually fertile (???) brain refuses to be active. Several things stood out in the meet at Kingston. The one which was most noticeable was the manner in which the Jack Jarvis trained pugilists came out of the corner in the second period. Invariably they started a right hand wallop simultaneously with the bell and the result was that for several boys the opening bell kept right on ringing. Bert Light's boys from McGill were all fast with nice left hands but not so tough. The O.A.C. boys were just tough. They stood up, and for the most part, exchanged punches until something happened, and in this case, it was to them that the accident happened. And another pleasant thought which just occurred to us was that most of the championship team which was developed at Kingston this season are in the early process of their exposure to education and will probably be around there several time before they see the futility of it all, or graduate.

Despite the fact that Toronto University refused to enter any Union playoff at the annual meeting of the Intercollegiate Rugby Football Union held in Kingston over the past weekend we understand that the playoff system will continue. It appears that the present system of holding an extra game is a scheme to fill the coffers of the Union. It seems absurd that the second team, even if they finish two full games between the league leaders, should have the opportunity of annexing the intercollegiate honours in a sudden death game. Is the system as adopted by the Union in 1934 a trend towards commercialism or what?

We firmly support Professor T. R. London and Frank Shipp, who stated that the team wished to be free to take whatever action they chose at the close of next season. The playoff system practically stops any team's chances of challenging in the Big Four.

The wonderful record of eleven straight wins which Lew Hayman's cagers have chalked up this season stands a good chance of receiving its first black spot tonight when the Blue cagers meet McMaster on the latter's home floor. The Garnet and Grey squad have perfected a system of play which is very well adapted to their home floor. As a result the Blues will have to turn in their best effort to date to chalk up a win. Hayman's crew has risen to lofty heights before and in all probability will do so again tonight and if they do the record will read twelve straight tomorrow morning.

Definite word has been received that Joe Breen, coach of the Western Mustangs, will not be guiding the Londoners in next year's campaign. Breen was transferred to Montreal by his firm earlier in the year, but until last night it was hoped by the Western supporters that he would return. His inability to do this will leave a vacancy which will be hard to fill. Always short of material, the job of developing a contending team was never an easy one, but for the past five years he has produced a succession of hard battling and powerful teams, even though they won a title but once.

### VARSIY WOMEN LOSE TO McMASTER CO-EDS

The McMaster intermediates defeated the Varsity women's intermediate team last night in O.C.E. gym by a 17-15 score. The Varsity team fought all the way, and the score was tied 15-15 with two minutes to go. Ruth Matthews clinched the game for McMaster, when she sank a beautiful shot from way out. She and Erma Paul were Hamilton's high scorers. Myrtle Robb and Joyce Tenenbaum were Varsity's best forwards, and Audrey Neilson and Betty Jenkinson played a stellar game on the defence line.

Varsity: Myrtle Robb (6), Joyce Tenenbaum (9), Ruth Thomas, Ellen Wilson, Betty Jenkinson, Audrey Neilson and Hazel Brown.

McMaster: Helen Hardy, Erma Pasel (8), Ruth Matthews (9), Mary Chase, Mary Westaway, Julia Ross, Almeta Clarke, Kay Schooley, Jean McLaurin.

### SR. WOMEN BASKETEERS WIN IN CLOSE CONTEST

The Varsity women's senior basketball team triumphed last night over the McMaster seniors in a very close and exciting game. The final score was 13-11. McMaster was leading in the third quarter, when Varsity ran a bit wild, but the Blue and White sextette steadied down and went on to win the game. Kay Brown did most of the scoring for the home team, but all the forwards showed marvellous teamwork. Kay Grubbe and Marion Bernhardt were good on the defence. For McMaster, Kay Stuart was the outstanding forward and Mary Hubbard the best guard.

Varsity: Edith Ardagh (3), Kay Brown (8), Mary Louise Carre, Eugenia May (2), Kay Grubbe, Marion Bernhardt, Billy McGarry, Lorna Reid and Enid Palmer.

McMaster: Kay Stuart (4), Marg Taylor (3), Betty Taylor (4), Marg Hubbard, Mary Truman and Florence Nicholls.

## The Quick Way Home

"Pick your chin off your chest," says Optimistic Oliver. "That tune used to make me homesick too till someone tipped me to the telephone. Here—give the folks a buzz—and a big surprise—and don't forget to reverse the charges. Do it once a week and you'll never get the blues."

● Long Distance enables you to travel home weekly for surprisingly little. Notice the rates in the front pages of your directory. You can talk 100 miles or so for as little as 30 cents.

### Interfacuity Meet Here Next Saturday

If you are interested in gymnastics don't miss the interfacuity meet here next Saturday, when McGill meets Varsity for the championship.

It takes several years of hard training to become a good gymnast, and some of the best will be seen in action at this meet.

Each gymnast will go through movements on the High Bar, Parallels, Horse, and Tumbling, and will be judged for general form, execution, approach, retreat, difficulty, variety, beauty of combination, etc., on the basis of 100 points for a perfect performance.

Varsity's team of five men and a spare will be selected from the following: Kirk, Farrar, Macdonald, Lewis, Buck, Beard and Sherwood.

A special dancing feature will be the music from 10 to 12 by Karl Mueller and his Varsity Entertainers.

### Consteration Caused By Fictitious Marks

A joker in the Law Faculty at Texas State gained access to the bulletin board during the night and posted a fictitious list of marks. The grades, which ranged from five to ninety-five, placed good students at the bottom and bad ones at the top. The hoax was so cleverly worked that no one suspected it, and consteration reigned for several hours. Some students, dissatisfied with their results, threatened to return home.

Not Mr. Hoover himself, nor even Calvin Coolidge returned to earth, can quite convince the American public that it is more fun to lose your money in a bank than to risk it on a race horse.—Heywood Brown.

### Sport Notices

#### Manager Wanted—

Wanted—a manager for the University volleyball team. Leave name at Athletic Office, Hart House, before 5 p.m. on Thursday, Feb. 21. Credit for P.T. will be given.

#### Women's Basketball—

There will be no basketball practice for the Varsity women's intermediate team today. The next practice will be on Thursday as usual.

#### Volleyball—

Game tonight with Central Y at Hart House. Time—7.30.

#### Small Change Seen

In Graduate Status

(Continued from Page 1)  
said Mr. Conn, "and we made no effort to fill its request. Of course we receive very few applications now."

Professor W. J. McAndrew, who is the registrar of University College, does not consider that there is any direct discrimination against University graduate. "I hear two types of complaints from graduates," he stated. "First, that they have difficulty finding positions; second, that they are offered insufficient salaries. This has only been the case in recent years, however, and all young men, whether they have had a University education or not, are facing the same difficulties." Professor McAndrew admitted that some business men take the stand that after doing nothing practical for four years University graduates are not so well equipped to enter the business world as those with less education and more real experience, yet he feels that these are in the minority.

Friday, February 22nd, 8.30 p.m. Tickets 80c. DAFFYDIL NIGHT!

## Coming Events

**TUESDAY, FEBRUARY 19**  
5.00—Victoria College Dramatic Society presents "A Man Should Have a Wife", by Lisa Rembova in Hart House Theatre. Admission free.

8 p.m.—Commerce Club smoker, Hart House. Speaker: Mr. L. McGregor, Commissioner from the Dominion of Australia to Canada. Members free. Smokes and refreshments.

**WEDNESDAY, FEBRUARY 20**  
9 a.m.—Nominations for Hart House Debates Committee open. These nominations close at 6 p.m. on Monday, 25th February.

1 p.m.—The Sandwyche Parliament in Vic Men's Common Room. "Resolved that Victoria expects every man to do his duty."

8.15 p.m.—The U.C. Classical Association will hold its annual business meeting at the Women's Union. Student papers will be given.

**THURSDAY, FEBRUARY 21**  
8 p.m.—The University C.C.F. Club will meet in the Women's Union, 79 St. George Street.

5 p.m.—At the Women's Union, Dr. Mulock will give a fourth lecture on "Eugenics and the Individual Responsibility."

8.30 p.m.—Daffydil Night. Hart House Theatre. Tickets at Medical Office.

**FRIDAY, FEBRUARY 22**

8.15 p.m.—The annual concert of the Varsity Band and presentation of skits in Convocation Hall.

8 p.m.—Combined meeting of University, Trinity and Victoria French Clubs at Wymilwood. Debate, music, charades and refreshments.

**WEDNESDAY, FEBRUARY 27**  
6 p.m.—Nominations for Hart House Standing Committees and Camera and Squash Raquets Committees close.—Hart House Debates Committee elections.

**WEDNESDAY, MARCH 6**  
Hart House Elections.

## CORRESPONDENCE

(Continued from Page 2)

of student opinion? If so I sincerely hope that the author is misinformed, for if such views are at all common they indicate a great need for psychotherapeutic examination among the students of this University.

If, finally, they indicate the real views of the writer, I should advise him to visit a psychoanalyst immediately since the ideas he has put into print betray very distressing symptoms.

Yours sincerely,

T. R. D.

## New Changes Announced

In Election Procedure  
(Continued from Page 1)

given out until 8.45 p.m. and voting will begin at 10 p.m. or when the House rises. Nominations open on Wednesday, 20th February at 9 a.m., and no person will be permitted to stand for election unless he has spoken from the floor of the House on at least one occasion at a Hart House debate prior to that at which the elections take place.

## SQUASH RACQUETS COMMITTEE

The new regulations governing the elections of the Squash Raquets Committee are as follows: After two candidates have been elected to the committee from one college or faculty any candidate from another college or faculty which as yet is not represented shall be elected to the committee if he has polled at least 40 votes, the faculty or college of the one member carried over from the previous committee to affect the election of new members.

The Squash Raquets elections will take place this year on the same day as the general elections, Wednesday 6th March, in the sketch room. All nominees for election shall be regular undergraduate squash players and only those who are regular undergraduate squash players will be permitted to vote.

Nominations for this committee open at the same time as those for the standing committees—9 a.m. on Friday 22nd February—and close at 6 p.m. on Wednesday 27th February.

## ART, MUSIC AND DRAMA

(Continued from Page 2)

### Hart House Theatre

"A Man Should Have a Wife", is the intriguing title of a one-act play which is to be presented today at 5 o'clock at Hart House Theatre. This play was written by Lisa Rembova and first presented very successfully at Cornell University. The characterization is very cleverly and consistently done. The play presents an interesting study of a small town amateur dramatic production from back-stage. The rivalry between the leading lady and the ingénue for the affections of the leading man results in a very humorous situation and one that is an ironical comment on the vanities of human nature.

The cast is made up, for the most part, of inexperienced but very sensitive performers, who are doing excellent work in interpreting the varied types of characters represented. The play is directed by Evelyn Stewart.

## Marling Will Address

Chemical Association

(Continued from Page 1)

of the date. The exact location of the dinner will be posted on the hotel notice board. Those unable to attend the dinner are invited to attend the meeting, commencing at 7.30 p.m.

Members of the Industrial Chemical Club, of the Faculty of Applied Science or the University Chemical Club, are welcome to attend any meetings of the Toronto Chemical Association and the Canadian Chemical Association, with which these clubs are affiliated. Members of any of these associations are invited to bring with them any friends who are interested in chemistry.

## St. Hilda's Team Affirmative

Defeats University College

(Continued from Page 1)

affirmative, stated that the women had shouldered as big responsibilities with far less encouragement. In the field of sport she pointed out that they can carry home the championships without equal equipment, or a Hart House to train in.

Anne Fergusson believed that women had only stepped gracefully into vacancies which had been opened for them by men. Her theory was that due to heredity and environment women have different roles to play in life. She also declared that the women who exercise their influence in society after their graduation are of a much smaller percentage than the men.

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at either the men's office in Hart House, or at the women's office in University College. No notices will be taken over the telephone, after 6 p.m. notices must be taken to the Press Building. Notices for the Bulletin Board are limited to ONE insertion only.

### U.C. CLASSICAL CLUB

There will be a meeting of the U.C. Classical Club at the Women's Union on Wednesday, Feb. 20 at 8.15. Papers, elections and refreshments.

### COMMERCE CLUB

Mr. L. McGregor, Commissioner from Australia, will speak on "Australia before the Depression and after." 8 p.m., Hart House. Members free. Smokes and refreshments.

### T. I. C. C. U.

Tuesday, February 19th, 5 p.m. The Toronto Intercollegiate Christian Union meets in the Sun Room, Wymilwood. Speaker, Prof. Leach of Dallas, Texas. Everybody welcome.

### MACDONALD-CARTIER CLUB

Tonight at 8 p.m. at the Albany Club a study-group meeting will take place at which a paper will be read on the platform policy which was recently proposed by the Prime Minister. Dr. Brady will be there and intends to take part in the discussion. All members are urged to attend.

### WOMEN'S PRESS CLUB

Last day to enter contributions in the Women's Press Club Short Story Contest. Entries may be left in the women's Varsity office (Room 42A, U.C.) or handed to any member of the executive.

### MENS GLEE CLUB

A full rehearsal will be held today at 5 o'clock in the Music Room.

### U.C. PARLIAMENTARY CLUB

Fifteenth meeting, Thursday, February 21, 4 p.m. Junior Common Room. "Resolved that Toronto is a Detriment to this University." Pivnick, Speaker; Buck, Clerk; Mervin Mirsky, Premier; Shaffer, Leader of the Opposition.

### 1st YEAR VICTORIA PINS

The pins will be on sale Wednesday and Thursday during chapel hour for those who have ordered them.

### VARISITY BAND

Don't forget the important practice tonight at 7.30 in S.P.S. No practice at 5.

## 'TWIXT TWO

Dear Phyllis:

There's been a lot of talk about co-education recently—it's not too stale to mention, is it? It is quite a problem here at Toronto, because we haven't anything but the shadow of co-education; of course we're in good company in that respect, but let's be independent and have some progress!

I discovered at a large international conference of students in my freshman year that most other colleges—the Canadian ones and the less important Americans, have a most refreshing attitude on the mingling of men and women: to my amazed eyes there appeared dozens of couples arm in arm, in broad daylight. Imagine that sort of thing in Toronto!

The Western Canadian finds it passing strange that there should be separate entrances for ladies in Room 41 of the Physics Building. One might imagine that this was merely a regulation for convenience, but it is more—it is a symbol of the stiltedness and shyness of the men and women within the walls of all University buildings. Bad as this, it does not approach the thickness of the barrier between the sexes in a French or English lecture.

You co-eds are with us to stay—for good or ill—and it is stupid to

maintain that women distract men from their studies. The evil and its solution lie in the schools and their old-maidish teachers. We entered kindergarten by opposite doors; at the University we study in separate reading rooms. A co-ed usually thinks (with a thrill, perhaps) that she is compromising herself by going into a men's residence, even on Sunday. Men are so accustomed to doing without women (that is, they are so immature) that they actually prefer living barbarously in large rabbit hutchies of residences, to living in a fairly civilized condition, when they would have to put on a tie to go to the dining room. When you go into the library of Victoria, that Eden of co-eds, if you sit down on the wrong side of their blessed reading room—that is, with the other sex—every person in the room notices and sets up a barrage of table tapping.

The remedy is in a change of attitude on the part of the students. We need it. K— said to me yesterday, "I wouldn't send my daughter among those evil slickers at Queen's—if I had a daughter." As long as people look that way on progressive places like Queen's, Annesley girls will not walk in Queen's Park after dark, and—Whitney Hall windows will remain carefully blocked.

—Ted.

## Mirskys Tell of Social Life

Of American Universities

(Continued from Page 1)

Hart House. Very few colleges are co-educational, and these are not. "However, that no reason for misogyny or even celibacy in New York or Boston," they said when questioned. Both universities are scattered over their respective cities and are mostly attended by locals. The living cost is much the same as here but the fees are much higher.

Students were very industrious, said Messrs. Mirsky. The library at N.Y.U. is usually packed. Many students work their way through by waiting on fraternity tables and every possible job is open to students; there is no stigma.

General opinions for statistical study only, Messrs. Mirsky called "excellent." "However, there isn't even the Hollywood rah-rah spirit, but only general. Very many graduates are working in the "admirable" C.C.C. camps.

At N.Y.U. a well-rounded non-specialized quasi-Arts course with a

final passing minimum of 80 per cent precedes professional training in law, medicine or dentistry, which leads to the State examinations. The preliminary course lasts three years and the high school only four. The graduation questionnaire, which records political and vascuousness and shallowness and levity," they stated. "The atmosphere is not that of a university, but of an overgrown high school. And they were astounded, down there, at the contacts between our students and faculty. There is little interest in politics, save that Roosevelt is popular. We will say that they're amazingly hospitable to Canadian students; but it all makes us appreciate Varsity more."

In New York Jack Mirsky saw Sean O'Casey's "Within the Gates": "It would have scandalized Toronto. It was excellently directed and acted, especially by Lillian Gish; but mostly it slammed religion. It took in all modern viewpoints, and it was wonderful to hear metaphysics discussed among Hyde Park benches; but it left you doubtful as to its moral objective."

## Bennet Programme

Not to Canada's Advantage  
(Continued from Page 1)

briefly, stressing the abolition of the dole. "The dole is the condemnation of the economic system. Payment of relief must stop and the self-respect of the workers restored."

Wilfred Deeth was the next speaker, opposing the motion. He referred to these reforms as being indeed needed, but as lacking in any radical change and only fit to bring conditions of the country to the standard of a pre-war Germany. "The process of the general weakening of capitalism is the result of the development of economic national-political astuteness. It is clear-headed thinking that we need. Mr. Bennett's policy smacks too much of Fascism. The only way to solve the problem is by a truly co-operative spirit and a pure understanding of the difficulties."

Meeda Williams accused the opposition of attacking not the social programme, but Premier Bennett himself. She referred to the Price Spreads Commission and its purpose to insure fair play between producer and consumer and therefore between industry and the public. In conclusion she stated that the premier would invite parliament to take action in accord with the commission's recommendations.

The last speaker was Harriet Christie. "War is becoming inevitable as long as the capitalistic system lasts," she declared. "Socialism will take its place. Mr. Bennett's programme is not socialist. But this is necessary for Canada, and because it is not socialist, it is not in the best interests of Canada."

## Amateur Theatre's Position

Outlined by Thorndike  
(Continued from Page 1)

people wanted, and that should still be the dominant aim of the amateur theatre everywhere."

Dame Sybil went on to warn the amateur theatre to be very careful in the manner in which they presented their plays. "The public has to be led forward very gently," she said. "In a theatre audience, the sum of the emotions is much greater than the emotion of an individual, but the sum of the intelligence is a good deal less."

In conclusion, Dame Sybil added one final admonition: "Do a good thing and do it well. Do not pander, for that invariably leads to the death of a theatre."

## INCONSEQUENCE

So they can't take it! They are so used to having the whole world to themselves on an unequal basis that they resent even the small degree of equality that we have managed to gain. They can't pursue their wonderful careers in the scholastic and business worlds in peace simply because we have succeeded in gaining the right to participate in these pursuits. Surely our mere presence in the halls of learning, and finance need imply nothing, for they are in no way obligated to pay any attention to the "weaker sex", yet they do so for some reason best known to themselves. A "biological" reason, says Samson, which will soon no longer be extant "when eugenesis is perfected." More power to them. It will relieve us from the necessity of living in a world where War and Unemployment (due to the machines invented by male geniuses) are rampant; where social abuses uncorrected by male politicians and problems as yet unsolved by male philosophers and theologians cause more agony than the clash between the sexes ever did.

They prefer clubs and barracks do they? Homes and all they entail are anathema—only to be supported for the sake of the future of the race. What heroic altruism on the part of the male cack "Canadian home" implies. Women might work the barracks business on their own account but, lacking the male egotism, we have the grace to admit we wouldn't like it.

I sometimes feel as if I were a milk cow. People try to milk me of all my knowledge.—Albert Einstein.

Man doesn't live long enough to take advantage of his experience nor ever become sufficiently bright to avail himself of another's experience.—Albert Einstein.

Men and women are different in mind as in body. They are the complement of one another and have necessarily different characteristics, and Samson would do well to remember that unintelligently male characteristics are as bad as unintelligently female ones. A blending of the two is often found in geniuses. Samson remembers this in the case of females but conveniently forgets that male geniuses are generally largely endowed with female characteristics. But genius is an intangible thing and a difficult field for argument so we will allow that you are "creative and dynamic", but where in Heaven's name did you get the idea that you are "realistic"? If you were you wouldn't be artists and writers and composers and philosophers. Women are the realists and never seem more so than when seen in contrast with idealists. If Xanthippe had written down her thoughts they would shivel you.

I apologize to the other realists for having tried to answer Samson at all. Such attacks are better ignored and it is an essentially male trick to bandy words in the columns of a newspaper. The more sensible ones will powder their noses, fix their hair and get in and fight some more. Most of the women who read your tirade, Samson, laughed; a few were exasperated; more were pleased but all unanimously agreed that you had been jilted.

Delilah.

## NEWS OF THE WORLD IN BRIEF

Toronto—The Liberal government will add nearly \$2,000,000 to its financial burden when the Minister of Highways brings in a bill tomorrow that will shift the twenty per cent contribution of the counties for provincial highways to the province.

Berlin—Two men are to lose their lives in Germany soon, following their trial as espionage agents. Yesterday two women were beheaded for the same crime.

Paris—A French cabinet meeting yesterday decided that it would not oppose Anglo-German negotiations, by which the latter might be drawn into the present Anglo-French air alliance. France will abide by the pact regardless of Germany's action.

Rome—Italy today demanded that a neutral zone should be established between Somaliland and Ethiopia, and that this should be evacuated by troops of both countries. She refused to complete the present negotiations before this was carried out.

## BENNETT'S PROGRAM UNDER DISCUSSION

MacDonald-Cartier Club Studies Reform Policies of Premier

### CIVIL SERVICE PROBLEM

Professor Alexander Brady was the critic at the last meeting of a series of study groups held by the MacDonald Cartier Club at the Albany Club last night. This series of meetings has been held for the purpose of studying the political issues of the present day in an informal and impartial manner.

A paper was read by Mr. D. Pilcher dealing especially with the policies of the Conservative party as outlined in the recent radio speeches of Premier Bennett; as usual this paper was followed by an informal discussion by the members of the group. The discussion was criticized by Professor Brady, who spoke chiefly on the civil service. "The reforms of Mr. Bennett," he said, "are not meant to abolish capitalism, but

## MEMORIES

1926—"There's no charm like a woman's charm." The Stadium called in female aid to sell tickets for the track meet.

1927—Professor Pourier of the French Department stressed that French University students use political riots as a mere means of relaxation.

1929—Sir Robert Falconer, President of the University, officially declared that Toronto police could only act on the campus when invited. He made it clear, however, that they were very kind in helping the University authorities when necessary.

1931—The Mulock Cup came to rest at Trinity after thirty-seven years of trying. The final score was, Trinity 4, Victoria 1.

1933—The Blue hockey team greatly surprised the Madison Square Gardens crowd by taking Harvard into camp to the tune of 8 to 1.

## STRONG FEELING ABSENT AMONGST MED STUDENTS

### Sketch Room Talk

The last of the series of the informal lectures arranged by the Sketch Committee will take place today at 5 p.m. In the Sketch Room of Hart House when Mr. A. S. Mathers will discuss "Interior Decoration". Mr. Mathers' firm is well known as the architects who built the women's residence (Whitney Hall), the Botany Building, the Hygiene Building and the Dunlap Observatory.

## RULING DICTATED BY EXPEDIENCY

Supreme Court Decision On Gold Clause Only One Possible

### FORTUNATE FOR F.D.R.

In the opinion of at least three professors in the Economics Department of the University, the recent decision handed down by the United States Supreme Court on the Gold clause was dictated by expediency. Professor Morgan, interviewed by *The Varsity*, said, "It was the only possible verdict under the circumstances. If the decision had gone against the President, he would have had to take recourse to extreme measures such as declaring an emergency and vesting in himself the powers of a dictator."

Professor Plumtree thought it very fortunate that Roosevelt had been upheld on the issue, and went on to point out that not only the United States, but we in Canada and in the rest of the world would have been very adversely affected if a contrary decision had been reached.

The third man interviewed was Professor J. F. Parkinson, who stated: "I think that the Supreme Court had its ear to the ground as usual. He said that, in his opinion, the final decision on the matter had rested with Chief Justice Hughes, the remaining chief being equally divided on the subject."

## GAY BALL TO BE HELD AT ROYAL YORK HOTEL

Newman Club Offers Novel Entertainment to 400 Students

Three o'clock next Saturday morning will be "lights out" on one of the year's biggest parties, the celebrated Newman Club Ball. The event is to be held in the Banquet Hall of the Royal York Hotel, Friday, February 22nd, starting at 9.30 p.m. The quality of the music offered is guaranteed by the name of Ferde Mowry, late of the Embassy Club, as the orchestra leader.

Supper this year might better be called dinner from the quantity and variety of delectable viands spread for the enjoyment of the four hundred stiff-shirted scholars who are expected to attend. It will be held in the Crystal Ball Room of the hotel from 12.00 p.m. to 1.00 a.m.

A spotlight dance is only one of the special attractions promised for the evening.

Editorial Believed to be Hardly Important Enough to Cause Dismissal

## PRACTICALLY NO COMMENT

As a Whole Medicals Are Displaying Little Interest in the Affair

By J. F. Peterson

There is no strong feeling among the students of the Faculty of Medicine against *The Varsity* was the unanimous opinion of the student members of that faculty interviewed yesterday. Miss M. I. Davis, president of the Medical Women's Undergraduate Association, stated that the recent editorial in *The Varsity*, as a result of which the editor has been suspended, aroused little interest among the women students. "I have heard practically no comment about the matter," she told *The Varsity* reporter, Miss Davis had not read the editorial in question.

Correcting the voiced impression that a meeting of the student body had

## MONETARY POLICY ENDS DEPRESSION

Australia's "Premier's Plan" Combines Inflation and Deflation

### RECOVERY RAPID

Mr. L. MacGregor, lecturing last night to the Commerce Club on "Australia before the Depression and After," explained how that country, one of the hardest hit by the depression, was now one of the economically soundest. Mr. MacGregor is at present commissioner to Canada from Australia and he represented the Commonwealth at the London and Ottawa conferences.

Australia is one of the youngest of countries for her development dates back only one hundred and fifty years and the majority has taken place within the last fifty years. In area it is approximately equal to the United States and resembles that country in

(Continued on Page 4)

## Ten More Weeks, One More Day In Which To Study Up For May

A certain lack of enthusiasm seems to be the general feeling of the Arts students interviewed yesterday by *The Varsity* about "Examination Fever". Of course the mere mention of ten weeks does not strike a spark of fear in them but after a moment's reflection that ten weeks are two and a half months, the unfortunate spark dies a natural death. In answer to the following questions the replies were somewhat along the same lines.

Are you beginning to worry about exams yet? A "Modern" (in both senses of the word) student replied, "Oh, yes, I'm always worried but I'm not doing anything about it." When asked about some out, she said, "Any time I get a date I'll still go out." Undaunted, *The Varsity* sought further. In answer to the first question a member of the Sociology course replied, "Oh, not particularly, I've been worried since September."

Among the English and History students the opinion seems to be, "Right

## SYBIL THORNDIKE GIVES HER VIEWS ON LITTLE THEATRE

Advantages of Amateurs Over Professionals Are Pointed Out

### SHOULD BE FOR RESEARCH

Can be a Beacon to Commercial Stage by Inventing and Discovering

By Martin B. Loeb

Scrambled in between lectures, luncheons, teas and all the social bustle, to say nothing of regular performances, Dame Sybil Thorndike, peeress of the English speaking theatre, managed to give *The Varsity* some of her valuable time and important advice yesterday at the Royal York Hotel.

"What sort of plays ought the Little Theatre to produce?" we asked.

"Never, never on any account attempt to copy with professional theatre, either in spirit or in material, because if you do you most certainly will copy its worst faults along with whatever virtues it may possess. The function of the amateur theatre is different to that of the commercial theatre. You should be a research place. You cannot expect amateurs to be as technically perfect as professionals. You can expect, however, to find new methods, new ways of production—even in a fourth-rate play," she added with a smile.

"But," we replied cautiously, completely at sea surrounded with bubbles of incomparable enthusiasm, "what about the audience? Do you think they

## U.C. PARLT. TO DEBATE POSITION OF UNIVERSITY

Tomorrow afternoon at four o'clock the fifteenth meeting of the University College Parliamentary Club will take place in the Junior Common Room. The subject will be: "Resolved that Toronto is a Detriment to the University."

The Prime Minister, the Rt. Hon. Mervin Minsky, stated that "all that we would lose by being in Oakville or Port Hope would be some good plays, which most of the students miss anyway." The Leader of the Opposition is Mr. Bernard Schaffer.

## BLUE SQUADS SCORE DOUBLE WIN OVER GARNET AND GREY RIVALS

Toronto Squad at First Held by McMaster University Aggregation; Blues Net Tying Basket with Nine Minutes to Play; Gold Leads Scoring for Varsity

### FINAL SCORE IS CLOSE, 37-35

Many Penalties Handed Out During Tussle with Blues Taking Most; Almost Half of Total Scores Made by Free Shots; Intermediates Win with Poor Exhibition

By W. A. Crocker

Hamilton, Ont.—The fighting heart of the champion refused to be downed last night as Lew Hayman's Big Six basketball squad eked out a 37-35 win over McMaster's cage crew in a fast and very rough tilt played in the spacious gym of Hamilton's Westdale Collegiate. In winning, the Blues registered their twelfth successive victory as against no losses. In the curtain-raiser Varsity's Second squad emerged on the long end of a 28-25 count against the Garnet and Grey intermediates in an intercollegiate fixture.

### Masthead Meeting

There will be a meeting of *The Varsity* masthead today at one p.m. in the women's office. Everyone is asked to be present at that time.

## RACE PREJUDICE IS ARTIFICIAL

John Haynes Holmes Finds Prejudice not Inherent in Human Soul

### VARIES AS TO LOYALTY

"Race Prejudice, Its Cause and Cure" was the subject of an address delivered last night at Holy Blossom Forum by one of the outstanding ministers on the continent, the Reverend John Haynes Holmes of New York. Speaking rather rapidly at first, and gradually settling down to a vigorous rhythmic style, Mr. Holmes presented his analysis of prejudice.

"Prejudice," he stated over and over again, "is not an element inherent in the human soul. It is an artificial act of thought induced by the pressure of outward circumstances." Following the trend of the behaviourists, with whose psychology Holmes expressed himself in complete sympathy, but whose psychology Holmes abjured, the speaker asserted that prejudices are nothing more or less than "conditioned reflexes" as are all the so-called instincts. Children have no prejudice against other children or against

(Continued on Page 4)

## FACT AND IMAGINATION FORM RECONSTRUCTION

A reconstruction of geological landscape can only be prepared by taking and reviving scientific facts with the aid of imagination, was the substance of a lecture by Professor W. A. Parks on Ancient Geological Landscapes in the Museum yesterday afternoon. We must make a study of ancient rocks, their physical nature and chemical qualities, and also the fossils they contain. The composite picture resulting must extend over millions of years.

A geological Bible would inevitably start with the words, "In the beginning there was land and water." The water was instrumental in the formation of rocks, the land merely supplying the material. The climate of the geological age varied just as much as it does now. Several thousand years ago Toronto was buried under at least three thousand feet of ice, yet that was not typical of all the land in existence.

For thirty-one minutes of play the Blues trailed the Hamilton squad, being not more than a few points behind at all times. However, it seemed as though a defeat was in sight for the Toronto squad as the Garnet and Grey aggregation had matters well in hand. However, with nine minutes left to play and the score 27-23 for McMaster Marks and Levy netted the ball to tie the score. Clearly Palmer sank a technical foul which Joe Connelly got back by sinking a beautiful shot. Joe then sank a free throw to make the score 30-28 for Varsity. Bodrug and Marks then sank four free throws in a row to give the Blues a six-point lead. Marks and Lennie sank gift throws on a double foul to make the count 35-29 for Varsity. Palmer sank one free throw and Marks sent the Blues into a seven point lead by ripping the twine from "the hole". At this point the Garnet and Grey squad went on a rampage with two quick baskets and a free throw but the final whistle stopped the play to give Varsity the victory by a two-point margin.

On the evening's play both squads were well matched, each ripping the twine on ten occasions. The Blues sank 17 out of 26 free throws, two more than McMaster netted on 21 chances. The game was interrupted often by the whistle blowing. Millan, who banded out 41 personal fouls and two technicals, both against Varsity. Meagher, (Continued on Page 3)

## SPELLING BY ROOTS CALLED IMPRACTICAL

English Professors Agree that Greek of Little Use in Spelling

The scheme of introducing a new subject, "Root-words", (Latin, Greek and Anglo-Saxon), is not considered practicable in the opinion of Professor J. D. Robbins of the English Department of Victoria College. "Sixty or seventy years ago, root words were studied in the public schools, but although this study is very useful, it is imperfect at best. Roots are deceptive," continued Professor Robbins, "and the scheme of teaching root words in connection with spelling in Grades 8 and 9 and perhaps as a special subject in certain forms is ridiculous."

Dr. E. J. Pratt, also of the English Department of Victoria, stated that "The study of roots is a very favourable auxiliary to the study of Latin and Greek, but it cannot be used as a substitute. The more you know of other languages, the richer your knowledge of English. English literature at best is built up on a great number of the western languages, of which Anglo-Saxon is only one important element

## Explaining The Suspension

As announced in yesterday's *Varsity*, the editor of this paper has been suspended for the last two days, pending a meeting today of the Students' Administrative Council. There has been a great deal of discussion among students as to the facts upon which this suspension was based, particularly since the two morning papers down-town appeared with such obviously erroneous reports. Some of these doubtful points might well be explained here.

The editor was suspended because, in an editorial last Friday, he criticized two members of the publications committee on stated grounds, on facts which have not been disproved. However, as his contract stated that he was not to indulge in personalities, there was ground for suspension, a fact which was made the most of by the representative from the Faculty of Medicine, the president of the Medical Society. He demanded that the editor be forced to resign, spurned any suggestions for a retraction or explanation of the editorial, and stated that, at a meeting of the Medical Society, it had been definitely decided that the only satisfaction which could be given was the resignation of the editor, in lieu of which, he stated, the Medical Faculty would withdraw from the Students' Council. It is to the credit of the Publications Committee that the argument lasted two and a half hours before the decision was made to give in to the threats of the Medical representative.

One thing which is misunderstood is the actual cause for the criticism. The Medical representative was not criticized because he did not give the customary free tickets to *The Varsity* staff, but because he visited the office of *The Varsity* and attempted to intimidate reporters, and complained that they were not doing their duty in connection with his free publicity before he had any grounds for complaint. The then editor had promised him free publicity whenever he cared to submit a story, and at the time that these incidents happened, the story had not yet been given to *The Varsity*.

Two facts appear to us to be extremely significant in this dispute. The first is that the use of personalities was an extremely weak excuse for the suspension of the editor. The editor had used personalities in criticizing a number of the most prominent campus figures, when he believed that they were not fulfilling their duties to the full. And yet on the first occasion that a criticism dealt with a member of the Students' Council, the editor was immediately suspended. The stand taken is inconsistent, and leaves the inference that editors may criticize others wisely or well, but they must not criticize the Students' Council under any conditions. The present incident bears all the earmarks of a

personal feud, which has been brought to a sudden conclusion by the use of political power.

The other significant fact is that when the president of the Medical Society declared that he had the authority to withdraw his faculty from the Students' Council if the editor were not fired, he was talking tommyrot. In retrospect this action is obviously a very vicious waving of the "big stick" to serve as a means for settling a personal grudge against the editor. *There has been no opportunity taken to get the feeling of the Medical Society on this question and the Medical President spoke without any authority.* A new executive will be elected for the Medical Society this Friday, a new executive with new ideas, and the threat was without foundation.

The action which the Students' Council will take at this afternoon's S.A.C. meeting should be easy to predict. Since the matter is such a petty question, based ultimately on two dance tickets and some purely personal criticism, the question of Medicine withdrawing from the Students' Council is not held to be entertained by either the Medical Faculty or the Students' Council.

Since this threat was baseless, the Council can now treat the matter in a sane manner, and reach a more peaceable conclusion.

## Hankey and Defence

Our readers know Sir Maurice Hankey. He is one of the great personages of the British world, one of those who through force of habit do the most work—and with the least noise. Recently he must have been greatly bored, for he had undertaken a long trip around the world for the sole benefit, it seemed, of his health and the delight of his eyes; but newsmongers were bound to tell that he had seen a little of the important political figures everywhere and, as is natural enough, had chatted with them about questions which, in his capacity of secretary of the Imperial Defence Committee, must, even when he is strolling in the Antipodes, have deeply interested him.

There have been explanations, contradictions, even when he was here with us. But just the same despite the official title which would justify the contradictions, we can scarcely believe that during the course of his trip Sir Maurice did not bother a little about imperial defence.

Here is a despatch published in Saturday's *Standard* which will arouse fresh curiosity and need new explanations. We translate it literally:

### VAST PLANS OF IMPERIAL DEFENCE (Special to the Standard)

London, Feb. 9.—Sir Maurice Hankey, secretary of the Imperial Defence Committee, has just laid before the cabinet extensive plans for the improvement of the defence of Great Britain and the Empire. He has arranged with the Dominions that they will pay a part of the cost of the defence measures, including the construction of new air and naval bases and new fortifications and the upkeep of crews of experienced air pilots.

Australia, South Africa and CANADA are to double the effectiveness of their aerial forces.

Singapore is to be made the strongest naval and air base in the world and a powerful chain of aerial bases will be undertaken between Great Britain and India by way of Gibraltar, Malta, Palestine and Aden.

CANADA IS TO CONSTRUCT NEW NAVAL AND AIR BASES ALONG THE PACIFIC COAST WHICH WILL THUS RENDER THE EXTREME WEST MORE ACCESSIBLE TO BRITISH FORCES.

You could maintain to a considerable extent that aviation now has considerations in military life that perhaps are not lacking in interest. For the moment, we prefer to extract this despatch from that monster of the *Standard* to display it in such a way that it will not escape the public eye.

Fortunately, from that point of view, we are in the midst of the session. The opportunity is excellent for curious members of parliament to inquire just what there really is in all that as well as what promises Sir Maurice would have been able to take with him from our country.

It is Baptiste and Jack Canuck after all who would have to foot the bill for the adventure.

Translated from *le Nationaliste et le Devoir* of Montreal.

So he joined the campus paper, Just a cub reporter green. And was sent to get an interview They wanted with the Dean. "I'm afraid the Dean is busy," Then the girl went on to say, "But why don't you have a look for Messrs. Hermant, Smith and Rae?"

"Should professors voice opinions?" Soon the heated question rose, And they dragged the cub reporter From his somnolent repose. "Get a hold of Doctor Cody And find out what he will say,— While we wait our best reporter After Hermant, Smith and Rae."

Then the months along did amble With December coming up. While one topic got attention Over beer and coffee cup: "What will be their great decision,— What will those wise judges say?" "Who will get the trip to Oxford,— Mr. Hermant, Smith or Rae?"

When the Radio Commission Put debates upon the air, New teams each time were chosen Just to make the contest fair. When the "locals" heard this ruling They cried out, "Hip hip hooray!" We can pick three teams quite nicely Just from Hermant, Smith and Rae.

So by March the cub reporter (Now five months upon the staff), Finds the journalistic racket To be really quite a laugh. "Do we need a Dating Bureau?" "Should our men wear corduroy?" "Will the U.C. Lit. back Bennett?" "Do you Hart House meals enjoy?"

"When you're asking for opinion Go to them as has the say,— Skip the Cannon for the big shots, Messrs. Hermant, Smith and Rae." The Muddy Yorker.

## ART, MUSIC & DRAMA

### Victoria Dramatic Society

For their Tuesday afternoon offering on the stage of Hart House Theatre the Victoria Dramatic Society yesterday presented *Lisa Rembova's A Man Should Have a Wife*. The play is a backstage study concerned with the attentions of two amateur actresses towards the leading man. Each one in turn relates her success and her rival's failure to the professional who has been imported to do the make-up. Mirabile dictu the lady in charge of the cosmetics turns out to be the wife of the leading man.

The play itself is not up to much but as Mr. van Druten said last week, it is this weakness that offers the actors considerable scope. The two main parts, *Mulpomene Wimpus* and *Adelaide Idala Dade*, demand a great deal of characterization. Miss Ann Marshall, who took the latter role, displayed considerable talent and a sincere study of the character. Miss Verna O'Neil, in the other part, at times filled the bill, but at other times lapsed into a naturalness that did not fit.

The rest of the cast, with the exception of Iris Matthews, the make-up artist whose part had something to do with the play, fitted on and off the stage at intervals. This superfluity, the fault of the dramatist, was covered over by several more character studies on a lesser scale.

M. B. L.

### Toronto Symphony

The Symphony Concert of last night demanded such concentration upon the part of the auditor that one reviewer at least found himself completely exhausted after the performance.

The Mozart *Eine Kleine Nacht Musik*, the most delightful screend for strings imaginable, because of its transparent beauty requires only the trouble

of enjoyment. Of all music, it has the happy faculty of speaking for itself and the pleasure that we receive arises with the same spontaneity that so decidedly characterizes all of Mozart's music. One listens without conscious attention to a miracle of pure music.

Whether we shall talk of Brahms' *Concerto in B flat* or of Mr. Guerrero's truly magnificent playing is a problem. Certainly this pianist has never been appreciated, except by the discriminating few, for the great artist that he is. So much depends upon publicity and popularity that a fine but modest artist may long work in comparative obscurity.

Mr. Guerrero has both "matter and means" to be precise. The mature study, deep insight and comprehension both intellectual and musical (as the intuition aspect might so be referred to) which he brings to bear on the music at hand places him in the rank of those scholarly and thoughtful pianists that our age is producing. This is a musicianship that seeks to understand that it may interpret in the true sense, knowing full well that individual personality is best served when it serves.

As a mere pianist from the purely technical point of view, rarely does one find such a complete dedication of the "means" to a higher artistic end. The quiet surety, precision, solidarity and grip may pass unconsciously observed. So unpretentious is the playing but the style is unique and it is momentous.

Everyone who gave full attention to the Concerto must have felt the re-creation of a great emotional experience that set vibrating a sympathetic chord within and released something too intense for words.

The Sibelius sent waves of sound over our heads that made us long for a place in the gallery. This *Seventh Symphony* is highly individualistic in form and material. It is an idiom that requires familiarity for a full appreciation. Dr. MacMillan shows himself to be more and more a dynamic and inspired conductor.

## THE SPORTSWOMAN

By M. A. F.

Vic again has the interfaculty hockey title to its credit. And that brings one item in our hockey programme to a close. However, we still have the all-star team to think about. The practice today was not as encouraging as the one on Thursday since the turn-out was rather poorer. Incidentally, there were only two Vic people out. It would surely seem that the championship team would have more than two members of all-star calibre. There is another practice at 1 p.m. today and incidentally that means one o'clock sharp and not 1.30.

The games in the interfaculty series have all been good and Varsity definitely has the material for a good outfit just so long as all pulesters can keep up their spirits for a while longer. There are only five more practices and they will have to be good ones if Varsity hopes to get up a creditable squad.

The badminton tournament will not be played this Saturday. There is to be a meeting of the club on Thursday to make a definite decision about the date for the playoffs. This lengthened time before the big day will give every team more practice so we are expecting an exceptionally fine tournament this year.

Vic will not be able to get the U.T.S. pool for their swimming meet Thursday. They hope to go through with the meet regardless and can probably get the Lillian Massey pool for the same night. The enthusiasm for swimming at Vic is quite a minus quantity. Vic generally has such marvelous spirit for any sport going it seems a shame to let up at this point. A week from tomorrow the practice for the interfaculty meet at Hart House comes off; the preliminaries are scheduled for the following Tuesday and the finals on Wednesday, March 6. This means that time for practice is getting short.

The senior basketballers defeated O.C.E. in a practice game yesterday afternoon 29-12. The game was not at all startling but was fairly good. The seniors were in better form than on Friday night when they met Y.W.C.A. Thors. The O.C.E. outfit was very good when one considers their lack of organization and scarcity of practices. Mary Carre and Kay Brown were playing nicely for Varsity and Kay Grubbe was doing smart guarding under the net. Doreen Kenny was the light of the O.C.E. squad and Bea Longley was passing very well.

University of California students receive \$5 rebate on their fees when they receive all A's.

## SPEAKING OF SPORT

By Ken Burn

One of the more pleasing aspects of the athletic functions around Varsity is the set-up of interfaculty sports. While our back yard league doesn't get much in the way of cheers, it probably accomplishes more than the ritzier leagues which actually charge admission before you can view the tussles. It is impossible to estimate the number of students who participate in these extramural contests as there is so much overlapping. For example, Victoria have one goal keeper who rotates from hockey to water polo to soccer. This is quite all right as long as he does not turn up at a soccer game dressed for water polo or vice versa. However, we will leave the actual statistics to the C. and F. students and content ourselves by remarking that a number of students who would have no chance in intercollegiate competition get as big a thrill playing for their respective faculties.

A complete programme is offered the students in interfaculty competition. This includes the less authentic sports of jousting for rolls in the Great Hall, dismissing editors of *The Varsity*, as well as the more popular Mulock and Jennings Cup struggles. No matter what the game or the issue, however, they are invariably keenly contested and enable the few spectators to yell lustily. The standard of play is not very high but with the absence of specialization, the spirit is usually more jovial than in found in "big league" struggles. The more or less haphazard manner of playing of the teams usually brings forth some amusing incidents and the best example we have seen in some time was the Forestry-Sr. Meds hockey game last night.

Some of the players in the interfaculty leagues are good enough to make the Varsity teams but do not feel they can afford the time. Others merely turn out to escape the rigours and monotony of the P.T. classes. No matter what their motive they will both receive the same thrill as they go up to the attic and bring down their sweaters to show their grandchildren. Long live interfaculty sport. It is one of the most refreshing things we have encountered on the campus.

The indoor track and field events ended yesterday with S.P.S. again finishing on top. The Schoolmen, Meds and U.C. have been the three faculties mainly interested in the events and these faculties took the majority of the positions in the results. There is some talk of sending a relay team to Hamilton to compete in the annual meet. We have the finest track in Toronto here and there is no reason why we should not be able to form a team that would compare favourably with the Y.M.C.A. outfits.

Lew Hayman's basketballers kept their season's record clear last night in taking McMaster's Big Six aggregation in the Mountain City. For a time—in fact, for thirty minutes—it appeared as though the Blues were going to meet their first defeat of the season but with ten minutes to go they pulled into a slight lead which they managed to hold until the final whistle. Varsity's Seconds again demonstrated their superiority in the intercollegiate loop by taking the Garnet and Grey intermediates. The Blue Seconds haven't lost a game in the intercollegiate series to date.

## Druggists Unbeaten In Sr. Basketball

Pharmacy Wins Over Meds While O.C.E. Go Down to Forestry

Pharmacy made big medicine at the expense of Sr. Meds in the upper gym yesterday afternoon, swamping them with a 35-11 score, to finish the regular interfaculty basketball season without a loss. Forestry took the second game of the day by a 31-22 win over O.C.E.

Meds held Pharmacy to 10-9 at half-time, mainly due to the work of Simon who scored seven points. The druggists failed to take advantage of all (Continued on Page 4)

## CRICKET CLUB CUP FOR INDOOR TRACK WON BY ENGINEERS

S.P.S. Retain Trophy As A Result of Competition Last Week

ASHENHURST HIGH SCORER

Plan to Send One or Two Relay Teams to Compete in Hamilton

S.P.S. successfully defended the Toronto Cricket Club trophy, emblematic of the indoor track championship when the yamassed 54 points in the events held during the past week. University College, in second place, garnered 29 points, with Meds capturing 17. The rest of the faculties were trailing far behind, St. Mike's and Dents each getting 5, Victoria 4 and Trinity 3.

Ashenhurst compiled a large part of the S.P.S. score as he won four events. Campbell of U.C. came next in the individual honours with two firsts, a second and a third. Harris of Meds trailed Ashenhurst in the three sprints.

Plans are being formulated to attempt to send one or two relay teams to the annual indoor track meet at Hamilton on March 20th. Results—

50 yards: (1) Ashenhurst, S.P.S.; (2) Harris, Meds; (3) Caldwell, Meds. 5.6".

100 yards: (1) Ashenhurst, S.P.S.; (2) Harris, Meds; (3) Caldwell, Meds. 10.8".

220 yards: (1) Ashenhurst, S.P.S.; (2) Harris, Meds; (3) Caldwell, Meds. 25.2".

440 yards: (1) Ashenhurst, S.P.S.; (2) Campbell, U.C.; (3) Conway, Trinity. 56".

Half Mile: (1) Campbell, U.C.; (2) Hogg, S.P.S.; (3) Conway, Trinity. 2 12.4".

One Mile: (1) Campbell, U.C.; (2) Hogg, S.P.S.; (3) Forrest, Vic. 4 47.8".

### U.C. Hockey—

Game today at 4 p.m. with Sr. Meds at Varsity Arena. Will the following players turn out: Pritchard, Dawson, Campbell, Keith, Harwood, Coulter, Fowler, Thompson, Selfe, Hamilton.

### Women's Hockey—

1 p.m. today—all-star hockey practice at the Varsity Stadium. Full turnout requested.

### Varsity Basketball Teams Defeat McMaster Squads

(Continued from Page 1)

Crowley and Gold, three of Varsity's starting line-up, and Stroud, were forced to retire via the four-foul route.

In the first half the Blues were checked to a standstill with McMaster's zone defensive system halting every Varsity thrust. At half time the Blues were down 3 points with the score 17-14. Mcagher was put off at the start of the second half to be quickly followed by Crowley. With Marks playing centre the Blues began to function and managed to climb into a short lead which they held to the final whistle.

Clary Palmer, former St. Mike's star, was the spear-head of the losers' attack. His swift, fruitful forays towards the Blue basket netted him 15 points. Turnbull also turned in a heady performance. Connelly, Marks and Gold stood out for Varsity with the former two doing most of the scoring.

In the intermediate game, which gave Varsity their fifth straight intercollegiate victory, play was sloppy through out. McMaster's system of play tended to slow the game up and with both squads off in their shooting the tilt developed a very uninteresting complexion. However, the Blues, playing in spurts, managed to stay in the lead most of the time.

Vanderleek and Magwood did well in a scoring way for Varsity but the Blue Second squad as a whole turned in a very poor performance. Bill Bush was the only McMaster man who had any success at the baskets with MacNeil and Thornton helping out now and then.

Varsity I, 37: Marks 11 and Mcagher; Crowley 2; Gold 2 and Connelly 13; Levy 6, Gordon, Newman, Bodrug 3 and Mencl.

McMaster I, 35: Laughren 4 and Turnbull 7; Palmer 15; Lennie 2 and Stroud 1; Dingwall 4, Hill 2, and Moore.

Varsity II, 28: Magwood 9 and Sullivan 5; Vanderleek 10; Himel and Fittion; Newman 2; Krakenaar and Carey 2. McMaster II, 25: Bush 10 and MacNeil 4; Thornton 4; Downes 3 and Fletcher; Coome, Low 2 and Abra 2. Referee: Percy Millar.

Two Mile: (1) Hogg, S.P.S.; (2) Forrest, Vic; (3) Campbell, U.C. 10' 17.4".

Half Mile Relay: (1) U.C.; (2) S.P.S.; (3) Meds. 1' 54.2".

One Mile Walk: (1) Goulding, U.C.; (2) Levenson, Meds; (3) Toy, U.C. 8' 20.4".

One Mile Relay: (1) S.P.S.; (2) U.C.; (3) Trinity. 3' 51.8".

High Jump: (1) Hamilton, Dents; (2) Gandier, S.P.S.; (3) Taylor, U.C. 5' 3".

Standing Broad Jump: (1) O'Connor, St. Mike's; (2) Eaton, S.P.S.; (3) McArthur, S.P.S. 9' 10 1-2".

Shot Put: (1) Westheuser, S.P.S.; (2) Eaton, S.P.S.; (3) Carver, Meds. 38' 6 1-2".

then the tendency has been to wear it only when the company is masculine, and to return to the long tailed coat, the white tie and the white waist. This tendency we, in company with the Street Tailors, have sought to counteract by offering some of the most stylish and comfortable suits in the city.

Initial engagement takes place. Approximately 83 per cent. of the cars sold on this continent this year were in the so-called low price bracket. Consequently it is not surprising that more cars will offer before.

## Varsity Juniors TAKE COUNT AGAIN

Parkdale Canoe Club Get 2-1 Decision Over Blues

Varsity's luckless juniors took the count again last night in their last scheduled game of the season when Parkdale Canoe Club handed them a 2-1 beating. For a time it looked as if the fighting Blue squad were going to chalk up a win, but a soft goal in the second period and another tally with but 40 seconds of the game remaining robbed them of the verdict.

Varsity took the offensive at the opening whistle and kept it up until Shults broke up a Parkdale rush at their blue line and slipped a nice pass to Ripley, who tore in and banged a high shot past La Barge, to put the Blues one up.

In the second period the U. of T. clearly outplayed the Paddlers, keeping the puck at their end of the rink the whole time, and missing the goal by inches. In the last 2 minutes Dennison of Parkdale shot from outside the defence to tie the score, the puck being deflected off Shipley's shoulders.

The third period was a see-saw affair, with neither team able to gain an ad-

## Vic Swamps St. Mikes By Steady Pitching

Heavy Hitting is a Feature of Baseball Game for Group Leadership

Yesterday afternoon Senior Victoria cinched their group honours when they overwhelmed the second place St. Mike's team in an interfaculty baseball game by the score of 16-3. The win was mainly due to the sterling pitching of the Victoria hurler, Edwards, who struck out ten batters during the course of the game. After a weak start he settled down and blanked the St. Mike's team in the last three innings.

The first inning ended with Vic enjoying a one-run lead. Then the opposing hurler, Viacek, weakened and the (Continued on Page 4)

vantage. However, with less than a minute to go Carnegie, Parkdale coloured star, raced the length of the ice to slam one past Campbell, to give P.C.C. the game.

Varsity: Campbell, O'Leary, Sissons, Shults, Ripley, Creasy, Walkley, Leslie, Willmott and Slingsby.

Parkdale C.C.: La Barge, Simmonds, Hinchcliffe, Dennison, Carnegie, Copeland, Doerr, Cassidy, Kendall, Kerr.

## IMPORTANT

All Torontonensis Write-ups, Group Photographs, Dean's Messages, must be handed in to the Student's Council Office, Hart House, not later than Saturday, February 23rd. This is the final date with the exception of some Athletic Groups for whom arrangements have been made.

After that date no space can be reserved.

## FELT CRESTS

Official University felt crests are on sale at S.A.C. office, Hart House, or Room 82, University College.

50c.

To be worn only on University Blue. Suitable for sweater, gym suit or blazer.

donald-Cartier Club, W. Earle Rowe,  
M.P., to speak.

8:30 p.m.—Daffydil Night, Hart House  
Theatre. Your last chance to see the  
biggest event of 1935.

**VIC SWAMPS ST. MIKE'S**

(Continued from Page 3)

Scarlet and Gold heavy hitters went  
to work. They collected one run in the  
second, three in the third and batted  
Viacek out in the fourth with a bar-  
rage of eight runs.

Sr. Vic: Dickie, Grills, Edwards,  
Walker, Fisher, Castle, Hills and Amos.  
St. Mike's: Finan, Bedford, Marks,  
Connelly, Scandifio, Lynch, O'Sullivan,  
Forristal and Viacek.

Referees: Carveth and Ganz.

**WOODMEN TAKE MEDS**

IN CLOSE HOCKEY

Forestry out-lucked Senior Meds  
yesterday afternoon in a wild game of  
shiny up at the Stadium. Neither team  
had anything to gain in the way of  
group standing but in spite of this they  
put on a spirited exhibition of the  
winter pastime of "hockey". The game  
started out with the Forestry team  
playing with only five men, the others  
being a wee bit late. However, the five  
men staved off the Meds until the re-  
inforcements have in view. The first  
half ended with the score deadlocked  
at 0-0.

Meds: Fowler, Williams, Slemom,  
Coxon, Lynch, Young; subs, Hazel-  
wood, Starr and Losier.

Forestry: Larson, Carlson, McCon-  
nelly, Reynolds, Dyre and Johnston;  
subs, Cowan and Greer.

Referee: Sweeney.

**No Strong Feeling Found**

Amongst Meds Students  
(Continued from Page 1)

been called to discuss the matter, she  
said that there had been an open meet-  
ing of the Medical Society at which it  
had been discussed, but that the chief  
purpose of that meeting had no con-  
nection with the editorial or with *The  
Varsity*. "At the meeting," she said,  
no feeling on the part of the student  
body was apparent."

Mr. E. M. Worden, president of  
Fifth Year, said that possibly there  
was more feeling among the members  
of the Sixth Year students, as Mr.  
Clark is of their year. Among the  
students as a whole, he was of the  
opinion that the matter had aroused  
little comment. Mr. Worden believed  
that the editorial was scarcely of suf-  
ficient importance to cause the dismissal  
of the editor. "After all," he said, "it  
only concerns a couple of passes." He  
said that the entire executive was  
firmly behind Mr. Clark in any stand  
he might take.

Mr. Fred Johnston, Fifth Year stu-  
dent, expressed the attitude of the Nu  
Sigma Nu Fraternity, when he said  
that no interest had been taken in the  
affair by its members. Mr. Johnston  
had not read the editorial, having been  
visiting in Hamilton at the time it was  
printed.

Mr. Ken McAskile, Second Year  
student, would express no opinion, be-  
yond stating that he was not aware  
of any intense feeling among the stu-  
dents of his year over the editorial.

The annual elections for the Medical  
Society, when a complete new execu-  
tive will be elected, will be held this  
Friday, it was learned. Some doubt  
was expressed by students whether the  
new executive takes office immediately,  
or does not do so until next year.

**Dame Sybil Thorndike**

Gives Advice to Amateurs  
(Continued from Page 1)

like this experimentation?" "Drag the  
public with you," commanded this Dame  
Commander of the Order of the British  
Empire. "If you pander to an audience  
for one minute, it will lead to death.  
If you attempt to give the public what  
it wants, you will probably give it less  
than it wants. The public must be led,  
gently perhaps, and there is in every-  
body something that wants to search,  
to see new things, to visit new lands.  
You, as the pioneers of the theatre  
(and she was speaking to all interested  
in the new theatre) must do new  
things, find new writers. Experiment!"

To those hankering after a stage  
career and probably planning to attend  
the Royal Academy of Dramatic Art  
in London, Dame Sybil admonished.  
"Stop here and work but if you do  
go, come back to Canada and help to  
build a theatre of importance here."

To conclude on a note of joy, Dame  
Thorndike announced that she intends  
to come to Toronto next autumn in a  
Greek play, "And," she boasted proudly,  
"in Australia we played Greek tragedy  
to better houses than the musical com-  
edies were drawing."

**John Haynes Holmes**

Analyzes Race Prejudice  
(Continued from Page 1)

"slimy" animals, as has been proved  
by stimuli tests in many a psychologi-  
cal laboratory.

Again, prejudice varies according to  
loyalty; whereas, if it were inherent in  
human nature it should express itself  
similarly everywhere. The southerner  
hates the negro profoundly; the New  
Mexican hates the half-breed Spaniard.  
Californians take the negro and (ex-  
cept in the extreme south) the Mexi-  
can to heart; but fears and hates what  
he calls the "yellow peril". New Eng-  
landers dislike none of these three  
races. Their pet aversion is Irish Roman  
Catholics. All this is surely a  
curious hodge-podge for an innate ten-  
dency of the human soul.

Finally, prejudice is even found with-  
in the barriers of a single racial or  
religious group. "If you want to wit-  
ness the supreme example of group  
prejudice, you turn not to the Christian-  
Jewish struggle, or the Franco-German  
struggle, but to Harlem, New York's  
negro metropolis, where the Jamaica  
100 per cent blacks will have nothing to  
do with the diluted American African.  
This is the voice of prejudice and can  
be found within almost any class or  
race you care to mention." In all these  
ways, the Rev. Holmes sought to bring  
home his point that prejudice is ex-  
ternal, artificial, social, and not a result

**BULLETIN BOARD**

Bulletin Board and Coming Event notices must be handed in at  
either the men's office in Hart House, or at the women's office in  
University College. No notices will be taken over the telephone, after  
6 p.m. notices must be taken to the Press Building. Notices for the  
Bulletin Board are limited to ONE insertion only.

**VICTORIA COLLEGE UNION**

Open meeting, Thursday, February  
21, in Alumni Hall at 5 p.m. Business:  
Final approval of constitutional changes.  
Recommendation of Board of Auditors.

**U.C. PARLIAMENTARY CLUB**

Thursday, February 21, 1935, 4 p.m.,  
Junior Common Room. "Resolved that  
Toronto is a Detriment to this Uni-  
versity." Pivnick, Speaker; Buck,  
Clerk; Mervin Mirsky, Premier;  
Shaffer, Leader of Opposition.

**STUDENT PEACE MOVEMENT**

Mrs. Angus MacInnis, wife of the  
Labor M.P. from Vancouver, will speak

next Friday on the subject: "The C.  
C.F. and Peace". This is an exceptional  
opportunity to hear what our new  
party has to offer the country. A large  
turn-out is hoped for. Watch *The Var-  
sity* for further notice.

**C.C.F. CLUB**

There will be a meeting of the  
C.C.F. Club in the Women's Union at  
eight o'clock when Mr. O'Connor will  
give an address.

**376 VICTORIA**

Will those who ordered class pic-  
tures please get them between 9-10:10  
Thursday morning in the college hall.

## The Lapse of Time or Around the World on a Kilometer

By Milton Shulman

**Theme Song.**

Announcer—To night the Interna-  
tional Broadcasting Company in collab-  
oration with the Durable Non-Collaps-  
ible Diaper Pin Company of Pough-  
keepsie, New York, presents the *Lapse  
of Time*, a summary of the week's  
news, edited and dramatized for your  
entertainment by the editors of *Bad  
Times* magazine. Time Drags On!

Music—Love Thy Neighbour (loud at  
first gradually fading with a complete  
stop at the announcer's voice.)

Announcer—Paris, France—All the  
world awaits the signing of an impor-  
tant and strategic non-aggression pact  
being formulated in a momentous con-  
ference at Paris this very moment. For  
over ten days statesmen of the three  
great powers Great Britain, France  
and Italy have been attempting to ar-  
range a satisfactory agreement where-  
by the peace of Europe will be assured  
for years to come. As the tumult dies  
for a moment we can hear the voices  
of four of Europe's greatest statesmen  
discussing some delicate matter.

"Pass me."

"I guess I'll go the fourth spade."

"I'll double."

"Redouble."

Fanfare.

Announcer—Time Drags On!

Music—Oh Canada!

Announcer—Toronto, Canada, Deter-  
mining to rid the city of every last  
criminal, Chief of Police Draper has  
this week commenced a drive against  
organized crime with amazing results.

For the past few days Toronto's police  
stations have been overrun with desper-  
ate characters caught red-handed. The  
chief himself interviews the city's Pub-  
lic Enemy No. 1.

"Your name?"

"Oscar Klotz."

"So we caught you at it again, eh  
Klotz? It's going to go hard with you  
this time."

"I didn't mean to do nothin' wrong.  
I just wasn't lookin'."

"I'd better warn you Klotz. Any-  
thing you say may be used as evidence  
against you."

"Ah! I don't know nothin' about it."

"Lying again, eh Klotz. O.K. Casey.  
Lock him up! No guy in this burg is  
going to cross against the red light,  
while I'm chief of police of this town."

Fanfare.

Announcer—Time Drags On!

Music—The Liberty March.

Announcer—Flemington New Jersey.

Bruno Richard Hauptmann is found  
guilty of murdering the Lindbergh  
baby after the most sensational trial  
in American legal history. Here we  
catch a glimpse of the famous jury in  
seclusion of their chambers as they  
argue and hicker over the many facts  
they must analyze before they reach  
their momentous decision.

"Pass me."

"I guess I'll go the fourth spade."

"I'll double."

Announcer—Time Drags On!

Music—Crazy People.

Announcer—Buffalo New York.

Joseph Klopeneheimer of this city  
starts the scientific world with the  
announcement that he has created a  
machine that will replace the submarine.  
Mr. Klopeneheimer vigorously asserts  
that his invention is absolutely accident  
proof and if put into use will eliminate  
submarine tragedies from marine an-  
nals. Mr. Klopeneheimer is being inter-  
viewed by the United Press.

"This invention of yours, Mr. Klop-  
eneheimer, it is built exactly like an  
ordinary submarine."

"Yah. It is exactly de same, exshept  
for der wheels."

"Wheels?"

"Yah, wheels. You see I figured dot  
der reason people got killed in shub-  
marines was becaush der shubmarines  
was under der water. So my shub-  
marine it goes on der land."

"But surely your invention must have  
something to do with water. Otherwise  
why give it that name?"

"Ah! Well, you see when it is nice  
outside. I walk. I only use my inven-  
tion when it rains."

"You only use it when it rains. So  
that's why you call it—"

"A shubmarrain."

Fanfare.

Announcer—Time Drags On!

Music—California Here I Come.

Announcer—Hollywood California—

After two years of constant shooting  
Hollywood finally announces the com-  
pletion of the filming of Hawkeye  
Awen's famous novel *Anthony Reverse*.  
Critics and authorities acclaim this won-  
derful production after its preview at  
Grauman's famous Chinese Theatre.

Its Star—"It is an epic."

Its Director—"It's magnificent."

Its Producer—"It's stupendous."

Its Press Agents—"It's colossal."

Hawkeye Awen—"It's lousy."

Fanfare.

Announcer—Time Drags On!

Music—Silver Threads Among the  
Gold.

Announcer—Washington—All Amer-  
ica holds its breath and ponders as  
nine judges of the United States  
Supreme Court debate the all-import-  
ant debt issue question. Upon their  
verdict will rest the success or defeat  
of President Roosevelt's present mon-  
etary policy. For weeks they review the  
situation, its legal and economic aspects.  
Four of the judges in favour of the  
present administration discuss the prob-  
lem.

"Pass me."

"I guess I'll go the fourth spade."

"I'll double."

"Redouble."

Fanfare.

Announcer—Time Drags On!

Theme Song.

three springs of prejudice Holmes ap-  
plied in turn to each of the examples  
of group hatred he had touched upon  
in the course of his speech. A typical  
instance is the prejudice of Califor-  
nians against things Japanese. Despite  
the difference in race, the real cause  
is the displacement of Americans by  
Japanese entrepreneurs.

**MacDonald-Cartier Club**

Studies Bennett Policies  
(Continued from Page 1)

are simply the injection of more regu-  
lated influences into it." The problem  
of the civil service he stated is extra-  
ordinarily important in the new sys-  
tem, but this fact is not obvious to the  
average man.

He explained that in the past the  
best brains of the state have not been  
attracted to the public service, but  
owing to the greater monetary rewards  
offered by the large corporations, the  
most efficient men have been attracted  
to them. The day has now come when  
these men are needed in the adminis-  
trative service, and there is a feeling  
of scarcity of men suitable for the  
most responsible positions in the gov-  
erning of the country. "Our country  
needs to recruit the most capable and  
most courageous men for these posi-  
tions, and only by choosing men entirely  
by their ability and not through any  
sense of favouritism will this be ac-  
complished." Also a sense of security  
must be established for public workers  
with rewards in promotion and salary,  
sufficient to attract the best to this  
service.

**Australia's Recovery**

Aided by Monetary Policy  
(Continued from Page 1)

being to quite an extent self-support-  
ing. Ranging in climate from tropical  
to temperate it produces all manner of  
cereals; it also is blessed with great  
mineral resources, notably coal and  
gold, of which it has produced six bil-  
lion dollars worth. Manufacturing,  
though, is still young, as it was started  
by the war. However, twenty-five per  
cent of the total population is dependent  
on this industry.

Australia's debt is due primarily to  
the war, which caused it to shoot up to  
two and a half billion. The great stress  
in 1930 was a result of the slump in  
wool which occupies the prime position  
in Australian products. Moreover, un-  
til then the United Kingdom had been  
lending 150 million per year and send-  
ing out colonists to relieve their own  
situation. Then suddenly these loans  
were cut off and the governments piled  
up a deficit of 200 million.

To relieve this situation a scheme  
called the "Premier's Plan" was adopt-  
ed. This involved a paradoxical com-  
bination of inflation and deflation, but  
the main points were planned reduction  
of bond interest rates; a general re-  
duction of expenses with increase of  
revenue and deflation of the currency.  
There was already a Loan Council  
which became sole authority for gov-  
ernment loans, and a sinking fund was  
started to eliminate the debt in fifty  
years.

The plan was such that Federal and  
State governments were forced to co-  
operate in spite of political differences.  
All loans were converted into bonds of  
a lower interest rate by the National  
Rehabilitation Act. The advantages of  
the deflated currency gave Australia  
the increase in trade necessary to main-  
tain a balance with interest paid on ex-  
ternal debt and really did most in con-  
solidating Australia. In addition there  
was an increase in wool prices.

The results of this were evidenced  
in stocks which slowly returned to par  
and the building trade, which experi-  
enced a small boom. However, since  
the end of the last fiscal year there has  
been a slump in wool prices which may  
necessitate further measures.

When Mr. MacGregor had given this  
outline of the depression history of  
Australia, refreshments were served.

The chief peril in the crisis today is  
the temptation to showy by-paths and  
attractive short-cuts.—John Buchan.

their opportunities in the first period,  
but in the second, they flashed a cham-  
pionship form that completely outclass-  
ed the medics. The doctors' sloppiness  
prevented them from getting more  
than one basket in the second half.

Lazarus played excellently and his  
eagle eye accounted for no less than  
sixteen points. Kramer, Gilbert  
and Jackson also performed well for  
Pharmacy. Simon, Green and Cohen  
were best for Meds.

The second game was rather slow  
as both teams were out of the running  
for group leadership. The teachers  
showed marked improvement over pre-  
vious appearances, but were outclassed  
by the woodsman. Chief credit for  
Forestry's win goes to Hick and Bar-  
ron who scored twelve and eleven  
points respectively. Skolko and Harri-  
son performed creditably for the forest  
rangers. De Mui, Costigan and Doul  
were good for O.C.E.

Pharmacy, 35: Jackson (2), Lazarus  
(16), Kramer (6), Gilbert (5), Pagen  
(1), Kofsky (3), Lee (2), Armour,  
Lorimer, Anglands, MacDonald, Gold  
and Reesor.

Sr. Meds 11: Scher, Simon (9),  
Rickard, Birnbaum, Rosenbaum, Fink.  
Rosenberg, Green (2), Culiner, Cohen.  
Forestry 31: Hick (12), Skolko  
(5), Barron (11), Harrison (3), Heg-  
gie and Chalk.

O.C.E. 22: Morrow (2), Miller, De  
Mui (8), Costigan (4), Doul (8), and  
Scherborh.

One of the greatest modern improve-  
ments is the improvement in women's  
looks.—Dorothy Dix.

## UNIVERSITY OF TORONTO CREST PINS or RINGS

(Official—Registered)

The Students' Administrative Council control the exclusive manu-  
facture and sale of these for the sole use of the student body.  
Crest Pins or Signet Rings may be obtained at any time at Room  
82, University College, or from the Council's office in Hart House.

A supply of Rings and Pins is kept in stock.

Established 1880

VOL. LIV.

UNIVERSITY OF TORONTO, THURSDAY, FEBRUARY 21st, 1935

No. 91

### NEWS OF THE WORLD IN BRIEF

Toronto—Settlement of the Separate School, tax question was forecast in the Speech from the Throne read by the Lieutenant-Governor at Queen's Park yesterday. Stricter supervision of municipalities is also suggested, as well as a comprehensive programme in social service.

Capetown—The Union of South Africa has reported a surplus of over eleven million dollars in its budget for the current fiscal year.

Sudbury—The International Nickel has announced that it is expanding its facilities in order to keep up with the current demand for its products.

Paris—The Soviet yesterday informed France that it is firmly behind the Anglo-French plan to bulwark Europe's peace.

Rome—Italy's supreme defence council last night announced that it had ample resources to ensure victory in the trouble with Abyssinia.

Belgrade—Extensive riots have taken a toll of sixteen lives in Yugoslavia in the past two days.

### S.C.M. Corner

Words are strange things—their uses and misuses play a significant part in our attitudes. When we hear certain words, definite concepts arise, and people, organizations, or activities are pigeonholed, because of one word, as being "interesting", "out of date", or "tiresome".

Pigeonholes serve a useful purpose, but it becomes necessary for intelligent people to see from time to time that their classifications are up to date. No one would associate the term "motion picture" nowadays with a pigeonhole labelled "silent flickering succession of pictures, interrupted frequently by written explanations". And simply because we go to the movies, discover that they are no longer silent, that they have changed in the technique of their acting, method of filming, and subject matter, we put a new content into the term "motion picture".

Similarly with missions. For how many of us does that word conjure up a picture of an ecclesiastical gentleman in a black felt hat and European clothes surrounded by a group of subdued-looking native of New Guinea? For how many of us does missions mean the tearing down of ancient indigenous culture, and the imposition of a strange way of living? For how many of us does missions mean the quixotic expenditure abroad of sums of money and of people urgently needed?

(Continued on Page 4)

### "Story Libellous,"—Habbeshaw, Is Threatening Now To Go To Law

To add to its other troubles, just before going to press *The Varsity* learned that it is likely to be faced with a serious suit for damages, brought against it by R. H. Habbeshaw, as a result of the story printed in Tuesday's issue regarding his appearance in Victoria library at noon hour wearing pink pyjamas.

"I want it clearly understood that it is not the statement of the facts that I am objecting to," stated Mr. Habbeshaw in an interview late last night. "They are perfectly correct. It is the insinuation in the heading that aroused my indignation; the pyjamas were pretty, and I resent any idea expressed to the contrary."

*The Varsity* suggested that he should

### CAMPUS OPINION DIVIDED ON SCHOLARSHIP PLAN

Scholarship Winners Thought  
Rarely Outstanding  
Citizens

ARE MOSTLY FREAKS

Brilliant Students Might be  
Helped by Such  
a Plan

Notice was given in the House of Commons last week of a resolution suggesting the formation of a House Committee to study the question of state scholarships. The Hon. Charles Stewart, who gave the notice, pointed out how all other countries were establishing such scholarships in order to give the necessary support to brilliant but poor students to allow them to take undergraduate and postgraduate studies. The opinion around the campus seems very sharply divided although many refused to be quoted, saying that never having won a scholarship they knew very little about the subject.

Among those who were willing to speak strongly in favour of the scheme were Jack Orgill and Keith Campbell. "At the present time many brilliant students have to drop out during high school years to get a job while if they could keep on and specialize they might add greatly to our national life."

Bev Cudbird led the opposition with the words, "I suppose that you should not look a gift horse in the mouth but in my opinion scholarship winners are freaks. The chief reason for coming to University is to make social contacts and I think that they take no part" (Continued on Page 4)

### RETIRING COMMITTEES RE-ELECT MEMBERS TO ACT NEXT YEAR

Each year, it is the custom of the retiring committees of Hart House to re-elect one or two members of each to act on the new Committee of the following year. The following members have been re-elected to next year's committees:

House Committee: N. C. S. Goldring (IV Wycliffe) and B. T. Rogers (IV Wycliffe).

Hall Committee: R. G. Burrows (III Trinity) and R. E. Bates (III S.P.S.). Library Committee: C. N. Brebner (IV Medicine) and A. W. M. Kirkpatrick (II U.C.).

Music Committee: H. J. Bright (V Medicine) and H. V. Rice (V Medicine).

Sketch Committee: J. A. Kemp (II Trinity) and F. N. Smith (III S.P.S.). Camera Committee: J. R. Macdonald (II S.P.S.).

Squash Racquets Committee: B. S. Leibel (III U.C.).

Debates Committee: A. D. B. Marshall (III U.C.) and S. F. Rae (III U.C.).

### Scholarships

Two graduate Scholarships of the value of \$600.00 each are available for research at the University of Alberta for the session 1935-1936. These scholarships are open to graduates of any Canadian University.

Any graduate or graduating student who may be interested should communicate with the Registrar of the University of Alberta not later than March 15th, and attach a record of undergraduate and graduate work. Definite details should be given as to the field of study in which the candidate desires to work.

### POLITICS ABSENT IN SUPREME COURT

"One of the Greatest Judicial  
Bodies in the World,"  
States Kennedy

NON-PARTIZAN BODY

There is a current report that the Supreme Court of the United States holds its office at the pleasure of the government and that for that reason the court would not be likely to decide the Gold Clause in any other way than it did.

Professor Kennedy of the Department of Law emphatically denied the foundation of any such rumour and was very loud in his praise of the members of the court.

"Such a rumour can have no basis because for one thing Chief Justice Hughes is a Republican and appointed by a Republican government. You can be very sure that both the supporting and dissenting judges decided the case from their own knowledge of the facts. The members of the court hold their office on the same terms as our judges and can only be removed with impeachment by the Senate."

"The Supreme Court is one of the greatest if not the greatest judicial body in the world and are equal to anything that we have in the British Empire. Its judges have great legal minds."

### EDITOR REINSTATED AT S.A.C. MEETING

The tenth meeting of the Joint Executive of the Students' Administrative Council was held in Room 82, University College, yesterday afternoon at 5 o'clock. The following business was transacted:

1. Decision against undertaking to hold the Convocation Dance on the Thursday night of Convocation Week under the auspices of the Council.

2. Decision against further suspension of the Editor-in-Chief of *The Varsity*.

3. Decision to receive a team of debaters from British Columbia and Saskatchewan in November, 1935, under the auspices of the National Federation of Canadian University Students.

4. Appointment of Mr. A. C. Smith and Mr. S. F. Rae to represent Toronto against the University of Ottawa in the final Eastern Canada radio debate on Friday, February 22, Mr. Smith to debate in French.

5. Appointment of Mr. S. M. Herment as the University of Toronto representative on the Toronto-McGill team to tour the West in November, 1935, with Mr. Bruce Marshall as substitute.

(signed) A. E. M. Parkes.

### RADIO DEBATERS WILL COMPETE IN THE FINALS

Smith and Rae Will Oppose  
Ottawa in Bilingual  
Contest

NO INTERPRETERS

Winning Team Will Receive  
Dominion Championship  
Shield

The winner of the Dominion-wide inter-University debate series, sponsored by the Canadian Radio Commission, will be decided on Friday night at nine o'clock when teams representing the Universities of Toronto and Ottawa will discuss the subject, "Exploitation is inevitable in the present-day structure of Canadian industry." The Varsity representatives, Messrs. A. C. Smith and S. F. Rae, will uphold the negative side of the question.

A feature of this contest will be the use of both the French and English languages. The first speaker from Ottawa will speak in French, and Mr. Rae, speaking from Toronto, will give his address in English. The second Ottawa representative will answer in English, and Mr. Smith will conclude the Toronto argument in French. This arrangement, according to those concerned, will make the contest interesting.

(Continued on Page 4)

### IMMORTAL LOVERS LECTURE SUBJECT

Love Contagious and Spontaneous  
States E. E.  
Stoll

'DON'T' WREAK THEMSELVES'

Professor Edgar Elmer Stoll, of the University of Minnesota, gave the first of his series of lectures at Hart House Theatre yesterday afternoon. He spoke on Shakespearean lovers with particular references to Romeo and Juliet.

"The character of Shakespearean lovers are natural and heartfelt. They could easily have been inserted into comedy or romance rather than tragedy. The lovers do not suffer from maladjustments, such as they do in many dramas," stated Professor Stoll. "Love has not been dramatized, but is spontaneous and contagious. Shakespeare's portrayal of love is too heartfelt to be dramatic, but its charm and beauty makes poetry. The lovers do not wreak themselves upon one another as dramatic lovers do."

(Continued on Page 4)

### Hart Buck Sings His Famous Song Vic Can Not Stay Pristine Long

The Victoria Sandwyche Parliament was shaken from its staid poise and traditional conservatism yesterday noon by the unfamiliar sound of sweet music. The originator of this shocking (?) innovation was one, The Hon. Hart Buck, a visiting debater from the U.C. Parliamentary Club. *The Varsity* has neither the space nor inclination to print the song in all its sundry details; suffice it to say that the soloist was placed beside the "Greatest Soloist of Them All" by being stridently acclaimed "The Immortal Buck".

"Resolved that Victoria expects every man to do his duty," was the question which the House was alleged to be discussing; but as one member remarked, "Who is this girl Victoria anyway. I'm sure it wouldn't be a duty, but a pleasure!"

### VARSITY LEADS LEAGUE WITH LAST NIGHT'S WIN

Squash Racquets  
Nominations Open

Nominations for the standing committees on the Camera and Squash Racquets Committees of Hart House open tomorrow morning at 9 a.m. As last year the names of nominees will be listed on the ballot sheets in alphabetical order. Nomination forms are available at the Warden's office.

Nominations close at 6 p.m. on Wednesday 27th February and withdrawals are permitted only until 6 p.m. on Thursday 28th February.

### EMMANUEL FAVOURS WOMEN MINISTERS

No Objection but Marriage  
Would Complicate  
Matters

When *The Varsity* interviewed the staff of Emmanuel College yesterday on the question of Toronto Centre Presbytery of the United Church of Canada approving the ordination of women to the ministry at their meeting Tuesday, the general opinion was that there is no objection to women being ordained since it does not necessitate their entering the pulpit.

(Continued on Page 4)

### SIMPLICITY BEST FOR INTERIORS

Prominent Local Architect  
Speaks on Subject at  
Hart House

COLOURS ALSO IMPORTANT

"The eye is the telegraph of the brain, and anything that is difficult for the eye to describe to the brain is displeasing to us," stated Mr. A. S. Mathers, prominent local architect and interior decorator, to a gathering in the sketch room of Hart House yesterday afternoon.

Mr. Mathers went on to point out that this made simplicity an essential part of interior decoration, since anything simple enough to be easily described.

(Continued on Page 4)

Beavers Defeat Royal York in  
Best Game of  
Season

SCORE 4 TO 2

Championship is Assured if  
Last Night's Standard  
is Maintained

By J. F. Futhery

At the Arena last night Varsity Beavers jumped into temporary possession of first place in the T.H.L. League with a well deserved 4-2 win over Royal York. The Blues displayed their classiest hockey of the season and should have had an additional half a dozen goals on the play. The contest was savagely fought throughout and kept the fans and most of the Royal Yorkers on the verge of hysteria.

It is not known whether there was an injection of monkey glands previous to the game or whether there was some squirrel in the water bottle but the Students put on by far their best performance of the current session. If they continue in this manner they have the championship in the well-known bag.

Jeffrey opened the scoring at the five minute mark on a nice play. The Varsity attack had been repulsed but the

(Continued on Page 3)

### ELECTRICAL INSTITUTE TO HEAR MONTEITH

Effect of Lightning on Power  
Transmission Lines to be  
Discussed

Mr. A. C. Monteith, Engineer, Westinghouse Electric and Manufacturing Company, Pittsburgh, will lecture to the Toronto section of the American Institute of Electrical Engineers in Room 23, Electrical Building on Friday, Feb. 22nd. In his lecture entitled "Lightning in the Power Transmission Problem", Mr. Monteith will review the present knowledge of natural lightning and cover a few of the factors to be considered in the design of transmission lines and substations.

Mr. Monteith is a graduate of Queen's University, is an expert on the transmission of electric power, and is also the author of a number of scientific papers on lightning problems.

### MEMORIES

1930—The progress of medical science has opened a new and novel method by which undergraduates may earn a few extra dollars. A bounty of three dollars is granted to those students who undergo the Dick test and react to it.

1931—By taking six of the final boxing and wrestling titles as well as the fencing championship, Varsity regained the intercollegiate assault-at-arms from McGill and now hold the championship for the eleventh time and the eighth time in nine years.

1932—There will not be an International Student Service Tag Day on the campus this year since the Capt early this year laid down the law forbidding tagging on the campus.

1933—Mr. A. Y. Jackson, the eminent French Canadian landscape painter and member of the Original Group of Seven, said, when he addressed Mr. Arthur Lismer's art group, "One problem that is facing the Canadian artist in search of the picturesque, is the fact that all the quaint barns, stables and cottages of Quebec are disappearing."

## Why Not Read This?

At yesterday's meeting of the Students' Administrative Council it was decided to reinstate the editor of *The Varsity* after suspension on the recommendation of the Publications Committee. Before the matter is finally closed so far as this paper is concerned, there are a few things which should, in justice to all, be said.

The two gentlemen criticized in last Friday's editorial, which caused all the fuss, were undoubtedly criticized too harshly for their actions. There was some hot-headedness on both sides, and we must, in fairness, admit our own. The two gentlemen criticized, members of the Publications Committee, have been staunch friends and true to *The Varsity* and its editor all through the year. The lapses for which they were criticized were the first opportunity for any criticism which they had given. The complaints, as it was pointed out to us by the Publications Committee, were based on "hearsay" information, which our legal friends say is not legal evidence. Since the authenticity of the information is doubted in some quarters, and the criticism was somewhat harsh, there is ground for complaint on the part of the two gentlemen concerned.

By indulging in personalities in the editorial column we were committing a breach of contract, which left us open to suspension. To the Students' Council, for our recent constitutional lapse, we convey our official but not very abject apologies, since we have been indulging in personalities all year. And to the gentlemen who have been wronged, our sincere regrets for any injustice or wrong impression which may have been created.

## A Course In Portuguese?

After English, French, and Spanish, Portuguese divides honours with German as being the next European language. We ask you to remark that we have not said "of Europe", for it is not; but that is the trouble with Portuguese. Too many people are prone to think that it is only an insignificant dialect spoken in the southeastern corner of the Iberian peninsula, completely forgetting that it is also spoken in Brazil and throughout the colonies of Portugal.

Portugal's colonial empire is only surpassed by those of Britain and France. It is an immense series sprawled along the path originally blazed by the great Vasco de Gama and his followers from the motherland by way of Africa to the East Indies. It is immensely wealthy, and should prove even more so as Portugal can get the money to exploit it. Many Portuguese have joined the colonial service and have spread their liquid speech throughout this vast territory in a fashion perhaps as scarcely any other colonial power has done.

Then in Brazil there is a nation comparable to our own as to its future and perhaps even more virile in its desire for progress. Most people are very apt to classify Brazil as a Spanish-speaking country and to think that if they had a working-knowledge of the latter language they would fare

very well in Brazil; but if these people would only bear in mind the profound tendency of Portuguese to dissociate itself as far as possible from anything Spanish, they would realize the great differences existing between the two languages.

In Brazil the language is certainly growing. Besides the original Portuguese colonists there is a great body of the population that now speak the language as their mother tongue: descendants of German, Swiss, English, Spanish, Italian, Negro, and Japanese immigrants. Brazil has enormous possibilities for development, and in that country Portuguese has an infinite development ahead of it, one worthy to be taken into careful consideration.

Portugal itself, besides being the home of the language and its literature, is the prime base from which these are spread, much as England is to the English of today; while the United States are powerful propagandizers, it is England after all that is considered the source of real English, and so it is with Portugal.

Nor must the literature of the language be forgotten. It is equal to any of the ranking European literatures; its present unimportance is not because it is insignificant but because it is neglected. And that brings us to the point in hand.

Here in the University of Toronto there is no course in Portuguese. Why should one of the major universities of the world ignore a language of such importance? In no way at all can any credit be obtained for study in it. Can this state of affairs be remedied?

Certainly the Italian-Spanish Department are not against it, but would welcome the opportunity of giving lectures in it. However, the present supply of Portuguese books in the University Library is entirely inadequate for the venture of teaching the language formally. To build it up would require funds which just now would have to be diverted from those used in the acquisition of books for the Italian and Spanish sections, and as these are hardly sufficient for the latter two languages themselves, it would be illogical to use them for other purposes than those for which they are intended.

There is no student apathy towards learning the language: we have seen enough persons on the campus interested in it to form an active class in the subject, and certainly there should be more whom we have not met. Even now some are learning the language privately, but many are discouraged from going too far in it because their studies receive no official sanction and are of little value without that credit.

Recently a start was made in the introduction of the study of Chinese here. Establishing it certainly took far more money than even a complete course in Portuguese would. There are members of the staff of the Italian-Spanish Department capable of lecturing in the subject. Practically all the extra expenditure that would be necessary to add Portuguese to the curriculum would be an adequate supply of good literature in the language in the Library, and we even have a start on that. The new calendar will soon be out, and the time past for doing anything definite about it for next year; but we ask again: would it be too much of a strain on the University purse to put a little item on its budget so that the Italian-Spanish Department can buy the few books needed to start even a pass course in Portuguese?

## Professors Or Parrots?

While Minnesota students are passing on their professors' merits, the question of the proper province of a lecturer inevitably will arise. In the minds of some sociologists the lecturer no longer has a province, as the high development of printing permits the circulation of ideas in easily accessible form. This conclusion is perhaps too strong, but certainly there is no excuse for an instructor who acts as a one-man briefing trust and transforms his students into stenographers.

And then there is the professor who teaches one basic course and a number of more advanced courses. He assumes that he has thoroughly mastered the more elementary material and therefore loses interest and gives the elemental class little or no preparation. Day to day interpretations, particularly in the social sciences, are valuable additions to the regular diet of theory, and cannot be had in book form. The professor can illustrate and clarify those portions of the text which the class does not assimilate. He can correct misunderstandings and suggest additional readings. Mere repetition is not enough.

—Minnesota Daily.

## ART, MUSIC & DRAMA

### Hart House String Quartet

The members of the Hart House String Quartet recently returned from a short tour which took them to Kingston, Cornwall, Ottawa and Montreal, and have since been rehearsing diligently for their fourth Toronto appearance of the season in Convocation Hall Friday evening and in Hart House Theatre on Saturday evening.

They will be assisted by Ton Brennand, brilliant Toronto violinist, in a programme of unusual interest which will consist of Mozart's quartet in G minor; a Bach contrapunctus (for violin, 2 violas, cello); a Beethoven fugue (for 2 violins, 2 violas, cello); and the gigantic Beethoven quartet in C sharp minor.

Saturday night's concert at Hart House will be the one hundred and tenth performance this organization has given in Toronto since its foundation in 1924 by the Hon. Vincent Massey and Mrs. Massey.

After their concert here, the members of the quartet must plunge once more into a series of arduous rehearsals for an extensive tour next month. During March, they will make a total of thirteen appearances; eleven in Ontario and three in the United States. Their Ontario concerts will be held at Niagara Falls, Galt, Chatham, Hamilton.

## Correspondence

Correspondents are reminded that all letters must be accompanied by signatures, and they are requested to limit themselves to approximately 300 words.

To the Editor of *The Varsity*.

Dear Sir:

May I beg the opportunity to suggest a correction to your very excellent report of an address I was permitted to give to the Toronto Branch of the Student League last Friday night at the Women's Union.

Your reporter says: "Social Credit is not designed to end the depression . . ." where I said "Social Credit is not designed to end unemployment, but it is designed to translate idleness into leisure . . ."

We regard unemployment as largely technological, even under the vastly stimulated "purchasing power" that Social Credit would release. But in any case the matter of unemployment while disastrous under the present financial system, does not greatly disturb us. If production can largely dispense with the human element, we do not worry so long as the great appreciation in real wealth is distributed via the National Dividend and Just Price.

I trust you will permit this correction. Your reporter did an excellent job and the mistake was quite understandable. (Continued on Page 3)

## THE SPORTSWOMAN

By M. A. F.

We are still trying to talk up enthusiasm for the Vic swimming meet. Unless there is going to be a worthwhile turn-out there is not much point in going through with the meet which, as things now stand has been postponed until the beginning of next week. It only stands to reason that out of the great number of women registered at Victoria College there must be at least fifteen or twenty who are sufficiently proficient in swimming to enter one of these faculty encounters.

The Badminton Club will meet at 3 p.m. today to make definite arrangements for the tournament. This will be a very important meeting and it is essential that every member be present. It is confidently hoped by those who are in charge of the tournaments that the faculty teams are doing some earnest practicing. You all must know that there is a definite feeling among those who are really keen on this sport that it should be raised to intercollegiate status—and a rattling good tournament will be an excellent way to indicate that such an idea is highly practical.

The senior basketball team had its last practice last night before going down to Kingston to engage in the playoffs. Naturally our team received a death blow when Bea Longley, Al Butler, and Eleanor Wallace graduated. But we have some good material on deck this year and plenty of that "do-or-die" spirit which counts in a big way.

Do you pucksters realize that there are only four more practices before the big game with McGill. We have a lot of good material if it can only become sufficiently enthused to make the grade. The next practice will be at 1 p.m. on Friday—let's make this the best work-out yet.

## Foresters Defeat Trinity Ball Team

Many Errors by Both Teams in Interfaculty Baseball Contest

### EARLY LEAD REVERSED

Forestry inflicted a 6-5 beating on Trinity yesterday in an interfaculty baseball game that was featured by many errors on the part of both teams. The Woodsmen were able to field only seven men for the first three innings and deserve a good deal of credit for their performance.

Trinity took an early lead in the first inning when they knocked Greer's offerings all over the gym to garner three runs from the bats of Morgan, Tucker and Allison. Only a spurt of snappy fielding prevented them from running up the score much higher.

Forestry clamped down in the next two innings, keeping the Red and Black off the score sheet and at the same time adding another run to their own total, to make the score 3-2. It was Forestry's turn to run wild in the fourth and final inning. With the aid of some sloppy fielding by Trinity and a couple of doubtful decisions by the umpire, they ran in four runs to take the lead at 6-3. Trinity made a great effort in return and had the tying run in their grasp with none out, but Greer steadied down and methodically struck out three men to leave the Red and Black squad one short.

Trinity: Morgan, Read, Tucker, Allison, Clark, Kemp, Martin, Church, Wyckoff.

Forestry: Johnstone, Chalk, Carrique, Garrette, Greer, Crossley, Hick, Barron. Referee: Ganz.

## Jr. Meds Score Win Over Jr. U.C. 20-10

Medical Students Display Better Teamwork During Game

### FENNER'S SHOOTING GOOD

Yesterday afternoon in the upper gym Jr. Meds basketball squad defeated Jr. U.C. by the score of 20-10, to remain at the head of their interfaculty group. The win was mainly due to the superior teamwork of the doctors and to the good shooting of Fenner.

In the first period both teams played fast and hard but ten minutes went by before Sharpe for U.C. was able to score although Meds had many chances at the basket their shooting was erratic and the period ended 6-4 for U.C.

In the last half Meds showed their championship style by holding U.C. to only 4 points. Their fast combination was too much for U.C. and Fenner scoring 10 points cinched the game.

Fenner, Wise and Zarsky were best for Meds while Applebaum and Beckett played well for U.C.

Jr. Meds: Wise (2), Cash, Fenner (10), Zarsky (4), Barrett (4), Newton, Crockower, Laski, Epping, Wales.  
Jr. U.C.: Applebaum (4), Beckett (4), Sharpe (3), Huminick (1), Levenne Orved, Lokash, Shabermann, Beatty.

Strenuous agitation is being waged at the University of Alberta, led by *The Gateway*, undergraduate publication, for the erection of a union hall, after the plan of Hart House. The question of financing is held to be not insoluble. According to the present plan, an athletic wing would be built in the near future, and swimming pool, theatre and club offices when funds permit.

## SPEAKING OF SPORT

By W. A. Crockower

Time after time Varsity's senior cage squad this year, has been accused of roughing up play unnecessarily. Coach Rose of Queen's put up quite a kick about the way the Blues treated his lads in their game here. Other coaches and teams have at different times voiced loud protests against the treatment they received at the hands of Hayman's squad. However, in awarding the "Red Horner" title our suggestion would be to leave it in Hamilton in the care of McMaster's Big Six crew. If ever a team committed petty and uncalled-for acts it was the Garnet and Grey squad on Tuesday night. Every trick in the basketball player's bag was hauled out and displayed much to the delight of the McMaster fans. The Blues refused to take matters lying down and as a result Referee Miller had a busy night. Now, aggressive play on a cage court has never been a sore sight to us but when a team goes out to get the other squad's "goat" by petty play it leaves a bad taste in one's mouth.

It is a generally accepted fact that a zone defensive system, as employed by McMaster, is best suited for narrow floors. The Garnet and Grey cagers form the one exception to the rule that we have encountered. The gym floor of the Westdale Collegiate in Hamilton where McMaster plays its home games is of the square type, being quite an expanse of floor. In spite of this Coach Burridge's squads succeeded in tying up the Blues. The Big Sixers especially held the Blues in check. After a whole day's puzzling we still can't figure out McMaster's secret.

When Varsity's intercollegiate cage squad entrain for the eastern front tomorrow morning they will be making their last out-of-town trip for the season. On Friday night the Blues are scheduled to meet McGill's Redmen while the following evening they will play against the Tricolour in Kingston. For a long time it has been the wish of the veterans on the squad to win in Montreal and it seems that the boys will win this year without even crossing fingers before game time. McGill's erstwhile champions have taken a terrible buffeting this season and to make matters worse the end is not yet in sight for them. Down in Kingston the Blues will meet the kind of fight they received in Hamilton on Tuesday night. As a result the final count should be very close but it is not being too optimistic to predict a Blue and White victory in the Limestone City.

The matter of basketball playoffs now comes forward as the cage season enters the home stretch. Although the senior Blues have the opportunity of continuing in the Ontario playoffs it is doubtful whether they will use this opportunity. With the exception of one or two players the squad has individually and collectively expressed an opinion on various occasions against extending the long cage season as studies have been neglected to an alarming degree. We heartily agree with this feeling since if a single player meets his Waterloo in May it more than offsets any honours won by continuing the season for too long a period.

While their cage brethren are cavorting in foreign courts Warren Stevens' collection will enact Custer's Last Stand at the Arena on Saturday night. The cast will include the Blue hockey machine and the Queen's aggregation—plus the two Blue mascots. Incidentally we suggest replacing the referee with a prompter so that the fans may be able to enjoy themselves thoroughly. There is nothing much at stake in Saturday's game but the tilt will decide whether the Blues finish the season without a single win against a Canadian team.

Up at the Arena last night Warren Stevens finally got his Beavers untangled and left them in that condition long enough for the Blues to hand the Royal York pucksters a 4-2 trimming. The Beavers were a mad group last night and played the hockey they should be playing at all times. Every one of the Blues turned in a wonderful performance, probably because each and every one of them was fighting mad. At any rate if this unpleasant situation will bring everything out of the Blues then by all means let us have more fighting madness. As a general rule Steve might get his wings mixed up every once in a while so that the boys would be brought up to a fighting pitch and thus take the next few games. At that it might be a good idea.

## Schoolmen and Dents Take Hockey Games

U.C., Pharmacy Lose Games at Arena Yesterday Afternoon

### DENTS FIRST IN LEAGUE

Senior School and Dentistry won the interfaculty hockey games played at the Arena yesterday afternoon. The big fast Engineers had no difficulty in taking a 4-0 decision from a weakened U.C. team, and gave every indication that they will be heard from before the Jennings Cup race is over. The second game which brought together Dents and Pharmacy and ended in a 3-0 win for the followers of the gentle art of tooth extracting, was the best interfaculty tilt this year and had the largest crowd of the season quite worked up.

Sr. School broke to the front in the first few minutes of their game with U.C., who were minus their two stars, Dawson and Harwood, when Stavert, speedy right roller for the Schoolmen, went in on Pritchard to score two pretty goals. U.C. were unable to match strides with the fast stepping Engineers and Davidson and Hewitt added to the winners' total by scoring in the last period. Hewitt played a great game both ways for the Engineers. Gordie Keith was the only member of the losers to make progress against the heavy checking of the winners and looked well all the time he was in action.

Pharmacy's prescription of bumps and butt ends mixed with large quantities of vocal support from their nu-

merous rabid supporters, was not enough to dispense with the smooth working, well-coached Dentials, who ran up a two goal lead in the first period on goals by Squires and Leask. They lengthened this lead on another goal by Leask in the last period which was productive of everything that goes to make up a real hockey game. The soda-jerkers started out with a nice display of offensive hockey but found McCartney unbeatable in the Dents' net. Greco and Squires began slowing up the incoming drugists who became disorganized for minutes at a time, and when in such a condition were unable to stop the methodical dentists.

The victory gave Dents first place in Group B, with the losers having to be content with second position.

Dentists: McCarty, Greco, McDonald, Squires, Joynt, Leask, Lankin, Rollaston, Neal and Spence.

Pharmacy: Garneau, Bingham, Cottrell, Reinhardt, Pronger, Wilton, El-Jenhansen, Johnson, Coulter, Souliere.

Sr. S.P.S.: Young, Hewitt, Stottart, Kerr, Hodgson, Stavert, McNichol, Davidson, Brunett and Patterson.

U.C.: Pritchard, Dawson, Campbell, Keith, Evans, Coulter, Fowler, Thompson, Selfe and Hamilton. Referee: Charles H. Sweeney.

## Varsity Beavers Leading Due to Last Night's Win (Continued from Page 1)

fleet left-wing hooked the rubber from the opposing defence and jammed it past Major. Sweeney went through twice but couldn't score. McIlquham backhanded a torrid drive which gave Major some trouble. Rey then breezed in and missed, Valquette also missing the rebound.

The second counter was notched by Devine on a smart pass from Kieff.

## Sport Notices

### Women's Hockey—

All-star hockey practice Friday at 1 p.m. at the Stadium. Everybody out.

### Boxing and Wrestling Team—

All trunks, sweat-shirts, shoes, etc., must be handed in by Friday at Mr. Rimmer's office.

### Senior Hockey—

Practice at the Arena. 5 p.m.

### U.C. Athletic Board—

There will be a meeting of the U.C. Athletic Board at 1 p.m. today in the Lit. offices.

### B. W. and F.—

Intermediate assault at O.A.C., Guelph, March 2. Will the following turn out at once:

Boxing: Pidduck, Taylor, Kemp, Brunke, MacPherson, Houle, MacConnell, Graham, Mackenzie, Johnston, Robertson.

Wrestling: MacDonald, Keefe, Minaker, Trimble, Cruickshanks, Newell, Crossley, Zachanko, Pocius, and any others.

### Sr. U.C. Baseball—

Game today with O.C.E. at 4 p.m. Everybody out.

### CORRESPONDENCE

The blonde center raced right in and drilled a waist-high shot into the twine. Varsity had a wide margin of play the whole period and should have garnered another two or three. They shelled the Hoteliers' cage for the final two minutes of the canto but Major kicked them all out.

The middle chulker was probably the best display of hockey seen at the Arena this season. The fireworks commenced when Stanhope was jailed for attempting to ruin Sweeney, who could not see things that way. The Blues staged a five man rush and the Hotelmen, who were becoming disgruntled with the proceedings, became very belligerent. This was quite to Varsity's taste and several minor donnybrooks were staged. Campbell was climbing all corners and the rest of the boys also turned it on with rare gusto.

The climax came when Davey got the gate for tripping. The players went berserk and the crowd were in a frenzy. Major, who was very angry indeed by this time, attempted to take on the entire Varsity squad, but failed. Rey went through solo and the Royal reminder made a phenomenal stop. The Blues were playing five men up and were putting plenty of the old hot-cha into the proceedings. They completely dominated the play but could not score.

The final frame was barely commenced when Jeffrey raced in and laid a beautiful pass over to Devine, who hoisted the disc into the cord. The Hotelmen immediately applied the pressure and played five men up for the remainder of the game. Bradshaw finally countered during a scramble. It was their first real scoring chance of the evening. Jeffrey and Kieff broke together and Major made a sensational save on the latter's drive.

McIlquham and Valquette tore down centre and the former got the Blues' fourth counter when he batted in Vallette's rebound. Jeffrey broke through and missed the open net. Bradshaw sunk his second marker of the game during a rush with but a minute to go.

The entire Varsity brigade played starchy hockey and the fans were vociferous in their praise. Sweeney, Devine, Jeffrey and Valquette turned in nice efforts, as did both defencemen. Shipman displayed rare form, particularly in the final period.

Royal York: Goal, Major; defence, Davey, Murphy; forwards, Bradshaw, McIlwain, Stanhope; alternates, Chisholm, Durno, Hodgson, Barnes, Bissell.

Varsity: Goal, Shipman; defence, Rey, Campbell; forwards, McIlquham, Sweeney, Valquette; alternates, Devine, Kieff, Jeffrey, Morgan, Bauer and Driscoll.

## CHAMPUS CAT (Continued from Page 2)

The other fellow's liquor bar. Is yours when you have none; Perhaps his pen works quicker, far, Than your old worn-out one.

But after some gay night of mead, When hands are far from steady, That's when your folks a letter need. His typewriter is ready!

S.C.M. conference, "Missions and the Student".

**SATURDAY, FEBRUARY 23**  
S.C.M. week-end conference, "Missions and the Modern Student".

Federation of Young Canada Conservative Clubs annual meeting in the Royal York Hotel.

**SUNDAY, FEBRUARY 24**  
S.C.M. week-end conference, "Missions and the Modern Student".

7 p.m.—S.C.M. chapel service in Emmanuel College. Speaker: Jesse Wilson.

9 p.m.—Wymilwood musicale. Guest artists, Patricia Lundy, soprano, and Harvey Whiting, violinist; John Bates, John Copp, Charles and Dick Joliffe, vocal quartet.

**MONDAY, FEBRUARY 25**  
6 p.m.—Nominations for Hart House Debates Committee 'close.

7.45 p.m.—Honour Science Club members' party at the Women's Union, 79 St. George St.

**TUESDAY, FEBRUARY 26**  
1.20—Vic S.C.M. The topic "Significance of Life" will be discussed by Miss Gertrude Rutherford at Wymilwood.

8.15 p.m.—Dr. J. R. P. Sclater will speak in Hart House Library on "My Leisure Reading".

## CONNOR TO ADDRESS C.C.F. CLUB TONIGHT

Relation of Organized Labour to Federation to be Discussed

Mr. J. M. Connor, secretary of the newly formed Toronto Regional District of the Co-operative Commonwealth Federation, will address the regular meeting of the University C.C.F. Club in the Women's Union tonight, on the subject, "The Labour Situation in Canada".

"We have felt for some time that a knowledge of the attitude of organized labour toward the programme of the C.C.F. and direct information as to the conditions of organized labour in the Dominion at the present time should form an essential part of every C.C.F. supporter's stock of information," stated J. V. McCutcheon, vice-president of the club. "Mr. Connor has had long association with labour and is in an excellent position to give us the desired information."

Important business relative to affiliation with the C.C.F. party is to be transacted. The agenda for tonight's meeting also provides for discussion of the club's constitution and of the extent to which the club will co-operate with other campus organizations.

## Radio Debaters Competing For Dominion Trophy Shield

(Continued from Page 1)

ably more difficult from a Varsity standpoint, at least, as an adequate knowledge of French will be essential, and no interpreters will be allowed in either of the studios. Mr. Smith, having spent more than a year in a French University, is being entrusted with the French portion of the Toronto attack.

The winning team will be awarded a shield, emblematic of the Dominion championship, when the result is announced on Saturday evening.

## Interior Decoration Best If Simplicity Stressed

(Continued from Page 1)

scribed by the eye to the brain was naturally pleasing to one's senses. Similarly unusual things hard to describe, overcrowding in a room, or pieces of furniture out of proportion were displeasing for the same reason.

"The great fault in most Canadian rooms is that the horizontal lines are stressed too much," Mr. Mathers declared. "The weight in the room is all near the bottom, and as a result it looks like something that has settled in a bottle." He explained how this might be overcome by establishing a background in the room against which the horizontal line of the furniture would not stand out.

Mr. Mathers spent considerable time in dealing with the use of colours in interior decorating. He advocated the use of complementary colours to produce a contrast in the furnishings of a room, but warned against going to the extreme in this.

"Purples, violets, and deep blues are dangerous to use," he stated, "since if one looks at them long enough, actual physical discomfort results. Use blue to make a room seem larger, since blue suggests distance, and use red to make a room appear smaller, since it suggests nearness to the human senses."

Maybe his sheer coincidence, but we haven't heard of anyone taking a memory course since 1929!—University Daily Kansan.

8.15 p.m.—The annual concert of the Varsity Band and presentation of skits in Convocation Hall.

8 p.m.—Combined meeting of University, Trinity and Victoria French Clubs at Wymilwood. Debate, music, charges and refreshments.

**WEDNESDAY, FEBRUARY 27**  
7.30—Victoria Junior-Senior dinner in Burwash Hall. Meet up till 7.15 in Annesley Hall.

6 p.m.—Nominations for Hart House Standing Committees and Camera and Squash Raquets Committees close.—Hart House Debates Committee elections.

**SATURDAY, MARCH 2**  
8.15 p.m.—Victoria College Dramatic Society At-Home in Wymilwood.

**WEDNESDAY, MARCH 6**  
Hart House Elections.  
8 p.m.—Commerce Club smoker. H. H. Hallatt to speak on the "Wage-Dollar Money System."

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at either the men's office in Hart House, or at the women's office in University College. No notices will be taken over the telephone, after 6 p.m. notices must be taken to the Press Building. Notices for the Bulletin Board are limited to ONE insertion only.

### MACDONALD-CARTIER CLUB

Friday, February 22, 1 p.m. Luncheon meeting in the North Common Room, Hart House. W. Earle Rowe, M.P. for Dufferin-Simcoe, will be the speaker. The address will be one of importance to all members.

### VICTORIA WOMEN

The Junior-Senior dinner will be in Burwash Hall on February 27th, at 7.30. If you arrive before 7.15 please meet in Annesley Hall. Money will be collected on Friday, Monday and Tuesday from 9.50 to 10.10 or on Wednesday at 1 p.m.

### S.C.M. CONFERENCE

Saturday and Sunday, February 23 and 24 "Missions and the Modern Student". Are missions justifiable for Canadian churches today? Give registrations to S.C.M. office.

### S. C. M.

Sunday, February 24, Student Christian Movement Chapel Service in Emmanuel College. Speaker, Mr. Jesse Wilson, general secretary of the Student Volunteer Movement of North America. All students are especially invited.

### SKI CLUB

A meeting of the U. of T. Ski Club will be held in Room A, Hart House today (Thurs.), at 5 o'clock to arrange for the McGill meet. The Ski Team picture is available for those wishing copies.

### VICTORIA SENIOR FORMAL

The Victoria College Senior Formal will be held in Wymilwood, Friday evening, February 22, with dancing beginning at 8.15 p.m. The men of the year are asked to get in touch with any member of the executive right away to complete arrangements.

### U.C. PARLIAMENTARY CLUB

Fifteenth meeting, Junior Common Room, today at 4 p.m. "Resolved that Toronto is a Detriment to this University." Pivnick, Speaker; Buck, Clerk; Mervin Miskys, Premier; Shaffer, Leader of Opposition. in the college hall.

### VIC VOCATIONAL GUIDANCE

S. J. Allin ('22 V), S. Stockwell ('30 Vic), will meet the group on Advertising in Room 18, at 5 p.m.

### THE FORUM

Meeting of the Forum in Room 3, U.C., at 4 p.m. Friday. It is necessary that all members be present as certain constitutional changes are to be made. The constitution states that if a member is absent for 2 meetings without adequate notice to the executive he is automatically excluded from the club. It is intended that this rule will be rigidly enforced in future.

## 'TWIXT TWO

Dear Ted:

"The one who is intolerant is the one who is sure he is right"—is it, or isn't it true? Haven't you ever wanted to annihilate those people who are so set that they can't see an inch on either side of their nose?—those who know this, and know that, and who want to tear you limb from limb if you disagree.

You know, I am sure, what it feels like to have to talk to such stilted dogmatists—and doesn't that experience make you swear up and down that you will never never follow their example? You argue with them—it is impossible to discuss—they gradually lose their temper as they lose their point; when they can't think of anything else, they are reduced to biting sarcasm that seeks to destroy what isn't of their making. It all produces an overpowering sense of impotence which is maddening.

What possibilities of progress are there ahead when people say, in direct opposition to facts, "But see what happened ten years ago," and "Such and such will always be the best," and so

### ENGLISH AND HISTORY CLUB

The next meeting of the club will be held at the home of Miss McLean, on Bayview Avenue, on February 27. Mr. Dadson and Mr. Woods will read papers.

### C.C.F. CLUB

The regular meeting of the University C.C.F. Club this evening will be addressed by Mr. J. M. Connor who will speak on "The Labour Situation in Canada". The meeting will be held in the Women's Union at 8 p.m. All undergraduates interested are invited.

### VIC DRAMATIC SOCIETY

The At-Home of the Victoria College Dramatic Society will be held in Wymilwood on Saturday, March 2nd at 8.15. Members are asked to make arrangements at once and to advise the executive of their intentions.

### 3T6 VIC SKATING PARTY

If there is skating at the Stadium Saturday afternoon the postponed skating party will be held. Meet at the S.E. corner of the rink at 2.30. Refreshments for a small sum at Annesley at 4.30.

### FIRST YEAR SOCIAL SCIENCE

The first year class party will take place tonight at "The Hostess", 891 Bay Street. It promises to be a grand party, so if you have not already done so, make arrangements with the first year executive. A good programme has been drawn up, and—refreshments will be served. Arch Crossley will be at the piano.

### VICTORIA COLLEGE UNION ELECTIONS

Nominations for offices of the executive of the V.C.U. (only) to be completed by Friday, 5 p.m. Nomination slips in college office; please hand to Ross Macdonald.

### VIC MUSIC CLUB

Any women members wishing to invite outside men to the At-Home on March 1st should get in touch with a member of the executive at once to procure an invitation.

### VICTORIA MEN

Tickets for the Hart House concert will be given out to those to whom they have been allotted at 1.30 p.m. today.

### U.C. FOLLIES

Cast and chorus will rehearse at the Women's Union Theatre, Saturday at 1.30 p.m.

### STUDENT PEACE MOVEMENT

Mrs. Angus MacLennan will speak on "The C.C.F. and Peace", in Emmanuel College residence common room, 4th House, on Friday at 8.15 p.m. sharp. The meeting will be well worth attending. Everybody welcome.

## THREE FRENCH CLUBS TO HOLD JOINT PARTY

Victoria Club to be Hosts to Trinity and U.C. Next Tuesday

The University College and the Trinity College French Clubs will be the guests of the Victoria College French Club next Tuesday evening at Wymilwood, and advance information from the Victoria executive, Miss Gladys Lachance, president, and Miss Gladys Smith, vice-president, reveals a varied programme in store for the visitors.

Miss Helen Rutnam, Miss Gladys Smith, Mr. Harold Garfield, and Mr. Bill Strickland will participate in a debate. "Resolved that examinations should be held at the end of the fourth year only in preference to annually."

Community singing of popular French songs form part of the entertainment and music will be provided by Mr. Fred Skitch at the piano.

There will also be an amusing programme of charades arranged by the entertainment committee. Refreshments will round out the evening.

## ART, MUSIC AND DRAMA

(Continued from Page 2)

ton, Burlington, Oakville, Lindsay and Port Colborne, followed by the fifth appearance of the season in Toronto at Convocation Hall on March 22nd and Hart House Theatre on March 23rd. On March 30 and 31 they will give three concerts in Buffalo, N.Y., which will include the last five quartets of Beethoven.

## IMPORTANT

All Torontonensis Write-ups, Group Photographs, Dean's Messages, must be handed in to the Student's Council Office, Hart House, not later than Saturday, February 23rd. This is the final date with the exception of some Athletic Groups for whom arrangements have been made.

After that date no space can be reserved.

in India, any more than we can be indifferent to and unaffected by what is happening in the United States. Organized Christian missions are a fact. Common sense demands that we bring ourselves up to date with regard to this particular pigeonhole.

## Campus Opinion Divided About Scholarship Plan

(Continued from Page 1)  
worth mentioning in social life. Take me, for instance, the only reason I came here was to try to bum a job from some of my year when I get out. Spence Jacques thought that moderate intelligence was the thing that got a person on farthest in this world and that the scholarship winners rarely ended up on top.

Another student that preferred not to be quoted, said, "There are enough scholarships for those that want to work for them. To add more would only mean the further over-crowding of our universities."

## Women in Ministry Approved By Emmanuel Professors

(Continued from Page 1)

Doctor F. W. Langford, Registrar of Emmanuel College, said: "As far as I personally am concerned I did not attend the meeting of the Presbytery and am not prepared to make any statement other than that I have so far heard no convincing argument against women entering the ministry."

Professor A. J. Johnston of Emmanuel College, stated that he is in favour of the ordination of women but perhaps it is not fitting for them to occupy pulpits in large congregations of business men. They could do mission work and act as pastoral assistants. He said: "I give my opinion on the subject hesitatingly since we can't tell yet how it will work out. As long as women were unmarried they could serve the church but if they were married and had a home it would inevitably complicate things. However, I think we could trust their own wisdom and that of church boards in this matter."

Doctor John Line considered that the matter was not of immediate importance because it will be at least October 1936 before it can be definitely settled.

There are two little girls in town  
Whom you never see wearing a crown.

## Immortal Lovers in Drama Professor Stoll's Subject

(Continued from Page 1)

matic and real-life lovers so frequently do. The love of Romeo and Juliet is sound and open-hearted, an affair of the imagination rather than the intellect.

"The social or ethical bias plays less part now than the psychological one, but since Shakespeare's character presentations are so poetical, searching for tragic sin is out of place. Romeo's may not always be the language of reason, but one must remember his youth. The contrast between love and death brings out the wonder of love's triumph over death."

"Romeo and Juliet seem to fall in love as easily as Hollywood lovers or American college students," went on Professor Stoll, "but dramatists needed summary and compendious devices to satisfy Elizabethan audiences. Adama and Eve also loved at first sight. If Romeo and Juliet had proceeded according to proper and decorous conventions, Juliet would have been married to Paris before her heart was awake. Besides such a sudden love affair was quite common in troubadours' songs, where the men fell in love with the beauty of the ladies rather than with their accomplishments or virtues. They spoke very frequently of their lily-white hands, their breath, their eyes, their hair, their coral lips, their silver voice, and rarely mentioned their wit, their talent or their needle work."

"Even though they do fall in love at first sight, we are convinced that they are suited to each other. Romeo springs from a love-sick youth to a man, Juliet from a shy, sheltered girl to a woman. The manner of their meeting is poetic and dramatic, not psychological or sociological."

"The catastrophe is plausible and harmonious, in keeping with our sense of reality and tragedy. The drama is reduced to the simplicity of poetry."

Allegheny College gives this advice to its freshmen: "In case of fire, take your time. Greed things do not burn readily."—The Daily Collegian.

Any man who dies rich dies disgraced.—George F. Johnson.

# THE VARSITY

## The Undergraduate Newspaper

Established 1880

VOL. LIV.

UNIVERSITY OF TORONTO, FRIDAY, FEBRUARY 22nd, 1935

No. 92

### NEWS OF THE WORLD IN BRIEF

Berlin—Hitler has assigned wide powers to the finance chief, von Krosigk, in an attempt to buy new materials and consolidate debts. Banks, business firms and individuals are subject to the decree.

Washington—The wage clause in President Roosevelt's relief bill was defeated by the U.S. Senate, which forced the McCarron "prevailing wage" amendment into the bill. The amendment calls for current pay rate on relief works.

Ottawa—Liberals and C.C.F. members demanded that the government embark upon a real national health scheme and charged the Commons with evasion in relation to the sections in the bill providing that the commitment to administer unemployment insurance should co-operate with the provinces.

Toronto—The Toronto District Labour Council last night demanded an investigation of the lot of the single unemployed in city hostels. The meeting heard charges of inhuman and brutal treatment.

London—British government circles were surprised at the unexpected publication of the Russian note concerning the Anglo-French security proposals. This is thought to be an adroit move to head off lopsided concessions to Germany.

### CONSERVATIVE SOCIETY TO HOLO MEETING

Rowe to Address Macdonald-Cartier Club at Luncheon in Hart House

W. Earl Rowe, M.P., will address the Macdonald-Cartier Club at the final luncheon meeting of the year today in Hart House.

Mr. Rowe has been prominent in political circles for several years and a member of the House of Commons at Ottawa since 1925. His address will have added interest as he has been mentioned as a prospective leader for the Conservative party in Ontario. He is the member for Dufferin-Simcoe and recently moved the reply to the Speech from the Throne at Ottawa.

### 'S.C.M. Corner

Mr. Jesse R. Wilson will be the main speaker at the S.C.M. week-end conference held February 23-24, on "Missions and the Modern Student". His work in the foreign field as well as his extensive experience with student groups fits him peculiarly for the task of interpreting missions of today to the universities.

Jesse Wilson is a graduate of a university in Texas. After studying theology in the Yale School of Religion, he went to Japan as a missionary where he quickly found a place in the life of the Japanese people. When the Student Volunteer Movement found itself in need of a general secretary to succeed Robert P. Wilder, who left to assume the secretarial duties of the Near East Council, the field was thoroughly surveyed, and Mr. Wilson was chosen as the person best suited for the position. For the past eight years, he has worked as general secretary of the Student Volunteer Movement, where he has been able to enter the thought-life of students in many capacities on this continent. In addition to these duties, Mr. Wilson has been an active member of the World's Student Christian Federation, and is a well-known figure at Student Christian Movement conferences.

### Vital Interest Shown In Portuguese Language

PROFESSOR J. R. DYMOND

Recently appointed Director of the Royal Ontario Museum of Zoology, who is to give an illustrated lecture on wild life, before the Royal Canadian Institute, in Convocation Hall, on Saturday evening. Professor Dymond is well known to naturalists throughout Ontario. The lecture will be illustrated with motion pictures.

### Advertising Discussed At Vocational Group

Skill, Knowledge, Experience, Necessary Qualifications in This Field

### CLEAR ENGLISH ESSENTIAL

Mr. S. Stockwell and Mr. S. J. Allin last evening revealed the "secrets of their trade" to the men from Victoria who were considering the field of advertising as a possible future vocation. Mr. S. Stockwell, who is a Victoria graduate of 1930, gave a comprehensive view of the whole field of advertising. He is particularly well qualified to do this owing to the wide experience he has gained in an advertising agency. He detailed the three most important qualifications necessary in this field as being "skill, knowledge and experience." By far the most important of these was experience. He emphasized how important it was for the college graduate to start in on the "bottom rung." "The University man has eventually the better chance," he pointed out. "Common sense, backed by a sound general knowledge, are the necessary qualities which a college man can bring into the business." Mr. Stockwell advised any would-be advertisers to gain a knowledge and command of good concise English. He particularly emphasized the importance of experience such as that gained as a reporter on *The Varsity*. Such a position also gives one a grasp of the technical detail involved in bringing out the paper.

Mr. S. J. Allin, a Victoria graduate of 1923, gave a clear and interesting outline of the organization of a large publishing house—such as McLean's, the one with which he is employed. He

### Graduation Dance Seems Probable

*The Varsity* has been asked to correct a possible erroneous impression given by the minutes of the S. A. C. meeting published yesterday.

The statement was made that the S.A.C. would not hold a graduation dance this year. It is probable that a dance will be held on the Friday of graduation week as was held last year. The dance will not be sponsored by the S.A.C. but probably by one of the Alumni organizations.

Members of Faculty Commend its Addition to the Curriculum

### STUENTS EVINCE INTEREST

Cultural Influence of Portuguese Language Is Important

Commendation by Professor Buchanan, head of the Italian-Spanish Department, of yesterday's editorial suggesting the addition of Portuguese to the language curriculum, reveals a vital interest in the matter among members of the staff. Professor Buchanan indicated that the article covered the ground so well that he felt he could add nothing further to it.

That the Library at present possesses sufficient material to begin an introductory course that would be a start until the Portuguese shelves could be built up, is the opinion of Professor Cano, a native of Toledo, Spain. He also stated that the personnel of the Italian-Spanish Department is quite capable of handling the subject, and that several students have already inquired about it. Since many universities in the United States teach Portuguese, the University of Toronto as the major Canadian institution of its kind should seriously consider the importance of this language to Canada.

### ROYAL DENTAL SOCIETY HOLO FIRST MEETING

Woodsworth Addresses Club on Warlike Tendencies Today

The first meeting of the Royal Dental Society was held last evening in the Dental Building. The meeting was under the direction of Mr. W. D. Cavanagh, and began with a few words from Dr. A. D. A. Mason, the faculty representative. The speaker of the evening, Mr. Woodsworth, being introduced by Mr. B. Blair, gave a survey of conditions throughout the world, which are influencing the ever-growing tendency toward war. Dancing and refreshments brought an enjoyable evening to a close.

### Shakespearian Heroines Compared To Modern Young Women by Stoll

### ARRANGEMENTS MADE FOR POSTER DISPLAY

Arrangements have been made as in the past by the Sketch Committee and the House Committee for the display of election posters of candidates in Hart House during the week previous to the elections on 6th March. Each candidate who so desires may place one poster in the corridor leading from the Hall Porter's desk to the Great Hall at any time after 8 a.m. on Thursday, 28th February.

Posters may be no larger than 24" x 36" and may be done by professionals as well as by amateur members of the House.

It has been the practice in the past to select a few of the outstanding posters to add to the permanent collection owned by Hart House. Only posters done by non-professional members will be judged and the designer of the poster is asked to place his name, faculty and year on the face of the poster. Any member who wishes to make election posters may leave his name at the Warden's office and it will be posted on the notice-board at the Hall Porter's desk.

### C.C.F. PROGRAMME INCLUDES CONTROL OF INDUSTRIES

Abolition of Senate Cited As Necessary Procedure Upon Election

### CONNOR DISCUSSES POLICY

History of the Socialist Party in Canada Outlined

"The C.C.F. programme is the programme of the Labour and Farmer parties combined," stated J. M. Connor, secretary of the Toronto regional committee of the Co-operative Commonwealth Federation, before a meeting of the C.C.F. association of the university, at the Women's Union last evening.

"We are interested in control of

### MRS. MCINNIS TO SPEAK ON C.C.F. AND PEACE

Student Peace Movement Try to Discover Attitude Toward War

Mrs. Angus McInnis, wife of the Vancouver C.C.F. M.P., will address an open meeting of the Student Peace Movement at the Women's Union tonight on "The C.C.F. and Peace." This is part of an attempt on the part of the Student Peace Movement to determine the attitude of the various political parties towards peace, and the first of a series, according to Ken Woodsworth, secretary of the organization.

Part of the meeting will be devoted to a discussion of the forthcoming Toronto and regional Student Peace Conference, called for the coming week end. Delegates to the conference will come from Queen's, McMaster and the University of Western Ontario, and according to present information, possibly O.A.C. The Students' Administrative Assembly at Western University is sending an official delegate representing the student body of that university. All University of Toronto student organizations of no matter what character have been invited to participate in the conference.

### No Moonshine to Young Lovers and None in Love With Love

"Long-Legged, Loose-Mouthed, Hoiden in Rompers" Is Portia

"Matrimony is an honour they dream not of but to which they easily yield. They not only wait to be wooed but invite it and help it along." In this respect, Professor Edgar Elmer Stoll, of the University of Minnesota, compared Shakespeare's heroines with the modern woman in his second lecture on "The Young Lovers of Shakespeare" at Hart House Theatre.

Shakespeare's heroines were not independent of men, but seemed to exist only in their attachment to others. They are poetically conceived, and poetic in utterance but they themselves do not go in for poetry. There is no moonshine about them, and none are in love with love.

Wit and humour in the woman, when

### PROFESSOR G. E. JACKSON RECEIVES APPOINTMENT

### Exam. Applications

Students registered in the Faculty of Arts are reminded that applications for the Annual Examinations should be filed on or before March 1st. Forms may be obtained at the Registrar's Office, Simcoe Hall, or at the College Registrar's Offices.

### Senior Basketeers Meet McGill Team

Late Intercollegiate Champions not Winning This Year

### GOLO STAYS HOME

Tonight Lew Hayman's intercollegiate senior basketeers tangle with McGill's cage quintet down in Montreal. To complete the annual eastern cage jaunt the Blues will meet Coach Rose's Tricolour squad in the Limestone City tomorrow night.

The Blues will be weakened considerably for these two games, as Phil Gold, veteran defence star, will not make the trip. There is a possibility that Gold may play in Kingston but this is highly improbable.

Although the loss of a single player may not mean much in most cases, Gold's absence is liable to mean the difference between defeat or victory as the veteran is a tower of strength defensively. In addition he does his share in mounting the Blues' total.

The game in Montreal will no doubt be a very interesting one since the Redmen, champions for the past few years, have yet to win an intercollegiate contest this year. As a result they will

### DARWIN THEORY NOT BANNED HERE

Attempted Repeal of "Monkey Bill" Unsuccessful in Tennessee

### STUENTS ACCEPT THEORY

At the University of Toronto the teaching of the theory of evolution is not a question at all, a professor of embryology informed *The Varsity*, in connection with the law in Tennessee banning such teachings in the schools on the ground that they go against the creation story as set down in Genesis. Recently an unsuccessful attempt has been made to repeal the "Monkey Bill", but was defeated by a good majority in the Tennessee Congress.

In comment upon this question, Professor Walker of the Biology Department stated that in his faculty the evolution

(Continued on Page 4)

### Gerhard Schmidt Coming to Queen's

Dr. Gerhard Schmidt, who, along with Einstein and others, was expelled from Germany, will arrive at Queen's in the near future. The doctor is about thirty-one years of age and has already occupied the chair of pathological psychology at the University of Frankfurt and worked in Stockholm. At present he is completing a research problem in Italy. Dr. Schmidt will do research work in biochemistry and at the end of two years will probably receive a professorship.

Toronto Economist Becomes Advisor to Bank of England

### RESIGNS PROFESSORSHIP

Work in Overseas Empire Provides Special Field

Gilbert E. Jackson, Professor of Political Economy and Supervisor of Studies in Commerce and Finance, at the University of Toronto, has been appointed to a position in the Bank of England. Professor Jackson has long been known in Canada as an authority on banking and this recognition of his outstanding ability is gratifying to those who have had the pleasure of a personal contact with him, both within the University circle and beyond it. President Cody announced yesterday that Professor Jackson had resigned his position in the Department of Political Economy and that his resignation would be considered at the next meeting of the Board of Governors.

The new appointment is in an advisory capacity and will be concerned

### TORONTO NO DETRIMENT TO THIS UNIVERSITY

Government of U.C. Parliament Severely Defeated in Debate

The government of the U.C. Parliament suffered a severe defeat, and was compelled to resign, as the result of the debate on the question "Resolved that Toronto is a detriment to this University." The Prime Minister, the Right Hon. Mervin Milksy, after having attempted to explain his visit last week to the United States, which had caused so much speculation and rumour

(Continued on Page 3)

### MEMORIES

1923—After an unusual fall of snow, passersby are astonished to find two hardy bathing beauties rolling in the drifts on Hoskin Avenue outside of East House.

1927—The Women's Literary Society of Victoria College is re-organized, the group system being abolished.

The hazing of freshmen is commended as a means of reducing ego and improving the character of the victim.

1930—The Medical Society holds its annual elections with the usual clamour. Voters receive cigarettes, chewing gum and even shaving cream.

"Toronto is really quite civilized," say two of the delegates from Vassar College to the Model Assembly.

1931—Ronald Grantham, editor of "The Ubysses", official undergraduate paper of the University of British Columbia, is suspended for publication of criticism of government policy. The "Ubysses" has ceased publication until the matter has been settled.

1932—The University of Toronto today meets to pay final tribute to its retiring president, Sir Robert Falconer. Sir Robert has held office since 1907.

1933—Fred Fleming, S.P.S.I., tells his classmates of the advantages of C.O.T.C. over physical training. Judge Martin passes sentence that prisoner be ducked in the pool. The sentence is efficiently executed by his classmates.

## This Capitalism

So much has been written about the present economic system since criticism of the capitalist system became popular, that it is difficult to avoid being trite. Nevertheless, the question is of such importance that even at the risk of being repetitious we shall continue and let who will cry "hackneyed".

This capitalist system is not eternal nor immutable. It is not divinely inspired, nor yet is it the last word in social organization. The capitalist system had its period of birth, its period of development and has now reached the period of decay.

Why should there be a situation like the one we suffer under in Canada at present, where millions of able-bodied workers, capable and willing to work, are being consumed by idleness and hunger while excellent machines and mountains of raw material are lying around unused. Is it so difficult after all for human genius to organize a constant flow of goods which would satisfy everybody's needs with nobody compelled to go without food, clothing and shelter?

We cannot blame this plight of millions on "natural forces". There is nothing *natural* in such a situation. It is not natural that men should go hungry while the means to produce are close at hand. It is not natural that there should be poverty in the midst of plenty. It is not natural that milk should be dumped into rivers while babies are starving. It is not natural that the most ingenious means of production and transportation should be rusting away while those who produce them and can operate them are being wasted away by starvation and disease. All this is most unnatural. It is insane. It is inherent in the present system of production. It is capitalism in its modern form.

What is capitalism?

Capitalism is a system of society where all means of production, factories, mines, railroads, are in the hands of private owners called capitalists, while labour power is a commodity which has to be sold to the owners of wealth for use in production in order that the worker may make a living. The capitalist will sell the produced commodity in the markets if he can produce more cheaply than his competitor, his profits will be larger. This is why he drives the worker faster and faster. This is why he introduces labour-saving machinery which results in so-called "technological unemployment", which is another name for throwing out workers displaced by a machine. This is why he uses efficiency engineers and experts of every kind. He calls it industrial progress, but he does not think of progress at all. He thinks of profit. Every other manufacturer thinks of profit. Every other manufacturer speeds his workers ever faster and introduces newer and better machines. The result is that ever greater numbers of workers are being displaced, while the production capacity of the plant is enormously increased.

And here we have arrived at the source of the madness called capitalism. The numbers of actually employed workers grows smaller. The production capacity of the plants grows bigger. The wages of the workers are being cut in order that the unit may produce more cheaply than the other, but together with this the purchasing power of the population decreases. Mass production goes on at break-neck speed, while the market shrinks. It seems inconceivable that anything like this should be carried on

by reasonable human beings, yet this is what actually was happening between 1922 and 1929. Canada was producing goods it could not sell either at home or abroad. Even at the very height of industrial "prosperity" this vicious discrepancy was noticed by sober observers. The structure was built on sand. The crash was inevitable. It was asserted that it was only a "downward re-adjustment". It was more than that. It was a disaster.

Let us now cast a critical glance at the whole situation. Is the present situation an accident? It is not. It is inherent in the very nature of capitalism. It is the outcome of an insane system where wealth is owned not by those who produce it, but by those who do not produce anything, who have amassed it out of the work of others; a system where production is directed, not towards satisfying human wants but towards making profits for the owners of wealth; a system where productive capacity increases vastly while the purchasing power of the people is being slashed; a system where the primary purpose of labour—to satisfy the basic needs of humanity—is completely lost sight of in the scramble for bigger fortunes, for fatter stock exchange slices and more ruthless "cleaning out" of the little fellow. Where there exist all these contradictions of capitalism, a situation like the present is inevitable.

## Women and Careers

Women have at the present time reached the highest point in their struggle for emancipation. All the professions lie open to them, they are on the verge of entering the long-forbidden domain of the ministry, they are trying to be influential in politics; there are even women explorers and women lion tamers. Women have wanted to show their equality, if not their superiority to men, and they have done so.

But the pendulum is beginning to swing the other way. Women are beginning to experience a vague feeling of having missed something, of having somehow been cheated. The freedom for which they strove so long and so valiantly has, like Dead Sea fruits, turned to ashes on their lips. *Women do not want to be free, they do not want careers.* At the bottom of her heart, whether she admits it or not, every woman regards her career merely as a temporary means of support while she looks around and finds herself a husband.

The difficulty is that woman, having achieved this wonderful freedom, is at her wit's end to know how to get rid of it. Nowadays the world expects her to choose a career and support herself. She is made to feel that she is betraying her sex if she prefers to be old-fashioned. Retributive justice!

She would be far more sensible if she would admit the truth to herself and look upon her college course frankly, not as a preparation for the career of a doctor or a lawyer or a politician, but as a preparation for the one career which was intended for women, that of being a wife and mother. This would by no means restrict her studies to household science and child psychology. Any course will be valuable to her if it enables her to carry on an intelligent conversation with her husband. It is her duty to provide the cultural side of his life.

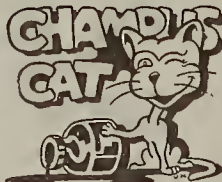

After all, it is a man's world and woman's share in it is only to influence the men with whom she is in immediate contact, her husband and her sons. And now she is beginning to realize that her indirect influence has far greater weight than any great deeds she may make through her own efforts. The Lord made men and women essentially different and He knew what He was doing. The sooner our proud, obstinate, emancipated females admit that, the better for the well-being of the world. Hitler and Mussolini and Mayor Houde have a lot of truth in their arguments.

According to Aristide Briand, says Professor Pollock, the most irregular verb in the world is the verb "to disarm", which is conjugated by statesmen only in the future tense and the second person.

A Chicago Tribune feature writer claims Hoover is the father of the New Deal. But what will the G.O.P. have left to kill when the prodigal son returns?

Rumor now is that American students in Germany, forced to join the Hitler demonstrations at the colleges, raise their hands in the correct gesture and sing out in chorus, "Hed Hitler!"—Minnesota Daily.

Munitions salesmen have a cheerless business. Every shipment they sell is loaded down with mothers' tears, widows' grief, and orphaned children.—Daily Texan.

Mayor Simpson says it was a waste of money stationing a cop on every intersection to make pedestrians obey the traffic lights. So it was, and there is a much better system. Bloor and Yonge is one corner where they'll never need a policeman to make people wait for the green light—not so long as that beautiful, colossal and inspiring mural is allowed to remain on its wall on the south-east corner, advertising Lifebuoy Soap.

The girl in the ad doesn't worry because she uses Lifebuoy. Pedestrians on the two northerly corners don't worry because she doesn't worry, and are quite content to wait for the light to change three or four times. Nobody minds waiting for a west-bound Bloor car or a south-bound Yonge car, any more; and if the T.T.C. Inspector on the corner has a hard time keeping his mind on the job, there are only half as many complaining passengers these days, anyway.

The other day as we were passing (all right, then, standing there) a little boy shouted out loud at his father, "Daddy, what's the lady undressed for?" Papa was crimson mad and indignantly told the boy to hush up and quit asking questions. This, however, we consider to be entirely the wrong attitude for him to take, for this type of education should begin in early youth. You can't learn too soon to guard against B.O.

So much for pedestrian traffic. The manufacturers of the new model cars are all doing their best to provide every comfort and convenience for prospective buyers. For instance, billboards all over this village are plugging the Ford slogan, "a front seat ride for back seat passengers".

And what everybody wants is a back seat ride for front seat passengers.—The Muddy Yorker.

## ART, MUSIC & DRAMA

### Friday Afternoon Recital

Poul Bai, baritone, has arranged an interesting programme of Scandinavian songs for this week's Friday Afternoon Recital to be held at 5 p.m. in the Music Room of Hart House. The programme is as follows:

Knud Lavard (historical ballad) .....  
Niels Wilhelm Gade  
Oluf's Ballad (1817-1890)  
(folk-song from "The Erlking's Daughter")  
Sunset ..... Peter Heise  
Battle Song (from "Bertran de Born") (1830-1879)  
Serenade ..... P. E. Lange-Muller (1850-1879)  
Shine bright and clear, oh sunshine!  
Serenade ..... Halfdan Kjerulf  
My heart and my lute (1815-1868)  
Amber ..... Christian Sinding  
The cry of a bird (1855- )  
Rest over the world thou deep peace .... Emil Sjogren  
Farewell to the south (1858-1918)

### Toronto Conservatory

Last night, Sara Barkin coloratura soprano, demonstrated to a well filled hall that her previous flashy successes were not just the product of a carefully schooled singer, but were the expression of a highly gifted and sensitive artist. Despite the fact that Miss Barkin had to leave her sick-bed, due to a most inopportune attack of the flu, from which she has not yet entirely recovered, she was still able to convey to her listeners a delightful group of songs with varied interpretations.

The singer did not attempt to startle her hearers with any amount of vocal gymnastics. She confined these to the aria, "Ah, fors' e lui che l'anima" from La Traviata by Verdi. The songs were well adapted to her voice, which was of a smooth lyrical and velvety quality. Miss Barkin exhibited this most emphatically in her group from Franz, Tschaiowsky, Mednikoff and the pleasing "Impatience" by Schubert. Any dramatic tendencies were negligible.

**Hart House Theatre**  
Anaesthetic, both local and general, is being administered by the Medical Society of the University of Toronto at Hart House Theatre these nights and tonight is the last chance. The patients are not particularly unsuspecting nor difficult to gather into the theatre, for the anaesthesia is neither new nor particularly malodorous. It is none other than Daffydil (1) with its indistinguishable but mighty nectar, vaguely reminiscent of laughing gas, N2O to some.  
However, as a dramatic critic, we must admit that the dose is not regular and some phrases are much more pleasant than others. Each year and the Medettes put on a skit and the one which, in the opinion of the judges is the best, wins an award symbolized by a large trophy. Our bunch of artificial daffydils goes to the third year who present *Nuts to You Josephine* "which is almost an opera". This skit is the most consistently humorous and original. Fourth year's production is one in which staging is of paramount importance, which makes the skit more genuinely interesting, if not so laugh provoking.  
J.N.

**St. Thomas Church**  
The Rev. F. H. Cosgrave, D.D., Provost of Trinity College, will preach at the 11 o'clock Choral Eucharist, which will be sung to a brilliant modern setting by Lovelock. The motet "O Lord our God" by Dr. Percy Buck, will be sung by the Choir boys. At the Choral Evensong at 7 p.m. the Rev. J. R. Davies, B.A., will preach. The anthem will be "Holy Art Thou", adapted to Handel's celebrated "Largo".

### VARSITY HOCKEYISTS TO MEET QUEEN'S

Attempting a last stand before the conclusion of the season, Varsity's entry in the intercollegiate hockey race will face Queen's here on Saturday night. Although the plumes have been definitely handed to McGill, tomorrow's contest will be by no means bereft of interest, as a win for Varsity will help remove some of the allusions cast upon their hockey playing abilities, while Queen's are right in the hunt for the Senior B title and are anxious to continue their winning streak.

The Queen's team will bring back memories of last autumn's strenuous rugby campaign as a number of their players are also stars on the gridiron.

Johnny Munro, who also bolsters the rugby team, turns in an effective game for the Gads. The work of Mac Forsythe in the Tricolour net bordered on the sensational on the occasion of the Varsity invasion and he should give the fans something to talk about in the game tomorrow.

### A Message to College Men

### Knox Again Victorious In Basketball Series

Wycliffe Squad Outclassed  
As Opponents Pile Up  
Score

**FINAL COUNT 34-18**

Knox College basketball team chalked up its third straight victory last night in the upper gym by trouncing Wycliffe 34-18. The Presbyterians completely outclassed their rivals, and held the whip hand throughout.

The first half produced little to enthrall about, with neither squad able to get under way until about midway through the session, when baskets by Shortt and Nielson started the ball rolling. Wycliffe replied with a field goal and a foul shot by Fairweather, but for the remainder of the period had to be content with four points, while Knox gradually added to their total to lead 14-7 at half-time.

Wycliffe came out in the second half determined to do or die. With Fairweather leading the way they garnered five more points to make the score 16-12. Knox were not to be outdone, running in six more baskets to take an insurmountable lead and from then on scored almost at will, completely bewildering the Anglians with their barrage of shots.

For Knox, Mutrie, Shortt and Nielson were the high-point-getters, while Fairweather with 15 points was outstanding for Wycliffe.

Wycliffe: Fairweather, Kaminsky, Emmet, Ruche, Chevis, Newton-Smith, Patterson.

Knox: Shaw, Mutrie, Shortt, Nielson, Marsh, McLeod and Dunne.  
Referee: Himel.

dered on the sensational on the occasion of the Varsity invasion and he should give the fans something to talk about in the game tomorrow.

In the last encounter Varsity played heads up hockey and looked as if they could win on their home ice. However, that is a debatable point that will only be settled by plenty of action.

## SPEAKING OF SPORT

By B. J. McGuire

Tuesday will again see the boys in action who did such an effective job of making things cheerful between the periods and before and after the football games last fall. The reference is to the Varsity band, and the activity will take the form of their annual band concert at Convocation Hall. The bugle brigade always produce an entertaining evening, and this year they are making special preparations in anticipation of a larger mount of customers.

The Blue swimming team, which competed with such success in their excursion through Buffalo and Rochester some weeks ago, will try their hand at Montreal in the annual meet there this weekend. While the Red swimmers won last year's encounter, the times being turned in at the practices have tended to make the boys more optimistic around the Hart House pool. One of the features of the McGill meet, will be the return to the wars of Clayton Bourne, an outstanding sprinter several years ago. Pete Bourne, another of the famous swimming family, will also be in action.

At home the local entertainment hunters will have the opportunity of seeing either Varsity bring the hockey season to a close with the final engagement with Kingston, or the annual gym meet, which is this year held at Hart House. While both activities merit support, the gym meet should prove quite popular as it will feature a dance following the meet. The usual 35 cent admission will be charged.

The McGill Redmen, possessors of the impressive title of North American Intercollegiate Hockey Champions, are not faring so well in their progress toward the Allan Cup through the Q.A.H.A. The Redmen were stopped by Ottawa 2-1 on their home ice, and will have to face a one-goal handicap in their second game Saturday. This contest will be played in the Ottawa Arena, and the Senators are now favoured to capture the series in straight games, thus eliminating the college team from further competition.

### U.C. Team Succumbs To Powerful O.C.E.'s

Teachers Hold Top Position  
in Interfaculty Baseball  
Series

**SCORE, 11-4**

O.C.E. maintained their position at the top of Group II of the interfaculty baseball series yesterday, extending their string of victories to four at the expense of Senior U.C. The Teachers were just too powerful for the U.C. squad, as the decisive score of 11-4 indicates. Fitton, O.C.E. pitcher, again turned in a fine performance, being credited with eight strikeouts.

The U.C. pitcher held the hard-hitting O.C.E. team for the first two innings, but had a disastrous relapse in the third, when he walked four men and allowed four more hits, which gave the Bloor St. boys a total of eight runs.

U.C. made a spirited rally in the fourth and final inning, notching two more runs, but were unable to hold the pace and succumbed to Fitton's deceptive hurling, coupled with some good fielding.

U.C.: Laskin, Pivnick, Cole, Gluskin, Ganz, Haig and Lyman.

O.C.E.: Duncan, Blackford, Costigan, Thorman, Dool, McNeil, McCartney, Dilworth, Miller and Fitton.  
Referee: Crockower.

### VARSITY PLAYS HOST TO MCGILL GYMNASTS

Parallel and Horizontal Bars,  
Horse and Mats Figure  
in Competition

Tomorrow night Varsity will play host to the McGill gymnastic squad in the big gym at Hart House. The intercollegiate gymnastic meet comes off only once in every two years and this year it is Varsity's turn to put on the show.

Commencing sharply at 8 p.m. the two teams will begin going through the graceful movements which have taken all season to perfect. The pieces of apparatus to be used are the parallel bars, the horizontal bar, the horse and finally the mats. Each competitor, that is, every member on both teams,

## THE SPORTSWOMAN

By M. A. F.

This is the big night in Kingston as far as basketball is concerned. The Varsity team left on the nine o'clock train all pepped up to go down there and give every bit of fight they have to bring back the Bronze Baby to the place where they all feel it really belongs. They are a smart little outfit—how about using your powers of superconcentration (since you cannot be on deck to cheer them on to victory) to bring them through tonight's encounter and on to the final battle tomorrow afternoon. And we will try to yell for all you fans when we are down there watching our girls play real basketball for Varsity.

Coach Jimmie McPherson was more pleased with Wednesday's hockey practice than with the one on Tuesday. But he would like to see still more enthusiasm. It would be a pity if his four hopes in this year's team are crushed. There are only three more practices before the big event and the next one is at 1 p.m. sharp today. A large turnout will be more than cordially received.

A hockey game with a grad outfit is definitely on the books; in fact the date has been tentatively set for Wednesday, March 28. Pat Thompson will be managing this squad and will play on it herself. You will also have a chance of seeing such intercollegiate veterans as Fran Crooks, Weston, Billie Fowler and possibly Margo Thompson. This contest will definitely be excellent practice for our all-star sextet.

The badminton tournament will be played on Thursday, March 7 at the York Club. That means there is less than two weeks—how about finishing up your tournament at U.C.?

will be required to do one movement on each of the four pieces of apparatus named.

The teams will be composed as follows for McGill: Messrs. G. T. Beall, J. B. Hodgson, C. M. Holland, A. H. McCarthy and R. H. Walker; for Varsity: Messrs. C. B. Kirk, J. L. Farrar, E. S. MacDonald, F. Buck, A. B. Lewis and G. F. Beard. The judges will be Messrs. R. Bonney, N. Keefe and F. Sievert. J. E. McCutcheon and W. H. Martin, Varsity's gymnasium instructors, will be the scorers.

The officials have made preparation to handle a large crowd as the intercollegiate gymnastic meet has always been put on for fairly large and appreciative audiences. To make the evening a perfect success Karl Mueller and his Varsity Entertainers have been engaged to provide music from 10-12 p.m.

## Years from now--

You will still be proud of that crest bearing, circle of gold on your finger. Souvenir, memento—call it what you like—it represents happy hours, hard work—achievement.

May we have the pleasure of supplying your Crest in Ring or Pin form—either University or Faculty—or—combined.

**A. E. EDWARDS**

Insignia Jeweller

ELGIN 3609

### Professor Gilbert Jackson

Appointed Advisor to Bank  
(Continued from Page 1)

chiefly with work in the overseas Empire. At the present time three new banks are in process of creation, including the Bank of Canada, which will fall within his special field.

Sir Ernest Harvey, deputy-governor of the Bank of England, in evidence given before the British Macmillan Committee, referred to a group of "advisors". These are men with various kinds of special knowledge, of value in conducting the operations of the bank, who have been gathered together from outside the bank over a number of years. It is in just such a capacity that Professor Jackson is being called to England.

Professor Jackson is a graduate of St. John's College, Cambridge, who came to Canada in 1911 as a lecturer in economics at the University of Toronto. He was made head of the department in 1927. In 1935 he was appointed secretary to the Ontario Commission on Unemployment and became Chairman of the Unemployment Service Council of Ontario in 1922-23. He was editor of the Canadian Forum for three years, from 1920 to 1923. He served in the ranks during the war in the Royal West Kent regiment and later received a commission in the Royal North Lancashire.

Professor Jackson expressed pleasure at the prospect of obtaining first hand knowledge of the other Dominions and of India and of keeping in touch with Canada. He expects to return here at frequent intervals.

### Parliament Resolves Toronto Not Detriment to University

(Continued from Page 1)

in official circles, opened the debate by maintaining that Toronto did not supply the correct background for the University. Mayor Simpson had said that Toronto was a cosmopolitan city, but, in reality, claimed Mr. Mirsky, this was the result of the presence of the University. Cultures of all nations, sects and creeds are discussed in the University, but where else in the country can such a bigoted, narrow-minded and convention-bound city as Toronto be found? The newspapers are a disgrace to the country.

A University can either be situated in a large city or in a small town. McGill accomplishes the first successfully, while Harvard, with a compact student body, is a good example of the second. Students should mix with students and not with townspeople. The University should develop a life of its own.

Hon. Bernard Shaffer, leader of the opposition, while admitting that Toronto is not ideal, asserted that it has considerable geographical advantages, and is unrivalled in its facilities for study. It has produced men foremost in all walks of life, and it can attract students from every corner of the globe. It possesses sixteen libraries, with books to the value of two and a half million dollars. It has museums and laboratories, and above all, it has Hart House, the pride of Toronto, and the envy of the world. Toronto can attract to it such artists as Chalipina and Padewski, who add enormously to the cultural facilities offered to the student body.

### Blue Basketeers Playing

McGill Redmen in Montreal

(Continued from Page 1)

be trying to get their initial win especially against Varsity's strong crew.

In Kingston the Blues will have a very stiff fight on their hands as the Tricolour lads are veritable trojans on their home floor. If Gold gets to the Limestone City in time for the game a victory for Varsity would not be too much to hope for. However, without him the Tricolour aggregation may have a royal chance of handing Varsity their first loss.

A Captain from some southern sea  
Said: "I'm just as pleased as can be,  
For I'm back on the ocean  
And I haven't a notion  
Of smoking my brand, you can see."

S.C.M. conference, "Missions and the Student".

SATURDAY, FEBRUARY 23  
S.C.M. week-end conference, "Missions and the Modern Student".

Federation of Young Canada Conservative Clubs annual meeting in the Royal York Hotel.

### SUNDAY, FEBRUARY 24

S.C.M. week-end conference, "Missions and the Modern Student".

7 p.m.—S.C.M. chapel service in Emmanuel College. Speaker: Jesse Wilson.

9 p.m.—Wymilwood musicale. Guest artists, Patricia Lundy, soprano, and Harvey Whiting, violinist; John Bates, John Copp, Charles and Dick Joffe, vocal quartet.

### MONDAY, FEBRUARY 25

8:15 p.m.—Youth Unit, League of Nations Society, meeting at The Friends Meeting House, 109 Maitland St.

6 p.m.—Nominations for Hart House Debates Committee close.

7:45 p.m.—Honour Science Club members' party at the Women's Union, 79 St. George St.

### TUESDAY, FEBRUARY 26

12:00—Vic S.C.M. The topic "Significance of Life" will be discussed by Miss Gertrude Rutherford at Wymilwood.

8:15 p.m.—Dr. J. R. P. Slater will speak in Hart House Library on "My Leisure Reading".

8:15 p.m.—The annual concert of the Varsity Band and presentation of skits in Convocation Hall.

8 p.m.—Combined meeting of University, Trinity and Victoria French Clubs at Wymilwood. Debate, music, charades and refreshments.

### WEDNESDAY, FEBRUARY 27

7:30—Victoria Junior-Senior dinner in Burwash Hall. Meet up till 7:15 in Annesley Hall.

6 p.m.—Nominations for Hart House Standing Committees and Camera and Squash Racquets Committees close.—Hart House Debates Committee elections.

### FRIDAY, MARCH 1

9:30 p.m.—Dental At-Home in the Roof Garden of the Royal York Hotel. Music by Karl Mueller and his Varsity Entertainers. Dancing 9:30 till 2.

### SATURDAY, MARCH 2

8:15 p.m.—Victoria College Dramatic Society At-Home in Wymilwood. Toronto and Regional Student Peace Conference, Lecture Hall, Economics Bldg. All campus organizations are invited to send delegates.

### SUNDAY, MARCH 3

Toronto and Regional Student Peace Conference, Lecture Hall, Economics Bldg. All campus organizations are invited to send delegates.

### WEDNESDAY, MARCH 6

Hart House Elections.  
8 p.m.—Commerce Club smoker. H. H. Hallatt to speak on the "Wage-Dollar Money System".

### THURSDAY, MARCH 7

University College Freshman Dance, Maitney's Galleries.

## ART, MUSIC AND DRAMA

(Continued from Page 2)

voicing. We award honorary mention to Medettes, who put on a good show. Sixth year under the pleasant yolk and cloak of tradition make merry with the idiosyncrasies of the medical faculty to the evident joy of all.

Not unimportant to the general pleasure derived from Daffydil is the added phenomenon of Epistaxis whose trickle tickles and stains many a feminine face crimson.

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at either the men's office in Hart House, or at the women's office in University College. No notices will be taken over the telephone, after 6 p.m. notices must be taken to the Press Building. Notices for the Bulletin Board are limited to ONE insertion only.

### RIFLE ASSOCIATION

Tonight is the last chance to shoot the last Mitchell Cup target of the season. The last spoon shoot will be held next week. The annual Novelty Match will be announced later.

### VICTORIA ELECTIONS

Nominations for presidents and associate presidents of all mixed federated societies, Bob committee, and for the permanent executive, and IVth year, must be handed to the chief returning officer by Tuesday, 5 p.m. Nominations forms in Book Bureau and college office. See Victoria bulletin board for further particulars.

### T. I. C. C. U.

Sat. Feb. 23rd. At the home of Miss Yvonne Ritchie, 170 Spadina Rd. Portion for study, 1 John 3:19-4:1 inclusive.

### STUDENT PEACE MOVEMENT

Mrs. Angus MacInnis will speak on "The C.C.F. and Peace" in Emmanuel College residence common room, Fourth House, on Friday at 8:15 p.m. sharp. The meeting will be well worth attending. Everybody welcome.

Ontario College of Education annual At-Home, Friday, March 1, 1935, Hart House. Music Room. Hal Taylor's orchestra.

### 376 VICTORIA SKATING

This Year Victoria skating party, postponed from Feb. 2nd, will be held at Varsity Stadium on Saturday afternoon if the rink is open. Meet at the southeast corner of the rink at 2:30. ("Dutch treat"). Refreshments at Annesley at 4:30. Members of other years invited.

### TORONTONENSIS

Persons concerned are reminded that tomorrow is the absolute deadline for all write-ups, group and team photographs for *Torontonensis*. Please hand these in at once to the S.A.C. office in Hart House.

### U.C. FOLLIES

Chorus and principals will rehearse at the Women's Union. Saturday at 1:30 p.m.

### U.C. MUSIC CLUB

Full rehearsal on Saturday afternoon at 2, Women's Union, for "Good News". All members of the cast to be present, chorus, dancers, principals.

### U.C. PLAYERS' GUILD

Several members of Dame Sybil Thorndike's company will be present at a tea to be held in the Women's Union at 4:30 p.m. today. Members of the Players' Guild and their friends will be welcome.

### Second Alexander Lecture In Series Given by Stoll

(Continued from Page 1)

her heart first opens, takes the place of voluptuousness and lasciviousness, which are not desired on the stage, Shakespeare's lovers kept their distance in reality and in thought; there is little suggestion of a kiss or caress. Instead they used merriment and combats of wit, for was not Aphrodite the Goddess of Laughter as well as of Love?

In a detailed discussion of Portia, of "The Merchant of Venice", Professor Stoll pointed out that in spite of her stateliness and dignity she does lapse into school-girlishness at times, Shakespeare's high-born women, of whom Portia is one, have been described as "long-legged, loose-mouthed hoydens in rompers". But this is not altogether true. Young people may fall in love at first sight but they never forget their decorum.

Beatrice, heroine of "Much Ado About Nothing", was described as an artist in conversation. Professor Stoll thinks that women are now more like men. They do things; they can not talk. Some room for argument may be found here.

### VARSITY CHESS CLUB

The annual Staff-Students Chess Match will be held at 7:45 p.m. Tuesday in the South Common Room, Hart House. Members of the club wishing to play are requested to get in touch with some member of the executive today.

### V. C. U. ELECTIONS

Nomination forms for executive of V.C.U. (only) are in college office and Book Bureau. Please hand all nominations to Ross Macdonald by today at 5 p.m.

### T. I. C. C. U.

Saturday, Feb. 23rd. 8 p.m. The Toronto Intercollegiate Christian Union meets at 170 Spadina Ave. Discussion based on the third and fourth chapters of John's first Epistle. Everybody welcome.

### VICTORIA CHAPEL SERVICE

The final sermon in the series "The Approach to God" will be given on Sunday, February 24th at 11 a.m. by Rev. George Kilpatrick, D.D. The subject will be "The Way of the Will." All students and graduates and their friends are cordially invited.

### VICTORIA SENIOR FORMAL

The Victoria College Senior Formal will be held in Wymilwood, Friday evening, February 22. Dancing will commence at 8:15 p.m. The men and women of 3T5 and also those persons of 3T6 who are graduating this year, are asked to get in touch with any member of the executive to complete necessary arrangements.

### LIBERAL CLUB

Mr. W. L. Houck, M.L.A., will be the guest speaker at a luncheon meeting of the Liberal Club which will be held next Thursday at 1:30 p.m. in Hart House. All University men who are interested are invited to attend.

### MEN'S GLEE CLUB

The final rehearsal before the Concert will be held tomorrow evening, Saturday, February 23rd, in the Great Hall, Hart House, at 7:30. A full attendance is requested for the Concert. Sunday, February 24th, members please assemble in the Debates Room at 8:15.

### VIC DRAMATICS

Try-outs for the next one-act play of the Victoria College Dramatic Society on March 6th will be held in Alumni Hall this afternoon from 4 to 6 p.m. Any members of the Society interested are invited to turn out.

### STUDENT FRONT

New publication of the Student Peace Movement *Student Front*, goes on sale on the campus Monday.

### Vital Interest Shown In Portuguese Language

(Continued from Page 1)

An unrivalled authority on the subject Professor Cano pointed out that contrary to popular opinion the forty-five million people of Brazil speak Portuguese. This immensely fertile region, where medical research flourishes, is on the verge of development and will soon have a tremendous commercial influence upon our nation. Already Canadians own most of the public utility concerns in the country.

The vast colonial expansion of Portugal has diffused her language to India, Africa, Oceania, and South America, carrying a cultural influence whose importance we hardly realize. The idiom is said by Professor Cano to be "sweeter and more liquid than Spanish"; and it is the medium in which is expressed Europe's greatest modern epic poem: *Os Lusíadas* by Camoens.

When interviewed by *The Varsity*, an important representative of student opinion said: "I have found scarcely a student interested in Spanish or Italian who is not eager to take Portuguese as well."

Professor Peterson sees an extreme interest among students in the language, judging from the large attendance at Dr. Wilf Magellanes' course of lectures here last year.

## Pull Yourself Together!

The grandest spring frock won't knock the campus cold, you know, unless your figure's in line. That's why we're selling "Sensations" to our co-ed clientele. They're smart, tubbable "Lastex" pull-ons — boneless and light — and they work!

### "POUFF"

Sensation girdle—a few ounces of openwork "Lastex" with Callipygian double-knit back. Sizes 25 to 30, \$2.50

### "WIFF"

Sensation brassiere — lacy "Lastex". Sizes to fit 30 to 36, \$1.25

### "FLIPS"

New Sensation pantie-girdle for sports—all "Lastex", marvelously comfortable and efficient. Sizes 25 to 29, \$3.00

### "SCAMP"

Sensation brassiere — "Lastex" and net on clever uplift lines. Sizes to fit 30 to 36, \$1.75

## 'TWIXT TWO

Dear Phyllis:

I've just come across an interesting little book by Milne called "Peace with Honour". Milne writes such things as "Winnie-the-Pooh" and plays and what not, but this book has a very serious purpose behind it. Since you get so annoyed at people taking discussions seriously, you will be delighted to hear some of the man's more practical schemes.

From the four Great Powers likely to be concerned in the next war, Milne would pick out forty representative men who would have to die at the moment war was declared: if they wouldn't commit suicide they would be shot. He suggests such men as Mussolini, (the sole representative from Italy), Hitler and a couple of others from Germany and quite an assortment from Britain, such as Baldwin, Macdonald, Simon and several other big shots to be chosen by lot. A forty-first victim would be a common citizen, also to be chosen by lot.

It's an old idea, I know, but so nicely expressed! One can't help wondering if it would make any difference at all, because we are told that certain ones of the British ministers who were responsible for the declaration of war in 1914 took their duty very much to heart and felt their decision was inevitable.

### Industrial Control Part Of Social Programme

(Continued from Page 1)

public utilities. We have a definite plan for socialism; and upon election we should proceed to abolish the Senate," further stated the representative.

Our industries, stated Mr. Connor, must be planned. In Copenhagen, Denmark, milk is distributed like letters, from door to door. In Toronto on one street there are daily deliveries by five different milk associations. On an average 800,000 people inhabit Toronto; yet through the bread baking facilities now in operation 4,000,000 people could be supplied. Either industries must be controlled or the human race must cease to exist.

In his outline of the history of the Socialist party in Canada, Mr. Connor stated that English methods and Robert

I hear that the Student Peace Movement is publishing their little journal shortly. One can't help wondering at the uselessness of any fuss on the part of a handful of students; such tremendous forces are at work on the side of militarism. Strange to say, I don't think munitions' money is the biggest factor; no, it is rather ignorance and bigotry on the part of people all over the world. The most common attitude and probably the hardest to overcome is that war is inevitable and therefore the individual had best be prepared by knowing how to shoot, and how to cry down the pacifist on the charge of treason. I know men influential in Ottawa who have weak-kneed notions like that; but perhaps more interesting there are certain students in the Medical faculty who are taking that course, just so that they will be behind the firing-line; that isn't to be condemned, but just imagine the hopelessness of a person's future, when he expects nothing better than that for himself and the world.

I hope you'll read the book; it has an interesting chapter on the Church's attitude to war. It says: you countenance murder for your country but why would you not allow adultery, for the more efficient breeding of future soldiers!

—Ted.

Owen had greatly influenced the trend of the movement. In Ontario the first Socialist colony was based on the Marxian philosophy and instituted at Kettle's Point by Sir John Colborne more than one hundred years ago.

When the group comprising a trade union is composed of an immigrant element, the favoured policy is independent political action and Socialism. In an association including members from rural Ontario, however, independent political action is not the platform, the speaker concluded, stressing the fact that Socialist propaganda here must be stressed extensively.

During the business discussion it was announced that Mr. Woodsworth of the C.C.F. movement, would address the next gathering; and a motion that the executive draft a constitution for the next meeting was adopted.

### Library Evening

The first "library evening" held three weeks ago was so successful that a similar evening has been arranged for tomorrow. On this occasion the Rev. Dr. J. R. P. Selater, well known for his wide reading and deep appreciation of literature, will speak informally at 8.15 p.m. in the library of Hart House on "My Leisure Reading". Smoking will be allowed.

## ANTI-WAR EXPERTS GIVE VIEWS TODAY

Professor W. Woodside Contributes Article, Also Havelack Ellis

### CONGRESS IS NEARING

On Monday, the *Student Front against War*—official publication of the Student Peace Movement of the University of Toronto—goes on sale on the campus. Publication entailed a great deal of hard work and considerable expense on the part of the executive, who have crystallized therein the aims and achievements of their organization. In the words of the editor, its purpose is "to give different opinions and attitudes on the causes and effects of wars; to draw attention to the coming Student Congress against War; and to attract delegates to it from Canadian universities, high schools and campus societies."

Highlights of the issue are an article entitled *Defense against War*, by Professor J. B. S. Haldane, from the *Daily Herald*, London; an excerpt from Havelock Ellis' *War and the Fighting Instinct*; and a report on the World Student Congress against War and Fascism. Professor W. Woodside, (Continued on Page 4)

## NEWS OF THE WORLD IN BRIEF

Ascension, Paraguay—Refusing to accede to demands that she accept its peace proposals in regard to the Chaco War, Paraguay has withdrawn from the League of Nations.

Paris—Six ships sent out calls for aid as tremendous gales stormed the North Atlantic and the Bay of Biscay.

Southampton—For twenty years blue-ribbon speed queen of the Atlantic, the *Mauretania* has made her last regular crossing; her fate is undecided.

London—Plans are under way for a one day strike of one hundred thousand persons as a protest against dope restrictions.

New York—At the U.S.A.A.U. indoor track meet Toronto's famous athlete, Hank Cieman, smashed the world's record in the 1,500-metre walk. Four other world marks also fell.

Buenos Aires—Pedro Candiotti, Argentine swimmer, covered 258 miles in 87 1-2 hours of continuous swimming.

London—The Chancellor and Foreign Minister of Austria arrived here to discuss vital European affairs. A Hapsburg restoration is rumoured.

### Capital City Speakers Prove That Exploitation Is Inevitable

### FRENCH AND ENGLISH USED

Toronto's steady stream of victories in the Canadian intercollegiate radio debates came to an abrupt conclusion last Friday night when the University of Ottawa captured the Dominion title in the final debate of the series which brought together the winners in the French and in the English sections.

This made for an extremely interesting feature in that it was conducted in both of the official languages of Canada; one member from each team spoke in English and one in French. The subject under discussion was: "Resolved that exploitation is inevitable in the present-day structure of Canadian industry."

Mr. Jean-Jacques Tremblay, the leader of the team from the capital, spoke in French. He pointed out that Canada is a new country and that in a new country, development rests upon the efforts of foreign capitalists. As a result we have exploitation which is not in the interests of the new country but of people abroad. In Canada we are emerging from this primary stage to find that the nation is being left in the hands of a class that has only its own interests at heart and have put the country into social slavery, direct exploitation. (Continued on Page 4)

## ROWE IS CYNICAL OF LIBERAL PARTY

### LAUDS DOMINION PREMIER

Introduced by President John Jeffries as the man "who will very shortly we hope, be the leader of the Conservative Party in Ontario", W. Earl Rowe, M.P. from Dufferin-Simcoe, addressed a luncheon meeting of the MacDonald-Cartier Club on Friday. The speaker launched into an attack on the Liberal policy of "big promises" which would prove ridiculous if carried out. "In the House of Commons I heard Mr. Hepburn lead an attack on Bennett's 'depression policy', declaring he would let the C.P.R. go bankrupt and he would let the three western provinces (Continued on Page 4)

### SCIENTIFIC RESEARCH RELATED TO INDUSTRY

At the annual banquet of the Mechanical Club held Tuesday night at the Engineers' Club, the students of the little red schoolhouse were fortunate in hearing Major Anthes, a prominent Canadian engineer. Major Anthes, talking on the subject, "The Relation of the Mechanical Engineer to Present-Day Civilization", stressed the fact that the number of capital branches was increasing despite the depression.

The importance of scientific research in industry was pointed out. "An industry without industrial research necessary to keep them abreast of the times is doomed," he said.

Major Anthes ended his talk with the prospects for our engineering students. Some very interesting moments were supplied, at the expense of several of those present, by a very capable magician.

### H. H. Nominations

Debates nominations close today at 6 p.m. Nominations for the standing committees and the Squash Raquets and Camera Committees close this Wednesday at 6 p.m.

## MISSION MEETING HEARS WILSON

Speaker Stresses Personal Interest, and Human Kinship

### HUMANITARIAN ASPECT

"Student interest in missions must be personal, not merely academic. Interest is too scientific generally: we must get at the personal implications," said Mr. Jesse Wilson in his address, "Why Missions?", at the Women's Union on Saturday afternoon. Mr. Wilson was the leader and chief speaker of the Student Christian Movement conference held Saturday and Sunday.

Mr. Wilson said he did not expect all the students at the conference to be missionaries, but it was his avowed purpose to attract some of them to that vocation. "We must realize the kinship of the human race," continued Mr. Wilson. "I believe there is more psychological difference among the people of one race than between two different races as a whole. The basic things are always the same. What will meet the deepest needs of one part of the world will meet those of another. Christianity has been proved universally valid, and missions are an attempt to give to others what people have found valid themselves."

Mr. Wilson related how closely missions are allied to the medical profession, for which missionary work really paves the way. Harmful superstitions are the cause of epidemics and ignorance of hygiene and sanitation. In teaching knowledge of healthy physical living as well as by preaching, the missionary is really a proclaimer of freedom.

## Reporter Helps to Thump and Blow As Band Prepares for Annual Show

Two score and ten blue coated musician's are taking their booting and thumping seriously, according to evidence displayed to *The Varsity* in the cellar of the handsome School Building the other afternoon, when we paid a surprise visit on the boys of the Varsity Band and asked about the rumour that, due to their popularity, Saul Rae and his Follies of 1934 had been engaged to prolong the fun at the annual concert, instead of Flo Zeigfield and his Vanities of 1936.

As we pored across the campus the sweet strains of what appeared to be the saxophones playing the "National Anthem", the bass playing "Asleep in the Deep", and the trombones playing "I'm Povey the Sailor Man" floated from the nether regions of the little Red Schoolhouse like the exotic perfume of a boiler factory. Throwing caution to the winds, we ventured closer, in fact reached the basement of the building without mishap, only to be greeted by two uniformed members of the Canadian Army Medical Corps. Our suspicions that a fight was

## KINGSTON WOMEN WIN IN STRUGGLE FOR 'BRONZE BABY'

Consolation Match Taken by Varsity in Basketball Epic

### FOUR TEAMS PLAYED

Kingston, Ont., February 23.—Queen's captured the "Bronze Baby" when they defeated Western by a 23-14 tally here this afternoon in the final game of the women's intercollegiate basketball series. In the preliminary matches on Friday night Western forced the Varsity squad to the lower berth of a 12-9 count and Queen's easily took the match with McGill 40-19. Varsity secured third rating by defeating McGill 25-18 in the consolation round at 3 p.m. today.

Mary Wong, Western's prize forward, as usual was spectacular in both matches. Kay Boyd, a newcomer to the Queen's forward line, played a beautiful game, especially in the final match. Kay Brown shone for Varsity. Mary Carre was right in there on Friday and Edie Ardagh showed her real (Continued on Page 4)

## ETHEREAL MAIDS STOLL'S THEME

Last Alexander Lecture on Three Cossamer Shakespeare Heroines

### USES THREE EXAMPLES

Imogen, Miranda and Perdita were the three characters dealt with by Professor Stoll in the last of this series of Alexander lectures, Friday afternoon. These women are all less humorous, more ethereal, than Shakespeare's earlier creations, he stated. Of Imogen he said that she possessed the simple grandeur of her rank; some have called her a "bit of a fool", G. B. Shaw has declared her "enchanted" but says that her gullibility makes him wince, but Professor Stoll asserted that her (Continued on Page 4)

## BOTH MONTREAL AND KINGSTON SUCCUMB TO VARSITY SQUADS

Toronto Men Cop Senior Intercollegiate Basketball Series with Fourteenth Consecutive Victory to End McGill's Four-Year Dominance

### INTERCOLLEGIATE SENIOR TITLE CINCHED

By W. A. Crockower

Montreal, Que., Feb. 22.—Lew Hayman's Varsity basketballers chalked up their thirteenth consecutive victory, this season as they took McGill's Redmen into camp by a 36-27 count in a very rough intercollegiate senior basketball game played in the spacious gym of the Montreal High School on Friday night. By their victory the Blues moved into a position where another win in the intercollegiate group would cinch the title for them.

Due to very inconsistent refereeing the game developed into a very rough affair since as soon as the players found that fouls were being committed and were not being penalized they began to employ every device to keep their opponents from scoring. A total of thirty-nine free throws were handed out by the referee, sixteen going to the Blues with McGill receiving thirteen. Varsity made good on ten of these free shots while the Redmen sank seven of their gift throws. To complete the scoring the Blues registered eleven baskets as McGill ripped the twine for field goals on ten occasions.

Don Young, playing in his last game before a home crowd, completely dominated the McGill attack. Although lacking some of the dash and skill which marked his game a few years ago Young engineered many plays for the Redmen. To end off his last performance Young went on a scoring spurge which fell a little short of overtaking Varsity's total. Brown and Small also played very well for the Redmen. The entire Blue squad again turned in an excellent performance. Minus the services of Phil Gold, their veteran defense star, Hughie Marks was shifted back from his forward position to team up with Joe Connelly on defense. The two led the Blue scorers with Marks getting eight points and Connelly seven. Bill Bodrug, Irwin Levy and Alex Munroe also were well up in the scoring totals. Red Gordon, although used for only a few minutes, turned in a very excellent performance.

Varsity, 36: Bodrug 6 and Levy 6, forwards; Crowley, centre; Marks 8 and Connelly 7, guards; subs, Munroe 6, Newman, Gordon 2 and Mencil 1. McGill, 27: Small 4 and Gormley 3, forwards; Young 6, centre; Bowes 2 and Brown 12, guards; subs, Wilson and Jeffrey. Referee: Sam Levy.

### DEBATES COMMITTEE ELECTION SLATED

Wednesday, February 27, 1935, is Election Night for the Debates Committee of Hart House. Debate will open at 8 p.m.; members who wish to vote will do well to be there at seven. For the first time, the 40-vote rule is in force, corresponding to the 300-vote rule for other committees, also it is ruled that the allegiance of continuing members will not bear on the election results. Carried over from this year will be Messrs. Rae and Marshall.

"That This House has confidence in His Majesty's Government at Ottawa" is Wednesday's subject. Speaking from the paper, in order, will be Mr. Miles Mayall, Mr. P. Weinberg and Mr. A. Pick of McGill, and Mr. Arnold Smith. Mr. Saul Forbes Rae will be Speaker.

Kingston, Ont., Feb. 23.—The University of Toronto's senior basketball squad definitely ended McGill's four-year reign as cage lords by defeating the Tricolour cagers here on Saturday night by a 32-21 count. The win definitely cinched the intercollegiate senior cage title for the Blues and marked their fourteenth consecutive victory this season.

The Queen's cagers, who before the game still had a mathematical chance of catching up with the fast-travelling Blues, put up a very stubborn defense which cracked, in the second period, under the terrific pressure of the Varsity attack. After losing an early lead Hayman's men caught up with the Tricolour cagers with eight minutes left to go and the score 19-19. From that point on the Blues' attack could not be denied and they went on to register the deciding points while they held the Limestone City crew to two free throws which Toronto's Harry Sunshine sank to end Queen's scoring.

The game was fairly evenly fought although a total of forty foul shots were handed out by Referee Millar who kept matters well in hand at all times and blew a very good game. Varsity sank only eight out of their eighteen free throws while Queen's registered nine out of twenty-two occasions. The Blues, however, got twelve field goals to six for the Tricolour crew. Phil Gold and Joe Connelly turned in an excellent defensive performance for the Blues, with Connelly leading (Continued on Page 3)

## ZEAL OF HUNTERS NOT RESPONSIBLE

Professor J. R. Dymond Explains Periodic Fluctuation of Animals

### ATTRIBUTED TO DISEASE

Ontario possesses a great heritage in its wild life which is well worth preserving, but it cannot be done unless we know and observe nature's laws. Professor J. R. Dymond, Director of the Royal Ontario Museum of Zoology said in his lecture on "Ontario's Wild Life" in Convocation Hall Saturday evening that he and his associates are carrying on various kinds of research work in their efforts to understand something about the life and habits of Ontario's wild animals.

There is a saying that rabbits die off every seven years and that it is because they are killed by foxes. They do, as a matter of fact, die off every nine or ten years, but this is due to disease and its contagion, and the result is that foxes, lacking food, also die off. This periodic fluctuation of rabbits may not seem very significant, but it is indirectly of considerable importance, for rabbits are the main food of many of our fur-bearing animals besides the fox.

The disappearance of partridge is often erroneously attributed to the excessive zeal of hunters, but an examination of numerous birds in Algonquin Park last summer proved that they were almost all afflicted with a disease called bird-malaria which caused the (Continued on Page 4)

## As Canadians

In reading *Le quartier latin*, the University of Montreal paper, the thing that strikes us the most is the stress laid upon the Quebec attitude against the Canadian, or if the Canadian, it is the French-Canadian against that of all Canada. This stand is taken on two counts: that of language and that of religion.

Truly, in times past the French-Canadian had a reason to fear for those were days when religious and racial toleration were unknown. Now, however, it is different.

As for language, French is, and will be so more emphatically, the favourite tongue learnt in the schools of Ontario. It is the language of a culture as great as our own, and greater than that of almost any other race in the world. Canada is fortunate in having Shakespeare, Milton, and the great of English literature as precursors with Corneille, Moliere, and Racine in the history of her letters, a fact that can hardly be equalled unless we take the grafting of the Chinese classics on to Japanese more than a thousand years ago! If French were in such an un-sound condition in the hearts of English-speaking Canadians, there would not be the thousands upon thousands trying their matriculation in it every year. No, the French-Canadian need have no fear that his language might go by the board so easily.

In religious matters, we can point out that one of the colleges of this University is of the same faith as the man from Quebec, and that there is no antipathy against the student from St. Michael's on any part of the campus. We must admit that there are a few Orangemen loose in the province, but there is hardly a young person today who does not realize that they are relics of the past, anachronistic dinosaurs from the age of intolerance. By far the saner attitude is to recognize that as Protestants and Catholics we have our differences, and recognizing that, keep away from the chance of differing; for differ we will, and there is not a man today who expects to change the faith of another, and especially not by quarrelling with him.

Nowadays we are entering a new period in our history when it is not the province that matters but the nation. The problems are more acute in the federal sphere, and perhaps it would be much better economically if there were only one government in the country and the provincial legislatures were scrapped either for advisory councils to look after their individual rights as there was in South Africa or for a departmental system as in France. It would be better if we forgot that we came from the Maritimes or Quebec or the Prairies and decided to be Canadians.

Perhaps the Ontarian is just as bad as the rest of the land. But here we should remember that in the North it is the French-speaking settler who is doing the best job of opening the country and that if we continue to welcome these pioneers, that part of the country will go ahead much faster than under the naive lack of all system that is the case when people go up from Old Ontario.

However, we can only reiterate that unless we want three nations in North America or two, we should all pull together—as Canadians.

## A Defence - -

Princes have sat and spoken against him; parliaments have legalized their disapproval of him;

in pulpits and pressrooms men have risen up and called him not blessed; and everywhere publicists have made daily pronouncements in execration of the reckless driver. Unceasingly we are told, with a background of arithmetic, that he is a menace to life and economic power and the pursuit of happiness; interminably we are harrowed in public by evoked midnight screams, and red wakes of surgery and grey trails of desolate widows and pathetic orphans, left behind by him that is careless on the highway. As anciently as motoring, editorials have censured and sermons excommunicated and pamphlets proscribed him; they have thundered, now, if not *ad nauseum* then *ad soporem*; by reiteration, pathos has been made colourless and grief commonplace and tragedy banal. Solemnly the news-columns continue to carry, under a theory of their value as news, resolutions and addresses and campaigns in hostility to the reckless driver, though they are now as showpans as they have always been abecedarians. Far overhead, it may be, whence editorial policy transpires, the reckless driver with his trails of gore and tears is as a red herring to be drawn across those other trails.

And below, leaders of all political parties and heads of all religious sects unite to curse him. All editorial hues are blent in one white rage against the reckless driver; and partisanship and sectarianism are considered as new laws are passed against him; in this is visible objectively the inutilty of factionalism before a stark problem. Many burials issue from his hand; from him one day may proceed the interment of party politics. As an object-lesson in history, *The Varsity*, first of all journals in the world, editorially defends the reckless driver.

## What is this S.A.C.?

For years we have intended to write a series of articles on the Students' Administrative Council. Depending on our mood, we have intended to write articles that were satires, humorous articles, or complimentary boosts. This week, since it is Boy Scout week and we want to do our good deed, we are going to write a series of articles on that much-maligned institution, the S.A.C.

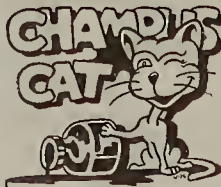

Officially it is called the Joint Executive of the Students' Administrative Councils, because seven words in a title sound much more impressive than one, and because that title gives a full and detailed account of what it is. Some day, when sufficient intelligence has accumulated on the campus, it will be called the Students' Council. In the meantime it passes under the title of the Students' Administrative Council, or, in common parlance, the S.A.C.

Today we wish to treat only the broadest outlines of the Students' Council's duties. It is composed of either one or two representatives from each faculty or college which goes to make up the University of Toronto. At present these representatives are the presidents of the student societies, as representing the highest powers in the student body. This is why it is called the Joint Executive of the Students' Administrative Councils—because it is a joint executive composed of the president of each of the official student societies on the campus. At present a move is being contemplated in some faculties to have the S.A.C. representative elected separately and made responsible to the students, but that is something for the future.

The actual purpose of the S.A.C. is to administer all student affairs, to act as an intermediary between the University Authorities and the student body, to bind the students of the University into one body, and to promote inter-university functions of all kinds, apart from athletic events. Among its duties in this respect are the publication of *The Varsity* and *Torontonensis*, the administration of the affairs of the Varsity Band, which is holding its concert tomorrow night in Convocation Hall, the handling of the student loan fund which finances students to the extent of about two thousand dollars each year, the sale of season athletic tickets, University rings, pins and crests and publication of the Students' Handbook and the Directory of Staff and Students.

These are the main outlines of its duties. In addition, it has to settle questions involving student activities in many forms. Toronto's connection with the N.F.C.U.S., for instance, is kept up by the S.A.C. Debaters are sent out to various universities in Canada by the S.A.C. When someone wants to form an orchestra and find somewhere to practise they ask the S.A.C. When someone wants to print the music to the "Blue and White" in their song book, they ask the S.A.C. And so on. Its diverse duties cover a limitless field.

In succeeding issues we hope to go into the various activities of the S.A.C. in fuller detail.

"Small Change Seen in Graduate Status". Some of the alumni don't amount to much.

Celebrating their 69th anniversary a Toronto artificial limb firm advertise that they "have always kept in step with all modern improvements." If they haven't a slogan yet they might consider, "Put your best foot foremost!", or "We hand it to you!"

The University has an operating surplus of \$64,000, which they had better put in the bank. The present government will likely be with us for a few years yet.

Will Rogers fired his valet. He laid out the wrong chewing gum for formal wear.

Professor J. D. Robbins has made a collection of tall stories which *The Barker* is running as "Paul Bunyan" yarns. Some pedagogues publish theirs as "Schoolboy Howlers".

Yes, anything over five should be called sextuplets.

After the Parliament opening on Wednesday the Conservatives got together for a pot of tea. The next day when the famous Heighington session was over they probably felt the need of something a little stronger.

Hart Buck is going to run for the Library Committee again, and he should be given the job. There ought to be more than one of Thorne Smith's novels in the Hart House collection.

Lucy from U.C. has broken her fraternity pledge. Says she mistook it for a New Year's resolution.

—Rip Rapperty.

## ART, MUSIC & DRAMA

### Hart House String Quartet

On Friday evening in Convocation Hall and on Saturday evening in Hart House Theatre the Hart House String Quartet gave one of the most beautiful concerts they have ever played. The first part of the programme was the beautiful quintet in G minor, by Mozart, Tom Brennan playing the second viola. The G minor quintet is the greatest of Mozart's quintets of which there are quite a number. Mozart's quintets are definitely influenced by Boccherini but where Boccherini doubled the 'cello because he, himself, played that instrument, Mozart invariably doubled the viola. The G minor quintet was composed in 1787, four years before he died. At this time Mozart was in a rather morbid mood and in this quintet he expresses all his anguish, his fear of impending death and his faith in himself: that he had in the thirty-one years of his life lived a worthy and fulfilled life. This music is some of the finest ever composed by anyone and alone could place Mozart in a class of super-musicians.

The Beethoven Fugue for two violins, two violas and 'cello is a composition of consummate skill and exquisite beauty. The real meat of the programme was the Beethoven Quartet in C sharp minor, opus 131. This quartet defies comment, for this music is the expression of genius. It is, it seems, the bubbling of impatient enthusiasm over the limitations of nature. When this music was composed Beethoven was completely deaf and with his deafness he lost interest in the people about him. The music of his last years is his greatest, at a period when he could no longer hear the applause. It was the expression of the omniscient soul of a slightly mad genius trying to contact the other souls through an ear in which it had but little faith.

The Hart House String Quartet, besides choosing such a magnificent programme, played it in a manner which will enhance their already enviable reputation.

(Continued on Page 4)

## Let's Go Places

And so another valiant enterprise is abandoned. The York is no longer presenting French films on Saturday. Its last, *La Cinquieme Emprise*, was quite as excellent as its predecessors and held the rapt attention of the assisting group from first to last, while the manager of the theatre twiddled his thumbs and mourned the fact that he as usual wasn't covering the rental of the film—to say nothing of advertisements, translations and service.

This *Fifth Fingerprint* was a mystery thriller with innumerable complications. A young baron commits suicide; the wily police inspector busies himself with white lilies, the size of women's gloves, a gramophone record and Chanel's perfume No. 34; a beautiful blonde is obviously keeping some information to herself and so arouses the suspicions of her devoted but green-eyed husband; the baron's half-sister has been trying to get her share of the family "tools"; his valet has a police record; his young friend had promised him a horrible fate

should he prove untrue to her and she certainly had grounds for action; the discovery that the libertine has been murdered is not so very surprising.

Subtle acting and a liberal dose of comedy saved the film from being "just another mystery mellerdrammer". The plump concierge with her little loge, her T.S.F. and her self-assurance, was delightfully French. The little shop keeper, who aspired to be a sleuth, was a character quite as amusing as le Bouif. The plot was carefully spun out, giving enough romance and excitement to be completely absorbing until the novel denouement in the last few seconds.

As the seventh and round up of a splendid series of French productions in a lighter vein, *La Cinquieme Emprise*, was entirely successful from the standpoint of entertainment. The York may run another series in the fall—here's the orchids to the manager and better luck next time!

## BLUE MERMEN INVINCIBLE; TAKE FIVE OF EIGHT EVENTS

### Young Schoolmen Out-Hockey Wycliffe

The Jr. S.P.S. hockey sextet had to skate itself dizzy to smash Wycliffe's blue waves of attack with a 4-2 score in a frantic scramble on Friday afternoon in which the Varsity Arena served as frying-pan. The engineers opened the scoring by securing a brace of goals, then Wycliffe flickered the red light twice and made it 2-all, whereupon the winners added yet another two tallies to their total as the game ended.

### BLUE HOCKEYISTS TROUGH QUEEN'S

Two Goals Scored in First  
Few Minutes of  
Play

FINAL SCORE 8-4

The long anticipated victory of the big Blue squad was finally realized last Saturday evening at Varsity Arena, when Warren Stevens' University of Toronto sextet swept aside the Queen's hockey squad, to gain the elusive bunch of victory by an 8-4 count. Throughout the entire game the work of the Varsity forwards scintillated, while the defence made the path to the Blue net difficult for the Queen's snipers. The clever backchecking of the big Blue machine had the Tricoloured squad in a quandary.

Before the spectators could accommodate themselves, two goals were scored within one minute of play. Queen's netted their counter on a brilliant tally by Wing, who accepted the pass from Patterson and Munro. Within a few seconds Varsity knotted the count with Sweeney combining with McClelland. Again eight minutes later Sweeney closed right in on the Queen's citadel and scored, making a perfect goft shot which found its mark.

While Charles was doing penance in the timer's mench Queen's turned on the power play and Brydon came on to even the score 2-2. Attempting to increase their count Queen's were caught napping at the Varsity blue line when Roy, Valiquette and Devine broke together in a well executed passing attack, with Devine breaking Gowsell.

Coming out to renew the feud in the middle spasm Varsity pressed hard, having a one-man advantage, but Queen's were able to cope with the onrush, but within the minute McClelland scored on a pass from MacPherson. The play of the second string Varsity line was faultless, breaking clear to score another two counters with Devine and McIlquham doing the William Tell act.

With the count 6-3 for the University of Toronto, Queen's laid down a rugged checking system against the Varsity puckchasers and achieved some success until the middle of the last period when Varsity garnered another point. Not to be outdone, the Tricolour squad scored, Wing being the marksman. The performance of the Varsity squad was marred by an injury to Devine, who was gashed on the forehead but they came one again and on the cleverest play of the game MacPherson eluded the Queen's defense, laying down a perfect pass to McClelland, whose shot found the nets behind Gowsell. Queen's rallied and bombarded the Varsity nets in the remaining minutes of play but the final goal found the score board reading Varsity 8, Queen's 4, thus pulling Varsity into a tie for second place behind McGill with Queen's enjoying the same privilege.

Varsity: Goal, Shipman; defence, Roy, Charles; centre, McClelland; wings, MacPherson, Sweeney; alternates, Jeffrey, McIlquham, Valiquette and Kieff.

Queen's: Goal, Gowsell; defence, Murphy, Stollery; centre, Wing; wings, Munro, Patterson; alternates, MacDonald, Holland, Grey and Brydon.

### McCattys and Murphy Set New Mark in Medley Relay

#### EGGERT CAPTURES DIVING

Montreal, Feb. 23.—Special to The Varsity.—The turbulent waters of the Notre Dame de Grace swimming pool saw the powerful and undefeated University of Toronto swimming team return the intercollegiate championship to Toronto Saturday night when they defeated teams from McGill and McMaster in the annual meet. The triumph of the Varsity team marked the end of a five year reign by the McGill Redmen.

The week-end meet was one of the most thrilling to be witnessed for several years in this annual fixture. The Blue swimmers came home in front in five of the eight events, while McGill swimmers crossed the line first on two occasions and the McMaster team, that finished in second place, took but one.

The 300 yard medley relay opened the programme and Cressy McCatty, doing the backstroke number, opened up a lead which Wince augmented and then the 100 yard dash of Murphy over the final distance, all combined to establish a new mark for the event. Murphy then led the Bourne brothers across the line in the 50 yard free style and in the next two events, the 440 and the 100 back stroke, Wince and Cressy McCatty again gave the Toronto team two wins. Hooper gave the Blue team a second in the 440.

A Bourne gave the Red team their first victory in the 100 free style while Savage of McGill created an upset when he defeated Vince Collins in the 200 breast stroke. The diving provided a close but brilliant display which saw Eggert of Toronto win over McWhirter of McMaster and Mills of McGill, who placed third.

#### SWIMMING

300 yard medley: 1. Toronto, C. McCatty, W. McCatty, Murphy, 3.16 2-5.  
Diving: 1. Toronto, Eggert; 2. McMaster, McWhirter; 3. McGill, Mills.  
50 yards free: 1. Toronto, Murphy; 2. McGill, A. Bourne, C. Bourne.  
440 free: 1. Toronto, W. McCatty; 2. Hooper; 3. McGill, Skinner.  
100 back: 1. Toronto, C. McCatty; 2. McMaster, D. New; 3. Toronto, Dilworth.  
100 free: 1. McGill, A. Bourne; 2. McMaster, McWhirter; 3. Toronto, W. McCatty.  
200 breast: 1. McGill, Savage; 2. Toronto, Fenning; 3. Toronto, Collins.  
200 yard relay: 1. McMaster; 2. Toronto; 3. McGill.

### Intercollegiate Seniors Capture Basketball Title (Continued from Page 1)

the scoring for Varsity. Hugh Marks and Normie Newman also went very well and scored six points apiece. Cunningham, Queen's lofty centreman, did his squad in scoring with eleven points. Don Bews and Harry Sonshine also played well for the losers.

Right from the opening whistle the tilt developed a very fast complex. The Tricolour cagers played a very fast but careful game and made few mistakes. Hayman's men played good ball only at odd moments as they lacked any light and failed to get in after the rebounds. They failed to shoot as often as they should have being merely content to throw the ball around in grapevine manner. The Blues appeared very leg-weary and it was only because of the good defensive work of Connolly and Gold that the Tricolour total was kept down. Queen's overtook Varsity's 8-5 lead and rang up a 13-10 lead at the rest period.

In the second half, however, the Blues played a different brand of ball with about ten minutes of play left. In two minutes they caught up to Queen's at 19-19 and managed to get a three-point lead at 22-19 when Hugh Marks was put off for four personals. However, Normie Newman started in where Marks left off and aided by Bill Bodrug, mounted the Blues' total to thirty-one points while holding the

## Catering to the College Man's Clothing Needs

There are few keener judges of style in apparel than Varsity men—but they also buy with an eye to value. And that's where the MEN'S SHOP fits into the picture. Here, convenient to the University, you can choose clothing and accessories that will win distinction in class or campus. Prices, too, are in keeping with a college man's budget. To know what the well-dressed Varsity man will wear, come and browse around this smart shop.

## EATON'S - COLLEGE STREET

## SPEAKING OF SPORT

By B. J. McGuire

A rather hectic weekend saw several titles, which for the past several years have been inclined to be elusive, return to the abode in Hart House. The swimming team, the basketball team, and the gym team all managed to contribute a trophy to the collection of prizes garnered by the Blue athletes. And the hockey team won a game. Truly it was a weekend of achievements.

One thing which the weekend results proved was that the local boys were a little more proficient in the art of acting than of talking as we note that the debaters featured the only intercollegiate contest in which the masculine population of the University indulged and failed to win. The ladies, however, let their alma mater down by getting eliminated in the preliminary round of the bronze baby contest. (The bronze baby is the trophy for which the women's intercollegiate basketball teams play.)

While the hockey team may, in a slight degree, be indebted to Forsythe, the Queen's regular goalie, for getting the measles, for their victory, the swimming team owe no small debt of gratitude to Roy Loundes, their swimming instructor. Loundes returned to instruct the swimming team last season, and the result was a championship for Varsity for the first time in five years.

Queen's men to two free throws. Leo Crowley was put off for four fouls with two minutes to go but Munroe, who had been hurt in Montreal the night before, filled the gap well. With thirty seconds to go Cunningham was put off for four personals and Munroe sank the free throw to give the Blues their final score.

Queen's, 21: Rooke 3 and Fenley, forwards; Cunningham 11, centre; D. Bews 3 and Meziel 2, guards; subs, Sonshine 2, Edwards and M. Bews.

### EXAM APPLICATIONS NOW DUE IN ARTS

Students in the Faculty of Arts will save a dollar by getting in their examination applications before the 1st of March. If they are unable to pay their examination fee before this date, they should still send in their applications and by doing this they will only have to pay one dollar instead of two for being late. This will be of assistance to the Registrar's office and will also help the students, as it will enable them to get their time tables early. The Registrar's office is usually held up in getting these out by the lateness of some of the application forms which make last minute adjustments necessary. Students are also reminded that books of back copies of examinations are on sale at the Registrar's office at twenty-five cents per copy.

### Sport Notices

#### Revised Hockey Schedule—

Monday, Arena, 4.30, Vic vs Junior Meds; 5.30, Sr. Meds vs Pharmacy.

Tuesday, Arena, 4.30, O.C.E. vs Forestry.

Thursday, Stadium, 5, O.C.E. vs Sr. Meds.

#### Women's Sports—

1 p.m. today—All-star hockey practice at the Arena. Everybody out!

8 p.m. tonight—Vic women's swimming meet at the Lillian Massey pool.

The interfaculty hockey schedule for the coming week is as follows:

Monday, Arena, 4 p.m., Vic vs Jr. Meds.

Tuesday, Stadium, 5 p.m., O.C.E. vs Sr. Meds.

Thursday, Arena, 4 p.m., O.C.E. vs Forestry.

Friday, Arena, 5 p.m., Sr. Meds vs Pharmacy.

Tuesday's game between O.C.E. and Sr. Meds will be played in the Arena if the ice is available. Will the managers of these teams please get in touch with the Athletic office on Monday regarding this matter.

**STUTTERING**  
Stammer no more. Overcame it. My free, helpful pamphlet and "Ten Commandments of Speech" will help you. Write W. Dennison, 41 St. Clair E., Toronto

**THE  
SPORTSWOMAN**

There is a new ornament in the common room at Ban Righ—the "Bronze Baby" is there in all its splendour, signifying that Queen's for the first time in years mounted to the top rung of the intercollegiate basketball ladder. There were four smart games down there at Kingston. Varsity's opening match with Western was a real thriller as was the final battle between Queen's and Western for the coveted trophy.

As you can doubtless observe there is a large amount of sporting news in today's paper, so if you can stand the suspense until tomorrow morning, we will have to defer further comment on the games, since there just is not the space for it here.

There is a new all-star hockey practice at 1 p.m. today in the Arena. The big contest with McGill comes off on Saturday which means that time is getting very scarce. Therefore a full-tourment and a hard workout will be absolutely necessary today and during the other practices this week if Jimmy McPherson's hopes for this year's material are to be fulfilled.

Molly Selater, who is in charge of ticket sales and publicity for this big hockey event with McGill, has asked all the hockey managers in the various faculties to get posters concerning the game at Room 82, U.C., immediately and to put them up where they will be of most use.

The Vic swimming meet is to be held at 8 p.m., this evening at the Lillian Massey pool. A large turnout is most earnestly requested.

### JR. S.P.S. TAKE WIN IN BASEBALL TILT

Supported by the brilliant pitching of McMillan, Junior S.P.S. battled themselves into a group playoff with Jr. Meds in the current baseball series when they scored a decisive 11-0 victory over the Jr. U.C. team on Friday afternoon. The School team turned in their best effort of the season when they produced some spectacular base-running and fielding. The playoff game with the Medical students takes place next Thursday.

### Toronto Gymnasts Take Title Easily

Finest Redman Outclassed  
by Every Varsity  
Athlete

MACDONALD CHAMPION

The Varsity gymnastic team decisively defeated McGill in the intercollegiate meet held in Hart House on Saturday evening. The decisiveness of Varsity's victory is shown in the fact that they scored 145 points to 75 for McGill. The five men on the Varsity team all scored higher totals than Beall, the visitors' leading point getter. MacDonald was the individual champion. He returned a total of 295.4 as compared with 282 scored by Kirk, his closest competitor. This Varsity star led the field in the High-bar, Parallels and the Horse. His team-mate, Lewis, was returned victor in the tumbling exhibition on the Mats.

The Varsity team took the first three places on the High-bar, their movements being more graceful and better executed than McGill. MacDonald won this event, being closely followed by Kirk. Beall of McGill paced fourth in this event and was much the best competitor for the red and white. The parallel bars were taken by MacDonald, who made the capacity crowd stare breathlessly as he gracefully performed, drawing voluminous applause.

The swift movements on the horse were performed by Varsity so well that they took the first five places. McGill looked particularly poor on this apparatus.

Lewis captured the tumbling honours from Buck. MacDonald placed fourth in this event but his lead was too great to be affected by this setback.

Summary: MacDonald (T), 295.4; Kirk (T), 282; Farrar (T), 277; Buck (T), 272; Lewis (T), 251.7; Beall (M), 231.7; Hodgson (M), 230.3; Walker (M), 216.6; Holland (M), 205.7; Hobbs (M), 192.

### Meds Elections

President, Permanent Executive: R. C. Clark, 6th year.

Medical Society: President, F. P. McInnis, 5th year; vice-president, W. McIsaac, 4th year; secretary-treasurer, Bob Storey, 3rd year; assistant secretary-treasurer, V. R. Perry, 2nd year. Athletic Association: President, J. W. Leachman, 5th year; vice-pres., J. D. Caldwell, 4th year; sec.-treas., B. Charles, 3rd year.

Year Presidents: 2. John Weddell, 3. Cam Gray, 4. M. F. Williams, 5. No result as yet, 6. Wally Scott.

The above executive will not go into office until the beginning of the 1935-1936 term.

## Coming Events

### MONDAY, FEBRUARY 25

8:15 p.m.—Youth Unit, League of Nations Society, meeting at The Friends Meeting House, 109 Maitland St.  
6 p.m.—Nominations for Hart House Debates Committee close.  
7:45 p.m.—Honour Science Club members' party at the Women's Union, 79 St. George St.

### TUESDAY, FEBRUARY 26

1:20—Vic S.C.M. The topic "Significance of Life" will be discussed by Miss Gertrude Rutherford at Wymilwood.

(Continued from Page 1)  
death of 80 per cent of the young ones. "The regular swing between scarcity and abundance has been going on for centuries, and will probably continue," concluded Professor Dymond. "It has been compared to such things as the rise and fall of skirts and material prosperity, and attributed to sun-spots and the weather. This is all merely conjectural, however, and fortunately the great majority of birds and animals do not fluctuate so much."

## Earl Rowe Addresses

### Conservative Students

(Continued from Page 1)  
go bankrupt. How fantastic would such measures be if put into effect," declared Mr. Rowe, suggesting the reaction that would follow when the world press announced such a collapse of the Canadian federation.

"Beware of those who tell the province of Ontario, for example, that they are economizing by refusing to drink coffee at a social function in honour of the King's representative, while they spend money for champagne to celebrate a party victory."

The Honorable speaker exhorted the members of the club to "avoid as far as possible the popular idea that politics is a game—a racket. I hate the prevalent idea that a man must be crooked to be a politician."

"I think we sometimes fail to appreciate Mr. Bennett. Personally, I think Bennett is the greatest Prime Minister we have had since Confederation." He spoke of Mr. Bennett as the greatest leader of the Imperial cause within the whole Empire. "When he called the Imperial Conference he was accused of dominating it," but his trade agreements, I fully believe to have saved Canada."

Mr. Bob McAdam, vice-president, rose at the conclusion of Mr. Rowe's address to move a motion that the club support Mr. Bennett's reform policy in its entirety. The motion was unanimously carried.

### Shakespeare Heroines

#### In Alexander Lecture

(Continued from Page 1)  
willingness to believe so many false reports was necessary for the drama and should not be considered a flaw in her character.

To Miranda, Pope's words, "women have no character at all," are especially suited, though not in their satirical sense, he declared. She is the most cerebral of all Shakespeare's characters. Perdita, too, seems more spirit than flesh, he stated.

### Varsity Eliminated

#### In Debate Finals

(Continued from Page 1)  
tion of the producer and the consumer. Our wealth, which should be used to the well-being of the nation, is in the hands of a group.

Mr. Saul Rae from the University of Toronto, while admitting that Canada was being exploited, pointed out that conditions have improved since the Industrial Revolution began, and said that final amelioration could be brought about by strengthening of the now out-of-date Combines Act and remedial industrial legislation.

Mr. Gerard Gohall, the other debater from Ottawa, said that Mr. Rae was drifting from the question and should deal with things as they are at present. He drew from the report of the Stevens' Commission to show the misery of Canadian working conditions, and declared that there were only two ways of bettering them: by action on the part of the employers themselves, or by an outside power. The employers will not likely change conditions by which they are profiting, and there is no legislative body in the Dominion today with sufficient power to do it. His conclusion was that there would have to be a change in the system to bring about any improvement.

Mr. Arnold Smith, the final speaker, spoke in French. He said that things could be bettered as they have been in other countries. They will be better after the passing of the crisis, as they are already in England and Australia.

The University of Ottawa had a total of eighty-six points while Toronto had eighty-two and a half. The judges were four to one for Ottawa, but it is interesting that the one for Toronto was a French-Canadian.

### Band Concert Staged

#### This Tuesday Night

(Continued from Page 1)  
knobbed stick handed us a little triangular chunk of iron, and instructed us to pound it whenever the Captain waved both arms and scowled at the same time.

To continue the afternoon's fun would be somewhat of a long story, but suffice it to say that we alternately pounded triangles, thumped cymbals and blew whistles as the tall gentleman directed, thus displaying our musical ability. The fun, we admit, was tremendous, which proves that it is better to give than to receive.

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at either the men's office in Hart House, or at the women's office in University College. No notices will be taken over the telephone, after 6 p.m. notices must be taken to the Press Building. Notices for the Bulletin Board are limited to ONE insertion only.

### WOMEN'S PRESS CLUB

The regular meeting has been postponed until Tuesday, March 5. On that date the winners of the short story contest will be announced and pins awarded.

### ENGLISH AND HISTORY CLUB

The next meeting of the club will be on Wednesday at Miss McLean's, Bayview Ave. Non-driving members are asked to be at the corner of St. Edmunds Drive and Yonge, Lawrence Park, not later than 8 p.m. F. W. Woods, and D. F. Dadson will read papers on the question, whether the British and American governments can make capitalism function successfully.

### O.C.E. AT-HOME

Tickets for the formal dance to be held Friday, March 1st, will be on sale Tuesday and Wednesday from 12 to 12:30 in the lower hall of O.C.E.

Student Front, publication of the Student Peace Movement, is on sale today. It is well worth reading. Be sure to buy your copy.

### U.C. MUSIC CLUB

Chorus will meet in Women's Union Theatre at 1 p.m. today to learn new routine from Miss Bode.

The unfortunate part is that the regular cymbal basher will be on the job on Tuesday, when they pull the concert in Convocation Hall, and yours truly (Editorial yours truly), will have to content himself with a seat among the mob in multi.

### Student Anti-War Experts

#### Publish Opinions Today

widely-travelled member of the University staff, has contributed an article of special interest for Canadians entitled *To Engineers and Others. The Christian View on War* concisely expresses the attitude every Christian should take towards war. Numerous other pertinent articles round out the publication.

The Student Peace Movement will publish another issue after the Toronto Regional Student Conference against War to be held next Saturday and Sunday, March 2nd and 3rd.

### Kingston Girls Capture

#### Notorious "Bronze Baby"

(Continued from Page 1)  
passing and ball handling, and marked precision of plays was quite apparent on both sides of the line. Dot Timpany and Doris Blackall on the London defence held the speedy Queen's forwards to no score in the first quarter whereas Western tallied 4.

The final session of this game was the highlight of the whole engagement. Forwards and defence lines on both squads put everything into it. For a time the Queen's defence held Mary Wong and Dot Rintoul powerless; Kay Weyling and Gladys Heintz were particularly strong. Georgina Ross opened the scoring for Queen's and Kay Boyd soon dropped in two more baskets. Then Queen's began to feel the real threat that Dorothy Timpany on the Western defence offered and the play was more often in the Queen's territory while Western went off on a brief but profitable spree although it was too late for them to break through the powerful Queen's defence in a decisive enough rally to win the contest and when once Kay Weyling got the ball down to her own forwards Western's death-knell had sounded.

### Varsity Eliminated

Varsity was put out of the running for the title by Western in a closely contested match. Both squads were on their toes from the opening whistle and exhibited a superior calibre of basketball. Plays that clicked, shifty foot work, and excellent plans of attack characterized the games on both sides.

In the first quarter Mary Wong, Western's prize forward and C. Wallace, each made a ringer to net four points for their team to the three points aggregated by Edie Ardagh's opening free shot and Kay Brown's basket.

### U.C. PARLIAMENTARY CLUB

Thursday, February 28, Junior Common Room, 4 p.m. Final meeting. Pivnick, Speaker; Buck, Clerk; Shaffer, Premier; Bryce, Leader of Opposition.

### U.C. FOLLIES

Cast and chorus will rehearse in full in Convocation Hall at 4:45 p.m. today.

Nominations for the executive of the V.C.U., the Presidents and Associate-Presidents of mixed federated societies, the Presidents of other societies exclusive of year executives and the Bob Committee will be received in the college hall 1-2 p.m., 4:30-5 p.m. today. Blanks in college office and Book Bureau.

### MEN'S GLEE CLUB

Rehearsal as usual on Tuesday in Hart House Music Room at 5 p.m. As it is desired to maintain the fellowship of these practices as long as possible, the members are urged to turn out in full force.

### 3TS TRINITY

A year meeting to discuss the year dance on Wednesday, will be held on Tuesday after lunch in the West Common Room, Trinity House. Non-residents please note.

### Final Game Fast

The final game was by no means one-sided. Neat floor work, snappy showed up admirably. The Varsity forward string worked in well and Mary Carre tossed two balls through the net to make the total 7-7 at the half.

It was any team's game from then until the final whistle. Smart plays enacted by Mary Wong and Dot Rintoul finally were capitalized upon and at the quarter Western had brought in two more points.

In the final quarter play went wild for a few minutes. Mary Wong made a ringer on the rebound from a gift toss that had gone west. Edie Ardagh retaliated with a beautiful toss. Mary Wong chalked up one more point for her team and the whistle blew on the 12-9 tally.

In the second game McGill went in for long shots and long passes which too frequently went wild. Queen's showed up with a well organized flashy group with far snappier plays and neater floorwork and ball handling. The ball was chiefly at the McGill end during the first half with the result that Queen's had 16 points to Montreal's 4.

In the third quarter the Queen's defence had more opportunity to show their skill. Gladys Heintz, the centre, did some nice work. Queen's went off on a scoring spree and the lead mounted up 28 points when quarter time came with the Redmen trailing with 9.

In the first two minutes of the last session McGill got really going when Edith Wallbridge and Cynthia Bazin made 6 points. Queen's ran up 12 points on some lovely passes and the McGill forwards could not get around the sturdy Tricolour defence line for more than 2 ringers.

### Consolation Match

In the consolation match Kay Brown was high scorer for both squads, chalking up 17 of Varsity's total. Edie Ardagh and Kay Grubbe played well for Varsity, and for McGill, Helen Fyfe on the defence and Edith Wallbridge on the attacking line were good.

Varsity held the lead steadily after they picked up the 6 points which their opponents raced away with during the initial minutes of play. The score was tied at 6-6 at quarter time but by the halfway mark Varsity had a nice lead in a 19-10 count.

Shifty foot work and snappy passes on the part of the Blue and White forwards who were ably backed by the strong defence line, proved more efficacious than McGill's long passes and distance shots, and the 25-18 count tells the final tale.

Final Standing: I, Queen's; II, Western, III, Varsity; IV McGill. Queen's: Kay Weyling, Gladys Heintz, Bud Ardel, Dorothy Naphali, Ruth Fishleigh (18), Georgina Ross (15), Evelyn Richard (12), Fay Kimmins (8).

Western: Mary Wong (11), Dorothy

Rintoul (4), Crenea Wallace (11), Corinne Cherry, Margaret McKee, Margaret Homuth, Doris Blackall, Dorothy Timpany, Ruth Davis.

Varsity: Kay Brown (19), Mary Carre (4), Edith Ardagh (7), Eugenia May (4), Catherine Grubbe, Helen McGarry, Marion Bernhardt, Lorna Reid, Enid Palmer.

McGill: Elizabeth Murphy, Elizabeth Miller (6), Helen McInnis, Helen Fyfe, Ruth Russell, Edith Wallbridge (15), Eleanor Adams, Eleanor Montgomery, Cynthia Bazin (14).

We have here indicated the total number of points scored by each forward in the two games in which each played.

### LET'S GO PLACES

(Continued from Page 2)

once more in her latest vehicle showing at the Imperial Theatre this week, *The Gilded Lily*. Incidentally, the title has no apparent connection with the picture.

The story concerns a stenographer, beloved of a newspaper reporter (McMurray) who falls in love with a young English nobleman (Nailand), falls out of love with him and the film closes with the steno and the newspaperman blissfully eating popcorn on a park bench. This may be rather sketchy but it gives the main idea. The picture gives Miss Colbert an opportunity to do some singing and dancing.

Some good comedy and fine acting by the two newcomers to the screen, McMurray and Milland, as well as by the star, make *The Gilded Lily* excellent entertainment. A Dionne quintuplet shot is also on the programme.

### ART, MUSIC AND DRAMA

(Continued from Page 2)

putation. It was certainly a refreshing and exhilarating change from last year's orgy of Brahms, since which time this reviewer had not heard our Quartet.

### Hart House Theatre

On Saturday afternoon the Mozart Society of Canada gave "An afternoon of Mozart" in Hart House Theatre. The programme was a very interesting one designed to present the varied aspects of Mozart's work. Eugene Kash, violinist, and Aube Tzerko, pianist, played the beautiful Sonata in A major for Violin and Piano. Dorothy Allen Park sang selections from Figaro and Don Giovanni.

The pianoforte sonata in A major with its first movements of variations and the brilliant third (allegretto) movement, the famous Rondo Alla Turca, was played by Viggo Kihl. The programme finished with a flourish when Joyce Hornyansky's Quartet and Herbert Pye playing the clarinet, gave the Clarinet Quartet. This Quartet exemplifies Mozart's crusade for use of the clarinet as a melodic instrument, for throughout the whole score the clarinet carries the main burden of the melody, indeed it has been said of this quartet that it is a clarinet solo with string accompaniment. The score was thus unfortunate in that it did not afford a very great opportunity for the musicians to display their full proficiency, as a quartet although they did show that they have a fine understanding and a control and delicacy equal to any of our local string foursomes.

M.B.L.

### Sunday Evening Concert

Miss Margaret Parsons scored a rouge and two touchdowns in Hart House Great Hall last night. With distinguished feminine grace she played Beethoven's labyrinthine "32 Variations." Her "Rhapsody in C Minor" was an excellent rendering of an excellent modern composition; and with the March "Love for Three Oranges" of Prokofiev, Miss Parsons brought broad smiles to all faces, at her superb interpretation of this greatest of musical skits.

By way of contrast, the Men's Glee Club sang, mostly unaccompanied, three groups of songs, of the eighteenth century or earlier. (The one exception, Shaw's Morleyesque "Hey Robin, jolly Robin", is evidently a hark-back to that spacious pre-operative era). Their tone was very good, and their control of part-singing bore witness to able direction. Mr. F. C. Ongley, as soloist, with a background of voices in Purcell's "Fairiest Isle", did justice to an inadequate tone-picture of Heaven. The Club sang notably the "Hallelujah, Amen" of Handel from *Judas Macca-*

### BENNETT'S ABILITY TO REFORM SYSTEM DOUBTED BY C.C.F.

Eight-Hour Day Made Obsolete  
by Technological Advances  
Says Dorothy Stock

### RADIO LECTURE CRITICIZED

Unemployment Insurance  
Proves Inadequacy of Present  
Capitalist Regime

Miss Dorothy Stock, Secretary of the University C.C.F. Club when questioned about Mr. Bennett's speech at the Young Conservative Rally over the week-end, said, "In his sonorous radio speeches, Mr. Bennett assured us that capitalism had passed away. The C.C.F. has no quarrel with that statement, but we doubt his ability to reform an economic system which he has acknowledged to be defunct." Continuing her criticism of Mr. Bennett's new reforms "Technological advances have made the eight-hour day, which Mr. Bennett now proposes, thoroughly out of date. Contributory unemployment insurance not only fails to assist the hundreds of thousands of our citizens at the present unemployed, but it is an acknowledgement of the inadequacy of capitalism to cope with modern industrial conditions."

When questioned as to the status of the C.C.F. party, Miss Stock expressed (Continued on Page 4)

### FEDERAL POLICY TOPIC OF HART HOUSE DEBATE

Speakers from McGill Will  
Participate on Opposing Sides  
of Closing Parliament

"Resolved that this House has confidence in His Majesty's Government in Ottawa" is the subject for this year's final debate at Hart House, which will be held at 8 p.m. tomorrow.

Interest will be lent to this event by two debaters from McGill, who will speak on opposite sides of the House. Mr. Miles Mayall, of Varsity, will lead the debate, Mr. P. Weinberg of McGill will oppose the motion. Mr. A. Pick of McGill will speak third and Mr. Arnold Cantwell Smith will speak fourth.

The Chair will be occupied for this debate by Mr. Saul Rae, and will be in its canonical place on the south side. Mr. A. R. Tilley may act as Clerk. (Continued on Page 4)

### NEWS OF THE WORLD IN BRIEF

London—Bolstered by support of France, Italy and Britain, Austria's warning of "Hands Off Austria" to Germany led to the disbanding of the Austrian Nazi party.

Belleville—Rejecting the suggestion of insanity, an Assize Court jury convicted Harold W. Vermilyea of the hatchet murder of his 79-year-old mother; imposition of the death penalty is automatic.

Castries, St. Lucia—Six lay dead, while the shark-infested waters of the Caribbean were being searched for the bodies of twenty-two other holiday-makers, as a result of the capsizing of a heavily laden excursion boat.

Ottawa—Plans designed to place the Canadian National Railways on a sound financial setting and reduce the debts of \$572,702,865, were advanced by the Department of Railways and Canals.

GOD SAVE THE KING

### HOUCK AND FULFORD TO BE GUESTS HERE

Both Will Meet with Liberals  
of Twentieth Century Club  
on Thursday

A luncheon meeting of the University of Toronto Twentieth Century Club will be held on Thursday afternoon of this week at one o'clock in Hart House. The guests of honour will be W. L. Houck, the member from Niagara Falls in the provincial legislature, and George Fulford, M. P. P. for Leeds, according to the Liberal Club executive. Both these men are prominent figures in Ontario political circles and are well qualified to discuss present-day legislative problems. Mr. Houck, a graduate of Cornell, is the representative of one of the most populous districts in the province, and his address is expected to be of particular interest to undergraduates.

### ASTRONOMERS TO STUDY PLANETARY ATMOSPHERE

Moving pictures of cloud formations recently prepared at the United States Weather Bureau will be shown to the Toronto public for the first time tonight as a feature of a meeting of the Royal Astronomical Society of Canada to be held in the McLennan Physics Laboratory.

Dr. R. T. Young, Professor of Astronomy and Associate Director of the David Dunlap Observatory, will speak on "Planetary Atmospheres", a subject of current interest since recent investigations (Continued on Page 4)

### 18TH CENTURY ART LIKENEED TO MODERN

Unity of Arts and Crafts from  
Georgian Period Discussed  
by Barton

### SIMPLICITY RETURNING

The unity of art and reality in the arts and crafts of England from the 18th century to the present day, was last night discussed at the Art Gallery by Mr. J. E. Barton, who has just completed a trip across Canada, made under the auspices of the National Gallery of Canada.

Mr. Barton said that in the London of one hundred and forty years ago, the London of the Georgian period, serenity, dignity and reserve were the order of the day in architecture, furniture and silverware. In landscape art there was a tendency to orderly construction. There was nothing exceptional, nothing unnecessary, only careful and correct calculation and a perfection of simplicity. Everywhere art and reality combined for a pure standard of beauty.

The advent of the Romantic age completely ousted this orderly spirit. All principles of art were lost and the result was a hopeless jumble and a chaotic mess. Art and life were divorced. Ninety-nine out of every hundred buildings were a meaningless mass of bricks, full of little accidental proportions (Continued on Page 4)

### METHOD OF ELECTIONS OCCURIED BY STUDENTS

Hart House Revision to do  
Away with Bribery and  
Ballyhoo

Student opinion seems to be against the present method of conducting the Hart House elections. The answers to the question "What do you think of the Hart House electioneering methods", brought varied answers, most of which were of one opinion.

Bruce Marshall, 3rd U.C.: "It should be conducted in an orderly manner without ballyhoo. Under the present system the candidate who has the loudest voice and passes out the most gum and cigarettes is elected."

H. R. Nevin, II Dentistry: "I object to the present Hart House elections system because it snacks too much of cheap politics."

Claire Annis, 3rd S.P.S.: "This year there is a revision in the election system. Candidates are not allowed to hand out anything but blotters."

### Football Club

At the annual meeting of the University of Toronto Football Club the following officers were elected:

President: H. A. (Andy) Henderson, Meds IV.  
Vice-President: R. C. Ripley, Trinity II.  
Secretary: R. N. Storey, Meds III.

## MAJORITY OF S.A.C. MEMBERS FAVOUR PRESENT METHOD OF APPOINTMENT

### Exam. Applications

Students in the Faculty of Arts are notified that the examinations in those pass subjects offered as options along with Religious Knowledge in the Honour Courses in the Faculty of Arts will be held on April 30th. The time and place of the examination will be indicated on the timetable of the annual examinations.

Chant Believes Faculty Loyalty  
does not Conflict with  
Wider Interests

### MEMBERS REPRESENTATIVE

Head of Knox Undergraduates  
Lauds Impartial Dealings  
of Organization

The results of *The Varsity's* inquiries among the various faculty representatives to the S.A.C. last night to find out whether they considered it advisable to revise the present method of choosing S.A.C. members, were with one exception to the effect that the system now in use is quite satisfactory.

Professor S. N. Chant, faculty adviser on the S.A.C., told *The Varsity* that in his opinion the S.A.C. is a very representative group of students who, in spite of the fact that they have each their own particular faculty loyalty, are very much interested in the administration of the affairs of the University as a whole. "This fact is proved by the good attendance the meetings of the S.A.C. have," said Professor Chant.

Mr. D. G. Ritchie, president of the Engineering Society, said that since the Engineering Society comes under the jurisdiction of the S.A.C. the president is therefore vitally interested in the activities of the council. He admitted, however, that the president would be relieved of some of his heavy duties if a member were elected to the S.A.C. (Continued on Page 4)

## NOTED ARTISTS PRAISED IN LECTURE

Alford Speaks on Modern  
French Painting  
Series

### AT ROYAL ONTARIO MUSEUM

One of a series of lectures on Modern French Painting was given by Professor Alford yesterday afternoon at the Royal Ontario Museum. Four outstanding artists were discussed, from an historical and descriptive point of view.

"Cezanne, a contemporary of the impressionists, felt the need of returning to a more solid world," stated Professor Alford. "In the portrait of Cezanne we feel that we are in a world which we are invited to walk upon. The major part of the canvas is taken up by water and sky but we also feel the immense calm taken up by the ordered world. An ordered world subsisted by a life of calm was Cezanne's aim," continued Professor Alford.

Cerard, the second of the artists, had a different ideal. He set out to organize the colour and atmospheric designs and inventions. This master painted "a calm and beautiful world of extraordinary loveliness."

Another noted artist and quite a different type was Gauguin, a romantic. His most characteristic paintings were done on the South Sea Islands. "Gauguin was not only interested in the psychological atmosphere but also in sheer natural beauty," Professor Alford illustrated this remark by showing a picture of some tropical flowers characteristic of Gauguin.

The last of these people marking the turning point of painting was Van Gogh. Again this artist brings in something new by showing his sympathy with human nature. He could even show life in a pair of boots or a chair from which every conceivable atom of human existence seemed to be extracted.

### FOLLIES AND BAND UNITE TONIGHT IN DIVERTING SHOW

Dancers, chorus girls, and stirring scenes direct from the famous Follies of 1934 will divert an eager audience at Convocation Hall tonight, when Saul Rae's brilliant show unites with the popular Blue and White Band to establish a precedent in college entertainment. Selecting student talent of proven ability, and new musical numbers, including some of his own compositions, Mr. Rae promises a lively performance.

The fifty years' experience of Captain John Slatter, V.D., enables him to realize exactly what the modern audience desires. Consequently he has disciplined the forty-eight gifted bandmen for a meticulous rendering of the interesting programme which appears elsewhere in this issue. Every conscientious student with the true Varsity spirit is expected to lend his personal support

### FASCISTS IMPLICATED AS IRON OESPOTS

Force Used to Gain Control  
in Europe — Mr.  
R. C. Riddell

The policy of the Fascist parties has been to gain control of the political machine, destroy the opposing parties and then change the legislature so that they cannot be ousted. The various steps of this policy as applied to Italy and Germany were discussed by Mr. R. C. Riddell at Wymilwood.

"To secure control, force was used in both countries. A state of martial law was proclaimed against the Black Shirts in Italy, but the king refused to sanction it and threw in his lot with Mussolini," said Mr. Riddell. "In Germany the Nationalists needed Nazi support and for it conceded the key position" (Continued on Page 4)

## MEMORIES

1932—Tricolour takes B. W. and F. intercollegiate championship for the first time in twenty years; but the University of Toronto ladies' hockey team regained the intercollegiate title from Queen's to hold it for the ninth time in eleven years of competition.

1931—The sub-committee of the Hall Committee will meet tonight to investigate the conditions under which Hart House employees work.

1930—Despite the fact that Victoria and University Colleges went dry sixty per cent of the students were in favour of the sale of beer within the University grounds. St. Michael's College and S.P.S. voted decidedly in the affirmative.

1927—John Austin Worrell, K.C., D.C.L., the Chancellor of the University of Trinity College, died after a very short illness. He was a classical scholar of Trinity College and graduated in 1871 with highest honours.

## Strike up the Band!

Tonight the University of Toronto Band, representing seven thousand university students, stages its annual concert. Convocation Hall has a comparatively small seating capacity for an event of such universal interest; how nice it would be to see every seat occupied!

A great deal has been said about the band, pointing out that its members do a lot of serious work for very little reward, and that the band is a cause worthy of support. All perfectly true, but that is not all. The funny thing, which will not occur to most students, is that the band concert is really worth attending in itself. As an entertainment, at the extraordinarily cheap price of twenty-five cents, it gives more for the money than any other campus entertainment—a thoroughly enjoyable programme from start to finish, as we found out by attending a rehearsal yesterday.

The Blue and White band lists among its members some of the most talented musicians now attending the University. In addition there are guest artists, including the cast of the University College Follies, who add a touch of humour to the programme. The musical entertainment is of a light character, composed entirely of tuneful favourites, and is up to the usual Captain Slatter standard. Who could ask for more?

This is admittedly an advertisement for the band. There is no organization on the campus which deserves support more,—we can only hope that it gets the student support which its entertainment merits. Why should not you join the throng tonight, pay your silver quarter, spend a most enjoyable evening, and let the band know that its efforts are appreciated and enjoyed.

## "Monkey State"

The Well-Known Democratic System—3.  
There is nothing so dangerous as ignorance at work—Coethe.

Still stands the Monkey State. Last week, by a decisive majority, the Tennessee legislature defeated a bill which would have repealed the state law prohibiting the teaching of evolution theories in high schools. The vote was taken after a reading from the Book of Genesis.

We can at least admire the frankness of these people. They take no pains to disguise their outlook. The monument which they have raised to bigotry and intolerance is as bald and unadorned as a granite boulder. And like a boulder it stands across the path of progress, a narrow and steep enough path at best.

It was only ten years ago that the law went on the books, a fact which in itself should give a severe jolt to those inclined to optimism concerning the stage of human intelligence. It was tested immediately, in one of those world-rocking trials of which Americans are so fond. Though fought by the most renowned and erudite legal talent in the land, the law was upheld, and Tennessee became the "Monkey State". Last week it decided to remain so.

Nor is this the only instance. Not long ago the government of Nova Scotia rejected for use in schools of the province a history text book which contained a brief reference to evolutionary teaching.

It is interesting to note the rather surprising attitude of such people toward science. Ask them, is

this the scientific age? Why, yes, of course, they say immediately. But ask them, What is science? and they mumble vaguely about physics and chemistry and astronomy and biology and so on. Say to them suddenly, *Science is none of these things! Science is an attitude of mind!* and they stare at you aghast, for such things are beyond their comprehension.

Ask them, Do you allow the laws of physics and chemistry and astronomy and biology to be taught in your high schools? Certainly, they answer, our children must know the laws that govern the matter around them, for it is by these laws that the universe operates. Is man a part of the universe? you ask innocently. Why yes, to be sure, they agree easily. Well, then, *why don't the same laws apply to man, and to his origin and development, and to all life?* You've knocked them stammering. They are afraid to answer, for now you have introduced the scientific attitude into the mystic domain of Religion, where such unhalloved feet must not be allowed to tread. Stick to rocks and trees and moon and stars, and they are quite passively willing to accept the latest of 1935, but start mixing man into the scene and they automatically scurry back to the flat world of 1922.

And who are these strange, illogical people? They are the Fundamentalists, and they govern the earth, for their name is vast majority, and under a system which governs by counting heads instead of minds, they stand triumphant.

They call themselves Fundamentalists with pride, for they claim to read their Bibles according to first principles and literal interpretation. They are quite blind, for they fail to see what is most obvious about themselves: that they are not Fundamentalists at all, but the very opposite. They are *Superficialists*, and they read by literal interpretation because they cannot see the truth behind symbolic language. Fundamentalism they are in only one way: They share man's fundamental fear—the Fear of death and the unknown. All religion is for no other purpose than to overcome that Fear.

But until men are governed by quality instead of quantity, by intelligence, and reason instead of by the right of might, she will fight up a steep and rocky path!

## What is this S.A.C.?

Administratively Speaking . . .

Yesterday we got far enough in a discussion of the S.A.C. to outline its main duties. Today we will say a few words on its administrative and executive set-up,—in other words, just what makes it run.

The Joint Executive, your Student Handbook tells you, "consists of the presidents or heads of men and women student government organizations in each of the following colleges, faculties and departments of the University: St. Michael's, Trinity University, Victoria, Applied Science and Engineering, Dentistry, Education, Forestry, Medicine, Pharmacy, Emmanuel, Wycliffe, Knox, Household Science, Public Health Nursing, and Social Science."

In addition to these officers, there is the President of the S.A.C. who is a graduate and, in spite of all wise-cracks to the contrary, serves a very useful purpose by his ability to look at the S.A.C. and its student problems with a perspective that only years can give. There are two members from the professorial staff, whose influence and advice is confined to a great extent to financial affairs, although not necessarily so, and also the General Secretary-Treasurer, Mr. E. A. Macdonald and the Associate Secretary, Miss A. E. M. Parkes, both graduates.

This Secretary-Treasurer, Mr. Macdonald, Alex, or Sandy, depending on how formal you feel, is the ham in the S.A.C.'s administrative sandwich. His duty is to conduct the business affairs of the S.A.C. from his office, and as the mouthpiece for the S.A.C., he is midway between the University authorities, above, and the student body below. Thus he gets it both going and coming, but still keeps on putting on weight and retaining his popularity, which is a very good sign as well as being an accomplishment.

There are three main steering committees in the S.A.C.'s administration. There is the Publications Committee which deals with *Varsity* and *Torontoensis* problems and passes a judgment on to the whole council, the Finance Committee which passes on Financial matters, and the Debates Committee which handles intercollegiate debating matters. There are also any other sub-committees which are needed at the moment on other problems, which simplify the actual operation of the S.A.C.

The financial organization of the Students' Administrative Council will be treated in this space tomorrow.

## ART, MUSIC & DRAMA

### Royal Alexandra

Eugene O'Neill tags his play *Ah, Wilderness*, a "comedy of recollection", which explains to some extent that it is a good, conventional family comedy. It is explained that the play presents memories of the author's young summer plays in a small Connecticut town. Not only the material but the workmanship is that of an earlier day. O'Neill, the explorer and leader, has forsaken his post and, instead of monster characterizations and forced iconoclasm, he has given us a play more technically perfect, more in keeping with the demands of the professional theatre. Such are some random comments on *Ah, Wilderness* now playing at the Royal Alexandra with George M. Cohan in the lead.

Mr. Cohan has a fairly easy part to play, but no one could ever do for the part of the mild and humorous father of a wild and woolly, romantic son, what Cohan has done. He is undoubtedly the greatest trouper on this continent and probably the king of all he wished to view. He creates a living portrait of a man whom you really want to know. None of his movements are definite, he speaks through his nose, he stoops slightly, his low voice is seldom raised, yet he builds up a character which is so accurate to those across the footlights that, to the student of acting, there seems never to have been perpetrated a more beautiful and satisfactory lesson. Mr. Cohan only cuts his actions short when he is quite sure that the audience will add their own ending with considerably improved emphasis.

The rest of the cast are good in their support of the lead. One feels that O'Neill, in the best Shakespearean tradition, started to write a play about a young, small town youth, caught in the trap of Swinbourne, Shaw, Wilde and Ibsen and tantalized by the love that only adolescence can know, and ended up by writing a portrait of a harassed but humorous paterfamilias. And so the part of the young lad suffers. At first, the performance of Elisha Cook, Jr. as the son is distasteful, but as soon as he appears on the same set as Cohan, we are forced to reverse our opinion. The gawkiness and impetuosity is given meaning instead of appearing as just bad acting.

*Ah, Wilderness!* with George M. Cohan is a splendid show, to say nothing of the humour of the play and the joy to be had in the presence of America's great man of the theatre. The sets by Robert Edmond Jones, the acting and the play are all fine subjects for study by any student of the dramatic art. M.B.L.

Our little treatise on traffic regulations by means of Lifebuoy murals did not go over so well with a young lady in Whitney Hall. Just adding insult to injury, she says. Seems that in spite of the sign she barged across the intersection against a red light the other day, to be hauled up abruptly by a mounted policeman. The cop took her name and address, and warned her that a second offense would bring a summons for jay walking. The young lady justly complains that the Lifebuoy sign isn't the adequate prevention we thought it was. This incident does reveal a weakness in our scheme to do away with the city's pedestrian trouble,—but the cure for the difficulty is fairly obvious.

They might tear down the Wrigley ad on the other corner and replace it with one of Hatchway's locker-room scenes.

C-C

The Star again offers its humble contribution, hailing the innovation of government by proxy at our nation's capital in last night's paper with the head:

BENNETT HAS COLD  
GUTHRIE SENT TO BED

C-C

And from the *Work for Workers* column:

"A young married couple thoroughly experienced in general farming and dairying will pay a reasonable wage to right party, none other need apply. Would like to have you call and see me."

Some time.

C-C

Arranging a blind date for a couple of people is most embarrassing when you know both parties concerned,—you're liable to lose two friends instead of one; but Saturday night we picked them with fair success. At least, the last remark we heard from our pal was, "Tell me, are you prudish?" And from the gal, "That's your problem."

—The Muddy Yorker.

### A WOMAN'S POINT OF VIEW

To the Editor of *The Varsity*.

Dear Sir:

With regard to the last two articles entitled "Inconsequence", please allow me as a woman to bring up a few points on the opposite side. Of course, no one in their right senses would dream of taking these articles seriously, but as lately there has been in some quarters a tendency to think in this direction, a few words of contradiction are necessary. The writer of these items is apparently convinced of the complete worthlessness of the female sex. Apparently he is quite sincere but in his very sincerity he has taken a step in the wrong direction and cannot see his way clear.

In his judgment of women he has been using the wrong criteria. First he has looked for those women whose lives have really cast a shadow over the good name of their sex. Then he looks for famous women in the realms of the composers, of the artists, etc. In this viewpoint he shows an immature mind, a mind that has seen little of the world. There are some things that we must grant him. Women taken as a whole have an intelligence equal, if not greater than the man. In man, however, the range of variation is greater and so in the male sex we find our greatest composers, our greatest artists,—and our greatest criminals.

First we must realize that the woman was made as a helpmate to man. She was to be his inspiration, his ideal, and

## STILL IN A CLASS BY THEMSELVES

Smokers of the early 1900's preferred Sweet Caporal Cigarettes because they were the best Virginias it was possible to manufacture in those days.

To-day, Sweet Caporals are still in a class by themselves. The choicest tobaccos money can buy plus 1934's improved methods of manufacture have made them outstanding leaders. And the younger set have discovered what their elders long knew—that Sweet Caporals are better cigarettes and milder. You're missing a lot if you're not smoking them.

"The purest form in which tobacco can be smoked" *Lancel*

## THE SPORTSWOMAN

By M. A. F.

The Varsity intermediate basketballs were scheduled to play McMaster last night. They set out most optimistically in two ears but only the four in the first car made the grade; the second contingent got as far as Port Credit and then had to give it up. Naturally the game was called off as four players do not make much of a team. However, the girls are hoping that the game can be worked in later but as yet that remains to be seen.

You certainly missed something when you did not see that Varsity Western basketball epic at Kingston on Friday night. As you can well imagine a game with a 12-9 final total was a real thriller. Both squads battled hard from the first minute and it was a speedy, flashy brand of basketball which was exhibited. It is always a pleasure to watch Mary Wong, the leader of the Western sextette, in action and she played a lovely game, ably supported by Dot Rintoul, her co-forward. Dorothy Timpany on their defence line soon showed herself to be one of the ablest defence players in the entire meet.

For Varsity in this opening match, Kay Grubbe did some lovely work in centre position and some neat defensive playing. Kay Brown, Varsity's captain, played her usual speedy game and worked in well with Mary Carre, who played real basketball. Edie Ardagh was off her shot but did beautiful floor work.

The final game of the series was not as tight as this opening battle but during the fourth quarter reached a peak of intense excitement. Queen's forward string: Ruth Fischleigh, Kay Boyd, and Georgina Ross, were a joy to watch. During most of the game they had the ball in their possession. But when Doris Blackall and Dot Timpany got their defensive plays working really well they gave their forwards a chance to do some spectacular shooting to mount up quite a score but not enough to threaten Queen's title position. Kay Waying, the Tricolour captain, played a specially fine defence game.

McGill was the weakest outfit in the entire meet due chiefly to many long tosses at the baskets and lengthy passes. But they are evidently an awfully nice team to play against. Cynthia Bazin and Edith Walbridge are very good forwards and play well together. Ruth Russel did some nice steady defence playing and Elnora Adams is a guard who puts plenty of spirit and fight into the game. In the consolation match with McGill, Eugenia May, the 378 member of the Varsity sextette, made her first real appearance in the intercollegiate ranks and played a smart game, working in nicely with Kay Brown and Edie Ardagh.

Vic had a very encouraging swimming meet last night. Isabel Brown came out on top and two first year mermals ran her a close second. The calibre of the first year's entrants augurs well for the future of Vic swimming. Helen Kaufman, one of the spectacular freshettes, will be a particular threat.

## Sport Notices

### U.C. Senior Basketball—

Game with O.A.C. at Guelph, Wednesday. Bus leaves Bloor and Bay Sts. at 12:15 p.m. The following men will go: Hennessy, Laing, Culiner, Forsyth, Damsky, G. Lipman, M. Minsky, J. Minsky and I. Himel.

Group I: Sr. Vic, Knox, Pharmacy. Group II: Sr. U.C. or O.A.C., Denis, Jr. Meds.

Games this Week.  
Wed. Feb. 27—Sr. Vic vs Knox.  
Thurs. Feb. 28—Dents vs Jr. Meds.  
Fri. March 1—Knox vs Pharmacy.  
All games at 4:10 p.m. Rest of schedule will be printed later. Home and home games in each group with group winners playing off a best 2 out of 3 series.

## VARSITY BLUETTES TO MEET MCGILL

Intercollegiate Hockey Tilt will be Contested on Saturday

MACPHERSON IS COACH

Varsity's valiant blueclad warriors may have relinquished the intercollegiate hockey title to the fighting Redmen from McGill but the supremacy of the silver sheet has not yet been entirely captured for the Royal City. Toronto's Bluettes, intercollegiate senior ladies champions, do not intend to let the Ramsay Trophy, symbolic of their title, depart hence without a struggle. On Saturday they will do their best to set an example to the male blade artists as to what they should do to the eastern university's hockey team in the matter of hockey.

In the experience of this humble sports writer we have seen the struggling behemoths of the gridiron encased in sheaths of fibre and felt, struggle and crash each other; we have seen the brave valiant stars of English rugby, pivot, scrum, and tackle in their soccer get-ups; we have seen the Blue knights of the blades in their heavily padded shock absorbing accoutrements, swerve and skate on the frozen surfaces with reckless abandon; but never have we seen the same lion hearted thrusts as when we witnessed miladies of the wand, who disdain to encumber themselves with sufficient pads for protection, in other words, they travel light.

Just try to send out for example, one of our big stalwarts of the blades on the ice without the conventional shin guards and then watch the air become acrid with sulphurous smoke, yet the Bluettes go through their daily dozen without much concern in preparation for their hockey tilt with McGill Saturday night. That their courage and energy is great there is no question, when you consider that one of the sextette took an impromptu spill into a pool of water the other day, but continued playing.

Under the careful tutelage of "Gentleman Shamus" MacPherson, the University of Toronto sextette have been going through their paces faithfully and are out to assert the Blues' supremacy on the ladies intercollegiate ice lanes, synthetically, however, as there is no official competition this year. With only three of the old guard left (except it please)—of the old court—the Bluettes are facing reconstruction, but with a little patience the all-stars of intercollegiate ladies hockey will be knocking on the door of hockey efficiency, while ringmaster "Shamus" imparts his wealth of hockey lore.

Picking up the thread of intercollegiate hockey contests where the big Blue team left off, the University of Toronto Bluettes hope to emulate their success of last season in capturing the intercollegiate ladies laurels.

### WYCLIFFE DEFEATED IN BASEBALL SCRIMMAGE

Emmanuel, Holder of Group Title, Wins 10-5 Victory in Game

Emmanuel defeated Wycliffe 10-5 in an intercollegiate baseball fixture staged in the big gym yesterday afternoon. The game had no bearing on the group standing as Emmanuel had already won the title.

The Anglians could do little with a pair of pitchers tossed into the fray by the dissenters, while on the other hand the latter found no trouble in coping with the offerings of the low church twirlers. Young, Crosby and Amos turned in good performances for Emmanuel, while Fairweather and Peglar played good ball for the losers. Wycliffe: Fairweather, Kaminsky, Peglar, Nickle, Emmet, Huether, Ruci, Morissey and Symonds.

Emmanuel: Young, Moffat, Birch, Crosby, Martin, Husser, Boyd, Amos and Taylor.

Umpire: Carveth.

## SPEAKING OF SPORT

By B. J. McGuire

The sincere wishes of *The Varsity* staff for a speedy recovery, goes out to Bill Crockover, assistants sports editor of *The Varsity*. Bill was rushed to the operating table late yesterday with an attack of appendicitis. He was reported to be resting well last night.

Tonight the Varsity band hold their annual concert. The Blue and White clad buglers have made themselves the most popular band in the Intercollegiate Union and their efforts at Convocation Hall tonight should attract a large number.

One of the pleasing features around the promotion end of the athletic activities about the campus, is the way the customers are reacting to the lower prices. One of the mistakes many people made when the depression came along, was to believe that the public would continue to pay the same price for entertainment that they did when graduates were turning down 25 dollar per week jobs. This proved to be a false conclusion and more than one firm went broke before realizing it. Slowly, however, the correct proportion has been attained and the success of this move has been the steadily increasing number of customers at events.

One of the many examples of this is the fact that the events around the gym have met with a decided increase in attendance since the admission has been cut and the dance programme added. Saturday night's gym meet saw a capacity crowd on hand, and while the total "gate" was \$80.00, it was considerably more than would be received had the admission price been the amount which was customary in the past. Incidentally Wednesday night will see yet another of these popular priced programmes produced, when the Blue seniors meet Danforth. Following the ball game there will be a dance.

Victoria College are shaping up again as the team which will conclude the season in possession of the Jennings Cup. Last year's hockey champions last night concluded their schedule in the intercollegiate ranks with a 4-2 victory over Meds. The victory found them undefeated throughout the season, while the two goals they yielded last night represented one-half the amount they have had scored against them throughout the campaign. During the season they have collected 32 goals, while they have had 4 counted against them. This is certainly an impressive record.

BOBBY COULTER

Who was recently awarded the Johnny Copp Memorial Trophy. Bobby performed brilliantly on the Blue backfield in the gridiron campaign just past and is a worthy holder of the trophy. The terms of the award are as follows: 1. This trophy shall be awarded annually to that member of the senior rugby team who, in that season, by his sportsmanship, character, and playing ability, is adjudged the most valuable member of the team. 2. The annual award for 1934 shall be decided upon by the vote of the players who made the team in that year. 3. For the year 1933 the name of Johnny Copp was placed upon the trophy as the winner of the award for that year.

## VICTORIA CONTESTS MEDS IN HOCKEY

Scarlet and Gold Team Wins 4-2 to Complete Season without Loss

WAINWRIGHT SCORES FIRST

The fast breaking Victoria hockey team assumed undisputed leadership of their group at the Arena yesterday afternoon when they outskated Junior Meds to win by a 4-2 score, finishing the regular season without a loss and with a favourable goal record of 32 to 4.

Vic had considerable advantage of the play, particularly in the second period when they kept the puck inside the Meds' blue line about half the time, but good goal tending by Williams and some very effective body-checking by the Doctors' burly defence prevented a lopsided score. Meds played a rugged and careful game but were outclassed by the superior hockey ability of the Scarlet and Gold squad. Wainwright notched the first goal early in the first period to put Vic one up, after a nice gang attack by

Victoria. Meds began to force the play and Button evened the score, McEwen getting the assist. Play see-sawed for a while. Vic's speedy rushing being offset by the hard-checking of the Meds' defence. Vic's first line of Pratt, Monzon and Lavery began to click and Pratt and Lavery each nicked a goal to make the score 3-1 at half time.

The game speeded up in the second half and both goalies made some remarkable stops to keep the score down. Victoria was playing every man up when Wilson broke from centre with no one to stop him but the goalie and put Meds back in the running with a shot that Dickie hadn't a chance on. Vic continued to storm the Doctors' net and Meds came close on several rushes, but there was no more scoring until the last minute when Monzon scored on the nearest effort of the game, Meds having a man in the penalty box at the time.

Pratt, Monzon and Lavery played superlative hockey and with a goal each were mainly responsible for Vic's win. Wilson, Button, McKee and McEwen looked best for Meds.

Victoria: Dickie, Saunders, Wainwright, Pratt, Monzon, Lavery, Gregory, Grover, Joblin and Edwards. Jr. Meds: Williams, White, Anderson, Wilson, Bigelow, Ker, McKee, McEwen, Hickey and Button.

Referee: Sweeney.

A supply of Rings and Pins is kept in stock.

**STUDENTS' ADMINISTRATIVE COUNCIL**  
Room 82, University College and Hart House

First year students are not entitled to wear the Crest.

### S.P.S. AGAIN CHAMPIONS IN SHOOTING CONTEST

Arts Sharpshooters far Behind in Fight for Mitchell Cup—Sharpe Breaks Record

When the last shot had been fired on Friday night, and the last targets had been scored the range officers of the University of Toronto Rifle Association formally announced that the Mitchell Cup—emblematic of the intercollegiate rifle championship—will remain in the hands of S.P.S. for another year. The scores are the aggregate of the best two out of three "Mitchell Cup" targets, with teams consisting of the five highest aggregates in each faculty.

The sharpshooters from School compiled the record of 971 X 1000, and were never really close pressed by the Arts team with their total of 946, although the Arts high scorer—R. A. Sharpe—made the new individual record of 199 out of a possible 200. The following picked shots were of intercollegiate calibre: S.P.S.: R. L. Broad, 195; J. E. Lee, 195; W. R. Tutton, 195; F. B. Pickett, 193; S. M. Rothman, 193. Arts: R. A. Sharpe, 199; P. Helfrich, 188; D. Elmle, 187; J. Donahue, 187; D. G. Ritchie, 185. The other faculties were far shot of the marks set by the two high teams.

The Mitchell Cup itself is a handsome trophy presented to the Rifle Association in 1926 for annual inter-

faculty competition, by Brig-Gen. C. H. Mitchell, Dean of the Faculty of Applied Science. For the past four years Dean Mitchell has presented silver pins to the members of the winning team.

It was also announced by the range officers that the University team entered in the Toronto Civilian Indoor Rifle League is well up among the league leaders, and has a very good team average. A team entered in the inter-University competitions is shooting against the crack shots of the other Canadian universities. The members have every hope of bringing another intercollegiate title to Toronto.

8 p.m.—Combined meeting of University, Trinity and Victoria French Clubs at Wymilwood. Debate, music, charades and refreshments.

### WEDNESDAY, FEBRUARY 27

8 p.m.—English and History Club at Miss McLean's, Bayview Ave.

7.30—Victoria Junior-Senior dinner in Burwash Hall. Meet up till 7.15 in Annesley Hall.

6 p.m.—Nominations for Hart House Standing Committees and Camera and Squash Raquets Committees close—Hart House Debates Committee elections.

### THURSDAY, FEBRUARY 28

1 p.m.—Liberal Club luncheon meeting. Speaker, Mr. W. L. Houck, M.P.P., Niagara Falls. Tickets may be obtained from executive.

### FRIDAY, MARCH 1

9.30 p.m.—Dental At-Home in the Roof Garden of the Royal York Hotel. Music by Karl Mueller and his Varsity Entertainers. Dancing 9.30 till 11. Ontario College of Education annual At-Home, in the Music Room, Hart House, with Hal Taylor and his orchestra.

### SATURDAY, MARCH 2

8.15 p.m.—Victoria College Dramatic Society At-Home in Wymilwood, with Hal Taylor and his orchestra. Toronto and Regional Student Peace Conference, Lecture Hall, Economics Bldg. All campus organizations are invited to send delegates.

### SUNDAY, MARCH 3

Toronto and Regional Student Peace Conference, Lecture Hall, Economics Bldg. All campus organizations are invited to send delegates.

### MONDAY, MARCH 4

4 p.m.—Debating Society meeting in the Women's Union. Elections. Awarding of trophy. Tea will be served.

University Arts Women's Club annual reception, Women's Union, 79 St. George Street. Arch Crossley at the piano.

### TUESDAY, MARCH 5

4.30 p.m.—Press Club meeting at the Women's Union. Tea will be served. 6.30 p.m.—Hart House. U.C. graduation dinner. Class of 375 complimentary, all others must pay.

8 p.m.—Italian-Spanish Club; President Cody, "Italy through Canadian eyes"; singing, refreshments.

### WEDNESDAY, MARCH 6

Hart House Elections. University College Freshman Dance, Maloney's Galleries.

### Fascists Are Iron Despots Says Mr. R. G. Riddell

(Continued from Page 1)  
tions in the cabinet to Hitler and his colleagues.

The destruction of political opposition in Italy was simply achieved; Mussolini, having no majority, appointed new representatives with the support of the king and the so-formed body was used for purposes of intimidation. Although attributing the Reichstag fire to Communists and so proscribing that party, the Nazis did not get a clear majority in the German election of February 1933. But in June of that year the Social Democratic party was declared illegal because of "unreasonable literature." The National party voluntarily dissolved itself and the Liberals also gave up from too much harrying. A law was passed prohibiting the establishment of any new party—the National Socialist Workers' Party alone might exist.

A Fascist principle is the devolution of power from above. In Germany decrees were passed taking the sovereign powers from states. Regents were installed, responsible to the Minister of the Interior. In Italy the local officials are "podestats." Even the smallest unit is under the control of the central

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at either the men's office in Hart House, or at the women's office in University College. No notices will be taken over the telephone, after 6 p.m. notices must be taken to the Press Building. Notices for the Bulletin Board are limited to ONE insertion only.

### COMMERCE CLUB

Watch for the Commerce Club Journal! Copies will be available at end of the week. Outstanding articles by some of Toronto's foremost economists.

### T. C. S. C.

On Thursday, February 28, the Trinity College Science Club will observe "Canon Rollo Night." The speaker for this occasion will be Mr. Graham Millar, whose subject, "New Developments in Meteorology," should provide a great deal of interest for the club. The meeting will take place at 9 o'clock in the Dean's house.

### UNIVERSITY FRENCH CLUBS

8 o'clock tonight (Tues., Feb. 26), combined meeting of University, Victoria and Trinity French Clubs at Wymilwood. Debate, music, charades and refreshments.

### FRATELLANZA

Members are advised that the date, tentative as yet, for the annual banquet, is set for Tues. Mar. 5th. Definite news can be expected in these columns in a few days. This is due to unexpected circumstances.

Nominations for Victoria College executives will be received by Ross MacDonald in the college hall, 1.30-2, 4.30-5 p.m.

### U.C. FOLLIES

Chorus and principals will rehearse in full 1 p.m. today in Convocation Hall.

Toronto Intercollegiate Christian Union. Rev. C. J. Rollo will speak today at 5.10 p.m. at Wymilwood.

### MEN'S GLEE CLUB

Rehearsal today at 5 p.m. in Hart House Music Room. Important announcement concerning future activities of the club.

### WOMEN'S PRESS CLUB

The regular meeting has been postponed until Tuesday, March 5. On that date the winners of the short story contest will be announced and pins will be awarded.

### RIFLE ASSOCIATION

The last Spoon Shoot of the year is being held during this week. All members should be down for this match as there will be at least two prizes in each group, and this match must be fired in order to qualify for the Henderson Pins. Watch for further notices of the coming Novelty Match.

There will be an open meeting of the Avukah Society in the Women's Union on Wednesday, February 27 at 8.30 p.m. Prof. V. Lange will be the speaker of the evening. Everybody welcome.

### ST. MICHAEL'S PARLIAMENT

Third meeting, college auditorium, 8 p.m., Tuesday, February 26, 1935. "Resolved that this house does not favour co-education." A. Harris, speaker; P. O'Byrne, clerk; A. J. Wasylenko, premier; R. Aulenbacher, leader of the opposition.

### PHILOSOPHY CLUB

The Aristotelian Society will meet on Tuesday night, Feb. 26th, at 8 o'clock in the Women's Union. Professor MacCallum will address the club, after which refreshments will be served.

### HART HOUSE DEBATE

Tomorrow, 8 p.m., "Resolved that this House has confidence in His Majesty's Government in Ottawa." Election of Debates Committee.

### U.C. PARLIAMENTARY CLUB

Thursday, February 28, 4 p.m., Junior Common Room. "Resolved that the Members of this House thank God that they are not as other men." His Excellency the Governor-General will dissolve parliament. Pivnick, Speaker; Buck, Clerk; Shaffer, Premier; Bryce, Leader of Opposition.

### ITALIAN-SPANISH CLUB

The fifth meeting of the Italian-Spanish Club will take place at Wymilwood next Tuesday, March the fifth, when President Cody will speak to the club on the subject of "Italy through Canadian eyes." There will also be singing and refreshments afterwards.

## 'TWIXT TWO

Dear Ted—

If you have an opinion on any subject, surely it isn't necessarily a criticism, is it? It occurred to me lately that all our discussions have been chiefly a criticizing of existing groups and functions—and it is rather hard criticism too—or one might even say it was a rather cynical and self-assured airing of opinions.

Consider the various topics we have discussed: public service—we can't trust any of our public men; religion—nobody is interested in religion now; pacifism—this is not a practical policy and therefore worth little; public speaking—this is merely a method of showing off your importance to others; the press—it isn't worth much because

people don't want it to be; co-education—it is so badly worked out here, that it might just as well not be in existence;—and others too. Is there nothing that we can consider worthwhile in this University, or is it all a lot of rot? If so, then this must be a pretty poor place in which to exist.

Criticism is good in its place—but not when it exceeds this. People say, "Criticism is necessary in order to discover the true value." Quite so, but in many cases it conceals rather than reveals this "true value." To all these questions there is another side absolutely, and it is this that I should like to hear discussed for a while.

—Phyll.

## If You Want To Draw Like Hewitt This Is How He Learned To Do It

"Screech . . ." your scribe stood transfixed as a piercing cry rent the atmosphere. Looking up toward an open window we beheld an athletic-looking chap whose fingers were clasped about the neck of a gorgeous specimen of femininity. We dashed to the rescue and banged at the door, which was suddenly opened by the very man we sought. "What were you doing to that girl?" "Oh, I'm Hewitt, you see—" "I don't care if you're the whole Maple Leaf team, you can't commit murder on this campus." "I mean I'm the artist, that was one of my posters, the scream was the radio."

Hewitt suggested a personally conducted tour. We were in a disused stable and went up a narrow, twisty stair into a two-roomed studio. "This is a Hart House election poster," said he. "It is, as you see, a picture of Hart House supported by the candidate's

name, suggesting that he will support that institution.

I have always wanted to draw. In public school I drew on my desk, in high school I drew on my textbooks, and in University I drew on my imagination. In first year University College I ran for the executive and drew my posters. They attracted attention and I began to get orders. From then on I drew for every important college event.

Mr. Hewitt was formerly advertising manager of Canada Packers and does many of the posters for the Exhibition. He has lived three years on the west side of the campus where he is bothered by souvenir-seekers. He showed The Varsity some nudes but refused to give us one for the office, compromising by giving us a picture of a pig, labelled "Affectionately yours, A. W. B. Hewitt."

## ISOBEL BROWN TRIUMPHS IN SWIMMING MEET

Despite the mistake in the announcement as to the place of the Varsity swimming meet there was an enthusiastic though small turnout at the U.T.S. pool last night. Isobel Brown, II, carried off the honours in her usual manner, with Helen Kaufman, I, and Isabel McIntosh, I, close rivals.

### PLUNGE

## Bennett's Proposed Reform Criticized by C. C. F.

(Continued from Page 1)  
ed herself very forcibly. "The C.C.F. proposes to cut the dead hand of the sinking corpse of capitalism from the helm, and to return to the people of this country the natural resources which hungry capitalists have taken from them and abused. The C.C.F. will expedite any reform measures which Mr. Bennett during the balance of his term as Prime Minister may introduce, but in the final analysis the C.C.F. stands not for reform but for reconstruction."

## 18th Century Art Likened to Modern

(Continued from Page 1)  
jections. This tendency towards confused and unnecessary ornamentation showed itself in all crafts. The twentieth century has brought a return of eighteenth century principles, with an even wider application. Art is again simplified and hideous decoration entirely removed. In architecture we notice a stylization of design, not, however, a feelingless one, but one pervaded by an inward spirit that dominates the structure. Art and life have again united. The unnecessary and unreal are rejected, and the necessary is made beautiful by its simplicity.

## Method of Appointment Favoured by S.A.C. Members

(Continued from Page 1)  
Mr. D. P. Rowland, president of Knox College Undergraduate Association, stated that as far as his college was concerned the president was in touch with all the various activities in a way that would be impossible to a special representative. He also said that the S.A.C. dealt impartially with each college.

Mr. E. L. Bancroft, president of the Dentistry Society, expressed his opinion that there was no point in his faculty having a special S.A.C. representative since it was such a small one that it is easier for the president who is already in touch with the students to represent them on the council.

Mr. A. L. Crossley, president of the Forestry Society, enlightened The Varsity by telling them that three years ago their society had received special permission to appoint its vice-president as the S.A.C. representative. This, he explained, was a special dispensation allowed them because their president is always a fourth year man who must of necessity spend part of the fall at camp.

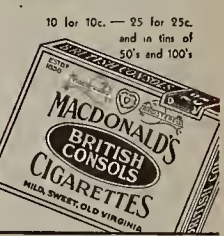

## J. R. Drummond Winner Of Chess Championship

The pushers of pawns and shifters of bishops, in the shape of the Varsity Chess Club, have recently completed a tournament which has been in progress for the major part of the winter. These intellectual aristocrats have gradually, over a period of weeks, sorted themselves out in order of merit and acclaimed J. R. Drummond as winner of the 1935 chess championship in the University of Toronto.

Those who are sufficiently acquainted with the game will appreciate his score which was 10½-14 by means of which he defeated A. D. McConnell (10-2) and R. B. Hayes (9½-2½).

There are two little girls in town. Whom you never see wearing a crown. For they're found by a test. The cigarette they like best. It's BRITISH CONSOLS, the smoke of renown.

Smoke a FRESH cigarette

COLLECT THE CARD PICTURES

## CORRESPONDENCE

(Continued from Page 2)

it was to be she who would bring up the children to a wholesome and pure family life. As a start we will look for great women judging them by attributes they possess but which are present in man to a much less extent. Men who have observed life unite in saying that whenever a man and a woman are together it is the woman who sets the standard of behaviour of the two. The girl will pull the man up to her level or else she will pull him down. The man is almost powerless when it comes to changing the girl. It is in keeping the home together, and managing it with infinite patience that the woman excels. No man can undertake this job. Perhaps he is a good cook, or perhaps he is a good dress-maker, but if his wife dies he will be able to take her place unaided? Will he be able to look after the children, support them and give them the love that only a mother can? If the husband dies it is a different proposition. The woman can and does manage and is rewarded by greatest success both in her own life and in her hopes for her children.

These qualities in a woman enable her to take the lead in many activities which Mr. Samson prefers to ignore. Mr. Samson, why did you neglect to mention Elizabeth Fry? M. Perry Mills says, "By her aid all the prisons of the world became kinder and better places." It was she who taught us that prisons were made for improving men and for punishing them. Perhaps Mr. S. has never heard of "The Lady with the Lamp"—Florence Nightingale. It is to her that we owe modern nursing, and the cheerfulness of our hospitals. It is the woman who works hardest to better the conditions of the poor and suffering. In short, woman is the reformer.

Also Mr. S., if we consider the ratio of brain size to body size we get the following order: the child, woman, man. Considering skeletal evolution—woman, man, ape. The bones of a woman are more rounded and smooth, especially in the skull, those of the man are rough like the primitive omnivores. Men have developed brute strength, while in woman the hardest of work—even in the mines of Africa, does not destroy the symmetry of their form. There is not a muscle bulging. And also Mr. S., the body of a woman is beautiful because the way we measure beauty is in terms of utility. And a woman's body was not intended to have broad shoulders and narrow hips. No, of what use are they?

Yours mediocrally though not of the third sex,  
Bumper.

UNIVERSITY OF TORONTO, WEDNESDAY, FEBRUARY 27th, 1935

No. 95

### NEWS OF THE WORLD IN BRIEF

Geneva—Officials fear another severe blow at the League of Nations since Mussolini threatens to invade Abyssinia with seven or eight million men whom he holds in readiness to "face any eventuality".

Paris—Paris is threatened by floods after a week of storms which have caused the Seine river to rise at the rate of a foot a day. The gale wrecked the dirigible hangar at Rochfort.

London—Europe's great criminologist, Sir Bernard Spilsbury, believes that the human legs found wrapped in paper in a railway coach at Waterloo Station may have belonged to a youth masquerading as a woman.

Hong Kong—The inhabitants of an island at the mouth of the Pearl River have risen against the peril of leprosy by a massacre of the twenty-four afflicted sufferers in their midst.

Paris—General Victor Demail, the French air minister, declares that the force he commands will be equal to any in the world by the end of this year. The government has introduced in the Senate a measure designed to give added air security at once.

Washington—Devalued currency was offered to Panama by the United States to meet the \$250,000 gold coin obligation to that country. Panama officials returned the cheque, and demanded gold only. The problem is still under consideration.

Berlin—The police raided the library attached to the Soviet Tourist Bureau, Moscow's travel agency, seizing certain books that deal with the Chelivskii Arctic Expedition of last year. No reason was given for the move which has excited the Soviet Embassy.

### DEBATES COMMITTEE CANOIOATES ANNOUNCED

Rae and Marshall Retain Places  
Six Others to be Elected  
Today

Mr. A. D. B. Marshall (III U.C.) and Mr. S. F. Rae (III U.C.) have been re-elected to the Debates Committee for 1935-1936 and the remaining six members of the committee will be elected at the debate tonight from the following candidates:

J. E. L. Graham, III U.C.; C. C. Hoag, III S.P.S.; G. Ignatieff, III Trinity; J. L. Jefferys, III Trinity; R. S. L. McAdam, III Trinity; M. Mirsky, III U.C.; R. R. Munro, III Victoria; G. E. Proust, II Victoria; D. F. L. Scollard, II St. Michael's; B. Shaffer, III U.C.; W. C. Smith, I U.C.; M. Wayman, III U.C.

### Art Lecturer In Sketch Room To-day at 5 p.m.

The Sketch Committee have been fortunate in securing Mr. J. E. Barton, who is visiting Canada under the auspices of the National Gallery, to speak in the Sketch Room of Hart House at 5 p.m. today. Mr. Barton is Headmaster of a large school in Bristol and is well known as a lecturer over the air, being regularly chosen by the B.B.C. for this purpose. He is sympathetic with the layman's point of view and is anxious to encourage laymen to look upon the arts as a stimulus to life and education.

### FLYING COURSE TO BECOME PART OF CURRICULUM

Hope Felt that Practical Aero-  
nautics to be Taught  
Here Soon

THEORY TAUGHT HERE NOW

Hailed as Vocational and Re-  
creational Course in  
States

The likelihood of an actual course in practical flying becoming part of the curriculum of the University of Toronto, although remote, is only remote as far as time is concerned. According to Mr. W. J. Dunlop, head of the University Extension, the idea is a perfectly plausible one, in fact it has already been tried out.

"Several years ago," said Mr. Dunlop, "the Toronto Flying Club offered free lessons during the summer for any students who were interested in flying. I have not heard anything about this offer lately so that I don't know whether it still stands or not. There was a good deal of enthusiasm shown for it at the time."

At Kenyon College, in Ohio, where the only flying course in a college in the United States has just reached the conclusion of its first term, it is not offered as a vocational course but rather as a form of recreation, and as such it has become so popular with the students that it has been restricted to the upper classmen. If such a course should ever be started at the University of Toronto, it would be more than a mere recreation.

### NEED SUPERSTATE TO ENSURE PEACE

Canada's Record at Geneva  
Reviewed to Show  
Deficiencies

CANAOA TO SECEOE

The question of whether Canada wants peace or not was discussed by Mr. Escott Reid at a meeting of the Youth Unit of the League of Nations and the Friends group at the Friends' Meeting House Monday. Canada has no ambitions to fulfill and no grievances to redress by war.

Canada's record at Geneva is as bad as any other country's. It did plenty of damage for its size and if it were larger it would probably have done more.

(Continued on Page 4)

### VOCATIONAL GUIDANCE GROUPS MEET TODAY

The vocational groups to assist Victoria College students in the choice of professions will be continued this week. Today two of these groups will be held, one discussing Finance in Room 18 and another discussing Journalism and Publishing in Room 14. Tomorrow, the group in Room 18 will deal with Life Insurance, while the one in Room 14 will study Industrial Research. These groups are conducted by men who have had valuable experience in the field with which they deal. They will first give a short general talk on the subject and then the meeting will be thrown open for general discussion.

Dr. K. S. Bernhardt will give personal consultations in the Senior Common Room on Wednesday from two o'clock until five-thirty. To meet Dr. Bernhardt an appointment must be made by signing the sheet provided for that purpose in the Victoria College office before noon today.

### Exom. Applications

Students in the Faculty of Arts are notified that the examinations in those pass subjects offered as options along with Religious Knowledge in the Honour Courses in the Faculty of Arts will be held on April 30th. The time and place of the examination will be indicated on the timetable of the annual examinations.

### STUDENTS DISCUSS LEISURE READING

"Library Night" Held in Hart  
House to Talk About  
Books

REV. OR. SCLATER SPEAKS

At the second "Library Night", held last night in Hart House, Rev. Dr. J. R. P. Sclater, spoke on "My Leisure Reading". Owing to the success of this innovation some weeks ago, the Library Committee decided to hold another such informal meeting last night.

On account of his profession, Dr. Sclater said that he found it very difficult to do any reading without always subconsciously being on the alert for material for sermons. "To the average person," he stated, "the greatest difficulty of the present day is to find time to read." From this scarcity of time, the habit of "skipping" and thereby losing a great deal of the value of books is developed. Even leisure reading should be done with a pencil, and a mental habit to mix enjoyment with something which improves and betters one should be cultivated, while reading for mere pleasure may become a fearful waste of time, he explained.

"Reading," he quoted, "is something which helps us to enjoy life or endure it." In choosing books which are best suited for this purpose, one is guided chiefly by some unwarlike desire to do something in relation to the subject with which the book deals. Reading of history which is centred around a personality and which takes us back into an age, and among a people for whose mistakes we are not responsible is an

(Continued on Page 4)

### NOVEL EDITION OF U.C. MAGAZINE APPEARS FRIDAY

"The Undergraupe" to Have  
New Cover, New Shape  
and New Features

G. F. LEVENSTON IS EDITOR

Circulation Has Increased  
to Ensure Financial  
Success

On Friday morning the Undergraduate, official yearly magazine of University College, will go on sale to the women of that college. Copies will be distributed to the men on Monday. Under the editorship of G. F. Levenston, with H. L. Rowntree as Business Manager, the whole structure of the magazine has been changed. There now appear departments on Political Economy, Music, Art, Drama.

"We have worked hard to make this publication of interest to every member of the college," Mr. Rowntree told *The Varsity*. "In many places instead

(Continued on Page 4)

H. L. ROWNTREE

Business manager of "The Undergraupe", University College annual magazine, which is scheduled to appear on Friday.

### Two Curious Writin' Fellers Explore Around U.C. Cellars

Above and beneath the prosaic layer of corridors, lecture rooms and offices are the towers and dungeons of U.C. To bring these outlying regions within the ken of those lacking the pioneer-and-sleuth qualities which are necessary for ferreting them out, two students undertook the perilous expedition of which the following is an account.

The centre tower was found to consist of an ever-winding spiral staircase which eventually spun them onto a balcony which is chiefly notable for its view. The west tower is the pigeon's paradise. After climbing three flights of rickety stairs, and three dust-laden step-ladders, the dare-devil explorers had themselves hoisted aloft onto a still higher beam in order to be able to report that they had gone in the words of their guide, "as high as anyone ever stood". Having accomplished this, they made the perilous descent and proceeded to the dungeons.

These were reached through a long, pitch-dark tunnel, no wider in places than the span of their shoulders, so low that it was impossible to stand upright. Underfoot it was rough and rats squeaked. From its tortuous recesses, the adventurers emerged into a series of small arched rooms (the

dungeons) which contain piles of jars reputed to have held jam, four bronze busts of their forefathers concealed beneath layers of dust, forsaken debris of all kinds. As the explorers turned to leave the eerie depths, the college spirit was heard to wail! They immediately set it free and it is now haunting *The Varsity* office.

They turned next to the sacred precincts of Croft House, resplendent with chalk-white walls and raspberry-pink furniture. Portraits of ancient professors, relics of the building which was burned in 1890, part of a silver tea-service—such are the surroundings amid which the staff enjoy their afternoon tea.

The real Explorers always set up a North Pole, or at least carve their initials somewhere. In view of the impropriety of either of these roads to everlasting recognition, the student sleuths were content to perform a good deed, unsuspected and unsung. That afternoon the professors' tea was made with water put on to boil by the afore-said "Lord-high-everything-elses."

N.B. Scottie will absolutely conduct no more tours for anything less than a fee.

### Squash and Camera Nominations To-day

Nominations for the standing committees and the Camera and Squash Racquets Committees close tonight at 6 p.m. Withdrawals will be accepted until 6 p.m. tomorrow night.

### FINAL SESSION TODAY OF U.C. PARLIAMENT

The sixteenth and final meeting of the University College Parliamentary Club will be held tomorrow, Feb. 28, in the junior common room at 4 p.m. The resolution on the order paper is as follows: "That the members of this House thank God that they are not as other men."

His Excellency the Governor-General, Lord Sydney of Hermant and Heath, will be present and will dissolve parliament. Right Hon. N. M. Pivnick is to be Speaker of the House and the Hon. Hart Buck will continue in his seat as Clerk. Right Hon. Bernard Shaffer as Prime Minister, will uphold the motion, supported by the Right Hon. A. C. Smith, while the Hon. George Bryce, as Leader of the Opposition, will oppose the issue.

### M'GILL STUDENTS DEBATE TONIGHT

Debates Committee Elections  
to be Important Feature  
of Evening

40-VOTE RULE IN EFFECT

Mr. P. Vineberg and Mr. A. Pick, two students from McGill University, will be present at the Hart House debate tonight to take part in the discussion. The former of the visitors is to oppose the motion while the latter is going to uphold it. The resolution to be moved is: "That this House has confidence in His Majesty's Government at Ottawa."

Mr. K. M. Mayall is the first speaker of the evening, and he will be followed by the two gentlemen from Montreal. Mr. A. C. Smith will vacate his position as speaker in order to take part in the debate from the floor. Mr. S. F. Rae is to take his place for the evening.

Tonight also marks the night of the election of the Debates Committee, and the forty-vote rule will be in effect for the first time. Voting will begin at ten o'clock and ballots will be given out till eight-ten.

### STUOENTS DEFEAT FACULTY IN CHESS TOURNAMENT

Last night the students avenged their defeat at the hands of the Faculty last year by winning the annual Staff-Students chess match to the tune of 5½-2½. On the first board R. B. Hayes drew with Professor G. W. Knight in a game of missed opportunities. R. Drummond, club champion, had things all his own way and easily defeated Professor V. G. Smith. On the third board, the club president, A. D. McConnell, early won two pieces and so defeated J. Hviltitsky, although it is claimed the latter missed a way to draw. C. Morrison notched the first point for the staff by neatly trapping I. Kaplansky's queen. P. P. Paisley won from Professor Barnes in an interesting game. Professor Speakman defeated G. Nicholson in a well played game, at the same time notching the Faculty's other win. D. Scott defeated Professor Grube in another well fought game on seventh board. H. Richman was successful in vanquishing Professor Moffat after a strenuous session, making the final score five wins, one draw, and two losses for the students.

### SPECIAL SERVICE FOR STUDENTS GOING ABROAD

Canadian Universities Choose  
J. R. Johnston as Travel  
Secretary

ON STAFF OF HART HOUSE

Many Students Have Already  
Had Invaluable Assistance  
from Mr. Johnston

The past few years have seen a tremendous increase in the number of students crossing the Atlantic during the summer vacation. Most of these prefer to travel on their own rather than to join tours and wish to arrange their trips as cheaply as possible. During the summer of 1934 an interesting experiment was carried out in connection with Canadian university students visiting Europe. Arrangements were made in consultation with the Warden of Hart House, Mr. J. B. Bickersteth, for Mr. James R. Johnston to spend the summer months in London for the express purpose of assisting Canadian undergraduates in every way possible. Mr. Johnston is a graduate of the University of Toronto and was for many years on the staff of Hart House. He spent a winter at the London School of Economics and later travelled extensively in Europe. He thus was able to make many valuable connections in England, France, Germany and Russia and being a Canadian he understands what the Canadian student, travelling cheaply and wishing to use his time to the best advantage, needs. Last year he

(Continued on Page 4)

### CAMPUS TO HAVE RADIO STATION

Next Year Licenced Students  
to Operate Station Known  
as VE3KI

BUILT BY GRADUATES

The University radio station VE3KI, located in the Electrical Building, is nearing completion. When finally assembled it will operate as an amateur short-wave station. However, it is not likely to be used officially by the students this academic year.

Next term, we understand, it will be open to students with operator's licences and to those in the final year of Engineering with radio option. Students will be allowed to use the apparatus only in definite periods assigned to them, but just how far in addition the privilege of using the station will be extended it is impossible to say as yet.

The work has been done to quite an extent by students in post-graduate work. The station will have a power of one hundred watts and all calls will be by telegraph as is the case in commercial short-wave stations.

### MEMORIES

- 1933—Cockney is basis of Oxford accent according to Miss Sally Lunn of Cambridge University.
- 1931—Atheism denied and action urged against *The Varsity* by the Board of Governors.
- 1930—A motion condemning the Wheat Pool was defeated in a Hart House debate.
- 1928—A large collection of Empire Stones was placed in the Museum.

## That Portuguese Course

Last week *The Varsity* drew attention to the fact that there was no Portuguese taught at this University and suggested that some instruction in this language should be given. We have enough students interested in it to make it worthwhile adding to the curriculum and a staff which though to some extent overburdened yet is competent to lecture in the subject. One of the chief difficulties is the fact that while the Library has some of the old classics it is distinctly lacking in reference and contemporary literature.

Yesterday President Cody assured *The Varsity* that it had his sympathy in the matter, and thought that an appropriation might be found to acquire the necessary books. The chief remaining difficulty is getting the recommendation passed through the Arts Council, which we hope will not be impossible since there is a genuine interest on the campus regarding this affair.

If the matter is favourably received, it is suggested by the Italian-Spanish Department that a course in Portuguese be offered as a pass-subject option to students of the fourth year with a sufficient knowledge of Romance languages that the course could be fairly rapid and thorough. We should also like to see third-year Moderns students granted this privilege because there is a good number of these eager to take the subject, and as the first year would of necessity be mostly linguistics a second would enable them to go more deeply into the language and study the literature. At any rate, this privilege ought to be extended to the third-year matriculants in Spanish who to all practical purposes are fourth-year students.

While the new calendar has been approved and will soon be out, President Cody stated that the Senate could sanction an addendum, a thing that has been done before, which would give us the subject as one of next year's courses. We hope this can be arranged as there are several students who would like to take the course and who under a delay would graduate before it were possible.

Whatever has to be done, we should establish Portuguese lectures here as soon as possible. Everything is favourable and there is no reason that the language of two such great nations as Brazil and the Portuguese Empire should be neglected any longer.

## Fascinating Work

There is a fascination about the person who has succeeded in becoming wrapped up in some work. Succeeded is used advisedly, because effort goes hand in hand with the achievement. Those who have heard Dame Sybil Thorndike speak on the subject of theatres must have experienced such a fascination, for her personality is so evident in her manner of speaking of her profession.

Success, and a vital interest in one's work are often spoken of synonymously. It isn't necessarily so. Success begets interest, but that interest seldom attains radiating fervor. It is only when such fervor it attained that it can be felt and appreciated by others.

Success is a normal and legitimate desire of mankind. The number of people who know how to attain it, is relatively large; while the number who make a practical application of their knowledge is rela-

tively small. The reason being that the majority of those who know what they want and how to get it, shrink from paying the price.

Observation reveals that the lot of the diligent isn't hard; rather, the contrary is true; for by some compensatory decree, the individual with the greatest ability to work, has, invariably the greatest ability to play. The attraction of the personality absorbed in some task, may be partly hidden in that quality. Those who spend themselves most freely in work, are, simultaneously equipped to enjoy most fully the Portuguese Empire should be neglected any longer.

## What is this S.A.C.?

Where Your Two Dollars Go

Previous articles under this heading have dealt with the various functions of the Students' Administrative Council. Today let us consider the financial end of things.

No doubt most of our student readers have wondered at some time or other just what becomes of the two dollars which is contributed annually to the Students' Council by each undergraduate, but few take the trouble to find out. This is probably because balance sheets are extremely dry things, and somewhat difficult to understand. The story told by last year's accounts is below, and it will be approximately the same this year.

The total revenue which flows in to the coffers of the S.A.C. each year is about \$28,000. For the sake of simplicity this may be divided up into four main accounts, namely Administration, *Torontonensis*, *Varsity* and the Student Handbook.

Revenue for the Administration account consists of fees and interest on investments amounting to about \$17,000. This includes the compulsory fee for *The Varsity* which is one dollar per person. From this account are paid the necessary salaries and office expenses for the office in Hart House and other expenditures which the S.A.C. incurs, such as grants to the band, the N.F.C.U.S., the I.S.S., the Convocation garden party and various official dinners, publication of the Student Directory and debaters' expenses for intercollegiate debates. It also includes a grant of a little over \$1,000 which covers all the exclusively women's activities of the S.A.C. under the direction of Miss Parkes. Among these activities is the book exchange, operated through the S.A.C. office in University College, for the use of women only. These administrative expenses total about \$8,000, and leaves about \$9,000 to be used for the publication of *Torontonensis*, the Student Handbook, and *The Varsity*.

Revenue from the sale of advertising and space in *Torontonensis* is approximately \$3,600, and the cost for printing, engraving and so on is about \$6,000, which leaves a deficit of about \$2,400 to be met by the S.A.C. It is for this reason that the S.A.C. fee is higher to students in the graduating year, in order to help cover the cost of the *Torontonensis*, which they will be given upon graduating.

*The Varsity* revenue from advertising and other sources exclusive of fees is about \$6,000 per year, and the cost of printing, salaries, travelling and editorial expenses about \$9,500, leaving about \$3,500 to be met from the S.A.C. funds. This works out to something over fifty cents per year for each student, and we await a flood of letters saying that it is a waste of money. The Student Handbook or Bible, just about pays for itself, with a revenue of \$1,690, and expenditure of \$1,730 for printing costs, etc.

The accounts of the S.A.C. are audited twice a year by a perfectly reputable firm of Chartered Accountants. Their statement, of the S.A.C.'s Assets on June 30 last shows the rather remarkable total of \$24,137.01 Assets with practically no liabilities at all. This surplus is either invested in high grade securities, or else used in the form of student loans. This year a little over two thousand dollars was loaned to students from this fund, which will probably be the subject of the next article in this series.

The old-fashioned woman who darned her husband's socks has a daughter who socks her darned husband.—Gainesville Georgia Times.

"Ur of the Chaldees" is the oldest city known, being in existence 5,000 B.C., 1,000 years before the date of the old concept of the creation of the world.—Oregon Daily Emerald.

Benito Mussolini has ordered that only the "buxom" type of woman be depicted in advertising matter hereafter.—Indiana Daily Student.

Dr. Beno Gutenberg, professor of geophysics at the California Institute of Technology, asserts that there are about 1,000,000 earthquakes a year, including 200 strong jolts and 10,000 light ones.—The Dakota Student.

## ART, MUSIC & DRAMA

### Eaton Auditorium

A type of programme that every real pianist would cherish as an ambition and a final and conclusive test of his musicianship was played last night by a man who is undoubtedly one of the select artists of our own times—Arthur Schnabel, world renowned for his knowledge and deep insight into the music of Beethoven. To play four sonatas on one and the same programme is no considerable accomplishment: to undertake four representative works from the pens of Schubert, Mozart and Beethoven is to meet the challenge of broadest musicianship and an infinity of comparisons.

The first and striking characteristic of Schnabel's playing is the very positive way in which he has become steeped in the Beethoven idiom. The strength, the impetuosity the greater proportions was unmistakably translated into everything that he played. This may or may not be a virtue. Sometimes it gives an impressiveness and an acquired significance not altogether unpleasant. On the other hand it can destroy the real character of the music completely and substitute something hopelessly inadequate. Many will feel that the Mozart suffered rather severely under this treatment. The Schubert, which is not a particularly outstanding piece of music, was surprisingly enhanced by Schnabel's intensive performance. The ability to weld a composition into a unified whole; to recreate the music in a real sense is the stamp of genius. Since this is a condition of a pianist's greatness, it is not surprising that in Schnabel one senses a vivid living comprehension or conception of the music that subdues and compels attention.

Those who feel no special affinity with Beethoven, recognize the unique place which the C minor Sonata fills as a supreme expression in pianoforte music. The first movement is a mighty interlude, with turbulent questioning, and majestic response. The second is stilled, sometimes inarticulate, but always breathing hope and frequently sublimity. The moving aria has a feeling of broad human sympathy and trust yet at the same time a tranquility and divine peace that transcends the earthly struggle and its perplexing and unsolved riddles.

The tenseness, the queer feeling of daze, the stillness that hung over the hall, were a testimony to the great playing of a master, who had recaptured the fleeting message of a genius from out of the past.

In this extraordinary recital, many interesting liberties might be noted and approved or disapproved, according to personal taste. Schnabel in his earnest endeavour to capture impetuosity and fire, sacrifices clarity to speed. In the great rhythmic surge the smaller periods are frequently wrenched, the accentuation is always strongly pronounced. His perspectives are always large and grand and it is necessary to remember that every virtue has its expense.

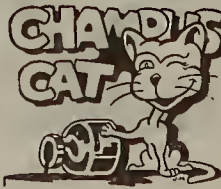

F.B.S.

## PROCREATION IS TOPIC OF MUSEUM LECTURE

Professor R. B. Thomson explained the latest views, illustrated by lantern slides, in a lecture on the "Fossil and Modern Methods of Reproduction" yesterday afternoon at the Royal Ontario Museum. The correct use of the word fossil includes more than just petrified bones, for it also means all living types of plant life.

Plant life originated in the sea, and the tree of life has been kept alive by the protoplasm in the germ plasma; we are here today because of the continuity from generation to generation, and it is one of the most amazing miracles how a tiny mass of organism can live and provide for itself.

There are two methods of reproduction: vegetative, which takes place by division and cutting; and sexual, which offers a possibility of greater variation. The plants which are lowest in the scale of life are tied down by water conditions, they cannot reproduce without it and their organism is very weak. This type includes moss, the liverwort, the horsetail, and the fern; and it is only when plant life has reached a much higher life that it is able to reproduce above ground by seeds without the aid of water.

The Dean of Women is a peculiar member of the human race, noted for being practically unastoundable, but a lad at the University of Minnesota has accomplished the impossible. Throughout his school career, in fact ever since Life Began, he has found his name a constant source of confusion, not to say embarrassment. His name is Marion.

The height of the situation was reached when he received a polite request from the aforementioned guardian of Minnesota co-eds for information as to his rooming arrangements, she of course thinking he was of the weaker sex. He countered with this little note: "Dear Deanie: I am rooming over in the men's dorm, and the boys are just darling.—Marion."

C-C

The campus papers across the whole continent have been amusing themselves of late compiling their own version of, or additions to Mr. Webster's wordy treatise. Here are a few:

Abbey: Abbey New Year.  
Cherish: Life's a bowl of . . .  
End: Also.  
Fret: Male sorority.  
Ink: A corporation.  
Languish: Speech.  
Usoe: Understands.  
Rain: Imitation silk.  
Vermin: Female sex.  
Zipper: Evening meal.

C-C

Next we'll take a glance at "Chop Stuey", a column conducted in *The Brunswickian* by one who calls himself Hoo. Here is reported a conversation overheard at a recent dance:

He: Come on out and have one.  
She: No more,—just had five!  
He: S'long Mrs. Dionne.

One more quick look will be enough to spare this contemporary columnist after he perpetrates the following:

Last night as I walked up the stair  
I met a man who wasn't there—  
He wasn't there again today—  
Migawd I wish he'd go away!

C-C

To return to the local whirl, current rumour has it that *The Varsity* editor will again be suspended. The leader of the Varsity Band claims he was refused sufficient publicity for last night's concert.

—The Chiseler.

## FELT CRESTS

Official University felt crests are on sale at S.A.C. office, Hart House, or Room 82, University College.

50c.

To be worn only on University Blue. Suitable for sweater, gym suit or blazer.

## UNIVERSITY OF TORONTO CREST PINS or RINGS

(Official—Registered)

The Students' Administrative Council control the exclusive manufacture and sale of these for the sole use of the student body. Crest Pins or Signet Rings may be obtained at any time at Room 82, University College, or from the Council's office in Hart House.

A supply of Rings and Pins is kept in stock.

STUDENTS' ADMINISTRATIVE COUNCIL  
Room 82, University College and Hart House

First year students are not entitled to wear the Crest.

## THE SPORTSWOMAN

By M. A. F.

The second to last hockey workout before the McGill game is called for 1 p.m. today. This may take the form of a game with the Grads—at least it is hoped that the Grad outfit will be on deck. The players are asked to be on deck and ready for a game in case there should be one, and it will certainly be splendid practice. Then the final grueling is at 1 p.m. on Friday. Jimmy McPherson doubtless has a very good line on the players he plans to choose already but whether he will definitely make the final announcement today or Friday we really cannot say.

All those who are planning to swim in the interfaculty meet a week from tonight are asked to be on hand tomorrow evening for the practice at Hart House pool. We are very fortunate in being able to have the pool for one night before the preliminaries and finals for it is an entirely different matter from swimming pools the size of the Lillian Massey pond or U.T.S. to doing some real swimming at Hart House. It will be a pretty sure test of your condition.

Before we relegate the intercollegiate basketball to a position with the "has-beens" we want publicly to bid a fond farewell to those players who made their final appearance in U. of T. basketball in the games down at Kingston. Mary Carré will no longer be with the forward string and Enid Palmer, Marion Bernhardt and Lorna Reid will be those missing on the defence line. This is the first year on the senior team for the three defence players; Mary Louise has given two years of service. These girls did some neat work for Varsity this year and they will be a definite loss.

### TRINITY DOWN ST. MIKE'S IN FAST BASEBALL GAME

The unusual feat of playing a seven inning baseball game in one hour in the Hart House gym was performed by Trinity when they scored a 4-3 victory over St. Mike's on Friday afternoon. Trinity earned their winning run as a clinch to a brilliant rally in the last half of the seventh with two out.

Starting out with a pitcher's duel neither team were able to put a runner across the plate in the first three innings. Then Burton, the Trinity hurler, yielded three runs only to have his teammates come to the fore with the tying three runs in the next two innings. It looked like an "even Steven" affair with two out in the last half of the seventh but by a twist of fate a St. Mike's man put the winning run across for Trinity. Forristal, the St. Mike's manager, was playing with the short-handed Black and Red team and it was he who crossed the plate to put the game away on ice.

Trinity: Morgan, Tucker, Reid, Burchell, Forristal, Burton, Campbell, Greenfield and Martin.

St. Mike's: Sullivan, Finan, Marks, Scandifio, Bedford, Timmons, Wiack, Driscoll and J. Driscoll.

Referee: Carveth.

SAUL F. RAE

Who directed the production of the University College "Follies of 1934" which was presented at the annual band concert in Convocation Hall last night.

## CAGERS CONCLUDE SERIES TONIGHT

Blues Drop Out of Play-Offs and Leave Field Open to Danforths

### DANCING AFTER THE GAME

"Hayman's Huskies" take on the "Dangerous Danforths" at Hart House tonight in what should be the best game of the season. The Varsity cagers have decided not to continue in the Ontario playoffs due to academic pressure, preferring scholastic attainments to athletic conquests, and will be out to win their final game and write final to a perfect season in a flare of glory. With not a loss in fifteen scheduled engagements, the Blues are on the verge of making history.

As a result of Varsity's retiring, the second-place S.M.C. team takes the lead in the local loop and will be striving for a win to cement their position as Big Six representatives. It will be remembered that in their previous meeting with Danforth, the Blues were hard-pressed throughout and only won on a last-second thriller from centre by Levy. With such star performers as Gillespie, who scored sixteen points against Varsity, Murchie and O'Hara, on their line-up, Danforth have a strong team and can defeat the collegians if anyone can. But whatever the result, tonight's game is certain to be ideal entertainment for the discriminating sports fan.

The Blues will be minus the services of the flashy Mencil, who suffered two broken ribs in the recent encounter with Queen's, and some of the others will be suffering from minor injuries sustained in last weekend games. But fortunately the Blues are an all-star squad, and Coach Hayman will have plenty of basketball ability on the line-up, which will consist of Bodrug, Levy, Crowley, Marks, Connelly, Newman, Munroe, Gordon, Gold and Meagher.

A precedent will be created tonight when the Danforth S.M.C. ladies and the West United lassies struggle for the women's Church League supremacy according to boys' rules in the preliminary game, which will start at 7:30 p.m. After watching the cagettes play six men (or rather, six women) on a partitioned floor, it will be interesting to see how they play the men's game.

To complete the evening, Karl Mueller and his Varsity Entertainers will produce sweet music for those who are terpsichoreanly inclined.

## BAND AND FOLLIES PLEASE AUDIENCE

Captain Slatter Leads Musicians through Maze of Notes to Glory

Led by the energetic baton of Captain John Slatter, V.D., the University of Toronto band gave its annual concert in Convocation Hall last night, under the patronage of President and Mrs. H. J. Cody, Lt. Col. J. R. Cockburn, and Lt. Col. and Mrs. T. R. Loudon. The programme was given an additional humorous tinge by the presentation of the U.C. Follies of 1934.

The musical programme was composed of light compositions and marches only, and was very well received by those present. Particularly so was the Slatter arrangement of the Toronto Centennial song written by Rev. Charles Fitcher, and the musical travesty composed of "The Warblers' Serenade" and "The Whistler and his dog." The trombone quartette playing "In Cellar Cool" also met a happy reception.

The presentation of the U.C. Follies was a slightly enunciated version of the production of last December. Although suffering from the lack of stage arrangements and correct lighting the whole show was carried off without many difficulties except Otello, who tried a few acrobatics not in the script. Among the favourite songs welcomed back were "Louie the Rouser," "Sophomore Blues" and "We're Juniors Now."

Trenton, N.J.—Hauptmann's defence fund has risen to about \$7,500, according to C. L. Fisher, an attorney.

## SPEAKING OF SPORT

By Ken Burn

During the past season approximately one hundred and fifty men have represented Varsity as members of her senior teams. With the academic year drawing to a close, we do not think it amiss to glance over the records and see just what has been accomplished by the wearers of the Blue and White sweaters excluding the gymnastic feats of the cheer-leaders. During the 1933-34 season McGill won eight senior titles, Varsity six and Queen's only managed to capture the duck egg which, we believe, was made famous at Lords. Varsity again garnered a half dozen this year but McGill's quota was whittled by two due to the invasion of the Tricolour forces.

The most popular intercollegiate events are, of course, the rugby games, and although we try hard to forget, we remember quite clearly that Queen's won in a consolation series. Varsity were the other contenders in the post-series game and it was another last minute, one point win for the Tricolour. After the disappointment around Varsity had ebbed somewhat, there was a surprising amount of good-will towards the Kingston team and especially towards Teddy Reeve who, in the short space of two years as coach, has developed a championship team.

While the rugby team were exhorting to the cheers of ten thousand spectators, the less favoured soccer and English rugby teams were playing just as hard before the same type of crowd that stops to watch a steam shovel work. The soccer team dropped the title which they have held for the past three years while the rugger team successfully defended their title.

The track and field team also journeyed down to McGill about the time you wish you had started studying and only failed by the narrowest margin to upset McGill. Both teams were tied in point standing until the final event which was a relay. Varsity started off strong but a striking finish by Phil Edwards gave McGill the race and title. However, Varsity won one running title when the Harrier team romped home in the lead at Kingston.

Tennis and Golf are generally regarded as business men's sports, but, while we have heard faint rumours to the effect that there is a C. and F. course here, we did not manage to win either title.

T. R. Loudon's rowing team overshadowed the feats of Frank Merriwell when they gave McGill a ten pound per man advantage and won the title for the seventh successive year. This outstanding feat did not go unhonoured, as the news reel men were on hand to grind it out as the boys crossed the line.

One of the sharpest jolts was handed to the B. W. and F. team, who were dethroned from the winner's seat which they had occupied for the past two years. The Queen's win was nothing short of an avalanche and the other teams trailed far in the rear.

Our natators, mermen, or what have you, divided the honours with McGill with the Redmen winning the water-polo and Varsity netting the most points in the swimming meet. Our gymnastic team, minus the cheer leaders, had no difficulty in disposing of McGill.

The trouble with starting a thing like this is that you have to finish it, and, sooner or later, we knew we would have to mention the hockey team. There is no need to ponder over their record which we believe was inglorious only insofar as the matter of winning games was concerned. A few people have written poems to the effect that it is the spirit, etc., that counts and we would probably quote one of them if we could remember them. We know that, to those of us who followed the team and wrote stories about the games, to view the team meet defeat after defeat when often they outplayed the opposition, was extremely disappointing, but we realize that our disappointment could only be slight compared to that which the team experienced. We feel that the least we can do is to remark that only in two games did the boys fail to produce an interesting struggle and to convey our best wishes for a more profitable season next year.

Among the many things affected by the depression has been Varsity's basketball team. Not since 1929 has the Wilson Cup rested in Hart House. However, with the announcement of Premier Bennett's recovery programme the cagers went to work in a big way and have definitely won the title with one game yet to be played. We are going to fool you by not mentioning how many straight games they have won but merely content ourselves by calling your attention to the fact that they meet Danforth S.M.C. tonight in the final Big Six contest.

PHIL GOLD

Who has been a big factor in the success of Varsity's basketball team. Tonight the team will be seeking their fifteenth straight win when they entertain Danforth at Hart House.

## COULTER TO PLAY FOR BLUES AGAIN

Winner of Copp Memorial Trophy to Become Teacher

### SPORTSMAN AND SCHOLAR

J. R. Coulter, popular and brilliant halfback on Varsity seniors, was awarded the Johnny Copp Memorial Trophy for this year, it was announced recently. This beautiful trophy, donated by the students-at-large, shall be awarded annually to the member of the senior rugby team who, by his sportsmanship, character and playing ability, is adjudged the most valuable member of the team. The annual award for the year 1934 was decided upon by the vote of the players.

Bobby Coulter is best known for his services on the senior rugby team for the last two years, and the juniors the year before, but he also plays hockey and lacrosse on interfaculty teams. Before coming to the University of Toronto, Bobby maintained a very high academic and athletic standing throughout his career at Runnymede Collegiate Institute. Next year he will continue his studies at the Ontario College of Education to obtain a specialist's certificate in Physical Training. Bobby assured *The Varsity* that he would be out in uniform early next fall.

## MOSCOW RE-OPENS SUMMER SCHOOL

Canadian and U.S. Students Offered Opportunity to Study in Russia

### FULL TERM OF SIX WEEKS

In the summer of 1933 a group of young Americans went to Russia to organize an institution for summer study in the Soviet Union. The summer session has since become an integral part of the Moscow state university, and in 1934, the Anglo-American section had over two hundred students from Canada, England, the United States, Mexico, Latin America, Scandinavia and the far East. This year provision is being made for five hundred students from the United States and Canada alone.

All instruction is given in English by a Soviet faculty of professors and specialists and prominent Soviet leaders address the school from time to time. The state university of Moscow certifies academic credit to foreign students meeting the requirements of the university, and completing a course of study in the Anglo-American section. Courses offered for 1935 include: Arts in the U.S.S.R., literature of Russia and the Soviet Union, justice and correctional policy organization of public health and socialized medicine, history of the Soviet Union, and philosophy of dialectical materialism. Students are allowed to enrol in three of the possible dozen courses, which constitute ninety classroom hours in a period of six weeks.

Outside the classroom the living conditions of the student at the summer session are designed to approximate those of the typical Soviet student. With this in view, the dormitory type of accommodation is provided. Russian students are extremely friendly and eager to fraternize; acquaintances spring up readily. In order to insure close cooperation with American educational institutions, an advisory relationship was established in 1933 with the Institute of International Education, and such well known names as that of John Dewey appear on the roll of the Advisory Council. Dr. George S. Counts, and Dr. Heber Harper of Columbia University have been invited to Moscow as resident councilors to the Summer Session of 1935.

But it is carried on under the supervision of seniors and graduates, no harm is done and all the boys take it in the right spirit. Of course it is all confined to our house."

## FORESTRY LEARNS ABOUT HOCKEY

Teachers Win Victory of 7-3 in Interfaculty Hockey Series

### O.C.E. MAY MAKE PLAY-OFF

O.C.E. easily overwhelmed Forestry by the score of 7-3 in a listless interfaculty hockey fixture played yesterday at the Varsity Arena. The Foresters fought hard all the way, but were outskated and outplayed throughout by the speedy Teachers. The win gave O.C.E. a mathematical chance of getting into the playoffs, but they will have to win all their remaining games to do so.

The goals began to roll in right from the start, with Johnstone of Forestry scoring before the period was one minute old, on a beautiful solo dash that carried him right through the entire O.C.E. team.

Their lead was short-lived, however, since the Bloor St. lads came right back and banged home two quick goals inside of fifty seconds. From then on Forestry were never dangerous and devoted themselves to playing a defensive game. Collingwood added another to the O.C.E. total at the fifteen minute mark, and Durnford made the score 4-1 just as the bell rang to end the session.

The second period was productive of much better hockey on the part of both teams. O.C.E. displayed a nice passing attack which netted them two more goals, whilst Johnstone kept the Forestry cause alive with a brace of tallies.

For O.C.E., Collingwood, Durnford and Smith were most effective, the former pair accounting for six of the goals. Johnstone and McConnell were the pick of the Forestry squad.

Forestry: Larsson, McConnell, Greer, Johnstone, Cowan, Dyer, Reynolds and Carlson.

O.C.E.: Grant, Lindsay, Grabb, Collingwood, Durnford, Cameron, Colmer, Smith, and King.

Referee: Normie McLelland.

## GOVERNMENT DEFEATED AT ST. MIKE'S PARLIAMENT

In the third session of St. Michael's College Student Parliament, with Mr. Harris as Speaker, and Mr. C. Cauley as Clerk, the government was defeated on the motion, "Resolved that this house does not favour co-education."

The Premier, Mr. Wasyleniuk, attempted to prove that the distractions of co-education were detrimental to the development of the student's mind. The leader of the opposition, Mr. Aulenbacher, won the favour of the house by proving that the fair sex were indispensable.

Other speakers were: Cummings and Kerner for the affirmative, and O'Connor and Daly for the negative.

"The recent increase in divorce is a sign that the nation is on the road to recovery."—A Detroit court official.

## Coming Events

**WEDNESDAY, FEBRUARY 27**  
8.30 p.m.—Open meeting of the Avukah Society at the Women's Union. Prof. V. Lange will speak. Everybody welcome.

8 p.m.—English and History Club at Miss McLean's, Bayview Ave.  
7.30—Victoria Junior-Senior dinner in Burwash Hall. Meet up till 7.15 in Annesley Hall.

6 p.m.—Nominations for Hart House Standing Committees and Camera and Squash Racquets Committees close.—Hart House Debates Committee elections.

**THURSDAY, FEBRUARY 28**  
1 p.m.—Liberal Club luncheon meeting. Speaker, Mr. W. L. Houck, M.P.P., Niagara Falls. Tickets may be obtained from executive.

**FRIDAY, MARCH 1**  
9.30 p.m.—Dental At-Home in the Roof Garden of the Royal York Hotel. Music by Karl Mueller and his Varsity Entertainers. Dancing 9.30 till 2. Ontario College of Education annual At-Home, in the Music Room, Hart House, with Hal Taylor and his orchestra.

**SATURDAY, MARCH 2**  
3.77 Victoria skating party in the afternoon at Varsity Nink. Refreshments later in Annesley.

8.15 p.m.—Victoria College Dramatic Society At-Home in Wymilwood, with Hal Taylor and his orchestra. Toronto and Regional Student Peace Conference, Lecture Hall, Economics Bldg. All campus organizations are invited to send delegates.

**SUNDAY, MARCH 3**  
Toronto and Regional Student Peace Conference, Lecture Hall, Economics Bldg. All campus organizations are invited to send delegates.

**MONDAY, MARCH 4**  
4 p.m.—Debating Society meeting in the Women's Union. Elections. Awarding of trophy. Tea will be served.

University Arts Women's Club annual reception. Women's Union, 79 St. George Street. Arch Crossley at the piano.

**TUESDAY, MARCH 5**  
4.30 p.m.—Press Club meeting at the Women's Union. Tea will be served.  
6.30 p.m.—Hart House. U.C. graduation dinner. Class of J.T.S. complimentary, all others must pay.

8 p.m.—Italian-Spanish Club; President Cody, "Italy through Canadian eyes"; singing, refreshments. Wymilwood.

**WEDNESDAY, MARCH 6**  
Hart House Elections.

**THURSDAY, MARCH 7**  
University College Freshman Dance, Malloney's Galleries.

### WANTED

Notes and theses typed; neat and accurate work. 20c. per thousand words. Miss Lewis, Ki. 9237.

French, German, Italian, Spanish, and all modern languages taught by easy, quick, inexpensive method by Canada's best trained language teachers, all natives of respective countries. Special instructions in scientific subjects in all languages. Class or private lessons. Italian Conservatory of Music, 97A Bloor West. KI. 4716.

## SPECIAL SERVICE ARRANGED FOR TRAVELLING STUDENTS

(Continued from Page 1)  
made his headquarters at London House, a residence for overseas students and greatly used by Canadians attending the University of London, and each day went to Canada House, where he got in touch with Canadian students.

In this way over 200 Canadians drawn from every part of the Dominion passed through his hands and in every case he was able to help them to carry out their plans. Some wished to buy a small car and tour on the continent, others desired to confine their attention to Great Britain, either bicycling or walking; others again were anxious to get in touch with foreign students through work camps and hostels; some had a special purpose in visiting England through an interest in social or political problems. In all these different demands Mr. Johnson was able to be of practical assistance.

A factor of prime importance making for the success of the entire experiment, was the active interest shown by Mr. P. K. Hodgson in this plan. During the four years that Lord Byng was Governor-General of Canada, Mr. Hodgson was on his staff and the time he then spent in the Dominion gave him both a genuine understanding of and deep interest in young Canadians. From the first Mr. Hodgson saw the importance of Mr. Johnson's work and supported it with enthusiasm. He entertained many students at his own house, arranged several private visits to Oxford, and was always ready to give a helping hand in every enterprise.

A cottage was rented about thirty miles from London in one of the most beautiful parts of Kent. Here Canadians could spend a night or, more often, a week-end and be certain of meeting students from other countries. Hiking, swimming and other sports formed the foundation of valuable friendships. Many small groups visited Canterbury where the parents of the Warden of Hart House entertained them in their old 13th century house and took them through the Cathedral. In London a luncheon club was formed within a hundred yards of Trafalgar Square where ideas on travelling were exchanged.

It was found that last year's experiment filled such an obvious need that the same plan is to be carried out again this coming summer and Mr. Johnson is intending to go over to England towards the end of April. The National Federation of Canadian University Students (N.F.C.U.S.), a Dominion-wide organization which has long desired to develop the overseas side of its work, has asked Mr. Johnson to act as Travel Secretary of the N.F.C.U.S., in which capacity he will be at the disposal of undergraduates from any Canadian university who may find themselves in London. The whole idea is to help students either as individuals or in small groups, not to organize tours; neither is there any fee charged. Any student in the University who are going to Europe are advised to get in touch with him either now at Hart House, University of Toronto, or through Canada House, London.

## TO PUT PRACTICAL FLYING COURSE ON CURRICULUM

(Continued from Page 1)  
tion. "Of course," Mr. Dunlop said, "we have a course in aeronautics here in our Mechanical Engineering Department. It does not include actual flying but a great deal of the ground work is done in it. There is an aeroplane in the Wind-Tunnel, next to the Thermo-Dynamics Building and a fine opportunity for research along these lines is offered."

According to Mr. Dunlop, although Toronto has not made a great deal of progress in this direction, with a certain amount of financial backing such a course would probably prove very successful. As it is, in Toronto we have accomplished more along those lines than in any other university in Canada, although there is a vast amount to be done in the future.

## NEED SUPERSTATE TO ENSURE PEACE

(Continued from Page 1)  
more. By refusing outright to preserve territorial rights which are undoubtedly unjust, and to allow the League of Nations to control raw materials, Canada helped remove a very necessary prop from under the League and eventually led to its downfall. When Poland

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at either the men's office in Hart House, or at the women's office in University College. No notices will be taken over the telephone, after 6 p.m. notices must be taken to the Press Building. Notices for the Bulletin Board are limited to ONE insertion only.

## WOMEN'S UNDERGRADUATE ASSOCIATION

Mass meeting will be held in the Women's Union on March 11th. Nominations and amendments to constitution. See list of motions posted in the cloak room.

### U.C. WOMEN

The annual public speaking contest for the St. Margaret's Alumnae prize will take place on Monday, March 11 in the Women's Union. Please sign the lists posted in the cloak room at U.C. at once. The subject of the speech must be relative to college life. Details from Miss Mary Salter, president of the W.U.A.

### ENGLISH AND HISTORY CLUB

Members attending the meeting tonight who are not driving are requested to be at the corner of Yonge Street and Lawrence Park (not Lawrence Ave.) not later than 8 p.m.

### JTG VIC CLASS PICTURES

Wednesday morning during Chapel is the last opportunity to get your picture if you ordered one. After that they will be sold to the first comers.

### POL. SCIENCE CLUB MEETING

A meeting of the club will be held Wednesday, February 27th at 4 p.m. in the Economics Building. Papers will be read on the motion "That in the opinion of this club the Marxian analysis of Class Struggle cannot be applied to Canada at the present moment." For the affirmative: Elliott Anger. For the negative: Harry Lubetsky.

### U.C. GRADUATION BANQUET

First annual banquet in honour of University College men graduating this year will be held in the Great Hall, Hart House, Tuesday, March 5 at 6.30 p.m. The banquet is complimentary to class of '35; other U.C. men must pay. Tickets must be called for by all on Friday, March 1, from 12-2 p.m. in common room.

## 'TWIXT TWO

My Dear Phyllis—

Here I am in Ottawa!—and a strange feeling it is too. I am very much ashamed of myself that I am so little excited over the trip. It all went so perfectly that I am still trying to figure out the catch.

Wake up Saturday morning, decide to travel this day, sleep in half an hour longer, leap out of bed, throw some junk in a suitcase and find that I know exactly what to take along and I forget nothing. When I leave the house I automatically take a Bay car and, without knowing what the time is, trust confidently I'll not be late. Arrived at Front St. I find the train goes in five minutes, walk in, pay my five dollars, walk right on, down the ramp, up the stairs past the parlor cars and into an empty seat. In a minute I'm settled comfortably for the next eight hours with Kerensky's "Crucifixion of Liberty". When the train goes over the Ottawa river I put on my coat, the train stops, there is a crowd in the station; I walk right on through them and catch a street car at the corner. I am eating supper before I realize I'm no longer in Toronto—it is all so familiar; I've been here before.

As you know I've been travelling all my life but I've always enjoyed it—

want Minorities treaties to be universal Canada objected. Canadian minorities, they said, came of their own free will and were treated very well. This, of course, is untrue. The French are treated well to be sure. They control 90 seats in the House of Commons. But what of the Chinese and Japanese in British Columbia?

What are Canadians to do if they want peace? Canada is like a little boy who indulges in daydreams about becoming Prime Minister and at 60 is still dreaming. The only policy to adopt, Mr. Reid thinks, is to work for an international system that will maintain

## VICTORIA ELECTIONS

Nominations for president and associate-presidents of mixed societies, presidents of other federated societies and the Bob Committee will be received in the college hall, 1.30-2, 4-5 p.m. Blanks in college office and Book Bureau. Please hand to Ross MacDonald.

## VIC DRAMATIC SOCIETY

Members of the Victoria College Dramatic Society who are attending the At-Home to be held this Friday are advised that tickets may be secured in the college hall today from twelve until two o'clock.

## VICTORIA VOCATIONAL GUIDANCE

The following group meetings will take place today at 5 p.m.: Room 18, Finance, A. G. Walwyn, '22 and F. A. Wansbrough, '28; Room 14, Journalism, K. E. R. Wilson, '26; Publishing, W. H. Clarke, '34. Dr. Bernhardt may be consulted between 2 and 5.30 p.m. by appointment made in the college office.

## U.C. STUDENTS

The Undergraduate magazine will be on sale to the women of University College in the rotunda on Friday, March 1. The magazine will be distributed to the men in the junior common room on Monday, March 4.

## 377 VICTORIA

In response to popular demand 377 will hold a skating party in the Varsity Rink next Saturday afternoon, weather permitting. Refreshments will be served at Annesley afterwards for a nominal charge.

## HART HOUSE DEBATE

Tonight, 8 p.m., Debates Room. "Resolved that this House has confidence in His Majesty's Government at Ottawa." Messrs. Mayall, Weinberg, Pick, Arnold Smith, speakers. Election ballots will be given out before 8.10 p.m.

## "THE UNDERGRADUATE" TO APPEAR FRIDAY

(Continued from Page 1)  
of the ordinary cuts we have inserted "tip-ins," which greatly improve its appearance. We have gone to considerable expense and trouble to get out an attractive cover." Mr. Levenston, the editor, described the cover as "very exciting".

An increase of 30 per cent over last year's circulation makes assured the financial success of the Undergraduate. With this certainty the editors have been in a position to devote all their time to the publication of the magazine and to turn out an issue much superior to those of other years, when one of the chief duties of the editors was to make sure enough copies would be sold to cover printing expenses.

## STUDENTS DISCUSS LEISURE READING

(Continued from Page 1)  
extremely enjoyable and restful pastime. For real literary value and pleasant reading portions of the Bible are unsurpassed by any other book in the English language." Dr. Sciatler continued. Following his talk many of those present took part in a short discussion on the comparative merits of reading of various types.

## NO NECESSITY FOR STIMULANT

**Professors Claim that Students Here Are Usually Able to Attend**

Professors at the University of Toronto scorn any attempt to gain the interest of their students by trickery and the administration of mental tricks. After receiving an exchange telling of the methods used in this connection in the University of Washington, *The Varsity* interviewed several professors on the campus about it and received many scornful replies that such stimulation of work was entirely uncalculated and unnecessary here in Toronto.

"I use no artificial means whatsoever to stimulate student interest in my lectures," said Professor G. H. Needler of the Department of German at University College. "I am concerned only with the intelligent students," he continued, "who are interested in their work, and I feel that it is my duty to weed out the dumb ones to prevent any holding back of the class. After all, when a man has reached University he ought to be at least sufficiently interested in his work not to need any artificial stimulant."

Professor G. C. Patterson, of the Italian-Spanish Department, seemed inclined to agree with Professor Needler, but would not commit himself very deeply on the subject. In this way Professor C. A. Ashley, of the Economics Department, was in agreement though he did admit that he "occasionally used a pun or attempted to use a pun to try and bring a sleeping class out of its coma." Professor Ashley, however, was not in favour of reviving student interest by any special planned effort to keep current events to the fore or other such practice.

## LAND SETTLEMENT ADDRESS TOPIC

**Sir Francis Floud Outlines Renaissance of Agriculture in British Isles**

## IS NEW HIGH COMMISSIONER

The land settlement in Great Britain, successful both before and after the war, was discussed yesterday afternoon by Sir Francis Floud at the Women's Canadian Club. Sir Francis, the new High Commissioner to Canada, has been connected with this enterprise since its inauguration in 1905.

"Before the war agriculture regarded itself as the Cinderella of all the industries of our country," said Sir Francis. From 1914 to 1918 farmers in Great Britain had to supply the bare necessities; luxury crops were forbidden and agriculture was profitable. To return to the post-war condition was impossible as wages had risen and prices soon returned to normal.

All industries were given government protection and agriculture was included, but the aid had to be such that would not "heighten the price of bread." The English policy now is "Home Market First," but this will not affect the Canadian wheat export as the dairy products are chiefly being exploited.

To buy land and build houses was entrusted to the County Councils of England and Wales in 1905. The land was split into small allotments and rented to labourers who had farm experience and enough capital to purchase stock and seed. The rents were arranged to pay for the land and buildings, over a period of 30 years.

After the war land was provided for ex-service men. Twenty million pounds was put into the undertaking. Many of the men had to receive training and monetary aid but "if they wanted to settle on the land they had saved it was the part of the general public to put them there," said Sir Francis.

"These small farms have stood the depression well. The vacant land around cities and towns was utilized for vegetable gardens. Much land has been given to the unemployed by the Friends Society for, to give a man a means of rising from a hired labourer to master of his own land tends to increase the stability and security of a country."

## ENGINEERING FACULTY START NEW TRADITION OF SOPH-JUNIOR OANCE

The first joint party of the first and third years in the entire history of the Engineering Faculty is slated to take place at the Silver Slipper Thursday night. This innovation in the social field is attracting great interest in the School and members of the other years, as well as those primarily concerned, are flocking to buy tickets. The lists will be closed when the capacity of the hall is reached.

Sound effects will be supplied by Gale Gordon and Fran McKinley will be featured as vocalist. The management have promised to serve a special luncheon, appropriate for Engineers.

## "VARSITY" INSTITUTES LIBEL SUIT

### Varsity Editor Hits His Stride Eminent Orator Goes For Ride

#### EX-EDITORS' SOCIETY PLUNGE TO DOOM

Stygian Gloom Descends Over  
Campus; S.A.C. Blamed  
for Tragedy

#### JUST COULDN'T TAKE IT

Today the campus is shrouded in a pall of gloom for to the very flower of the sons of this University has withered and shrivelled. The *Varsity* learned at an early hour (the usual early hour) this morning that the members of that most ancient and honourable of campus societies "The Society of Ex-Editors" had climbed to the top-most towers of Hart House and hurled themselves into oblivion in the stygian depths below.

The reason given for this desperate step by friends of the ill-fated ex-editors is that the unexpected leniency shown by the S.A.C. to the latest candidate for membership in their society was just too much for them. Faced with the gloomy outlook of trying to run a society which could no longer get any members unless they accepted ex-members of the downtown papers they took the only alternative open to them.

A bronze tablet on which was engraved the names of all the ex-editors was found on the steps of University College. It bore the inscription "Atque in perpetuum, mater, ave atque vale."

#### Snooze of the World in Grief

London—Mahatma Gandhi died here last night as a result of a severe attack of indigestion caused by overeating. Gandhi was staying as a guest in the home of the Rt. Hon. Winston Churchill.

Innsbruck—The Prince of Wales married Fraulein Trudchen Huehnergard in a civil ceremony here yesterday. She is the daughter of Herr Huehnergard, a local braumeister.

Toronto—Prime Minister R. B. Bennett was fatally wounded in a duel with Tim Buck on the steps of the City Hall. He is expected to recover.

Berlin—Chancellor Adolf Hitler was assassinated today by Ramsay MacDonald. Germany declares war on Russia.

Bucharest—Premier Mussolini was assassinated by King Carol of Roumania. The fatality occurred when Mussolini, on diplomatic business, suggested that Carol should change his family motto to "Farewell to Arms".

Paris—Premier Flandin and cabinet guillotined.

Editor's Righteous Indignation  
Culminates in  
Litigation

#### NEWS STAFF REJOICES

Distinctly annoyed at being on the receiving end of libel suits, suspensions and so on, *The Varsity* has finally decided to assert its own rights, and do a little suing on its own hook. A suit will be brought against S. M. Hermant, prominent S.A.C. Demagogue, because of his alleged libellous statements made at the Hart House debate last night.

The incident occurred during one of the several scores of gusts of hot air the motion brought forth. The speaker on the floor made a quotation from the "Canada Year Book", 1933 edition. "That," said Mr. Hermant, slowly and distinctly, "is not even as reliable as *The Varsity*."

When informed Mr. Hermant's statement, C. R. Ellis, Editor of *The Varsity* flew into a terrific rage, and immediately announced the paper would sue for libel. "After the amount of free publicity we have given that (naughty word)," he said, "you would think that he would at least acknowledge our paper's unfailing accuracy. The next time we print anything nice about Mr. Hermant it will be in a box on the front page with a big black band around it."

Mr. Hermant could not be reached at press-time, but it is understood that he expressed his pleasure over the prospects of such a suit. "My publicity quota has fallen away below par lately," he is reported to have said. "I usually count on making the front page of *The Varsity* at least twice a week, but a big story like that should blazon my name in headlines."

G. H. Jack, news editor of *The Varsity*, also expressed his delight as it (Continued on page 7)

### THE DAYS ARE PAST WHEN GALS WAS AS ST

Stall Thinks a Mess of Paint  
Makes Them What They  
Really Ain't

#### SO THEY WON'T TALK, EH?

In his enlightening address yesterday, Professor Stall of the University of Minnehaha explained to the audience that a radical change is taking place in women. Two hundred years ago women thought matrimony was an honour. Professor Stall sighed with a reminiscent look in his eyes. They were not independent of men, but lived just for men. There was no moonshine about them. Lovers kept their distance in reality and in thought, and yet the world went on. How different, how

#### No "Varsity" To-day

Owing to a slight blaze which gutted the University Press last evening, there will be no issue of *The Varsity* today. Arrangements have been made with a downtown firm for the publication of the Annual Jazz Issue of *The Varsity* which will appear tomorrow. As the number is limited to 200 copies, students are advised to get theirs early.

### REV. PUFFINBELCH LIKES OUR PAPER

Rev. Puffinbelch Hates Our  
Paper; Rev. Puffinbelch  
Doesn't Know

#### WHO'S THE NAME PLEEZ?

The Very Rev. Uriah V. Puffinbelch last night admonished the would-be journalists from Slicktoria, how to, and how not to break into the aforementioned racket. "In my opinion," said he, "there is only one orthodox recognized school for journalism—that is, the writing of Champus Cats." Rev. Puffinbelch outlined at some length the variety of cultural background which comes to a man in such a position as that held by *The Varsity's* Feature Editor.

"There are evils confronting the furthering of better journalism today," the Reverend Gentleman was heard to remark, "which must needs be stamped out."

As an example of this he pointed out the insidious institution referred to as S.A.C. "S.A.C.," he said, "is today clamping the shackles and putting the thumbscrews on the expression of all that is worthy and free in man. It is an old institution which has been taking students' money for many generations. Even Falstaff was a slave of S.A.C. To every rising journalist I give the words which Abraham Lincoln uttered when he saw the slaves being sold in New Orleans. 'If I can get the chance to hit this thing I will hit it and hit it hard.' That is the attitude, my friends, we should all adopt toward that insidious arch-enemy of bigger and better journalism—S.A.C."

very different, from our modern young things.

Women, the speaker declared, cannot talk nowadays, they do things. The good old days are gone forever, but the memory lingers on, was Professor Stall's lament. You can't tell what a girl really looks like, although, I admit, she's very charming, said Professor Stall winking at a blonde in the first row. This upset him a little; so he gulped down a suspicious looking liquid from his flask. At this he brightened considerably and said that all was not lost because now. Professor Stall broke into the chorus of Hot Cha Cha, with which the intellectual lecture was concluded.

FERIC NAVEY

FERIC NAVEY

Hard hitting member of the croquet team, who holds a one-round decision over a reporter, Feric is now starring in the latest production, *When You Gotta Go, You Gotta Go*. He is ready to go, running shoes and all.

### WHOOPEE MY DEARS TURN ON THE BEERS

Fighting, Biting, Hacking,  
Tearing, Ripping Rarers  
Ripple Twine

#### GAME IS SLOW, BORING

After a long string of consecutive victories the fighting, biting, hacking, blue basketballers defeated some team last night in Hart House amid shouts of "whoops, my dear" from the throats of many students.

The blue clad warriors ripped the twine all the time, and after doing this for a while, got tired ripping the twine and tore it down so they could ripple it easier.

The *Varsity* combination was good but not half as good as the combinations worn by some girl's team who were playing in the first game. After five minutes of the first period had gone by, the *Varsity* team had enough points to last for a while, so they had tea and lady-fingers and went looking for the girl's dressing room. The fighting blues returned just in time for the dance which was by now in full swing, although the other team continued to play. It didn't matter however because two or three of the boys had been waltzing with each other all night anyway.

The other team was called S.A.C. or S.M.C. The score was 39-31 by actual count and *Varsity* wins the right to retire on account of academic duties.

#### ATTENTION C.C.I. MUGS

All bunions on youse mugs from Corny Collegiate will be taken off with a penknife, in the bomb racks of Burwash, sometime next November, maybe later. Tea, coffee, milk, beer, women and floor mops all for twenty-five bucks. Get in dutch with O. Phaw or Emperor Haile Selassie, 041-long, before you get taken for a ride. Say, how much is a quart o' rye?

### Whoops My Dear Exams Are Here

The Registrar of the University has requested *The Varsity* to announce that the final examinations in Arts will begin on April 1st, in School of Practical Science on March 15th and all other faculties two weeks earlier.

The startling news reached the ears of *The Varsity* late last night, that the Senate of the University had moved all final examinations forward by one month owing to the fact that many of the professors have to attend a Socialist meeting in Berlin during the middle of May.

Regretting the fact that this may inconvenience a few of the students who have procrastinated their studies, the Registrar added that special consideration will be made for repeaters next year. He hoped that a special reduction in fees could be arranged to induce a large percentage to repeat their year.

### TOPPER COLLEGE HAS A BRAWLEGE

On This Most Auspicious Night,  
Angels All Are Very  
Tite (very)

#### OR SOMETHING

A *Varsity* reporter at good old Topper College last night was surprised and elated at seeing several Angels rolling drunkenly on the floor in the arms of the Topper frosh. The occasion turned out to be that of the bTm year dance.

Among the notables seen dusting their noses were Mrs. (we hope) Vent Kenables and Miss (we're afraid) Lotty Spieler. Mr. Shorty Bung was left holding the bag but he's still up and about. A dame with a turned-up nose tried to bundle with us but we didn't have any.

The decorations, by Mr. Longshanks, were beautifully undone, as were many other things. The success of the evening, however, was the spicificisms of Buffalo Bill Bray and the brilliant music of Hell's Bolly.

A short play by the Topper frosh introduced ne wmodos for women's underwear and new short panties for men.

The affray ended with the well-known Topper College song of "Get Along".

(Continued on page 7)

### HERMANT AND RAE HAVE LOTS TO SAY AS PER THE USUAL

Both Have Captivating Smiles  
(Nothing but Cheap  
Election Wiles)

#### GIVE 'EM A BIG HAND!

The final Hart House Debate of the season was held last night in Hart House. The attendance could only have been surpassed at a play in Hart House Theatre.

The House sat at 8.17 with Mr. Rae as the new Speaker. The House was thrown open to private business and Mr. Hermant rose with an ingratiating smile to move a vote of congratulations to Mr. Rae on becoming the new Speaker. Mr. Rae accepted with an ingratiating smile and asked Mr. Smith to second the motion. Mr. Smith complied with an ingratiating smile.

By a vote of 84 to 52 the House declared their non-confidence in His Majesty's Government at Ottawa. On receiving the result the King cancelled his Silver Jubilee Celebrations. Mr. Bennett could not be contacted as he was in bed with a cold. Cold to warmer.

At 9.20 Mr. Smith was on his fifth glass of water. By 10 p.m. Mr. Vineberg of McGill was also beginning to feel his liquor and offer witty comment on the proceedings. (Debates Committee Acts. Item: 4 shorts Rye, \$3.00)

Score: *Varsity* 39, Danforth 31.  
The Gargoyle on the Bank of Commerce smiled ingratiatingly.

### FROUST IS A SOUSE OR MAYHAP A LOUSE

But it Takes Intestinal Fortitude  
to Do What He Done  
to the Multitude

#### O! YOU NAZI MAN!

An extremely sinister Nazi plot to gain control of Canada's finest college, the University of Toronto, was exposed late last night in just the nick of time by one of *Varsity's* outstanding students, Mr. G. E. Froust. In a special interview with *The Varsity* Mr. Froust, who missed his calling when he gave up playing the violin for the Roxy, explained how he managed, single-handed, to save this famous institution from degeneration and shame and leave unmolested his famous society of Incompatibles.

Acting single-handed Froust rounded up the conspirators, who were caught with the goods last night (or early this morning) and with the aid of the only two members of *The Varsity* staff who could walk straight, marched them to the authorities. "You're a louse, Froust" was the last word your "were" (or has been) correspondent heard from the would-be assassins, but Mr. Froust just grinned, slouched and pushed his hand wearily (for it is a hard job) through his hair. He had once again served his University, but out as well, he hoped, as his many intellectual clubs that flourished in every nook and corner.

## What is this S.A.C.?

That's a fair question. What the h—ll is it?

## CENSORED

Because of the presence of several members of S.A.C. in "The Varsity's" night office, it has been decided to keep this daily feature to a minimum.

### Birds: Fillulu, Mugmump and Warka-Warka

It has come to our attention that there have been several additions to the entomological collection at the Royal Ontario Museum, and in particular those of three very rare birds which have been secured at great risk by Dr. C. T. Currely, curator of the Museum.

The first little bird is called the Fillulu bird and this little bird is a most peculiar bird, it flies around and around and around, and children, do you know what this funny bird does? It lives on red peppers and flies backward and upside down to keep its tummy warm. And as it flies around and around it utters a strange and eerie cry, *Fillulululu Fillululu* which when translated means,

*Why shouldn't I fly upside down and backwards and live on red peppers to keep my tummy warm.* Are you still listening children? Well the second little bird is called the Mugmump bird. And this little bird has the most wonderful sense of balance. It sits all day on rail fences with its mug on one side and its rump on the other.

And so we have now come to the third bird and this little bird is without a doubt the wonderfullest bird of all. This little bird is called the Warka-Warka bird. It spends all its time flying around the cold cold frigid zone of the Arctic circle. Any spare moments that the Warka-Warka bird has it spends it sliding down the more jagged peaks of the Rocky Mountains. And as it slides down these very jagged precipices, it gives voice to the most piercing mournful and heart-rending cries, *Warka Warka*, and this when translated means, "Oh Boy What a sensation!"

That reminds us of a man who had a score of perhaps two score of hens with very short legs. In fact the legs of these hens were so short that he called them *Creepy Hens*. He also had a long-legged rooster. And this most enterprising man crossed the long-legged rooster with the *Creepy Hens* and lo and behold the offspring had one short leg and one long leg and the advantage of this most astounding accident was that they could feed with the greatest of ease on the side of a hill. To offset this state of affairs the offspring of this peculiar hybrid lays square eggs so that they will not roll down the side of the hill. These eggs also have zipper fasteners, on the inside, so that the chicks may get out easily.

It is certainly gratifying to see the staff of the Museum using such perspicacity in pursuing their duties. They have our editorial blessings, and thanks for thus enhancing the Museum with such priceless trophies.

## Allah Be Praise; Studes Get Paid

We aren't built to grumble, but when we start watch the professionals shrink. The lot of the student is the hardest on earth. He's in the class that works like blazes and pays for the privilege of doing it. Now there's those who work and get something for it,—and they're grumbling. Then there's those who don't work and get lots for doing that,—and they're grumbling. And there's those who don't work and don't get anything for it,—and they're grumbling. But where will you find any poor dupes who work like the devil and pay for doing it? Only in one place, and that's just where we are.

There's a mighty wave of reform about to sweep over us, and within six weeks or so we'll be running around under a new sky.

University students are going to demand, (in fact claim) from the Faculty in which they are enrolled, the sum of \$22.50 per week for every week which they spend at this great institution. In addition, there will be parties thrown three nights per week, to which students will be cordially invited; so that they may recover from the fatigue of a hard day's work. These, of course, will be entirely free at first, but it is expected that the attendance will be so small that bribery will have to be resorted to; no doubt, within two months we will be able to make money by going to parties. Rumour has it that the best known ball rooms will offer us from six to ten dollars a couple, per evening, as an inducement to attend.

But a Schoolman must have that extra energy to vomit a Toke-Oike 40 times a day, or he wouldn't be noticed at all: so he fitfully puts aside 23.24 cents a day for his froth of life. He gets them cheaper by buying in large quantities, and smuggling them in through the back window of the engineering society office.

## SMUGGLING MAKES 'EM TASTE BETTER AND LONGER

It's with a broad grin that the scientist-to-be-or-not-to-be, greets himself in the glass in the wee hours of the morning. After his weekly shave,—he hasn't seen the ad yet which would tell him that

## WOMEN LIKE 'EM WITHOUT HAY

he contentedly strokes his pink, plushy, velvety, cheeks as he cries, Ah! no blackheads, no pimples; just a soft peachy hide—

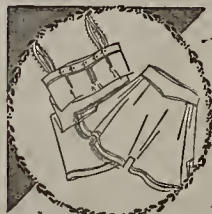

## DO IT WITH YEAST

As an innovation in the policy of this paper, it has been decided to run two front pages each day. The reason for this is the fact that very high advertising rates can be secured for front page advertising, thus increasing the S.A.C.'s advertising revenue by a heluva lot. We know that all our readers will be pleased to hear of this radical but very advantageous change.

## Great Adverb Contest

FIRST PRIZE FREE TRIP TO HELL

Second Prize: '35 Model Kiddy Car.  
Seats Five

A School man and his money are soon parted. It's an ill bim that nobody does wrong. There's seldom a slip twixt the skirt and the hip. A bird in the hand is just too bad. A pig is a pig is a pig. Twin beds are better than none. What's it matter as long as he's healthy? Birds with one feather are practically naked.

## STRIKE US

## PINK

So they join the campus paper  
All the cub reporters green,  
Just to vent in idle moments  
Their vile literary spleen.  
Sick and tired of writing features,  
News and sports, A.M. & D.,  
Once a year they get together  
For a journalistic spree.

Sing a song to Bacchus,  
The crock is full of Rye,  
Four and twenty stories  
And every one a lie.

"Tonight we'll jazz the issue  
While the censors are asleep.  
Give free rein to inspiration.  
Be it low or be it deep!  
Oh we'll blast the Student Council  
Take the Cannon for a ride,  
Then we'll razz the campus heroes  
And the Faculty deride.

Sing a song to Champus  
The Cot is full of gin,  
Tonight the sky's the limit  
So let the hell begin.

"We'll express our indignation.  
Hidden hates we'll scribble off,  
While the Press with beer flows freely,  
And the steins we deeply quaff.  
Freely slander, curse and libel  
Every bless'd divinity,  
Every saintly theologian  
From St. Mike's to Trinity.

And when the rag is opened  
The Frosh are taken in,  
The Co-eds all look sheepish—  
We've had our night of sin.  
—The Muddy Yorker.

## START BOOZY AND SLAMMIT

Broccoli Square as produced with great labour by the Divine Dramatic Society last night in Host House was stupendic, colossus and iataclysmal. The plot was concerned with a concept of time as related to a cognitive universal cosmos. The author, Mr. Hairlessrock deserves a world of commendation for his fearless presentation of the ultimate values of this daring theme.

The leading role of Teter Standup-ish was played with nerve, crust and delicate insensibility by Derrick Ralkinson. Mr. Ralkinson's gestures left little to the imagination. Miss Wheel Barrow, who appeared as Helen Patacow, simply suited the audience (there wasn't a dry seat in the house).

The part of Throesbottom was taken by that great Irish actor Isaac Abramowitz and he completely solved the Esau problem. Loina Sausage was tremendous in her nutritious sketch of the contented cow in the role of the Duchess of Devonshire Cream. The proverbial Farmer's daughter also ran as the cockeyed maid.

On the whole this was a superior organization from a superior college, production produced by a superior N.S.F./M.O.H.

Yesterday afternoon at the Unprofessional Women's Union the Brayers Grill served up *Mock Duck*, an epicurean delight by Bibsen. The play tickled the palates of the audience, producing hicups of birth. This gastric tragedy is easily digestible by all those not suffering from dyspepsia.

The lead, *Toupee, the Duck*, was played by Miss Insane Maybelle, a flat little blonde girl. Yellmore the Duckman, was ably presented by Bore-don Bobbison. Constant Laidler, little mot'ar of the Mock Duck, banded out the a'pleasance as Ginandbitters. Bing Bonger the bad bibulous bulbous babbler of the duck industry (it gets him down, ) gave a natural performance as old Vera.

The sets were ably neglected by Balaam Starra and it is rumoured that the production was under the misguidance of E. Picta.

Wimpy.

## ONE SMOKER TELLS ANOTHER

Your friends are smoking Sweet Caporal Cigarettes because other smokers they know have been so persistent in their sincere praise of Sweet Caporal's delightful mildness and appealing flavour.

To produce Sweet Caporal quality, we buy only the choicest tobacco. We age this tobacco patiently, as good wine is aged, for at least thirty months, and we let nature take its course in mellowing the tobacco so that you will like it. In this way we make sure that there can be no raw tobacco in Sweet Caporals. Try a package of Sweet Caporals today—you, too, will say they are milder, cooler, smoother.

A supply of Rings and Pins is kept in stock.

**STUDENTS' ADMINISTRATIVE COUNCIL**  
Room 82, University College and Hart House

First year students are not entitled to wear the Crest.

## THE SNORTSWOMAN

We had a swell time last night at the Varsity women's double dutch tournament, and a capacity crowd applauded the mighty feats of the big Blue team composed of Killer McGee, "Iron Muscle" Campbell and "Knuckle Duster" McGuire. McGee's record breaking 2053 skips without a trip caused the spectators to gasp. However, a more awe-inspiring performance was "Iron Muscle's" 205 salt, pepper, vinegar, mustard, with a heart-breaking miss at the 206th vinegar.

The intermediate "May I" team retained their intercollegiate title by defeating the McGill girls at Montreal last night. "Dizzy" Simpson did her part for our side with 25 complete umbrellas without a stop, landing up in the city police court with a charge of drunkenness. Mary McPhee, taking 34 giant steps to cover almost 100 yards garnered two points for the Blue and White and Agnes Featherstonchugh did her little part by copping the baby steps event. The McGill girls on the whole were not very much competition for our experienced team, continually forgetting to say "May I" and were completely fagged out from walking back to the starting line.

The interfaculty jacks tournament will get under way tomorrow night, girls, so be sure and be up at the Women's Union Thursday night at 8 p.m. It is understood of course that each entrant brings her own jacks. U.C. last year's winners, have the same team again this season, and when it is recalled that Fanny Calhoun reached her sixty-one two's without a trip, the other faculties should begin to realize they will have some competition on their hands.

## HART HOUSE ELECTIONS

It will pay every Candidate to advertise in "The Varsity". The cost is very small and the results will be very great.

## O.A.C. STILL IN RUNNING FOR CAGE CHAMPIONSHIP

18-11 Victory Over Sr. U. C. Brings Farmers Up Even with Red-and-White

By overcoming Senior U.C. by 18-11 at Guelph yesterday afternoon, O.A.C. remained in the running for the inter-faculty basketball championship. The Farmers are now tied with the Red and White for first place in the group standing, and as both teams have completed their schedule, a special playoff game will have to be arranged to determine the winner.

U.C. had a big edge in the play during the first half but due to erratic shooting, they were leading by only 7-6 at the rest period. Both teams showed a startling reversal of form in the second half, and during the first five minutes, O.A.C. piled up a substantial lead which U.C. were unable to overcome.

Laing and Hennessey were the only U.C. players to score more than one basket, while Kelly and Hamilton were the shining lights for Guelph. U.C.: Bell, Lipman, Damsky, Hennessey, Laing, Coulter and Minsky. O.A.C.: Campbell, Huff, Crowe, Aylsworth, Hamilton, Cowie, Kelly and Bartlett.

Statistics show that Yale graduates have 1.4 children and Vassar graduates have 1.8, which proves that women have more children than men.—Ohio State Lantern.

And speaking of tournaments the annual rolling pin and flatiron throwing contest for Prospective Wives being held under the auspices of the Household Science Department, will take place some time in February at the Hart House gym. Victoria has a triple threat girl in the person of Kathleen Schwartz, who can throw a mean custard pie, dodge an army of bill collectors, and beach-seat drive like a fiend. All girls with rings on their fingers take notice. This contest is for you.

## SQUIRTS

**Women's Athletic Pictures—** Photographs of the University of Toronto Women's Tennis, Senior and Intermediate Basketball, and Hockey teams and the Senior "T" holders will be taken on Monday, March 3, at 1 p.m. in the Photography Department, Engineering Building.

**Athletic Women's Pictures—** Tintypes of the Cornetshell College young females' jackknife-throwing, Cradle-Roll and Primary Stone-cracking, and Hawking teams as well as Senior "O.K.M.N.X." holders will be thrown out on Monday, March 7th. Also no beer.

**Women's Sports—** Anyone going to practice swimming at Hart House must be at the Porter's Lodge at 7.15 p.m. promptly.

## SOAKING UP SUDS

Buy O'Keefe's

Somewhere in this issue someone is sure to make some spurious remarks about the sports staff and their interests in the beverage rooms and their supplies. So to nip this rumour in the bud (Canada) we hasten to point out that our only interest in such affairs centres around the rapidly growing pile of empties which accumulate around the press (left here no doubt by the day staff). In a recent lottery we drew the lucky ticket and it will be our privilege to transport the aforementioned dead soldiers to the warehouse and there receive the bounty which the companies pay for the capture of such articles. Hence it is our avowed purpose, as soon as we reach the bottom of this column, to dust off the remains, shoulder the cases and hie ourselves to the place where we collect the refund. Beyond this we can truthfully state that we have no interest in the brewing companies.

One of the recent moves in the field of sport, was the decision of Mr. Hitler, regarding the Olympic games. The games are this time scheduled for Berlin. Mr. Hitler, who is some sort of an official in Germany, has given evidence of a dislike for the Sons of Abraham, and for some time it was expected that such men, competing for any country whatever, would have to carry a 50 pound sack on their backs or something. However, Mr. Hitler has dispelled all doubts in this direction, by announcing that all Semetic athletes would be given every consideration. His idea is to have such men compete by themselves, somewhere on an island and have their official records forwarded to Germany. Should they fail to better the marks established by the German competitors all will be well, but should they best the efforts of the bome brews, the records will be discarded.

One thing more has Hitler done on behalf of the local lads. It seems that there will be a series of contests during the Games for Germans only and the best times and marks made over this period will be accepted as official. Then when the rest of the competitors attempt the feats the times, etc., will be taken and should they surpass the marks made by the local lads they will have to repeat the performance until they produce an effort, short of what is accepted as official for the German youths. In short, Hitler is making an effort to have Germany win the next Olympics.

Last night's basketball fixture in Hart House was all a big mistake as far as this department is concerned. While the games were, we expect, of a high standard, we have a complaint to make regarding sending a flock of females into action in the preliminary. Last night one of *The Varsity's* star sports reporters was sent to cover the big fixture, but he arrived early, and evidently made good use of his time, as at deadline time the aforementioned reporter was still missing. We understand Coach Hayman had a little difficulty along this line and rumours continue to appear to the effect that Lou had to break up several parties before he could corral enough men to make a team.

## Nudes in Frigid Zone Lower Moral Tone

Dawson City, Feb. 27.—The University of Yukon today banned co-educational nude bathing while the weather is below zero. It is understood that this drastic step was only taken with the greatest reluctance. On the first vote the council decided to take no action in the matter but, when the

Dean of Medicine threatened the secession of his faculty the vote was reversed. Dean Heinz said that the practice was most unhealthful and added that he had 100 per cent backing in his faculty.

There are 860 languages in the world not including the one used to converse with a collar button which has just rolled under the bureau.—Oklahoma Daily.

## The Undergraduate Newspaper

THE VARSITY, THURSDAY, FEBRUARY 28th, 1935

### Little Audrey Laughs & Laughs & LAUGHS!

### FEES CLERK GETS GATE

#### 'SQUELCH BOLLONEO' IS STUDENT VERDICT

Ruling to be Accompanied by Remuneration for Writing Examinations

#### RED TAPE ABOLISHED

From high official sources *The Varsity* learns that the suspension of Mr. Bolloneo, fees clerk, is imminent. It is understood that following student opinion voiced recently through the columns of a prominent campus daily morning paper, a royal commission has been meeting in camera and will recommend severe disciplining.

The recommendations will also include provision for a course of instruction to freshmen on the intricacies of the red tape connected with paying money to the University. Tuition will also be given on methods of approaching fees clerks in particular.

It is generally admitted that students never grumble, even though their condition is the most wretched. It is fully expected that when the reforms are introduced complaining will become chronic in the ranks now so peaceful.

(Continued on page 1)

### SCHOOL NITE FEAST WILL FEATURE YEAST

Girls Feel Dejection at That Schoolman Complex; (The Pansies!)

#### YEAST IS YEAST &

Whoever said that Varsity students were a boo into Toronto, sure knew their yeast cakes—and their Schoolmen. Those great he-men that inhabit the caves to the south of the campus, and have "the skin that's fetch 'em if they aren't too far gone", know their ads.

**TUCK IN THE VITAMINS**  
There's only one source of all the vitamins from alpha to omega inclusive and it's the little, crumbly-crumblie-crumblie cake done up in the tinsel wrapper and sealed with the Siamese stamp. The one and only secret to big biceps, cherry cheeks and super-micro-metric precision.

**EAT THREE EVERY DAY**  
But a Schoolman never does things by halves. Statistics show that during the School year, sales of the bigger and drier XZ cake shoot up \$999 1-2 cakes per diem,—which when attacked by homely arithmetic, spells

**6 CAKES PER SCHOOLMAN PER DAY**

Now co-eds that's why your bonny, bouncing boys get up so early, stay up so late and are always foaming over with pep-p-p-hic-pep-hic.

**THERE'S 450 RIFTS IN EVERY PACKAGE**

Now Med students scorn this dainty, sticky, get-out-of-the-roof-of-my-mouth thing that's rush-sil-sil-eh (give me a kleenex Noam, this froth is getting all over the typewriter) daily to your grocer's in the little black maria, along with Chasit and Mudborn coffee. It's too cunning and ingee-gee-neous for them to analyse—and a Meds student won't eat anything that he can't analyse (which accounts for the lean and hungry volunteers in that dept.).

DORIS AND HELEN

The best little pals *The Varsity* ever had, in an exclusive pose, posed for *The Varsity* at an early hour this morning. These striking scenes will recall vivid memories to most members of the staff as well as others. Lamb's Lettuce! Doris is the one wearing a smile.

#### Pomes, Eh?

Fire the Editor! somebody bellahs. The S.A.C. jams down on Ellis, Ellis is caught when off his guard. An Editor's life is awful hard Says Ellis.

There's something troubling Editor Ellis. Perhaps it's old age, or, maybe he's jealous. Why should a professor of History or classics Take a slide on the ice to improve his gymnastics? Asks Ellis.

And what on earth are these S.A.C. fellows? The students are howling, Varsity, tell us. Ellis is wiser no more than the rest, But it's something I've got to get off of my chest, Says Ellis.

No tickets for rackets, O Editor tell us, Are the meds on the square or are they just jealous? And that swell Vic At-Home would it really be marred? If a Varsity man were given a card? I can't tell you that, if I do I'll be fired, Groans Ellis. —Iago. (Continued on page 7)

#### WOOSEY HAARLEMITE CLUB

Final gab-fest sometime soon, mebbe day after tomorrow, mebbe later. Resolved, "That whereas etoin shrdluoain rdluuuuuuu, we hereby thank (ensorred) that we are not, or might not be, or were not, or will not be, etoinshrdluuuuuushrdluuu." Whiffsnitz, spikker; Muck, clerk; Wafer, premier; Lice, leader of opposition.

#### AULD LANG SYNE

1928—The burnt corpse of Gordon Lickerbreath emerged half an hour after the famous Hart House fire had been subdued by the University Brigades.  
1933—The S.A.C. had a field day when they first cancelled all exams because of lack of fees and then raided the press in the early hours of the morning, causing much damage.  
1934—Bathrub of gin discovered during Whitney Hall raid! (Continued on page 1)

### SAYS MR. FUNNEL HOW ABOUT A TUNNEL

Funnel's Tunnels to be the Chunnells thru Which the Studes Will Runnell or Funnel's Tunnels Sure to be the Acme of Proprieteel! Etaoinshrdlu

"Just the thing," explained Mr. Kennel, when interviewed by *The Varsity* on the subject of the proposed tunnels to connect the various University buildings. "I certainly agree with you that it would speed up traffic and I am sure the students would find it more convenient to meet their friends in a tunnel than out on street corners facing the weather and the curious on-lookers. Personally, I have always believed that even students have a right to their own private social life."

"Of course it is understood that it would be very impracticable for the professors to use these tunnels since they are so notoriously absent-minded that they would surely become confused in the labyrinth of passages and it would certainly do the reputation of the University no good to have the professors late for their own classes due to the fact, let us say, that they inadvertently took the wrong turning and instead of arriving in University College, they found themselves in Whitney Hall."

"Students, on the other hand, would have to overcome their own difficulties and I am sure that after an S.P.S. man arrived once in the Medical Building by mistake he would not soon offend again, and vice versa."

"There is just one thing I insist on, that these passages shall be closed between the hours of 12 p.m. and 8 a.m. in case any of the students may be addicted to sleep-walking." (Continued on page 7)

### PERPETUAL MOTION IS BMITH'S NOTION

Messrs. Bermant, Bmith and Brae to Aging Science Show the Way

#### NO BEER MENTIONED

Messrs. Bermant, Bmith and Brae phoned up *The Varsity* late last night and told us that they had perfected a perpetual motion machine.

"The invention," said Mr. Bmith, was very difficult and complicated or perhaps I should say that it would have been for anyone else except us. We, of course, had no trouble at all and in fact did the whole thing in our spare time. As you will know we have not got much of that for what with Dr. Cody and Warden Bicksteth asking for our advice whenever they are going to do anything important we don't know what time we can call our own. Now, for instance, I had just got nicely to sleep last night when Professor Bashley phoned up to know if he could let his cat in. There's a clever man for you. He knows how to recognize genius when he sees it and he isn't afraid to come to us for help. "But how about this invention?" we asked.

### OUR LITTLE AUOREY MAKES THE GRADE

She Laughs and Laughs and Laughs and Laughs and Laughs (tsk!)

#### AND LAUGHS AND LAUGHS

She's made the grade! She's got prude Toronto on the floor in kinks! Who is she? Well just read the following facts we have collected and see if you're right.

1. She beats all the professors on the University staff for the extent of her "larning". What's more she hasn't got any one track mind, her knowledge runs from the possible milk content of a fly to those most interesting biological facts that all girls should know before they come to college and usually pick up about the time that they're wearing out their second rompers.

2. The tales that are circulating about her, are either so weak that they should have died a natural death long ago or they're not the kind that one hears at the best prayer meetings. (The S.A.C. makes pretty sure that you don't read them in *The Varsity* either.)

3. She is usually called "little". There seems no particular reason for this except that most people are either little, medium or big and as she came out in those economic days of the war, her mother designed her in the then stylish mode.

4. According to report she was first a resident of England but was attracted by the Ambitious City and moved there about the time that Dr. Dafoe was beginning to think about bringing a camp bed in. She has now come to this Queen City of ours and has got both the Travelling Gent and Matilda West on the run.

5. Her chief characteristic seems to be that she "laughs and laughs and laughs". Sometimes her mirth comes from sweet, innocent things but other times they're not so innocent.

6. The little lady has no surname that anyone ever remembers but that doesn't really matter, just call her "little Audrey". (Continued on page 1)

"Oh yes I did phone up about that, didn't I? It's funny how one wanders to important subjects at times isn't it? Not that we don't think this machine is important. Next to Einstein's Relativity it is the greatest production of the human mind. It works, as you might have thought, on the hot air principle. You shut the doors of the Debates Room and then Messrs. Brae, Bermant and myself decide who will start talking. Theoretically it might be anyone in the University but you know what squabbles there would be if we followed that in practice so we decide beforehand that it will be one of us. Another important reason is that there really aren't any good speakers in the University when you exclude us. Look at the clever way we handled the radio debates. There wasn't any other speaker."

"You'd just shut the door and chosen your speaker. What happens then?"

"Well, suppose I were to start speaking. You can imagine the amount of hot-air produced. I haven't got the figures here but really it is stupendous. Now this hot air has to go some place and as the doors are shut it can't go out. In about 5.2345678 minutes, according to our calculations, the roof will start to rise. After this has been going on for 3.456789 minutes we will open all the windows and doors and the roof comes down. If each of us speak for one hour the roof will go up and down (Continued on page 1)

### YELLOW-SHIRTED MENACE NOW CLOSER THAN VENICE

### BIRTH CONTROL TO BE ON THE CAMPUS?

This is a Bastard (Head); Do What You Like About It; No Beer

#### TRY GOODYEAR'S

The establishment of a Birth Control Clinic on the campus was announced by the President's office late yesterday, after a long and serious session of the Board of Governors.

"Believing that this type of information should be frankly and accurately available to students, we are taking this step," reads the official announcement issued to *The Varsity*. "The clinic will of course be under capable supervision. Certain members of the Medical Faculty have been secured as staff and will work under the direction of Mr. Gart Cluck V.A.G. of University College."

The decision to open the Clinic crowns nine months of strenuous effort on the part of Mr. Cluck, known to his friends as "Dum", who has been leading a valiant crusade among campus organizations. Just a week ago Mr. Cluck electrified a session of the usually staid Sandwyche Parliament, climaxing his appeal for the free distribution (Continued on page 1)

### Victoria Deans Spill the Beans

Bundling beds will be installed in Gate House if the report of a commission investigating social conditions in Victoria College is adopted, according to information obtained from high official sources by *The Varsity* last night.

Mr. W. J. Whittle, when interviewed merely stated, "Er . . . ahem . . . um . . . sh." Principle W. Batterdown Down took exception to Whittle's statement, exclaiming "Ahrenschaab, um . . . er . . . ha." Chancellor Walloes declined anything further than a curt, "Skurumscheed-oschk . . . Skaweezzzzawhat?"

### YOU SEE LEDCALF SAYS MR. LEDCALF

Is a Most Illustrious Person Named Ledcalf

#### INTRODUCES LEDCALF

Last night the U.C. French Club held its regular meeting in the Women's Union. This was called by the president of the society, Mr. E. M. Ledcalf, as a protest meeting after the shameless affair at Wymillwood the night before last where he was not allowed to address the combined clubs for more than three quarters of the time.

The meeting was opened by Mr. Ledcalf's usual "Mes damns et mes soeurs", following which he bowed thrice and smiled twice and walked from the right of the hall to the left. "J'ai un grand plaisir en me presentant devant vous" was the next customary remark after which ten minutes Mr. Ledcalf finished and walked from the left to the right of the hall. He smiled

### YELLOW-SHIRTED MENACE NOW CLOSER THAN VENICE

Two Heads are Better than One

A yellow-shirted menace threatens the safety of the University following the speedy court-martial and shooting at sunrise this morning of two Chinese spies, discovered by the Unintelligence squad of the C.O.T.C. stirring up the corps to the deposition of Gen. Applectart and the formation of a Nazi Storm Troop to be known as the "Yellow-Shirts" and to be under the control of Heron Hitler as part of his underhand bid for world control.

Large numbers of yellow shirts had been stored in the S.P.S. basement by the opium-hatched Oriental devils in preparation for a sudden campaign. With a Chink management, it was thought there would be little danger of them being known as "Dirty Shirts".

The Yellow Shirts will probably seize Hart House for their headquarters about noon, in time to prevent the U.C. debate this afternoon. Members of the S.A.C., S.C.M., and of the anti-war society tremble in their shoes; in fact, Mr. Wadsworth K.C. has already left town. Students are warned that this will probably be the last uncensored issue of *The Varsity* as it is an old Nazi custom to smother the press.

Calls for help have been sent to other universities, but little help is expected as Queen's are haggling about travelling expenses, Western have to send to Assumption College for their cavalry and McGill refuse aid unless they are conceded the basketball and gymnastic titles.

(Continued on page 7)

thrice and bowed twice and walked back.

Next Mr. Ledcalf called out in his ordinary fashion "Are there any *Varsity* reporters in the place?" Being used to this little remark, your humble scribe took care not to reply. Then business proceeded as usual.

Mr. Ledcalf brought it to the attention of the club that for another year *The Varsity* had levelled unfavourable criticism against him in the annual play at Hart House. While the president graciously admitted that Mr. Acaroni had played the leading role, he did think that the student paper had been very unfair in not admitting he was an awfully good "commandant" and since it did not give him his full share of credit, he was going to issue free tickets to everyone in order to see that all means of entrance to the theatre were watched. Your reporter applied for one of these and thus the public is assured a fair and unbiased criticism of next year's presentation.

Mention was made of the fact that attendance at the club was falling off considerably, there being only two men and three senior women at the meeting, the rest of the audience being made up of freshettes to whom the club is still a novelty. To attract more to the circle, the president proposed changing the name to the "You See Ledcalf Club". Considerable objection to this proposal was made on the grounds that Mr. Ledcalf might not continue in his executive capacity, but after a little display of modesty he graciously consented to favour the club with his services next year whereupon the motion was carried and it was

### COURSE IN PORTUGUESE FAVoured BY STUDENTS

Two Year Course Deemed  
of More Benefit  
Than One

NDVELTY APPEALING

Students Hope New Subject  
Will Become Pass  
Option

The Varsity was able to see practically everyone in the Moderns course who would be affected by the proposed addition of Portuguese to the curriculum, and while opinions were varied and to some extent critical, yet it favoured the establishment of the subject.

Mr. Brian Barclay said that what appealed to him was the refreshing novelty of the idea, especially after the tedious analysing on the German and French courses.

Mr. Albert Baldwin thought that after studying the language for a considerable time by himself it would be a good thing to get some sort of official credit in the subject.

Mr. Gordon Kidder was in favour of the subject and hoped that it would be a two-year course as that would be better for future study.

Miss Gail Ferriss said that she might take it but was a trifle doubtful of the benefit of a one-year course. Miss Joan Ferriss said she thought she would not be interested in the subject.

Mr. Alderson Carley hoped that even third year non-matriculants would be allowed to take the course, while Mr. Stan Aquarone backed him up in saying that two years would be better than one.

Miss Rebecca Himmel said anything would be more interesting than the stupid Religious Knowledge options offered at present. Miss Marjory Horenblas said she would like taking  
(Continued on Page 4)

### NEW DEBATES COMMITTEE

At the Hart House debate on Wednesday night the following members were elected to the Debates Committee for 1935-1936:

J. E. L. Graham, III U.C.; J. L. Jefferies, III Trinity; M. Mirsky, III U.C.; R. R. Munro, III Victoria; B. Shaffer, III U.C.; W. C. Smith, I U.C.

### NEWS OF THE WORLD IN BRIEF

Ottawa—Prime Minister Bennett gave notice yesterday that he would introduce a bill to establish a federal board to be known as the Canadian Grain Board with power to purchase, receive and take delivery of grains for marketing and to sell, store, transport them.

Toronto—Hon. Arthur Roebuck in his address to the Ontario Legislature related in detail the history of the Galien and the five secret clauses appended which he termed the "most outright betrayal of the power-users of this province".

Ottawa—The Canadian Radio Commission is contemplating a construction programme designed to give the radio system a complete coverage from coast to coast. Action has been delayed only for lack of funds which would amount to approximately \$1,000,000.

Saarbrücken—Germany is fully prepared to take over control of the Saar today from France and the League of Nations. The ceremonies will be brief but they will illustrate the joy of the Nazis and the Saarlanders that the plebiscite made so obvious in January.

### U.C. PARLIAMENT SUFFERS DEFEAT

Personalities Loom Strong  
in Verbal Warfare with  
Opposition

VICE-ROYALTY PRESENT

The inspired oratory of Premier Bernard Shaffer, second only to the lofty remarks of Governor-General Hermant of Heath, apparently had little effect on the members of the University College Parliament yesterday afternoon, and as a result the government was severely beaten on the vote "Resolved that the members of this House thank God they are not as other men."

The session got under way as Premier Shaffer told the house that his labours on behalf of his fellow citizens had left him weary in body and mind (mostly in body on account of there's more of it to get tired, added one Hon. Gentleman from the opposition bench).

"I am not speaking for the newspapers when I say this," said the Prime Minister, which, according to *The Varsity* files, is a statement never before uttered in the Junior Common Room of University College. The Hon. Gentleman continued his address for three hours, (according to Mr. Speaker and the Heluva Watch) whereupon the Hon. George Bryce, leader of the opposition, took up the attack.

Hon. Mr. Bryce, with a regretful  
(Continued on Page 4)

### HUDUCK AND FULFORD ADDRESS LIBERALS

Mr. W. L. Houck, M.P.P., speaking at yesterday's luncheon of the Liberal Twentieth Century Club, gave a very illuminating discourse on the aims of the present Heppburn administration.

Mr. Houck showed how dependent Ontario economy is on the farmer and how essential good highways are for a large influx of summer visitors. He strongly urged young men in college to become interested in the affairs of the country, as politics offer a splendid field for the younger generations. Public speaking should be practiced as "it is not a gift, but has to be developed."

Mr. Fulford, M.P.P., was the second guest speaker of the occasion and he, incidentally, is the youngest member of the present legislature. He proposed a toast to Ontario and exhorted those present to avail themselves of every opportunity they had of making a public address.

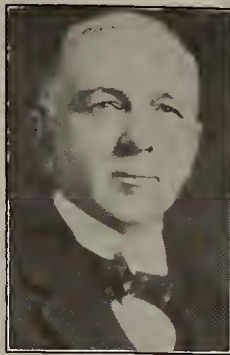

### KNOWLES OF TELEGRAM TO ADDRESS LUNCHEON

Mr. C. O. Knowles, Managing Editor of Toronto Evening Telegram, will address a luncheon meeting of the MacDonald-Carter Club on Wednesday at 1 p.m.

After several months efforts to obtain Mr. Knowles for a luncheon meeting, the executive of the club are very pleased to make this announcement.

As managing editor of one of Canada's largest daily newspapers, it will be appreciated that Mr. Knowles has little time for outside activities.

His editorials are well-known for their independence and insight into political and social questions whether of municipal, provincial, or dominion concern. Needless to say Mr. Knowles is a Conservative in politics. However, Conservative as well as Liberal policies come in for sharp criticism from his pen whenever they're contrary to Canada's true interests in his mind.

PROFESSOR C. R. YOUNG

Professor of Civil Engineering, University of Toronto, who is to give an illustrated lecture on "Extending the Limits of Construction," in Convocation Hall on Saturday evening.

### GREAT VARIETY IN NEW PUBLICATION

Brilliance in Tone and Colour  
Aim of "Undergraduate"  
Editors

SPECIAL ARTICLE FOR CDEOS

Bursting forth in a flare of dazzling green and yellow the new cover of the University College magazine invades the campus today. What is the "Undergraduate"? The fifteen hundred frosh and freshies no longer ask this question as they proudly turn its pages to read stories by their own friends, brilliant articles by popular students, and criticisms on questions of vital interest. The publication comes only once each year; its purpose is to supply a medium for the expression of undergraduate literary efforts. The highest standard is maintained in every type of writing, hence there is nothing flimsy about the tone of this magazine as in the case of many such college compilations.

The editors are more than pleased with their finished work; when approached by *The Varsity*, Les Rowntree admitted that much toil lay behind the eighty pages of this issue. Gerald Levenston, the editor, feels that the copious illustrations, the daring criticisms, of modern art, of drama, of political movements etc., together with the new style of "lay-out", should thoroughly appeal to everyone. "We have included," said Mr. Levenston, "valuable reviews of latest books, a poignant picture of Toronto's life"

### BLUES HOPEFUL OF SECURING PERFECT RECORD

Win Over Western Will Make  
Sixteen Straight for Blue  
Basketballers

THREE TEAMS TO PLAY

Intermediates and Juniors  
Meet Strong Opposition  
in Their Fixtures

Can the senior Blue hoopers make it sixteen straight victories and a perfect season? On Saturday night this question will be answered when three Purple and White squads from Western University invade Hart House for a triple header basketball fixture. As yet neither the senior nor intermediates have met defeat in intercollegiate circles and since this is their last scheduled performance the visitors will be out to upset the Blues.

Hayman's crew will have established a precedent that will be impossible to beat should they win Saturday night by annexing both the intercollegiate and Big Six titles in one season without incurring a single defeat. Wednesday night the league leaders had a rough, tough and nasty passage for forty minutes when the Danforths tried to capsize the Blue ship in home waters but the students proved their claim to the top rung by taking all the visitors could offer and then sailing on to an eight-point victory. Now the Purples who, at one time this season, had championship hopes, threaten to

### FIRST APPEARANCE OF COMMERCE JOURNAL SCHEDULED TODAY

Today the annual publication of the Commerce Club, the Commerce Journal, makes its eagerly awaited 1935 debut. So many orders have already been received for this popular magazine that the executive has seen fit to order one thousand copies from the publisher and these may be obtained at the Economics Building for the nominal charge of fifteen cents each.  
(Continued on Page 4)

### Applications

Today is the last day on which the fees for Arts Examinations will be \$10.00. After today the penalty is \$1.00 if application has already been submitted and \$2.00 if it also is late.

### STUDENT PEACE CONGRESS DRAWS ONTARIO DELEGATES

### ORATORICAL CONTEST FOR U.C. WOMEN

Subject Must Be Related  
to College Work  
or Life

On Monday, March the eleventh, the women of University College who are interested in public speaking may compete for the St. Margaret's Alumnae Prize, which has a value of twenty-five dollars. The contest will take place at a W.U.A. mass meeting, and will be followed by a discussion of some important amendments to the constitution which have been proposed by the W.U.A. Council, and also nominations for the 1935-36 Council and year executives. The committee in charge of the contest would like all the speeches to be on a topic connected in some way with college life—or work. However, if there are any candidates who have already planned to speak on another subject, it may be arranged by their getting in touch with the W.U.A. The rules governing the contest are as follows:

1. Candidates must be fully registered students of University College.  
(Continued on Page 3)

### RIDDELL DISCUSSES RISE OF COMMUNISM

Despite New Industrialization  
Agriculture in Russia  
Predominates

Russia is the first country in which Socialist theories have been put into practice by the government, and the rise of the Communists in this country was discussed by Mr. R. G. Riddell at his Current Events group at Wymilwood yesterday.

According to Marxian doctrines the Socialist party must seize power and acquire all means of production in one fell swoop. In Russia this could be applied because the government was discredited and the peasants and the soldiers were discontented and hungry. The first Social Democratic government  
(Continued on Page 3)

### THEATRE NIGHT PLANNED BY ALLIANCE FRANCAISE

Students to be Entertained  
by Three Amusing Plays  
at Hart House

Students of French are being favoured this year with entertainments of all varieties. The Alliance Francaise contributes a theatre night, March 14, at Hart House, and there will be presented three modern comedies.

*La Dame de Bronze et le Monsieur de Cristal*, by Henri Duvernois, is the story of a poor hesperetted artist, who, to escape from his overbearing spouse, feigns insanity. He claims that on even days he is crystal and on odd days touchwood. By an ingenious plan his wife retaliates and the doctor adds to the complications.

The wiles of a little woman, who can turn all occasions to her advantage and still retain that appealingly helpless air, are shown in *La Rente Viagere* by Gabriel d'Herleville. The lady wants a steady income for her remaining days; she manages to sell her house for a goodly sum on the condition that she remain living in it—a truly remarkable display of business ability.

The programme is completed by a farce by Tristan Bernard, *L'Etrangeuse*, a parody on presentations at Punch and Judy shows. As the title suggests there is a stranger in the east but her villainous plan does not succeed due to a series of comic mishaps.

Conference Result of Sending  
Delegates to World  
Student Congress

ALL STUDENTS INVITED

Universities and High Schools  
to be Represented  
at Congress

The coming week-end will see one of the most interesting, and perhaps most significant events which Varsity has seen for some time. In the lecture hall of the Economics Building there is to be held the first Ontario students' conference for peace. The Student Peace Movement of the University have taken the initiative in calling this meeting for students from the other universities and from many high schools. The conference is the result of the sending of two delegates to the World Student Congress in the Christmas holidays. It will be an attempt to organize a strong movement, centralized probably in Toronto, to rouse students to the daily-growing threat of war; and to form a determined group to oppose those tendencies which lead to war.

Speakers from the Student Peace Movement have been to Queen's, Western and McMaster Universities. The various interested groups on those campuses have been formed into peace societies; and they are sending delegates to the coming conference. Letters have been sent out to over fifty high schools throughout Ontario, inviting them to send delegates. In addition to  
(Continued on Page 4)

### HOFFMAN TO SPEAK ON ANTI-SEMITISM

Anti-Semitism will again be discussed when Dr. Conrad Hoffman speaks on "Hitler and the Jew" at St. Paul's Church Sunday evening service. Dr. Hoffman's work during the war dealt with Allied prisoners in Germany and later he was associated with the European Student Relief Enterprise. His present position is that of Director of the International Missionary Council's new committee on the Christian approach to the Jews.

### MEMORIES

1934—A questionnaire published by the McGill Labour Club was banned by Dean McKay of the McGill Faculty of Arts. The McGill Daily resigns from the Canadian Intercollegiate Press as a result of the ensuing dispute.

1932—Dr. Wm. Lorenz, of the University of Wisconsin, in an address on the dangers of alcoholic poisoning, stated his belief that since the enforcement of prohibition in the United States consumption of hard liquors had largely replaced beer drinking.

1927—Hart House Tuck Shop stays open until 8 o'clock as an experiment, but finds that sales do not justify the expense.

The University of Toronto B.W. and F. team, returning from McGill, brings back spoils of a raid on dance refreshment supplies, including five gallons of ice cream, a case of soft drinks, assorted biscuits and similar plunder. Ten titles won from McGill teams were the reason for the festivities.

1916—The Varsity vigorously supports a campaign for Belgian and Serbian relief funds.

1899—The space restrictions of the University College Residence—now the west portion of the college—are the subject of debate.

## Compulsory Athletic Fee?

Now that practically all this year's intercollegiate sporting events have passed into history, the question of arousing student interest in athletic events next year comes to the fore. Much has been said but little done to surmount the woeful lack of interest in University athletics. The college spirit which means so much to those engaged in athletics has relaxed into a lethargic state which seems almost hopeless.

For example let us consider one of the outstanding sports features of the year, the visit of the Syracuse boxing team to Hart House. Of the total number of tickets sold, only one quarter were purchased by University students. It is certainly a sad state of affairs when the University of Toronto Athletic Directorate must depend on outside support to put on such sterling international contests. After all, the morale or backbone of any athletic team depends on the enthusiasm and support of its followers. Is it surprising that this same attitude manifests itself in the members of Varsity teams as it does in the student body?

At present the Athletic Directorate has no definite income on which it can depend to foster international intercollegiate competition apart from the income during the football season. There is a sale of student season tickets, it is true, for events at the Varsity stadium and arena, but in the last few years this sale has decreased continuously. That leaves only one sure method of acquiring student financial support and that is by the levying of a compulsory athletic fee.

The proponents of a compulsory athletic fee hail it as a panacea for all athletic association ills. At McGill, Queen's and Western a compulsory athletic fee is charged, and has apparently proved its worth—from the athlete's standpoint at least. It would provide a steady income for the Athletic Directorate, allow them to build bigger and better sporting accommodation, and to sponsor more intercollegiate and international sporting events, and keep the tenor of sports at a higher and more prosperous level.

There are many improvements which could be made if the Athletic Directorate had sufficient funds. Tennis courts, for instance, could be constructed, squash courts and an interfaculty field-house equipped with gymnasias and field-house. With greater facilities for interfaculty sport, the calibre of the players and their ability would no doubt be raised. By giving more students a chance to engage in sports, the benefit to individual students under this plan is obvious. A women's athletic centre would be of great value, it is one of the outstanding lacks at this University now.

These are the advantages which would accrue under such a system, and there is much to be said for it. On the other hand there is the fact that such a fee would necessarily be quite high—over ten dollars per year, we have been told, if the fee were to include admission to all games.

There is certainly a great deal to be said for the plan, and it is one which should be given serious consideration. If it would accomplish much in the development of our college youth into eager robust specimens of mankind, as well as assuring a greater interest in athletic events, it should be taken up seriously soon.

## Student Peace Movement

Within the last two years, there has been a very definite trend on the campus towards a more mature and serious appreciation of the reality and eminence of war. Correspondence and opinion, manifest to a marked degree, the gradual swing towards realization of vital issues.

The Student Peace Movement, instituted by a small but vigorous nucleus, has become the focus, the rallying point of an ever increasing anti-war sentiment. From its rather inauspicious resurrection at the beginning of the school year the organization has progressed to the point where it was able to send two delegates to the World Congress of Students against War and Fascism at Brussels. Due to the impetus received from the resultant linking with the world student body, the movement has penetrated not only the University of Toronto, but most of the colleges in Canada.

In an effort to crystallize this movement, and to set it on solid foundations for more intensive work, the Student Peace Movement has organized a Toronto Regional Student Conference against War, one of the many to be held at various points across Canada. The Toronto Conference will be held in the Economics Building of the University this weekend. The main purpose of the conference, we understand, is to outline a positive plan of action for laying down the basis of the Canadian Student Peace Movement which will be united in fostering peace and in opposing predatory war.

It is to be hoped that the Student Peace Movement will be successful in its attempt to crystallize the anti-war sentiment that is widely prevalent today. Students are no longer oblivious to the events and trends in the outside world. They cannot afford to be so. History will not pass them by. They must exert all their energies to try to prevent the outbreak of another war. The Regional Conference is another step in the struggle. It merits the support of all seriously minded students.

## What is this S.A.C.?

### Student Loans, and Other Things

Except for a slight interruption yesterday while this column took a rest cure, we have all this week been running a series of articles on the S.A.C. and its various functions. Today we would like to draw to a close with something of a summary of the various smaller activities of the Students' Council, in particular the loan fund.

The S.A.C. has been very prosperous for the last few years, its affairs have been efficiently administered, there has been a good revenue all round, with the result that the S.A.C.'s balance sheet shows a tidy surplus. This is in direct contrast to the situation less than ten years ago, when the S.A.C. was completely broke. It was decided a few years ago that nothing better could be done with the Council's surplus funds than loan them to needy students, free of interest, in order to enable them to complete their courses.

The regulations are simple. Not more than one hundred dollars may be borrowed at any one time, and it is ordinarily loaned only to students who are in their graduating year, or the year previous. There is no interest charge levied unless the loan is not repaid a year after graduation, and then the charge is very low, just sufficient to cover collection costs. There is no profit whatever made by the S.A.C. on the transactions, and a great deal of benefit is derived by those students who are fortunate enough to be in the money.

There has been about six thousand dollars loaned in this way already. The appropriation for this year was set at \$1,500, but was raised to \$2,000 because of the tremendous demand for assistance. We have never learned just who was responsible for the idea in the first place, but it has certainly been one of the best which this University has produced.

Another of the S.A.C.'s duties is administering the affairs of the Varsity band. This is a group of fifty musicians who parade in uniform at rugby games, and add a touch of colour on many other occasions. The one big event of the spring season for them is the annual band concert in Convocation Hall when an attempt is made to take in sufficient game receipts to pay for a banquet. Fortunately for them they get the banquet anyway—the S.A.C. looks after that—for otherwise they would have to go hungry. The cost of this banquet, and uniforms for the band, is another of the S.A.C.'s expenses.

Intercollegiate debating, particularly in connection with the N.F.C.U.S., is handled by the Debates Committee of the S.A.C. in conjunction with Hart House. Many minor matters of interest to students are handled and grants of money given to worthy causes.

## ART, MUSIC & DRAMA

### St. Thomas Church

On Sunday morning at the 11 o'clock Choral Eucharist, the Rector, Rev. C. J. S. Stuart, M.A., B.D., will preach. The Choir will sing a motet by Weelkes "Let Thy merciful ears" and a brilliant setting of the service by Lovelock. At Choral Evensong the Rev. W. Lyndon Smith, M.A., will preach, and the Choir will sing Sir Arthur Sullivan's setting of "Yea, 'tho I walk". At the close of the service a short recital will be given including a quartette of solo boys voices singing the aria "Hear ye, Israel," from Mendelssohn's Elijah, the Male Chorus in a fine setting of "The Lord's Prayer" and Nevins' "Into the woods, my Master went". The entire choir will sing a choral fugue, "We will rejoice" by Dr. Croft, the 16th century Church composer, concluding with two Organ numbers.

(Continued on Page 4)

Is that so? Well, you'd yawn too.

Now we know how our father, Joab, felt when he received his first, last and only unsolicited contribution in the mail. We've got ours, and from a very modest lad (we think it's male) who apologizes for not admitting his identity even to us. Maybe Ignatz has been telling him how good we are at keeping that kind of a secret.

However, this is quite o.k. by us, for after all, as our Contributor himself says, we "are not Correspondence and do not demand either the divulgence of identity or the indulgence of divinity." Smart guy eh? He chooses, then, to be known to posterity simply as Rust'em the Persian—posterity in this case being the Feature Editors of (Continued on Page 4)

## DENTS WIN SEMI-FINAL EASILY FROM JR. MEDS

Last night's semi-final basketball game in the upper gym at Hart House saw Dents clip the wings of Jr. Meds to win handily by the score of 27-10. Metzler, for the Meds, opened the scoring, but the Drillers soon overcame this handicap and pulled away. Both teams settled down to give a close-checking performance, with Dents having the edge, but towards the end of the half the play loosened a little and the close of this period found the Dents on top at 13-7.

The second half began with close checking and little scoring, but Coach Harris' hopefuls gradually took the play into the open, keeping the ball close to Meds' territory. In the last part of this frame the Dents broke away to pile up a substantial lead and put a dent in the young Doctors' hopes. The game ended with Dents well on top and outplaying Jr. Meds in every department.

Dempster with 11 points to his credit starred for Dents. He was ably assisted by Andrews and Kingsberg with 6 points each. The latter gave a spectacular performance at centre by getting on his opponent at the toss-up almost invariably. Fenner with 6 points led the attack for Jr. Meds.

Dents: Kingsberg 6, O. Brown, Andrews, 6, Stoughton 1, Dempster 11, O. Brown, Shukin 1, Weir and Potashin 2.

Jr. Meds: Wise, Metzler 2, Zarsky, Fenner 6, Barret 2, Cash, Cork, Laski, Epping, Wales and Newton.

Referee: Miller.

## THE SPORTSWOMAN

By M. A. F.

At 1 p.m. today the final practice for the women's hockey team takes place. A full turnout is very important as McGill is coming down with an outfit which is evidently fairly strong and Varsity is keen to do everything in its power to give them a good game and to come out on top. Twelve players are slated on the Blue and White squad and beyond that Coach Jimmy McPherson has made no definite announcement, although we feel quite sure he knows in his own mind just whom he can particularly count on to play the best hockey for the good old Alma Mater.

Unless you are deaf and blind you must be well aware of the fact that there is a big women's hockey game on Saturday night at 7 p.m. in the Arena. McGill and Varsity are going to clash that night in what will be one of the big women's fixtures of the year. This game will probably bring the hockey season to a close (except for inter-year games—St. Hilda's were foiled in an attempt to run theirs off yesterday) so how about summoning all your energy and giving the girls some real support? It will be worth it.

The first general turnout of all the swimmers who are contesting in the interfaculty meet on Wednesday came off last night when the girls all assembled at the Hart House pool. The meet is going to be good this year and we have several definitely promising swimmers in our midst. There are still a few days before the preliminaries, which are to be held on Tuesday night, so may we urge you for the last time (and this is really a promise) to make the most of the short while left for practicing so as to be in your very best form when the big meet comes off.

### O.C.E. DEFEATS JR. VIC TO WIN CHAMPIONSHIP

With the group championship depending on the outcome, O.C.E. defeated Jr. Vic in an interfaculty baseball game yesterday afternoon by a 3 to 2 score.

Due chiefly to the fine hurling of Fitton for O.C.E. and Cowan for Jr. Vic the game developed into one of the closest and hardest fought struggles of the year. The two teams battled through four innings to a two-all tie, and in the first half of the fifth, Jr. Vic put a man on third base with nobody out. However, Mitton then turned on the speed and struck out the next three batters to avert a score. In their half of the inning, O.C.E. combined two solid hits with a stolen base to push over the winning run before a man was retired.

O.C.E.: Duncan, Blackford, Costigan, Thorndale, Dool, McNeil, Dilworth, McCartney, Miller and Fitton.

Jr. Vic: Ferguson, Walker, Cumming, Cowan, Fallis, Matheson, Beattie, Clipperton and Wolfe.

### BASEBALL PLAYOFFS

Mon. 4—Emmanuel vs Jr. S.P.S. or Jr. Meds.

Tues. 5—Dents vs Sr. Vic.

Wed. 6—O.C.E. vs Jr. S.P.S. or Jr. Meds.

Thurs. 7—Dents vs Emmanuel.

Fri. 8—Sr. Vic vs O.C.E.

Mon. 11—Dents vs Jr. S.P.S. or Jr. Meds.

Tues. 12—Emmanuel vs Sr. Vic.

Wed. 13—O.C.E. vs Dents.

Thurs. 14—Sr. Vic vs Jr. S.P.S. or Jr. Meds.

Fri. 15—Emmanuel vs O.C.E.

All games seven innings.

Players kindly be on floor at 4 sharp.

Teams finishing first and second in above playoffs will enter the finals—best two out of three games. Finals will likely start on Monday, March 17.

A game between Jr. S.P.S. and Jr. Meds today will decide which team enters the playoffs.

## SPEAKING OF SPORT

By George Vair

This weekend sees the wind-up of intercollegiate sport when Varsity entertains three visiting teams from Western and the ladies' hockey team stage their annual puck-chasing event with McGill at the Arena on Saturday night. The ladies' club, coached by Gentleman Jimmy MacPherson, are expected to retain the cup for another year despite the rumours from the east that the crown crested maidens are out to lift the mug and take it home to the den of the Redmen.

Saturday night will see Lew Hayman's powerful senior basketball squad finish the 1935 campaign and a very successful one too. It is unfortunate that the students could not take time off from their studies long enough to win the city title and take on Assumption College of Windsor. However, it is March 1 and the fact that you might be an all-Canadian, all-American or what-have-you-type of star (including journalism) is water under the bridge as far as examiners are concerned. Just the same we do feel that a series between the unbeaten Varsity squad and the equally far famed Windsor college would certainly be a natural. Think of it. It might be good enough to get 400 of YOU 7,900 students out to support the best team that has been seen in action around this city in modern times without telling you that there was a dance after the game.

For those hard working students who cannot take the time off from their studies in the evenings and therefore never see a sporting fixture, we suggest dropping in at Hart House late in the afternoons to see a basketball or hockey game. Although the interfaculty playoff schedule has not been fully drawn up, five of the six teams in the semi-finals have been chosen and games will be played practically every afternoon next week. The group winners have been placed in two three team groups playing each team in their group twice. The winners of the two groups play off, possibly in a best three out of five series to determine the champion in interfaculty group circles. Victoria won their first semi-final game against Knox 15-13 and anyone who saw the tilt will agree with us that no love was lost on either side, making it a first rate game to watch.

Varsity Beavers, the University entry in the T.H.L. Commercial League, will be on the spot Saturday afternoon when they come up against Post Office. The youthful Blue squad have been showing the working boys how the game should be played and today finds them sitting on the top of the heap by virtue of their 3-1 win over Hinde and Dauche on Wednesday night. A win will put them well out in front while if they lose it will force them to share the top rung. The Ottawa line of Kieff, Devine and McLaughlin has been doing some great work around the nets in recent games.

### Oratorical Contest for U.C. Women

(Continued from Page 1)  
Students of other faculties and occasional students of the college are not eligible.

2. The same student can not be awarded the prize in two successive years.

3. Two or more candidates may choose the same subject.

4. If a preliminary contest is required the same judges must serve at both hearings.

5. Each speech shall take approximately ten minutes, the exact time being determined by the number of candidates.

6. Notes may be used, but a candidate must not read from her notes. A candidate who does without notes altogether may be given the preference, other things being equal. Excessive "memorizing" will be counted as a fault. Candidates should be careful to finish their speeches and not be cut short by the bell.

7. An approximately equal value will be given to matter and to style.

Any candidates wishing to enter the contest must sign the list in the Women's Cloakroom by Thursday, March seventh. Notices of motion for the mass meeting will be found on the Bulletin Board in the Cloakroom, also.

### BASKETBALL PLAYOFFS

If U.C. win on Saturday, schedule goes as follows. If U.C. loses all their games as below are thrown out. That is, no games on March 4-6-8.

March 4 Sr. U.C. vs Dents

5 Pharmacy vs Sr. Vic

6 Jr. Meds vs Sr. U.C.

7 Sr. Vic vs Pharmacy

8 Sr. U.C. vs Jr. Meds

11 Pharmacy vs Knox

12 Jr. Meds vs Dents

13 Knox vs Sr. Vic

14 Dents vs Sr. U.C.

18 Finals

22 Finals

Blues Hopeful of Keeping Perfect Record Unscathed

(Continued from Page 1)

ruin the straight course steered by Captain Hayman and it appears to be no idle threat since the Westerns have met with decided success in the college loop

at least until Varsity took a trip into Purple territory.

Mac McCutcheon's speedy intermediates are also in the undefeated class and a win tomorrow will give them a clean sheet for the 1934-5 campaign, which is good news to any coach, player or fan. The seconds, although winning their game on the western trip, are expecting plenty of opposition when they trot out on the oaken floor against the visitors and there seems little reason to doubt that they will be disappointed. The curtain raiser sees the Varsity juniors meet Western's third crew in a regular fixture.

### Riddell Discusses

Rise of Communism

(Continued from Page 1)  
In 1917 failed only because it had to clean up the war mess and at the same time continue fighting.

In 1927 there was a difference inside the Bolshevik party resulting in Trotsky's exile. The present Stalinists are for the development of a political machine in Russia before converting the world. The first Five Year Plan failed as the peasants used sabotage rather than agree with the agricultural decrees. The Plan was more successful than the other European powers had expected but after 10 years of industrial activities Russia is still predominantly an agricultural country.

It was School Nite at the Silver Slipper last night when the boys from the Little Red Schoolhouse flocked to the fresh year party and broadcast the fact to the world at large when the Slipper orchestra went on the air at 10.30. The lads in the control room on Bloor St. must have had a time of it when Toke Oike came blasting through.

4 p.m.—Debating Society meeting in the Women's Union. Elections. Awarding of trophy. Tea will be served.

## Student Peace Congress Draws Ontario Delegates

(Continued from Page 1)  
student groups, invitations have been sent to numerous other organizations, including church young peoples' societies, Y.M.C.A., Y.W.C.A., etc., in this city and in other places. The S.C.M. in Varsity, Queen's and Western are sending representatives; many of its members are active in the movement already. The S.L.C. is also sending delegates; and its members are among the organizers of the conference. The affair promises to be widely representative of student opinion on the war question.

Although most of the time will be taken up by student speakers and in discussion by the delegates, the Student Peace Movement have secured several of the outstanding professors in this University to give special talks on the problem of war and its causes. Professor Urwick will speak on the topic of "Social Relationships", as head of the Department of Sociology and Political Science, he is especially competent to handle his subject. Professor MacKenzie of the Law Department is to speak on the League of Nations. Professor Grube of Trinity College, Miss Biss of the Economics staff, Mr. Woodside of the Engineering Department are among the list of speakers. There are to be addresses outlining the viewpoint of various groups: the churches; the League of Nations Society, the Canadian League against War and Fascism, the Veterans, etc. Reports from the various delegates will include a report of the World Student Congress; and a report on the position of women as discussed by the special committee at the World Congress. An invitation is being extended to all professors and it is hoped that they will form a committee to carry on work in support of the students.

Official invitation has been sent to the student organizations in Varsity. All students are invited to attend the sessions as visitors. The sessions will begin at 9 a.m. Saturday, March 2nd, and end at 6 p.m. Sunday. The lecture hall of the Economics Building offers excellent facilities. The gallery will be open to visitors. A registration fee of fifty cents will be charged delegates to defray the expenses of the conference.

The Student Peace Movement urges all interested students to make a point of attending some sessions.

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at either the men's office in Hart House, or at the women's office in University College. No notices will be taken over the telephone, after 6 p.m. notices must be taken to the Press Building. Notices for the Bulletin Board are limited to ONE insertion only.

### 317 VICTORIA

Will those attending the skating party on Saturday afternoon please meet at the south east corner of the rink at soon after 2.30 as possible.

**MACDONALD-CARTIER CLUB**  
Luncheon, 1 p.m. Wednesday, March 6, North Common Room, Mr. C. O. Knowles, Managing Editor, Toronto Evening Telegram will speak. Members please note.

**ATTENTION S.C.I. GRADS**  
All graduates of Sarnia Collegiate Institute are reminded of the reunion tea to be held in the Senior Common Room, Burwash Hall, Sunday, March 3rd at 4 p.m.

Graduating members of third year are requested to exercise their privilege of voting today for the 375 Permanent Executive. This is in accordance with the new ruling that members of third year Pass are eligible to hold office in the senior year. Complete list of candidates for all offices is posted on the V.C.U. notice board.

### CANDY SALE

Victoria S.C.M. will hold a candy sale on Friday morning in the college hall.

Members of the French Club of U.C. please note that at the next meeting of the club, set for March 19, the Annual Recitation Contest will be held. Prizes of \$3, \$2, and \$1 will be offered and any member to win one of these prizes must recite from memory any piece of poetry of at least thirty lines. Those wishing to take part should hand in their names by the 11th of March, to any member of the executive.

### CHAMPUS CAT

the future who come snooping back through the 1935 file to crib a little something to fill out one of their columns. Play, Russ.

### C-C

**BACCIC LAY**  
(XXth Cent.)  
Of all the drinks my heart holds dear  
That make my spirits glow-deb,  
Better than whiskey, schnapps or beer  
I love a chocolate soyd-oh.

More than all likkers of the ilk  
Endorsed by Canon Cody-oh  
(As Coco-Cola, tea or milk)  
Lease me a chocolate soyd-oh!

Now whiskey makes the cosmos spin  
Like some unholy rodeo,  
But I would ditch it, ay or gin,  
For ilka chocolate soyd-oh.

I do not drink that other dope,  
(Sing whoops, my dear I and voo-dee!)  
For when I get to heaven I hope  
To live on chocolate soyd-oh.

### C-C

Now don't mind that last crack, Mr. Rusten, cause that's just what Chuck thinks. As they used to say about Ogden Nash's early efforts, it might be verse. Personally, we'll be glad to hear from you again, but better hurry if you want to make it this year. And next fall, the good god Champus only knows where you'll find

The Muddy Yorker

## ART, MUSIC AND DRAMA Galon Auditorium

Toronto concert goers were treated to a unique and highly entertaining "Joint Recital" (no inference intended re Eaton Auditorium) featuring Mme. Grete Stueckgold, Metropolitan Opera soprano, and Mr. Gregor Platigorski, world renowned cellist.

The latter exhibited a prodigious technique that is second to none in the world today. Playing numbers which were actually of violin virtuosity in both range and technical difficulty, upon his Stradivarius cello with surprising ease and security.

Of Mr. Platigorski's programme we cannot help but mention the fact that much could have been desired in the

### T. I. C. C. U.

Saturday, March 2nd, 8 p.m. The Toronto Intercollegiate Christian Union meets at 572 Christie St. (3 mins. walk south from St. Clair Ave.). Discussion based on I John, chapter 4. Everybody welcome.

Guest artist, Miss Aileen Woodburn, pianist. Wymilwood, Sunday, 9 p.m.

### MACDONALD-CARTIER CLUB

5 p.m., Tuesday, March 5, Music Room. Annual meeting, election of executive for 1935. Members please come out for this most important meeting.

### WOMEN'S BOOK EXCHANGE

Will any women students who still have books in the Women's Book Exchange in Room 82, U.C., please come in and settle their accounts. Book Exchange office hours, 10.30 to 1 p.m. except Saturday. The Secretary will not be responsible for books left after April 1st.

way of more substantial cello music. Without exception, from his first number, the "Concerto in G major", by Bach to his final group, including Chopin, Granados, De Falla, all were adaptations to the cello and were not originally intended for that instrument.

Mme. Grete Stueckgold presented an excellent group of numbers varying from Handel's "Oh Had I Jubal's Lyre" to Cyril Scott's Lullaby and Johann Strauss' lilting waltz melody, "Voices of Spring". Her faultless technique was only matched by her dramatic tone colour and production.

W.T.L.

## Sunday Evening Songster

The eighth songster of the year will be held in the Music Room of Hart House on Sunday evening next at 8.45 p.m.

J. Campbell McInnes will conduct the following programme:

Who would true valour see  
Hart House  
Turn O My Soul  
The Heavens declare  
L'Angelus  
Disons le chapelet  
Trade winds  
Wieniglein  
Londonderry air  
The turtle dove  
The twelve apostles  
Jerusalem.

## Great Variety

In New Publication  
(Continued from Page 1)

among the artists, a tremendously funny bit of monologue in Saul Rae's imitable style, a clever attack on Premier Bennett's new political tactics, and a frank expression of the native point of view in regard to Britain's policy in India. Although the "Undergraduate" has nothing to do with Bing Crosby, it is understood to be of special interests to co-eds, particularly the article entitled: "Futility". It is hoped that no one will be disappointed in obtaining one of the limited number of copies.

## Course in Portuguese

Favoured by Students

enough anyway.

Mr. Eric Yarrill wanted it opened to those with one Romance language, but when told that for this purpose Latin would be considered a Romance, replied, "Good!"

One anonymous young lady was a little afraid that Brazil wasn't Portuguese and didn't want to learn the language and then find out they spoke Spanish when she went flying down to Rio.

Others who were in favour of the idea were Miss Florence Bell, Miss Margaret Curran, Miss Mary Dinkin, Miss Eileen Dorman, Miss Marion Fetterly, Miss Sylvia Melson, Miss Geraldine Riley, Miss Evelyn Sinclair,

## Decisive Defeat Inflicted

On U.C. Parliamentary Club  
(Continued from Page 1)

sigh, forced himself to take back all the kind words he had ever said about the Premier and his associates, and proceeded to pass out some comparatively new remarks concerning his friends opposite.

The government countered with several pertinent remarks pertaining to Riverdale Zoo, "you're in the wrong house," etc. To this Hon. T. C. Keenan came back with "snobbery . . . snobs . . . that's what you are."

The Hon. member from Shaberman made a valiant attempt to make himself heard, but was drowned out as the house chorused out, "Who's that knocking at my door." The Speaker, alert as always, made some mumbling noises about steam shovels and the debate proceeded. At exactly 5.07 the Governor-General entered the house, and with all the ceremony attendant upon such affairs, the house was officially dissolved. Hon. A. C. Smith, in a very tender speech, thanked His Majesty's representative for the service that he had rendered to the house during his lengthy career, the Honourable Gentleman smiled ingratiatingly, and the session was over.

## Hart House Nominations

### HOUSE COMMITTEE

C. L. Annis, III S.P.S.; E. L. Archard, I Trinity; W. G. Biglow, III Medicine; J. J. Brigger, III St. Michael's; W. H. Broughall, II Trinity; J. J. D. Brunke, II U.C.; G. A. Campbell, III U.C.; W. R. Dalziel, III Victoria; E. R. Eaton, III S.P.S.; D. Eisen, I U.C.; H. Fine, III U.C.; K. A. Foulds, III

U.C.; C. E. Foxton, I Pharmacy; R. G. Gray, I S.P.S.; E. B. Griffiths, II U.C.; P. M. Morley, III Forestry; J. K. Ronson, II S.P.S.; W. M. Toone, IV Medicine.

### ENGINEERING STUDENT INJURED DURING "SCHOOL" ELECTION

Windshield Broken by Snowballs Causes Allan Deacon Loss of Eye

#### A CANDIDATE FOR OFFICE

Operation Performed on Left Eye in General Hospital

A barrage of snowballs in the School of Science elections Friday broke the windshield of a car driven by Allan Deacon and caused him the loss of one eye. Deacon, a student in third year mechanical engineering, was a candidate for the vice-presidency of the Engineering Society and had been driving around the campus in a touring car covered with election posters. A number of Schoolmen attacked the car with snowballs and succeeding in dislodging the advertisements, which were then gathered up by the occupants of the car and waved about as they drove round the south end of the campus.

Deacon made three circuits, each time receiving more snow than the time before. On his fourth trip everyone present was waiting and the concerted fire broke the windshield, sending a piece of glass into his eye. The car careened wildly and came to a stop with few spectators knowing that an accident had occurred. Deacon was rushed to the General Hospital where his left eye was removed. Of the five other occupants of the car one was slightly cut. At a late hour last night Deacon was reported to be resting comfortably and the sight of the second eye is thought to be safe.

### DENTISTS ENJOY ANNUAL AT-HOME

Last Friday evening saw the celebration of the annual Dental At-Home in the Roof Garden of the Royal York Hotel. Dancing was to the music of Karl Mueller and his Varsity Entertainers, who provided smooth rhythms until two o'clock, when the revellers adjourned to the various downtown restaurants to top off a happy evening with an early breakfast. In charge of the arrangements was a committee under the leadership of H. G. Hudson.

### NEWS OF THE WORLD IN BRIEF

The manager of the Roxy Theatre, A. B. Appleby, was found dead with two bullets in the back of his head at three o'clock yesterday afternoon. As the body was found in front of the open safe from which \$376 had been stolen the police consider it probable that the murderers were gunmen intent on robbery.

Leaping from a plane at the height of 1,500 feet Pilot Sprad Row brought the toll of aeroplane suicides up to five in the last two weeks. Despondency over his loss of employment is thought to have caused the young Toronto man to take his life in this spectacular way at Barker Airport.

The Hon. Arthur Roebuck's attack on the sanctity of the contract between the Hydro and Quebec power firms has caused fear on international markets as to the future of the power firm's bonds. It is also thought that any act of repudiation would affect the rate at which foreign loans may be attained abroad.

DR. CONRAD HOFFMAN

Of the International Missionary Council, who is to give an address on "Jewry in Palestine" in Hart House Theatre tomorrow.

### HART HOUSE PLAYERS WIN SQUASH HONORS

Team Successful in Ontario Squash Tournament Finals

#### INDIVIDUALS ALSO SCORE

Hart House entered a five-man team and two individual players in the Ontario Squash Tournament held at the Thistle Club on Saturday and Sunday in Hamilton.

The team, consisting of Bill Noyes, C. McCutcheon, Harris Crowson, Jack Boegel, and Dick Richmond was very successful. On Saturday they defeated the Granite Club team of Toronto to the tune of 5-0 while yesterday they downed the Thistle Club quintet 3-2. The finals were held on Sunday afternoon and again the home team was victorious; this time over the University Club of Toronto. They scored four (Continued on Page 4)

#### S.C.M. Elections

The election tea of the Student Christian Movement in University College is to be held on Thursday, March 7 at 4:30 p.m. in the Women's Union. The following is the slate from which the Executive of 1935-36 will be elected.

President: Joan Romeyn (accl).  
Vice-president: Mabel Murdoch (accl).

Secretary: Mary Evans, Phyllis Ross, Thelma Thompson.  
Treasurer: Marjorie Carter (accl).  
Publicity Manager: Mary Choquette.  
Josephine Le Pan, Margaret Taylor.  
Social Convener: Margaret Kennedy, Dorothy Smith.  
Groups Convener: Margaret Smith (accl).

#### Correction

Through an error the statement submitted on behalf of the University C.C.F. Club which appeared in *The Varsity* last Tuesday, was incorrectly attributed to Miss Dorothy Stock, secretary of the club. *The Varsity* wishes it known that the statements were made by Mr. J. V. McCutcheon, the vice-president, and regrets any inconvenience the error may have caused.

*The Varsity* regrets that a notice left for insertion in the Coming Events column under Saturday, March 2nd, with reference to the Newman Club Tea Dance, appeared in Friday's issue under the date of Sunday, March 3rd. This was entirely erroneous, and it is hoped that no undesirable reflection will be placed on the club due to this unfortunate error.

### REV. L. A. DIXON ACCEPTS A CALL TO ORILLIA CHURCH

Beverly L. Oaten Temporarily Appointed Secretary of S.C.M.

#### HAS WIDE EXPERIENCE

Beverly L. Oaten, the national secretary of the Student Christian Movement of Canada, will act as secretary of the men's Student Christian Movement until a regular successor to L. A. Dixon is appointed, Mr. Dixon having accepted a call to St. James Anglican Church at Orillia.

Mr. Oaten is a graduate of this University (Victoria). He has served as minister in United Churches in British Columbia, and brings to his work at Hart House experience gained during extensive contacts with student life in the United States, where he served as a Student Movement secretary. He will keep regular hours at Hart House on Mondays, Wednesdays and Fridays from ten until two, and from four until six o'clock.

#### HOFFMAN TO ADDRESS S.C.M. IN HART HOUSE

Dr. Conrad Hoffman, director of the International Missionary Council's newly formed committee on the Christian Approach to the Jews, will speak in Hart House Theatre on Tuesday afternoon on the subject, "Jewry in Palestine".

Dr. Hoffman, who is a gentle, has had wide experience in social service work, and took an active part in European Y.M.C.A. work during the war. He has also served as a director in the International Student Service, which was inaugurated by the World's Student Christian Federation.

Dr. Hoffman is coming here under the auspices of the Student Christian Movement.

#### ATHLETIC ASSOCIATION TO HOLD ELECTIONS FOR NEW DIRECTORATE

The Electoral Meeting of the University of Toronto Athletic Association to elect Student representatives to the Directorate for 1935-36 will be held on FRIDAY, MARCH 15th, 1935, at 4:15 p.m. SHARP in the debates room. (Continued on Page 3)

### Engineers' Annual Elections Conducted Amid Excitement

#### GERMAN CLUB TO HEAR MADAME DE KRESZ

Eminent Pianist Will Render German Classics Thursday

The German Study Club is holding its next meeting on Thursday evening at the Women's Union. The executive is pleased to announce that Mme. de Kresz will play for the society.

Mme. de Kresz is well known and needs no introduction to the members of the club. Her programme will be composed of selections from such German classics as Mozart and Beethoven. The evening will end with a social period and refreshments. The president extends an invitation to all interested in hearing Mme. de Kresz play.

The final meeting of the club will be held on the 27th or 28th of March at the Union. The programme will consist of nomination and election of officers for the coming year, a short skit, and a dance until twelve o'clock.

#### Sunday Concert

The last Sunday Evening Concert of the year will take place on Sunday 17th March (not on 10th March) in the Great Hall of Hart House when the Conservatory String Quartet will give the programme.

### NEW LAW JOURNAL MAKES APPEARANCE

Professors and Students Unite to Produce Legal Publication

#### MARKS AN ADVANCE

The Law School of the University took another step forward last week when the first number of the first volume of the new *University of Toronto Law Journal* was published. This step was decided upon as the natural outcome of the new vigour in legal studies at the University, and the publication is entirely in the hands of the staff and students of the Law Department. Professor W. P. M. Kennedy, M.A., LL.B., Litt.D., head of the Law School, is chairman of the Editorial Board of the new publication. Others on the board are Professors N. A. MacKenzie, F. C. Auld, and J. Finkelmann, all of the same department, and Messrs. J. E. M. Hancock, A. R. Tilley, G. A. Martin and N. M. Pinnick, students in the Law course.

#### Trinity College Chapel Services

On Ash Wednesday, March 6th, at 9:10 a.m. there will be a special service in Trinity College Chapel for all students, resident and non-resident. A short address will be given and the service will conclude before 10 a.m. Gowns will be worn.

All college lectures from 9:10 a.m. to 10 a.m. on Wednesday, March 6th are cancelled.

On Sunday, March 3rd, special music will be rendered by the choir at the 11 a.m. service.

On Sunday, March 10th, First Sunday in Lent, the Holy Communion will be celebrated at 11 a.m. and an address will be given by the Reverend C. M. Palmer, M.A., of the year '26, who is working in Kangra, India.

### STUDENT PEACE CONFERENCE HOLDS BIG TWO-DAY SESSION

MR. C. O. KNOWLES

Managing Editor of the Telegram, who has been secured to address a luncheon meeting of the Macdonald-Carrier Club on Wednesday at 1 p.m.

### Varsity Basketeers Almost Make Record

Mustangs Snatch Last-Minute Victory to Secure Place in League

#### FINAL SCORE 30-29

By Ken Burn

Varsity's senior basketball team came within fourteen seconds of combining a perfect record this season but a last minute basket by Ev Hayter gave Western a 30-29 victory over the Blue team on Saturday night at Hart House. Regardless of the outcome of the game Varsity had already clinched the inter-collegiate title but the victory enabled Western to pull ahead of Queen's and secure second place in the league.

While the defeat of the Blue team was a disappointment to the majority of the faithful four hundred who turned out to view the contest, the London team deserves every credit for their win. They set out under a disadvantage as they only had six senior players. When two of their players were forced to leave the game for having four personal fouls registered against them, the Mustangs were forced to play two intermediate players who also saw action in the preliminary game. (Continued on Page 4)

#### WOMEN'S EXECUTIVE TO BE ELECTED

The annual elections for the women's Basketball, Hockey, Swimming, Tennis, Baseball and Badminton Club executives will be held in the Lecture Room, Household Science Building, on Tuesday, March 19, at 5 p.m. sharp. Preferential voting for candidates will determine the office to be held.

Nominations for each club should be signed by two voting members of the club in question and filed with the Secretary of the Athletic Association, Room 82, U.C., not later than Monday, March 18. Voting members for each club are restricted to those who have been registered with the Secretary of the W.A.A. as members of University or Interfaculty teams in that particular sport during the academic year, or who are certified by a team manager to have attended at least 50 per cent of the practices of that team; members of the club executive and managers of all teams playing under the club.

A vigorous campaign is being waged by students at the University of Richmond for the abolition of the system which allows undergraduates to grade papers.—Ohio State Lantern.

Queen's Representative Killed and Two Injured in Fatal Accident

#### PROFESSOR GRUBE SPEAKS

Positive International Feeling a Necessary Step Toward World Peace

On Saturday morning in the Lecture Hall of the Economics Building, a two-days session of the Student Peace Conference was begun, with more than fifty delegates from universities and high schools of Western Canada present. In attendance were representatives from Queen's University, University of Western Ontario, McMaster University, and from high schools at Sydenham and Stouville.

En route to the conference David Sabbath was instantly killed, and two other Queen's representatives were injured, when the car in which they were riding struck a C.N.R. passenger train at Cobourg, Ont.

One of the principal speakers in the afternoon session was Professor M. A. Grube of the Classics Department at Trinity College. "No war is solely due to economic causes," he said. Inclining toward the view that the psychological background of patriotic traditions was of primary importance, he detailed many motives which prompted people in war-time. "Many a man," he said, "goes to war for personal economic reasons; the government takes all the responsibility for his family while he is in the army." Sex was shown to play an important part in making entrance into the army attractive or even essential.

Deploping the importance that patriotism has had on the causes of wars in the past, he said, "It is up to us to encourage a positive international feeling, for if the working classes refuse to fight, who is there to carry on a war?"

"We must fight against all kinds of war propaganda such as is now being given to the children in schools," he advised the congress.

Among the other speakers in Saturday's session were Tom Uwan, member of the Communist party, speaking on "The Marxist approach to War", and Miss A. Ziegler, on "Fascism and Cultural Reaction".

#### DR. COOY TO ADDRESS ITALIAN-SPANISH CLUB

"Italy Through Canadian Eyes" Will Be Subject of Talk

Tomorrow night the Italian-Spanish Club is holding its regular meeting at Wymilwood. Miss Hilda Salmon, president of the society, will be in the chair.

President Cooy will be the speaker of the evening. His subject will be "Italy through Canadian Eyes". The President will tell the members of the club about the trip he made to Italy last year.

For the musical part of the programme the club has obtained the services of Mr. Ferrari Fontana and some of his pupils, and Miss Betty Grobba of St. Joseph's, whose playing is well known to the club. She will be accompanied by Miss Speropani.

The meeting will end with refreshments and conversation.

#### Staff Notices

This is the last *Varsity* until Friday, but will staff members please report for assignments each day this week as usual. There will be a meeting of the full staff next Friday—keep this in mind.

## Sermon For To-day

Human nature is just full of weaknesses. And not the least of these is the universal desire to put off until tomorrow that which ought to be done to-day. Take this matter of essays for instance. A generous professor assigns an essay and sets a time limit of say two months. His generosity is applauded and everyone resolves to begin the essay at once. But lucky the professor if he receives even two or three essays before the last day.

Man cannot, it seems, work without a spur. Students are in the habit of agreeing how much more profitably they could employ their time if they could only study what appealed to them instead of slaving at unpleasant tasks because at the end of the term comes the inevitable examination. The tendency in educational circles is to abolish the examination and one of the reasons given is that they are a restraint on the individuality and creative instinct of the student. Very true, but how much work would you do, if you had no examinations to write?

March first was the last day for making applications for examinations. For the past two weeks or so we have been reminded in various ways of our duty. It is a simple task, merely to wander into the registrar's office and fill out a couple of blanks. It takes perhaps three minutes. Yet we venture to predict that last Friday there were hundreds of conscience-stricken men and women crowding into the offices to make out the tardy application and losing perhaps an hour of valuable time waiting in line.

Curious thing, this weakness of human nature. Virtue is always hard, but it usually pays. Better do it now.

## For Men of Destiny

Africa is one of the most compact continents in the world today. It is one of the most fit to be governed as a single unit. It could easily be made the starting base of an empire, of a system of conquest that would put Alexander and Tamerlane and Napoleon far into the shade.

At present this immense territory is in alien hands. Europe has stretched her greedy hands far and wide until now there are only two or three nations nominally free and only one that is actually so. Now Italy is eyeing it, threatens to wrest it from its emperor. But will she?

Unless some other power will help her, Italy will have a very hard time of it. Perhaps some other power will do so. Britain has good reason to be nervous; the Sudan is both next door and Muslim, and Islam does not like the foreign yoke; the Sudan might do something unexpected—or perhaps not so unexpected.

All that the Emperor of Ethiopia wants at present is the right to be left alone. But what would it take to turn his personal war into a Muslim renaissance? Of course some one is going to say that Abyssinia is Christian, but what matter that. There are followers of Mohammed in the empire as well, and we think that the dusky monarch would much prefer to rule over a stronghold of Islam than a castle in the air.

Across the Red Sea is a new kingdom, and a growing one. It is only last year that Saudi Arabia added Yemen to its territory. A hundred years ago the Wahabi were fighting for their existence in the heart of the Arabian Peninsula with the fanatic zeal that has seen many of the world's major movements to the fore. They fought so well that now Mecca and the holy places are theirs and pilgrims on the Haj must conform to their rules to be able to visit them. This alone must surely have a far-reaching effect on the faithful of all the world. Indeed, with little imagination, it is easy to fancy the movement spreading over Africa as a vast Muslim reformation.

Any man that can have the skill and patience to organize the discontented peoples of the continent into a grand army has more chances of success than almost any conqueror since the world began. Opportunity for such is very rare. If he wanted to do it singlehanded and create his own opportunity, he would have to work for years and then perhaps fail. But here is a Western power handing him his chance upon a platter.

First of all, he could not go into Abyssinia and expect a ready audience with the Emperor. He would have to reconnoitre, gain native support outside the country, preferably in the Sudan. If he got enough, he could expose it at Addis Adaba.

If he succeeded in convincing Haile Selassie, he would then manoeuvre to gain the alliance of Ibn Saud across the Red Sea. Quite possibly grounds for such an alliance would be the conversion of Abyssinia, but that would be a small matter to a man fighting for his kingdom. About this time our genius should give Ibn Saud his allegiance, as the latter gentleman would be against him soon after Ethiopia were free if he kept under the latter standard. This would mean that he would have to be a Muslim as well, and also that he must know Arabic even in preference to Ethiopian.

After going over to Saudi Arabia, the system would grow. Since Eritrea and Somaliland surround what would constitute the immediate base of operations, supplies would have to be brought across the Red Sea or via Suez, which would be difficult with Britain in control, but not at all impossible since the modern Egyptian hates everything European and is Mohammedan as well.

By that time all Africa would be in arms and likely all Europe would be against you with the possible exception of Germany and the odd power that might think it might gain territory in this way. Full advantage should be taken of any alliance such as this as it would harass the other powers and would give a good foothold in Europe if our friend decided to conquer it as well, either to extend his empire or to furnish grounds for making peace.

If he had been lucky enough to catch any ships in harbour, they of course should be saved. With them he might take South America or Australia. He would certainly display his diplomacy in his conquest of these countries.

By that time there would only be two threats left to his supremacy. The United States would likely be forced into what seems now the ridiculous position of asking Japan to form with them a bulwark of Occidental civilization. Likely too about that time our conqueror would show his real genius in either falling as Napoleon fell or in welding his conquests into something governable. But even if he did fall, his name would be made forever.

We hear you asking what would be the net results. We can only reply that there would be more world unity; Europe would be thrust in upon herself and forced to find some remedy for her suicidal nationalisms. The United States would not likely return to their splendid isolation. Quite possibly an empire would have been created that would have a life of two or three hundred years if not more.

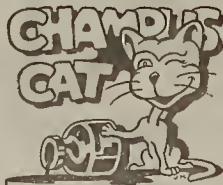

And all that is needed for this colossal task is a set of brains, a knowledge of Arabic and perhaps Ethiopian to gain the confidence of the people to be met, and what is modernly called executive ability to persuade and guide them.

The Capital is chuckling over Oklahoma's new representative, Josh Lee. He is a tenderfoot in the House, but not when the after dinner speeches roll around.

He was invited to talk at a dinner for military men who had served in the Philippines. Lee rose and looked around him with a gratified air at the generals, colonels and admirals.

"Gentlemen," he said, "I have never seen so many officers in one place since the time I was wounded in the Argonne and carried on a stretcher to the rear."

—Michigan Daily

"Eskimos will trade a child for a dog." Make it six—mak-fitsix—six—six! Who'll say six huskies for the quintuplets?

C—C

Two recent references in this department to Lifebuoy soap may have had some effect. The jazz issue didn't smell quite so offensive this year.

Joab was mad because Hart House electioneering rules forbid him to distribute anything but blotters. He was going to give out sprigs of pussywillow.

C—C

Lucy from U.C. is crazy about the cover on the new Undergraduate. She says asparagus omelet has always been her favourite dish.

C—C

That was the last number, in the last column, of the new Shout 'n' Fight series. Come on, Lucy. Goodnight folks. Rip Rapetty.

## ART, MUSIC & DRAMA

The U.C. Literary and Athletic Society will again combine their efforts with the Women's Undergraduate Association in the U.C. Music Club to produce the musical comedy "Good News" this Wednesday. According to Ted Seythies, a member of the committee in charge, the production will lack none of the sparkling mixture of melody and wit that made it so popular several seasons ago in New York.

The cast include Les Brennan, co-starring with Ernest Levy, Madge Shaw, the comedienne, Bernie Shaffer, Elspeth Ledingham, Jack Taylor, Anne Ferguson and the celebrated dance team of the Minsky twins.

Wynn Shenton is in charge of the music, which contains such catchy songs as the theme song, "Good News" the famous blues song, "Varsity Drag", "The Best Things in Life", "Lucky in Love", and "Just Imagine".

The costumes are simple but effective in their portrayal of this rousing college show of the flapper era.

## THE SPORTSWOMAN

McGill came out on top in the hockey fixture on Saturday night with Varsity, taking the lower berth in a 5-3 tally. It was an excellent game on the whole and warranted about ten times as many spectators as appeared. In fact the turnout of onlookers was the only poor feature of the whole performance. Varsity really had the better team of the two but McGill had Babs Goulding and unless you saw the match you can not realize the true significance of this fact.

Babs scored all five of McGill's goals and every time she got on the ice all the Varsity fans held their breath and gave the Blue and White defence every ounce of their mental support. Edith Wallbridge, although she is not up to Babs' standard, was outstanding on the Red and White outfit and did some beautiful skating and even an injury to her leg incurred during the game did not cramp her style. The McGill goalie turned in a nice game and got plenty of practice as the puck was chiefly at her end.

Charity Grant scored twice for Varsity on solo rushes and played excellent hockey every minute she was on the ice. Gladys Wagg was responsible for the third Blue and White point, also made on a neat long charge down the ice. Mary Dignam did some beautiful defence work, and Molly Slater and Betty Mark were real threats to McGill. Maisie Cowan did some lovely work at the net and several times she stopped what looked like sure scores for McGill.

On Wednesday the interfaculty swimming meet is scheduled to be run off at the Hart House pool. The meet this year will be a good one to watch and we are hoping that a number of enthusiasts will be on deck to cheer their respective faculties on to victory. And even if your loyalty to your college is not sufficient to bring you, surely the added attraction of Alfie Phillips' diving exhibition will do the trick.

U.C. are probably entering the contest as favourites for Kay Brown alone can be counted on to pile up a number of points and Molly Stevens has been working hard and with marked success for the big event. The St. Hilda's team is weakened by the loss of Vi Ord. However, they are looking to Enid Palmer, Jock Whiteside, and Barbara Powis to do big things. Vic has Mabel Brown and two definite freshe hopes. All in all the meet promises to be good—so bear in mind the date and time, Wednesday, March 6 at 8 p.m.

The interfaculty badminton tournament comes off on Thursday, March 7 at 2.15 p.m. at the York Club. U.C., Vic and St. Hilda's will all be represented. St. Mike's may enter a team but it is highly doubtful. If you are at all interested in this sport your appearance as a spectator will be very welcome.

## Varsity Seconds Win From Western

Junior Basketeers also Win;  
Both Teams Held Big  
Edge

Varsity's champion intermediate basketballers coasted through a forty minute session with the Western II's to a 29-20 decision in Hart House Saturday night, to finish the season undefeated. In an exhibition preliminary, Varsity's junior cagers took a 35-19 fall out of the Western youngsters. With nothing important depending on the outcome, the fiery playing which usually features

## SPEAKING OF SPORT

By B. J. McGuire

Every once in a while even champions will strike a snag and fail in their quest of victory. It happens to the best of men and teams. It happened to the University of Toronto basketball squad here Saturday night. Having amassed a total of 15 straight victories, and having previously beaten the Western Mustangs 30-15, the Blue team dropped a close decision here Saturday night—their first loss in a regular game since they first donned uniforms early last fall.

The game was in many respects quite similar to many in which the Blue team have engaged, only perhaps a little closer. While there may have been occasions when they went to the front in the early part of a contest, they escape our memory at the present time. Saturday's game followed perfectly the course usually followed by the teams. They got away to a slow start, picked up midway through the contest, and finally passed their competitors in the last half. This is the procedure followed throughout the season, by the Blue team and this was what they did Saturday night. But just when it looked like another victory and all ears were strained for the whistle, Ev Hayter plunked one from the side which put the visitors in front and the sound of the whistle seconds later consolidated their position. Such finishes are often heard of but seldom seen.

However, credit must be given the Mustangs. They came to town short handed, with one sub in fact. When two of their men were banished in the second half they had to conscript men from the intermediate ranks to fill the breach. Their efforts are well worthy of applause.

The election of Phil Gold as captain of the seniors for the coming year is sure to be a popular one. Phil has served three years with the senior team and spent one season maturing with the intermediates. His consistent work throughout the season has materially aided the cause of the Blue team and while there may not be such a collection of star material available next year, there is no reason why the team should not look forward to another successful season.

Those wee lassies of Mr. MacPherson's failed to give Varsity a hockey victory over McGill Saturday night. The Bluettes couldn't keep the puck under control long enough to do much with it. For that matter neither could the Redettes of McGill, with the exception of Babs Goulding, who five times steered it into the net. The final score was 5-3, with Charity Grant getting two for Varsity and Gladys Wagg nailing the other.

## Athletic Association To Hold Elections

(Continued from Page 1)

Hart House (south side, upstairs).

Under the Constitution of the Athletic Association (Art. IX, Sec. 4) all clubs and athletic associations are entitled to send representatives to that meeting. These representatives must be male undergraduates of the University of Toronto or one of the affiliated colleges, who are proceeding to a degree, are in actual attendance upon lectures and who have paid the annual fee required (By-Law 1). Athletic clubs and associations are being notified to have these representatives appointed at an early meeting of their executives.

## Nominations to the Directorate

A student to be elected to the Directorate must AT THE TIME OF HIS NOMINATION be in the second, or a higher year of his course at the University, but not in the final year. The nomination must be made in writing on the form provided for the purpose, signed by two male undergraduate members of the Athletic Association in good standing and filed with the Secretary of the Association not later than 5 p.m., MONDAY, MARCH 11th. Forms can be obtained at the office of the Association.

T. A. REED,  
Secretary.

these contests was missing, but they were none the less interesting.

Although they didn't run up the score, MacCutcheon's intermediates seemed to have the situation well in hand at all times. They took an early lead and the first half ended 16-11 for Varsity.

Varsity Juniors, 35; McGregor 5; Hogg 3; Dorsey 6; Krakauer 10; Denno; Roberts; Molson 4; Cooper 8; Green; Harlock 4.

Western Juniors, 19; Wolff 1; Colgrove 3; Plewman; Dave Shales; Kolmanson; Doug Shales 3; Hodson 7; Van Patter; Garrett 5.

Referees: Lofy Willis, Tom Pogue.

## PHARMACY WINS BASKETBALL GAME

Knox Outplayed as Druggists  
Use New Zone System  
for Defence

In the first game of the current basketball playoffs on Friday afternoon Pharmacy outscored Knox 22-15 in the little gym at Hart House. The Pharmacy team had the game well in hand the whole route, and led by the score of 11-4 at the end of the first session. Pharmacy were led by the brilliant scoring of Lazarus and Kramer, with Jackson showing up well on the defence.

Pharmacy: Jackson, Lazarus, Kramer, Pugen, Kofsky, Gilbert, Armour, Lorimer, Lee and Rescor.

Knox: Mutric, Shaw, Weir, Dunn, Shortt, Marsh, Smith and Neilson.

## PLAYOFF BERTH FOR JR. SCHOOL

Smart Baseball Display by  
S.P.S. Over Jr. Meds.  
Saturday

On Saturday afternoon Jr. School battled their way to the baseball playoffs when they trounced Jr. Meds 16-4. Saturday's game came as the result of a thrilling tie game on Friday which ended with the score nine all. The Engineers earned their win with a smart display of hitting and a perfect record in the field. Coupled with this was the brilliant hurling of McMillin, who baffled the Meds' batters for two seven inning games on two successive days.

S.P.S.: Willmot, Marks, Jaffe, Pidduck, King, Busby, Chernofsky, Rogers, McMillin and Clarke.

Meds: Seigel, Graham, McGoe, Tomlinson, Shulman, Miller, Emmett, Garrett and McGaskile.

## Coming Events

### MONDAY, MARCH 4

4 p.m.—Debating Society meeting in  
the Women's Union. Elections.  
Awarding of trophy. Tea will be  
served.

University Arts Women's Club annual  
reception, Women's Union, 79 St.  
George Street. Arch Crossley at the  
piano.

### TUESDAY, MARCH 5

4.30 p.m.—Press Club meeting at the  
Women's Union. Tea will be served.  
1.30—Dr. Conrad Hoffman will speak  
in Hart House Theatre on "Jewry  
in Palestine". Men and women in-  
vited. Auspices S.C.M.

5 p.m.—Music Room. Macdonald-Car-  
tier Club. Annual meeting, election  
of executive for 1935. Members  
please attend this important meeting.

6.30 p.m.—Hart House. U.C. graduation  
dinner. Class of 3T5 complimen-  
tary, all others must pay.

8 p.m.—Italian-Spanish Club; President  
Cody, "Italy through Canadian eyes";  
singing, refreshments. Wymilwood.

8 p.m.—Music Room. Macdonald-Car-  
tier Club study group, at which a  
paper will be read by L. H. Gage.  
Prof. Drummond will criticize. Mem-  
bers please note.

### WEDNESDAY, MARCH 6

4.15—U.C. Players' Guild presents "The  
Second Guest" at the Women's Union  
Auditorium.

8.15 p.m.—Women's Union, U.C. Music  
Club production of "Good News".  
Admission by registration card.  
Dance following.

Hart House Elections.  
University College Freshman Dance,  
Malloney's Galleries.

4.30—S.C.M. elections and tea at the  
Women's Union. Everybody out—  
this is the last event of the year.

8.30 p.m.—German Club presents a  
musical programme with Mme. de  
Kresz. Refreshments. Everyone wel-  
come.

### SATURDAY, MARCH 9

Annual Pi Lambda Phi charity ball,  
Crystal Ballroom.

### MONDAY, MARCH 11

8 p.m.—W.U.A. mass meeting in the  
Women's Union in conjunction with  
the public speaking contest.

### TUESDAY, MARCH 19

8 p.m.—French Club of U.C. at the  
Women's Union. The annual recita-  
tion contest and elections will be  
held. Dancing and refreshments.

### ART, MUSIC AND DRAMA

(Continued from Page 2)  
Dick Fonger and Jack Graham in "The  
Second Guest" by Berekford and Seale.  
Mr. Graham is well known as an actor  
and director and Mr. Fonger as an  
actor. Both have taken great pains in  
creating a finished production and, as  
the play is largely dependent on psycho-  
logical effects, it requires a nicety of  
tempo and a skilful technique which  
less accomplished players could not  
give. There is considerable room for  
experiment with lighting and action,  
and the sound effects have been work-  
ed out with some care.

If you like a spot of crime with your  
drama, try this. There's a murder.

**ENGINEERS HOLD  
ANNUAL ELECTIONS**  
(Continued from Page 1)

Athletic Association Executive: Pres-  
ident, R. A. Boyle; vice president, C. L.  
Denison; secy-treasurer, A. Upper.

Chemical Club, F. O'Flynn; Civil  
Club, J. G. Welsh; Mechanical Club,  
W. E. Taylor; M. and M. Club, W. T.  
Turrell; Electrical Club, Fleming.

Permanent Executive 3T5: President,  
R. Hewitt; vice president, F. S. Mc-  
Carthy; secy-treasurer, M. Willer.

## BULLETIN BOARD

Bulletin Board and Coming Event notices must be handed in at  
either the men's office in Hart House, or at the women's office in  
University College. No notices will be taken over the telephone, after  
6 p.m. notices must be taken to the Press Building. Notices for the  
Bulletin Board are limited to ONE insertion only.

### MASTHEAD

There will be a meeting of the Mast-  
head today at 1 p.m. in the women's  
office. Plans for the final party will be  
discussed.

### VIC DRAMATICS

A Chekhov play, *The Proposal*, and  
a curtain raiser will be presented by  
the Victoria College Dramatic Society  
on Wednesday at 5 p.m. All students  
invited; no admission charge.

### C.C.F. CLUB

Members of the University C.C.F.  
Club are requested to watch the notice  
boards in their colleges for announce-  
ment of the next meeting.

### U.C. PLAYERS' GUILD

This Wednesday at 4.15 p.m. in the  
Women's Union, the Players' Guild  
presents Jack Graham and Dick Fonger  
in "The Second Guest".

### VARSITY BAND

Don't forget the band banquet on  
Thursday, March 7th. Meet in West  
Common Room, Hart House, at 6.45.

### MACDONALD-CARTIER CLUB

7.20 p.m., Tues. March 5. Annual  
meeting and elections, Music Room.  
Members specially requested to attend  
this meeting. Note change from 5 p.m.  
to 7.20 p.m.

### MACDONALD-CARTIER CLUB

1 p.m. Wednesday, March 6. Lun-  
cheon meeting at which Mr. C. O.  
Knowles, managing editor of Toronto  
Telegram, will speak.

### MACDONALD-CARTIER CLUB

8.15 p.m., Tuesday, March 5, Music  
Room. Study group. Paper to be read  
by L. H. Gage, IV<sup>th</sup> and F. Professor  
Drummond will criticize.

Bronze S: R. A. Webber.  
Class of 3T6: President, G. E. Smith;  
vice president, G. O. Leach; secy-  
treasurer, C. A. Miller; athletic rep,  
W. H. Barber.

Class of 3T7: President, J. V. Le-  
worthy; vice president, R. E. Young;  
secy-treasurer, D. M. McNamee; athletic  
rep, W. M. Hogg.

Class of 3T8: President, J. R. Miller;  
vice president, G. Richards; secy-  
treasurer, M. R. MacPherson; athletic  
rep, J. D. Fox.

Referendum: The referendum to  
raise the athletic fee was sustained by  
vote of the members of the Athletic  
Society.

**Hart House Players**  
Win Squash Honours  
(Continued from Page 1)

points to their opponents' one. The Hart  
House team now holds the Herman  
Levy trophy.

The individual men, though not as  
fortunate as the team, both reached  
the semi-finals. Jack Leibel had a bye  
in the first round and won by default  
in the second, only to lose out to  
Gilbert. The same fate awaited L. M.  
Goldenberg, for after taking Brack of  
T.C.S. 3-0 and Martin 3-4 he too was  
forced out in the semi-finals. His victor,  
who won by 3-1, was the former cham-  
pion, Vickers.

### HART HOUSE ELECTIONS WEDNESDAY NEXT

Special attention is drawn to the  
regulation that no voting permits will  
be issued this year to those who have  
forgotten their registration cards. Bring  
your registration card to the elections  
if you wish to vote.

The attention of members is drawn  
to the following procedure:  
Voting will take place from 11 a.m.  
to 6 p.m. continuously in the Reading  
Room and from 1 p.m. to 2 p.m. in the  
West Common Room. Any undergraduate  
member of Hart House may vote  
in either room.

Members of the following faculties

### MOSCOW SUMMER SCHOOL

Any student desiring information on  
an inexpensive tour in Russia, includ-  
ing the summer session at Moscow  
State University, should get in touch  
with Dorothy Walker, Mi. 3229.

### WOMEN'S PRESS CLUB

Final meeting in Women's Union on  
Tuesday afternoon. Presentation of  
pins and short story prize. Past presi-  
dent will be guest. Special tea. Mem-  
bers may bring guests.

### U.C. MUSIC CLUB

Rehearsal for "Good News" (prin-  
cipals) on Monday (March 4) at 2  
p.m. in the Junior Common Room. Re-  
hearsal for entire cast at 4.30 p.m. on  
Tuesday, Women's Union, and also at  
8 p.m.

### U.C. MUSIC CLUB

U.C. Music Club will present its in-  
terpretation of the musical show "Good  
News" on Wednesday evening, March  
6th, at 8.15 p.m. at the Women's Union.  
Admission free—bring registration  
cards.

### U.C. LIT

Last meeting on Tuesday, March 5  
at 8 p.m. in the Junior Common Room.  
The finals of the Robynette Trophy de-  
bate will take place, between M. and  
J. Mirsky, III year and P. A. Bridle  
and J. J. D. Brunke, II year. Nomi-  
nations for next year's Lit. executive.

### U.C. GRADUATION AND ATHLETIC BANQUET

In Great Hall of Hart House, Tues-  
day, March 5 at 6.30 p.m. All class of  
'35 tickets have been taken up; tickets  
for members of other years may be  
purchased in common room today be-  
tween 1-2 p.m.

must bring their Hart House member-  
ship cards if they wish to vote: Grad-  
uate Studies, Occasional Students, On-  
tario College of Art, Emmanuel Col-  
lege, Teachers' Course, Trinity Col-  
lege (Theology), Social Science and  
Music.

## Let's Go Places

Rudy Vallee, Ann Dvorack and Ned  
Sparks star in "Sweet Music" at the  
Imperial this week. If you like Rudy,  
you will like the picture for sure, if  
you don't you will find the excellent  
wit running through the picture only  
slightly dimmed by his presence. It is  
a well-built picture with more than its  
share of clever wise-cracks, including  
most of the nasty cracks made about  
the crooner himself. Rates well up  
among the lighter films. C.R.E.

David Copperfield is now playing its  
third week at Loew's, and so much has  
been written in its praise that there is  
little to add. It is certainly among the  
greatest pictures of the year, carries  
the high spots of the Dickens master-  
pieces through to a perfect finish, and  
is truer to the original than any film  
we have had the pleasure of seeing.  
One of those pictures that you can't  
say anything too nice about, and rates  
A with a string of plus marks. If you  
haven't seen it, this will be the last  
chance downtown. C.R.E.

### STUDENTS' ORCHESTRA GIVES FIRST CONCERT

Next Saturday afternoon will see the  
blossoming forth of the recently-form-  
ed student orchestra organized and  
conducted by John J. Weinzwieg, when  
a free concert will be given in Hart  
House Theatre. The major work on  
the programme will be the "Unfinished  
Symphony in B Minor" by Franz  
Schubert, as well as works by Strauss,  
Wagner and Saint-Saens.

YOU'LL MAJOR IN  
SMARTNESS  
WITH AN

## Eatonia Topcoat for Spring

With the approach of Spring  
heavy ulsters are put away  
and smart new topcoats ap-  
pear on the Campus. More  
and more discriminating  
Varsity men are finding in  
Eatonia the smart tailoring,  
styling, and patterns they  
demand in topcoats . . .  
Choose yours . . . whether  
it be Raglan (sketched),

### VARITY BASKETEERS

### ALMOST MAKE RECDRD

(Continued from Page 1)

Western obtained an early lead and  
maintained it for the greater part of  
the game. Three times Varsity tied  
up the score but it was not until the  
final half minute of play that they

managed to go into the lead. When they  
were trailing by one point Marks was  
awarded two foul shots which he sank  
in quick order. As there was only a  
few seconds left to play, a Varsity  
victory seemed certain, but the Mus-  
tangs were good for one final desperate  
thrust that enabled them to win.

To make the finish more dramatic, Hay-  
ter's basket was of the unusual variety.  
From the jump-off the ball went back  
to Western territory and a long pass  
was relayed to Hayter who just man-  
aged to get his hands on it at the ex-  
treme corner of the floor. Turning  
quickly, he let loose a one-handed drive  
as he pivoted in the air, and it rippled  
the twine as the final whistle blew.

Western started off strong and in  
a short time were leading 8-0. They  
continued to press and raised the ante  
to 13-3. Towards the end of the period  
Varsity carried the play and Gold  
scored two baskets to enlarge Varsity's  
quota. The half ended with Western  
leading 14-11.

Varsity had a slight edge at the  
opening of the second half and tied  
the score at 16-16. Western again  
forged ahead, scoring seven points to  
Varsity's two. Two foul shots by Mun-  
roe, a single from Marks and a basket  
by Connelly, tied the score at 23-23.

From this point the teams were never  
separated by more than two points.

The fouls began to mount up and two  
Western players were forced to quit.  
These were rapidly followed by two  
Varsity men. The London team held  
their slight lead until Marks put Var-  
sity ahead, only to have Hayter snatch  
the game out of the fire.

Western: Fletcher (2), Garrett (10),  
Whitwell (2), Rider (8), Hayter (8),  
Carr-Harris, Harvey and Wilson.

Varsity: Levy (3), Marks (7),  
Crowley (2), Connelly (7), Gold (6),  
Munroe (4), Gordon and Newman.

Referee: Tom Pogue.

### U.C. GRADUATES TO DINE WITH ATHLETIC SOCIETY

(Continued from Page 1)

The University College graduation  
banquet will take place on Tuesday,  
March 5, at 8 p.m. in the Great Hall,  
Hart House.

This will be the first U.C. gradua-  
tion banquet in many years and all  
men graduating this year as well as  
the Athletic Society will be honoured.

Particular recognition will go to the  
volleyball team, which won the title  
this year.

The distinguished guest of the even-  
ing will be Mr. James McDonnell, pre-  
sident of the National Trust Company,  
who will try to console the men on the  
advent of their stepping out into the  
cold world to take their places in  
society.

After the banquet, nominations for  
the Literary executive of 1936 will be  
received, in the college.

## FELT CRESTS

Official University felt crests are on sale at S.A.C. office,  
Hart House, or Room 82, University College.

**50c.**

To be worn only on University Blue. Suitable for  
sweater, gym suit or blazer.

### Hart House Elections Unmarred By Promiscuous Electioneering

New Restrictions Rule Out  
Bribery and Coercion  
of Voters

#### CAMPAIGN OULL

In one of the duller campaigns in recent years the annual elections for the standing committees of Hart House were held on Wednesday. The following were elected:

House: W. G. Bigelow, III Medicine; J. J. Brigger, III St. Michael's; W. H. Broughall, III Trinity; J. J. D. Burke, III University College; W. R. Dabziel, III Victoria; R. G. Gray, I.S.P.S.; P. M. Morley, III Forestry; J. K. Ronson, II S.P.S.

Hall: O. Bowman, III Medicine; W. Carruthers, I Trinity; J. L. Farrar, III Forestry; J. C. Forristal, II St. Michael's; G. K. McKee, III Dentistry; J. M. Kirsky, III University College; W. S. Rogers, II Trinity; B. L. Smith, III Victoria.

J. N. Harris, III Victoria; W. D. MacLibrary, III Trinity; III Trinity; Donald, III Trinity; D. L. McGivern, II St. Michael's; P. B. Parker, II Trinity; M. G. Taylor, III Forestry; F. E. Tomalin, III Wycliffe; F. G. Walker, II S.P.S.

Music: P. A. Bridle, II University College; J. K. Garrett, IV Dentistry; R. E. Handforth, II St. Michael's; G. B. Johnston, III Victoria; D. W. Streith, I Pharmacy; E. E. Taggart, I Forestry; G. D. Thomas, II S.P.S.; J. G. Warden, II Trinity.

Sketch: A. H. Armstrong, II S.P.S.; R. E. Daly, III University College; I. E. Gordon, II Medicine; R. E. Haist, V Medicine; A. G. Keith, III S.P.S.; J. B. McDiarmid, III Victoria; J. E. Reynolds, I Forestry; T. L. Wiacek, II St. Michael's.

Squash: H. E. Butterell, I Trinity; D. E. H. MacDonald, IV Medicine; R. Radmore, III Victoria; D. K. Wise, III Medicine.

### McDonald Outlines Duty of Graduates

In his speech at the University College Graduates' banquet held in Hart House on Tuesday, Mr. G. M. McDonald stressed the duty of the graduates to the state and the importance of their part in society. After a concluding address by Principal Wallace the members adjourned to the junior common room, where the finals of the Robnetette Trophy were held.

The resolution of the debate was successfully opposed by the Minsky Brothers, which made them the winners in this year's competition. S. M. Hermant defeated N. M. Frivick in the elections for the Maurice Cody Prize.

### NEWS OF THE WORLD IN BRIEF

Daytona Beach, Fla.—Sir Malcolm Campbell bled his thunder-wagon to a streak of lightning yesterday and roared down Daytona's golden sands to a new world automobile speed record—276.716 miles an hour. Sir Malcolm narrowly escaped possible disaster when his bluebird struck a hidden bump.

Toronto.—City Hall officials predicted lower assessments and building trade stagnation as a result of increased tax-rate of at least 34.2 mills this year.

Ghevghelli, Yugoslavia.—Massing of troops on the borders of several Balkan countries increased Russian tension as German internal revolt came to a head with heavy fighting in Macedonia and widespread mutiny in the navy.

London.—Preparations have been completed, it was revealed today, for an official visit to Russia and possibly to Poland by Captain Anthony Eden, the Lord Privy Seal, to discuss European security proposals.

Toronto.—Hon. T. B. McQuesten added his influential voice to the arraignment of private power contracts in a noteworthy speech yesterday, questioning the honesty of the committee responsible for the deals.

### Staff Meeting

There will be a very important meeting of *The Varsity* staff to-day in the Women's Union. Tea will be served at 4.30 and every reporter is asked to make a point of being present.

### NEW POLITICAL ERA SEEN FOR CANADA

Knowles of "The Telegram"  
Sees Only Hope For Security  
in R. B. Bennett

#### TRAINED MINDS NEEDED

Addressing a luncheon meeting of the MacDonald-Carter Club on Wednesday, Mr. C. O. Knowles, Managing Editor of the *Evening Telegram*, traced the phases of the political revolution which has taken place in Canada during the past forty years.

"Now we have reached the end of another political era," declared Mr. Knowles. The problem to be faced is what to do next. "People who have not been trained to think are now being forced to think, and the results are pitiful. You who are being trained to think must be prepared to take the responsibility." For this reason, suggested Mr. Knowles, Canada's future will be much safer under Mr. Bennett than in the hands of Woodsworth or a Jimmy Simpson.

At the conclusion of the meeting the new executive of the Club was elected. For the season of 1935-6 the President will be Don Pilcher, II Trinity, the Vice-President, John Dewey, II Trinity, and the Secretary, Bob Lash, III U.C.

### Security of Italy Seen in Fascism

Last Tuesday night the Italian-Spanish Club held its second last meeting at Wymilwood when a varied programme was presented. Dr. Cody was the speaker of the evening and told the society about his impressions of Italy last year.

In commenting on Fascism, the President said that every nation hovers between the extremes of liberty and security. Since England has always been relatively secure, the English have been able to place a greater stress on freedom; but in the Italy of after the war the country was in great danger of disintegrating and the main point was national security. Hence came Fascism, which has for its symbol the old weapon of the lictors, which represents a bundle of sticks "all for one" and an axe at the top as a sign of authority.

### REBIRTH OF PALESTINE IS ACCOMPLISHED FACT

The success of the repopulation of Palestine by the Jews, with the building boom and the enthusiasm for farming, fruit growing and general industrialism was discussed by Dr. Conrad Hoffman at Hart House Theatre, on Tuesday.

The increase of the Jewish population in Palestine is from 35 to 50 thousand yearly. There are different aims within the Zionist movement—to keep Palestine as a refuge from persecution, to have it the cultural centre of Jewry, to rebuild the cities and monuments of the ancient kingdom and to make it a new political state. Supporters of the last aim forget that the Arabs, without British control would wipe out the Jews and that this new state would cause a great conflict of loyalty.

### Annual Elections Women's S.C.M.

The annual elections of the Women's University College S.C.M. were held at a tea in the Women's Union. The slate for 1935-6 is as follows:

President—Jean Roney.  
Vice-President—Mabel Murdock.  
Secretary—Phyllis Ross.  
Treasurer—Marjorie Carter.  
Publicity—Josephine LePan.  
Social Convener—Margaret Kennedy.  
Group's Convener—Margaret Smith.

HON. DUNCAN MARSHALL  
Provincial Minister of Agriculture, who will address the luncheon meeting of the Liberal Club next Tuesday in Hart House.

### STUDENT SYMPHONY TO PLAY TO-MORROW

Entertaining Programme Promised and Invitation Extended to all Students

#### J. WEINZWEIG DIRECTOR

At two-thirty p.m. to-morrow, in Hart House Theatre, the students of the University will witness, free of charge, the innovation of a new branch of student activities. It will be the first public appearance of the University Symphony Orchestra.

This is composed of thirty-five undergraduate players drawn from the different faculties and forming a complete orchestra. Thanks for its organization goes to J. Weinzwieg, who has been the driving spirit in getting it up and conducting the rehearsals and who will act as conductor to-morrow.

The S.A.C. is backing the orchestra and underwriting all expense for to-morrow's concert. The program is especially ambitious and has been rehearsed all winter. It will begin with Schubert's *Unfinished Symphony* and will proceed to selections from Tannhauser and Carmen. Mr. Weinsanker will be the guest artist.

All students are extended a cordial invitation and asked to help make the concert a success. It is hoped that next year the orchestra will be a regular feature of student activities, similar to the Varsity Band, although in no way connected with the latter.

### UNIVERSITY C.C.F. CLUB TO HOLD OPEN MEETING

Mr. John Cripps, son of Sir Stafford Cripps, will address an open meeting of men in the Debates Room of Hart House on Monday, at 1.30 p.m. The address is being arranged for by the University C.C.F. Club.

Mr. Cripps has been in the United States for the past few months and is now making a tour in Canada. He will be in Toronto next Wednesday. Mr. Cripps is well known for his participation in international intercollegiate debating and his activity in British politics.

### FRENCH MOVIES CONTINUE IN NEW SERIES OF HITS

The French movies recommence auspiciously on Saturday, March 16th, when "La Dame aux Camélias" will be shown twice in the morning at the Hollywood. The title role is taken by Yvonne Printemps, who is at present thrilling Gotham in Noel Coward's "Conversation Piece." Other films in this series are "Le Voyage de M. Perrichon," with Leon Belieres; "La Chanson de l'Alouette" brings the tragic love story of Frederic Chopin with an arranged score of the famous musician's melodies; "Les Miserables" is coming April 6, 13, and 20 with Harry Baur, Florelle and Joselyne Gaël. If the first films are successful "Le monde ou l'on s'ennuie" will be given a day's run with another farce "La Crise est finie" to make our first French double billing.

### Members of the Varsity Band Are Lauded at Annual Dinner

#### Sunday Evening Concert Tickets

Representatives from the various colleges and faculties are requested to call at the Warden's office on Monday, 11th March, between 12.30 and 1.30 p.m., for their allotments of tickets for the final Sunday Evening Concert of the present academic year on the 17th March. On this occasion the Conservatory String Quartet will play the Quartet in F Minor Opus 95, by Beethoven, and the Quartet in G Major, by Haydn.

Every member is urged, if he finds he cannot use his ticket, to return it to the Hall Porter's desk if at all possible before 1 p.m. on Thursday, 14th March.

### U.C. ELECTIONS SLATED TO TAKE PLACE TO-DAY

To-day between the hours of 11 a.m. and 2.15 p.m. the annual elections to the University College Literary and Athletic executive and the executives of the years 3T6, 3T7, 3T8 will be held in the Junior Common Room.

The nominations are as follows: Honourary President, Mr. McGillivray (a.c.); President, H. L. Rowntree, S. F. Rae; Literary Director, Mr. Minsky, B. Shafer, K. Foulds; Athletic Director, G. Campbell, J. Minsky; Social Director, J. Taylor, F. D. L. Stewart; Secretary, P. Bridle (a.c.); Treasurer, W. C. Smith (a.c.). The elections will take place to-day.

### GERMAN CLUB ENJOYS MUSIC OF THE MASTERS

Enthusiasm greeted the rendering of a programme by Mme. de Krez at the German Club last evening. An earnest Mozart Rondo contrasted delightfully with a vigorous Hungarian Rondo by Beethoven, and was followed by a Nachtsuck by Schumann. The programme, which also included a rhapsody by Brahms, and selections by Bach and Debussy, was climaxed by a Sonata of Beethoven, played upon request by Mme. de Krez.

The president announced that club elections would take place at the next meeting, on March 28, when a one-act play will be presented. She also advised the members of two German films which will be shown in the Madison Theatre on Sunday, March 24.

### "THE STUOENT" TO BREAK ALL PRESENT RECORDS

The March issue of *The Student* goes on sale early next week. Featured in the issue is the article "The Hate-the-Jew Campaign in the Colleges," by John L. Spivak. In The Nation's list of outstanding achievements of 1934, Mr. Spivak received foremost mention for his outstanding job of "muck-raking" and in this article he gives a sensational documented account of Fascist activities in the colleges of the United States.

Mr. C. L. Coburn, one-time managing and feature editor of *The Varsity*, interviews Premier Bennett. Sally Lunz has a descriptive article on the Brussels Congress against war. A Springholm writes on "Students and Literature," and M. Wayman, in a critical article on The Toronto Regional Peace Conference looks forward hopefully to the building of a strong student anti-war movement in Canada.

### Holiday Announcement

Students going to Europe this summer should get in touch with Mr. James R. Johnston either now at Hart House or later through Canada House in London. Mr. Johnston will be in London after 1st May in order to be of assistance to Canadian university students travelling in England and on the continent.

Blue and White Band Seen as the Epitome of College Spirit

#### CRESTS PRESENTED

Captain Slater laid aside his baton last night to sit down with the boys of the Blue and White Band at their third annual banquet, held in Hart House. The guests of honour included members of the S.A.C. executive, the cast of the Follies, and C. R. Ellis, editor of *The Varsity*. John Hoyles presided. His five years' faithful service has endeared him to every musician, and his graduation this year is about to remove one whose personality has meant much to the band. Mr. McDonald, of the S.A.C., speaking on behalf of president Cody, pointed out that this is one of the four organizations which is truly representative of the university as a whole, since bandsmen come from every faculty. That this band is envied by its numerous rivals was accounted for by Captain Slater as due to the fine formation marching at the rugby games, which President John Hoyles made possible by his capable handling of the bass drum. The toast proposed by Hart Buck bore witness to the high esteem in which the band is held, making the first-year members justly proud of the crest which each received.

### Taylor and His Boys Raise a Joyful Noise

Last night Jack Taylor and his merry first year folk from University College jiggled and had general fun to the hot rhythms of Nels Kelly and his reorganized band at Malloney's Art Gallery. From the remarks of those present *The Varsity* learned that this was one of the most successful parties held in the college this year and also that this year leaves the first year executive with a greater bank balance than the usual. The Freshmen Dance, the social event of the almost Easter season, was under the distinguished patronage of Mr. and Mrs. McAndrew and Mr. and Mrs. Anderson and was under the general supervision of Jack Taylor, president of 3T8.

#### S.A.C. Meeting

The eleventh regular meeting of the Joint Executive, Students' Administrative Council was held on Wednesday, March 6th, in Room 82, University College.

The following business was transacted:  
1. Report on I.S.S. work by Mr. Douglas LePan and grant of \$100 to this organization.  
2. Notice of various constitutional amendments by Mr. A. R. Tilley. (Signed) A. E. M. PARKES.

### Coming Events

SATURDAY, MARCH 9  
Pi Lambda Phi, Crystal Ballroom.  
SUNDAY, MARCH 10  
9.00 p.m.—Final Musical, Guest artist, Miss Ethel Peake, contralto.  
TUESDAY, MARCH 12  
1.30 p.m.—Mr. John Cripps in the Debates Room.  
MONDAY, MARCH 11  
8.00 p.m.—W.U.A. Mass Meeting at Women's Union.  
TUESDAY, MARCH 12  
5.00 p.m.—Final Intercollegiate Christian Union, in Wymilwood, Captain Casey of the Church Army will speak.  
TUESDAY, MARCH 12  
5.00 p.m.—One-Act Play at Hart House Theatre, Victoria College Dramatic Club.  
TUESDAY, MARCH 12  
5.00 p.m.—Vic. Dramatic Society presents *The Playboys* in Hart House Theatre. Admission free.  
WEDNESDAY, MARCH 13  
8.15 p.m.—Final meeting of U.C. Classical Assoc., at Women's Union. Professor Butt will speak.  
TUESDAY, MARCH 19  
U.C. French Club at Women's Union.  
SATURDAY, MARCH 23rd  
A. Z. A. Annual At-Home, King Edward Hotel.  
TUESDAY, MARCH 26  
8.00 p.m.—The Last Honour Science Party will be held at the Women's Union.  
FRIDAY, MARCH 29  
9.30 p.m.—Victoria College Informal in Hart House.  
TUESDAY, APRIL 2  
St. Matthew Passion, Convocation Hall.

## Keep off The Grass

Spring has come, or at least it is just around the corner. With the first mild day the annual war between the caretakers of the University and the student body breaks out. One of these nights a mushroom growth of wooden railings will spring up around the front campus and other favourite short cuts. Even that will not deter many brave souls to whom the saving of two minutes between lectures is of greater importance than the sight of an unspoiled lawn later in the season. There are signs up all over Queen's Park stating emphatically that the making of cross-paths is strictly forbidden. But as long as there is not actually a policeman to stop them students trip gaily back and forth the shortest way with no care for the grass.

The pitiful thing is that the valuable time saved in this manner is more than likely to be lost again chatting with an acquaintance on the library steps. There is no excuse for this particular form of vandalism. We are privileged to walk through Queen's Park and across the campus ten months of the year. It is asking little for us to restrain ourselves during the few weeks in spring and fall when the grass can be harmed.

We are justly proud of our University grounds. Visitors to the city are unanimous in their praise of our colleges set among green trees and separated by stretches of green grass. It is our duty as members of the University to help to preserve that beauty. The way to do it is to respect the "Keep off the Grass" signs. They are there for a reason.

## St. Matthew Passion

March winds and an autumnal sky quizzically herald the advent of April and Eastertime. For many of us the most significant event of the season is the performance of Bach's St. Matthew Passion. For Christian and agnostic alike, this greatest of religious music dramas epitomizes the solemnity and beauty of renewal.

The performance of the work by the Conservatory Choir on Tuesday, April 2, will be the thirteenth in Toronto. First done twelve years ago in Sherbourne Methodist Church, it was performed the following year in Eaton Memorial by three choirs under Dr. Ernest Macmillan, its present conductor. Five years ago it was transferred to Convocation Hall, and its performance there by the Conservatory Choir has become of prime interest to students of this University.

The work, composed in St. Thomas' Church, Leipzig—the very church in which two centuries afterward the late Dr. Vogt heard the "a capella" singing that inspired the Mendelssohn Choir—is scored for two choruses, two orchestras, organ and piano. Campbell McInnes, as Christus, has done the work almost forty times and is one of the ablest of living interpreters of the role. Hubert Eisdell is as artistically seasoned in the part of the Narrator. The Passion originally lasted seven hours and was interspersed with many chorales which the audience sang with the choir. Some of these are still sung, and abbreviation has robbed the work of none of its beauty.

Spring and an advancing April make us remember. We are in a new mood, having smelt mud and sensed the young blade. Even though this is but one element in a compost of emotions, since we now do hectic homage to importunate texts, we again anticipate the sweet sobriety of Easter, that com-

pound of pagan exuberance and Christian piety; and momentarily forgetting the advent of our latter end, we plan to go to hear Bach's St. Matthew Passion.

## Editorial Note

To-day *The Varsity* sets a new record, as has been customary during the past few months. This time it is in connection with the advertising. To-day we carry 2996 lines of advertising, a new world's record, so far as *Varsity* is concerned.

It may not make the paper more interesting, but at least it is good business.

## News Briefs

President H. J. Cody announces that the Board of Governors of the University of Toronto has accepted with gratitude a gift of twenty thousand dollars made by the Ontario Mining Association for research on silicosis. This work will be carried on under the direction of Sir Frederick Banting.

The Right Honourable Arthur Meighen, who has recently returned from Australia, will be the chairman on the occasion of a most interesting evening to be arranged in the theatre of the Royal Ontario Museum on Friday, March 15th, at 8 o'clock, when a sound moving-picture of the resources of Australia will be shown, with an explanatory lecture by L. R. MacGregor, the Australian Trade Commissioner.

President H. J. Cody announces that the Board of Governors of the University of Toronto has accepted with gratitude a gift of ten thousand dollars made by Mr. J. Stanley McLean. The interest received from this fund is to be used to provide scholarships for students in University College and is to be awarded as the College Council may from time to time determine.

Professor Samuel Beatty has been asked to go to Princeton University and to give a lecture to the Seminar in Mathematics there on Algebraic Geometry. This invitation is a recognition of the high place occupied by Dr. Beatty in the sphere of Mathematics.

"Nobody can forecast the outcome of the stormy era of history on which we are now probably entering"—Jan C. Smuts.

"When man invented the wheel and axle he forged the first weapon with which to destroy his own isolation"—Owen D. Young.

There is certainly no threat to democracy in a plan which would make true democracy possible.—Henry A. Wallace.

I think America is still far ahead of the other nations in track and field stars.—Boyd Comstock.

The rich men now have the life and happiness while the rest of us have only the pursuit.—Huey Lon.

Labor controversies can best be handled with patience, intelligence, humor and imagination.—Francis Biddle.

Prosperity is something business men create for politicians to take credit for.—Herchel Deutsch.

The trouble is that the few who own the world are not interested in changing it.—Clarence Darrow.

Democracy which appeared so triumphant in 1920 has disappeared, except in a few favoured lands.—Markness of Lothian.

We have made Germany a land of honor, freedom and social happiness.—Hitler.

## University of Toronto Symphony Orchestra

FIRST PUBLIC CONCERT  
Sponsored by Joint Executive  
Students Executive Council

HART HOUSE THEATRE  
(By kind permission of the Board of Syndics)

ADMISSION FREE

2.30 p.m.

Conductor, John J. Weinzweig  
Guest Artist:

Michael Winesanker, Pianist, Mus. Bac.  
Guest Conductor, Brian S. McCool

The orchestra will feature the Unfinished Symphony by Franz Schubert and selections from Carmen and Tannhauser.  
All students and their friends cordially invited.

## ART, MUSIC & DRAMA

### The H.C. Pingers' Guild

On Wednesday afternoon, at the Women's Union, the Pingers' Guild presented one of the best one-act plays they have ever presented. "The Second Guest," a mystery play by Beresford and Seale, with its two characters played by the Guild's outstanding actors, Jack Graham and Dick Fonger. The set, with its lighting and sound effects, was the most ambitious perpetrated there for a long time and added all the atmosphere that the play needed. It was truly one of the best afternoon productions that we have seen at the Guild for some time. M. B. L.

### Victoria Dramatic Society

Feminine humour is, generally speaking, either mild, innocent and uninteresting, or vitriolic and entertaining. So when Dorothy Parker attends a campus binge and remarks, "If all the co-eds at this party were laid end to end, I wouldn't be in the least surprised," she is very good; but when she writes a curtain-raiser about juvenile love, called "The Sees," and expects it to assume the sickly style of Booth Tarkington's *Seventeen*, we are not amused. Or only in spots.

Maybe you have to be educated to an appreciation of Russian humour, but the half-mad and bouncing antics of the characters in Anton Chekhov's *The Proposal* found us laughing where we thought we ought to be laughing.

## SPEAKING OF SPORT

By B. J. McGuire

We have now reached the stage when we look backwards at instead of forward to the year's events. And we must admit that we can find little to criticize. However, one thing which we believe could stand correcting is the idea of choosing next year's team captain this year. While this may have several points in its favour it appears to us that in view of the fact that the personnel of the teams will not be known until they line up next year it would be a wise idea to leave the choosing of the captain until the players line up and choose him. Having a ready made captain is not always beneficial to a team.

One more thing which has caused comment is the tennis team, particularly the intermediate team. While there is probably nothing objectionable about the selection of this team, some people think there is. Most of the difficulties involved would be eliminated if the teams were chosen by the directorate, instead of the officials of the club. There would then be no room for argument.

One of the improvements which have been discussed in hockey circles for several seasons, is the experiment with a curved blue line. This will get a try in Fort Erie, in a New York-Ontario hockey league fixture next Monday. The result will be watched with interest.

### MEDICALS AND SCHOOL LEAD HOCKEY FINALS

Jr. Meds. and Sr. S.P.S. emerged the victors in the first round of the play-offs for interfaculty hockey honours, played last Tuesday. The Doctors will carry a one-goal lead into the second game of their total goal series with Trinity by virtue of their 1-0 victory, while the Engineers have a three-goal advantage over the Pharmacy squad which will take a lot to get back. The winner of the Trinity-Meds. series will take on the high-flying Vic. crew next week in the finals of Group II, whilst the survivor of the Pharmacy-S.P.S. game engages the husky Dental team.

On their showing so far, Vic. and Dents. appear to be the likely rivals for the Jennings Cup, but may suffer from their temporary lay-off.

### VICTORIA WIN PLACE IN LOOP PLAY-OFFS

Victoria won the right to compete in the finals of the interfaculty basketball championship by defeating Pharmacy last night 21-16. The team they meet has not been determined. The six group winners were divided into two equal groups with each group to decide a winner via the round robin method. In group one Jr. Meds., Sr. U.C. and Dents. are right where they started, as each team has won and lost a game. Vic. eliminated Knox and Pharmacy in their climb to the finals.

The game last night was slow and inclined to be rough. Vic. started fast and only their large lead obtained in the first half saved them in the last furious onslaught of the druggists. The latter were also very weak in accurate shooting, which cost them many points. Faux, Toole and Gladdish were best for Vic, while Lazarus worked hardest for Pharmacy.

### Athletic Elections

Monday next is the last day for filing nominations for student representatives on the Athletic Directorate. Nominations must be made on forms to be obtained in the Athletic Office and will be received there till 5 p.m.

The election will take place next Friday in the Debates Room, Hart House, at 4 o'clock.

### Sport Notices

## MUTILATES BOOKS; STUDENT SUSPENDED FROM UNIVERSITY

Freshman Guilty of Five  
Offenses at University  
Library

### PAYS FOR REPLACEMENT

A first year student in Arts has recently been found guilty of mutilating several books in the University Library and has been suspended by the Caput for his offence. *The Varsity* learned from Mr. W. S. Wallace, chief librarian. The mutilation consisted of tearing out sections as large as fifty or sixty pages, and then pasting together the pages at that place to conceal the deed.

At least five such offences have been traced to this particular student, and he has been forced to pay for the replacement of the books, in addition to his suspension. "Not only was it a mutilation of University property," said Mr. Wallace, "but utter selfishness in stealing from others who had just as much right to the books as he."

The offender was discovered through a perusal of the library slips, by a process of elimination, until the choice was narrowed down to three, and then to only one. He has been suspended until June 1, 1935, and will not be allowed to re-enter the University next fall except by petition to the Caput.

## ROBBERS FOILED BY ARENA SAFE

The Varsity Arena was broken into on Wednesday night when one of the south doors underneath the bleachers was forced and several office doors were "jimmied". The burglars broke into several desks and removed an amount of small change which was kept there as well as several personal items belonging to Mr. Ross Workman. The Arena safe which contained at the time some \$400 resisted the attempts of the intruders, who broke off the combination in an attempt to gain entry into it. The University and the city police are working on the case.

## Aid To Be Given Needy Students Through Iota Alpha Loan Fund

### NEWS OF THE WORLD IN BRIEF

New York—Richard B. Harrison, the Canadian-born negro actor who played the part of "De Lawd" in the play "Green Pastures", died yesterday, the result of a paralytic stroke suffered on March 2.

London—The British House of Commons early today passed naval estimates amounting to nearly \$300,000,000, an increase of \$17,000,000 over last year.

Chicago—Evelyn John Strachey is very grateful for the kind publicity afforded him by the recent action of the U.S. government in having him arrested.

Toronto—After October 31 there will be no more government support for Chorley Park, Premier Hepburn stated definitely yesterday.

### Attention Staff

Everyone on the staff of *The Varsity* is asked to drop in to the office before Saturday to sign up for the Spring Dinner and Dance, which will take place next Thursday in Hart House. This must be done immediately so that arrangements can be made.

## Dr. Cody Honoured By French Gov't

University President Becomes  
Chevalier of Legion  
of Honour

### RARE DISTINCTION

Dr. H. J. Cody, President of the University of Toronto, has during the past week been named a Chevalier of the Legion of Honour of France. This rare distinction has been conferred upon Dr. Cody for his active interest in France and French affairs and for his part in promoting friendly relations between Canada and the French people, especially during the recent Jacques Cartier celebration. According to Professor St. E. DeChamp, who is also a Chevalier of the Legion, the honour is a great tribute both to President Cody and to the University of Toronto.

The Legion of Honour was founded by Napoleon I and was employed by him to reward military men of outstanding ability. Since that time the decoration has been conferred on distinguished men in other fields, and has become one of the most prized of French distinctions.

### MEMBER OF CABINET TO ADDRESS LUNCHEON

The Hon. Dr. R. J. Manion, M.P., Minister of Railways and Canals, will address the final luncheon meeting of the Macdonald-Cartier Club in the graduates' dining room in Hart House today at one o'clock.

Dr. Manion is fully conversant with Canada's transportation problems and has a reputation for able public speaking. It is expected that Mr. Denton Massey will attend the luncheon.

Loans to Value of Hundred  
Dollars for Students  
of Any Faculty

### WOMEN PREFERRED

A new loan fund will be available to students of the University of Toronto for the next school session, when the Iota Alpha Sorority will grant one or more loans to students of outstanding merit at this education centre. The loans are awarded annual by the National Council of the Sorority on the recommendation of their local chapters throughout the United States and Canada.

Loans are granted up to the sum of one hundred dollars, and are open to men and women students, although in cases of doubt preference will be given to women. Students may be enrolled in any faculty. Unless in very exceptional cases, loans will be granted to students entering their final year in their respective courses. Applicants must have shown outstanding ability in (Continued on page 8)

## MESSAGE FROM THE PRESIDENT

University of Toronto  
President's Office

March 14, 1935.

The Editor of *The Varsity*:

I gladly avail myself of your kindness to give in the last issue of your valuable paper for this term, a short message of thanks and good wishes to the undergraduates of the University.

I wish to express my gratitude to the students for the fine co-operation they have shown with one another and with the authorities of the University in making this academic year one of solid achievement and real progress. The circulation of books from the central library is a good barometer of the spirit of work throughout our whole society. The U.C. Librarian tells me that the number of books read is about twenty per cent. greater than it was last year. This is very satisfactory. Never were students more interested in the general welfare of their country and in public and international problems than they are today. After all, is not the best contribution which the University can make to our country the educated young men and women who go forth from its halls? The late Earl of Oxford and Asquith once said that the best legacies he had received from his college were life-long friendships and a love of good literature. I hope that you all have already appropriated no small part of this heritage.

Some of you will be returning to the University next autumn. I hope you will have a good summer, either at profitable work or at profitable reading and recreation. We shall welcome you as you return refreshed and re-invigorated.

Some of you will be entering on your life work. I hope that you will speedily find a suitable task and that this task will be in Canada. I wish you every success in your future work. To make a living is good; but to make a good life is still better.

H J Cody

## Internationally Known Personages Visited Hart House During Year

### U.C. Lit Elections

S. F. Rae was elected president of the U.C. Literary Society at the elections held on Friday, March 8th. Other officers of the society are: Literary Director, B. Shaffer; Athletic Director, Geo. Campbell; Secretary, P. A. Bridle (a.c.); Social Director, F. D. L. Stewart; Treasurer, W. C. Smith (a.c.); 4th Year President, D. C. Carter; 3rd Year President, J. J. D. Brunke; 2nd Year President, A. Rankin.

### CABINET DISSENSION DENIED BY MARSHALL

Problems Faced by Hepburn  
Dealt with at Liberal  
Club Luncheon

A luncheon meeting of the University of Toronto Liberal Club was held on Tuesday in the Graduates' dining hall of Hart House, with Hon. Duncan Marshall, Minister of Agriculture in the Ontario Government, as guest speaker.

Mr. Marshall, in his review of the problems that have been dealt with by the Hepburn administration, assured the audience that any rumours of dissension in the Ontario cabinet were merely "the imaginings of a few partisan newspapers" and that Premier Hepburn enjoyed the full support of all members of his party. The speaker also dealt at some length with the workings of his own particular department, giving details of the loans made to farmers throughout the province both by the Hepburn and Henry governments.

"In 1911," he said, "President Wilson of the United States did more for the Canadian farmer than Sir Robert Borden had done during his whole period of office, and I believe that President Roosevelt will very soon do that same thing by passing tariff reform measures that Mr. Bennett neglected to consider."

Visitors' Book Holds Names of  
Leaders in Every Field  
of Endeavour

### ALL LANDS REPRESENTED

The number of prominent visitors who come to Hart House and the University is as large as ever, as the following list will show. During the last twelve months, we have been privileged to welcome within our portals, the following famous personages among many others, too numerous to mention.

Sir Stafford Cripps, the leader of the Labour Party in Great Britain.  
Sir Arthur Eddington, Professor of Astronomy at Cambridge.

Archibald the Arctic, Bishop of the Arctic.

The Bishop of Madras.  
J. R. Darling, Headmaster of Geelong School in Australia.

Dr. H. H. E. Craster, head of the famous Bodleian Library at Oxford.

Stephen King-Hall, the well-known broadcaster.

Sir Edward Peacock, one of Canada's more famous sons, who is governor of the Bank of England, and an outstanding financial expert.

Sir Herbert Dale, Director of the National Institute of Medical Research.  
Sir George Schuster, formerly finance member of the Executive Council of the Viceroy of India.

Allan Monkhouse, one of the principals in the famous Soviet trial some years ago.

Senator Gerald P. Nye, well-known for his part in the recent disarmament inquiry in the United States.

Dr. H. J. W. Hetherington, head of the University of Liverpool.

Senator Cairine Wilson, Canada's only woman senator.

Hon. H. H. Stevens, famed for the recent Price Spreads Inquiry at Ottawa.

Sir Percy Sykes, prominent authority on the Near East.  
Ex-Mayor W. J. Stewart.

### Eight Page Issue

There are eight pages to today's *Varsity*. When you receive your copy, check to make sure that you have received both sections. This is the last day of publication during the current year.

## Lively Debate Topics Popularly Received

Stephen Leacock and Hon. H. H. Stevens Among Distinguished Guest Speakers

### CO-EDS DEBARRED

This year five debates took place in the Debates Room of Hart House, and judging from the total vote they were very well attended. The timeliness of the subjects chosen may perhaps account for the large attendance.

On October 24 the first debate was held, the subject being "Resolved that Liberalism, though it speaketh, is dead." N. M. Pivnick of University College, spoke for the ayes, and was opposed by the doughty Liberal champion, Mr. A. D. B. Marshall of the same college. Messrs. J. L. Jeffries of Trinity and J. R. Okell of Victoria spoke from the floor. The cause of (Continued on Page 2)

## Toronto Professors Receive Fellowships

H. H. Madill, associate professor in the School of Architecture at the University, has been honoured by the Royal Architectural Institute of Canada, which has elected him Fellow.  
Sir Frederick Banting, Professor of Medical Research at the University, has been made a Fellow of the Royal Society of England. This is one of the greater honours that the co-discoverer of insulin has received.

### Forestry Elections

Following the Forestry Club elections on March 11th, it was announced that V. H. Phelps had been elected by acclamation. Other officers are: Vice-president, M. Lein; Secretary, J. L. Farrar; Treasurer, A. Chalk (a.c.).

## FOOTBALL FUTURE LOOKS BRIGHT STEVENS AGAIN LEADS BLUE TEAM

Intermediate Stars Will Bolster  
Ranks of Senior  
Blues

### MARKS, CONNELLY TO PLAY

Casting our thoughts five months into the future toward the advent of the grid battles of 1935 we find the University of Toronto pinning its faith on Warren Stevens and his next assemblage of senior football players.

In his two primary starts Stevens coached Varsity to the intercollegiate title, losing the third one by one point in the playoff with the Tricolour last fall. But on regaining the Yates Trophy after a one year lapse, the Blue and White football club is determined that Varsity's grid prestige will again achieve its status of 1932 and 1933.

It is welcome news that Steve's three year contract as athletic director has been extended since this genial gentleman has done more than any other to put this University back in the rugby hall of fame.

## GILBERT JACKSON BIDS FAREWELL AT COMMERCE CLUB

Professor of Economics Joins  
Bank of England Staff in  
Near Future

### HAS TAUGHT HERE 24 YEARS

The farewell message of Professor Gilbert Jackson was the main feature of the final meeting of the Commerce Club in Hart House Wednesday night. Professor Jackson, who has for twenty-four years been on the staff of the Economics Department of the University, and is soon to leave to take up a position with the Bank of England, was presented with a silver tobacco jar by the Club.

A report of the year's work was given by the President, G. T. Parmenter, which indicated that the club had had a very successful season. The results of the elections were given and Mr. T. J. Bell, the new President, addressed the members briefly.

Professor Jackson thanked the Club kindly for the gift he had received and gave a brief summary of the work of the Bank of England, "the only institution," he said, "doing anything constructive and effective to end the chaos in the world to-day."

He praised the University of Toronto and especially the course in Commerce and Finance. "The Commerce Club is (Continued on Page 2)

## EPIDEMIC OF MEASLES PROVED NON-EXISTENT

Only Five Cases of Mild Type  
Infectious but not Serious  
No Alarm Felt

Despite the rumour of an epidemic, only five cases of measles have been reported to *The Varsity* four at Trinity House and one at Burwash Hall. The mild "German" type, which is not serious but infectious, is the only kind prevailing, and every step has been taken to prevent its spread throughout the residences. The patients have not been removed to the hospital and no alarm is felt. The symptoms, according to Percé Murray, sixth year medicine, are: cold in the head, rash on the skin and a general feeling of miserableness.

### W.U.A. Nominations

The following nominations have been made for positions on the W.U.A. Council: Honorary president: Mrs. W. R. Taylor (a.c.); president: Joyce Arnold (a.c.); secretary: Freddie Chapman (a.c.); treasurer: Kay Westlake (a.c.); athletic director: Jean Adkinson. Charity Grant; social director: Madge Shaw, Barbara Caldwell, Peggy Dinick.

## COMMERCE CLUB ELECTS EXECUTIVE FOR 1935-36

After a particularly heavy campaign, and a record ballot of eighty-five per cent of the number of voters, the following executive was elected for the Commerce Club in 1935-36: Honorary President, Professor J. F. Parkinson; President, T. J. Bell; Vice-President, R. Putnam; Secretary, R. Shien; Treasurer, R. Ishister; 317 representatives, R. Ripley and T. Prest; 378 representatives, A. Rankin and R. Taylor.

#### THE ORIENT SPEAKS

Jerusalem, Palestine  
The Editor of *The Varsity*.

Dear Sir:  
How about a new U. of T. crest! One without that conspicuous "O" and "F" so widely separated! Wherever my brother and I go people stop us on the street wanting to know what our crests are all about. The "U" for *University* is O.K. And the "T" for *Toronto*. But they never can understand that the "O" and "F" go together. In France we had to explain it meant "DE", in Germany that it meant "VON", although on one occasion my brother told them it stood for "Off Fiedersheim"! And here in Jerusalem we explain every second day that the "O" does not stand for *Oxford* or *Olympics* or *Oysters*, and that the "F" is not for *France* or *Finland* or *Flap-Jacks*.

For Varsity students who stay around home it may make no difference. But for the sake of such as are inspired to go into all the world and let their Varsity crests be seen of every creature, I for one advocate an emblem that is easier to figure out.

Yours for the abolition of cryptic crests,

LEROY TOLL,  
375 Vic.  
1

The Editor of *The Varsity*.

Dear Sir:  
The recent editorial on a practice forest for the Faculty of Forestry expressed a feeling which the staff and undergraduates of that faculty have had for a long time. The request, although it comes from a small faculty, should not be disregarded on that account. Even though one of the smallest faculties on the campus it nevertheless has an important mission to fulfill—that of instilling its students with the idea of a sound policy, both for the timber industry, Canada's second ranking industry, and for State forestry.

Almost every other faculty on the campus has its own practice grounds. To mention a few—Medicine has its cadavers, research laboratories and hospitals; Dentistry has its clinics; O.C.E. has its various city schools, and even Household Science, it is said, serves periodic meals to members of its faculty. Foresters alone have no place to put into practice what they are taught.

As stated in the editorial, even a small woodlot close to Toronto would provide ample opportunity for students to spend their week ends carrying out the essential field work and studies, and finally it would be an example of the methods and aims of Forestry.

Yours truly,  
D. I. CROSSLEY,  
Fourth Year Forestry.

GILBERT JACKSON  
BIDS FAREWELL  
(Continued from Page 1)

the spear-head of this course; it is the natural intermediary between the students and the staff; it expresses the opinion of the student body and thereby greatly aids in moulding the course." He stressed the great importance of the Club by the fact that the course of Commerce and Finance is judged by the business man through his associations with the Commerce Club, and is thereby the expression to the world outside of the training received in this course.

"The well-trained and efficient university man of to-day should not find it difficult to make a living," he said, "and the University should tend to develop a poor man to think like a rich man, so as to be able to consider making a living as of secondary importance, and thereby looking on life in a disinterested way." "My sincere farewell wish is that the members of the Club will become able to look upon life in this disinterested and unselfish way."

#### Hollywood Theatre

##### Donate French Prize

The sum of fifty dollars has been donated to the Department of French of University College by the Hollywood Theatre, to be used as prize money for University College students. It has been announced.

The award will be made on the results of an oral examination in French, two prizes of \$25.00 each being given, one to an Honour French student, the other to someone taking Pass French. The date of the examination will be posted on the bulletin board of the French Department.

#### Lively Debate Topics

##### Popularly Received

(Continued from Page 1)

Liberalism (with the big L) triumphed but with the narrow majority of 84-76.

The next session was held three weeks later on November 24. The subject concerned itself with the principles of pacifism. "Resolved that in the opinion of this House, pacifism is an economically and spiritually impossible creed." This debate which was held under the auspices of the National Federation of Canadian University students, and featured speakers from Oxford and Cambridge who spoke on opposite sides of the House. Due to these special circumstances a bevy of young ladies graced the gallery, but the speakers did not seem to mind. Sustained by the eloquence of Mr. Hermand and the visitor from Oxford, Mr. Leslie Jackson, pacifism won by the resounding score of 218-79.

The Hon. H. H. Stevens, former minister of Trade and Commerce in the federal cabinet, attended the next session on November 28 to uphold the affirmative in the subject "Resolved that big business is a curse when directed solely by the profit motive." Mr. Stevens won. The vote showed ayes—307; noes—88.

Theories of government came up for discussion when the House convened on January 30 to discuss "Resolved that representative democratic government as understood in the nineteenth century no longer fits the age in which we live." The honorary visitor, Prol. Stephen Leacock, distinguished himself on this occasion. Democracy fell under the slashing blows of the visitor from McGill, aided by Mr. A. D. Harris from St. Michael's and Mr. M. Wayman of U.C. The vote was 109-71. *Sic transit . . .*

The last debate coincided, unfortunately, with the Jazz Issue, and a rather serious subject. "That this House has confidence in His Majesty's government at Ottawa" received, in these columns treatment more in keeping with the state of things at the Press than in the Debates Room. Mr. A. C. Smith, throughout the previous sessions, Speaker of the House, gave place to Mr. S. F. Rae in order to speak from the floor. Two speakers from McGill addressed the House. The motion was defeated, 84-52.

#### MR. GLAZEBROOK

George Parkin de Tivenebrooke Glazebrook is to the staff of the History Department what the man on the flying trapeze is to a circus. He is unexcelled as a classroom contortionist using no other equipment than a professional gown that is tattered and torn. With the gown coiled tangle fashion about his head and one dangling strip wound gag fashion over his mouth he is still able to lecture lucidly on current history, or as lucidly as the general chaos of current history permits. Unlike certain professors of the Law Department Mr. Glazebrook waits for the reporter to state the subject of his mission and ask him questions, before stating his opinions. As a result the interview is generally worth reading.

#### "Bond Street" Shoes FOR COLLEGE MEN

\$9.50

At \$9.50, "Bond Street" shoes give college men the typical Dack quality which, for more than a century, has set the standard in fine footwear for men. Style—fit—comfort—durability—these combined with selected Canadian leathers and skilled craftsmanship—are factors in a value which defies comparison. See the distinctive "Bond Street" models now on display.

If out of town, write for catalogue

#### GYMN TEAM SHOWS FLAWLESS SEASON

In the field of gymnastic endeavour the Blue and White Varsity team is supreme. Capturing the Caron Cup, emblematic of intercollegiate supremacy by the wide margin of 145 points to the McGill team's 75 here on Feb. 23, the Barton coached University of Toronto team proved themselves to be the equal of any of the championship teams in the past.

Successful as the past season may have been there is every reason to hope for the continued success of the Varsity team. MacDonald, the individual champion, has several years ahead of him, while Buck, Lewis, Farrar and Smith, throughout the previous sessions, Speaker of the House, gave place to Mr. S. F. Rae in order to speak from the floor. Two speakers from McGill addressed the House. The motion was defeated, 84-52.

#### NEW SERVICE BEGUN AT HOLLYWOOD THEATRE

The Hollywood, Yonge at St. Clair, announces a new improvement and a new service to its patrons. A number of seats in this theatre have been equipped with Northern Electric audiphones. This is for the convenience of any who are hard of hearing. The audiphones are receivers that are put over one's ears and are plugged into an attachment on the seat, which amplifies the sound from the moving picture so that all may hear perfectly the sound effect of the films.

Commencing Saturday morning, The Hollywood are starting a new series of French talking pictures. The first picture will be "La Dame Aux Camelias", starring Yvonne Printemps. These French talkies are held under the auspices of the University College French Department. Two complete shows will be given on Saturday morning, the first commencing at 10 a.m. and second at 12 noon.

#### SUPPER DANCE at the ROYAL YORK

# SUCCESS APPARENT AS YEAR OF SPORT IS SUMMARIZED

WARREN STEVENS

Who will again be guiding the destinies of the Blue campaigners next year, Steve has been very successful in his efforts, and has established himself as one of the most popular men in athletic pursuits around the campus.

I would like to take this opportunity to thank *The Varsity* sports staff for their co-operation in covering the numerous athletic events which have taken place during the past year. Taking everything into consideration it has been a successful year, both from the standpoint of championships won and lost and the spirit of fair play evident in the work of the sports writers.

I think it is well to keep in mind the fact that the players you are watching perform are only boys. They are not being paid for their services. They are competing for the enjoyment they get out of a game. At all times they are under their level best. Win, lose or draw, I always feel positive that they are trying to the best of their ability. We can't be too critical of inexperienced boys.

*The Varsity* sports writers have a great opportunity to create a spirit of loyalty in the student body and I feel sure, with everyone helping, next year will be even more successful than the past.

## Ruggerites Capture College Laurels

Almost unknown to anyone but themselves, and with little or no recognition for their splendid efforts, Varsity's English rugby team retained the intercollegiate title for the third straight year and gave the Blue and White its second title for the season of 1934-1935.

The student rugby team gained renown for themselves in the English rugby world when they went through the whole season without a defeat. Trimming McGill at Montreal by 3-0 and then swamping Queen's here in Toronto by 15-0 gave Varsity their title, but the most noteworthy achievement was in defeating such teams as the Wanderers, Brantford, Irish and the Welsh in exhibition games.

Led by Crawford (captain) and McLatchie (vice-captain), the team consisted of Wilson, Egan, McCaffrey, Whillons, Lossier, Prowse, Coughlin, Wagner, Kyle, Stothart, Caherill, Thorburn and Elliot, and certainly deserve credit for their quiet and yet effective campaign last fall.

## Summer Work

WE WILL have openings for a limited number of energetic, ambitious undergraduate students of high character. Work with Maclean's offers a splendid practical training and a real opportunity to earn enough to carry you through the college year. Men of the right type have made an outstanding success of this work—and only men of the right type will be considered.

## SPEAKING OF SPORT

By B. J. McGuire

We are heading down our last column. When we reach the bottom of this collection of comment, we shall conclude a column which will not reappear until next October, when it will be in charge of other hands than our own. At such a time as this it is customary to pay tribute to one and all with whom we have dealt. Our lack of adjectives however, makes this a difficult task.

We are indebted to many for what success this column may have had during the season. We have attempted to produce comment which was constructive and which was also not too boring to be read. It has been the policy of *The Varsity* sports staff to give fair and as far as possible, an accurate account of the sports events which have been of interest on the campus throughout the year. In this we hope we have succeeded.

Any degree of success we may have achieved in this attempt must be attributed to the uniring efforts of the sports staff rather than the editor. The boys who cover the smaller assignments, whose names do not appear at the head of a story, are the nucleus of every staff, and in this respect it is our honest belief that during the past year we were unusually fortunate. We could ask for no better co-operation than that which we received.

In this respect we might point out to those who are inclined to criticize, that the staff of *The Varsity* receive no pay. Their efforts are entirely voluntary. Their work is not always interesting. Events which occur under unfavourable conditions are covered by reporters who perform their tasks faithfully, with no thought of promotion and who receive nothing in return for their actions. To criticize the efforts of boys who devote their time and energy to rendering service to the undergraduates is the privilege of our public, but a privilege which when exercised is not ennobling. We refer here, not to the work of the editor, but of the staff. The editor gets paid.

Throughout the year there have been many events which have been of interest. In the first column of the year it was announced that if the athletes continued their deeds of valour, *The Varsity* would attempt to give accounts of them. The athletes held their end up well and if there has been a let down it was in us.

A summary of the year's activities appears elsewhere on the page. The achievements have been such as to bring credit to the University and the competitors. Next year should be equally as good. Warren Stevens will again be at the helm and that in itself is reason for us to face the athletic future with a spirit of optimism. Many of the performers will, of course, graduate, and although they will be missed, their places will be filled with younger men.

All of which reminds us that our place too, will be filled by a younger man. Looking over the year in retrospect we find our activities concluded and many of our plans still to be realized. There remains nothing but to thank our readers for being our readers, and the athletic body with whom we have come in contact, for their courtesy. We know that in passing from the University and leaving this paper, we are saying goodbye to the most congenial company and the most congenial public with whom an editor could desire to work. There are other papers and events, but there is a vast difference in the spirit around a public press and around a college paper. And now we have reached the bottom of our last paragraph. So with a final farewell and thank you we write "30" to our last column.

## Track Team Strong For Coming Season

Vercingetorix was great in defeat; so were the spike-shod University of Toronto track and field teams of the past year. Both the senior and intermediate squads failed to capture the trophies at stake but only by the narrowest of margins. The scarlet speed demons at Montreal just managed to beat the Blue runners in the mile relay to nose out the Toronto men from tying the McGill team. Varsity came off second best, but she competed against teams whose entry lists were studded with the names of Olympic and British Empire stars. Varsity came second, but walked off with four of the six field events. Varsity came second to McGill, who retained possession of the McGill Cup, emblematic of senior intercollegiate track supremacy, but two of her clean-lined athletes, Westheuser in the discus throw and Munroe in the high jump, shattered old and set new senior records. Blue men loped away to a smashing triumph in the intercollegiate Harrier meet held at Kingston.

Next, or rather this fall, the University of Toronto will be hosts to the track and field champions of the Quebec metropolis and the limestone city. Neither Westheuser nor Munroe will be found among the Toronto competitors but as able and experienced veterans will take their places. McGuire, Hamilton, Hogg, Campbell, Rankin will be back with those from the intermediates who are due to move up, and any of the super-freshmen who are expected to be entering various U. of T. faculties on or about September 25th, 1935.

## Boxers, Wrestlers Have Hard Year

Varsity's B. W. & F. team, mightily feared in previous years, has not enjoyed much success during the past season and a re-organization will be necessary next fall or the intercollegiate championship, which the Blue battlers have brought to Toronto twelve times since the War, is liable to become a stranger to these halls. Queen's already loom up as likely perennial title-holders with their decisive win in the senior assault (in which Varsity won only three bouts), most of their fighters being in their junior years.

Exhibition encounters with U.S.A. college teams afforded the Varsity combatants a lot of useful experience and varying success. The Blue mitt-men lost six out of eight decisions to the Syracuse ring artists here in January, but two weeks later they split the card with Cornell and returned home with four victories. Meanwhile, the wrestlers won three out of eight bouts in their invasion of Rochester.

Jack Milson, a first-year man, appears to be Varsity's outstanding fighter. Boxing at 118 lbs., he won decisions over his opponents from Syracuse and Cornell, and was the only Varsity boxer to win a final bout in the senior assault. Smith, Powell and Burke were the other Varsity boxers who attracted attention, in the 125, 145 and 165-lb. classes, respectively.

O.A.C. won the intermediate assault last week after a close race with Western, and the woefully weak Varsity team never had a look-in. Robertson took the 145-lb. boxing, and Keef the 125-lb. wrestling. The fencing team amassed 14 points to head O.A.C., who acquired 9. Tushingham, of Varsity, won individual honours.

## Sports Staff

The sports staff of *The Varsity*. W. A. Crookover, Ken Burn, George Vair, Les Mackay, E. B. Griffith, Don Coyne, Clarke Hood, Lou Rosenblatt, Jim Tiller, Art Rogers, John Fulley, M. Gluskin, F. J. Lamberti, Hal Taylor, D. K. Wise, Jim Hamilton, R. D. MacDonald, H. G. Burchell.

## OARSMEN ENJOY BRILLIANT SEASON

With over 80 men prepared to appear on the waterfront in April, the prospects of the U. of T. Rowing Club are the brightest in years. There is no dearth of heavyweights as there was last season and the senior heavy crew, with such men as Gibson, Willis, Annis and Pratt in it, should be able to give a good account of itself with all competitors. In all likelihood there will be a junior heavy crew as well as a senior crew, to absorb those who don't make the first boat.

The 150 lb. crew had some good men on the roster in Cameron Barton, J. MacDonald, D. MacDonald and Bailie. There are many number of beginners from whom to choose the remainder of the personnel of this boat.

Judging from the number of lightweight boys who have signed the list there will be a 140 lb. crew.

Varsity won the intercollegiate title last year for the sixth successive season and with Professor T. R. Loudon again coaching, the 1935 crew has excellent chances of repeating last year's victory.

## All Good Sports buy their supplies at Simpson's

The gentleman at the right is being given some pointers on golf. Though advice may vary as to grip, stance and swing, all parties agree that Simpson's is the place to buy golf supplies. Come and see our complete lines of Hagen and Willie Ogg clubs.

The lady on the left collects tennis trophies. However she has her picture taken with the racquets. For "I owe it all to them," she explains: "A good racquet makes a good game. Of course they all come from Simpson's."

Choose your racquets from the well-known and long Simpson's line, such as Slazenger, Bentley and Wright, and Wilson.

THE ROBERT SIMPSON COMPANY LIMITED

## SCHOOLMEN WIN LACROSSE HONOURS

Jr. School captured the Dafee Cup, emblematic of the interfaculty lacrosse championship this year, by defeating the classy Victoria squad in a thrilling hard fought series that was forced into three games to decide a winner.

The teams in all three groups were evenly matched, a situation which has not been in evidence in other seasons, and Trinity, Victoria and Jr. School had no little amount of difficulty in winning their respective groups. Victoria eliminated Pepper Martin's spirited band of Anglicans in the semi-finals in unconvincing style but flashed great form before bowing to the better play of the Engineers who won the championship for the first time.

Lacrosse gained quite a following during the past year due to greater interest being shown in the various colleges and the support given the teams was very encouraging to those who have tried to keep Canada's national pastime alive in the University of Toronto.

## sends the kids to VARSITY

### They're the Tops

Five tasty, luscious varieties now — Nut Roll, Filbert, Toffee, Cream Cake, Milk Chocolate — all carry the name Sweet Marie

Further back than a lot of us like to recall, Sweet Marie was the favorite at Varsity. Boy oh boy—for a nickel you always got the biggest, enlarged piece of sweetness that ever tickled a palate. And now Sweet Marie has a family—everyone just as much a treat as the old Sweet Marie nut roll. Whether your check's just come in or you're down to dunking doughnuts—you get the best satisfaction if you ask for a Sweet Marie. Always fresh—never more than a nickel.

## The Last Word

### VALEDICTORY

To-day's issue of *The Varsity* brings to a close another eventful year in the history of the University of Toronto undergraduate newspaper. Five times have we started to write an editorial on this theme, a beautiful editorial, full of ponderous and noble sentiments, bidding farewell to the year that is gone, and heralding a far better year ahead. And five times we have torn up the effort in disgust after writing a few hundred words, because it was not what we wanted.

Instead we are going to write a column, expressing our own personal views just as informally as possible. After all, we have spent the whole year in one continuous effort to avoid ponderous editorials, as we believe this paper has had a surfeit of them, and we have tried to be interesting and intelligent instead, so who are we to be traitor to our own self-established custom? The net result is that to-day's column will be filled with the usual ramblings of a somewhat wearied brain, and an attempt to catch up on some of the thoughts which have been in our mind all season.

First we want to express our regrets at the demise of *The Varsity* for this year. There is a certain satisfaction in knowing that now we will have time to write those autumn essays, but this is offset by a sadness from the knowledge that now there is practically nothing else to do but write them.

After five months when we have had a continuous opportunity to pour our pet peeves on to your sympathetic shoulder, gentle reader, it is sure to be a very great change. Entirely apart from the fact that without *The Varsity* our evenings are inclined to be boring, this bottling up of our spites and inhibitions will probably make of us a sad and sullen creature sulking in the corner, with spiteful temper ready to flare at any moment. If you see someone grinding his teeth and muttering imprecations in the reading room of the library some time, you will know that it is your editor, so spare us a kind word and a tear.

### THIS YEAR'S ADVICE

Before going further with this valedictory column, a few remarks about the past year and a bit of advice for the future are probably in order. This year has been peculiar, in that it has been fraught with many difficulties, but has nevertheless passed without many casualties. We took charge

of the paper after the previous editor had been discharged, and it is to the credit of everyone concerned, both on the S.A.C. and the staff of this paper, that relations have been so friendly ever since. We have had our little difficulties, it is true, but they have been solved with very little difficulty.

Since taking this paper over, we have had an editorial policy, one which seems eminently fair and sensible to us, and might be kept in mind for the future. The policy has been this: *The Varsity shall be fair in all things, and free from influence in all things. It shall have no religious or political bias, but shall feel free to voice opinion on all university matters.* This paper should sit on the fence, religiously and politically, which automatically gives it the right to criticize both sides freely.

*The Varsity* is owned by the students of the university; they comprise men and women of all creeds. It is not only ethically wrong, to us at least, to use their own paper against their beliefs, but useless and foolish too, for what will it accomplish? Similarly with politics, the student paper can serve its public far better by freedom from political bias, and the right to criticize both sides equally. In all things it is desirable to keep clear of partisan prejudices, and to treat all things in a fair minded manner.

### THE VALUE OF CRITICISM

In our own opinion, the main value of *The Varsity's* editorial page lies in its ability to give voice to student opinion of, in particular, a critical nature. If there is something amiss in the way Hart House is being run, as there sometimes is, it is the duty of *Varsity* to point this out. If there is some change which might well be made in the academic courses, it is the duty of *The Varsity* to point this out. If there is something fishy in the Athletic wing, as there inevitably is, it is *The Varsity's* duty to point it out. Beyond this, the duties of editorial criticism do not exist, although its privileges are almost unlimited.

These are our opinions; how well we have adhered to them we will let others decide. And this much advice we bequeath our successor, whoever he may be; he may not value it, but it is the best we can do in the way of wisdom at the moment.

### ONE LAST PET PEEVE

To revert to the general chit-chat which is supposed to be the theme of this column today, there is something which occurs to us with peculiar emphasis at the moment. Perhaps it is because of the time, as it is now 4.30 a.m., or perhaps because of the weather, as it is snowing hard and we feel rather out in the cold, but we feel particularly inclined to comment on academic matters. In particular, the fact that many members of the staff of this paper are worrying about examinations in English.

Speaking personally, we have written two articles this year for the most highly-paying Canadian magazine, which should indicate that we know something about English as it is spoken. And yet, because we think that Milton would have done the world a favour if he had never been born, and because we think that Wordsworth was a louse, we have little hope of passing the University's English examination. Similarly there is another member of the staff of this paper who writes English in copious quantities each day for Canadian Press, and whom we feel is an eminent authority on the presentation of facts in concise, simple, and yet informative fashion, who is also worried about the fact that he has to say the conventional things about classical authorities.

There is nothing in particular which we would advise as a solution of our difficulty—it just happens to be the last of our pet peeves which we have the opportunity of airing while at this institution of learning. And now this space has been filled and we must come to a stop. The year's work is at an end. We have tried a number of experiments, some of which have been successful. For the things which we have done inadvisedly, we have no excuse, for after all no one ever is right all the time. And for our efforts which come under the heading of Good Things, we take no credit, for if you try enough different things, some are bound to turn out all right. There is just one thing more before we make our adieux.

### MANY THANKS!

To the staff of the paper, and to the members of the Students Council, we offer a word of appreciation for the co-operation which has been ours. Making these last farewells makes us feel old, very old, but through dimming eyes we can still see a few typewriter keys, and with the palsied hands of Father Time, hammer out a message to our readers: may happiness be yours, and good fortune attend your efforts. And with bowed white head, we return now to our essays.

## ART, MUSIC & DRAMA

### Hart House Theatre

The final one-act play of the current season's much enjoyed series was presented on Tuesday in Hart House Theatre. Under the very satisfactory direction of Bob McRae, *The Playgoers* by Sir Arthur Pinero, proved to be a humorous treatment of the servant problem as it affects the high English household,—the treatment being quite successful.

Margaret Van Every and Jack Harris took the lead roles of Mistress and Master, and carried them well throughout. Joab-of-the-Cat's lines were consistently the best in the play (although the Master is made stooge most of the time) and he took good advantage of them. George Johnston was the very odd, Odd Man, and the standout of the play in every respect, including his nose.

Helen Carscallen's "Woody" of *The Crime at Blossoms* became cleverly vulgarized into "Cook" among the servant playgoers. Our attention is usually focused on Marg Davies when she is present in a character part on any stage and possibly that was why we detected her smiling much too frequently. That superior parlourmaid, otherwise adequately portrayed, would not smile. The other servants,—House, Kitchen, and Useful Maids were correspondingly good. Kay Coleman's flying tresses being quite as astonishing a revelation as her ability to *hysterick*. The staging and lighting were especially fine for such a modest production.

R. G. A.

The Alliance Francaise presented three modern comedies last night in Hart House Theatre. The display of histrionics was extraordinarily good—particularly from the women. *La Dame de bronze et le monsieur de cristal* was considerably brightened by Mlle. Balhazard's picturesque interpretation.

Continued on Page 4

Within the wealth of Nature's lore  
A legend lurks of Groundhog Day,  
When ye low Woodchuck cometh forth  
To find if spring be here to stay.  
Should clouds obscure the sun above,  
Contents he to remain;  
But should his shadow he descrie  
He'll run below again.

Yet, obscure myth again relates,  
In middle March falls Champus Day,  
When sure as come the morning sun  
The ancient Cat from sleep will stray,—  
Then, startled, quickly disappears  
Within the Libry's door.  
For 'tis well known, events to come  
Their shadows cast before.

C-C

And the day did arrive upon which  
The son must leave off writing Cats  
and close up his shop, which had been  
given unto him by his father, Joab.  
So he closed it up, but it was with  
much weeping and wailing and gnashing  
of teeth, for it was not his wish  
to leave off writing Cats, and this had  
become an habit of much pleasure. Yet  
the occupation was no longer lucrative,  
the season for Cats being now  
at an end. For it is written that Cats  
are like those oysters which the sea  
giveth up, they are good only in the  
R months. And of these, Cats are not  
good in September and April, it even  
being said by some that the months  
are twelve in which Cats are not good,  
or as it is spoken, *unhol*.

So the son did set himself to writing  
the final Cat, whereupon he did  
first write in verse, sixteen lines. And  
then after some thought he did begin  
to write in prose, in the manner which  
is called *Biblical*. Now this is a manner  
in which it was most appropriate  
to write of his father, Joab, of his  
modest brother, Ignatz, and of his servants,  
Mundusvult and Julep, son of  
Mint. Yet he did tire quickly and with  
feelings of frustration ere he had written  
long after this sage fashion, for it  
did always appear so dam silly when  
signed,

The Muddy Yorker.

## CANADA'S CIGARETTE SENSATION

No cigarette offered to smokers in the last twenty years has ever received the enthusiastic approval accorded to Sweet Caporal's—and no other cigarette is enjoying such sensational increases in sales. To all smokers seeking a cigarette that is round and fully packed with choice, aged tobacco—a cigarette that is really mild yet with a flavour rich and satisfying—we say, smoke Sweet Caporal. We promise you it will be a pleasant experience.

## VIC MEETS DENTS IN HOCKEY FINALS

The interfaculty hockey playoffs have run true to form so far, and as a result, Dents and Victoria will fight it out for possession of the Jennings Cup.

Both teams encountered stiff opposition in the semi-finals after leading their respective groups all season. Dents were held to a scoreless tie by Trinity in the first game, but took the second game by 3-0 and won the round by the same score. Senior S.P.S. threw an even bigger scare into the Vic camp before losing out in the two game series by a 6 to 5 score. The Engineers were trailing by two goals after the first game, but they rallied to tie up the round, only to weaken before a furious Victoria attack in the last period.

The final series will be decided on a best two games out of three basis, with the first game taking place this afternoon, the second on Monday, and the third, if necessary, on Wednesday. All games will be played at Varsity Arena and will start at 4.30. Following the usual procedure of final games, students' season tickets or twenty-five cents will be required to gain admittance.

REV. F. H. COSGRAVE

A distinguished Irish scholar who is not seldom confused with a distinguished brewer, the Rev. F. H. Cosgrave has guided the destinies of Trinity College since 1926. He has endeared himself to his charges with his R.K. lectures and with his unique conversation. The latter faculty, which consists for the most part of the use of the affirmative in a multitude of inflections has been the inspiration for many a song and saga about Trinity. He is also graced with a charming wife who reputedly has transformed him from an absent-minded professor of the first water into one of the most capable provosts of the college.

## SOCCERITES LOSE IN ANNUAL GAME

The Blue and White lost the soccer title that had been theirs, to the Red team from McGill, when they lost out by a 1-0 score in Montreal on the 20th of October last fall. Although defeating R.M.C. here by 7-0, the Varsity team finished in second place in the group standing.

One game only with each team is played each year, the site of the home game changing annually. Led by Jimmie MacPherson, who played centre, the team consisted of Jack, Bowen, Davey, Long, Rowland, Rawlinson, Schuett, Dyke, Sim, Pratt, Stapleton and Sully.

The match in Montreal with the title at stake, was a close checking affair and when the final whistle blew the McGill team was one goal up. Varsity redeemed themselves when they opened up against R.M.C. and blanked them by seven to nothing. McGill, however, eked out a win over the lads from Kingston and as a result annexed the title.

## Students' Handbook

Secretaries of all College and Faculty organizations and secretaries of all University clubs, Faculty and College clubs and societies are requested to hand in now to the Students' Administrative Council Office, Hart House, a list of the officers for the year 1935-36, together with their names and addresses for the 1935 edition of the Student's Handbook. Fraternities please note. Any changes in address or telephone numbers for the year 1935-36 should be handed in now to the Students' Council Office.

## TORONTONENSIS 1936

Applications for Editor of *Torontonensis* will be received by the Associate Secretary of the Joint Executive, Students' Administrative Council, up to 1.00 p.m., Monday, March 18th, 1935, Room 82, University College.

(Miss) A. E. M. Parkes, B.A.,  
Associate Secretary,  
Students' Administrative Council.

## "THE VARSITY"

Editor-in-Chief

Applications for the above position will be received by the Associate Secretary of the Joint Executive, Students' Administrative Council, up to 1.00 p.m., Monday, March 18th, 1935, Room 82, University College.

(Miss) A. E. M. Parkes, B.A.,  
Associate Secretary,  
Students' Administrative Council.

## T.H.L. PUCKSTERS MAKE PLAY-OFFS

Varsity's only remaining team in the hockey wars, the Beavers, are still going great guns in the T.H.L. loop. The Blues were granted a bye in the play-offs which are now under way, and from present indications will still be merrily skating hither and thither on May 1st.

The intermediates have had a very good season and look to be the class of the league at present. The team has struggled along in mediocre fashion during the early part of the season, but when it became increasingly clear that the senior Blues were going nowhere at a rapid rate, Coach Stevens bolstered the ranks of the Beavers with several senior players, with the result that the boys now appear headed for a championship.

The T.H.L. has provided some of the spiciest hockey of the season, and an evening spent viewing the lads was usually better than attending a wrestling bout at the Gardens, there being little difference in the type of entertainment served up.

Pud McIlwain of the Royal York brigade was the outstanding grappler in the circuit, putting on some stellar displays on occasions which enlivened many an evening. The work of Pearey and Saral Allen for the Bell Telephone squad was also a treat for the fans.

The senior first string line of McLellan, Hendry and MacPherson has also joined the team for the playoffs. The team's star manager, Murray Cox, also gets an orchid for his indefatigable efforts in behalf of his squad.

For the Blues the following men competed during the season: Loughheed, Shipman, Bauer, Campbell, Charles, Driscoll, Rey, Devine, Kieff, McLiquham, Jeffrey, Valiquette, Sweeney, Morgan, Disher and Seagram.

## DISASTER REIGNS IN HOCKEY LOOP

International League for Next Year Seems Probable

The finger of disaster that has been pointed towards the senior hockey team for the past season will probably turn out to be a benefit in disguise as next season the puckchasers will concentrate their activities on more academic circles than they have in the past. If sufficient games can be scheduled, the Blues will only partake in intercollegiate competition but in any event a large part of their schedule will consist of games with American and Canadian college teams.

It would be very optimistic to say that an international college loop will be formed this year. Varsity's games with the American colleges will be labelled exhibition affairs but in reality they will be the experimental stage of an international league. If the public turn out and support these games it is very likely that a league will be formed the following year.

The matter of appointing a coach is still hanging fire. The most obvious thing to point out in connection with this year's campaign was that Warren Stevens had never played hockey. The majority of the arm chair coaches refused to look past this obstacle and see if anything else was the matter and as a result Mr. Stevens has been placed in a very uncomfortable position. With the feeling as it is at present it seems unlikely that some sort of change will be introduced for next season's campaign.

Whoever is in charge will be compelled to fill the gaps caused by the graduation of several of the players. While it is expected that Shipp, Campbell, Hendry, Sweeney and MacPherson will swell the ranks of the procession into Convocation Hall this June, it is hoped that the latter two will return to O.C.E. Kieff was only at O.C.E. for a year and will also be among the absent.

## BRITISH WOOLLENS ON PARADE

HUNDREDS OF PATTERNS  
TO CHOOSE FROM

For your selection, Tip Top Tailors offer a choice of British woollens still finer in variety and quality than ever offered before.

Our twenty-five years of tailoring experience has taught us to tailor your garments to your advantage. Some of the hidden qualities include the finest Hymolapels, exclusive Irish linen canvas and a reinforced lapped hair of nature that cannot penetrate the surface of the cloth.

## JUNIOR HOCKEY PROMISES MUCH

Put Up Gallant Fight but Did Not Have Support of Lady Luck

NEWCOMERS TRIUMPH

Now that the 1934-35 edition of the Varsity Junior Blues has put its uniforms away for the season, it is time to enquire into their activities and see what has been going on. While as a team they have not set the world on fire during the last campaign, it is pleasant to note that there is some very promising material amongst its members that should prove invaluable to the senior and intermediate squads next season.

Although this gallant little band finished up in the cellar position, they did not do so without putting up a great battle first. Invariably they lost out by a single goal and on many occasions it was only because Lady Luck was watching over their opponents.

Of the previous year's team, Ripley, Sissons and O'Leary were back again to form the nucleus for this year. Competition was keen for the remaining positions, and many of the newcomers showed up to advantage. The first line of Ripley, Shults and Cressy toiled faithfully all season and should have been rewarded by more goals.

It is not possible to forecast any definite prospects for next year at this early date, since many new faces will appear before then, but there is every reason to think that 1935-36 should herald the return of a crack junior squad to the University.

## VICTORIA INFORMAL IS NOVEL AFFAIR

Senior Reception Abolished  
Replaced by Complimentary Dance

### MUST TAKE VICTORIA GIRL

Informality is to be the note at the forthcoming Victoria College party to be held in Hart House two weeks today on Friday, March 29th.

The V.C.U. decided this year to abolish the Senior Reception. In its place third year will hold an informal party to be attended by all the undergraduates and faculty of Victoria College in honour of the graduating year. Preceding the dance the senior year will be entertained at a dinner in Burwash Hall by the faculty. They will then join the rest of the college in Hart House.

This dance, definitely the hugest party ever undertaken by the College, will cost nothing to those who attend. It is to be financed by the Victoria College Union with the funds intended for the Senior Prom the traditional function held in the college. Tickets will thus be complimentary.

## CRIPPS DESCRIBES ENGLISH POLITICS

Great Interest Shown by British Students in Political Affairs

### OXFORD HAS FIVE GROUPS

"Political Clubs in the English Universities" was the topic of an address given before a meeting of men in Hart House this week by Mr. John Cripps, son of Sir Stafford Cripps of the British Labour Party. The meeting was arranged for by the University C.C.F. Club.

Mr. Cripps recently graduated from Oxford University and at present making a tour of the United States and Canada, gave a picture of political activity within Oxford and other universities. "In residential universities," said the speaker, "the students have more time for participation in university life. Oxford and Cambridge are outstanding in political activity."

In Oxford there are five political groups, all of which have a connection

## NOVEL FEATURE AT M'GILL SCHOOL

French Naval Officers Attend Weekly Dance of French Summer School

### CONSULAR STAFF PRESENT

Pretty girls in Summer muslins and men in flannels through the scholarly portals of the Royal Victoria College . . . sport cars huddle in the drive . . . jazz tunes float upon the air . . . courtly gentlemen with iron grey hair wearing the little scarlet ribbon of the "Legion of Honour" bend low over extended fingers . . . Naval Officers in the dress-uniform of the French Fleet cause feminine hearts to pop . . . the cadence of merry conversation rises and falls in French . . . Ah! what French! . . . there are the rolling r's and clipped syllables of the purest Parisian mingling with a variety of accents . . . some drawing Southern—some harshly of the North—many convincingly French—none unmistakably English—but all rising and falling together with free flowing enthusiasm.

This is the lighter side of "Living in French" at the McGill French Summer School in Montreal, and the occasion is the weekly dance honoured to-night, as we have noted by the French Consular Staff and representatives of the French frigate at present in port.

Students not only pursue the usual elementary, intermediate and advanced courses—but they made full use of their recreation to accomplish their ends. They cast aside their Anglo-Saxon personalities and lose themselves in another language—sever the ties that bind them to the old rut on lakeshore or mountain and enjoy a different kind of holiday—one that proves not only stimulating and diverting, but practical and profitable.

NELS KELLY

Popular campus dance maestro, who will wield his cornet at the annual dinner and dance for the staff of The Varsity, which will be held in Hart House next Thursday evening. Festivities will commence at 7 p.m. and will continue until —??

## NOTABLES TOASTED AT CLUB FESTIVAL

English and History Club Close Successful Year; Elect New Officers

The English and History Club brought its year's activities to a close Wednesday evening with a dinner and informal party held at the Clovelly Inn. Various toasts were proposed during the course of the meal: to the King, the ladies, Premier Hepburn and the Hon. George S. Henry. A spirit of gaiety and congeniality was evident, and was brought to a climax by the reading of several letters or telegrams received from such distinguished people as Mae West, Beatrice Stein and T. S. Eliot; who regretted very much their inability to be present at the gathering.

After dinner the more serious business of the evening ensued, as the executive of next year had to be chosen. Mr. Claude Bissell, III U.C., was elected to the presidency; Miss Mary Burnham, III Trinity, was made vice-president; Miss Jean Robertson, III U.C., secretary and Mr. Donald Piller, II Trinity, treasurer. It was decided that the elections of representatives from the different colleges would be made at the first meeting next year.

The retiring president, Mr. Doug Daddon, IV U.C., made a short farewell speech after which the guests left the table to engage in further festivities.

## SWIMMERS SCORE BRILLIANT WINS

The Varsity aquatic artists completed a very successful season, in fact, one of the most successful in the annals of the water splashing art. The swimming team will not be hampered much by graduation but the senior water-polo will have only three members back in harness.

The achievements of the swimming team included their overwhelming victory in the intercollegiate swimming meet when they garnered more points than McGill and McMaster combined. The swimming team also invaded New York State and defeated Buffalo State Teachers College and Rochester University. Against the former they won every event but the diving, and in that they placed second and third. Against Rochester their victory was very convincing as this team is considered about the most powerful of the U.S. college teams.

The water-polo team won no titles but made a good showing all season. They lost the intercollegiate title to McGill. In the inter-city series Varsity finished second having lost a game and defaulted one.

Much of the success of the teams is due to the outstanding work of the McCarty brothers. These two have been outstanding all year both on the water polo teams and the swimming team. Winice holds the intercollegiate record for the one-quarter mile swim. In the U.S. invasion he was undefeated in all of his starts. Along with Cres, his brother, and Murphy, they set a new mark in the medley relay in the intercollegiate meet. Winice graduates this year but will not be lost to Varsity athletics as he intends to enter O.C.E. in the fall.

## First Aid to the Bankrupt

"Quit your moaning," says Sophomore Freddie, patting the telephone. "It's no disgrace to get broke, but it's worse than that to STAY broke when this little coin extractor will bridge the gap between you and affluence. Just Long Distance the Pater—he'll be so glad to hear your voice that he won't even mind the touch—and don't forget to reverse the charges."

● Long Distance gets you there quickly, easily, and at minimum cost. You can talk 100 miles or so for as little as 30 cents. Note the rates in the front pages of your directory.

## INCONSEQUENCE

Every form of creative activity whether expressed through literature, drama, music or art necessarily divides itself into two strata known roughly as the purely artistic on the one hand and the popular on the other. This does not mean that these two divisions are mutually exclusive; art is a social thing, and all great works of art have a universal appeal which includes in its scope what may be known as the popular taste. Considered by itself, however, the popular standard of art is of a distinctly lower order, and constitutes a sinister menace to the serious moral purpose of the higher and more comprehensive type.

Now of all these arts the art of letters has the widest social appeal, and here the cleavage between the two strata is immediately seen. As we have classical music and popular music, so we have classical literature and popular literature. Of course, here, I use the terms classical and popular in the popular sense, but the distinction is clear enough; by classical I mean literature possessing a definite type the aim of which is less social than sociable, the type made to order for the reading public who are less interested in being stimulated than in being amused and entertained for an hour or so of spare time.

There is not the slightest desire on my part to cast any reflection on the man who wishes to rest on his chesier field after a hard day's work and read a magazine, or to listen to Amos 'n' Andy over the airwaves (if anyone does listen to Amos 'n' Andy nowadays) I would however, like to draw the attention of such people that there is another type of literature than that which is supplied by Liberty and Maclean's, just as there are other types of radio programmes besides Amos 'n' Andy. That this type of literature is overlooked is due, perhaps, to the industrialism of our age, which thrives on mass production; perhaps even more to our own laziness for we are notoriously inept in the business of employ-

ing our leisure time. If we were less feverish in our labours and less indolent in our leisure we would have a far wider appreciation of our cultural advantages, especially of our literary advantages.

I have a sneaking suspicion, therefore, that most people are not particularly anxious to delve too deeply into the serious problems of life. The frequent complaint of our age, that "life is hard enough to live anyway without having to read about it" expresses the attitude of our tired business man who escapes to his books in order to get away from his business worries. This type of man is not seeking a stimulant in his reading but an anodyne. Since he is scarcely likely to find the sedative he wants in modern literature—even such a glamorous tale as Anthony Adverse deals in realities in such a way as to cause shivers to run up the reader's spine—he turns for relief to the True Story Magazine.

This attitude is unfortunate and should not exist. It is all right to read popular fiction, but one should look seriously into life now and then. After all, we should be cultured enough and mature enough to realize that bread and circuses are not the only things for which we should look in our reading. The whole range of literature is at our disposal, both classic, which most of us know and appreciate, and modern, which we should appreciate for its sincere and gallant attempt to interpret modern life. We should not become too serious about our reading, or pore over Mr. Wells' latest attempt with long drawn faces. Balance is desirable about all things, but it is a pity to ignore the more serious aspects of our modern fiction. The reality is harsh, and its portrayal of human emotions searching, but out of all its harshness and even obscurity may come a ray of light which will illuminate our path.

Man is a restless animal; although he may find a shelter by the wayside he will never get rest until he has finished his journey. And yet how cool the shade of the bower, and how hot and dusty the journey ahead!

## PROFESSOR ANDERSON

F. H. Anderson, B.A., Dal. M.A., Ph.D. is a Professor of Philosophy in University College at the University of Toronto, where few students do an hour's work a day outside of classes. Professor Anderson has a strong personal dislike for lectures, and does his best to cultivate this attitude among his students by attempting to establish a new record for rapid-fire dictation each week. It would be impossible to keep up with him did he not find it necessary to pause occasionally, while casting about for sufficiently difficult phraseology in which to express the simple idea he has in mind.

When not dictating notes, Mr. Anderson devotes his time in class to the caustic condemnation of journalism and its disciples, failing to realize that, in the suagness of their Fourth Estate, journalists are even farther beyond fear of damnation than hope of salvation. He is the author of "The Argument of Plato", — a surprisingly interesting treatise containing much fine journalism, and wears a prim little smirk not unlike that of Alexander Smirkott.

## TENNIS TEAM EXPECT GOOD TEAM FOR '35

Varsity's tennis players this year did little in the way of retrieving the intercollegiate tennis championship from Montreal where the University of Montreal and McGill have kept it for the last six years. It was not the weakness of Messrs. Black, Crowson, Eaton, Hermand and Piggott, but rather the superiority of Bobby Murray, the McGill Davis Cupper, that spelled defeat this season.

The interfaculty tournament which decided the senior team produced Harris Crowson of Dents as holder of the McEachern Cup, which was held last year by Bill Piggott. The feature of the local meet was not so much the crowning of a new champion as the five stand made by Alan Eaton in the semi-final round against Piggott.

Between these three men the 1935 edition of the team should take the intercollegiate title. Piggott especially has shown marked improvement in the national indoor matches in Montreal, coupled with Eaton, they should also make a good showing in the doubles event.

The one thing needed for tennis at this University is something more than the bare recognition by the Athletic Directorate.

## ATHLETIC SOCIETIES ELECT MEMBERS

Student Members to be Chosen from Ten Candidates for Athletic Directorate

## PRESIDENTS ONLY TO VOTE

The election for undergraduate members on the Athletic Directorate takes place in the Debates Room, Hart House, this afternoon at 4:15 o'clock. Presidents of Athletic Clubs and Athletic Associations of the colleges and faculties have filed with the Secretary of the Athletic Association the list of voters to whom they have issued credentials for the election. These credentials must be presented at the Athletic Office not later than 4 o'clock to secure voting tickets and no substitutes or proxies will be allowed.

A student eligible for nomination for the Directorate must, at the date of nomination, be in the second or a higher year, but not in his final year at the University. Students graduating in Arts who are proceeding to College of Education next year are eligible for nomination.

The following have been nominated: Conway, C. A.; Coulter, J. R.; Eaton, E. R.; Henderson, H. A.; McCarty, W. A.; MacPherson, J. H.; Magner, D. E.; Marks, H. R.; Squires, H. B.; Sutton, W. R.

The meeting will be called to order promptly on time.

## TEACHERS REACH BASEBALL FINALS

After enjoying a good season, the baseball teams are nearing the finals. In each of the five groups there was a keen battle for a playoff position. St. Mike's entered a team this year, but Sr. Vic led this group. Dents, last year's champions, also came through. O.A.C. dropped out of the series. O.C.E. had a strong team and the other group winners were Jr. School and Emmanuel, another new entry this year. A schedule was drawn up whereby these five teams met each other once. Half way through the playoffs, the teams were all tied, with a win and a loss each. At the present time, O.C.E. and Sr. Vic are favoured to meet in the finals, best two out of three games, which will likely start on Tuesday, 19th March, at 4 p.m. in the big gym.

## POPULAR LECTURER GIVES NEW SERIES

Next week the 18th, 19th, 20th, and 21st marks the second group of lectures to be given at Convocation Hall by Mr. Brian Cook, for the National Council of Education.

Mr. Cook is a well known author, lecturer, traveller, as well as an artist of note. His lectures this time will be made up of the showings of coloured slides of England. These will be given in the following order: first, "The Landscape of England", then "The Villages of England", "The Old fairs of England", "The Homes and Gardens of England", "The Cathedrals of England", and "The Parish Churches of England".

## SECONDS WIN LOOP LOSE IN PLAYOFFS

A mud puddle into which Edwards, a Varsity halfback had the misfortune to slip and fall was responsible for the loss of the intermediate intercollegiate football championship to the University of Toronto and its acquisition by McMaster University, Hamilton. In his hurry to get to the McMaster goal line, Edwards wandered into a particularly slippery spot of ground and fell, with the winning touchdown in sight. The title was won after two games had been played, the first resulting in a 14-14 tie.

## USHERS REQUIRED FOR SUMMER MONTHS

Students who are remaining in the city during the summer months, and who would be available one night a week are requested to sign the list in the Athletic Office within the next week. Experienced ushers will be given preference.

**30¢ WILL BUY a lunch**  
at **Murray's**

This special luncheon includes coffee—and is served between 11:30 and 12:30 at the two Murray's restaurants at 295 and 770 Yonge St. Something different every day.

## THE SPORTSWOMAN

By M. A. F.

The swimming meet and badminton tournament completed the women's sports schedule for the year and it has certainly been a very full one as well as a very interesting and at times spectacular one. The interfaculty titles were evenly distributed among the various colleges. Vic alone holds the laurels for two events—baseball and hockey. St. Hila's again holds the basketball championship. Social Science wears the swimming crown and the tennis laurels go to St. Mike's; U.C. climbed to the upper berth in the badminton playoffs. There was one other interfaculty event which deserves mention although it is not on an official basis as yet, and that is the golf tournament. This competition was sponsored by U.C., all colleges were invited to attend and the enthusiasm shown was very encouraging.

This can hardly be said to have been Varsity's lucky year in an intercollegiate way. The Tricolour aggregations in both tennis and basketball came out on top—and it was certainly high calibre playing which did it for them in both cases. Ruth Fischleigh won the women's tennis singles and was on the Queen's forward line in basketball. Incidentally, that forward string was really the most spectacular feature of the whole occasion. We had no intercollegiate team this year but McGill came down and played our all-star team and the honours fell to the Redmen, who had Babs Goulding with them—and that explains any hockey victory.

The women's swimming meet this year was a very spectacular affair. Two records were smashed by Phil Haslam. Social Science's new swimming star. It was worth attending the meet merely to see her in action. And the fact that she and her cousin, Mary Murphy, won that entire meet absolutely alone is quite a thing in our swimming annals. Phil piled up 23 points and Mary made a count of 18. Molly Stevens of U.C. ranked second to Phil Haslam in point total—her tally was 11.

Dot Dempster of U.C. won the badminton singles and a U.C. team made up of Lenore Fraser and Marj Hughes took the doubles tournament. In both cases St. Hilda's was the runner-up—Betty Clement in the singles and Shirley McEvoy and Elspeth Chisholm in the doubles.

All U.C. badminton players are urged to attend a very important meeting at the Women's Union on Monday, Mar. 18 at 1:30. Arrangements for next year are to be made.

May we convey to those who will be arranging and managing women's sports next year and to those who will be participating our best wishes for a bang-up season and if it's not too much for the safe return home of the "Bronze Baby".

## MOSS SCHOLARSHIP

The following have been nominated for the Moss Scholarship: University College: N. M. Pivnick. Victoria College: Harold Taylor. Trinity College: Margaret Farmer.

Style is the result of careful attention to every detail... the selection of pure wool fabrics... smart patterns... correct cut... durable wear-resisting linings... skilful tailoring.

All of these features are combined to produce garments that bear the Pascoe Label.

## ART, MUSIC AND ORAMA

(Continued from Page 4)

of the Statue of Liberty and the sound effects of Mr. MacKay and Mr. Rochereau. Mrs. Patterson in *La Rente Viagère*, although at times inaudible, gave an excellent performance as the pitiful little old woman who stily played upon the chivalrous instincts of Mr. Finch with disastrous effects upon his reputation of capable business man. *L'Étrangeuse*, by Tristan Bernard, was broad farce with brandishing of knives, hatchets, toy horns, pistols, fake 'jools' and a nightcap. Mr. Walter is to be congratulated on his excellent direction, the roles being very competently filled and the general imperfect execution being par excellence. The first play was perhaps best, but all proved highly entertaining.

### University Symphony

Last Saturday afternoon the University Symphony Orchestra made its debut in Hart House Theatre. The house was well filled and the audience enthusiastic. The concert was sponsored by the joint executive of the Students' Administrative Council and Mr. E. A. Macdonald opened the performance with a few words of explanation and of commendation for the orchestra and its leader, Mr. J. J. Weinzwieg.

The first number of the programme, the familiar B Minor (unfinished) Symphony of Schubert, was an ambitious undertaking and proved a little disappointing. The strings provided a creditable performance, though somewhat obscured by the piano, which appeared to carry the major responsibilities of the instruments which were lacking. The uncertain blarings of the brass unfortunately destroyed the delicacy of the crescendos and the finer climaxes were completely lost. In spite of these failings we were quite able to recognize our old friend the B Minor and even, if we must admit it, to enjoy this rendering by a group of young students.

The second number was the Beethoven Sonata Appassionata played by the guest pianist, Mr. Michael Winesanker. Having a personal prejudice against pianists generally and against those who play the Appassionata in particular, we shall refrain from making any comment on Mr. Winesanker's performance, beyond saying that our music teacher would have approved his muscular control and that the audience applauded vigorously.

The third selection, "My Heart at Thy Sweet Voice" from Saint-Saen's "Samson and Delilah", reminded us irresistibly of the better efforts of the gentleman who panhandles our street.

The fourth number was conducted by Mr. Brian S. McCool, conductor of the Harbord Collegiate Symphony Orchestra, and consisted of the March from "Carmen" and Strauss' "Persian March". In these, and in the fifth selection, the "Tannhauser" March, the Orchestra showed itself considerably more at home, carrying them off with enthusiasm and precision. A much better balance was maintained between the different instruments in these than in the earlier numbers.

Mr. Weinzwieg deserves our congratulations on the splendid work he has done in gathering together a group of students and creating an orchestra which, if imperfect at present, shows considerable promise. The Students' Administrative Council has shown its wisdom in sponsoring such a project.

### St. Thomas Church

During Lent the Litany is sung in procession around the Church. At the 11 o'clock Choral Eucharist, the Rector, Rev. C. J. S. Stuart will preach and the service will be sung to an unaccompanied setting by Dr. Willan. The Rev. W. Lyndon Smith, B.A., will preach at the evening service and the Choir will sing Sir John Goss' choral gem "O Saviour of the world" and at the close of the service will give another short recital of Lenten music, including Wesley's "Solomon's Prayer", a quartette of boy soloists singing Gounod's "O Divine Redeemer" and Mendelssohn's motet "Lord, I flee to Thee", for Contralto solo and Chorus.

### St. Matthew Passion

Dr. Ernest MacMillan, under whose direction the Conservatory Choir will perform Bach's St. Matthew Passion in Convocation Hall on the night of April 2, has pointed out to *The Varsity* that for the benefit of University stu-

## BULLETIN BOARD

### TUESDAY, MARCH 26

The last Honour Science party will be held at the Women's Union, 79 St. George St. at 8 p.m. Professor Rogers will speak. The lecture will be followed by dancing and refreshments.

### STUDENT

The March issue of the Student, the official publication of the Student League of Canada, goes on sale today at various points on the campus. Be sure to get your copy.

### MACDONALD-CARTIER CLUB

Today, 1 p.m. Luncheon meeting in Graduates' Dining Room. Hon. R. J. Manion, P.C., M.P., will speak.

### WYMIWOOD MUSICALS

A programme of Brahms works will be given by Geza and Norah de Kresz. Wymilwood, Sunday, 9 p.m.

### ITALIAN-SPANISH CLUB

The final meeting of the Italian-Spanish Club will take place on Tuesday, March 26th at Wymilwood when Miss Elliott will give a talk on Mexico. The annual election of officers will also be held.

### SYMPHONY TICKETS

A limited number of special student tickets for the final concert of the Toronto Symphony Orchestra on Tuesday, 19th March, will be on sale from 12.30 to 1.30 p.m. on Monday and Tuesday, at the Hall Porter's desk in Hart House.

### VIC INFORMAL

Complimentary double tickets will be issued to the men in the College Hall from 9.45 to 10.15 and from 1 to 2, on Monday, Tuesday and Wednesday. You must get your tickets at one of the above times.

dents a radical change has been made in the date of the performance. For the past twelve years the work has been performed in Holy Week; this year, however, because of the lateness of Easter, it will be given a week earlier. It is expected that this will prove of great convenience to the many University students who wish to hear the work.

Arrangements concerning student tickets have also been altered to the advantage of student subscribers. As usual, they are obtainable from faculty representatives, and announcements to this effect will be posted in each faculty on Monday, March 18th. This year, however, they are to be exchanged not at the Conservatory, but at the box office of Hart House Theatre, where the plan for the student section is open from 10 a.m. to 6 p.m. beginning on March 18. Further, student tickets are this year exchangeable for reserved seats; and students are therefore advised to visit the box office at their earliest convenience in order to secure the best of the select gallery section which has been allotted to the student body.

Campbell McInnes will again sing the role of Christus and Hubert Eisdell, that of the Narrator in this the thirteenth annual performance of the work.

### UNIVERSITY C.C.F. CLUB ADOPTS CONSTITUTION

Members of Other Political Parties Barred from Membership

The constitution of the University C.C.F. Club was read and adopted after lengthy discussion at the regular meeting of the club this week. This will be the last meeting of the year.

The object of the club is defined in Article II as "to undertake, in the University of Toronto the work of the Co-operative Commonwealth Federation." Much discussion centred around the adoption of a clause preventing members of political organizations not affiliated with the C.C.F. from becoming members of the University club. The clause was finally adopted.

The annual meeting of the club is to take place the second week in October when new officers will be elected to carry on the work of the club on the campus next term.

### S.C.M. FINAL PARTY

Thursday, March 21st, the Annual Meeting and Final Party of the S.C.M. will be held at the Women's Union, 79 St. George St. All who are interested in the S.C.M.'s activities are invited to come.

### FOLK DANCING

To-morrow evening, March 16th, at eight o'clock, there will be a Folk Dancing Party at O.C.E. Mr. John Madsen will lead. Tickets (25c) may be obtained from the S.C.M. offices or representatives. Running shoes must be worn.

### HART HOUSE CHAPEL

The usual monthly service of Holy Communion will be held in Hart House Chapel on Sunday, March 17th, at 9 a.m.

### WOMEN'S UNDERGRADUATE ASSOCIATION

Elections for W.U.A. and year executives will take place in the Common Room at U.C. on Wednesday, March 20th, from ten until two.

### U.C. PLAYERS' GUILD

It was necessary to postpone the final meeting till Wednesday, March 20th, as there were not enough members present to elect the 1935-36 executive. Please turn out and show some interest in your future leaders.

### VIC SENIOR MEN

Please get your tickets for the Hart House Dance at the same time as the men of the other years.

### B. W. AND F.

The annual meeting will be held in the Debates Room at 5 p.m., Friday, March 22nd. All members of the team are requested to be present and any others interested.

### Football Future Bright

(Continued from Page 1)

This year graduation will take a toll of eight men, seven of which will leave vacancies along the line while Bobby Webber, a valuable plunging half, is the only loss in the backfield. The openings left by such tacklers as Dawson and Hennessy, who have played at flying wing for three seasons, and Keith and Allison, starry outsiders, will leave plenty of opportunity for new material to find its way in to the ranks which every player looks forward to and cherishes at some time in his career. The men who fill these positions will have to play head-up ball at all times to match the performances turned in by the graduating stars.

Perry and Warren, insides of no mean ability and Grady Laing, a star of two senior teams, also join the ranks of past performers on Blue squads and thereby give Steve plenty to think of when the boys trot out on the grid next fall.

The brightest spot in our outlook for 1935 is the possibility of the return of Marks and Connelly to St. Michael's College, where the powers-that-be have definitely decided not to enter senior competition next season. Lew Hayman's champion intermediate intercollegiate crew are expected to contribute their quota to Warren's coming champions while the usual number of unknowns but so-called finds will undoubtedly find their way into senior rugby and their presence will be more than appreciated.

### Famous Personages Visit University and Hart House

(Continued from Page 1)

Professor Stephen Leacock, of McGill University.

Keith Falkner, the well-known singer, Sir Francis Floud.

Dr. L. J. Simpson, Provincial Minister of Education.

John van Druten, the playwright.

M. Caldwell, national secretary of the C.C.F.

Dr. Cyril Alington, Dean of Durham, former headmaster of Eton.

Dame Sybil Thornehill, leading actress of the English stage.

Julian Huxley, the biologist.

The Bishop of Algoma.

Dr. Conrad Hoffman, authority on the situation in Palestine.

These are a few of the many names gathered from the visitor's book in

## A SLEEVELESS PULLOVER for the College Man

This all-wool cable-stitch sleeveless pullover will find favour with University men. Featured in Varsity colours—white with contrasting trim of royal blue at the V-neck, arms and waist. Also obtainable in other attractive colours. You will not only find it useful these changeable days, but it is a sweater that is ideal for outdoor sports wear when the warmer weather arrives.

\$3.25 each

MIEN'S SHOP

EATON'S - COLLEGE STREET

Hart House. One of the most interesting things on the campus, it must be seen to be appreciated, for included in it are the names of most of the greats and near greats from Europe, North and South America, and Asia. Worth thousands in autographs, it is kept under lock and key, and the Varsity feels privileged to have had the opportunity to give it at least a cursory examination.

### New Sorority Scholarships To Be Given Needy Students

(Continued from Page 1)

their previous years, and give proof of their good faith.

Application for the loan must be made out in writing by the student himself, and must be accompanied by a recommendation signed by the dean of his college and by one outside person.

Information regarding payments and other important details may be obtained from the executive of Kappa Chapter, Iota Alpha Pi Sorority, to whom applications must be made out.

### ENGINEERING SOCIETY OEFATS AMENOMENT

The annual meeting of the Engineering Society, held last Monday afternoon, was featured by vigorous discussion on a proposed amendment of the constitution. The present constitution provides for grants of not in excess of \$25.00 to any of the seven affiliated clubs of the society. A motion was proposed by Mr. F. S. McCarthy that this grant be abolished except in the case of the debates society, which is a faculty-wide organization having no independent revenue. A vote on the motion failed to obtain the desired majority.

Bill Lawrason, chairman-elect, addressed the society. The meeting was concluded with motion pictures, starring Charley Chaplin, from the days when the Engineering Building was modern.

### SOCIAL SCIENCE TAKES WOMEN'S SWIM MEET

Social Science copped high honours in the women's interfaculty swimming meet on Wednesday, March 6 at Hart House. U.C. won second position and St. Hilda's rated third place.

The meet was spectacular in more ways than one. Phil Haslam and Marjorie Murphy were the only members of the winning outfit and together they piled up 31 points. Phil won the style, back-stroke, breast-stroke, and tied with Molly Stevens of U.C. for first

## CONFERENCE SITE LAKE COUCHICHING

S. C. M. Meets This Year to Discuss Validity of Christianity

### TRULY REPRESENTATIVE

During the second week of September the Central Area Conference of the Student Christian Movement of Canada is held at the Y.M.C.A. Park on Lake Couchiching. To those who do not know the Park, a word of description may not come amiss. The nearest railway station is Longford, which is 8 miles from Orillia and 90 miles from Toronto, by excellent motor road. The camp is situated on a heavily wooded point of land, jutting out into Lake Couchiching, and almost directly across from Orillia. The lake offers excellent facilities for swimming and canoeing, and the camp itself for tennis, baseball, basketball, folk-dancing, and other recreational activities.

Conference members live in small cottages, each having a stove or fireplace. Meals are served in a large dining hall, students taking shifts at waiting on table. Though the out of doors is utilized to the fullest extent possible, there are facilities for large and small group meetings indoors, if the weather proves unsuitable.

The program of the conference is planned this year to centre around the theme: "The Validity of Christianity for the Modern Student and Present-day Society." A series of morning addresses to be followed by small discussion groups, linked closely with the evening sessions, will endeavour to enquire into the nature of Christianity—what do we mean by Christianity? Is it universally valid? Unique? Applicable to our day and civilization? If so, what should be done about it?

### Miss Jocelyn Moore Cops The Smokes

Another Buckingham limerick contest has come to a close, and the winner has been announced as Miss Jocelyn Moore, 272 Indian Road, Toronto. Her limerick, which completed the one advertised in *The Varsity* until March 9, is as follows:

Once a lad, on advice of his mother,  
Handed out sage advice to his brother,  
Saying, "In re cigarettes,  
Quite the finest of bets  
Are Buckingham—pass me another."
